THE NEWS AND THE VOTERS.

The Dallas News doesn't like to accept the result of the recent amendments election. It says it was an inarticulate noise. The fact is there was not much noise about it. The people, who care to vote had studied the propositions and they didn't like them and they quietly said so.

The News says: "Doubtless it will be protested by those who voted on the winning side that the vote, however small, is nevertheless typical; that, in other words, the result would have been the same had every qualified voter cast his ballot. Perhaps so; but not certainly."

Maybe so, but that is our American way of finding out what the people want. A man who refuses to vote is not to be counted for either side; but there are two reasons for belief that if every qualified voter had cast his ballot, the majority would have been even greater. These two points are that the vote was lighter in the country boxes and the opposition was relatively stronger.

The News says: "The people seem to have been in a decidedly negative, not to say a perverse and forbidding mood, which may be charitably attributed, in part, to the weather. Military battles have been decided by meteorological vagaries and may it not be thought

that they have some power also to influence a battle of ballots? At all events, every proposal submitted to the people last Saturday was vetoed, whether a State or a local proposition."

The people were not peevish. They seemed perfectly sane. They would probably have voted for some of the propositions but they resented the legislative act of sugar coating measures they believed to be poison, and trying to get the people to swallow the whole thing. People are shy about changing their constitution, and they ought to be.

The News seems surprised that the two meritorious amendments should go down in the bunch. The News knows that the bond amendment was the paramount question and this was so distasteful that many voters felt the best way was to scratch them all.

A man of family killed a 17-year old boy at Dallas. His defense was "the unwritten law." The jury convicted this man of family of manslaughter and gave him five years in the penitentiary. Comment is not necessary.—Fort Worth Record.

The woman in the case—the wife of the slayer—is the mother of three children. The jury evidently had inside facts enough to justify a belief that there was some other motive.

Eight Cleveland experts have succeeded in assembling an entire automobile in two and a half minutes; but it takes an inexperienced joy rider only a second to scramble one.—Big Springs Herald.

And generally scrambles himself and two or three others in the mess.

Our good friend W. T. Coleman, said to the Signal man, "I don't want to puff you up, but I want to tell you, as I have told my wife, the Snyder Signal is by long odds a better county paper than the weeklies published in the small cities in central and north Texas."

A Lockhart paper suggests one of its townsmen, James L. Stacy, for Governor. Brownwood and Comanche are grooming Will Mayes. Certain hotel politicians are said to be backing W. A. Hanger, and W. P. Lane is running himself.

Why Bond Measures Lose Out.

There was some surprise expressed last week when Tarrant County voters defeated a proposed road bond issue of \$200,000 in that county, but it is explained in a local paper published in Fort Worth which says that there have been so many cases of alleged graft there in handling improvement contracts and using public funds that the people were not disposed to vote any more money to be gobbled up by officials and contractors. Fort Worth is finding out, just as Austin is learning, that Texas people are doing their own reading, that they know a few things and have the courage to say what they want.

It develops that Jake Wolters fell out with Gov. Colquitt for talking about him, and for that reason resigned the empty honor of member of the Governor's staff. If there had been some pay attached the Col. might not have been so sensitive. It was told to the Colonel that Colquitt had said that a lot of hotel politicians like Wolters and Ousley couldn't put Bill Hanger on the people of Texas for governor. We don't know whether Colquitt said it, or not, but he could say it, and several thousand good citizens of Texas would believe it.

Congressmen who are accused of playing into the hands of David Lamar the prince of unscrupulous lobbyists, now want to have the fellow prosecuted for impersonating certain manufacturers in their efforts to get protection. Probably they see now that Lamar couldn't have delivered the goods.

With the samples of maize, millet Colorado grass, Sudan grass and other provender on exhibition about town it looks like we are going to gather a feed crop this year, and when we see great fields of fine maize almost ready to cut we feel a buoyance of hope in our souls.

The Signal reports local happenings as they are told about by reliable people and has no desire to misrepresent any fact or to cast reflection on people or the institutions in which they may be interested. Unpleasant things sometimes occur and it becomes the unpleasant duty of a newspaper to tell it.

DREAMLAND

At Baltimore, Md., last week a new treatment for cerebro-spinal meningitis as been tried with marked success. The cure was effected by the injection of carbolic acid into the muscle. This treatment has been used before for tetanus and its success in meningitis while not old enough to be finally confirmed may mean an entire change of methods in the cure of spinal troubles.—Exchange.

