TWENTY-NINTH YEAR

SNYDER, SCURRY COUNTY, TEXAS, FRIDAY, OCTOBER 29, 1915.

NUMBER TWENTY

STATEMENT FROM BAND MANAGER

WORK WILL PROBABLY BEGIN NEXT WEDNESDAY AND RUSHED TO COMPLETION.

The comment regarding the erection of a band stand, I desire to make the statement that so far there has been only \$127.00 subscribed with about \$30.00 of this amount unpaid. The lowest bid by the carpenters was \$150.00 for building the band stand. I have been expecting the canvass to be completed and trust it will by the time the work is complete. Those who have not subscribed and paid in the amount will please do so at once as we will begin building the band stand about next Wednesday.—C. C. ANDERSON, Manager Snyder Band.

GOVERNOR AGREES TO MEET FUNSTON TO DEVISE PLANS

Will Plan to End Raiding.—Intimated That Power Approaching Marital Law Will be Given United States Troops on the Texas Border.

San Antonio, Texas, Oct. 27.—While Gov. Ferguson would not tell the committee of citizens from the lower Rio Grande what action he would take to give them greater protection from Mexican bandit raids, he gave them to understand that he would act quickly.

It is learned that he has arranged for a conference with General Funston, commanding the Southern department. It is also learned that a proposition to give the army more power in the Rio Grande country without actually declaring martial law met with favor of the Governor and he arranged a meeting with General Funston, who announces that he

is ready to do everything possible to bring permanent peace to this section of the State and will send additional troops to the border if necessary.

General Funston stated tonight that additional Infantry troops will be sent to Arizona from Texas to further protect the border from Villa attacks. The 4,000 troops on the Arizona border are not considered sufficient to insure neutrality, should Villa's forces attack Mexican border towns. The Brownsville Committee will wait here pending the conference between General Funston and the governor and may not have to go on to Washington.

U. S. STEEL CO. RETURNS HEAVY

RECORD SHOWS INCREASE OF OVER TEN MILLIONS OVER PRECEDING QUARTER

New York, Oct. 27.—The earnings of the United States Steel Corporation for the quarter ending on September 30th was \$38,710,644, an increase of \$10,760,589 over the preceding quarter.

MURPHY'S COMEDIANS GET CROWDS

Murphy's Tent Show is giving excellent programs and large crowds of Snyder people congregate each night to hear and see the performances.

They have one of the cleanest and most refined companies that it has been the pleasure of Snyder people to see and they are worthy of our patronage.

Their band and orchestra is a drawing card for them and the musical programs are excellent.

It is understood that they will conclude their engagement here Saturday night and go to Post City.

The Signal learns that this company has sixty-nine well prepared plays and could easily entertain the people for more than one fourth of a year in one city.

PANAMA BORROWS MILLION DOLLARS

NATIONAL ASSEMBLY WOULD LIQUIDATE BY FLOATING INDEBTEDNESS.

Panama, Oct. 27.—The National Assembly met for a special session today to pass a bill authorizing the Government to borrow a million dollars to liquidate the floating debts of the nation, which are estimated at \$750,000.

HONOR WOMEN OF CONFEDERACY

Jacksonville, Fla., Oct. 27.—The unveiling of the monument here to the women of the Southern Confederacy will take place today. The memorial is a tribute to the women of the South and was erected by the Confederate Veterans. City and State officials joined in the arrangements for a big celebration which is now under way here.

During the formal ceremonies, the custody of the monument will be transferred to the city. Among the speakers are many prominent officials and public men of Florida.

Robbers Shoot Banker
Austin, Oct. 27.—Word has been received here that two armed men this afternoon robbed a bank at Marble Falls, mortally wounding Robert Heineke, a clerk in the bank and escaping on foot.

GARMENT WORKERS' STRIKE RIOT IN CHICAGO LEADS TO BLOODSHED

Chicago, Oct. 27.—One person was shot and killed and three others were wounded in a riot resulting from the Garment Workers strike.

Mayor Thompson refused to listen to an appeal for intervention "until the strikers come with clean hands."

WAGNER-CLARK WEDDING LAST TUESDAY EVENING

On October twenty-sixth, at the home of the bride's parents, Mr. and Mrs. G. B. Clark, in West Snyder, Mr. Fred F. Wagner and Miss Ruby Dagmar Clark were united in marriage, the ceremony being performed by Rev. M. T. Tucker, pastor of the First Baptist church of this city.

The happy young couple left the same night for Amarillo where they will make their future home.

