THIRTY-THIRD YEAR.

SNYDER, SCURRY COUNTY, TEXAS, FRIDAY, NOV. 21, 1919.

NUMBER TWENTY THREE

## OUR RURAL SCHOOL MATTERS

Quite a number of communities are setting aside Thanksgiving day, Thursday, November 27, as "clean up day" to meet at the schoolhouse with dinner on the ground and clean up inside and out and have a good social time together. Others are planning for box suppers also for that night to raise funds for equipping the grounds with play apparatus.

Very few schools have begun so far. Most of them will wait until after Christmas to begin. The seven months term should begin by now by all means. The six months not later than December 1, and five months by December 9. This arrangement will throw May 21 as closing day for all schools. My experience and observation is that schools are not a success that run longer than that date.

I strongly recommend to the local trustees that they set December 29 as the beginning of the compulsory term. Remember that the term this year is five months.

The program for the Teacher's Institute will appear next week. We are planning for the best institute this year in the history of Snyder. Fisher County teachers are to be with us. All told about one hundred twenty five teachers are to be present besides out of town lecturers and speakers. Mr. Musseleman, editor of the Texas School Journal, Professor Garrett, Superintendent of the Training School Department of San Marcos Normal, and Miss Adelin White, of Everybody now critic teacher in Canyon Normal, are to be with us during the entire week. A glance at the program next week will convince anyone that it will not only be interesting and profitable for teachers to attend, but school patrons and citizens of Snyder and all Scurry county as well.

The State Department of Education authorizes us to announce another teachers' examination Dec. 5, 6. Following is a schedule:

Friday forenoon: Physical Geography, Grammar, Descriptive Geography, Plain Geometry, Psychology, Book-keeping.

Saturday afternoon: Spelling, Writing, Methods and Management, Civics, Reading, Chemistry, History of Education.

Sunday afternoon: United States History, General History, Physics, Plane Trigonometry.

### Dr. Waddill Goes to Stamford

Rev. A. W. Waddill and family are leaving this week for Stamford at which place the Conference assigned them. Bro. Waddill has been pastor of the Methodist church in Snyder for two years and the church is prospering in several ways than when he came here. He is one of the best men we have ever had—earnest, consistent, full of piety and good works, and a pulpit preacher above the mediocre class. One of his strongest traits is that he is your friend as long as you are in the right.

He goes to a stronger church where he will have opportunity for broader spheres of work.

His successor, Rev. John H. Hicks comes to us from Miami, and will begin in his pastorate next Sunday. In the going of Bro. Waddill, Snyder feels also the loss of a faithful worker in the person of Mrs. Waddill.

### Daughter Died at Angelo

Mrs. Nannie Chapman and son, Berry, returned Tuesday from a sad mission. Mrs. Chapman received a message Friday saying her daughter had died suddenly at San Angelo and they hurried away Saturday to attend the funeral. The daughter was married there just a few weeks ago.

Adding to this great sorrow Mrs. Chapman received a letter about the same time telling of the death of her brother in another part of the State.

## SPIRIT OF REBELLION NOTED AMONG HIGH SCHOOL PUPILS

The Dallas News says: The following self explanatory letter just mailed should interest many readers of The News:

Mr. W. T. Darden, President of the School Board, Waco, Texas: Dear Sir:—I have just read in this morning's News the report of a mass meeting of your citizens yesterday to protest against the punishment prescribed for the conduct of certain pupils in your schools, and asking modification of the same.

Through an extended observation as high school principal and superintendent in Texas schools, this writer has noted each year the growing demand by high school pupils for entire freedom from restraint on their conduct. Every reported strike or walkout in the name or even the mask of freedom finds a ready response in the student body of many schools, and often teachers with the conscience and the courage to resist this demand lose their positions thereby. This is the object lesson of the schools. The spirit of rebellion, insidious or openly, has scored in triumph. The results are more and more noticeable among students in school and grown-ups outside; respect for law and authority are at a discount.

Honor to the Waco School Board for this valuable service, which should stand as a bulwark in support of law and government in thousands of schools. Regrets for the misguided actions of those citizens who thus gave their support to the efforts to weaken the influence of the teachers and to destroy the most valuable thing in the schools of your city and of every city—that proper respect for law and authority which is the only safeguard of democracy.

Surely I voice the saner judgment of law-abiding citizens everywhere who would prevent our schools from becoming nests of anarchy when I express hope that your honorable board will adhere to its decision, except, perhaps, that the principal might have the discretion of remitting or modifying the punishment as justified by the attitude of individual pupils.

