

The Snyder Signal

THIRTY-THIRD YEAR.

SNYDER, SCURRY COUNTY, TEXAS, FRIDAY, AUGUST 29, 1919.

NUMBER ELEVEN

OPENING OF SNYDER SCHOOLS.

The Snyder Public Schools will open Monday September 8.

On account of the time required for adjusting the grades of the respective wards and for procuring all books we shall have no opening exercises.

There will be no seventh grade at Central Building this year. The first day all pupils in the Seventh Grade will report at Colonial Hill school. All pupils in the Colonial Hill ward in the Sixth Grade will report at Central Building the first day. All pupils in the North Ward up to and including the Sixth Grade will report at North Ward the first day. All other pupils will report at Central building the first day.

It is the policy of the school board to arrange the attendance at the wards to accommodate the largest number of patrons, and we invite the friendly suggestion of any patron in trying to accomplish this. On account of the situation of the ward schools it is almost impossible to arrange the attendance convenient for all the patrons, but we shall do our best, and we ask you to assist us. We feel confident that by working out the problem that way you will be satisfied, at least with our effort, whether you are satisfied with the situation of the respective buildings or not. You are all aware of the discontent resulting from that.

A faculty meeting of all teachers will be held at Central —building September, 6 at 10.00 a. m.

No pupils are to bring books the first day. The state will furnish books and the pupils will be advised by the teachers how to procure them. As it is true that no public enterprise can make the best success without cooperation, we invite every patron to cooperate, make friendly suggestions and criticisms and help us in every way you can to improve your schools constantly. I wish emphatically to state in the outset that we believe in our patrons and our pupils. A patron may make a mistake but that is no more than we teachers often do. We expect you to look over our mistakes and help us to mend them, therefore we can look over yours.

If you have a grievance against a teacher, go to the teacher with it, or else come to me, and you will be heard. It is a gross injustice to the teacher to the pupil to the school, and a keen reflection upon yourself we criticize a teacher to the public before you carry your complaint to the teacher. It is equally as inconsistent for a teacher publicly to criticize a pupil, patrons or another teacher or superintendent or school board. If we will work out our troubles with those vitally interested we can not fail.

A school is for the pupils, but it is not for the pupils to run. We invite your assistance in making the conduct of your children such that you will be proud of. Will you do it? We are trusting you for that kind of support. It shall be our aim to make this the best school Snyder as ever had. We realize that we have your work before us. We want you to expect something of us and let us know all along how we are getting along. Do not be afraid to speak to us; we are just common folks like you, and your servants at that. We get our monthly salary whether we do our full duty or not; but if we help your children on their way we shall receive a reward so high that thieves can never touch it.

Yours to serve,
S. L. Rives.

School Teachers to the Front.

A few weeks ago there was a general report that school teachers are scarce and hard to find. Supt. Howell had stated that there were ten schools in Scurry county not supplied and no applications coming in. That condition was reported in the Signal and also in the Dallas News. And now it seems the tide has turned. Mr. Howell said this week that he is literally snowed under with applications and letters from teachers.

They are coming to him every day and he finds he can get more teachers than he can possibly use. He admits that publicity is the thing. People away from here had probably decided that Scurry county had been blotted out but they know now that we are on the map and very much alive.

MEXICAN OIL PROBLEM.

Sections of Laws Enacted Since 1793 Would Give Government Right to Exercise Dominion Over Deposits.

Mexico City, Aug. 22.—A complete history of the Mexican petroleum question, including legislation dating back to the days of Spanish dominion and continuing up to the constitution of 1917, together with data concerning the industry and figuring showing profits made by oil companies in this country, has been furnished the Associated Press by Leon Salinas, under-secretary of commerce and labor, which department has charge of matters pertaining to petroleum.

Sections of laws enacted since 1793, according to his statement, established for the Mexican government the legal right to exercise dominion over coal and oil deposits and to enact mining and commercial codes which shall be binding throughout the republic. Article 267 of the constitution of 1917, the statement says, "defines in clear terms the dominion of the nation over hydrocarbons and outlines a system of concessions for the explicit attention and development of petroleum territory."

Discussing various legal phases of the question and giving historical data concerning the establishment of different developments in the republic, the statement gives production figures which show that from 1901 to 1918 approximately 236,000,000 barrels of oil were produced in Mexico each year. The production during 1918 was approximately eleven percent of the potential production of the country, the statement says, adding that lack of transportation has been the reason that the Mexican oil industry has not yet equaled that of the United States.

Referring to profits, the statement cites one company which in 1918 returned a net profit of more than 2,800,000 pounds sterling, being 177 per cent of the invested capital, which does not include the increase of value in the lands controlled by the company.

In conclusion, the statement says: "This analysis is for the purpose of demonstration that the oil business is a good one when it is carried out with the technical and financial means required by the magnitude of the enterprise."

EFFECT OF OIL DISCOVERY.

There is no way of measuring the effect of what oil discovery may do for a country. For years and years people have been traveling through Eastland-Ranger country on the Texas Pacific and that country was so generally uninteresting that folks would not care to even look at it as the train pulled through.

The little stations along the way furnished no attraction. The tired-looking station agent and a few lounging wood choppers were about all the noticeable signs of life. The discovery of oil has transformed that region into bustling, bustling, hurrying hullabaloo all along the way. Strawn, Gordon, Brazos, and other little whistling stations are now teeming with all types of humanity. The dingy old station buildings have been torn away and massive structures are now the rule.

