

# Six Girls Vying for Briscoe County Rodeo Queen

LORI FRANCIS

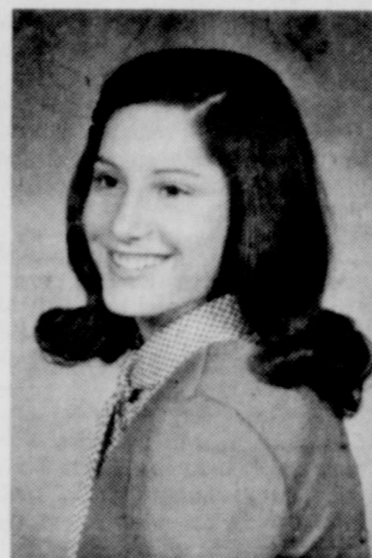

PEGGY KITCHENS

KERRI ARNOLD

LOUISE KITCHENS

SHARON STORIE

REBA CHAPPELL

Six girls are vying for the honor of being selected as 1973 Rodeo Queen. They are Sharon Storie, Lori Francis, Kerri Arnold, Reba Chappell, Peggy Kitchens and Louise Kitchens.

Miss Storie, daughter of Mr. and Mrs. Harold Storie, will be a senior in Silverton High School this fall. She is the 1972 FFA Sweetheart and the 1973 Lions Club Queen, and is representing the Lions in the Rodeo Queen Contest. She has played basketball three years, run track two years, played Powder Puff Football three years, volleyball three years, has been in choir three years, and has served as treasurer and president of the Pep Squad.

The candidate selected by the L. O. A. Junior Study Club is Lori Francis, daughter of Mr. and Mrs. John T. Francis, who will be a senior in Silverton High School this term. She has been elected Most Beautiful Girl, FFA Sweetheart and to Who's Who. She has participated in track, basketball, Powder Puff Football and the Junior play. She is a member of the National Honor Society, Future Business Leaders of America, Future Homemakers and the Pep Squad.

Kerri Arnold is the daughter of Mr. and Mrs. Fred Arnold. She will be a sophomore in SHS this fall. Her freshman year she played basketball, ran track and was a member of the Future Homemakers of America. She is representing the Southwestern Home Demonstration Club in the Rodeo Queen Contest. Swimming and horseback riding are two of Kerri's favorite pastimes.

Representing the Silverton Young Farmers is Reba Chappell, daughter of Mr. and Mrs. G. W. Chappell, who will be a junior in SHS this year. She is Worthy Advisor of the Silverton Rainbow Assembly and has been selected as a cheerleader for 1973-74. She enjoys swimming, track and other sports. She is raising a calf for her hobby.

Peggy Kitchens, daughter of Mr. and Mrs. Ronald Kitchens, was selected as a candidate in the Rodeo Queen Contest by the Silverton Young Homemakers. She will be a sophomore in SHS this year. She is a Past Worthy Advisor of the Silverton Rainbow Girls and is a member of the Snoopy Teens Square Dance Club. She has been a member of the Pep Squad, track and basketball teams in junior high and high school. She was a member of the Future Homemakers and played Powder Puff Football last year. Her hobbies are sewing, sports and rodeos.

A spring graduate of Silverton High School, Louise Kitchens has been nominated for Rodeo Queen by the Silverton Riding Club. She is the daughter of Mr. and Mrs. Ronald Kitchens. Lou has been on the Annual Staff four years and served as editor of the yearbook this year, earning the Journalism award. She has been a member of the Future Homemakers four years, Future Business Leaders of America three years and Pep Squad one year. She was a member of the National Honor Society her junior and senior years and was on the honor roll all four years she was in high school. She was the Junior Rodeo Queen. She played Powder Puff Football, was a member of the Junior play cast, and was a candidate for Halloween Queen. A Past Worthy Advisor of the Silverton Rainbow Assembly, she is a member of the Snoopy Teens Square Dance Club.

# Silverton Putting On Best Face for County's 81st Birthday Celebration

This decorative sign has been added as part of the Silverton Beautification Program by the Century of Progress Study Club. The sign was done by Mrs. Davis of the Cactus Sign Company of Plainview, and total cost of painting and de-

corating the wall was \$447. The study club earned \$416 of this with their Flag Wavers' Page in the local newspaper on the Fourth of July.

(Briscoe County News Photo)

The City of Silverton is putting its best foot forward for the celebration of Briscoe County's 81st Birthday August 9-10-11. Not all the work planned in connection with the City's Beautification Program will be finished today, but enough of it is started that visitors to the city should note a definite improvement.

The vacant area has been cleared and planted for a Pocket Park by the Young Farmers and Young Homemakers.

The new flower boxes are in place on the sidewalks around town, these having been built of fiberglass by Silverton Industries. They were decorated by the March of Time Study Club and Southwestern Home Demonstration Club.

The north side of the building on Highway 86 and the vacant lot adjacent to it have been beautified by Century of Progress Study Club and the Lions Club, who provided the crushed quartz rock. A sign welcoming visitors to Silverton was painted on the building by Mrs. Davis of the Cactus Sign Co. of Plainview at a cost of \$447. The sign was paid for by the study club, who raised \$416 of this amount with their flag wavers' page in the newspaper on the Fourth of July. The home demonstration club raised its money for beautification with a Flea Market.