J. F. MASSEY

### Cotton Loan Not Recalled

WASHINGTON, Nov. 16.—Denying persistent rumors to the effect that the Federal Reserve Banks have contemplated the recall of loans made on cotton or the future issue of loans, W. P. G. Harding, governor of the Federal Reserve Board, in a letter today to Senator Smith of South Carolina stated the only change made in the position of the banks regarding cotton loans was a tendency to stricter examination in the grade of cotton shown by the receipts pledged as collateral.

"The banks will not assume the value of even 25c per pound," Mr. Harding said, "unless the receipts do indicate the grade or other satisfactory evidence is furnished as to what the grade is. There are so many different grades of cotton, and the spread between the value of the lowest and the highest grade is so great that it seems to me some knowledge of the grade is necessary in lending intelligently on cotton as collateral."

Mr. Harding declared there was nothing to warrant the inference that 25c a pound was to be regarded as a maximum salable value for loan purposes, adding:

"We know that some long staple cotton recently sold in New Orleans for 75c a pound, and we know also that it is not unusual for the fluctuations in cotton to amount to as much as 200 points in a single day. In these circumstances it seems to me that it is necessary to require a larger margin in making loans on cotton than was the case when cotton was selling at a much lower price and was free from the extraordinary fluctuations to which it is now subject."

Jim Dawson said Thursday that he has received the bill of lading for a car of coal enroute from Colorado and thinks it will be here by Monday.

Charlie Harless, Dr. Davenport and Jim Harless are off this week on a hunting trip.

### Merchants in Cotton Market

The Signal learns that the big merchantile house of Higginbotham Bros & Co., have entered the cotton market with practically unlimited resources. This house has engaged J. C. Ezell to go on the streets and exercise all his energies and judgment to maintain the local market standards to the fullest extent warranted by conditions.

There is a probability that some of the other merchantile houses may get in the game and Snyder will stand at the head as a cotton market.

### West Ward School at Work

A Signal reporter visited the Colonial Hill School Tuesday and found one of the busiest bunches in Texas. Up-to-the-minute teachers and live, wide-awake pupils. It was study hour with them and the nice quiet studious bearing of the children gave the reason for their progress and for the fact that we never hear of any trouble in that school.

Miss Mable Clark presides over a room full of primary pupils and is giving them the proper training for advancement. She had a class of beginners gathered about her desk and they were interested in reading and in drawing and shaping objects to impress their reading lesson. These children are making fine progress.

Mrs. Howell, principal of this school, was at home on account of sickness in her family and Miss Alta Hull was in charge of the 6th and 7th grade room and it inspires a visitor to watch these boys and girls at work. They responded readily to all suggestions, except that some of the boys came big alive when it was intimated that the girls could beat them at baseball.

Mrs. King's room, 3rd, 4th and 5th grades, is a regular bee hive for industry and energy and attention. A room full of bright, good looking children and the teacher speaks in terms of praise of their general deportment. The Signal wants to keep tab on their advancement and note the honor roll from time to time for the general advancement in scholarship.

### Dr. Wilson Buys Laundry

Dr. T. L. Wilson has bought the plant of the Snyder steam laundry, consideration of \$1500. Dr. Wilson says as soon as he can get everything in working order the laundry will be in operation.

### Should Have Resented

LAREDO, Nov. 17.—Andres Garcia, Mexican consul at El Paso, has been dismissed by the Carranza government, according to Mexico City advices received here today, because "he remained calmly seated" at a banquet in El Paso when Governor W. P. Hobby of Texas made an address urging intervention in Mexico.

Official announcement has been made in Mexico City, the advices stated, that Garcia would be succeeded by Ignacio Morancy Mariscal, his private secretary. The announcement declared that Gov. Hobby "is distinguished for his virulent attacks on Mexico."

### First Baptist Church

All the regular services at the Baptist church next Sunday, but a special hour in the morning for our people. Not only the pastor but several others will also speak. This service is to the end that our people may understand more fully the great campaign and also our church building matter. Some resolutions will be read for the adoption of the church. We are, therefore, anxious for all our people to be present.

No subjects will be announced, but the hours will be of special interest.

W. H. SIMS, Pastor

A. H. Trice the gin man at Camp Springs was here Thursday and said he had to close down Wednesday night because of no fuel. He is trying to arrange for a supply and hopes to start up again in a few days. He has ginned 660 bales this season.

Dr. Jesse of Chicago lectured at the Baptist church last Sunday night in the interest of the anti-saloon league.

H. M. Murphy and son were here Wednesday to sell cotton.

### Ladies Missionary Society

The Ladies Missionary Society meeting of the Baptist Church was held Monday afternoon in the suburban home of Mrs. E. E. Brumley. It was opened by singing "Remember Calvary."

Mrs. Fred Grayum was leader. The subject was—"Lengthening the cords and strengthening the stakes." Verses of scripture were read and commented upon by some of the ladies on soul winning and personal service.

