Cole Younger in Snyder

Cole Younger lectured to a large audience at the Opera House last Saturday night. He told of what life has taught him. He told of his boyhood days, of his honorable ancestry and his home training—then of his early life in Missouri—of how he became an outlaw, of some parts of his career as a Confederate Soldier under General Price, of his connection with Quantrell and of his leadership of the notorious band of outlaws that terrorized Kansas and Missouri.

He told of his prison life of 25 years at Stillwater, Minnesota. He is not proud of his record as an outlaw but uses it as a warning to young men to live upright lives.

The history of his life is familiar to many people who sympathize with him and who are glad to extend to him their moral support in his efforts to atone for his past errors as far as he can.

The people were entertained and they felt very kindly toward the reformed bandit.

Turkey in South Texas

Giddings, Texas, Nov. 13—Editor Snyder Signal, Snyder, Texas—This little item may be of interest to your readers.

W. R. Mason of Houston is here slaughtering and dressing turkeys for shipment. He began here last Monday morning the 10th and up to last night had dressed two thousand turkeys, and he thinks that he will slaughter about ten thousand at Giddings during the season. He pays 11 cents gross.

The feathers are saved, the long bring 18 cents per pound, the short 7 cents while the white bring 40c per pound.

As I still count Snyder my home I would like to see this industry started there.

I will send you a little item about the Giddings creamery in the near future.

Yours truly,
S. B. KIRKPATRICK, M. D.

I have brought 1180 gallons of pure Ribbon Cane Syrup direct from Louisiana and am offering it for sale at 75 cents per gallon. Every gallon guaranteed absolutely pure, or money refunded.

Railroads, Strikes and Litigation.

The settlement this week of the big strike on the Sunset Central lines gave relief at least for a time, from a great public strain.

The strike had been planned on so large a scale that it promised to paralyze business throughout a vast industrial region. The country is glad that a settlement has come so soon, but still there is left a feeling of dread lest we may soon have a recurrence of the same trouble.

There are labor agitators who live off of their fellows by fomenting strife and when once they succeed in winning a strike they are apt to very soon look out for other lines on which to raise contention, so that there is no end to their activities.

There are many people who are gratified whenever there is any complaint against railroads. Such people fail to recognize that whatever cripples the efficiency of railroads, brings evil effects upon the country.

No country can develop and prosper without transportation facilities and unless railroads are permitted to serve at a living profit, they cannot serve to advantage and therefore the country is loser.

Texas needs more railroads, but the promoters will not care to build them if they must carry the burden of strikes, damage suits and forfeiture court trials to circumscribe their efforts and fleece them of their just and fair earnings.

The Angell's Company

Manager Grantham of the Opera House has with him this week the ever favorite Angell' Comedians, bigger and better than ever before.

The company are playing an entire new repertoire of plays and as an addition to the already excellent company, they have added the Chicago Ladies' Orchestra, which is everything much to the evening of pleasure.

The orchestra gives a half an hour of good music before the show adding much to the evening of pleasure.

The Angells are booked to play Ishmael tonight, a play that is said to be one of the best written.

This company of amusement artists deserve a liberal patronage at the hands of Snyder theatre goers and so far they are pleased with their reception here.

Two Monster Rattles.

J. J. Harris was here Tuesday and stated on last Saturday he and Bryan Eastman were out in a pasture thirteen miles east of Snyder and killed two big rattle snakes.

One was four and a half feet long and carried nine rattles. The other measured four feet in length and had seven rattles.

The larger one had just swallowed a full grown cotton tail rabbit.

We have succeeded in getting the Gaup Fancy Lump Coal, just as good and as free from soot or dust as the Sunshine Maitland. Let us send you a trial order.

SHERIFF'S SALE.

Notice is hereby given, that by virtue of a certain execution issued by the Clerk of the County court of Scurry county, on the 28th day of October, 1913, in a certain cause wherein W. A. Kincanon is plaintiff, and Katie Severin and Henry Severin and W. S. Payne are defendants, in which cause a judgment was rendered on the 29th day of August, 1913, in favor of said plaintiff W. A. Kincanon, against said defendants Katie Severin, principal and Katie Severin and Henry Severin and W. S. Payne as endorser, for the sum of Two Hundred and fifty five Dollars, with interest thereon at the rate of 10 percentum per annum from date of judgment, together with all costs of suit, I have levied upon, and will, on the first Tuesday in December, 1913, it being the 2nd day of said month, at the Court house door in Snyder, Texas, within legal hours, proceed to sell for cash to the highest bidder, all the right, title and interest of Katie Severin in and to the following described real estate, levied on as the property of defendant, Katie Severin, to-wit:

Situated in Scurry County, Texas, and being a part of the South 128 acres of the West one half of Section Number 236, Block 3, H. & T. C. Ry. Co. survey described by metes and bounds as follows, known as Tract Number 2 and beginning at the northwest corner of tract No. 1 of the South 128 acres of the West one half of Section 236, Block 3, H. & T. C., at a point on the West line of said section 352 1-2 yards north of the Southwest corner of said section; thence 880 yards to northeast corner of said tract No. 1 for Southeast corner of this tract; thence north parallel with the west boundary line of said section, 352 1-2 yards to a point for the Northeast corner of this tract; thence west parallel with the south boundary line of said section 880 yards to the west boundary line of said section, for northwest corner of this tract; thence south with the west line of said section 352 1-2 yds to the place of beginning containing 64 acres of land, said premises more fully described in the report of the commissioners of petition and decree of the District Court, a certified copy of which appears of record. Vol. 33, Page 624, of the Scurry County Deeds Records, reference to which is made for a fuller description.

The above sale to be made by me to satisfy the above described judgment for Two Hundred, fifty-five Dollars, in favor of W. A. Kincanon, together with the cost of said suit, and the proceeds applied to the satisfaction thereof.

We desire to emphasize Methods, Devices and Plans. Sutton and Horn's School Room Essentials is again the text for this year's work.

The County Superintendent is required by law to organize and hold a County Teachers' Institute of five consecutive days of seven hours each, within the first four months of each scholastic year, and each teacher, under contract, either verbal or written, is required to attend such institute or risk the possibility of the cancellation of his certificate for wilfully absenting himself.

We insist that every teacher in this county make ample preparation for this meeting and come with the desire, willingly and cheerfully to receive and impart valuable ideas concerning successful school work. The text book used will repay you professionally in its study, many times the small item of its cost.

Very Respectfully,
C. R. BUCHANAN,
Ex-Off. County Supt.

Over a Bale Per Acre

Hubert Mayfield, elder son of T. H. Mayfield, had a bale of cotton ginned at the Roby gin Wednesday which he had gathered from an acre of ground and there yet remains over a hundred pounds of cotton in the boll on the plot.

The seed cotton weighed 1440 pounds and ginned out 500 pounds of lint which was classed as the best that has been in Roby this year.

Hubert is a contestant in the Texas Industrial Congress prize and early last fall he began the preparation of the land for this cotton. He broke the land as deep as possible in the fall and the winter rains soaked into it. He attributes his success to the fall deep plowing and a continual stirring of the ground after the cotton was up. He harrowed the ground frequently and cultivated the crop often by shallow plowing.

We truly hope that Hubert will be the recipient of one of the prizes and that the award will be a handsome one.—Roby Banner.

BABY BEEF A FEATURE.

Boys and Girls Will Show Results of Full-Feeding to Calves with Silage.

Baby calves and silos are now going hand in hand, arousing the stock producers of Texas to the splendid possibilities of profit when latter-day scientific methods are adopted. Baby calves and silos will play a most prominent part in the National Feeders and Breeders' Show, which will be held at Fort Worth November 22 to 29.

Baby beef as a source of wealth for the Texas producer is little more than a year old. Conceived by a Texas livestock expert, it was heartily indosed by the Texas Department of Agriculture, but at last spring's National Feeders and Breeders' Show there were only twelve entries. Today, however, there are more than fifty Boys' and Girls' Baby Beefs Clubs, with a total membership of more than 1,200 youngsters between the ages of eight and eighteen, in Texas, and one county alone—Coleman—will send sixty entries to the show this year. Other counties will contribute in proportion and the entries in this class alone are expected to number far more than one hundred. Through the children, the Department of Agriculture is achieving considerable success in arousing the elders, inasmuch as a number of prominent ranchmen are taking up with the movement.

Through the introduction of the silo this has been made practicable as, indeed, this same storage tank of livestock prosperity is transforming Texas into a greater feeding ground for cattle than it has ever been before.

People who are interested in the silo will have an opportunity of seeing all of the recognized styles that are being introduced in the Southwest. "Silo Row" will be a feature of the show and men skilled in the filling of the great tanks and the principles of feeding will be on hand to explain over little detail.

The small producer of livestock, who could not afford to keep the fine individual animals he displays at the country fair for spring exhibit at Fort Worth, will be much benefited by the change of date to fall. In this manner, Fort Worth's big show will get a more representative showing of cattle and the small exhibitor will get his just dues. From early indications, every department of the Feeders and Breeders' Show will be more comprehensive and complete than ever before.

CLASH OF FEEDS.