Jones Department Store had some canopy work done. Briscoe County News and Ray Thompson Implement have beautified their fronts with new awnings, and the John Deere house has been painted green. The John Deere shop has gotten a complete new front and a showroom for mowers and smaller implements. Fogerson Lumber & Supply has received a new coat of green paint also.

Brown Hardware tore down an unsightly metal building that was located behind the store and has plans for repainting the front of the store. Work has been underway on the razing of the old fire hall.

City Tailors and The House of Gifts replaced broken glass in their fronts.

Nance's Food Store painted trim and repainted their sign. Bud's Grocery & Market has been stuccoing and finishing the storage addition to the store.

Silverton Industries also manufactured some fiberglass paneling that is being used to redecorate the Southwestern Public Service Co. building.

## Equalization Board To Meet Monday

The Briscoe County Commissioners' Court will convene at 1:00 p.m. Monday, August 13, and sit as an Equalization Board for Briscoe County. If you have a question or a complaint regarding your county taxes, please meet with the Equalization Board.

Rhonda Sutton underwent an emergency appendectomy at Central Plains Hospital two weeks ago. She had to go back to the hospital last week for further treatment, but is recuperating at the home of her parents, Mr. and Mrs. Jack Sutton, now. She hopes to be able to return to school in Lubbock in two weeks.

## Bicycle Entries Need To Register

Bicycle entries for the parade to be held here Thursday afternoon, August 9, need to register at the Briscoe County News and pick up number.

Cash prizes will be awarded to the three best entries in this division of the parade.

Numbers are to be attached to the riders' right side for viewing by the judges.

The bicycle parade will form on the street south of the Silverton Hotel.

## Mrs. Maggie Jones Buried at Jonestown

Funeral services for Maggie V. Jones, 95, who passed away at her rest home, were conducted at 2:00 p.m. Monday, July 23, in the First Zion Baptist Church near Silverton. Rev. Lee Partridge, pastor of Union Hill Baptist Church of Silverton, officiated. Burial was in the Jonestown Cemetery under the direction of Owens-Brumley Funeral Home.

Mrs. Jones was born March 23, 1878 in Georgia. She had been a resident of Silverton for 29 years. She was an active member of the church.

Survivors include three sons, Fred of Floydada, Glen of Bowie and John S. of Gravette, Arkansas; one sister, Mrs. Ruth Moore of San Diego, California; 14 grandchildren, 29 great-grandchildren and 10 great-great-grandchildren.

## Mrs. Ewing Buried in Quitaque

Funeral services for Mrs. Martha Ewing, 85, of Quitaque, who died at 2:30 p.m. Sunday at the Ewing Home in Plainview, were conducted at 3:00 p.m. Tuesday in the First United Methodist Church in Quitaque.

The Rev. James Holman of Lorton, former pastor, officiated. Burial was in Resthaven Cemetery in the Quitaque Funeral Home.

Mrs. Ewing was born in Hopkins County and moved to Briscoe County with her parents while still an infant. Her father, John Ewing, was one of the organizers of the county.

She married John Ewing in 1910 in Quitaque. He died in 1964.

Mrs. Ewing was a charter member of the First United Methodist Church in Quitaque and had been Sunday School teacher for many years.

Mr. and Mrs. Ewing reared two daughters from early childhood, Mrs. Isabelle Wilson of Marshall and Mrs. Charlie Smith of San Antonio.

Survivors include two brothers, Arthur Gregg of Amarillo and Lee Gregg of Lovington, New Mexico; several nephews and nieces, including Mrs. Marie Boling and Mrs. Ora Isbell of Silverton. Mrs. Ewing was a sister-in-law of Mrs. John Gregg of Silverton.

## Birthday Celebration Barbecue Donors Opens Here Today

Briscoe County's 81st Anniversary Celebration will be kicked off Thursday, August 9 at 3:00 p.m. with a western parade full of floats, riding clubs, queen candidates and bicycles.

Following the parade there will be a free public barbecue at the City Park starting at 4:00 p.m.

Silverton Young Farmers are sponsoring three nightly performances of the rodeo beginning at 8:00 p.m. Stock will be furnished by Halliday Rodeo Company of Williamsburg, New Mexico. Rodeo secretary is Fred Strange.

The largest concrete slab in the southwest will be the scene of the nightly dances, beginning at 9:00 p.m. Young Country from Houston will be playing for the dances. Young Country came to Silverton for the celebration in 1972 and is looking forward to renewing old friendships in West Texas.

As a conclusion to the celebration, a steer roping will be held Sunday, August 12 at 1:00 p.m. Books will open August 8 at 8:00 p.m. and will close at 12:00 noon August 9.

## Lockney Resident Dies In Amarillo

Funeral services for Mrs. Clara Emma Henderson, who died early Tuesday morning in St. Anthony's Hospital in Amarillo after an illness of about two months, are to be conducted at 10:00 a.m. Thursday (today) at the Methodist Church in Lockney.

The Rev. Hugh Daniel, pastor, and the Rev. Allen Forbes, minister at St. John's United Methodist Church in Plainview, will officiate. Burial will be in Plainview Memorial Gardens Cemetery by Carter

Leland Wood, Norman Strange, Johnie Burson, O. R. Stark, Jr., Billy Cogdell, Buck Hardin, Virgil Crow, Weldon Tipton, The House of Gifts, Lenton Lanham, W. E. Schott, Jr., W. H. Steele, Silverton Funeral Home, Johnnie Lanham, Perry and Estelle Thomas, Bood Myers, Mrs. L. A. McJimsey, Mrs. A. L. McMurtry, Archie Castleberry, Shafe Weaver.