Mrs. Simms, Mrs. Ralston, Mrs. Taylor read paragraphs pertaining to the work of the Home Board.

Mrs. M. E. Rosser, the new president made an inspiring talk and appointed the following committees: Program: Mrs. Deason, Mrs. Bell, Mrs. Leath; Social: Mrs. Grayum, Mrs. Chambers, Mrs. Bannister, Mrs. R. L. Smith.

Orphans Home: Mrs. McQuinn, Mrs. Echols, Mrs. Simms. Enlistment: Mrs. Simms, Mrs. Morris, Mrs. Shaw.

Journal: Mrs. Harpole, Personal Service: Mrs. Hull, Mrs. Brumley, Mrs. Casteven, Mrs. Taylor, Mrs. Johnson, Mrs. Simms. Mrs. Simms read a letter from Miss Malory of Baltimore thanking the pastor and members for kindness shown on her recent visit here in the interest of the campaign. She followed this with the importance of the Sunbeam work urging the mothers to send their children to the Sunday afternoon meetings.

A pleasant social hour was spent and refreshments served, with favors of miniature pumpkins reminding us of the approach of Thanksgiving.

An offering was taken. Some new members were present. Meeting was dismissed by prayer by president.

### Three Week's Supply of Coal

ST. LOUIS, Nov. 17.—The southwestern region fuel committee, which apportions the distribution of coal in the southwestern railroad region, today announced that there is available only about three weeks' supply of coal in the United States.

If conservation measures become necessary the first step taken, according to the committee, will be the curtailment to gas and electric street lighting and electric display signs.

On last Monday night those Presbyterians who were so fortunate as to be present at the Presbyterian Church enjoyed a treat. Rev. Chatfield of Stamford, Texas, Rev. J. A. Owen of Albany, Texas, and Dr. J. Gilmore Smith, superintendent of the Hebrew orphanage of Albany, Texas, who are touring the Abilene Presbytery in the interest of the New Era movement of the church, made their stop at Snyder. Each of them made a forceful talk, setting forth the aims of the church, and their plans by which every member may become a helper in this great reconstruction drive. Their words of exhortation to fall in line has left a beneficial influence on all who heard them.

### Oil Talk

So far as we have been able to learn the drilling outfits hereabout are waiting for fuel, cars of oil have been ordered and they will be here sometime.

There was some excitement here early this week over a report that an oil well at Merkel had come in and was spouting oil over the top. Somebody here phoned a prominent business man of Merkel for confirmation and the man said "It may be so but I haven't heard it."

There has been some sort of a sporting carnival going on for a few days near Snyder. It seems the goat roping game was the leading feature but it has been difficult to find who have been the main actors.

The first half of this week has been fine for cotton picking and the farmers have been hitting the ball.

Report are coming in from the late cotton district that the freeze did serious damage.

Sheriff J. D. Byrd went to Amarillo Wednesday night to accompany an attached witness.

## BIG DRIVE FOR COTTON

Up to 3 p. m. Thursday the Snyder gins had turned out this season the following number of bales:

Fuller Co.	1997
Farmer's Union	625
Sears Gin	760
Brice Burnett	1102
Other gins in the County:	
Fluvanna	702
Camp Springs	660
Dunn	893
Foch (Fuller)	805
Foch (Bills)	672
Total Bales Ginned in Scurry County	8215

The gins are running day and night. All gin yards are full of wagons waiting their turn and wagon yard lots are full up and wagon after wagon coming in from every direction. Cotton haulers come in at all times of the night and in many cases have to wait several hours to get their bales ginned.

Cotton is off several points ranging from 37 to 38 1-2. Cotton seed \$70 a ton.

### Snyder's Telephone Service

Taking all the points into the count, our telephone plant has been giving the most satisfactory service of any of our public utility institutions. Connections are promptly made and the public get uniformly courteous attention by management and operators. This is not a new condition of course, it has been so all along and the recent changes that have been made have in no way impaired the service.

Mr. Daniels has been transferred to Big Spring and J. W. Grayum is the new manager in Snyder and he is filling the bill. Miss Lula Chenoweth is chief operator and the other operators are Miss Ollie Chenoweth, Miss Andrea Morris, Miss Reaves and Mrs. Gorman.

Manager Grayum says they are working just now a little short in operating force but he expects to soon have a full force at the switch boards.

### SNYDER MAN MARRIED AT SWEETWATER

Roscoe Times  
Mr. Haywood Patterson of Snyder and Miss Eula Phillips were united in marriage by County Judge A. S. Manzer in the court house at Sweetwater Tuesday morning, after which they proceeded to Snyder where they will reside.