These young people are among our very finest, and we join their many friends in very best wishes.

The bride is one of Snyder's purest and sweetest girls and deservedly popular.

The groom is a young man of sterling qualities. He formerly worked in the Towle jewelry store here and has many friends in Snyder. He is now engaged in the jewelry business in Amarillo.

Mrs. Roland Bell and Mrs. Joe Taylor left yesterday afternoon for Marlin to attend the bedside of their mother, Mrs. S. R. Pickas, who has recently submitted to a critical operation.

TELEPHONE PETITION NOW FILED

The Chamber of Commerce has completed the common battery petition and sent same into headquarters of the Southwestern Telegraph and Telephone Company. It is now up to that corporation to comply with the demands of the people of Snyder for a modern, well-tipped flash light telephone system.

Much complaint has been filed recently, especially among the rural subscribers. One gentleman had occasion to call a doctor a few nights ago, and as he couldn't get Central over his own phone he started to town and tried every telephone on the road, but all in vain. He finally got to town, notified the doctor to come out to his sick family. This of course is a serious complaint, yet it is usually the case. Anyway, we are to have a "flash-light" telephone equipment in Snyder, thanks to the Snyder Chamber of Commerce.

CLIFTON TROOPS ARE REINFORCED

Phoenix, Oct. 27.—One hundred militiamen in command of Maj. E. P. Gimstead, left Mesa and Tempe for Clifton today to reinforce the troops in the district where several thousand copper miners are on a strike. Officials stated that they feared the hungry strikers might loot the stores. Reports that Clifton and Morenci are quiet, but that contributions of food are insufficient for the miners and their families have been received.

Gov. Hunt has received a letter from W. B. Wilson, secretary of labor, saying that there will be a federal investigation of the wages, housing conditions and of the charges of the miners.

SPECIAL TRAIN TO DALLAS AND THE STATE FAIR

Quite a number of Snyder people took advantage of the special train to Dallas and visited the metropolis city and the State Fair. Among those noted in the crowd were: W. S. Adanson and wife, J. W. Couch and family, Dr. N. C. Letcher, Mr. and Mrs. Oscar Lykes, E. B. Muse, Misses Lindsey, Mrs. J. P. Chambliss and daughter, Dorothy, Violet Grayum, Mrs. E. E. Matthews, Mr. and Mrs. Homer T. Watkins and others.

Rev. W. W. Werner has placed some large black walnuts on the list of exhibits at the Chamber of Commerce.

SNYDER TRANSFER CO'S WAREHOUSE

Mr. Jim Ellis advises the Signal that Col. Wilmeth has agreed to erect a large warehouse and storage quarters for the Snyder Transfer Co., adjoining his present barns just south of the post office. This is a move in the right direction for heretofore it has been almost impossible to obtain suitable quarters to store the reserve stock of local retail dealers, and now Mr. Ellis believes he will be equipped to handle all kinds of storage goods, such as household goods, etc. This will give Snyder one of the best transfer and storage establishments in the entire golden west.

Material is already on the ground to begin the construction work.

THE THRIFT OF THE ARTICHOKE PLANT

E. W. Turner of Snyder has presented the Chamber of Commerce an Artichoke which weighs, including a little soil, fourteen pounds. This is a plant with thistle-like foliage bearing large flower heads and is used as a substitute for potatoes. It is claimed it fattens hogs to turn them loose in the patch as the tuber grows near the surface of the earth and is very prolific. On an average of producing 10 pounds to every 18 inches, gives about three thousand plants to the acre and a total of 30,000 pounds to the acre. Mr. Turner says he has plenty of plants if there are others who want to plant.

TO ELIMINATE PARTY BALLOTS

San Francisco, Oct. 27.—Majorities against the proposition to make all state officers, non-partisan, were shown in the returns tonight.

Also majorities were shown against all other measures submitted to the voters. The vote was light.

The non-partisan plan was the main issue. It was advocated as a Progressive party measure and had the support of Gov. Johnson.

W. T. Baze has added a California White Radish to the Chamber of Commerce Agricultural exhibit. It's a good sized one.

Born, Sunday, October 24, 1915, to Rev. J. C. Bigbee and wife, a bouncing baby boy.

U.S. PATROL SIGHTS REFUGEE BANDITS

Brownsville, Texas, Oct. 27.—A United States cavalry patrol in an extended section of the Gulf Coast advises that Mexican bandits have found refuge there. The section covers the coast near the mouth of the Rio Grande northward for eighteen miles.