Joe McWaters, Floyd Williams, Ray Thompson Imp., Silverton Riding Club, Ziegler & Fleming Well Service, Jim Brooks, Verlin Towe, Wayne McMurtry, Bill Durham, Silverton Oil Co., Lem Weaver, Roy Younger, Bud's Glass, Silverton Butane, J. E. (Doc) Minyard, Silverton Metal Works, Beulah Evans, Hester & Son Gulf, H. A. Cagle, Sid Richards, J. E. Wheelock, John Gill, Jerry Miller, G. W. Lee, Gary

## ATTEND FITZGERALD REUNION

Mr. and Mrs. Wayland Fitzgerald, Mr. and Mrs. Guinn Fitzgerald, Nanette, Suzette, Kimberly and DeLynn, Mr. and Mrs. Bill Durham, Kirk and Lee Ann, Mr. and Mrs. James Henderson and Freeda attended a Fitzgerald reunion in Palo Duro State Park August 4-5.

Wayland had the pleasure of visiting with six of his sisters. In all, 54 relatives and friends enjoyed the reunion.

Over two inches of rain fell in Silverton Tuesday evening, with some hail mostly in the rural area.

Funeral Home of Lockney.

Mrs. Henderson was reared in Silverton and was married to Bailey Henderson April 17, 1921.

She is survived by her husband; two sons, Conrad Henderson and Deane Henderson, Lockney; two daughters, Mrs. Sidney (Oneta) Rogers of Plainview and Mrs. Larry (LaJuan) McCormick, Dumas; two brothers, Rev. Cecil Vaughan of San Angelo and Herschel Vaughan, Hollis, Oklahoma; three sisters, Mrs. Mable Welch, Silverton, Mrs. Irene Vardell, Clovis, New Mexico, and Mrs. Gladys Brannon of Quanah; 12 grandchildren and one great-grandchild.

## Equalization Board To Meet August 16

The Mackenzie Municipal Water Authority will have an equalization meeting here August 16 from 9:00 a.m. until 12:00 noon at the City Hall.

**Spread Of Disease Not Likely To Be Stopped By Controlling Carrier**

Maize dwarf mosaic virus (MDMV) has begun to show up in sorghum fields across the South Plains. Reports are that some producers are trying to control the spread of MDMV by spraying with insecticide to control the disease carrier, the corn leaf aphid, according to area plant pathologist Dr. Robert Berry of the Texas Agricultural Extension Service.

MDMV is a severe sorghum disease occurring throughout the mid-western and southern states, said Berry. Symptoms appear on leaves as a chlorotic mottle of light and dark green areas. Malformed heads, reduction in head size, partial sterility and reddish discoloration of the heads are among late

appearing symptoms. Susceptible plants infected early in the season can fail to head. Red leaf symptom is dependent on cool temperatures for a period and is usually associated with damage.

"Reports that spraying aphids is being used to control the spread of the disease are disturbing," exclaimed Berry. "Aphids do spread MDM virus, but a single aphid could move to a healthy plant and inoculate it with virus in a minute or less. As most producers know, corn leaf aphids feed in the whorl of the plant and no insecticidal application will kill 100% of the population. Nothing is to be gained by trying to control the carrier."

The plant pathologist said the control of MDMV comes from the use of tolerant hybrids.

He explained that the disease remains alive on underground Johnsongrass rhizomes through the winter while aphids overwinter on small grains and winter grasses. New virus infected shoots of Johnsongrass are produced in the spring and the corn leaf and greenbug aphids transmit the virus to newly planted sorghum and corn crops as well as annual grasses.

Said Berry, "Johnsongrass should be controlled by cultural and chemical means to rid the fields of the virus well before sorghum is planted.

"In addition, producers should consider growing tolerant varieties. No hybrids are resistant to MDMV, but many will tolerate the disease, with little or no effect on their yield.

"Producers can obtain information about tolerant varieties from seed companies, the Texas Grain Sorghum Producers Board, their local County Extension Agent and

**PATROL REPORTS SIX BRISCOE WRECKS IN JUNE**

The Texas Highway Patrol investigated six accidents on rural highways in Briscoe County during the month of June, according to Sergeant J. R. Smith, Highway Patrol supervisor of this area. These crashes resulted in one

person killed and one person injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for June, 1973 shows a total of 559 accidents resulting in 27 persons killed and 331 persons injured as compared to June, 1972 with 529 accidents resulting in 20 persons killed and 347 persons injured. This was 30 more accidents, seven more fatalities, and 16 less injured in 1973 at the same period of time.

The 27 traffic deaths for the month of June, 1973 occurred in the following counties: Hale, eight; Swisher, four; Parker, three; Lamb, two; and Briscoe, Deaf Smith, Hutchinson, Ochiltree, Potter, Jack, Montague, Palo Pinto, Stonewall and Wichita counties, one each.

"Aphids should be managed apart from MDMV," Berry added, "since chemical control has no beneficial effect on the disease occurrence.