Miss Eula was attending the public school and left home for school Tuesday morning, as usual, but instead of going to the school building she met Mr. Patterson by appointment with the above result.

Mr. Patterson is a splendid young farmer of Scurry County, residing near Snyder. He is well known in Roscoe, having resided here a short time a few years ago, and made many friends here by his manly conduct.

Miss Eula is the daughter of Mrs. W. S. Cooper. She has been reared here and was very popular among the young people of the town. The Times extends congratulations and good wishes.

Motor route carrier L. McQuinn has installed a mail cabinet on his car for hauling out parcel post matter to the people. That department of the mail facilities has grown into a big business and Mr. McQuinn serves a patronage that will turn more and more to that branch of postal service. He is prepared to carry a big store of stuff to the Ira territory.

Judge W. W. Beall was here Thursday just looking around.

Charles Ring of El Paso came in from Austin Thursday morning with 21 Mexicans and placed them with farmers to pick cotton.

L. C. Ruch, the Moun Pleasant, driller at Fluvanna was here Thursday and said they are shut down waiting for fuel.

Farmers are coming in at all times in the day and night hauling cotton.

## METHODIST CONFERENCE AT LUBBOCK, ASSIGNMENT OF PREACHERS ANNOUNCED

The Northwest Texas Annual Conference closed its session at Lubbock last Saturday night and selected Clarendon for the next session, 1920. The meeting was well attended and the reports from all over the big territory showed the church in good condition.

Bishop McMurry proved a grand presiding officer and Rev. George Stuart enthused the preachers by his masterful addresses on the principles, methods and the practices Higgins and Judge W. S. Adamson were there from Snyder.

The Bishop read out the assignment of the preachers on Saturday night and many of them hustled back home to get ready to move. Only one of the Scurry county preachers will remain in this county. He is Rev. J. R. Plant and is moved from Herneleigh to Dunn. Following are the appointments for the Sweetwater District:

Sweetwater District, Presiding Elder, G. S. Hardy; Big Spring Station, Ben Hardy; Big Spring Circuit, J. J. Smith, supply; Blackwell circuit, M. H. Hudson; College Station, W. H. Lane; Dunn circuit, J. R. Plant; Fluvanna circuit, Silas Dixon; Foch circuit, W. B. Hicks; Hamlin station, C. E. Jameson; Hamlin circuit L. P. McCrary, supply; Loraine circuit, Sam H. Young; McCauley circuit, R. S. Watkins; Roby circuit, O. B. Annis; Roscoe, John W. Hawkins; Rotan station, J. W. Watson; Snyder station, John H. Hicks; Stanton, J. B. McReynolds; Sweetwater station, J. W. Israel; Silverton circuit, H. W. Banks; Westbrook circuit, G. A. Wooster, supply; Missionary to Cuba, J. F. Caperton.

It will be noticed that J. B. McReynolds goes from Dunn to Stanton.

Rev. A. W. Waddill after two years of faithful work here goes to St. Johns church at Stamford. J. W. Hunt remains at St. Pauls church in Abilene. J. E. Yeater at one time on Camp Springs circuit goes to Tuxedo. G. H. Gattis remains at Paducah. R. A. Stewart goes from Canyon to Miami and Simean Shaw to Canyon.

Rev. John H. Hicks comes to us from Miami.

W. P. Garvin goes from Colorado to be Presiding Elder of the Vernon district. J. G. Griswald remains on Lubbock station.

### Visiting Preacher Here

Rev. J. A. Owen, Superintendent of the Reynolds Presbyterian Ordinance at Albany, Texas, Rev. Gilmore Smith, pastor at Albany and Rev. Geo. A. Chatfield, pastor at Stamford, all prominent ministers of the Presbyterian church, came to Snyder Monday night unheralded and had an interesting impromptu meeting at the Presbyterian church in the interest of the New Era movement. This is a movement to raise funds to meet the various enterprises and activities of the church.

The visitors left Tuesday morning for Fluvanna to confer with Bro. Tate.

### New Pastor Here

Rev. Jno. H. Hicks, the new pastor of the Methodist Church here will deliver his first sermon next Sunday morning at 11 o'clock.

It is hoped that the membership and friends will give him a good hearing and that they will not quit attending after the first introduction.

The new preacher is well spoken of by people who know him, and while we have never been tried out on that line we have an idea that a pastor can do much better work where the membership are true and faithful and ready to help. It must surely be a great cross for a preacher to see only about one tenth of his members at the services.

It is unofficially estimated that the three Banks in Snyder have at least two million dollars now on deposit.

The fuel administration estimates there is enough coal to last a week. An embargo on freight shipments is probable in which event it is estimated 15,000,000 men will be thrown out of employment. This condition will be a result of the coal strike.

