SNYDER-BIG SPRING BASE BALL MEET

SNYDER TAKES TWO OF THREE GAMES.—HOME BOYS TOO SURE OF THIRD

While Big Springs doesn't boast of having a good base ball club, and Snyder does, nevertheless the Big Springs boys were invited for a three game series, Monday, Tuesday and Wednesday, and we enjoyed having them very much.

Big Springs has a fine bunch of gentlemanly young fellows in their club and it is always a pleasure to have men of this kind with us.

COMMISSIONERS COURT IN SESSION

The Commissioners' Court was in session Monday and Tuesday. An order was passed to pay to J. A. Merritt for official work as tax assessor \$221.00

Pay was allowed for 1016 rabbit scalps and 75 coyote scalps.

The court voted to pay five dollars a month out of the general fund for street sprinkling.

BUSINESS COLLEGE WILL LOCATE HERE

METROPOLITAN BUSINESS COLLEGE WILL OPEN BRANCH SCHOOL HERE

Mr. A. J. Parr, a representative of the Metropolitan Business College of Dallas, Texas, is in Snyder this week organizing a branch school of the Metropolitan at this place, to continue for five months.

The Metropolitan is one of the leading commercial colleges of this state, and even of the south, and it will be a great advantage to the citizens of Scurry and surrounding counties and to their sons and daughters whom they desire to train in the line of a commercial and business education, and also in stenography and such other branches as become necessary to thoroughly equip young men and young women for business life, to have a school located in the town of Snyder where it will not be necessary to send them away from home.

COMMISSIONER WINSTON RESIGNS

County Commissioner T. L. Winston, of the Fluvanna precinct filed his resignation this week as Commissioner and Justice of the Peace. County Judge Buchanan will proceed to appoint his successor as Commissioner within a few days. He will retain the office of Justice of the Peace, until August when the Court will elect some one to fill out the unexpired term as Justice of the Peace.

Mr. Winston says his duties as Manager of the lumber business is taking up his time so that he cannot give proper attention to the official matters.

Grass hoppers are still doing considerable damage in some parts of the county. D. Holcomb says they are eating on the matured maize in his field.

HOLT BURIED IN DALLAS SUNDAY

CASKET OPENED IN PRESENCE OF RELATIVES AND IDENTIFIED BY THEM

Dallas, Texas, July 12.—The body of Frank Holt, assailant of J. P. Morgan, was buried in Oak Hill cemetery in Dallas late today. Rev. J. P. Mussett, of Fort Worth delivered the sermon at the grave. The funeral procession was composed of but few carriages.

However, a large number of the friends of Rev. O. F. Sensabaugh, Holt's father-in-law, congregated in the cemetery with floral offerings from friends of Mrs. Holt and Dr. Sensabaugh.

Holt's body arrived in Dallas by express but attracted little attention.

The body of Holt was taken directly from the railroad station to a local undertaker's establishment. Later in the day the casket was opened and the body was viewed by Mrs. Holt and other members of the Sensabaugh family. Except for a slight facial discoloration, it is said that the features appeared natural.

Members of the Methodist Episcopal Church, South, under whose auspices the funeral services were conducted, acted as pall bearers. They included former Mayor S. J. Hay, of Dallas and Postmaster B. M. Burgher.

SCURRY COUNTY COTTON PROSPECT

Scurry county had 58,000 acres of cotton last year and made 30,000 bales. The acreage this year is estimated at 25 per cent less, or approximately 45,000 acres. The crop has been cultivated much better this year than was possible last year, and men who have been over the country say the general condition of the cotton is about as good as it was at this time last year.

GOOD DEMAND FOR LIVE STOCK

DECREASE IS SHOWN IN CATTLE AND AN INCREASE IN HOGS.

The receipts of live stock at the ten principal markets of the United States for the first six months of 1915 as compared with the same period of 1914 show a decrease in cattle and sheep and an increase in hogs. This year 4,274,836 cattle were received against 4,304,764 head last year, a decrease of 29,928 head; sheep received this year 5,312,719 against 6,866,750 last year, a decrease of 1,554,031 head; and hogs (Continued on Page Five)

TURKEY WANTS TO QUIT WAR

BALKIN REPORTS REVIVE RUMORS THAT SEPARATE PEACE IS WANTED

London, July 14.—Many Balkan reports received here today revive the rumors that Turkey is weary of the war and that she is anxious for a separate peace. The reports say that conditions in Turkey are continually getting worse, and that that country realizes the gravity of the situation into which it has been thrown as a result of enlisting its aid with the Tonic Allies.