"I would encourage producers to check with their County Extension Agent for details about the disease."

**Beef Symposium To Be Held Monday Night**

There will be a Beef Cattle Symposium Monday night, August 13, at 7:00 p.m. in the Pioneer Room of the First State Bank in Silverton. This announcement was made today by Briscoe County Agricultural Agent Jimmy Vanstory.

The meeting was set up by the Briscoe County Livestock Subcommittee and will be of interest to all beef cattle producers.

"With the rising prices of feeder and stocker cattle, it becomes more important each day that low death loss and good gains be a primary objective for not only the stocker man but for the cow-calf operator as well," Vanstory said.

On this year's program are Dr.

James Supak, Area Agricultural Extension Service, Lubbock; Dr. Gene C. Area Extension Veterinarian, TAES, Amarillo; Dr. Cal P. Area Beef Cattle Specialist, Texas A&M, Amarillo; and Marvin Sartin, Economist - Management, Lubbock.

Among the topics to be discussed during the symposium are: Futures Market - What It Is, How It Works; New Forage Grasses, Sorghums, and Grains; Beef Cattle Health - Diseases and Grazing Health Problems; and Nutrition and Handling of Incoming Cattle.

There will be an opportunity for producers to ask questions.

Mr. and Mrs. Loyd May and daughter attended a reunion of the Bailey family at the Congress in Plainview over the weekend.

Mr. and Mrs. Buddy Comer and daughter have moved from Lubbock to Anton where he is an assistant coach.

**Dairy Foods Liven A Meal, Say 4-H'ers**

Looking for delectable, refreshing ideas to liven up a tired summer menu? Try dairy foods, say young people involved in the national 4-H dairy foods program.

Nothing is more delicious or nutritious say these 4-H'ers, than a tall, cool ice cream float, lemon custard pie, or a tasty dip for snacking. Or try a main dish meal, like macaroni and cheese to enjoy dairy foods and to help conserve the family budget.

These and scores of other dishes use dairy products, and 4-H'ers in the 4-H dairy foods program, are well experienced in preparing these and other mouth watering delights.

Sponsored by Carnation Company, young people in the program also learn how dairy foods contribute to nutrition. Informing young people and others in the community about nutritious dairy foods and how to prepare different dairy treats are among the activities 4-H'ers perform in the program.

Rich in calcium, protein, riboflavin and relatively low

in calories milk and dairy foods can brighten a meal and do it economically, too.

Pam Stewart, of Florence, Miss., one of the 1972 national winners in the program, discovered that preparing hundreds of dairy foods dishes for her family. Not only are dairy foods economical, says Miss Stewart, but there are so many meal ideas to create.

Carnation Company provides incentive and recognition to young people in the 4-H dairy foods program. Up to four medals of honor are offered to county winners, and an expense-paid trip to National 4-H Congress in Chicago, Nov. 25-29, goes to a winner in each state.

At the national 4-H event, six national winners receive \$700 scholarships from the company.

For more information on the national 4-H dairy foods program arranged by the National 4-H Service Committee, contact the county extension office.

## Tips Given For Freezing Vegetables

Have good, fresh-tasting vegetables next winter by freezing them now, Mrs. Dorothy Powell, County Extension Agent, said.

Almost any vegetable can be frozen, from asparagus to zucchini. And it doesn't take much time or a lot of equipment.

All you really need is a big kettle of hot water for blanching, a wire basket, cold water for cooling and packaging containers.

Despite the simplicity, some people have problems with frozen foods being of poor quality. To resolve this, there are four simple steps essential to excellent quality.

First use young and tender vegetables. Then freeze them immediately. Leaving them in the garden even a day too long can mean the difference between tender and tough condition next winter.

After washing and preparing the vegetables comes blanching—the most important step. This brief plunge into boiling water is the big secret to successful home freezing.

Its whole purpose is to stop the action of enzymes. Needed for the living plant's growth, these enzymes continue to work—even in the freezer—unless stopped by blanching. Their action results in off-flavor, toughness or mushiness and off-colors.

Fortunately, blanching is easy. All that's needed is a gallon of rapidly boiling water in a kettle, about a pint of vegetables and a wire basket. Put the vegetables in the wire basket and plunge them into the water. Cover the kettle and start timing immediately.

Exact timing is important. Too much or too little will hamper the quality. For recommended times on each vegetable, consult a cookbook or freezing manuals are available from your County Extension Office.

The third key to successful freezing is quick cooling. A pan of ice water or even cold running water will do the job. Check a cookbook or freezing manual for exact times. Generally it takes about as long or longer to cool as it does to blanch.

Next, drain the vegetables and pack in airtight containers. Milk, ice cream or cottage cheese cartons can be used only if the vegetables are first sealed in plastic freezer bags.

Then, quickly set the containers in the freezer, making sure it is set at 0° F. or lower to maintain quality.

Follow these four main steps and use recommended blanching and cooling times for better quality vegetables.

Mr. and Mrs. Leonard Curtis of Bakersfield, California, Mrs. Pat Curtis of Fort Worth and Mrs. Glenn McWilliams visited Mrs. Estelle Davidson in Quitaque Friday.

## To Marry In September

Patricia Gail Watkins and Benjamin David Shoemaker will exchange wedding vows September 15 in San Jacinto Baptist Church in Amarillo. The announcement is made by her parents, Mr. and Mrs. Melvin J. Watkins of Amarillo.

