

The Snyder Signal

THIRTY-THIRD YEAR.

SNYDER, SCURRY COUNTY, TEXAS, FRIDAY, AUGUST 22, 1919.

NUMBER TEN

COMMENCE WORK ON DERRICKS

There is not much new this week on the oil situation. The derrick material and a lot of machinery has arrived and been hauled out to the Walker location for the Snyder Oil Association and business will begin now to pick up out there.

It is learned the workmen have begun building the derrick for the Riley well north of Snyder and that much of the machinery is already there and it will not be long before operations will start up there.

There have been several oil men scouting about over the county this week and in most cases, if they say anything it is to make us think we have oil lands.

Some of them say nothing and in that case we are apt to suspect they have seen good indications.

Baker, Gray and Anderson announce that a car of rig material went up Wednesday to Fluvanna for a 3500 foot test to be drilled on section 425, Lewis Beaver, about 4 miles southwest of Fluvanna. This well is to be drilled by the Mount Pleasant Oil Company of Lancaster, Ohio, now operating in the Saratoga, Texas field.

B. Y. P. U. Social.

The Junior B. Y. P. U., had a social on the lawn of Rev. W. H. Sims, Tuesday night at eight-thirty. As the guests arrived they were served with punch. After many interesting games were played, punch was served again and the guests departed, declaring they had had a most enjoyable time. Those present were: Mrs. Sims, Mrs. Morris, Misses Ethel Isaacs, Mary Isaacs, Lela Isaacs, Rosa Lee Clark, Ruby Stokes, Loree Stokes, Clea Reddington, Georgie Winston, Muri Pryor, Willie Mae Card, Eva Strayhorn, Theresa Cotten, Mable Wilson, Virgie Thompson, Opal Eppley, Opal Morris, Almabelle Morris, Dora Mae Johnson, Dora Stacy, Gerlene Dane, Ora Norred, Lucile Webb, Pauline Webb, Lillian Fish, Fairy Doak, Bertha Wilhelm and Velma Mayo, Messrs G. B. Clark, Bob Boles, Ralph Wolfe, H. V. Williams, Hines Sims, Harold Sims, Wayne Wilson and Ardis Wilson.

Married in Dallas.

Mr. Lee Stinson one of Scurry county's most worthy and popular young men was married Wednesday to Miss Lillian Ludwig of Dallas and they arrived here Thursday for their wedding visit to the home folks. Lee was a druggist in Snyder before he went to the war and since coming home has located in Stamford in the drug business. The Signal extends congratulations.

West Texas has the east part of the state bested on Elbertas and one way of it is, we don't miss the crop as often as east Texas does.

There are vastly more peaches grown in Scurry county than one would know about without hearing reports from the farms and orchards over the country.

The Commercial Club has sent an order for glass jars in which to preserve some of our good fruits for future exhibition.

Mr. T. J. Thompson adds some fine heads of maize to the exhibit.

Mrs. Dr. W. R. Johnson and daughter, Ellen Buice have returned from visiting at Tyler, Kaufman, Dallas and other points east. They are accompanied by Mrs. Buice Cooley Fyle of Kaufman for an extended visit. Mrs. Fyle has visited here before and has many friends here.

On account of the increased cost of supplies, I am forced to increase my hotel rates from 35 cents to 50 cents a meal, effective after Aug. 25. No change in rooming rates.

H. C. Greenfield, Maxwell Hotel.

A. E. Dennis has come home from the oil fields where he has been working since March. He says any body who wants a job can get it there.

The Revival Meeting

The Revival meeting under the auspices of the Church of Christ has been in progress since last Friday night.

The weather has been hot but the congregations have been good all the time.

Elder Bankhear is a logical and forceful preacher.

The meeting will probably continue over Sunday.

W. J. Edwards Dead.

On August 13, Brother Edwards, of Fluvanna passed away, after a protracted illness. Mr. Edwards was 72 years old and has lived in Scurry county for many years. He leaves an aged and afflicted wife, one son, a minister and three daughters. These were all present at the funeral, which was held from the Presbyterian church at Fluvanna, by Bro. Tate. One brother, with his wife and son, from Coryell county, also two brothers of Mrs. Edwards, Messrs Smith, and a sister-in-law from Hamilton county, were with the deceased before the end came. These visiting people expressed great satisfaction because of the way the Fluvanna people ministered to the afflicted family.