Some British papers believe, and have so expressed themselves, that Turkey is in trouble on account of a shortage of ammunition. Conditions in that country have been reported serious for some time. Although, no more riots have been reported in Constantinople, it is believed that conditions in that city are far from good, and that the Turkish government has realized this.

STOCK KILLED BY HOPPER POISON

Some of the farmers west of Snyder decided to rig their farms of grass hoppers and put out a lot of poison according to directions of the Agricultural department, and it turned out that some of their stock got the poison.

Sister Died at Franklin.

Mrs. Robert H. Curnutte received a message last week announcing the serious illness of her sister at Franklin, Texas. She left at once for her bedside and has written back that the sister died an hour before she got there. Mrs. Curnutte was arranging to visit her sister and knew nothing of her being sick till she received the message to come at once.

J. P. Billingsley was up Tuesday from Dunn.

EXPORTS INCREASE. IMPORTS DECREASE

Reports Show Trade Balance in Our Favor of Over a Million Dollars.

Washington, July 10.—An increase of nearly \$293,000,000 in the export trade and a decrease of \$220,000,000 in imports is shown by the analysis of the United States foreign trade for the eleven months covering the European war, issued today by the bureau of foreign and domestic commerce. The trade balance in favor of the United States is estimated at \$1,060,889,503.

The analysis shows an enormous increase in exports of crude foodstuffs and food animals, the total exportations amounting to \$481,110,384, as against \$126,508,965 for the same period last year. Crude materials for use in manufacturing fell off nearly \$300,000,000 in exports owing to the closing of European factories which used American raw materials.

Exports to France more than doubled, to Italy they nearly tripled and nearly \$300,000,000. The export trade to Germany fell from \$328,115,430 to \$28,861,587 and to Austria from \$21,286,037 to \$1,240,167. During May less than \$400 worth of merchandise went to Germany.

THE VOICE OF NOW!

It is the present, the today, the NOW in which we are interested. Shakespeare wisely says:

"Tomorrow never yet
On any living mortal rose or set."

It is the printed page which deals most intimately and with the greatest detail in the movements of the present. It is THE VOICE OF NOW proclaiming to the world the things that are happening today. The government of the United States is NOW gravely concerned in certain aspects of the war in Europe and has had thrust on it several serious international problems which are NOW in process of solution. The American farmer is NOW interested in this titanic struggle, for his interests are being affected by it today and will be tomorrow, and he wants to keep in close touch with it NOW.

EVERYBODY is interested in the cotton crop from the time of its planting to the days of its harvesting and marketing. They want to know "the NOW" in all that pertains to the great Southern staple; they want to know "the NOW" of all other agricultural markets, the latest in modern farming, the facts of the warehousing problem, and all else that pertains to the progress of the time in every theater of life.

The tens of thousands of men and women who know the Semi-Weekly Farm News know it is "THE VOICE OF NOW," telling in direct and positive tones of what is going on at home and abroad.

"Now is the time
Now is the hour."

Holland is Prepared.

New York, July 10.—Holland is relying on the United States to establish firmly the rights of neutral nations in war, according to the Rev. Tertius Van Dyke, secretary to his father, Dr. Henry Van Dyke, American minister to Holland. In an address here last night the Rev. Mr. Van Dyke said.

"Holland is ready for any eventuality. Her army, mobilized at full war strength, is, I believe, a factor to be reckoned with. I don't think that 350,000 is too high an estimate of the number of men the kingdom can mobilize.

"The Dutch adopted neutrality of their own accord, and I think would fight, no matter who violated their neutrality. Dutch shipping is suffering from two causes—German submarines sink their ships and British patrol boats delay them."

Beware of Ointments for Catarrh that Contain Mercury

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

PAYING OFF FARM MORTGAGES.

Figures just issued by the Census Bureau indicate that the burden of mortgages on the farms of the country is decreasing. They now aggregate only about a quarter of the value of farm property.

It is a diffent story from that prevailing twenty years ago, when a large part of the farm mortgages proved worthless. Owners were abandoning their farms, and often the man who held the mortgage concluded that it would not pay to settle for taxes, as he could scarcely sell the property for enough to pay costs of foreclosure.

The existence of a large body of farm indebtedness does not necessarily prove that farmers are too much inclined to borrow money. With better buildings and machinery they could often greatly increase their production.

Failure to borrow the funds for proper equipment may mean timidity rather than true conservatism. With the establishment of a rural credit system, there should come a large expansion of farm production, as the result of giving the farmer better tools to work with at moderate rates of interest.