Oil did it, and oil, real oil will do the same for any other Texas community. Let us hope that the people here may sit steady in the boat till the pool is tapped, and then the ball will roll.

Some weeks ago an oil company started to drill a well in the Palo Duro Canyon near Amarillo and on Friday of last week they struck a gas pocket at 900 feet. The drill was blown non of the hole and the derrick was torn to pieces. The flow is estimated at about 30,000,000 cubic feet.

MR. DENNIS LOSES FOUR HEAD OF HORSES BY DROWNING

Mr. E. A. Dennis and son Clyde of the Bethel country have been teaming in the oil field all summer. Some time ago they closed out their engagement there to come back to Snyder. Mr. Dennis came home several days ago and Clyde was coming through with the wagon and horses. He was driving the team of four horses to the wagon. It will be remembered that on Wednesday morning of last week a tremendous rain fell over Fisher county and the east part of Scurry.

Clyde was at Roby when the rain came. He started out from there Wednesday. The sloughs, swags and draws were all flooded. He drove through these safely and when near Hobbs he came to another flush stream over which was a small bridge. He drove on to it, and because of a turn in the structure the lead team plunged off into deep water, pulling the wheel team and the wagon after them and all were drowned. Clyde saved himself by swimming. Besides the team, the loss was about seventy five dollars in tools and supplies. The wagon and harness have been recovered. Mr. Dennis says he could have sold his horses and harness for \$1,300. He says his loss amounts to more than he and Clyde made while working in the oil field.

Rival Meeting Closed.

The Church of Christ closed their revival meeting at the city tabernacle last Sunday, six persons were baptised into the church. Two were baptised at the Hargrove pool at 10 o'clock Saturday night, after the close of the night service.

Mrs. Ingle Seriously Hurt.

Mrs. P. J. Ingle living on their farm northwest of town had the misfortune to fall a few days ago and one hip was broken. Mrs. Ingle has been in feeble health for a long time and gets about with crutches and in some way lost her balance and fell. Her many friends join in extending sympathy in her affliction.

First Christian Church.

There will be regular services at the church Aug. 31st. Bible school lesson and unusually good one Hugh Boren, Supt. Preaching at 11:00 a. m. and at 7:30 p. m. Come.

D. R. Hardison, Pastor.

Bro. L. S. Knight was at Bison last Sunday to fill his regular appointment but owing to the rain had no audience to preach to. He says there were fully four inches of rain there Sunday. The roads were badly washed but he thinks the crops were not much damaged. Bro. Knight has been going to Bison every 4th Sunday this year and there has been rain every time.

Bought Home in Snyder.

The Signal learns that Mr. A. C. Elkins of the Polar country has purchased the Charlie Cooper home in West Snyder and will move his family here to reside. They are coming for school advantages.

Mr. A. D. Dodson loaded his suit case Tuesday with his work clothes and with a bucket full of tomatoes and eggs left for his ranch to serve a sentence at harvesting maize. He has the finest crop of feed he ever raised and may have to build more barns in which to store the stuff.

Zack Hull, formerly of Snyder now residing at Atlanta, Georgia was here this week on some sort of a business mission.

Mr. J. F. Baker of Quanah has been the guest this week of his sister, Mrs. J. S. Hardy.

Jack Stone of Lamesa was here a few days ago enroute home from a prolonged service in France and Germany. He stopped over in Snyder to visit his aunt, Miss Lizzie Smith.

Mrs. Charle Cooper has returned to Fort Worth after a visit here with her parents, Mr. and Mrs. A. D. Dodson.

FARMERS ORGANIZE ASSOCIATION

Will Maintain County Warehouse and Marketing Co-Operation.

A large gathering of representative farmers of Scurry county was held here last Saturday, in fact the county court room was comfortably filled with men. The purpose of the meeting was to effect permanent organization of the Scurry County Warehouse and Marketing Association.

D. F. Wilson presided at the meeting and H. L. Holley was secretary. Mr. F. I. Townsend delivered an address explaining the plans and purposes of the Association. He is familiar with the condition of the farming people and may be found always in the front of any sort of proper movement for the promotion of the welfare of the farm.

He explained the law providing for the warehouse and marketing business and showed how it will protect the farmers against losses in handling and selling crops.

Mr. R. H. Currutte explained the attitude of the banks toward the movement pointing out that mutual benefits to all the people and the institutions.

In the organization of this enterprise the Farmers Co-operative Association which has been here for several months, to the financial advantage of the people is merged into the newer organization and the members of the one became the members of the other, and then all other interested citizens may become members of the association upon payment of the membership fee. Mr. O. F. Darby was elected temporary custodian of the funds. The charter now being applied for will establish the name, the objects and the first official list of the Association. In going into permanent organization a committee was appointed to submit names of ten men, from which list five directors would be elected by ballot.

The directors thus elected are: A. C. Wilmett, H. P. Wellborn, H. L. Holley, M. Stacy, and F. M. Brownfield. Of these A. C. Wilmett was chosen as president, H. P. Wellborn, vice president and H. L. Holley, Secretary-treasurer.

Below is a list of the men who have already gone into the new association and others will be solicited to join by the following authorized committee: B. A. Worthington, J. W. Hancock, W. R. Schultz, J. I. Chorn, L. C. Darby and W. A. Brownfield.