A good man, a good neighbor, and citizens has gone from us. He was strictly an upright man. He took special pains to conform to the Golden Rule.

Bro. Edwards was never a member of any church, but he had no doubt about the future welfare of his soul. Contributed.

Dry Goods Company Moving.

As will be noted in their adv., this week, the Caton-Dodson Dry Goods Company are going to move from their old southside stand to the north side of the square, the old Coates Mercantile stand and will be in position to serve their trade in everything in their line. Mr. J. W. Massey is now fixing up the shelves tables, etc., and the store will be open there in a few days.

Probable Out Come of High Finance

It is reported that 117,000 railroad employes are demanding an increase of pay the minimum of daily wages to be \$6.50. Organized labor some while ago demanded increased pay or the lowering of the cost of living. There is a growing belief that the high cost of living is largely due to expended circulation and the unusual high prices of labor. So long as employes in any department of manufacturing, carrying, whole retailing are forced to pay high wages the selling price to the ultimate consumer must necessarily be high and it is coming to be believed that the cost of living cannot be greatly reduced until there comes a lowering of wages. In that connection one of our philosophic citizens said the other day that there is a strong probability that many employes will be forced out of business, and ultimately labor will be called upon to lower the wage scale and that then the laborer will refuse to work for a lower wage and he looks for the country to be over run with the "tramp" element.

The Associated Press reports from Berlin that the German Constitution provides for election of legislators by the free ballot of men and women. It is said furthermore, that the German people have laid aside their long time devotion to militarism and war and have gone to work to rebuild country. While they do that American politicians and labor organizations are making all the domestic trouble they can.

The \$15,000 ransom demanded by the Mexican bandit Chico Gono for liberation of American Aviators Davis and Peterson has by this time been carried to the bandits. It is now reported that the chief bandit has a commission from Carranza. It becomes more and more apparent that Mexico must be invaded and brought to terms.

Mr. and Mrs. Baxter Scoggin of Wichita are guests of relatives in Snyder.

Miss Rosa Lee Caperton has returned from Paris, Texas.

"THE GARDEN OF FOLLIES" HEADLINER AT VICTORY FAIR

MAGNIFICENT NEW YORK MUSICAL REVIEW SECURED BY SECRETARY STRATTON.

"The Garden of Follies," New York's last word in scintillating, spectacular, Musical Extravaganza, will be a headliner amusement attraction in the coliseum at the Victory Fair at Dallas in October.

This was secured in person by Secretary Stratton during his recent visit to the East. Visions of the Winter Garden, or of Broadway in 1919, will float before the eyes of the beholder of this beautiful production.

Oodles of pretty girls, captivating music, magnificent scenery, "dreamy" costumes, and a "cob-wobby" plot, delightfully intertwined, make up the production.

Grace, beauty and wit will abound in "The Garden of Follies."

VICTORY FAIR AUTO SHOW WILL BE BRILLIANT EVENT

TRUCKS, TRAILERS AND TRACTORS WILL ALSO BE SHOWN IN GREAT PROFUSION.

A Palace of Pleasure Cars, vast fleets of sturdy Trucks, and trainloads of Tractors and Trailers will be exhibited at the Victory Fair at Dallas in October.

The 1920 models, in many makes of sedans, touring cars, limousines, sport models, and runabouts, evidencing all the latest ideas in speed, endurance, beauty and comfort, will be shown.

Trucks, hundreds of makes, in many sizes, and suitable for all hauling needs on the farm, in the city or town, or anywhere else that time and labor-saving transportation is needed, will be there.

Tractors—the farm power-plant on wheels—that make all farm tasks easy, will be demonstrated.

So many trucks will be shown that a new building had to be erected to house them. This will be a substantial frame building 50x400 feet, and will cost \$7,000.00. In the center will be a beautiful art-fountain. Both the automobile and trucks building will be artistically decorated and the lighting effects provided at an additional cost of \$3,500.00, will be very novel.

It is proposed to make the new truck building a community social center where you can come and meet your friends and have a real good time. An orchestra will be provided, and there will be dancing every day and every evening. The Dallas Automobile Trades Association is co-operating with the State Fair management to make the Auto Show at the Victory Fair an event long to be remembered.

E. A. Birdwell says there have been three probable locations made for the shallow test to be made in his community by Bishop Brothers. He can't say now which of the three will be finally selected, but he expects drilling to be started in less than three weeks.

Miss Mabel Clark of Memphis, is here for a few days to visit the home folks.