SHERIFF'S SALE

No. 7135-A. McCullough Hardware Co. et al. v. Schneider-Davis Company.

In the District Court for the Fourteenth Judicial District of Texas, Dallas County, Texas.

By virtue of an order of sale issued out of the Honorable District Court for the Fourteenth Judicial District of Texas, being the District Court of Dallas County, Texas, on the 13th day of May, A. D. 1915, in the case of McCullough Hardware Company et al. v. Schneider-Davis Company, No. 3135 A to me, a sheriff, directed and delivered, I have levied on this 12th day of June, A. D. 1915 and will between the hours of 10 o'clock a. m. and 4 o'clock p. m. on the first Tuesday in August, 1915 it being the 3rd day of said month at the Court house door of said Scurry county, in the City of Snyder, proceed to sell at public auction, to the highest bidder for cash in hand, all the right, title and interest which W. A. McCullough and McCullough Hardware Company or either of them had on the 28th day of November, 1910, on the following described property to-wit:

The north-west quarter of Section 214, block 97, as said section was surveyed for the common school fund for the State of Texas, by virtue of certificate No. 43-5609, issued to the Houston & Texas Central railroad Company, said premises containing 160 acres of land more or less and being situated in the county of Scurry, in the State of Texas, and being the same land conveyed to the said plaintiff, W. A. McCullough by deed from J. Q. Richardson and M. L. Richardson, of date, April 28th 1910 to which deed and the record thereof reference is here made for more particular description. Such property being levied upon as the property of W. A. McCullough and McCullough Hardware Company to satisfy a judgment amounting to \$698.01 with \$12.40 costs of court in favor of Schneider-Davis Company, a corporation.

Witness my hand this the 12th day of June, A. D. 1915.

We Help Those Who Try to Help Themselves

C. W. Post Home Farms

We are building up a community of actual home owners and are anxious to interest good, dependable men in our undertaking. We will sell raw land on which we will place improvements and charge against the land. In other words should you buy 160 acres, we will improve the same with a 4 or 5 room dwelling (with water piped into the kitchen), well and windmill, sheds for chickens, hogs and stock, and a silo if wanted. These improvements will cost from \$1500 to \$1700. We will not sell land unless it is to be farmed—no speculation.

One can buy 160 acres 10 to 15 miles from Post City, but near a school, at \$20 to \$22 an acre, plus the improvements mentioned above. We will sell you the land and improvements for a payment of \$2 per acre (\$320) down and \$1.75 an acre (280) per year at the unusually low rate of four per cent interest. Notes on or before. Payments cover both land and improvements.

Farms on the plains will be sold during 1915, to be occupied early in 1916, for \$2 00 an acre down and terms as above. Interest does not start until you go on the land. Next payment Jan. 1, 1917.

Also have just classified and put on the market the breaks, or grazing land. These lands will sell from \$6.00 to \$12.00 per acre. \$1.00 per acre cash, 50c per acre per year until paid out at 6 per cent interest. This goes in tracts of 640 acres and up.

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop Using Dangerous Drug Before It Salivates You! It's Horrible

You're bilious, sluggish, constipated and believe you need vile dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50c bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel, and without griping or making you sick I want you to go back in the store and get your money. Take Calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless so give it to the children any time. It can't salivate you, so let them eat anything afterwards. (11)

Bethel 15, Polar 12.
Bethel played Polar Saturday on the latter's ground winning in the ninth with a fusillade of singles, doubles and triples. The wind blew so hard as to make flies nearly impossible to catch, but the crowd was treated to some fast infield work. It was a fast game until the eighth. Polar having a 10 to 1 lead till then. Bethel scored 6 runs in the eighth and finished the game in the 9th with 8 more.

The lucky ninth:
Atnip singled, Cochran doubled, scoring Atnip, Wren singled, scoring Cochran, Flippen sacrificed, Wren taking second, Townsend doubled scoring Wren, Bridgeman singled, scoring Townsend, Mosely doubled, scoring Bridgeman, Womack and Huckabee hit hard ones, filling the bases. With the bases full and the score 12 to 12 Atnip tripled to center and the game was over.
Batteries, Bethel: Womack and Flippen, Polar, Nester and Clanton.
The score by innings:

Umpire,	Zebe	Womack.	

Mr. Bob Wren, Lyman Wren, Byron McPherson went to Polar and rooted for Bethel Saturday. On the way back Mr. Lyman Wren gave an exhibition of off hand rifle shooting. He killed 7 jack rabbits, 27 cotton tails and lots of prairie dogs. For good shooting Lyman's right there.

