### Industrial Committee **To Meet Monday**

There will be an important meeting of the Industrial Committee at 8:00 p.m. Monday in the Pioneer Room of the First State Bank. Both men and women are invited to this organizational meeting. Officers will be elected.

The charter has arrived, and a good representation of people is needed. If you are interested in the future of Silverton, please attend.

## **Cotton Information** To Be Presented At **Producers Meeting**

An excellent crop can turn into trailer loads of headaches if proling, says Jimmy Vanstory, County Extension Agent.

Growers might be able to save themselves hundreds or even thousands of dollars by taking advantage of information to be offered at a meeting for producers and area citizens at Losson's Restaurant in Kress, Texas, October 1 at 9:00

Designed to update producers on facts about harvest-aid chemicals, cotton harvesting and field storage, the meeting is being sponsored by the South Plains Development Program and the Texas Agricultural Extension Service.

Specialists with the Extension Service based at Lubbock will present facts on the use of harvest-aid chemicals, equipment systems for harvesting, and field storage systems, with specific information on labor, time and cost comparisons.

They are Roy Childers, area agricultural engineer-cotton mechanization, and Robert B. Metzer, area agronomist-cotton.

SPD is a volunteer organization composed of citizens interested in the South Plains.

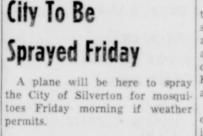

This is to be a two-county meeting, for Swisher and Briscoe counties, and we hope that producers will turn out, says Vanstory

# FOR TODAY AND TOMORROW

A Natural Energy Home uses natural gas for heating, cooling, water heating, cooking and clothes drying to save you money and help conserve our cleanest natural energy resource . . . natural gas.

That's because electricity in West Texas is generated by burning natural gas, and in the process of generating and transmitting electricity to your home, 2/3 of the gas energy is lost.

So, by using gas directly in the home for the jobs it can do, you're helping to conserve it and you're getting more energy for your money.

PIONEER NATURAL GAS COMPANY

more than 20,000 members, are sponsored by the Texas Agricultural Extension Service, the Texas A&M University System and the U. S. Department of Agriculture cooperating.

Clubs are part of the Extension educational effort to bring the latest information on homemaking to all families in Texas.

Mrs. Vaughn and Mrs. Cantwell travelled to Waco by chartered bus with approximately 60 ladies representing District 2.