**Trouble Makers**  
"These that have turned the World upside down have come hither also.—Acts 17:6.

When the unbelieving Jews at Thessalonica took Jason and others before the rulers and filed that charge against them, they were prompted by a feeling of resentment of any sort of infringement of their authority, although they were assured that these people had not come to destroy the law but to fulfill it. The mission of these people was to preach peace and not to incite to war and tear down the institutions of society and civilization.

That was an invasion of servants of righteousness and resulted in the establishment of the principles of Christianity—the propagation of the seeds of truth, and good will among men. Their mission was spiritual; their conduct was respectful of law and order; there was no effort toward destruction of life or property; their weapon was the pure word of God presented by men imbued with the spirit of faith and well-grounded devotion to the teachings of the old prophets as revealed in the Christ.

Truth has not changed, but certain social conditions have come about in recent years when human selfishness has come to seek advantage for one class over the other. For many years in the past, we have heard and read of organizations of men in foreign countries seeking to overthrow law and undermine all forms of government and turn all order and civilization into confusion and disorder, and now we who have enjoyed the blessings of law, religion and organized society may well say as did those Thessalonian Jews, "they that have turned the world upside down are come hither also." They are not confining themselves to Russia or Roumania or Germany but have invaded our peaceful and prosperous America, where liberal laws and customs have long prevailed to give to every class and cult a chance to live and enjoy civil and political freedom. They are not content with American liberality and toleration. They come seeking the overthrow of government and order and would destroy all the elements of social, civil, political, industrial and religious liberty they have ever known. These people have been described as anarchists—now they bob up as bolshevists, I. W. W. and alien enemies. Let it be kept in mind that Germany hates the United States and Germany is the most resourceful nation in the world in the way of hatching and promoting propaganda to carry out designs of treachery. It can hardly be doubted that German influence is behind the restless elements now making trouble in this country. The bold outlawry of the I. W. W. in Washington, Oregon, California and Illinois, the strikes in all the industrial works, the antagonistic spirit manifested in Mexico and the bumptious, arrogant, brutal spirit manifested among American negroes, all go to show that some powerful, cunningly devised, sinister influence is behind these agencies of confusion and turmoil to wreck American institution and reduce our proud nation to a state of chaos and ruin.

There are 60,000 seditious people now under surveillance of the Department of Justice.

By stubbornness of Republican leaders in the Senate we have just about lost all that our boys fought for in France.

A squad of I. W. W. braves have repulsed a posse of ex-service men in Washington and a stronger force is organizing to press the fight to a finish.

The Democratic administration has done all it could to bring about world peace on a lasting basis but the Republicans didn't want it so. It is now more apparent than ever why President Wilson insisted upon the election of a Congress in harmony with his policies.

Republican Senators have about succeeded in killing the peace treaty and now want to declare peace with Germany without any international agreement, and Germany will discountenance whatever the United States may propose and business hostilities are apt to continue.

**HAD CHRONIC BRONCHITIS FOR TWENTY-SIX YEARS NOW WELL AND HAPPY THIS IS WORTH READING**

The experience of Mr. E. J. Touppalik, 1438 Rose street, LaCrosse, Wisconsin, is chiefly remarkable on account of the length of time he was afflicted.

He writes: "I have been suffering with chronic bronchitis for twenty-six years and every winter I would catch cold and become so hoarse I could not speak for six or eight weeks. I could get only temporary relief.

"This winter I was taken with Grip and was in awful shape. A fellow workman advised me to take PE-RU-NA. By the time I had used three-fourths of a bottle, the hoarseness was gone, also that tired feeling. I am on my second bottle. Hereafter PE-RU-NA will be constantly in my house. It is the best medicine ever put up for the purpose."

For any disease due to catarrh or catarrhal conditions, PE-RU-NA is equally dependable. Coughs, colds, catarrh of the head, stomach trouble, constipation, rheumatism, pains in the back, side and loins, bloating, belching gas, indigestion, catarrh of the large and small intestines, are some of the troubles for which PE-RU-NA is especially recommended.

PE-RU-NA can be purchased anywhere in either tablet or liquid form.

D. 1919, in a suit, numbered on Docket of said court No. 2137, wherein Fannie Allen is plaintiff and George Allen is defendant, said petition alleging that plaintiff has resided in Texas for a period of twelve months and in Scurry County for a period of six months next preceeding the filing of this suit; that plaintiff and defendant were lawfully married to each other in Shelby County, Tenn., on or about May 2nd, 1904, and that they lived together as husband and wife until about October 3rd, 1910, when defendant, without cause or excuse, left plaintiff with the intention of abandoning her, and since which time they have not lived together as husband and wife, and have continuously lived apart from each other, and that since said date, defendant has not supported nor contributed to the support of plaintiff; that two children were born to said marriage, to wit, Ruth Allen, a girl age 14 years and Vergil Allen, a boy, age 11 years. Plaintiff prays for judgement dissolving the marriage relationship now existing between plaintiff and defendant, for the care, custody and control of said children, for costs of suit, and for such other and further

## Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. ## 300,000 Maxwells

How they created a demand for the Post-War Maxwell that cannot be fulfilled

THERE is a demand for the Post-War Maxwell that eight great plants cannot fill. More than 40,000 persons who set their minds on having one will have to go without.