Fort Worth Show, November 22 to 29. Will Be Virtual Education to Producers.

A significant clash of "feeds as well as breeds" will be witnessed in the magnificent hog exhibits that will be made in the National Feeders and Breeders' Show, which will be held at Fort Worth November 22 to 29.

Hog producers throughout Texas and Oklahoma have been forwarding entries in great numbers and it is learned that the hogs that will be on display have been fattened on a variety of feeds—principally kafir corn, milo maize, Indian corn and peanuts. The supremacy of corn as a feed for hogs will be questioned and feeders and breeders are awaiting with interest the decisions of the judges. From the Panhandle is coming the hog that has never eaten a grain of corn in its life, but is sleek and well-finished on kafir corn and milo maize. From other sections of the State will come hogs that roamed at will through acres of peanuts and have attained the "battleship" state. And the corn-fed variety, pampered with the "golden" grains, will be on hand to defend the title he has held so long. It is expected that the latter will not have altogether easy going.

The awards in the hog department will be more liberal than ever before and a number of new classes have been added. Entries have already been received in great number. Producer, big and little, will meet in competition.

The grass-fatted sheep of South west Texas, that section which has been in such a flourishing condition this year, will compete with its more pampered relatives that have been nurtured and carefully fed on the stock farms of North Texas. This will be the first time that Southwest Texas sheep have been entered in the show, but the producers, who have raised the standards of their breeds greatly within the past few years, anticipate carrying off many prizes. Additional classes and more prizes have been added in the sheep division. For the first time, Oxford Downs and Ram's Ewlets will be given recognition. The standard breeds will be represented in the magnificent exhibit. The foremost breeders in the State have already entered and the small farmer is showing greater interest than ever before.

CITY BUILDING NOTES

(By L. M. Ward, Srman.)
President Texas Commercial Executives Association.

Building cities out of villages is a man's task.

United effort means success in community construction.

In city building there is no time for petty wrangling.

Let no man miss an opportunity to boost his home town.

Don't merely be a paid member, be an active member.

It is up to the booster to convert the town knocker.

Nothing is accomplished when nothing is attempted.

Get busy. Release the brakes on the wheels of progress.

Co-operative boosting brings the biggest results.

Infrequent boosting makes inferior cities.

The benefits of town development are universal.

Innoculate your neighbor with the germ of progress.

Every city must build or it will soon begin to decay.

Sever your relations with the avvil club and be a builder.

Man's Best Years.

What are a man's "best years" depends largely on what his youth was—the time for laying the foundation. It also depends upon the nature of his work and something of his stamina or staying powers; also, as to whether he has mastered his environments or allowed them to master him. Hugo Munsterberg places the high-water mark at 50 years; Dr. Wiley Osler claims that little original and valuable work is done after the age of forty. As for my own humble opinion, I am quite thoroughly convinced that a man does not reach his prime of intellectual strength and lucidity until he arrives at the halfway house—threescore and ten.

The life problem is very much like a marathon, and should be decided accordingly. On the one hand, it is not a question of years, but of condition—mentally and physically. How did he pass the seventieth milestone, old and decrepit or vigorously? On the other hand, it is not a question as to the time he made, but what was his condition? Did he collapse or did he finish strong?—Los Angeles Times.

Studying Problem of Age.

The brittle arteries of old age which the doctors call athermosis, and which my many are considered an unavoidable and more or less physiological accompaniment of advancing years, are responsible directly and indirectly for a very considerable portion of the annual death rate. Those sanguine folks who hold that death could and should be postponed to the hither side of one hundred years—that centenarians should be the rule rather than the rare exception—are coming more and more to question the necessity for this early rusting out of the body plumbing. Metchnikoff's famous studies which led him to the conclusion that sour milk was the elixir of longevity, started the ball rolling afresh, and since then the physiological laboratories have been busily at work studying the problem from all sorts of angles.—New York Evening Post.

Return Address.

One small boy of my acquaintance will be careful when he grows up about that business of writing his address legibly, if he retains his present sense of importance of making the point clear. He was saying his prayers the other evening, and, after the enumeration of those upon whom he invoked a blessing, concluded: "And make me a good boy"—and then, after a pause, "14, Ladysmith avenue. Amen." There was to be no mistake about the destination of the answer.—London Chronicle.

TO THE PEOPLE OF SCURRY COUNTY

Recently two young men living twenty five or thirty miles from Waco and being on their way to that city were requested by a neighbor to bring him out a bottle of whiskey, he handing them the money at the time with which to make the purchase.