List of membership: A. M. Herren, A. J. Carnes, S. L. Johnson, W. J. Evans, J. C. Page, C. B. White, F. M. Brownfield, M. A. Carden, E. P. DeLoach, M. L. Hill, M. Stacy, M. D. L. Myers, J. S. Cemetery Workers, and Others.

Last Tuesday evening we had only 35 workers at the Cemetery. We have tried hard to interest people but only a few responded. We want to thank all those who came and worked at different times, and especially those who took the interest in the graves of their departed friends, who had no loved ones living here to see to the keeping of the graves. Lots of graves remain uncared for, wish we could leave every grave neat and clean but so few worked we could not get around to all.

There are many graves yet needing attention and their people live right in Snyder and they never have been to one single working, nor donated either. We mean to still work for the cemetery and try to raise money in some way to clean it up and beautify it in every possible way. But we want ask you to come and work out there any more for we realize times are busy now and will be thru the entire year. Thanking each and all again who helped in any way.

JAIL TERM IS PROPOSED FOR FOOD VIOLATORS

Star-Telegram.

A bill will be presented before the next Legislature that will call for jail sentences where proprietors of establishments have been convicted on charges of selling impure food. The present law calls for a fine of not more than \$200 without a jail penalty.

County Judge Small probably will draft an amendment to the present State law or will have it done. In some cases he believes that a jail sentence would do more good toward stopping the sale of unwholesome food than a fine would do.

Several applications have been received for positions with the new Health Department which is to be created by the county. One or more inspectors are to be employed to visit food and soft drink houses to stop the sale of food and drinks not fit for human consumption.

County officers are keeping a close watch on restaurants and cafes as a result of several complaints being received during the past week.

First Baptist Church.

Our regular services will be held Sunday, Sunday school 9:45. Preaching services 11:00 and 8:15. Everyone given a cordial welcome.

The pastor will be home and preach at both hours. The meeting has been a great blessing thus far, continue your prayers that God may continue to pour out his blessings.

W. H. Sims, Pastor.

Appointed Railroad Attorney.

Judge M. E. Rosser of Snyder has recently been appointed General Attorney for the R. S. & P. Railway. Judge Rosser is a good lawyer and his experience in the legislature adds to his knowledge of the relations of railroads to the public.

Green Family Reunion

Mr. and Mrs. J. W. Green are enjoying the rare pleasure of having all of their children at home with them all of their children with them and family came in a few days ago from Yoakum County, Mrs. Caton and children from Medina and Everett from Canadian and W. K. is expected to come in this week from Ranger. J. W. says it is a happy family reunion.

Mr. A. J. Lloyd and family of Comanche were guests of R. M. McGinnis and family.

SCHOOL TRUSTEES IN CONVENTION

The convention of school trustees at the County Court room here last Monday was an interesting and profitable event. There were about 30 trustees in attendance. Some districts were not represented, some others sent one or two men, but Periman says Martin and Dermott were here 100 per cent. Some new school laws have come into force and these were explained by Supt. Howell, Chairman Dodson, Senator Buchanan, and Representative Rosser.

These laws relate to transfers, free school books, state aid in the sharing in the \$1,000,000 school appropriation and other matters of special moment.

The trustees are awake to the matter of maintaining good schools in all communities and to that end they believe in paying living salaries to teachers and before adjournment these resolutions were unanimously adopted:

Resolutions.

We, the trustees of the various schools of Scurry county in annual meeting assembled do hereby adopt the following resolutions:

1. That whereas, due to the fact that the high cost of living and other causes have driven many of our best teachers from the profession, to seek more remunerative employment, and

2. Whereas many of our schools are unable to secure experienced teachers which are so badly needed to meet the emergency of the "after-war-conditions," we as a body do hereby resolve that we favor higher salaries commensurate with the services rendered and that we recognize the fact that before this can be done, the local taxes in many of the various districts will necessarily have to be raised, and

3. Realizing the great responsibility under which our teachers are placed in the intellectual, moral and physical welfare of the children placed under their care, be it resolved that we exercise due care and diligence in the employment of our teachers and that we strongly recommend that they abstain from the use of profane or vulgar language, the use of tobacco in any form, and the habit of dancing, and that they use all reasonable efforts to discourage these things among the pupils whom they teach, and

4. Be it further resolved that a copy of these resolutions be furnished the Snyder Signal for publication.

W. W. Hallman of Johnson county is here looking around. He was here a few years ago and bought a farm but like so many others he went back to the blackland and we have an idea he will arrange to come back to the west.