Carbolic acid will put a stop to all your ills if you use enough of it in an effective way.

Critics of the "bookish curriculum" are apt to go to extremes. That is one trouble about reforms. Books are a necessity in school life. Scientific education must be systematic and then under direction of competent teachers, backed up by intelligent home training and the book lessons may be put into actual practical demonstration so as to insure a well rounded independent citizenship.

The threatened strike of 80,000 conductors and trainmen of 45 eastern roads for higher wages and improved working conditions will not be called. Articles of agreement to arbitrate, under the Newland act, the questions at issue have been signed by the employes' representatives and the conference committee of railroad managers.

The Mexico question at Washington is now mixing up on intervention, as suggested by hot heads, recognition as urged by Ambassador Wilson, while the President is not willing to recognize a government of usurpation, bathed in blood of assassination and will advise abdication by Huerta and will probably call for the resignation of Henry Lane Wilson.

It is said that Gov. Sulzer of New York has been sued by a woman for breach of promise. He says it is a framed up charge by Pat Murphy for political effect. Whenever a married man goes to flirting with other women it is good enough for him to be exposed.

The legislature seems to have reached a conclusion that the penitentiary management in Texas has been a failure and the senate very rightly hesitates about confirming the Governor's appointment of the same old hoard of managers. From reports we get of deficits down there it looks like the thing is far from a success.

Governor Colquitt announces that work has commenced by the penitentiary system for the construction of a railroad line from Ramsey farm to a connection with the International and Great Northern. The length of the line will be six miles and will facilitate the handling of the state's cane products to the sugar mill, emanating from the Ramsey farm.—News Special.

How about the uselessness of Campbell's State road?

Prices of oil went up very soon after the half million dollar fine was paid by the Standard people.

The Houston Chronicle is about to dig up proof that the penitentiary managers have been playing into the hands of the sugar trust. The same paper is about to find out that a very large per cent of the State farm cotton has been stolen every year. No wonder the system has been losing money.

A Bridge Needed.

Every public road in Scurry county ought to be put in tiptop condition before the cotton crop begins to move. It is a pleasure for farmers to come to town over good roads. There is being considerable work done on the road to Ennis creek, but there is a lot of it yet to be done. There is one place near the Woodard school house that ought to have a bridge. The branch is narrow and deep and the hills are steep. A short bridge there with a good lot of grading up would be appreciated by those people. The Signal has been assured that some of the citizens over there are willing to help do the work if the county will furnish the lumber and some of the carpenters.

R. W. Myers dropped in on the Signal Monday and had his date moved up notch and paid to have the Signal sent to a friend.

Meeting at Bells.

Rev. W. H. H. King closed a meeting at Bells school house last Sunday. While there were no public conversions, the Christian people were spiritually revived and a deep impression was manifested upon the unconverted.

Mr. J. T. Sanders of Route 2 paid the Signal a visit Monday and had his date moved up a year ahead. Bro. Sanders has been here seven years and has made three pretty fair crops and his prospect this year is better than any since 1906. He helped gather the 1906 crop and picked in cotton that made a bale to the acre.

Mrs. C. S. Perkins, Jr., has returned from a visit of several weeks with her parents at Pine Bluff Arkansas. She is accompanied home by her mother Mrs. J. A. Clement and her brother, J. W. Clement.

A War Song.

But little you good people know,
What we poor soldiers undergo,
When called upon to take up arms,
To guard our country from all harm.

At the break of day the morning gun,
The reveille, the fife and drum—
It breaks a soldier's sweet repose,
He rouses up, puts on his clothes.

Our orderly, he goes about—
Its hurry boys, hurry, turn out.
From front to rear he forms his line,
Accoutrements and sword doshine
The file right, file left, as steady as
word,
And then our captain draws his
sword;
Our orderly takes out his roll;
Our names are called, the absents
told.

As to grub, we got enough;
Although our beef is lean and
tough
But as to that we'll not complain,
We'll hope to draw good beef a-
gain.

Our surgeon, he's a man of skill,
Every day he gives a pill,
And if that pill, it don't act, well
He'll curse and send our souls to

Our officers are bad, bad officers
they are;
Wear out their men for want of
care,
They bring them to a desperate land,
And bury them in distant strand,

There's no friend, nor relative dear,
To shed a sympathizing tear;
To nurse them on a dying bed,
Or, bury them when they are dead.