The bride-elect is the granddaughter of Mrs. Ollie McMinn of Silverton.

Rev. and Mrs. B. T. Shoemaker of Spearman are parents of the prospective bridegroom.

The bride-elect is a graduate of Amarillo College. Her fiance also attended Amarillo College.

## Montague Reunion Held In Amarillo

The Montague reunion was held August 3-4 at the Boat and Ski Clubhouse in Amarillo.

Those attending from Silverton were Mr. and Mrs. Earl Cantwell, Mr. and Mrs. Wayland Fitzgerald, Mr. and Mrs. James Henderson and Freeda, Mr. and Mrs. Joe Montague and Quinn, Mr. and Mrs. Elton Cantwell, Debbie, Mary Chris, Brenda and Roger, Mr. and Mrs. Gunin Fitzgerald, Nanette, Suzette, Kimberly and DeLynn, Mr. and Mrs. Bill Durham, Kirk and Lee Ann, Mrs. Datis Martin, Mrs. Bill Rappy, Mr. and Mrs. Printz Brown, Mr. and Mrs. Don Brown, Liz, Missy and Cathy, Mr. and Mrs. Roy Montague and Rhett Montague.

Sixty-nine relatives and friends were present. Mr. and Mrs. Don Brown and Mr. and Mrs. Bill Durham were appointed to be in charge of the 1974 reunion.

Among those enjoying water sports at Greenbelt Lake over the weekend were Mr. and Mrs. Dyrle Maples, Steve, Julie and Michael, Dimmitt; Mr. and Mrs. David Tipton, Susie and Dwain, Mr. and Mrs. Flute Hutsell, Mark and Colleen, Mr. and Mrs. Harold Storie, Sharon, Gary and Debbie, Dean Ziegler, Mr. and Mrs. H. B. Simpson, Mitchell and Russell, Mr. and Mrs. L. B. Garvin, jr., Lane and Danna, Mr. and Mrs. Don Burson, Tom, John and Bryan, Nicky Long, Mr. and Mrs. Charles Sarchet and Ken, Mr. and Mrs. Wayne McMurtry, Ty, Lee Ann and Kelly.

Mr. and Mrs. Troy Jones were in Lubbock Friday when Marge's mother underwent surgery to relieve pressure on a nerve which had been causing paralysis since she was injured in an auto accident. Mrs. Ward was moved to Methodist Hospital from the Lamesa hospital and had been in intensive care prior to the surgery. She came through the surgery well but has continued to be in critical condition this week. Her family has been at her bedside almost constantly.

Mrs. Ollie McMinn recently attended the wedding of Miss Janet Mae Gunn and Terry Shelton at the San Jacinto Baptist Church in Amarillo. Melanie Watkins of Amarillo was a candle lighter. Gail and Anita Watkins assisted with the reception. The Watkins girls are Mrs. McMinn's granddaughters.

# Fate of Last Railroad Tunnel in Texas Still Undecided

Burlington Northern Railroad officials are still trying to determine the fate of the last railroad tunnel in Texas, located about seven miles southwest of Quitaque, where at least 13 cars of a Fort Worth & Denver freight train jumped the tracks causing extensive damage to the tunnel.

The 95-car train was reported to be carrying milo, wheat and cotton, and was bound for Childress and then to the Seattle, Washington area.

The engine and about 50 cars had passed through the tunnel when the thirteen cars started jumping the track. Around 20 cars and the caboose remained outside the tunnel on the other end of the train. There were no injuries in the derailment.

James May, Burlington employe in Quitaque, said that apparently the cars first hit the guard rails inside the tunnel and then went into the support beams. It is believed that around 100 feet of the tunnel's wooden supports were knocked down, permitting dirt and rocks to cave in onto the train.

Railroad spokesmen say that they would like to save the last railroad tunnel in Texas if possible but it is too early to determine if that will be feasible. The damage may be so severe that it will be necessary to sacrifice the tunnel and make an excavation in its place.

The derailment is going to be quite expensive, regardless of the outcome. Officials estimated that the repairs will probably cost in excess of a million dollars. Damage to the train itself and the cargo will be high, although only two or three cars in the derailment were cargo.

The tunnel was built in 1928 at a reported cost of \$100,728. There was another tunnel built at the same time just about a mile away from this one but it was dismantled five years ago when a

similar accident took place. The tunnels were dug through the Caprock in some of the most scenic area in this part of the country. Old timers here who were around when the branch line was opened well remember the celebration and ceremony sponsored by the company.

### ERA OF "CHEAP FOOD" APPEARS GONE FOR FUTURE

Whether we like it or not, all signs point to a continuation of food prices at present levels or increasing levels in the months ahead. The era of "cheap food" apparently is gone for the foreseeable future.

In the meantime, there are several things consumers can do to assist themselves in getting the most for their food dollars. Texas Department of Agriculture home economists recommend the following:

1. Do not resort to panic buying. Revert to your normal buying habits. Food supplies are plentiful. One of the biggest problems now is that consumers are rushing out and buying everything in sight. Hoarding only aggravates the situation. The law of supply and demand is working in relation to food supplies. Right now, demand is outstripping supplies. As a result, prices are continuing to increase.