Early maize will soon be ready to head, cotton is growing nicely, although grasshoppers are eating it in some places. Some farmers here are poisoning where the hoppers are worst.

Miss Dot Womack was the guest of Annie and Virgie Davis.

Jim Seabourn and Stone Carden were visitors of Mr. F. L. Davis.

M. E. Davis and family were guests of W. W. Davis and wife.

Mr. F. L. Davis left Monday for Anson, Texas, as a witness in a trial there.

ANNOUNCEMENT.
For Representative 105th District:
HARDY M. BOYD

Congressman Stephens will probably have three opponents for his job. The Miami Chief says that will insure his re-election.

Mr. Bryan is said to be satisfied with the German note. Germany conceded practically the same points that Mr. Bryan wanted in our second note. He wanted Americans to keep off of British ships and insisted that no contraband of war should be carried on American passenger ships. Germany practically covers these points and adds that notice be given of the time of sailing from American ports.

Representative Don Biggers of Lubbock says:

"To longer delay the redistricting of the state into congressional districts is nothing more nor less than a serious wrong to the entire state and particularly to the western portion. Much has been said about gerrymandering and no one can defend, with a clean conscience, at least, the creation of a district for the benefit of an individual, to the detriment of an individual or for mercenary or purely partisan motives, but it is doubtful indeed if the two extreme western districts could be made any worse than they are at present."

Science is showing the farmer how to make money in farming, says the New York Commercial. The average yield of cotton is less than half a bale an acre and some localities average 132 pounds an acre, but 2,700 bales have been raised on 2,500 acres in Georgia, with little effort and 2.38 bales have been raised on a single acre in Texas. Schoolboys have raised 100 bushels of corn to the acre and one of them made a record of 232 bushels an acre as compared with 15 bushels or less as the average farm yield in the same locality. These lessons are bearing good fruit.—Fort Worth Record.

New Orleans has produced another "Blackhand" who signs himself "Pearce". He says he was a confederate of Frank Holt and intends to carry out plans they had formed. His purpose is to assassinate J. P. Morgan and Cecil Spring-Rice and do other stunts—claims that he placed explosives in two ships that recently left New Orleans with mules for England.

A church council in Dallas has been organized to prevent Sunday movies, but the shows were run just the same last Sunday.

LITTLE SIGNALS

What has become of the plan to remodel the interior of the Central School building during the summer vacation?

Some "progressive" citizens are

content to permit one or more fellows to handle the commercial work and expense pertaining to Chamber of Commerce affairs, but bear in mind there is an expense attached. The Signal learns that there is an accrued Y. M. B. L. account of over \$300 which should be paid.

Take a pride in constructing concrete. There is plenty of room for improvement.

Substantial business buildings are going skyward in Snyder. Now get busy on bungalows.

The hog and cattle industry is attracting the attention of many citizens in Scurry county. It's a good thing. Push it along.

The base ball fever is raging—Snyder is cleaning up the entire golden west. Come to Texas and ON TO SNYDER.

Concentrate your mind on the organization of a Chamber of Commerce. A vast amount of work is at hand.

Snyder is prepared to receive an abundant all-class 1915 crop. It's rapidly maturing.

Fruit is plentiful and canning factories are scarce in this section.

Many new faces appear in Snyder from day to day. Extend the glad hand.

GERMANY'S DIPLOMATIC PLAY.

Germany has transmitted to Washington her note in answer to the United States relating to German methods of submarine warfare. She evades answer to the main points at issue and seeks to justify her acts of destroying American lives and property on the alleged ground that Great Britain has forced her into submarine war in self protection. She promises to respect American rights provided this country shall mark her ships so they may be recognized and shall notify Germany at the time of sailing and guarantee to carry nothing contraband.

The gist of Germany's proposition is regardless of all former treaties and all established inter-national

law, she will grant safety to American commerce upon such terms as she may dictate.

The United States is not satisfied with that arrangement and will probably give Germany a chance to reframe her proposition.

What steps are further contemplated by the Wilson administration is not yet known, and unless Germany shall again insult our flag and ignore our established rights on the high seas, there may be nothing come of the unsettled contention, but if Germany shall finally come out of the present war a dominant power in Europe, this nation may well make her calculation to meet the question in more direct conflict in the near future. The United States has at no time manifested any favoritism toward any belligerent power. The trouble has come because of the desire of Germany and Great Britain to reap individual profit from American friendliness and by force to appropriate the substance of a neutral country to the hurt of an enemy nation.

GRAVITATION A FIXED LAW.