If you want to know who composed
this song,
I will tell you now it want take
long;
It was composed by A. T. Hife,
While walking post one rainy
night.
W. A. Brownfield,
Route No. 4, Snyder, Texas.

Scratching for Fun.

We would have great sympathy
for those who have to scratch con-
tinually, if there wasn't a remedy for
the trouble, but as Hunt's Cure is
Guaranteed to cure or money refund-
ed, it would seem that those who
scratch do so just for the fun of it.
It's a special remedy for Itch, Ecz-
zema, tetter, ringworm, etc. 7-5t

Resolution.

Whereas Dr. Harlan and family
have removed from our community,
we the members of the Adelpian
Class of the First Christian Church
hereby express our appreciation of
their faithful service in every depart-
ment of our church and Bible school
work, and commend them to the peo-
ple among whom they have decided
to cast their lot. Our loss will be
their gain. May success and prosper-
ity attend them wherever they may
go.

We wish especially to thank sister
Harlan for her faithfulness as church
organist.

—COMMITTEE.

Masonic Notice.

Saturday night, August 2, is the
regular meeting of the Royal Arch
Chapter, and all the members are re-
quested to be present. Visitors are
cordially invited.

E. B. Barnes H. P.

J. J. Head and T. J. Furler two of
Scurry county's solid young farmers
paid the Signal a friendly call Tues-
day. Mr. Head and family were here
to board the evening train for a vis-
it to relatives at Goldthwaite.

IMPORTANT ERA IN ROAD BUILDING

Mr. and Mrs. E. J. Anderson, O. P. Thrane, of Snyder, R. . . Elmore, Secretary of the Chamber of Commerce at Sweetwater, and Dr. S. M. Johnson, of Roswell, N. M. left here last week to go over the proposed route of the Southern National Highway from Sweetwater to Roswell.

They returned early this week and express a well grounded hope that the great thoroughfare will be estab-
lished through Snyder.

This route will extend from Wash-
ington City, through Virginia, North
Carolina, Tennessee Mississippi, Ark-
ansas and will enter Texas at Tex-
arkana, thence across Texas to Ros-
well, New Mexico and will be the
main automobile route to the Pana-
ma exposition at San Francisco in
1915. Thousands of people will travel
this route and every town along the
way will get benefits from the traf-
fic. The logging party found the trip

delightful and found that the route
can be made acceptable at no exorbitant
expense.

An enthusiastic meeting was held
here Tuesday to discuss the matter.

Mr. Anderson gave a clear state-
ment of what is expected of us, say-
ing that the route from here east is
already in fair condition, but the
road from Snyder to Gail is the worst
they found in the entire 1400 mile
trip. The meeting believed that this
road should be put in first class con-
dition for local reasons if for noth-
ing else. The farmers out that way
need a good road to Snyder, and this
stretch of road must be fixed.

A committee consisting of Thrane
Towle, F. J. Grayum, Dr. Johnson,
Wilmet and Couch, with Anderson
as chairman, were appointed to con-
fer with Commissioner Brown to see
what could be done toward making a
good road to the Borden County line
then steps may be taken to raise
funds to continue the work.

Besides the efforts tow-
arding the great trans-
continental highway, there is work being
done to get other roads opened to
Snyder and it is desired that all the
roads be put in prime condition.

El Paso and Jaurez correspondents
say that the shooting of Immigration
Inspector Dixon at Jaurez was the
act of drunken Mexicans. Secretary
Bryan considers the affair very se-
rious. There is no recognized govern-
ment in Mexico to be called to
account for international infra-
ctions and it begins to look like the
States will have to take steps to
police that distracted region.

Mr. E. W. Clark was in
this week. He had been attending
Burk Burnett trial at Sey-
mour, left his family in California and
re-join them at Salt Lake City
where they will visit Yellowstone
Park, before returning to T.

Fine Rains Last Week.

As stated in the Signal last week there was a nice shower of rain fell here on Thursday evening and even better rains fell in several other parts of the county. At Fluvanna, in the Ennis country, and at Camp Springs, and from Hermligh to Dunn. Then on Friday evening there came more of it and it was more generally distributed over the county.