2. Shop around; look for the best bargains. Read the grocery advertisements carefully in the newspaper. Compare prices and values. Make out your shopping list in advance, giving top priority to basic needs. Get the best price possible by comparison pricing in the newspaper advertisements; then decide what you can spend for luxury items.

3. Use the cost per serving comparison rather than the cost per pound. Determine which is the best buy. Boneless meat which is

Marvin Reynolds has done much for the Silverton Beautification Program by improving the grounds of the Briscoe County Courthouse. Mr. Reynolds, shown here killing the stump of one of the old trees that have been removed from the yard, has also made striking improvements inside the Courthouse. (Briscoe County News Photo)

all edible is certainly a better buy if prices per serving are considered.

4. Get a copy of the Texas Department of Agriculture's bulletin, "Save on Your Beef Dollars." Information in the bulletin will explain to you what "grade" means, what "yield" means, and how to choose bargain beef. Write

to John C. White, Commissioner, Texas Department of Agriculture, P. O. Box 12847, Austin, Texas 78711.

Rita Brown returned home to New York City last week after spending a week of her vacation here with her parents, Mr. and Mrs. Arnold Brown, other relatives and friends.

The seven seas are the North Atlantic, South Atlantic, North Pacific, South Pacific, Arctic, Antarctic and Indian Oceans.

1/4 cup sour cream  
seasonings to taste  
2 jars, 7 oz. each, whole pimientos, drained

Toss together first seven ingredients. Chill. Blend together mayonnaise and sour cream, season to taste. Extra curry powder may be used, or a few tablespoons of finely chopped chutney. For a milder flavor, lemon juice, salt, pepper, and a pinch of basil or marjoram will work nicely. Combine salad mixture and creamy dressing. To stuff, cup pod in your palm and pack salad mixture into it. Chill until ready to serve, about three hours. Eight servings.

**NEW FARM BILL HAS BEEN "WATERED DOWN" BY SENATE-HOUSE COMMITTEE**

Texas Farmers Union President Naman of Waco told a farm audience at Haskell Monday night in spite of all the work that farmers Union had done to pass a good farm bill, the new farm program was so "watered down" by action of the Senate-House conference committee that Farmers Union opposed the conference report and called on members of the house to reject it.

"We hope that President Nixon will veto the new farm bill because it is inadequate in terms of price assurances to farmers and lacks the capability of providing an incentive to encourage farmers and ranchers to produce food and fiber supplies in abundance," Naman said.

Farmers Union was originally on record in support of the target concept in the new farm bill, but concessions to the Administration to avoid a veto have weakened the proposal to the point to where it

lost Farmers Union's support and has been rejected by other farm groups that traditionally support federal farm programs.

Naman told those attending the county Farmers Union meeting which was held in the Community Room of a Haskell bank that Farmers Union opposed the program for three major reasons: "The target prices in the program are inadequate to assure farmers a fair return on their investment. The escalator clause which we considered the heart and soul of the new program has been eliminated for the first two years. The conference report includes a 'de-escalator clause' that was in the House version and insisted upon by Secretary Butz. This clause penalizes farmers for efficiency by setting up a device that will provide a loophole for the Administration to take away any increases in target prices that might be warranted as the cost of production goes up. This efficiency of yield adjustment factor is a phony scheme that is being used against farmers at the insistence of Secretary Butz to assure that target prices will not

go up even though farmers' costs go up," the statewide farm leader said.

Naman said that the new farm bill compromises the farmers' position and will fail to serve the interests of either the producer or the consumer.

"The Administration sought to dismantle the farm programs with a 'phase-out' proposal. It has now achieved somewhat the same results in the form of a watered-

down, ineffectual farm program. For this reason, I doubt if President Nixon will veto it," the farm organization leader said.

**GOVERNOR BRISCOE ANNOUNCES EOE GRANT**

Governor Dolph Briscoe announced Friday approval of a \$6,232 Office of Economic Opportunity grant to Aspermont Small Business Development Center, Inc. for providing economic development assistance to 17 rural counties.

Funded under Title II of the Economic Opportunity Act, the grant is effective October 1, 1973 through November 30, 1973.

Governor Briscoe said the grant will enable the agency to provide economic development assistance to small business projects in 17 rural counties. Counties included are Donley, Briscoe, Hall, Childress, Motley, Cottle, Foard, Hardeman, Wilbarger, Knox, King, Haskell, Jones, Fisher, Kent Dickens

**17th ANNUAL FIELD DAY SCHEDULED SEPTEMBER 13**

The importance of water conservation will be spotlighted during the 17th Annual Field Day September 13 at High Plains Research Foundation at Halfway. Reduced rainfall and the increase in the number of irrigated acres due to the new farm program makes this topic even more important this year.

Jim Valliant, research director and specialist in soil and water conservation, will describe methods of stretching existing water supplies through total utilization and methods of water harvesting at the one field tour stop.

In past years, the field tours have stopped at several points for discussion of research activities and results on several High Plains Research Foundation programs. This year, the water conservation program at the Foundation's multipurpose well will be the only stop.

Foundation scientists will serve as tour guides aboard the trailer trucks to point out research plots of interest and answer questions. The tours will be about one hour in length.

J. Joe Wright, associate agronomist in charge of variety tests and small grain crops, will present short programs on small grains and triticale throughout the afternoon.