They complied with his request, bought the whiskey for him with his money and took it to him without any pretense of secrecy and without the least idea that they were violating any law, just as many other law abiding citizen might have done. When the grand jury convened again they were indicted and there seems to be no chance whatever for them to avoid being convicted and sentenced to the penitentiary for from one to three years. The law under which they were indicted was passed by the legislature this year and went into effect July 1, 1913, and reads as follows:

Sec. 3—"Except as otherwise provided in this Act, it shall be unlawful for any person, firm or corporation, or any officer, agent or employe thereof, to ship, transport, carry or deliver any intoxicating liquor from any point in the State, to any other person, firm or corporation, or any officer, agent or employe, thereof within this State," the penalty providing one to three years in the penitentiary. This law is on page 125 of the Acts of the 33rd Legislature. Until the occurrence mentioned I had no idea there was such a law and I realize that many good citizens are likely to violate same without knowing it. While I stand for the enforcement of every law attempting to put down the liquor traffic, I should greatly regret seeing one of our own good citizens sent to the penitentiary for unwittingly doing something which not one

man out of a hundred knows is against the law, and for that reason I have taken this means of calling attention to the matter.

I have no motive whatever in writing this except to enable people to avoid getting into trouble on this line in the future.

Yours respectfully,
J. Z. NOBLE, Mayor.

"The city council has decided to put in thirty six single 100-candle power lights and nine five-cluster lights all on ornamental iron standards. The series of lights will begin at the Santa Fe depot and be carried around the court house square and up Broadway, adding over a mile to the lighting system of the city."

LADY ASSAULTED IN CROSBY COUNTY

Lockney Beacon:
Tuesday afternoon a white lady, a
farmer's wife, living four miles on
this side of Crosbyton, was criminal-
ly assaulted by a tramp passing thru
the country. The lady lay uncon-
scious for several hours, and was
found by her husband who came in
from the field about 8 o'clock.

The assault occurred about three
o'clock in the afternoon and the
tramp had about three hours start be-
fore the alarm was given.

Deputy Sheriff Fry was notified
here Wednesday afternoon to look
out for a man, as he was supposed to
be coming this way. At this writing
no trace has been found of the crim-
inal, but as officers over the plains
are on the lookout for him, he will
undoubtedly be caught before he gets
out of the country.

Mexicans Make Threat.

Some time ago a squad of Mexican
smugglers were attacked at Carrizzo
Springs and one or two of the offi-
cers were killed. The killers were
tried and others will be. A number of
Mexicans have notified Governor Col-
quitt that if their countrymen are
punished for this, the Mexicans in
Texas will make war on the people.

Governor Colquitt replied that the
laws of Texas must be enforced and
it is probable that the signers of the
threat may be arrested.

Resolutions of Respect.

To the officers and members of Sny-
der Lodge No. 485, I. O. O. F.

On Saturday, October 19, 1913,
the spirit of Mrs. Annie Johnson, be-
loved wife of Brother Geo. W. John-
son, was freed from its earthly tab-
ernacle and winged its way back to
the God who gave it.

To her friends and acquaintances,
the passing of this good woman is
cause for keen regret, and especially
do we, the members of Snyder Lodge
No. 485, extend to Brother Johnson
in his deep sorrow, our heartfelt sym-
pathies. Neither gilded words nor hu-
man efforts can relieve the distress-
ed heart or assuage the grief caused
by the final separation of those who
have gone life's way together for so
many years, through sunshine and
shadow, adversity and prosperity.

Those who thus sorrow, we would
commend to Him who holds the is-
sues of life and death in His hands
and who is our refuge when the
strength and wisdom of man fail.

Respectfully submitted,
T. G. DEFFEBACH,
D. S. LEVERETT,
E. B. BARNES,

der of the sootless Galup Fancy Lump

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr.
Hughes Would Die, But
One Helped Him to
Recovery.

Pomeroyton, Ky.—In interesting ad-
vices from this place, Mr. A. J. Hughes
writes as follows: "I was down with
stomach trouble for five (5) years, and
would have sick headache so bad, at
times, that I thought surely I would die.
I tried different treatments, but they
did not seem to do me any good.
I got so bad, I could not eat or sleep,
and all my friends, except one, thought I
would die. He advised me to try
Theford's Black-Draught, and quit

taking other medicines. I decided to
take his advice, although I did not have
any confidence in it.

I have now been taking Black-Draught
for three months, and it has cured me—
haven't had those awful sick headaches
since I began using it.

I am so thankful for what Black-
Draught has done for me."

Theford's Black-Draught has been
found a very valuable medicine for de-
rangements of the stomach and liver. It
is composed of pure, vegetable herbs,
contains no dangerous ingredients, and
acts gently, yet surely. It can be freely
used by young and old, and should be
kept in every family chest.