Mrs. Elsie Deck of Ranger is visiting the family of G. B. Clark.

Mr. J. W. Shaw has returned from a visiting and fishing trip in the Concho country.

If the United States has to whip Mexico it will be done directly and in order. Texas is getting ready to play the leasing part and with Federal troops now on the border Texas can just about do the job if permitted to go to it in Texas style. Germany can't help Carranza any more and it is thought Japan will not.

To Revive Farmers' Institute

Col. H. L. Bentley of Abilene, District Field Man of the Agricultural Department spent last Friday in Snyder conferring with the people of Snyder about resuscitating the County Farmers Institute. In former years that organization had a large membership, but for three years the conditions were depressing and the institute has been inactive.

A few men met Friday afternoon and decided to start the ball to rolling again and August 30 in the afternoon was agreed on as the date to call the farmers to meet at the court house and reorganize.

The old officers are expected to preside and it is hoped that many farmers will attend. It is expected that representatives of the Department will address the meeting.

SPECIAL TERM DISTRICT COURT

Judge W. W. Beall convened the District Court in special session here Wednesday. There are some long heavy cases on the docket and the people were so busy in their crops last Spring that those cases were assigned for this special term.

The first case to come on was one involving boundary lines to establish ownership to certain lands. Witnesses are here from Borden, Garza and Lynn counties and some are here from New Mexico.

Among the visiting attorneys are noticed J. H. Beall of Sweetwater, T. G. Patterson of Gail; C. B. Vickers of Lubbock; and Assistant Attorney General W. F. Schenke of Austin.

A Dearth of School Teachers

County Supt. O. L. Howell said early this week that it begins to look like some of the schools may not get teachers. There has probably never before been such a scarcity of school teachers. Some districts have sent out offers to pay \$100 a month and have had no applications. Possibly many persons have given up school work because of low salaries, but now the people have come alive to the fact that teachers deserve and must have more pay and yet the teachers are hard to find.

Practically all the schools in Scurry county are well equipped and most of them have made application for free text books. Our communities are all made up of progressive, intelligent people and teachers will find pleasant work and agreeable surroundings and we hope yet to see all the schools taken.

TURNER.

We had a nice little rain last night for which the crops were badly needing.

Maize heading is the order of the day out here now, also syrup making, as everybody nearly has a patch to make up.

We are glad to see our good neighbors, Mr. and Mrs. Fenton and family back home again.

W. S. Upton has come in from the plains and found a fine crop ready to harvest. His niece Miss Eunice Farmer came down with him and spent a few days.

Old Brother and Sister Boyd of Snyder, were with us on Sunday.

Miss Effie Turner has just returned from Dalhart, where she has been visiting her sister.

Mrs. J. R. Higgin's sister and family of DeLeon has been visiting her.

Mr. Canon's daughter, Nora is visiting at home again. We are sorry to state that Mr. Conroy is on the sick list. We sincerely trust the Lord will see fit to restore him, and that the bright light from above may guide his path way.

We were made to rejoice Sunday afternoon, when we witnessed the beautiful baptism of our young brother, Clarence Canon. We are glad to see him take such an important stand. We trust he will be a great and useful man and will be the means of leading his Brothers, and sisters in the right paths of life. The meeting has just closed, had some good preaching, but little interest manifested. Well I will go for fear I stay too long.

—Auntie.

Mr. and Mrs. J. A. Clement of Pine Bluff, Arkansas came in last week to visit their daughter, Mrs. Clifton Perkins.

Mr. and Mrs. W. H. Richardson of Dunn were here Friday trading with our merchants.

Postmaster Abner Rhoades of Ira was here Friday.

Onco for Dysentery.

"While I was in Ashland, Kansas, a gentleman overheard me speaking of Chamberlain's Colic and Diarrhoea Remedy," writes William Whitelaw, of Des Moines, Iowa. "He told me in detail of what it had done for his family, but more especially his daughter who was lying at the point of death with a violent attack of dysentery, and had been given up by the family physician. Some of his neighbors advised him to give Chamberlain's Colic and Diarrhoea Remedy which he did, and fully believes that by doing so saved the life of his child. He stated that he had also used this remedy himself with equally gratifying results."

THE TEXAS OUTLOOK.