A story is reproduced in this paper telling of Prof. See, naval observer at Mare Island who has discovered the source of gravitation. The report concludes by saying "Prof. See expects this theory to revolutionize the science of physics." This discovery may give the Prof. a niche in history along with Mr. Newton, but that is about all there will be.

The science of physics, mechanics and the like have been based on the laws of nature which have existed since the creation. The law of gravitation has entered into all mechanical activities and whatever men have wanted to do has been planned with accommodation to the fixed and acknowledged power of gravity.

No matter what causes gravitation, everything will continue to bear toward the center of the earth at a fixed ratio according to the specific gravity of the substance. Water will continue to rise to its level and stones will continue to roll down hill, and mechanics must continue to provide certain power to raise a weight to its required height. Forces like atoms and elements in nature will remain the same, no matter how much philosophers may speculate. The force of gravitation is already known and the world will not care so much in a practical way from what source the power is generated.

NEGRO AND OTHERS IN POLITICS

For several days the opponents of the proposed constitutional amendment known as senate resolution No. 1, have been warning voters that there is "a nigger in the woodpile." This resolution would provide that

traveling men and others who must be away from home on election day may vote under certain restrictions.

It provides also that all foreigners shall meet all conditions of our naturalization laws before voting.

Friends of the measure contend that no person not a bona fide citizen should be granted the ballot and under present system of declaring intention of citizenship lets in hordes of Mexicans who are not citizens.

Opponents of the measure contend that under the absentee voter clause negroes can tramp from box to box, be furnished all the poll tax receipts they can manufacture names for and vote all day.

It is contended that if this amendment carries the white people will lose their power of control over the negro voters and all the organized regulations that have been adopted to preserve white dominance in counties peopled largely by negroes, will go for nothing.

A circular has been issued purporting to be a resolution adopted by The Negro Business League of Waco which in a measure exposes to view the kinky head under the cover. This resolution carries the names of the president and secretary of the Waco Negro League and says:

"Many of the members of our race who are qualified voters, are now deprived of the sacred rights of franchise through the formation of White Man's Unions, and other similar organizations in some of the counties of the State. The adoption of this amendment as a part of our State Constitution, would give to those unfortunate members of our race the right on election day to go to another county, other than the place of their residence, and there exercise the rights of citizenship guaranteed to them under the 13th, 14th and 15th amendments to the United States Constitution.

"That we urge all the qualified voters of the Negro race to participate in the general election on July 24th, 1915, and help the friends of our race in Texas, to carry these two measures, the first in behalf of the better education of our Negro youths and the second to restore the rights of franchise, now denied to us in some sections of the State by unreasonable and unjustifiable prejudices."

Now, there you are. White people who are undecided as to this amendment can read and form their own conclusions.

Then comes in another point of view.

An Associated Press special from San Antonio dated July 11th, says: San Antonio, July 11th.—Declaring that the proposed state constitutional amendment to give only to naturalized citizens the right to vote in Texas will affect 50,000 anti-pro-

home in order to achieve those splendid accomplishments.

It is contemplated to open the school at an early date, and those desiring to enroll should see Mr. A. J. Parr at the Woodrow Hotel as early as possible and enlist and by your early efforts furnish such guarantee of a sufficient amount of patronage as to justify the opening of this great school in our city.

There are many high school boys and girls in the city of Snyder, and the tributary country to Snyder who not only would be greatly benefited by this course, but it has almost become necessary for them to have a diploma from a school of this kind with the attainments therein achieved, in order to compete in a business way with the commercial, as well as other vocations of life.

Let everyone take hold of the new proposition and guarantee it a success, and all be boosters for the new enterprise, which not only helps our people who take part in it, but helps the general interests of the town.

hibition votes, the retail liquor dealers decided today to launch a campaign to defeat the measure. An election to vote upon six proposed constitutional amendments has been called for July 24 and this particular amendment makes it compulsory for every foreign born citizen to take out his final naturalization papers before he is entitled to cast his vote in any election.

Under the present system, in line with the federal requirement, foreign born citizen may exercise their right of suffrage after filing their declaration of intention to become naturalized Americans. It was announced at the meeting here today that every retail liquor dealers' organization in the state is enlisted in the campaign to defeat the measure, which prohibitionists claim will considerably reduce their strength if it becomes a law.

GOOD DEMAND FOR LIVE STOCK

(Continued from Page One)

12, 655,818 against 10,783,212, an increase of 1,872,606 head.

The feeder cattle and sheep movement for June at seven markets show a marked decrease in cattle, being 15.41 per cent; and an increase in sheep received over last June of 15.7 per cent. Chicago is not included as no stockers and feeders have gone out of this market in 1915 on account of the quarantine.