Some communities reported an inch and a half. The government gauge kept by Olin Hardy of the Signal showed the Friday night rain to be 1.13. All parts of Scurry county got rain and it saved the situation. Since then the days have been warm and crops are growing just about right. Early feed is made and this timely rain will put most of the later feed stuff safe and cotton is growing and blooming and taking on more squares and bolls.

But Simmons' Liver Purifier is delightfully pleasant and its action is thorough. Constipation yields; biliousness goes. A trial convinces. (In Yellow Tin Boxes Only.) Tried once used always. 3tf.

Senator Culberson is not as near dead as some of the Austin politicians had him reported and he has no notion of resigning.

DON'T EXPERIMENT

You Will Make No Mistake if You Follow This Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are frequently symptoms of kidney trouble, and a remedy which is recommended for the kidney's should be taken in time.

Doan's Kidney Pills are a good remedy to use. It has acted effectively in many cases in this vicinity. Can Snyder residents demand further proof than the following testimonial?

W. H. Moore, painter, Big Springs, Texas, says: "For several years my kidneys caused me much suffering and I could not lift without my back giving out. Black spots floated before my eyes. I tried several remedies without success until I used Doan's Kidney Pills. Two boxes completely rid me of the trouble."

INEXCUSABLE IF TRUE.

If the Houston Chronicle's reports are true that the penitentiary commissioners have been selling the cane products to the sugar trust people in New Orleans for less than they were offered by the manager of the imperial and other independent refineries in Texas, and if it be true that a large per centage of the cotton grown on the state farms has been stolen, then surely the board of Commissioners should be held to blame and their re-appointment should not be confirmed. Freezes and fires come in as small agencies of failure of the system as compared with these other things. Colquitt nor any other governor could make the system a success under such unholy management and the sooner the whole slate is cleared off and a new deal set up the better. Mr. Cabell has been asked to resign and if there is any truth in these reports it is better for him to do it. Of course the commissioners are not accused of stealing cotton, but they will have to answer for mismanagement in employing unworthy overseers and managers.

Our Oratorical Outlook

Prof. E. A. Watson is district Superintendent of the oratorical department in the educational association and will give it aggressive and intelligent attention. We have several bright young orators here and there will be contestants all over the district and there will be some splendid work done.

The district headquarters are now at Sweetwater and when the tryout comes off there it will be worth hearing and the state contest to come later at Austin will show that West Texas has some brilliant young men.

AT PRESBYTERIAN CHURCH

LAST SUNDAY AND NEXT

Rev. J. B. Kerr, gave the Presbyterians a fine Sunday school sermon last Sunday evening.

In the morning the pastor carried the congregation through the different acts of the old time Jewish Passover.

Sunday 11 a. m. July 6th, subject: "Christ our Passover."

In the evening, 8:30, the delayed subject "Will God answer Prayer?"

Congress Delegates Have Returned.

All the Snyder delegation who went to College station except Warren Scribner came home Wednesday morning. They are ready to report and when they do begin to tell what

they saw and to express their ideas about the institution, the people who are paying taxes to maintain the experimental schools and the Farmers' Congress will begin to sit up and look.

These men are all practical farmers and will refuse to put their O. K. on any kind of sham and when they see the public money wasted, they are not afraid to say so. They will tell the local next Tuesday afternoon what they saw and what they think about it.

We shall be disappointed in Mr. Bryan if he should neglect any important part of his official duty in order to go on a lecturing tour.

BOOKOUT ITEMS

+++++

+++++

We had a nice little rain last week which was appreciated very much.

Our meeting closed last Monday night. Those preachers knew just how to make a fellow think about how he was living.

Uncle Jep Brown made a trip to Justiceburg last Friday.

John and Hare Browning made a trip to Snyder last Tuesday.

Dick Brown is spending this week

in Justiceburg.

Mr. R. Y. Dorsett visited his son Ernest Dorset of Camp Spring last Tuesday.

John Dorsett of Fort Worth is visiting his parents, Mr. and Mrs. R. Y. Dorsett this week.

Joe Wilson has returned home from his visit to Johnson county.

Mrs. Williams of Kent county is visiting her brother, Jep Brown, this week.

Tom Jones and family of Fluvanna were visiting Bookout last week.

Remarkable Cure of Dysentery.

"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief," writes B. W. Hill of Snow Hill, N. C. For sale by all dealers. 7-5t.

USE GOOD LUMBER.

Two-Inch Boards Best for Concrete Forms — Green Lumber Clear of Knots Preferred.