Jack Cloude, public relations director, reports that the equipment exhibit is shaping up to be larger than last year's. "We had tremendous initial response. But we have plenty of spaces left. Anyone wanting to reserve exhibit spaces can contact me here at the Foundation," he said.

More Field Day activities are being planned, Cloude noted. "We are lining up door prizes and other activities at the present time," he said.

**Youths Learn, Earn in 4-H Swine Program**

Young hog producers are looking at a better than average year. While production costs are up, pork prices are favorable. And the youths are eligible for scholarships, trips and other recognition awards through the national 4-H swine program.

Sponsored by Moorman Mfg. Co., boys and girls enrolled in the program get broad practical experiences in the business of hog production. Breeding, feeding, marketing and disease prevention are just some of the things stressed in the program, supervised by the Cooperative Extension Service.

Aiding these 4-H producers with recognition and incentives is Moorman Mfg. Co., donor of awards in the program. Up to four medals

of honor are offered to outstanding 4-H'ers in the program in each county. Each state winner in the 4-H swine program receives an expense-paid trip to the 52nd National 4-H Congress in Chicago, Nov. 25-29. At that event, six national winners are to be announced and awarded \$700 educational scholarships courtesy of the donor.

In addition to first hand experience and perhaps an award, the 4-H swine growers accomplish some noteworthy results. A 1972 national winner from Colorado built from scratch one of the finest Duroc herds in the state. Craig Saxton, of Yuma, provided both the labor and management for his prize winning Duroc operation. He

also has entered his herd in the state swine testing program with the hopes of improving efficiency and desired pork quality.

Girls, too, like to work with swine projects. And one who didn't even live on a farm, but managed to raise grand champion hogs in state competition is Vickie Smith, of Lusk, Wyo.

She admits that it wasn't easy to find a place to keep her animals nor to commute from home to care for them. Her successes in meeting the challenges paid off with a \$700 scholarship and a national winner designation.

Information on the 4-H swine program and how to participate can be obtained from the county extension office.

and Stonewall. Projects in other counties are assisted upon request by the Small Business Administration in Lubbock.

Specific assistance provided through the program includes organization of industrial foundations and community development corporations, provision of information on various federal programs, and assistance in completing small business loan applications, Governor Briscoe said.

Grant processing for the state was performed by the Texas Office of Economic Opportunity, a division of the Texas Department of Community Affairs.

Visitors in the home of Mr. and Mrs. Dick Garvin Sunday, August 4 were Mr. and Mrs. W. A. Gar-

**MINIMUM TILLAGE SAVES ON FUEL**

High Plains farmers using the minimum tillage system recommended by High Plains Research Foundation scientists have realized an extra benefit this summer—a savings on fuel.

Jim Valliant, High Plains Research Foundation research director, has long pointed out that one

vin and Lynda, Amarillo; Mr. and Mrs. David Slatturguy and Stan, Lubbock; Mr. and Mrs. Ralph Garvin, Robert Lee; Mr. and Mrs. Le-voice Blassingame, Larry and Lynn, San Angelo; Mr. and Mrs. Ben O. King, Mr. and Mrs. Dee Garvin, Mr. and Mrs. L. B. Garvin, jr. and Danna, Mr. and Mrs. Billy Wayne Garvin and Dara.

savings opportunity in minimum tillage has been the money spent on fuel. "But this one savings fact has seemed insignificant until this energy crisis situation," he noted.

A USDA report from the University of Nebraska recently revealed that farmers using a minimum tillage program similar to the one recommended by High Plains Research Foundation reduced tillage, planting and harvesting energy requirements by half.

They reported that conventional tillage methods required 66.6 horse power hours per acre while minimum tillage required only 30.7. Even a reduced tillage practice that included an extra disking after stalk shredding reduced the total horse power hours per acre to 37.3.

## Sallie Mae to Assist Higher Education

Higher education in Texas received a boost Tuesday with the announcement in Dallas of a proposed offering of common stock of the Student Loan Marketing Association ("Sallie Mae"). Sallie Mae is a government-sponsored private corporation created to help channel additional funds into the student loan market.

A cooperative effort between the Federal Government and private enterprise in the field of post-secondary education, Sallie Mae was formed to assist lenders in making educational loans available to a broad spectrum of students throughout the United States.

Sallie Mae is expected to be in operation in time to provide liquidity assistance this year, according to Edward A. Fox, president and chief executive officer of Sallie Mae.

Created by the 1972 Amendments to the Higher Education Act of 1965, Sallie Mae will add support to the Guaranteed Student Loan Program (GSLP), which is a program of insurance by the U. S. Government and by States and non-profit private agencies. It is estimated by the Office of Education of HEW that approximately \$4.5 billion of insured student loans are currently outstanding.

From 1966 to 1972, Texas banks have loaned more than \$92.5 million to eligible students under the Guaranteed Student Loan Program. This represents slightly more than

2.6% of the national total. Nearly 94% of the guaranteed student loans outstanding in Texas, as of June 30, 1972, are guaranteed directly by the Federal Government.

Three-fourths of student loans in Texas granted under the Government's Guaranteed Student Loan Program, during the fiscal years 1966 to 1972, have gone to students of families with adjusted annual incomes under \$6,000. Approximately 55% of these loans have been granted to male students and 45% to female students.