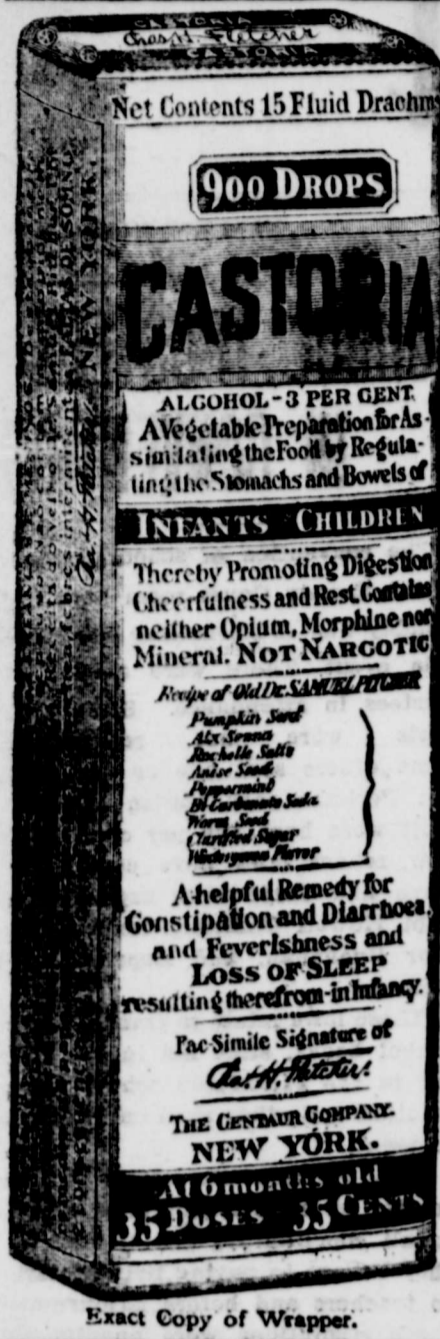

Mr. W. D. Merrell and family of Ladonia have been visiting here abouts and they like this country. Some of their folks have bought land here and others are apt to come here.

Mrs. J. W. Norton has been visiting here from Waxahachie. The Nortons lived in this country long enough to come to like the people and the climate. They still own their farm near Union and some time they welcome back.

Elijah Black of Ellis county is here to see about his farm and to visit his brother W. T. Black. Lige is pleased with the outlook now and feels like the crop failure of last year is an ancient history.

Mr. J. R. Coker who has been here for quite a while in the grocery department at the Higginbotham store will sever his connection there and move back to Hermligh, where he will be manager of the Fuller Co. gin.

Hugh Boren and family returned last Friday from their Colorado trip.

How Constitution is Amended.
The American Congress adopted amendment to the federal constitution granting full rights to women and submitting it to the several state legislatures to be ratified or rejected. Just a few weeks previous to that act the matter of state suffrage had been submitted in Texas and defeated by a small majority. Now the anti administration democrats in Texas are howling because the Texas legislature ratified the amendment, without again getting a popular vote. As a matter of fact the Texas legislature followed the law and had no constitutional authority to submit the national amendment to a popular vote. The Constitution of the United States Says:

Article 5.
SAYS:
"The Congress, whenever two thirds of both houses shall deem it necessary; shall propose amendments to this constitution, or, on application of two thirds of the several states, shall call a convention for proposing amendments, which, in either case shall be valid to all intents and purposes, as part of the constitution when ratified by the legislatures of three-fourths of the several states, or by conventions in three-fourths thereof as the one or the other mode of ratification may be proposed by congress. Thomas Jefferson helped to make the constitution and he lived by it and fiction may be proposed by congress. was satisfied with its provisions and several states have already followed the Jeffersonian instructions and have voted by their legislatures on the woman suffrage question. The Fort Worth Record says:

Pennsylvania is a banner Republican state. Pennsylvania defeated an equal suffrage amendment to the state constitution by a tremendous majority. What followed? The nationwide equal suffrage amendment was submitted to the legislature for ratification or rejection. Penn law makers ratified it. Massachusetts defeated an equal suffrage amendment to constitution of that state. Then what followed? Massachusetts law makers ratified the nation-wide amendment Missouri defeated an

Cure for Dysentery.
"While I was in Ashland, Kansas, a gentleman overheard me speaking of Chamberlain's Colic and Diarrhoea Remedy," writes William Whitelaw, of Des Moines, Iowa. "He told me in detail of what it had done for his family, but more especially his daughter who was lying at the point of death with a violent attack of dysentery, and had been given up by the family physician. Some of his neighbors advised him to give Chamberlain's Colic and Diarrhoea Remedy which he did, and fully believes that by doing so saved the life of his child. He stated that he had also used this remedy himself with equally gratifying results."

In every home where there is a baby there should also be a bottle of McGee's Baby Elixir. It may be needed at any time to correct sour stomach, wind colic, diarrhoea or summer complaint. It is a wholesome remedy, contains no opium, morphine or injurious drug of any kind. Sold by Grayum Drug Co.

LIFT OFF CORNS!
Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!
A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.
Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

Helps Sick Women
Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, . . . and the pains were very severe. A friend told me I had tried everything else, why not Cardui? . . . I did, and soon saw it was helping me . . . After 12 bottles, I am strong and well."

CARDUI
The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.
Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

equal suffrage amendment. Missouri lawmakers (and democrats control the assembly,) ratified the nationwide amendment. Fourteen states have ratified. Two states have rejected the amendment. The handwriting is on the wall.

Surgeons agree that in cases of cuts, Burns, Bruises and Wounds, the first treatment is most important. When an efficient antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, Borozone is the ideal antiseptic and healing agent. Buy it now and be ready for an emergency. Sold by Grayum Drug Company.

Two Angles With One Point
The course of procedure by both factions of party secessionists at Fort Worth is not surprising. The fact that Jim Ferguson and his little bunch of followers are proposing to "jump the fence" and organize a new party is about all they could do. The republicans don't want them and their anti pro theories wouldn't fit in with socialists. The people of Texas through the agency of a democratic legislature took away the citizenship of the leader of that faction and left him without a party. He has nothing to lose and his followers have no political standing. As for Bailey and his following, while practically down and out they hope to fight their way to recognition. Bailey is too smart to try to establish a new party to pit against Texas democracy. Both factions of that disgruntlement are fighting the prohibition wave and in that line they are agreed to the extent that would deny all ministers of the gospel any will in the affairs of government. They would rather see the democratic party defeated than to see their brewers and liquor people put out of Texas.