[National Crop Improvement Service.]
 Good lumber is necessary for good concrete work. Lumber free from knots should be used, but green lumber is preferable to kiln dry, as kiln dry lumber will warp when wet by the concrete. Two-inch boards should be used. Well surfaced lumber, matched, tongued and grooved, and free from knots is the best kind to get. The cement dealer frequently handles lumber, and where necessary to buy lumber, it is much more economical to get good material; which can be used over and over again for the forms for the concrete work. Before erecting the forms, paint the lumber with oil or soft soap. Never use kerosene oil for this purpose under any circumstances, but use linseed, black, or cylinder oil. This will prevent the cement from sticking to the forms and will give a much smoother finish and a better job.

COST OF RAISING WHEAT.

[National Crop Improvement Service.]
 It seems that the United States Department of Agriculture in computing the cost of raising a bushel of wheat states that \$8 cents per bushel will cover labor, interest, marketing, depreciation, etc. This is based on an average production of about 15 bushels per acre. But Dr. Worst of the Agricultural College of North Dakota states that the loss of soil fertility is equal to 46½ cents more.

According to this estimate every bushel of wheat costs \$1.05, and the farmer loses money on every bushel he sells for less than that price. A change in his method, however, and the introduction of proper diversification and soil building will allow him to grow wheat at a profit at regular prices.

This is a problem to be worked out by the Grain Club in each county, which are now being established in all the counties in the grain belt.

TRACTOR FOR DEEP PLOWING.

By Raymond Olney.
 Power Farming Expert, LaPorte, Ind.

[National Crop Improvement Service.]
 Why is it that farmers do not plow deeper? Best practice considers it essential for increased yields. It provides a larger moisture reservoir by loosening up greater portions of the soil. This allows the water to enter the ground more easily and to a greater extent. The increased water storage insures the crops against drought. But deep plowing takes power. A farmer can plow as deep as he likes if he has the necessary power. The plowing season is short and the work hard. Extra horses are required, even more extra horses are needed than ordinarily. It is not profitable to keep more horses merely to furnish this increased power, which is needed for only a short time. During the rest of the year they are idle and it costs money to keep them. Unlike horses, it costs nothing to maintain a tractor when doing nothing. When it stops work, expense stops. Less power capacity is required, where a tractor is used, since by providing two crews, a tractor can be worked day and night, thus doing the work of twice the number of horses equaling it in power. A fifteen horsepower tractor will do the work of thirty horses, and it will also have the endurance of forty-five. When through work it requires no attention.

THE FUNCTION OF THE SPECULATOR.

By J. R. Pickell.
 [National Crop Improvement Service.]
 Public opinion has failed thus far in the study of grain marketing to comprehend the principle that it is the function of the speculator to take a reasonable chance. At Washington, when the anti-option bills were being considered in committee, Representatives and Senators with uniformity of thought propounded this question: "If the speculator takes the hedge of the grain dealer or miller, thus protecting grain purchases or sales, and flour purchases or sales, who protects the speculator?"
 The speculator asks for no protection. It's his business, based upon his experience, his training, his knowledge of supply and demand and the capital at his command, to take the chance the marketing of grain affords. If the speculator was absolutely protected in his trading as the grain dealer or the miller, then there would be no speculation, for it is no speculation to hedge grain or flour. It's insurance.

The producer takes his chance when he plants the grain. If he was absolutely certain that a specified amount of grain could be produced per acre, and that it could be sold at a fixed sum per bushel, then there would be no speculation in production, but the laws of nature which make production uncertain, make the grain business, by its very nature, a speculative proposition.

Speculation, as it is commonly understood, in the grain business, removes the business just as far as possible from the realm of uncertainty and reduces fluctuations in grain prices to the minimum. The speculator seeks no protection. Desires no protection. Could get no protection, and still be a speculator. Speculation is the natural desire of a normal man who is not afraid to take a reasonable chance.

FLUVANNA NEWS

J. A. Stavely, Sr., Clarence Bley, W. A. Reeder and J. A. Stavely, Jr., left Sunday for College Station as delegates to the farmers congress.

Miss Pearl Clift, of Hermleigh, came in Sunday for a few days visit with friends.

S. P. Smith made a business trip to Snyder Saturday.

Mrs. N. F. Smith returned home Saturday from Taylor and other points where she has been visiting the past two months.