The crop improved during the report period. The boll worm is the blot of the horizon. This deadly enemy of cotton has appeared in Texas yearly since its first visitation in 1916, but was confined to very limited areas. This year it is reported in 14 counties, extending from Lamar on to Oklahoma boundary line, through the black waxy lands of north and central Texas to Wilson county and taking in Wilson, Collin, Dallas, Ellis, McLennan, Limestone, Coryell, Falls, ell, Robertson, Milam, Hays, Fayette and Wilson. Infestation was noticed about Aug. 1, and accounts of the damage are conflicting. Some seem to take a very serious view of the matter. We quote a very interesting letter from our correspondent at Ennis:

"No rain for two weeks, and each day adds immensely to our prospect. It's a race between worms, weevils and other destructive insects, and the fruiting ability of the plants. With the help of dry weather the plant is gaining on its enemies. It is a critical time, and the climax will be reached in three weeks. With dry weather we will show a big crop, but if it begins to rain again, we will mature only a small percentage of what is now shown in bolls, squares and blooms, on a large and beautiful plant."

Deterioration has occurred in south east Texas and the coast countries, due to boll weevil depredation and more frequent rainfall occurring until too recently. Texas was dry during the last half of our report period, and cotton made fair to excellent progress in all divisions of the state in response to dry weather and abundant sunshine. Complaints of poor fruiting continues to come from south and southeast, but elsewhere fair to good. Not much complaint of shedding, plant healthy looking but sometimes too luxuriant. Prospects north and west excellent, fair to good central and east, poor to fair south and southeast.

A statement issued from the headquarters of the Texas Republican Council here today says that a "republican census" taken by the Council recently disclosed the fact that thirty thousand republicans have moved to Texas within the past 2 years. A large percentage of the new comers are oil men and it is the claim of local Republicans that this new blood, together with the wide spread change in sentiment throughout the State will materially increase their chance for success in the 1920 election. The hope of republicans may not materialize for not every new-comer is a republican. In fact oil men care little for parties. If they think any certain party will help them most they are for that party.

Messrs. N. G. Turner, A. N. Kemp and A. J. Barnes, trustees of the Wastella school were in Snyder Tuesday conferring with County Superintendent Howell as to transfers and other school matters. They state that they have a good school and have engaged Miss Perry of Roscoe as teacher.

Mr. J. C. Maxwell is in receipt of a message stating that his son, Dr. Elmer Maxwell is back on American soil, having landed in New York a few days ago. Elmer has been in the medical service in France for practically the entire war. He may possibly visit his parents before settling down again in his profession.

Mr. W. M. Morrow of the Grayum Drug Company is in Dallas this week purchasing stock for the drug store.

H. L. Davis and Mrs. Tinker returned a few days ago from the markets over east and are now receiving at Higginbotham Bros & Co, big lines of everything in millinery, dress goods and notions of all sorts, wanted by the men, women and girls of this trade territory and whatever is wanted in fashionable wearing, they have it.

Mr. J. W. Couch and family came in Saturday from Eastland. Mr. Couch has gone back to the oil field to attend his garage interests. The family will remain in Snyder through the school season.

Back to the School Room

The Signal learns that Guy E. Casey who went from here to Mills County to teach the farmers how to farm has decided to go back to his first love and has contracted to take the principalship of the School at Ira.

Mr. G. I. Wilcox informed the Signal that he expects to move his family to Sherman soon to send the children to school in that town. He will leave his son George and Miss Stella McCallum in charge of the business in Snyder.

Miss Stella McCallum has returned from visiting in Collin county and is back at her post as secretary for the Snyder Ice, Light & Power Company. Miss Geneva Wilcox held down that position nicely during the absence of Miss McCallum.

Mr. G. W. Boswell and family have returned from a pleasant visit to his parents in Van Zandt county.

Orville Dodson is here this week from "somewhere."

When J. T. Bowen was in the other day watching the linotype work he said, "surely a crazy man invented the thing—a sane man couldn't have thought of all the points and wouldn't have had time anyway."

Leroy Johnson was here Tuesday from Sweetwater.

Mrs. E. E. Matthews returned Saturday from the markets and is now ready to show the ladies the newest creations in hats, gowns and other fixin's suitable for fashionably dressed women and girls.

Mrs. Dr. Hannabass has been suffering for several days with a severe attack of asthma.

COTTON CROP CONDITION

The Memphis Commercial Appeal gets out periodical reports on the cotton crop and the last report shows a slight decline.

For the ten cotton states, Mr. Fossick the statistician says:

General Outlook

By Geo. L. Fossick
Reports as of Aug. 8 sent in by correspondents of The Commercial Appeal indicate that there has been no market change in the general condition of the cotton crop since the end of July period and that fair to excellent progress has been made.