Since the inception of the Guaranteed Student Loan Program in 1965, the number and amount of student loans have shown steady growth. However, the volume of student loans has decreased in recent months due to factors which are hoped to be temporary. From approximately 48,000 loans made in fiscal 1966, aggregating over \$77 million in principal amount, figures increased to a total of over 1,250,000 loans made in fiscal 1972, aggregating over \$1.3 billion in principal amount.

From the beginning, however, the GSLP has been hampered by the problem of liquidity since there has not been any secondary market for student loans. Moreover, loan repayments often are deferred for relatively long and uncertain periods of time. Repayment of the loans does not commence until 9 to 12 months

after completion of education or can be suspended by service in the Military, the Peace Corps or Vista.

Fox pointed out that the concept of a government-sponsored, profit oriented privately capitalized corporation in an area of social concern is not unique. The Federal National Mortgage Association, (Fannie Mae) utilizes private capital in response to our national housing needs and the Communications Satellite Corporation (Comsat) was specifically created in this way in the area of space communications.

"With the recent downturn in the volume of student loans partially attributable to higher interest rates, current money markets and financial institution liquidity problems, it is hoped that Sallie Mae can make a significant contribution," he added.

The Guaranteed Student Loan Program is part of an overall government program of educational funding. Under the GSLP students may borrow up to \$2,500 per academic year, with a maximum total of \$10,000 extending through graduate study. A student may enroll in any of a variety of post-secondary educational institutions including vocational and trade schools. It is estimated that at this time there are approximately 7,000 eligible post-secondary educational institutions, of which approximately 4,000 are colleges and universities.

ASTROWORLD is a multimillion dollar family entertainment center located in Houston, Texas, due south of the Astrodome. Americana Square (in the foreground) is the

first of ten separate "worlds", packed with over 100 rides, attractions, and shows. The 65 acre Park is part of Astrodomain, the greatest complex of family enjoyment.

### Lubbock Recruiters Sign Female For MP

Shelia Ann Payne, 23, has enlisted in the U. S. Army and will serve in the military police program. According to officials of the Army recruiting office in Lubbock, Miss Payne is the first woman to receive such assignment in the Lubbock recruiting area.

She was sworn into the service and after a few days at home departed July 16 for her first eight weeks of training.

Miss Payne, a graduate of West Texas State in Canyon and the daughter of Mr. and Mrs. Ray

Payne of Quitaque, will be entering the service with the rank of E3, and after four months probably will move to the rank of E4.

Her enlistment time is three years, with the first eight weeks assignment to be in Fort McClellan, Alabama, and then to Fort Gordon, Georgia, where all military police of the U. S. Army are trained.

Working with the military police in the Army is Miss Payne's own decision. She is seeking a career in law enforcement since she al-

ready has received her bachelor of arts degree from WTSU she may apply for officer's candidate school at any time, or she may seek a direct commission.

There are about 20 women in the military police force of the U. S. Army today, according to Lubbock recruiting Sgt. Jim Edmondson.

Miss Payne is one of an estimated five women in the U. S. at this time seeking work with the military police.

"We are especially proud of Miss Payne," said Sgt. Edmondson. "On the Armed Forces Women's Qualification Tests, which women

rarely pass the first time, Miss Payne scored a 90. All that is required by women on the score is 59. Men only have to score 31. With her education Shelia will go far in the service."

Currently, Miss Payne is employed in the Lubbock County tax assessor-collector's office.

"She'll be riding around in patrol cars, taking gate guard, doing criminal investigation, and will have available to her the option of selecting the exact MP battalion in the entire U. S. that she would like to serve in," said Sgt. Edmondson. "But she will not pull all night duty somewhere by herself."

"Yes, I have always wanted a

career in law enforcement, but not to be a meter maid, or sit at a desk. I like to work with people and get out into the public. I am really excited about starting this job and getting into the field," she said.

"One thing that really interests me is that the Army will pay 100% of my expenses while attending night classes at a nearby university should I continue studies in law enforcement. They, the Army, are in as much favor of continuing my education as I am," Miss Payne continued.

Miss Payne will not be the only woman assigned to a single battalion. She will be with at least one other woman, but when she

is out on patrol she will be working with men.

Should Miss Payne marry while in the service she will be entitled to an increase in her salary, what the service calls a housing allowance, the same as a male.

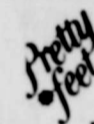

"Within the next year and a half," Sgt. Edmondson said, "the Army plans to double their Women's Army Corps."

#### GETS UP EARLY

The one thing that discourages women from joining the service, said Sgt. Edmondson, is that at first they are required to work from 5 a.m. to 5 p.m.

"They usually don't like getting up that early," he said. Miss Payne will be taught self-

defense, how to work with guns and the different training requirements that law enforcement officers are expected to know. She will know how to disarm a potential assailant.

**PAINT . . . Protects wood and metal  
GOD'S WORD . . . Protects the soul**

As paint protects wood and metal from decay, rust, and corrosion, so the promises found in God's word protect the soul from the evils of sin, anxiety and despair. Hear God's wonderful promises proclaimed from the pulpit in the church of your choice this Sunday. These promises so heard will accomplish wonderful things in your soul and heart, for God says of His Word, "It shall not return unto me void, but it shall accomplish that which I please, and it shall prosper in the thing whereto I sent it." Isaiah 55:11.