Nineteen prisoners are being held here in connection with border activities.

The Farmers Union Gin people have built a shed in their gin yard to shelter wagons loaded with cotton and to shade teams while they wait.

C. B. White and family of the Loyd Mountain district were here Tuesday.

CROP PEST EXPERT HERE THURSDAY

Mr. J. W. Neill of the State Department of Agriculture arrived in Snyder Thursday and will be here about three days in consultation with farmers relative to crop marketing and especially to discuss extermination of crop pests.

He carries along a magazine of about 1500 specimens of bugs, flies and worms, and can tell which of these are injurious and which are beneficial. He is giving careful attention to boll weevils and says he has the best plan yet found to destroy rats. He wants to meet the farmers and will be here till Saturday evening.

WEEKLY COTTON GINNING REPORT

The ginning report for the season to date at the four gins in Snyder is as follows:

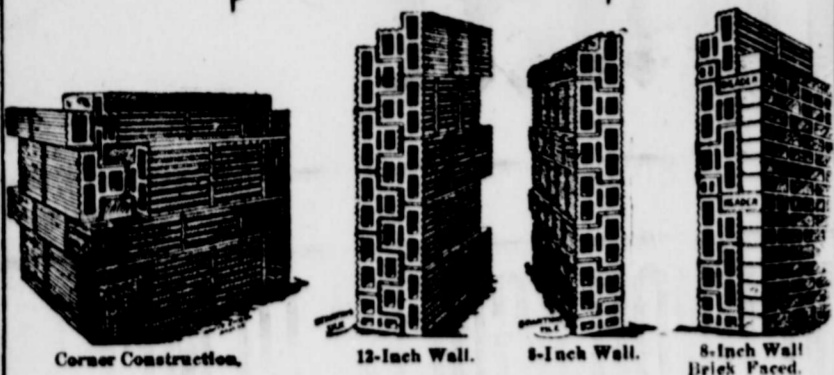

Farmers Union Gin	1305
Fuller Gin	935
Brice-Burnett Gin	880
Sears Gin	676

Taking these numbers and striking an average for these and the gins at Fluvanna, Camp Springs, Hermleigh, Dunn and Ira, gives a total of 10,785 bales ginned in the county and the crop is not more than half gathered.

Cotton selling Thursday at 10.75 to 11.75. Cotton seed \$39 a ton.

Better Construction at Lower Cost

STUDY THESE CUTS

What Interlocking Tile Is

It is a general wall-building material, suitable for use in every character of structure, from the cottage and small store to the mansion and skyscraper.

In it are combined the "cooler in summer, warmer in winter," and lightness of weight features of the hollow wall, with the strength of brick and concrete; in addition, it interlocks in the wall, making the strongest and most rigid wall that can be built. Every unit is a header.

Interlocking Tile is not to be confused with ordinary square tile, which is only designed and intended for partition, and other interior non-load-bearing walls.

WHAT INTERLOCKING TILE DOES FOR ITS USERS
It builds at amazingly low cost (little more than that of good frame) walls that are non-conductive, light in weight, damp proof, comfortable the year around, and more efficient in every way. It increases the buying value of the building dollar.

Several from this community attended the Dallas Fair, this week and last week.

Miss Virgie Davis was a Sunday visitor of Miss Ruth Seabourn.

Farmers out here are getting their cotton out nearly as fast as it opens. Pickers are easy to get this year.

With cotton 12 cents and cotton seed \$40.00 a ton why shouldn't we have prosperous times.

Some good farmers here are holding their cotton for fifteen cents. The Farmers Bulletin is advising farmers to hold cotton for 15 cents. To the Doubting Thomases, let me say that last year this same paper said that cotton would reach 10 cents by May and it did. Why doubt but that this paper will hit it on the nail again.

Here is a fair sample of the cotton condition in the east, clipped from last Thursday's edition of the Edgewood Enterprise:

"Our good friend M. C. Cole of the Tundra community was here one day last week with cotton. Mr. Cole said that the cotton crop was shorter in his section than he has ever known it before and in proof of his assertion he stated that off of forty acres he would get four bales. 'We are going to be in pretty good shape tho' said he, 'for we have put away more food and feed stuff than ever before.' Those Tundra people have an eye to business."

Mrs. W. W. Davis was a Monday visitor of her mother-in-law, Mrs. F. L. Davis.

THE VOICE OF NOW!