During the eleven months ending June 1, 1915, 305,000,000 pounds of bacon were exported, an increase of 122,000,000 pounds over the same period last year. The fresh beef exports were 121,487,000 pounds, an increase of nearly 116,000,000 pounds; canned beef exports 65,359,000 pounds an increase of 61,000,000 pounds; pickled beef 28,622,000 pounds, an increase of 7,000,000 pounds and shoulders 162,233,000 pounds worth \$23,435,000.00, an increase of \$1,734,000.00.

These figures indicate that the shortage in cattle and sheep continues with an export demand increasingly greater. Northwest Texas and eastern New Mexico, so well adapted by nature for growing and feeding stock, will benefit by this condition. The farms are producing great crops of forage and grain this year which will make full feeding on the farms this fall and winter a lucrative industry.

Overland
\$750

Model 80, 4-cylinder
Roadster - \$725

This is the largest 4-cylinder Overland that will be produced this year

The Newest Overland

\$325 Less Than Last Year

The 1916 Overland is essentially the same as the 1915 Overland—the famous Model 80 that sold for \$1075.

But the price is \$325 less.

The stream-line body is the same as the \$1075 model of last season.

It has the same magnificent finish; that deep, rich tone of dark Brewster green

with fine hairline striping of clear ivory-white.

It has the same powerful, economical thirty-five horsepower, four-cylinder motor, but weighs less.

It has high-tension magneto ignition.

It has the same under-along rear springs. It has the convenient arrangement of electric control buttons on the steering column.

It has the same easy-working clutch which any woman can operate; the same "easy to handle" shifting levers; the same "easy to steer with" wheel; the same positive brakes.

It has 33" x 4" tires which is unusual on a car at this price.

In detail, finish, mechanical fitness, comforts and conveniences, this newest Overland gives you all there was in the \$1075 Overland and even more power.

And it costs you but \$750—\$325 less than last season's large 35 horsepower Overland.

Deliveries are being made now all over the country.

Every Overland dealer already has a waiting list.

Place your order immediately and you can be sure of a speedy delivery.

"THE THIEF"

PRESENETED BY

Dorothy Donnelly

THE CREATOR OF

Madame X

IN FIVE BIG REELS

Friday, July 16, TO-NIGHT

The gown worn by Miss Dorothy Donnelly in the masterly production of "The Thief" is valued at \$5,000, giving some conception of the elaborateness of the play.

Miss Donnelly is the creator of the title part in Madame X and is America's foremost Tragedian. Her work in the original Madame X gave her first place as an emotional actress. She has surpassed all her efforts in "The Thief," supported by an all star cast.

This big feature picture has been secured by this management at a tremendous expense and the lovers of the higher class of movies will have an opportunity to see this great success.

All are of the one opinion that it is the most wonderful sale that they have seen in Snyder.

We still have lots of them yet, just as good bargains as we have had. Sale continues till AUG. 3rd. You still have time to come, we are going to look for you: don't disappoint us. WELCOME; whether you buy or not.

We have not the space to quote you prices here, but call your attention to just a few of the choicest ones: The American Beauty Corsets at one half price; the Ladies' Skirts at just one half price; MEN'S SUITS values up to as high as \$17.50, choice of any suit in the house, \$8.95; All wool blue serges, no better ones to be had in Snyder; Ladies' Coat Suits; Ladies', Misses' and Children's slippers; we must clean up the low cuts: the price is within the reach of everybody. No use to go unshod when you can buy shoes so cheap.

TWO MORE WEEKS of this Sale

We want to thank those who have patronized us so far and invite everyone to call and see us before the sale closes, which is Aug. 3. Again we thank you. Respectfully,

Scurry County Bar Resolution

Whereas, there will be submitted to the voters of Texas on the 24th day of July A. D., 1915, a proposed amendment to the Constitution of the State of Texas, amending Section 2, Article 5 and known as Senate Joint Resolution No. three, providing that the Supreme Court of the State shall consist of a Chief Justice and four Associate Justices;

And whereas, the Supreme Court of this State now consists of only three members, a Chief Justice and two Associate Justices, which number of said Justices is insufficient to keep up with the business constantly coming before that court;

And whereas, the said Supreme Court, as now constituted, is more than two years behind with its docket and is constantly falling further and further behind with the business coming before it;

And whereas, in our opinion, the only manner practicable for the relief of this congested condition in said court, which condition is hurtful to the best interests of the State and to the litigants coming before that court, is by increasing the members of this Court;

Be it resolved that we, the undersigned members of the Scurry County Bar Association, respectfully submit to the voters of Scurry County the aforesaid facts and earnestly request the voters of said county to support this amendment by voting in favor thereof on the above date.