Mr. Jessie Wilson and family returned home Saturday from Cleburne where they have been visiting the past month.

Account of the good interest in the meeting at Dermott, Rev. J. H. Tate called in his services at the Presbyterian church Sunday night.

J. S. Lane and family will leave the last of this week for Bishop, their new home. Their many friends wish success in the new field.

Mrs. Blanton returned home from Temple Wednesday of last week where she had been visiting for several days.

Mrs. Homer Nesbitt returned to her home at Abilene Saturday after a month's visit with her parents, Mr. and Mrs. E. L. Sewalt.

Mrs. J. B. Bley is visiting her father at Roby this week.

Mrs. G. H. Gattis left Thursday of last week for Snyder for a few day's visit.

Mrs. C. Fondenburg, left Thursday of last week for Wichita Falls for an extensive visit with her parents.

W. J. Beaver moved his cattle to the plains last week.

The union meeting begins here next Friday night. Evangelist Fitzgerald will do the preaching. It will be remembered that Rev. Fitzgerald conducted a revival here last year and needs no introduction to these people. He is an able preacher and a faithful worker. Let everybody come and help and make this one of the greatest meetings the people of this section ever witnessed.

Mrs. Alex Winston left Friday for her home at Fort Worth, after a week's visit with her brother and family, T. L. Winston, south of town.

D. M. Roberts returned home Thursday from Handley and other points where he had been visiting the past two weeks.

Mr. F. E. Pyeatt visited part of the plains country a couple of days last week.

This part of the country was again blessed with a good rain Thursday and Friday last. While there was no stock water put out there was one of the finest seasons put in the ground which will be of untold benefit to the growing crops. While some of the oldest feed stuff suffered greatly and the yield cut to half crop, there is still a big acreage of younger feed that now has a good chance to make a bumper crop. Cotton prospect are better than it has been at this time of the year in several years and with but little more rain and favorable weather there will be a big crop of the fleecy staple.

Mr. C. D. Weems is reported sick at this writing but is considerably better than he had been.

W. W. Weems of Snyder visited his parents Mr. and Mrs. J. A. Weems from Saturday until Monday.

A Family Home Coming.

Mr. and Mrs. W. H. Ramsey have had the joy within the past few days of a home coming of their children and grand children. There were George Ramsey and Jimmie Ramsey and family of Hunt county. Mrs. J. W. Davenport and children of Post and Joe Ramsey and family of this county.

The Commissioners' Court of Taylor county have entered suit against T. A. Bledsoe, the abandoned county judge and his bondsmen to recover something over \$3,000, the amount Bledsoe is said to have fallen short. Suit has been filed also against the paymaster of one of the road districts in the county.

Who can afford not to subscribe for a paper that gives all this good

reading to its subscribers without extra charge? Often there appears one single article in our magazine section which is worth the price of one year's subscription. Do a little boosting for us if you are already a subscriber, and help us to get a few new subscribers in your neighborhood. We want to publish a still better paper than we are now publishing, but must have the cooperation of our old subscribers. Can we have yours?

The Signal can take care of grain, grasses and products that will keep, but if you have fruits and vegetables that will spoil it is best for you to preserve it at home, in fluid or sealed jars and keep it there till time for the County Fair, then turn it over to the Fair Committee.

Let us hope that all our people will keep up the cleaner town spirit until there shall be no filth or trash left to condemn us.

A. Parker from the south part of the county attended the Rebekah lodge here Monday night. He reports crops in fine shape in his part of the world.

Mr. and Mrs. W. W. Nelson and the cran: children have been visiting at their ranch this week.

Young Woman Murdered in Dallas.
Dallas, July 28.—Florence Brown, 27, daughter of a Dallas Policeman, and stenographer for the real estate firm of Robinson & Styron, 110 Field street, was murdered in the company's offices in the very heart of the business district this morning.

The girl's lifeless body still warm, was found shortly after 6 o'clock. She had been dead but a few minutes, for she reported for work only at 8:30 o'clock. Her throat was gashed from ear to ear. Her left arm showed unmistakable teeth marks and two rings had been torn from her fingers.

There is no clew whatever to the girl's murder. Within an hour after the finding of her body the police arrested twenty-five young men. These were arrested in a general drag net campaign in which the police seized every young man they could not readily identify. All of the twenty-five are white. A young white man was reported to have been seen leaving the firm's offices shortly before the girl's body was found.