The cause for this is due largely to the magnificent performance of the 300,000 previous Maxwells.

They delivered such excellent mileage at such low cost that the great American public learned to know this car.

This unprecedented demand is evidence of its deep rooted appreciation. Then when the Post-War Maxwell came out, with its score or more of refinements and improvements developed during the war, the demand for Maxwell reached a new peak.

100,000 are being built during the current year. 40,000 more readily could be marketed.

Thousands are priding themselves on possessing one of these Post-War models; thousands more will have their hopes filled; thousands will have to go without.

Which class will you be in?

### MOVIE SERIAL SHOWS

#### FRANKS OF STUDENTS

The pranks of college students in playful mood are always worth a laugh. Due to the college atmosphere in the opening chapter of Vitagraph's latest fifteen-episode adventure serial, "Smashing Barriers," which Manager Crawford announces will be shown at the Cozy Theatre every Wednesday beginning next week, there is offered an opportunity for this type of humor that was taken advantage of.

William Duncan (Dick Daring) is the star of this serial and the hero of his college. He leads the boys on one of their nightly escapades which ends up by purloining from the college clothes line a piece of lingerie belonging to the wife of one of the professors, and flying it from the campus flag pole. They anticipate that the "prof" will attempt to retrieve the garment himself and they grease the pole half way up. It works just as they expected and it is a well-placed and sure-fire laugh that relieves the heavy action of the rest of the episode.

### MOVIES NOT INJURIOUS

#### TO EYESIGHT

Oculist Says Eyestrain from Viewing Films May Indicate Ocular Trouble Not Poor Projection

(By Frank H. Madison)

Oculists are advertising "good Eyesight, Good Movies." How recently was it that the only oculist who broke into print were those who declared the moving picture was blinding the nation.

A prominent New York firm of oculists and optometrists are emphasizing the delights of watching the screen's most famous comedian as one of the reasons why people should see if their eyes need attention.

"If your eyes become tired from constant focusing on the screen," says this firm's advertisement, "or if you are inclined to have headache after an evening at the theatre, it is a fair indication that you need glasses."

There is little doubt that in days gone by a great many persons discovered when they went to the picture show their eyes would hurt them.

Then the pictures would rightly be blamed, since projection "n everything" was at a low standard. But now, if you go to a legitimate moving picture show and your eyes hurt you, it is better to worry about

them and not about the projection.

#### The Eyes at Fault

In fact George T. Hills, of Youngstown, Ohio, writing in the Optical Journal and Review of Optometry says: "With the picture shows at the standard that they are kept at most places, the care in seating, mechanism, screen and films and the science of photography in its present state, we find the eye more often in fault than the pictures."

Furthermore he says that if a picture under favorable conditions has caused "annoyance, fatigue or pain, the show has called attention to pre-existing ocular defects that have heretofore passed unnoticed." And he adds that the majority who complain of discomfort really have defective vision of which they had been unaware.

#### Evil in Gripping Pictures

If all patrons had been in consultation with this eye specialist, exhibitors might lose business by advertising pictures as gripping for he points out that focusing the eye sharply is tiring to them. Such focusing is occasioned by viewing pictures in which interest is intense.

In discussing the effect of moving pictures on the eyes he shows that the physical, mental or nervous make-up of the person may cause a condition that will interfere with the enjoyment of a show but may be only a sign that the individual should consult an oculist or optometrist.

#### Comfort a big Factor

Among the conditions which would contribute to eye annoyance are several that could be remedied by the manager, and these conditions are seldom found in a progressive house. Comfort is a big factor. Comfort is provided by proper seating which allows the spectator to relax and by ventilation that permits normal breathing and keeps the blood circulating normally. The illumination too is important, poorly placed wall or ceiling lights may contribute no little discomfort.

With the present standard of projection and films, the average theatre has but few things to guard against. Poor projection machinery or scratched films are cited as really injurious. If the spectator has any defect of vision the flickering film is declared to be distinctly harmful. And such a film is so pronounced annoying to persons with normal eyes. The proper recommendation in this case is that the individual hunt up a better picture show.