Respectfully submitted,

SILVER BULLION IS SENT FROM MEXICO

Galveston, July 10.—Six million pesos worth of silver bullion from the mines of Pachuca arrived in Vera Cruz yesterday under military escort, furnished by the Constitutionalist government, and was loaded on board the Ward line steamship Mexico. This information reached the constitutionalist consulate today. The bullion is the property of American and foreign mining companies.

The report also states that corn is being sold by the government at 50 cents a bushel and beans at 38 cents a bushel. Three depots for distribution of the Red Cross supplies sent to Vera Cruz were opened yesterday and there were only thirty-five applications for aid, says the report.

HAS THE PROPER SLANT.

Fort Worth Record.

The new chief probation officer of Tarrant County has the right slant on the juvenile offender. His opinion is that it will be better for the small delinquent that he be put to work, even at small wages, and the officer is starting a movement among employing firms and corporations to take a number of these wards of the juvenile court and put them at light employment.

Something over a century ago, and it might have been three centuries, a wise old sage remarked:

"And Satan finds some mischief still

For idle hands to do."

The saw is as full of truth today as it was at the dawn of time. The boy or girl, but more particularly the boy, who has nothing to do but run the streets with other idle companions, will not only get into mischief, but into criminal and the best way to put the criminal part is to give them something to do for the idle mind.

Opera House Theatre.

The Opera House Theatre has been showing a series of natural history moving pictures which are highly entertaining and instructive. Last Saturday night was devoted mostly to fish and birds and Monday night mostly to animals. The history and habit of the various kinds of birds. How they raise their young, from where they migrate, what they live on and what they are good for. All these points and more were shown on the screen and proved to be a good educative lesson in natural history.

The first reel treated of fish and there were many features shown in hatching, raising, catching and marketing fish that are really profitable.

Manager Ellis of this popular theatre is giving the patrons good service and is showing pictures that are beneficial as well as entertaining.

WENNINGER & SON

Didn't Know it Was Loaded

A few days ago Pete Brady wanted some dynamite to use in blowing holes in which to plant trees. He arranged with the manager at the Scoggin Oil prospect to bring him a supply. The fellow started with it in a wagon and when he got out on the way to open a gate his team ran away. The driver said he calculated that the outfit would be blown to Kingdom Come and he started to follow, hoping to find the location of the expected obliteration.

After plodding some distance he saw his team and wagon coming back in a long trot, bouncing and bumping over dog holes and hog wallows. A kind hearted farmer had stopped the runaway team about three miles out and was bringing the outfit back to find the remains.

The owner thanked him and after looking through the tumbled mass of freight, he said "That's lucky, my dynamite is here in tact."

"Dynamite?" shouted the good Samaritan. "Get dynamite in that wagon?" and he began to edge away and refused to ride back to his home, but insisted that he preferred to walk.

FIRST CHRISTIAN CHURCH NOTES

Plans that had been made for a meeting at Ralls, Crosby County, have been changed, which means that the pastor will occupy his pulpit on Sunday morning.

Last Sunday morning there was organized in the Bible school a men's class. The number of charter members was fourteen. R. W. Nelson was elected president, A. Johnston, vice President; Hugh Boren, Sec.-Treas.; Supt. E. A. Watson, teacher. We hope for great results from this splendid beginning.

It has been arranged to take up the preparatory study of the Bible school lesson at the Wednesday night service.

CAUSE OF GRAVITATION CLAIMED DISCOVERED

Montgomery City, Mo., July 10.—Professor Thomas Jefferson Jackson See, astronomer and United States Naval observer at Mare Island, Cal., announced here today that he had discovered the cause of gravitation.

"Gravitation is an electrical phenomenon," said Professor See. "It does not act instantly across space, but is transmitted with velocity equal to that of light, thus coming from the sun to the earth in eight minutes."

A treatise on this discovery prepared by Mr. See was submitted to the Royal Society of London five months ago. The first announcement of his discovery was made to the Royal Society, Mr. See said, because it was to this society that Newton

presented his original theory concerning gravitation in 1685.

Mr. See's treatise intends to prove that gravitation is due to elementary electric currents circulating around atoms of matter.

Mr. See expects that his theory will revolutionize the whole science of physics.