It is the present, the today, the NOW in which we are interested. Shakespeare wisely says:

"Tomorrow never yet
On any living mortal rose or set."

It is the printed page which deals most intimately and with the greatest detail in the movements of the present. It is THE VOICE OF NOW proclaiming to the world the things that are happening today. The government of the United States is NOW gravely concerned in certain aspects of the war in Europe and has had thrust on it several serious international problems which are NOW in process of solution. The American farmer is NOW interested in this titanic struggle, for his interests are being affected by it today and will be tomorrow, and he wants to keep in close touch with it NOW.

EVERYBODY is interested in the cotton crop from the time of its planting to the days of its harvesting and marketing. They want to know "the NOW" in all that pertains to the great Southern staple; they want to know "the NOW" of all other agricultural markets, the latest in modern farming, the facts of the warehousing problem, and all else that pertains to the progress of the time in every theater of life.

The tens of thousands of men and women who know the Semi-Weekly Farm News know it is "THE VOICE OF NOW," telling in direct and positive tones of what is going on at home and abroad.

Firestone Faith

The Firestone ideas of motor-ing are founded on a belief in the wisdom and common sense of the motorist—and this faith has been justified. Firestone's success has proven that the car owner wants safety, comfort and Most Miles per Dollar. He wants the quality that costs less to use. The Non-Skid lettering is an imprint of safety. You need it always—but particularly at this time of year. It holds the standard for endurance and economy. The letters prevent spin or skid in any direction, they radiate the heat of road friction, insure perfect traction with gasoline economy, car-protection and maximum comfort. Everywhere experienced motorists praise Firestone performance.

TWO "DO NOTS!"

Promises that Do not Fail-Prices that Do not Mislead

The two "do not," "promises that do not fail" and "prices that do not mislead," can not be used by every merchant that advertises for a large per cent of them make great big promises that are inflated to gigantic dimensions by impossibilities, promises that they have no intentions of keeping. We take great pride in saying, in all our dealing with the people never yet have we ever made even the smallest promise that was not fulfilled.

It is our iron clad rule in this establishment, for not a one of our sales people to ever make a promise that they can not keep to the letter. We have built up our immense business by keeping all our promises in good faith, in fact never making a promise we can not keep.

Prices that "do not" mislead is another thing that is seldom used, but which we are very strict about. We never place a price on an article that would be misleading to any one. When you read a description of any article with the price accompanying the description you can rest assured that you can come here and find that article just as described and the price just as advertised. We do not believe in attracting trade to our counters by making any great big rash promises or great big glaring prices, but you will find us ever ready to fulfill any promise we make or back up any price we make either verbally or advertise. We have gained the utmost confidence of this people by adhering strictly to the Two "do not," "promises that do not fail" and "prices that do not mislead," and we do not intend that, that confidence be shaken by making you a great big rash promise that we did not intend to keep or making an absurd price to mislead you into our store.

Took It Free and Easy. When the show came to Snyder last year, our old friend A. M. Johnston of Dunn came in with his grandson to go to the show—said he didn't care about it himself but some body had to go with the boy. The Signal editor tried to find a child to take along but the juveniles had all been engaged for the day and we went along with Brother Johnston without any such charge. The experiment impressed Brother Johnston so favorably that he came Tuesday without any children to look after.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is Quicksilver and Acts Like Dynamite on Your Liver

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bone and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for Calomel. It is guaranteed to start your liver without stirring you up inside and cannot salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe. No. 10

THE VOICE OF NOW!

It is the present, the today, the NOW in which we are interested. Shakespeare wisely says:

"Tomorrow never yet
On any living mortal rose or set."

It is the printed page which deals most intimately and with the greatest detail in the movements of the present. It is THE VOICE OF NOW proclaiming to the world the things that are happening today. The government of the United States is NOW gravely concerned in certain aspects of the war in Europe and has had thrust on it several serious international problems which are NOW in process of solution. The American farmer is NOW interested in this titanic struggle, for his interests are being affected by it today and will be tomorrow, and he wants to keep in close touch with it NOW.

EVERYBODY is interested in the cotton crop from the time of its planting to the days of its harvesting and marketing. They want to know "the NOW" in all that pertains to the great Southern staple; they want to know "the NOW" of all other agricultural markets, the latest in modern farming, the facts of the warehousing problem, and all else that pertains to the progress of the time in every theater of life.

The tens of thousands of men and women who know the Semi-Weekly Farm News know it is "THE VOICE OF NOW," telling in direct and positive tones of what is going on at home and abroad.