Thirty Films a Week Uninjurious

Charlie Chaplin in "Sunnyside"

"Sunnyside" is the most human of all Chaplins' stories. He gets his laughs with but little of the old "Slapstick" method. One scene is immensely droll in which he burlesques the craze for the Greek Dance, with the skill that only this KING of comedians knows how to use.

"It abounds in hearty laughs and clean fun"

**FORMER MANAGEMENT**

**Report of Farm Loan Bank**

Secretary A. J. Towle of the Scurry County Federal Farm Loan Association has been furnished by Secretary Lindsey a report for October of the operations of the Federal Farm Loan Bank of Houston. This report is interesting as it shows the increase in farm tenancy for the past 30 years and impresses one with the importance of taking advantage of the opportunities afforded by the Federal Loan Institutions.

Mr. Towle says there have been loaned by the Scurry County Association since its organization, between \$500,000 and \$600,000, to enable owners to pay out or improve their lands and to convert tenants into home owners. One remarkable fact is that altho these loans were made to run 30 or 40 years, many of the borrowers are already coming in to take up their loans. This is a result of big crops and high prices in West Texas.

**Secretary Lindsey's Report**

Of the 997 applicants for loans approved during October, 182 or practically 16 per cent were those of landless persons who sought loans for the purpose of purchasing homes. The oldest applicant was 73 years of age; the youngest 19; the average age of all is 37 1/2.

Eastern Texas, where lands are cheapest furnished the highest percentage (about three-fourths of the total). The Black Land Belt where lands are highest in value, furnished the smallest percent. While in South and West Texas the per cent was better than in the Black Land Belt, though not so good as that of East Texas.

The importance of this drive will be appreciated when we remember the rapid and I might say abnormal growth of tenancy of Texas as shown by the Agricultural Bulletin for Texas, Thirteenth Census of the United States; Farms operated by owners, year 1880, 108,716; by tenants, 65,468; Year 1890, by owners 132,616; by tenants 95,510. Year 1900, by owners 177,190; by tenants 174,991. Year 1910, by owners, 195,863; by tenants, 219,575.

These figures show that in the last thirty years the proportion of tenants in Texas has increased from 37.6 per cent of all farms in 1880 to 52.6 in 1910. In these thirty years farm owners have increased at the rate of a little less than 3,000 a year while tenants have increased at the rate of a little over 5,000 per year. I believe that we should make every effort to reduce the per cent of tenants to farm owners in this state, at least to the average proportion of tenants to farm owners of the United States, which is 37 per cent.

**Bad Faith of Consul Jenkins**

The American people were almost incensed two or three weeks ago when it was reported that William O. Jenkins, American Consul at Pueblo had been kidnapped by Mexicans and was being held for \$15,000 ransom. Enter it was reported that Jenkins had procured his release by paying a part of the money and giving his note for the balance. Now it is about to be shown that he was not abducted at all but was conniving with the bandits in violation of all principles of faith and honesty. This is shown in a dispatch from Mexico City which says:

MEXICO CITY, Nov. 16.—William O. Jenkins, United States consular agent at Puebla, was placed under arrest Saturday and held under surveillance in his home following charges by officials of Puebla that Jenkins was not abducted by Frederico Cordova, the bandit leader, but was in connivance with him, according to a letter received here tonight.

 British newspapers ridicule the American prohibition campaigners. Sure they ridicule them. There are belted earls, well groomed knights and rotund barons who are brewers and distillers and large contributors to the campaign fund of the political parties over there. And these man-made monuments of nobility are the owners of newspapers or stockholders in the same.—Fort Worth Record.  
 Such rotund barons, belted earls, well groomed knights used to ridicule prohibition in this country but now they sit back and cuss it.

To the Sheriff or any Constable of Scurry County, Greeting

You are hereby commanded to summon Tom Pettitt by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some paper published in your county to appear at the next regular term of the District Court of Scurry County, to be holden at the courthouse thereof in Snyder, on the 4th Monday in December, 1910, the same being the 22nd day of Dec. 1910, then and there to answer a petition filed in said court on the 27th day of January, 1910, in suit, numbered on the docket of said court No. 2125, wherein Nealie Pettitt is plaintiff and Tom Pettitt is defendant, said petition alleging that plaintiff is an actual bona fide inhabitant of the State of Texas and has resided in the State for more than 12 months and in Scurry County for more than 6 months next preceeding the filing of her petition; that plaintiff and defendant were legally married on the 27th day of December, 1903 and continued to live together as husband and wife until on or about the 10th day of March 1910, when defendant abandoned plaintiff and ran away with another man's wife and lived in adultery with her and still lives in adultery with her; that there were born to this union three children, one boy and two girls; that the mother has the custody of said children. Plaintiff prays for decree dissolving the bonds of matrimony, custody of children, cost of suit, etc.