We place the condition as of Aug. 8 at something between 68 and 69 per cent of normal, compared with our condition figure, 69.9 per cent as on July 20. Definite percentage figures as of Aug. 20 will be issued with our summary and condition report on Aug 25. The 10-year average deterioration between July 25 and Aug. 25 as shown by the government was 7.6 points.

The report herewith covers a period of nearly three weeks from July 20 to Aug. 8 and is based on correspondence covering in details 762 counties embraced in the ten principal cotton growing states.

Boll weevil numerous in South and Central Alabama, but less active scattered complaints of planter fruiting poorly, but general condition Alabama crop exhibit no marked change. Arkansas has held its own or better. Georgia crop going backward in south, but improved elsewhere without much alteration percentage condition as a whole. Looks much better in Louisiana. Mississippi delta counties showed splendid progress, but elsewhere in state fair to good. Oklahoma reduced by drought, but still a brilliant prospect except for lateness. Both the Carolinas holding up in most encouraging way, and little change in crop prospect during period. Tennessee shows improvement but rain would help. Boll worm in 14 counties of Central Texas, but with exception east and southeast divisions looks better than a few weeks ago. Pickling has started in a few counties of Southwest Texas and in Florida. Scattered open bolls in many sections of the belt. Crop a few days to a month late.

Miss Eunice Farmer of Floydada is visiting friends in and about Snyder.

Feasted on Fish

Squire Ben F. Davis went over to Seminole last week to visit Mr. and Mrs. Henry Hart. Soon after arriving their old friend R. B. Holmes found him and invited him to take a fish fry dinner with him last Sunday. Uncle Ben says he made four hauls and caught 55 good size fish.

There were about seventy-five in the party and they consumed about half of the catch. He says his friend Holmes is well fixed and has a large tank stocked with carp, and they are sure fine eating.

Uncle Ben got home Monday and was talking fish when the reporter last saw him.

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard

THEDFORD'S

BLACK-DRAUGHT

recommended very highly, so began to use it. It cured me. I keep it in the house all the time. It is the best liver medicine made. I do not have sick headache or stomach trouble any more." Black-Draught acts on the jaded liver and helps it to do its important work of throwing out waste materials and poisons from the system. This medicine should be in every household for use in time of need. Get a package today. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c a package. All druggists.

A Bilious Attack.

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take three of Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost quarter.

Now All You Good Fellows, Come Fill Up Your Pipes

15c

The Velvet tin is twice as big as shown here

If ever men are "Tom" and "Bill" to each other, it's when good pipes are a-going. If ever good pipes go their best, 'tis when Velvet's in the bowl.

For Velvet is a mighty friendly smoke. Kentucky Burley is the leaf that Nature made for pipes. Wholesome and hearty, honest as the day. And Velvet is that same good Burley leaf, brought to mellow middle age.

For eight long seasons Velvet "meditates" in wooden hogsheads, throwing off the rawness of "young" tobacco—truly "ageing in the wood." Out Velvet comes—cool, calm and generous—the tobacco Nature made good, kept good and made better.

Velvet's sweetness is the sweetness of good tobacco, not "put on" like "frosting" on a cake. Its mildness comes from natural ageing, not from having the life baked out. Its fragrance is true tobacco fragrance, not a perfume. And Velvet makes an A Number One cigarette. Roll one.

As good old Velvet Joe says:

"Fill yo' heart with friendly thoughts,
Yo' mouth with friendly smoke—
An' let the old world wag."

GIANT SEARCHLIGHTS WILL ILLUMINATE VICTORY FAIR

THREE HIGH POWERED LIGHTS MADE FOR RUSSIAN GOVERNMENT SECURED.

Three immense electric Searchlights, that will prove a revelation in illuminating possibilities, have been secured for the Victory Fair. These were obtained through the co-operation of J. F. Strickland, President, and J. W. Carpenter, Vice President, Dallas Light & Power Company.

The combined strength of these searchlights is 6,500,000 candlepower. They were procured in Chicago where they were originally made for the Russian Government prior to the revolution in that country, but were never shipped there. The additional light will be found a great convenience and protection to the visitors. Light is emblematic of progress and knowledge and these giant searchlights will be especially appropriate for the Victory Fair at Dallas in October.

Mr. T. J. Broxson is on the sick list this week.