"Now is the time
Now is the hour."

Special Announcement

It is our desire that everyone within a radius of 200 miles of San Angelo know that we are going to have the biggest fair in the history of West Texas, beginning November 2, and closing November 6.

We have appropriated \$10,000.00 for premiums and the entertainment of our visitors and we have arranged with all the railroads for especially low rates—tickets sold on the 1st and 2nd will be at 75 per cent of the one-way fare for round trip. As this is to be everybody's fair we have endeavored to furnish entertainment which will please everyone attending.

We have appropriated \$1000.00 for special music—Ezell's selected 20-piece Concert Band with Miss Annie Lee Andrews, soprano soloist of Dallas, Prof. Alvin B. Risch, Cello Soloist of Dallas, Prof. Guy Mack, tenor soloist of San Angelo; Prof. Westbrook, the world famous whistler of Chicago, assisting in the musical program.

For those who like thrills—we have provided sensational aeroplane flights and the demonstration of the Aerial War Bomb. We have also been fortunate enough to secure the S. W. Bundage Carnival Company, traveling in their own train of fifteen cars, this company will assure you of excellent entertainments during the evenings.

Goat roping and broncho busting contests, bicycle races and children's sports and athletic. Social events for the young ladies and young gentlemen, football and basket ball games will be some of the enjoyable features of the program on the grounds.

The agricultural and live stock exhibits will be second to none and every department has had the supervision of an expert in their particular line and every display will be worth your while.

There will be a special parade each day, including auto parade, Old-Timers parade, grand Burlesque Suffragette parade and Style Show, Children's parade and something doing all the time to entertain our visitors.

We have made all this preparation for your entertainment and comfort and you "Sure want to be there."

Carranza Villa Fight Expected

Washington, Oct. 27.—On behalf of the citizens of Douglas, Arizona, Senator Ashurst today asked the state and war departments for proper protection of the city by American troops in the event of an engagement between Carranza and Villa forces. The fight which is expected to be a serious one is likely to take place at any time when Carranza troops, after being transported thru American territory have passed over the Mexican border.

Senator Ashurst said he had had the promise of the war department to dispatch a sufficient number of troops to Douglas to protect the city from the fire of either Villa or Carranza forces. He informed officials that without protection it was feared there was even a possibility that the Villa troops might make an attempt at looting. Secretary Garrison wired Gen. Funston to make any disposition of his troops he found necessary to protect American interests along the border at that point.

Information in the possession of the department leads officials to believe that between 4000 and 5000 Carranza troops are to be transported through American territory and that Villa has with him approximately 7,000 troops. Villa is reported as marching northward.

Villas supplies are said to be dwindling. One official of the State department said that he believed Villa

Good Home For Sale Cheap

My home one block from the Central High School Building is for sale. It consists of a quarter block of land 150 by 150 feet. House consists of nine rooms and a bath room, large hall and gallery. The house has been repainted and rapered this summer and is in fine condition. Electric lights in all rooms. The other improvements consist of a good barn, buggy shed and windmill, fine tank on concrete foundation, fairly good servant's house in the yard. There is an abundance of water in hydrants all over the place. The place is all well fenced with iron fence around yard and red picket fences around the lots and back part of lot. There are some fruit trees and a grape arbor which will make all the grapes an ordinary family will want. A fine garden joins the yard and the yard has plenty of the finest shade trees in the city.

This is an ideal place for a family who wants to educate their children. It would be a splendid place for a small family to keep boarders, since it is close to town and right at the school building. Three of the rooms are now rented for \$12.50 per month.

The price is very low and the terms are reasonable. A small payment in cash and terms on balance to suit. Someone will get a bargain here.

Best of reasons for selling. I am not expecting to leave Snyder, for I consider it the best town in West Texas. I expect to make this town my home for some years at least, but must make a change for other reasons.

First come, first served. For prices and terms, see or write,

OPTICIAN

Letter from Post Sanitarium
Post, Texas, Oct. 25, 1915.

Gentlemen:
Dr. A. R. Ponton, of the Post Sanitarium of Post City is spending two months visiting the Clinics and chief hospitals of Chicago, Philadelphia, Baltimore and New York.

While away he will attend the Clinical Congress of American Sur-

geons to be held in Boston, Oct. 25th to 29th inclusive.

Dr. Ponton expects to return to Post about the 28th of November. Respectfully yours,
Post Sanitarium.

Mr. Westbrook started in Thursday morning to build the new pedestrian causeway over the creek at the Faught street bridge.