To Improve Your Digestion.
"For years my digestion was so poor that I could only eat the lightest foods. I tried everything that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them did I find the right treatment. Since taking them my digestion is fine."—Mrs. Blanch Bowers Indiana, Pa.

"Bayer Tablets of Aspirin" should always be asked for. Then look for the safety "Bayer Cross" on the package and on each tablet. Accept nothing else! Proper directions and dosage in each Bayer package. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

SUGGESTION FOR COTTON HOLDING.
Special to the Signal
Atlanta, Ga., August 25.—We earnestly urge that the cotton farmers and the holders of cotton be not stampeded by propoganda now being issued by bear speculators and parties who desire to buy cheap cotton, but that they stand steady and refuse to sell their staple at present prices." The executive committee of the American Cotton Association says in a statement issued at

headquarters here. The committee further says: "The Association deplores the organized effort now being made to depress and send the price of cotton to the bottom. In spite of the fact that cotton goods have greatly advanced, cotton prices have gone down twenty dollars to twenty-five dollars per bale. Today the staple, measured by the price of manufactured cotton goods, is intrinsically worth more than thirty-five cents per pound and even at that price it is the cheapest commodity being sold in the world's markets. As soon as the American Cotton Association is fully organized with its million members it will immediately begin an organized fight in behalf of cotton."

AMONG THE MERCHANTS

Miss Sula Scoggins has returned from a visit in Oklahoma and has accepted a position as saleslady in the Caton-Dodson Store.

The Echols Drug Co. are right up with the times with everything in their line, with a force of affable and courteous salespeople.

You can easily find Boyd & Son just north of the Snyder National Bank. They will do the rest.

The Blackard Hardware Co. are always in the front row. This week they are making a specialty in furniture rugs and the like and have stoves and heaters for getting ready for winter. They know the value of publicity.

The McGlaun Garage changes the wording of their adv a little bit this week, but they are not leaving off any of their points of courtesy and efficiency in the methods of serving the public.

Mr. W. M. Morrow was in Dallas last week and bought a new soda fountain for the Grayum Drug Co.

Everything is neat and nice at Matthews Quality Store for ladies and their offerings in Ladies goods are new and up to the minute.

Higginbotham Bros. & Co. are getting in new goods all the time and have added several sections of new shelving to take care of their big stock of shoes. You'll find it just as they say in their advertising space.

Everybody at the J. H. Sears & Co Store is in business lining up the new arrivals in dry goods, clothing and other things now coming in fresh from the wholesale markets and their adv this week tells about it.

The Aviation Garage is rapidly taking a front place in that line. They are stocked up with accessories of all sorts and are always busy on repair work. Lieutenants Waterman and Devlin are both practical mechanics, practical businessmen and splendid gentlemen.

The Cozy Theatre is getting good patronage every day and night. Mr. Crawford is giving movie goers good service. He is screening the most popular stories of the age and there is no more pleasant place in town to spend a few hours for rest, recreation and entertainment.

Don't fail to note the showing at the L. & H. Economy store. They carry just about anything you may need in the home or for personal outfitting and they sell as cheap as can be done and they always seem glad to have you look about the store whether you buy or not.

H. G. Towle is always to the front in jewelry, china, glass and lots of other goods in his line and he can fit

you out in anything you want. He knows the wants of Scurry county folks in gold, silver, cut glass, china goods and pretty things generally and he has a fine stock of all of it.

The Caton-Dodson Dry Goods Co. are getting properly fixed up in their new home on the north side and are ready to serve their customers in the good old way.

The Buckhorn Tailors, next door to the First National Bank conduct one of the liveliest and most up-to-date tailoring houses in West Texas. Messrs. Bargman and Rogers are both live wires and know the business thoroughly. Their shop is equipped with the last word in tailoring machinery and all work submitted to them is turned out promptly and in order. They have recently greatly enlarged their line of ready-to-wear clothing for men and are prepared for supplying made-to-order wearing apparel and they do it now. Their haberdashery line is complete. They give personal attention to all their customers and their business is growing rapidly.

Court Trying Land Suit.
As stated in the Signal last week the District court of Scurry county was convened here last Wednesday in special session to try some old cases. The court took up the Borden-Garza land case on the first day and has been on it ever since. This is a case of Slaughter vs. Hight and others. It is a suit over land on the line of Borden and Garza counties and involves about two sections.

It is understood that Plaintiff Slaughter claims the land by virtue

of patent and purchase from the Nave-McCord Cattle Company and Mr. Hight claims there is a vacancy and under a survey and purchase by Sam Chalk, claims he has superior title by limitation. All the parties are represented by leading lawyers of West Texas and the Attorney General's office is represented in the case by assistant W. F. Schenke.

The case has taken up more than a week and at this hour is still on the board.

The jurors who have had this long and tedious season of service are: Lee Sturdivant, Little Westbrook, W. A. Taylor, G. W. Lewis, J. A. Merritt, S. W. Light, H. T. Walton, R. E. Curry, R. W. West, T. W. Crenshaw, R. V. Ramsour, J. H. Myres.

JUST AND FAIR EXPLANATION

Dear friends:
Allow me to say in defense of myself, and also in defense of the people at large.