THE STATE OF TEXAS
County of Scurry

I, W. T. Skinner, Clerk of the County Court in and for Scurry County, Texas do hereby certify that the above and foregoing is a true and correct copy of the Delinquent Tax Rolls, arranged numerically as to abstract, Lot and Block number, as reported by W. M. Curry, Tax Collector for Scurry County, Texas, for the year 1914 and prior years.

Given under my hand and seal of office, this 15th day of June, A. D., 1915.
W. T. SKINNER, County Clerk, Scurry County, Texas.

(SEAL)

COL. BALL FAVORS SEPARATION.

June 15, 1915.

Hon. R. T. Milner,
Bryan, Texas.

Dear Mr. Milner:

I am not only decidedly in favor of the permanent separation of the A. & M. College from the Texas University, but I am particularly well pleased with all of the provisions of House joint resolution No. 34, which is to be voted upon by the people of Texas—July 24th.

This amendment to our Constitution provides, as it should, for an equitable apportionment of university lands between the University, A. & M. College, Prairie View Normal and Industrial College in a manner, so I understand, satisfactory to each institution.

By its terms the medical branch of the University is permanently located at Galveston, a most admirable domicile therefor.

In addition, the A. & M. College of Texas is made an independent college and permanently located in Brazos County, and the amendment authorizes the establishment of junior agricultural colleges, subsidiary thereto and under the government of the A. & M. Board.

The Prairie View Normal & Industrial College is well located in Waller County, and by the terms of the amendment will be permanently established there, as a branch of the A. & M. College, governed by the same Board.

The College of Industrial Arts will continue at Denton, Texas, where it is doing a splendid work, and be maintained as an independent college.

The authors of this resolution have done well in making its purposes perfectly plain, so that all voters may properly understand its effect, and I sincerely hope that the amendment will be adopted by a very large majority.

I consider the provision of the resolution authorizing the establishment of junior agricultural colleges, subsidiary to and under the government of the A. & M. Board, as a very important one.

Texas is so large and our agricultural interests so pre-eminently important, that I feel sure that in time this provision will be availed of by the establishment of co-related institutions in different sections of the State, to supplement and carry out the great work of the Agricultural & Mechanical College.

Whatever differences of opinion may have existed, as an original proposition, as to the separation of the A. & M. College from the State University, ought now to be composed, as public thought for many years, evidenced by many party platforms, declarations of commercial bodies and resolutions of agricultural and labor organizations, has crystallized as to the necessity of such separation.

The idea of one great university, embracing in its sphere of activity every field of learning, has some attractions, but as a practical proposition such an institution is not now feasible.

I believe in a great University at Austin, but believe just as strongly in a great Agricultural & Mechanical College, separately maintained and managed.

In the nature of things, a student body, embracing the learned professions, with an increasing demand for raising its standard to meet that of other great universities, is not best adapted for the education of boys content to receive a liberal college education, or whose parents are unable to do more for them, and who desire special training in agricultural and mechanical arts.

The expenses of attendance upon a college situated as is the A. & M., is necessarily less, and that is an item which appeals strongly to me, as the difference in cost, sometimes means inability to finish at an institution of learning.

The University, as a part of our educational system, will serve a great purpose in giving Texas boys the advantages of a first-class university education.

The Agricultural and Mechanical College is another important unit in the system, providing a liberal education, as well as special training, and releasing the student body at an earlier period in life than a university can, with the same number of school years.

With the adoption of this amendment, carrying out the wishes of the thoughtful friends of both the University and the A. & M. College, I look to see the unfortunate jealousy which has existed between the friends of these institutions disappear forever, and a generous co-operation arise in its stead, which will insure the future greatness of these immensely important factors in our educational system.

Very truly yours,
THOS. H. BALL.

WHEN PRESIDENT WILSON pressed the button to open the Panama-Pacific Exposition, the electric impulse that was flashed across the Continent started a great Busch-Sulzer-Diesel Engine in the Palace of Machinery. Texaco Ursa Oil is the only lubricant that has ever been used on this splendid machine.

Knowing that this engine would attract great attention, the builders took particular pains to secure the best possible accessories for the production of maximum efficiency. Their choice of

TEXACO URSA OIL

was made after numerous tests.

Though the Diesel Engine is a new prime mover, it has received so much attention and study from the Lubricating Engineers of the Texas Company that we are able to lubricate it efficiently and economically, and we hold the leadership in this particular class of lubrication.

This is a fair example of Texaco Service, the service which means that we can give you an oil exactly suited to any condition of speed, heat, or pressure, for steam engines, gas engines, turbines, ice machines—anywhere a piston moves or a wheel revolves.

We invite you to get in communication with our nearest office and let one of our representatives show you the Red-Star-Green-T products of quality.