In Honor of Mrs. T. P. Perkins
Friday, October 22:

On Friday, October 22nd, the beautiful home of Mr. and Mrs. C. S. Perkins was a scene of delightful pleasure.

The occasion was a tea given in honor of Mrs. T. P. Perkins, who is soon to depart for her new home at Palo Pinto.

The entire house was made gorgeous, festive and beautiful with cut flowers, trailing vines and bright streamers. Vases of chrysanthemums and cornicopias of cosmos made a most pleasing spectacle, as Mrs. Fred Clark greeted the guests, presenting them to the hostess, who in turn presented the honoree. In the receiving line were Mesdames Smith, Boren, Grimes, Johnson, Towle and Hardy, officers of the El Feliz Club, of which Mrs. Perkins is a beloved member. The honoree is one of the charter members and a past president.

The music room was lovely with the soft green carpet and tinted walls and the mantle piece in the background, banked with smilax and ferns, sprinkled here and there with pink La France roses. Pink roses in crystal vases also adorned the piano and cabinet. Here Miss Lucille Galloway mingled her sweet music with the merry chatter.

From the music room, Mrs. Iverson Hargis ushered the guests to the punch room, beautifully decorated with yellow chrysanthemums in crystal vases, the punch bower, covered with graceful, trailing vines and softened with dainty roses was beautiful to behold. Mesdames Ezell, Anderson Morrel and Hamilton gracefully presided at the punch bowl, dispensing a delicious cherry nectar.

The guests were next shown the dining room where baskets of red roses, tied with white tulle adorned the dining table, beautiful with its handsome ciuuy cloth. Baskets of red roses were on the buffet and mantle, while bright geranium hued streamers festooned the walls and chandelier. Here Mesdames Harris and Fuller poured delicious tea and coffee from silver urns. Mesdames Coates and McClannahan served sandwiches.

More than fifty ladies left cards, showing appreciation for this enjoyable afternoon bidding Godspeed to Mrs. Perkins and expressing their sorrow at her going.

Mrs. Tilmon Perkins wore a pink chiffon gown with pink taffeta under dress and slippers to match. She never looked more charming and her gracious manner which has been the source of her winning friends, captivated everyone anew.

The hostess never looked more lovely. Her green satin gown with white lace trimmings enhanced the beauty of her golden hair. Her graciousness and charm made her a perfect hostess giving to her friends an afternoon long to be remembered.

Missionary Home Coming
Monday the 25th:

The Missionary Auxiliary of the Methodist church enjoyed a home coming on Monday, Oct. 25 in the basement of the church.

The Juniors were well represented. Mrs. Alexander gave an interesting talk on their work.

The young ladies were represented, and a number of the women of the Adult Auxiliary were present.

After an hour of chatter the ladies served apples and Cracker Jack to all present.

On November 1, the Auxiliary will have a business session and parliamentary drill. All are urged to be present.

Hallowe'en Problems to be
Solved:

Come to the Methodist church just at twilight and help guess who the ghosts and witches are. No admission charged. Two and a half dollars to the one whose judgment enables them to give the right name to the largest

number of ghosts and witches. One dollar and a half to the second and one dollar to the third. Those over fifteen years of age will pay ten cents to name all the ghosts and witches, not ten cents each understand, but the privilege of naming all who are playing ghost and witch. Children who wish to try their judgment will only be charged five cents. Lots and lots of innocent fun. Come all, even those who intended to have Hallowe'en elsewhere, come and enjoy the fun with us, which will not be long, then go and have the fun you had otherwise planned. This is interdenominational, therefore we will have a good time together. Dress up and look like a ghost or a witch or any other distinguished being, or come looking your natural self—but come, be sure to come and you will have plausible reason to remember the fun of how your best friend looked playing as spooks.

Sincerely yours for service,
W. C. T. U.

A new grain is being propagated over Lubbock way, called the Acuff maize. It has a stiff stem and grows about three feet high, five well developed stalks sometimes growing from one seed. E. W. Whinnery of Dunn has propagated a cross of milo and feterita which he says is far superior to either of the old stock.

The bell weevils have made their invasion into the counties east of us and some few are reported in the eastern part of our county. Good advice whether the weevil comes or not.

There are numbers of inquiries these days, the real estate men tell us, for farm lands in the Rotan county. Some lands are changing hands but there are many of the old timers who will not price their lands nor offer it for sale, knowing a good thing when they see it.—Rotan Advance.