It has been frequently said that I, E. K. Smith, was knocking all other insurance companies, in trying to forward my system, in the eyes of the public. I most emphatically deny such ideas. I wish to say instead of even wishing to do such thing, the object is to fight the system of all the old lines with the only object, via, to force old lines to do justice to the honest policy holders. Statistics plainly show that old line rates are too high. No member of my official household would stoop to do or say a thing that would reflect one iota upon the just insurance of any company.

E. K. SMITH,

Frank Fritz of Lockport, New York and R. W. LeMond of Kansas City have succeeded in cinching a nice block of oil leases here and have gone away to arrange for development.

Mr. J. L. Walling and family of Mexico are guests of his sister, Mrs. W. Green and family. Mr. Walling is in oil business at Texico.

Stanton Oil Co. truck No. 3 was re Thursday from the Riley well haul out supplies for the drillers.

W. Ellis and family and G. C. Swell of Wills Point are visiting G. Boswell and family.

Mr. Wilcox informed the Signal a few days ago that somebody tapped the cash till at the Light plant one night last week and got off with about fifty dollars. So far as reported no arrest has been made.

Mr. Jas. R. Maddox of Cherokee county, Texas, has purchased a home 4 1/2 miles southeast of Snyder. Mr. Maddox is an old time cotton farmer and says a part of the crop on the place he bought will make a bale per acre.

Jim Baze stated Thursday that his brother, John, sick at Roswell was no better at 6 o'clock Wednesday. In fact his condition is serious.

OIL INTEREST REVIVED.

Rigs Going Up. Acreage Being Secured. Home Company Stock Holders Discuss Drilling.

Oil interest is growing in Scurry county and is dividing honors to some extent with the crop condition and strangers and prospectors in both these important lines are here. The activities in this county seem to be mostly north and northwest. Oil men seem to be agreed that the formations in that part of the county are strongly indicative of an abundance of oil.

Several expert geologists have been all over that region and they all bring back encouraging reports. One prominent geologist after looking over the county from Snyder to Kent, Garza and Borden county lines, noting all the surface pointers and testing with instruments said "It is a structural symphony. A geological rhapsody."

The Signal is authorized to say that our people are getting busy and something is going to tear loose soon.

Riley Well No. One: Work on this property goes steadily forward, and the prospects are that drilling will begin in less than 30 days. Mr. C. Hamilton is here this week and went out to the drill site Wednesday to make preparations to install the engine, which was shipped out Tuesday from Ranger. The drilling crew will shortly follow. Every preparation is being made to proceed with the drilling. The derrick has been completed; coal on the yards at Dermott, and the rest of the machinery in transit. Bunk houses are being built to accommodate the hands and the site already has assumed consid-

erable activity, and is reached by a well beaten auto road across what was, until a few days ago, virgin prairie.

Oil interest seems to be coming much alive and a number of oil men are here this week. The Riley Ranch which has heretofore been of interest only to owners and tax assessors has become a noted point and a well beaten road now leads to section 655. A pipe and may be a railroad may go there some day.

Messrs Fritz and Earnest from N. Y. and Mr. R. W. LeMond from Kansas City have just closed a deal for a large block of oil and gas leases north west of town. These men are oil men and expect to develop their holdings in the near future. They are to be congratulated on securing this valuable acreage lying as it does right in the midst of the activity.

Mr. Lemond and Mr. Earnest have returned to their respective homes and Mr. Fritz has gone south but they may all be back here in a few weeks.

Monday afternoon at 3 o'clock a meeting of the stockholders of Scurry County Oil Association met in the county court room at Snyder, for the purpose of transacting certain business of the association.

A report of the business done by said Association since its beginning was read by the Secretary and Treasurer, Mr. Guy E. Paxton, which was as follows:

Total cash and bonds received, sale of stock and leases \$21,369.25. Expenses \$8,883.60.

Leaving a net balance cash and bonds on hand of \$12,485.65.

After the report was read a matter was submitted to the stockholders for a proposition to be made by the association to a large oil company to drill out the proposed well for the association, on a 50-50 basis. The directors were authorized to make such a contract if accepted by the oil company.

It seems that a large oil concern had asked for such a proposition from the association.

Scurry county is interesting oil men in different parts of the country and these people are desirous of getting some holdings in West Texas, and have decided that Scurry county is a good field to test out.

The Association will go right ahead with its business and no delay will come of this offer. If accepted drilling will start in a few weeks by the oil people who take over the contract. If not accepted the association will start drilling within a short time.

The derrick timbers are now on the ground, the casing and part of the machinery is also on the ground, the remainder of the machinery and tools are in transit.

A contract to build the derrick has been let and will be started within the next ten days.

Hence we will soon see this well spudded in.

There is no question about this test being made.

If the people to whom the proposition was made takes over the drilling, they will also drill out other sites and will add much to our oil interest in Scurry county.

However, our local association does not go out of existence even

though this offer is accepted as the offer only transfers the responsibility of drilling the first test well to other parties. The association will retain certain management over the affairs of the well and holds much leverage for development, in case the test justifies development, which we all believe it will.

H. G. TOWLE.

MARY THURMAN FAT GIRL IN "POOR BOOB."

Mary Thurman, whose face and figure are known to every photoplay fan who has laughed at Paramount-Mack Sennett Comedies, makes her first dramatic appearance in "Poor Boob," a Paramount picture starring Bryant Washburn, which will be seen at the Cozy Theatre Tomorrow.