The Chicago Tribune was charged with having called Henry Ford an anarchist. Ford sued the Tribune for a million dollars damage. The case was on trial for several weeks and a few days ago the jury gave Ford a verdict allowing six cents. That was a Super Six law suit and a fitney judgement.

Matinee 2:00 p. m. and 3:30 p. m. Night 8:15.

Select Pictures' great special attraction, "The Cavill Case," is a true story of the life of Edith Cavill, the heroic British Red Cross nurse, shot in Belgium by the Germans as a spy for whom England has erected a monument in tender memory and recognition of her martyrdom and for whom the civilized world grieves.

This stirring and impressive picture is presented by Joseph L. Plunkett and Frank J. Carroll, with Julia

Arthur, the eminent American actress, in the role of Edith Cavell. The entire story is based on fact. The report of Brand Whitlock, the American Minister to Belgium, is the basis for the truth of the story. Many of the subtleties have been taken direct from the document.

The story is by Anthony Paul Kelly, author of the Broadway success, "Three Faces East." John Adolphi directed the picture. "The theme of this picture is so tremendous and so moving," said Mr. Adolphi, "that it was actually inspiring to work on it. There has not been during the entire war an incident so dramatic and humanly moving as the assassination of Edith Cavell, the British Red Cross nurse, who is admirably portrayed in this picture by Julia Arthur. For sheer brutality, this outrage has eclipsed anything not only done in this war but in all history.

"We have learned from the writings of those present in Brussels at the time, the indisputable facts. These have been followed with accuracy in the screen version. Miss Arthur, who makes her debut in this picture, has been fired with the character she impersonated, and I feel confident that her success on the screen will more than duplicate her wonderful success on the speaking stage.

"The picture is not a war picture, if that term is taken to mean spectacular battle scenes. There are some trench scenes, to be sure, but they are only incidental to the story. The public is satiated with gigantic spectacles showing the troops fighting and in making this picture our sole aim has been to bring out the splendid heroism of Edith Cavell which exemplifies the part which women have played in this war."

Eminent critics assert that if there is anyone incident to which the autocracy of the Central Powers can attribute more than another its defeat it was the execution of Nurse Cavell.

The self-sacrificing Red Cross nurse was charged with aiding Englishmen in their efforts to quit Belgium after the German occupation. So far as the powerful neutral nations, including the United States, could discover, the evidence against the nurse was of the flimsiest sort, and Brand Whitlock interceded for the woman, and pleaded with the German "authorities" throughout the entire night preceding her murder, to no avail.

Edith Cavell was led out in the dawn of a gray morning and shot within fifteen minutes of her notification of the "findings" of the "court martial" that tried her. A new army rose up in England that same day. The bullet that slew Edith Cavell killed the Hohenzollern hope of victory.

The killing of Nurse Cavell is the weightiest message the women of America have yet received. While dealing with a murder, "The Cavell Case," is free from all negative tendency and downward trend. There is a masterly fight and struggle, plenty of general power in the story.

The accuracy of all detail and locations is vouchsafed for by the great number of photographs, lithograph prints and paintings pertaining to the production which was secured by the producers.

They Oppose Prohibition
Hugh Nugent Fitzgerald, editor of the Fort Worth Record furnishes for that paper a running analysis of the platform adopted last week at Fort Worth by the Ferguson crowd of Texas "has-beens". Coming down to third plank in that list of boomlets, Col. Fitzgerald quotes that plank and then comments thus:

Plank Three is a voice from the grave—an echo from the tomb—"we are opposed to national prohibition. Certainly the people can and will undo what has been done without their consent while the boys are fighting in foreign lands."

This is a democracy. The people are the masters. They could return to the liquor traffic and the open saloon. They could return to the dive and the doggery. They could return to or recall by their votes a system and traffic that was a maker of criminals, a creator of poverty, a manufacturer of human misery, a builder of jails and reformatories and largely responsible for pauperism and crime and insanity. They could do all these things, but will they?

Public opinion decreed death and damnation to the traffic. Public opinion controlled the congress of America and Congress acted. Public opinion controlled the legislators of forty-three states and they ratified it is an insult to the 4,000,000 American soldiers to say that they would have voted for the open saloon and the sale of poisons had they been civilians when the great battle for the outlawry of John Barleycorn was on.

GIRLS! LEMON JUICE IS A SKIN WHITENER.

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing 3 ounces of orchid white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchid white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck arms and hands.