Some of them think they see it still better just a head and therefore hesitate to make prices.

We ought to have a rouser, but some people will take credit to themselves instead of thanking the Lord for it.

It is estimated that between Plainview and Snyder there are now 300 tractor plows at work with a total land breaking capacity of 6000 acres per day. This battery of tractor plows would reduce Rhode Island to truck garden mulch in a week's time. Grand old Texas.—Fort Worth Star Telegram.

A county superintendent in a neighboring county asked every teacher in the county institute who took the local or county newspaper to hold up their hands and only six responded. The superintendent expressed great surprise and said: "You don't spend one dollar a year with the paper, yet you expect it to print free of charge, notices of all institutes, insert long programs, expect it to advertise you and your school in every way possible, thus assisting you to climb the ladder to better positions and better salaries, without a cent in return."—Lynn County News.

The Signal has no kick on this line against the teachers. Practically everyone of them who is wide-awake and successful is a reader of the Signal.

KNOW THY STATE

THE PROPER SILO FOR TEXAS USE.
By H. G. Harvey.

It is of vital importance that every farm in Texas be equipped with a silo but it is equally important that the proper materials be used in its construction. Approximately 57 varieties of silos have been given a fair trial by the farmers of Texas in their diligent effort to systematize agriculture in this state and in some instances our farmers have paid dearly for their experience. A silo not adapted to the climatic and other natural conditions which exist in Texas is worse than no silo at all and the farmers of this state who contemplate erecting silos should study carefully their construction and adaptability to Texas conditions and select the kind best suited to their needs.

Some of the leading silo authorities of this state have been requested to state their views as to the best and most serviceable silo for Texas use and their opinions will appear in this paper from time to time. When asked to address the farmers of Texas on the subject of tile as a silo material, Mr. H. G. Harvey of the Texas Kalamazoo Silo Company, of Fort Worth, which has constructed all kinds of silos in every Texas locality, said in part:

"I consider the Tile Silo the only proper silo for Texas use. For absolute permanency and best results we recommend only silos made of Texas tile for successful operation in this state and our approval is based upon 42 years of testing and investigation.

The Tile Silo possesses every feature of every other silo without one drawback. Its peculiar construction affords a double air space and perfectly takes care of all atmospheric and temperature changes that come suddenly and unexpectedly in Texas.

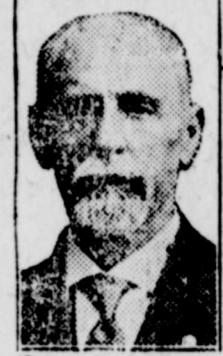

The Tile Silo will withstand all internal strain with a good margin of safety besides and provides a construction that is frost and fire proof. It never requires any paint. The hoops never require tightening. It needs no anchoring against the wind. Its weight is sufficient to hold it and the surface is so smooth that there isn't the slightest toe-hold for the wind. It will practically never deteriorate in quality and it is absolutely indestructible. The Tile Silo is the most practical one for the Texas farmer to consider. It is the best material for silo construction for Texas conditions, Texas climate and Texas needs.

Because of the peculiar conditions in this state the Tile Silo is absolutely adapted to successful operation in Texas. Constructions that are marvelously successful in other parts of the country may fail utterly in Texas due to climatic conditions unfavorable to the habits of the material of which they are built. We did not solve the silo question in Texas until we began constructing a Tile Silo made from Texas clay."

On Co-Operative Marketing Plan

The Farmers' Union is the pioneer force in the campaign for cheap money, warehouse facilities and a financial system adapted to the business of farming. The Union has always stood for the best interests of the farmer and realizing that the task was so monumental as to require the combined effort of all forces, the Farmers' Union, some four years ago, blew the horn and called all hands together to build more warehouses and supply cheap money, and as a result the farmers, the business men and the statesmen, are now shaking hands over a bale of cotton. While the work has only begun, sufficient progress has been made to fully justify the policy of co-operation adopted by the Union and on behalf of the Texas plowmen I want to thank all agencies now engaged in assisting the farmers in solving the cotton marketing problem.

We have made reasonable progress in the plan now under way, which contemplates that the business men and farmers build the warehouses; the State supervises the storage and validates the receipt and the banker provides the money at a low rate of interest. The State announces ready and the warehouse commission, with an able corps of assistants, has its problems well under way, and the bankers have declared a willingness to advance money at a rate not to exceed six per cent.