Miss Thurman's ambition for years has been to try real acting, and here she is given an opportunity that she more than grasps. In the greater part of the picture Miss Thurman has a character role, and her ability to look unattractive will amaze those who remember her as possessing an unusual beauty. She was forced to make up to weigh two hundred pounds, and she succeeded so admirably, it is said that no one would recognize her as the slim maiden who flashed through so many of the Sennett creations.

In the leading feminine role of "Poor Boob," which was written by Margaret Mayo, is Wanda Hawley. Others in the cast are Theodore Roberts, Raymond Hatton, Guy Oliver, Jane Wolff, Charles Ogle and Jay Dwiggin, Donald Crisp Directed.

GREAT PROMISE FULFILLING.

Last Sunday was a rainy day in West Texas. In the early morning the deep rolling thunder presaged just such a rain as our people had been praying for. The cotton had begun to need it. The late feed stuff was just ready and corn would soon have suffered.

It was about 6 a. m. when the rain commenced and it continued unceasingly for ten hours. The ground was made thoroughly wet. Field crops of all kinds and languishing gardens have taken on new life and the people are surcharged with pep and energy and business in all lines is coming alive.

The estimated rain fall at Snyder was three inches. Some think more. It was a big rain all over the county and especially a heavy down pour over the Ira country. Persons living there estimate four to ten inches. This is the third time this year that

section of the country has been flooded.

Reports from the country along Canyon creek and the Colorado river say all the bridges were washed out, including three large steel bridges on Canyon. Roads were torn up and fields badly washed. It will put the cotton, the feed stuff and the June Corn to the good and Scurry county has never before had so splendid a crop condition. The early maize, kafir, feterita and other feeds are made—the later stuff will come in abundance and it is believed that the maize stalks will produce a sucker crop equal to the first. George Richardson of Dunn says they have already made more feed than can be gathered.

John Hancock says the creek at Dunn got up almost to the big bridge

and he fears his washpot has been washed away.

Miss Catherine Head of Corpus Christi, is visiting Miss Maggie Norred of Snyder, and friends. She will begin teaching school Monday in Wheeler.

Mr. J. H. Mayo of Freestone county is the guest of his brother, J. C. Mayo of Snyder. He says things look good to him here. The worms and weevils have just about cleaned up the cotton in his country.

Mr. and Mrs. Ed Ward entertained friends at their home Wednesday night, arranging 42 games and home dancing. Every one enjoyed cream and cake. Visitors Mr. and Mrs. Sam

Ward, El Paso, Miss Bert Myri Big Spring, Miss Mae Oma Bro Justiceburg, Mrs. Ralph Towler, Worth.

A Bilious Attack.

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take three of Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter.

C. W. A. Stokes of Dawson county was here this week looking over Scurry county with a view to buying a farm.

Give Me a Friendly, Natural Hand-shake

an' a friendly natural tobacco. Keep yo' put-on airs an' "sauce-up" tobaccos for the fellow that likes nut sundaes better than home made pie—

So says a friend of ours named Velvet Joe. And he just about hits the nail on the head.

Velvet is made for men who think there's no smoke like real tobacco. If you are that sort of man, listen:

Velvet was born in old Kentucky, where more than one good thing comes from. It was raised as carefully as any other Kentucky thoroughbred. But the real secret of Velvet's friendly qualities is its slow natural ageing in wooden hogsheads. Ageing in the wood never hurt anything—and least of all, tobacco.

And so we say, Velvet is good tobacco—nothing more or less. It runs second to none.

The picture of the pipe on the tin needn't keep you from rolling a jim-dandy cigarette with Velvet.

Snyder, Texas, August 29, 1919.

No product is included in the amended food control act reported to the house of representatives by the agricultural committee; neither is there given an extension of the price fixing authority. Administration of the law with a severe penalty of a fine of \$5,000 or imprisonment is left with the department of justice.

Retailers exempted under the present law are to be amenable to the terms of the new act and rendered liable to prosecution if found profiting. Publicity appears to be the thing. Publicity creates public opinion. Public opinion crystallizes sound thought into law—Fort Worth Record.

The Bailey Platform shows a grasp of the fundamental principles of government and society that few public documents of this or any other age possess. That it is a re-cast of ideas proved by the experience of many nations and of all ages and is not burdened with new discoveries in political science is very much in its favor. That its author is recognized as one of the most capable and courageous American citizens further commends it.—Texas Republican Council.

Nobody doubts Bailey's courage and capability and if turned in the right way and used in the right spirit

it he would accomplish something, but the Republicans are not apt to get any great benefits out of Bailey's activities in Texas.

Now if the railroad men should decide to live on the pay of the ninth and tenth hours of the day and do no work at all, business is apt to get badly balled up.

Editor R. E. Bradbury and family left Friday for their home at Mullin.

T. J. Weaver was in Monday from Pyron and moved his Signal date up a notch.

Grayum Drug Store No. 2.
Snyder is to have another drug store. The Signal is informed by Mr. W. M. Morrow that the Grayum Drug Company will in a short time establish a new store, known as Grayum Drug Co. store No. 2, in the Richards, or Huffman building on the east side of the square and that

Mr. Lee Stinson will have charge of that store. Workmen are now putting the building in order, fitting it up for a modern, up-to-date drug store. Mr. Morrow states that it will probably be two or three weeks before the store is opened for business. The carpenter work, painting, etc., will take considerable time and it will require considerable time to get the fixtures all placed.