Many warehouses now existing have gone under State supervision, and others are being constructed, but no warehouse system can be made a complete success without sufficient storage capacity to handle the crop.

The present warehouse system is swung around co-operation and I call up to the Texas farmer to assist in constructing warehouses and to patronize them after they are built. No warehouse can succeed unless the farmers organize around it, for no business can prosper without patronage. The farmers and business men must come to the aid of the system and I make a special plea to the farmer, for he is the beneficiary of the movement.

We have just passed through the greatest slaughter in crop prices known in the history of the cotton industry. The loss to the Southern planter last year was greater than that of the freeing of the slaves during the Civil war, and the European conflict is by no means over. The phantom of low prices that hover around every cotton field in Texas ought to encourage the farmers to deeds of commercial valor. Look upon the face of your babe in the cradle; look upon the woman who stands by your side, then look upon your own destiny squarely in the face. Lay aside the petty differences that so easily beset you, awaken from the lethargy of indifference that steers you senses in poverty and arouse thoughts from their dumb cradles and be up and doing with a determination that wins, and rally around the Union, for there is no other road to success except through organization.

OUR PUBLIC FORUM

Ed Woodall

On Slow Marketing of Cotton.

I want to commend the efforts of those interested in the movement to hold a large part of this year's cotton crop off the market, which can only be done by providing in different communities in Texas suitable warehouse facilities, which will enable the farmers to borrow through local banks a sufficient amount of money to tide them over, and permit them to market the crop gradually for a period of say, from six to eight months, rather than in the old way of marketing it in three or four months. The northern wheat farmer and corn farmer have long since learned that their crops cannot be marketed in two or three months, and they have provided means for taking care of it, and giving it to the world as it needs it, and while an emergency now confronts the people of the South in the disposition of their cotton crop, on account of the war, it has, nevertheless always been the worst sort of business to dispose of our cotton crops as we have heretofore done.

An observation of the fluctuations of the cotton market over a period of years will show that nearly always it reaches the lowest points during the months of October and November, frequently after that time there is an advance of from \$10.00 to \$20.00 per bale. There can be no reason for this, except that the men who buy our cotton take advantage of the conditions, that we ourselves as a people refuse to remedy, and the result is the rest of the world is richer to the extent of our own folly.

In my opinion, with the prospective size of this crop in view, it is entirely reasonable to expect ten cents per pound for this crop, provided it is judiciously marketed, and while I understand the farmers have got to be educated somewhat in this matter, even after ample storage facilities have been provided, at the same time if the banks of Texas are so much interested in it, they can induce the farmers of Texas to warehouse a sufficient amount of cotton to hold the price to a reasonable basis under the existing conditions.

On the other hand, if we pursue the same policy this year that we have always pursued, we will doubtless see cotton go as low as seven cents basic middling. If our people can ever be educated to grow their living at home and to raise cotton as a surplus and the money crop, only raising what the world wants at a fair price, and prepare themselves to market what they do raise judiciously and over a period of eight months in the year, instead of three or four months, as is now done, the South will grow wonderfully prosperous, and probably more so than any other agricultural section in the country.

Therefore, I am pleased to commend the patriotic spirit that prompts the bankers of Texas in their efforts to assist the farmers in getting a reasonable price for their chief produce—cotton.

We Help Those Who Try to Help Themselves
C. W. Post Home Farms
We are building up a community of actual home owners and are anxious to interest good, dependable men in our undertaking. We will sell raw land on which we will place improvements and charge against the land. In other words should you buy 160 acres, we will improve the same with a 4 or 5 room dwelling (with water piped into the kitchen), well and windmill, sheds for chickens, hogs and stock, and a silo if wanted. These improvements will cost from \$1500 to \$1700. We will not sell land unless it is to be farmed—no speculation.
One can buy 160 acres 10 to 15 miles from Post City, but near a school, at \$20 to \$22 an acre, plus the improvements mentioned above. We will sell you the land and improvements for a payment of \$2 per acre (\$320) down and \$1.75 an acre (280) per year at the unusually low rate of four per cent interest. Notes on or before. Payments cover both land and improvements.
Farms on the plains will be sold during 1915, to be occupied early in 1916, for \$2 00 an acre down and terms as above. Interest does not start until you go on the land. Next payment Jan. 1, 1917.
Also have just classified and put on the market the breaks, or grazing land. These lands will sell from \$6.00 to \$12.00 per acre. \$1.00 per acre cash, 50c per acre per year until payed out at 6 per cent interest. This goes in tracts of 640 acres and up.