Mrs. Fred A. Grayum and daughter, Miss Violet, are visiting relatives at Stamford.

Miss Alice Grayum left Wednesday to visit her sister, Mrs. J. J. Steele at Anson.

Of all the tires that are made, —why do you suppose we prefer to sell United States Tires?

Because they are made by the biggest rubber company in the world. And they know how to build good tires.

They have choice of materials,—they have immense

facilities,—they employ many exclusive methods.

They can go to greater lengths in testing, improving and perfecting the things that make good tires.

We find it good business to sell United States Tires.

And—you will find it good business to buy them. They are here—a tire for every need.

If your child is pale and sticky picks at the nose, starts in the sleep and grinds the teeth while sleeping it is a sure sign of worms. A remedy for these parasites will be found in Whites Cream Vermifuge. It not only clears out the worms, but it restores health and cheerfulness. Sold by Grayum Drug Company.

"ENTANGLEMENTS"

Dearborn Independent. "Keep out of foreign entanglements," were wisewords of George Washington to his contemporaries and to posterity. No less in 1919 than in 1777 every American may demonish his countrymen and his representative rulers, "Keep out of foreign entanglements."

But the loyalty of American people for Washington's memory must not be missed. Somewould like to have us think that Washington expected grit with an antique Chinese wall of seclusion and isolation, Washington himself was an international statesman in public life just as in private life he was engaged in internal commerce. He was a maker of treaties. His fear of foreign entanglements did not become a bugbear dread of any foreign relations.

The enlightened American public will not be fearful of "foreign en-

entanglements" because today our foreign relations are inevitable intimate. The world is a small world, and it diminishes with the building of every new aeroplane. The nations are nearer together, and they grow nearer with the building of every new wireless station. There are ties, links, unifying bands, but they are not entanglements.

So the entry of this republic into a world-republic of nations, a league of peoples, will not be a foreign entanglement, any more than the adding of States to the Union is a violation of Washington's principles. Agreements between the triumphant democrats to maintain the principles of their victory is not an entanglement. On the other hand, America's withdrawal from the League of Nations, a severance of bonds between America and her Allies, would prove an entanglement indeed. Let us maintain Washington's principles.

and keep out of entanglements foreign to Washington's meaning!

LEMONS WHITEN AND BEAUTIFY THE SKIN.

Make this beautiful lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

Highway Is Approved

The State Highway Commission has approved the name "Colorado-Florida" highway for the designated highway that enters the State at Orange and emerges at Texline. This road is a part of the National highway connecting the Summer and Winter Resorts of Colorado, Florida, and Texas.

Is Mexico Pro-German?

Dr. P. B. Altendorff, who was in the secret service in Mexico for nearly two years is now unfolding some dark chapters of German intrigue and Mexican treachery. He had gained the confidence of German and Mexican leaders including Carranza who was playing the German hand in every move against America and the Allies. They had planned an army of Germans and Mexicans of 45,000 strong and were to make a raid across the border simultaneously with the Ludendorff drive in France in July 1918. Dr. Atendorff says that he managed to get the impression set that some of the leaders were spies and could not be trusted and in that way prevented the raid. He says that Germany has almost got control of industrial and economic conditions in Mexico and is planning to make Mexico a German Colony and to get control of all Latin America. The arrogant and austere attitude of

Carranza almost proves that Altendorff is telling the truth suggests that now is the time to put a crimp in the German scheme. Mexico has committed sins enough against the United States to justify a far reaching demand for redress but it is well to fully analyze the Altendorff revelation.

A Modern John Brown

John R. Shillady of Chicago is a white skin man and a secretary of a society for the betterment of negroes. He went to Austin last week just as did the white scalawags after the civil war. He mixed around with the Austin negroes, like John Brown in Virginia in the long ago. He talked to the negroes about their social rights and had them riled up against the white people. He had incited race feelings and in short time would have brought on a clash like the late Chicago affair. The citizens got on

his trail, they found out his game and a vigilance committee waited on him, gave him a drubbing and advised him to "get" and he got.

A woman admirer of the propagandist wired Gov. Hobby to know if any effort would be made to look to the protection of the negroes and he promptly replied that Shillady was the only offender and he has quit the country. The governor assured the woman that she can do vastly more good for her people by keeping such characters out of the state. The people of the South can handle the negroes right and will never consent to interference by northern fanatics.

THE STATE OF TEXAS
County of Scurry

I, W. M. CURRY, Clerk of the County Court, in and for Scurry County, Texas, do hereby certify, that the above and foregoing, is a true and correct copy of the delinquent tax rolls arranged numerically as to abstract, block and lot as reported by S. T. Elza, Tax Collector for Scurry County, Texas, for the year, 1918, given under my hand and seal of office this first day of August, A. D., 1919.

W. M. CURRY, County Clerk Scurry County, Texas. (Seal)

Notice To School Children

The backs of all school tablets sold by us this year will bear a special stamp of ours.

We are going to trade salted peanuts and small package candies for the return of these backs bearing this special stamp. The same quality candy and peanuts we have always sold, no trick about it, we are simply bidding for your tablet and pencil patronage, and prefer to spend our advertising funds with you instead of other methods of advertising.

Be certain that all your pencil tablets bear the stamp referred to. Better inquire into the matter and be clear upon the subject in the beginning.