Herein fall not, but have before said court on the first day of the next term thereof, this writ, with your return thereon showing how you have executed the same.

GALLEY NO. 1  
COTTON PRICES TO PRODUCERS  
ADDRESS TO THE PEOPLE

To the Bankers:—  
You said reduce the acreage; your advice and the abandonment of much planted land, lack of labor to plant, cultivate and harvest, rains rotting grown bolls and lint in the fields, boll weevils, boll worms, leaf worms, root rot, drouth, floods and frost, combined, will limit production to less than a ten million bale famine crop.

The world is bare of cotton. It would consume 15 million bales profitably after paying 50 cents per pound for it.

When cotton producers got \$25 for a bale that was all they could deposit. Now with your partial support last year and this, the farmers who have held their cotton can deposit eight times that amount per bale of foreign money with you. Your profits are limited only by volume of deposits. True, farmers are paying their notes, but with expansion of business through use of abundant capital you can always find borrowers. Your wealth has been created by labor and lands of the farmers. They have confidence in our banks and will act on your advice, therefore you are to some extent morally responsible in this. So we emphatically, earnestly and urgently request that all of you advise the farmers to hold their cotton, shelter, insure and market slowly. The immediate and steady result will be that the growers will receive a price somewhat nearer cost of production.

There is not a chance for loss of a cent, but certainly of incalculable help hold, shelter and market slow-prosperity of the farmers, which adds to the possibility of the crop next year, whose profits you will share.

We hope for decisive action by you to utilize your influence and financial power for the benefit of all.

To the Merchants:  
This cotton has cost the producer more than 44 cents per pound. The farmers are your customers and friends. The Banks will carry you ninety days longer, with profit to themselves, to you and the farmers. Help hold, shelter and market slowly.

To the Farmers:  
During the year 1917, the Texas Department of Agriculture advised you to hold your cotton and market slowly, and you would get 30 cents for it. Those of you who followed that advice, realized 30 cents a pound and over, for cotton which would have sold for 20 cents or less

without that counsel and your action on it.

Last year it said 35 cents with the same results. We boldly advise the only thing necessary to get 45 cents a pound and up, for all good cotton is for you to hold, shelter and market slowly, as the Department has again advised. If you owe money consult your banker. Let him know that your cotton is sheltered, insured and subject to his order. Not one banker in a thousand will fail to carry you cheerfully. If your banker is the exception and demands his money, wire the commissioner of Agriculture at Austin for the name of a bank which will furnish you credit on your cotton.

To those farmers who are not in debt we appeal not to dump your cotton to the gamblers' prices, and break the market for those who hold. If prices begin to fall quit selling. Let the world see that we will stand together to obtain a fair price and the victory is won.

Respectfully signed, your fellow citizens,

CHAS. B. METCALF, Cotton Grower, San Angelo, Texas.

In connection with my signature to the foregoing. I wish to give credit to the Farmers' Union, to the Warehouse and Marketing Department, to the State Bankers' Association, to the Retail Merchants' Association and others for their assistance and support in the cotton campaigns of 1917-18.

FRED W. DAVIS, Commissioner of Agriculture.

I have signed the foregoing statement because I heartily endorse any movement having a tendency to bring about increased returns to the producers of the south. I do not assume to have a personal knowledge nor am I in a position to determine. Therefore I do not sign this statement with regard to the facts stated as to cost of production, nor am I in a position to assure the public.

**Texas Interest in Big Fund**  
DALLAS, Texas, Nov. 19.—In the distribution of the \$75,000,000 fund being raised by the Baptists of the South to take care of the denomination's program of missions, education and benevolences for the next five years, of which sum this state is raising \$16,000,000, Texas missions and institutions will receive a great measure of support. The character of this fostering is set forth convincingly and in detail in the campaign survey book just issued from the general headquarters at Nashville, and more than 50,000 copies of which are now being distributed in the 120 Baptist associations of this state. Emphasis is placed on the statement that the \$75,000,000 is to be extended only where urgently needed. Dr. F. S. Groner, State Campaign Director, says the survey book answers all questions and explains everything appertaining to the fund. The following brief summary indicates the

extent Texas will benefit as a result of the success of the campaign: Then follows a list of twenty Baptist schools, colleges and other institutions in Texas and a list of missionary enterprises of the Baptist people that are to get their part of the \$16,000,000 to be raised in Texas.

**Labor and Capital**  
(Jas. A. Tate)

For convenience we take the two words, constituting the caption of this article, to represent two great and important classes of people those who labor and those who furnish the funds.

It is a lamentable fact that, for a long time, there has been a spirit of suspicion and prejudice steadily and increasingly developing between these two important companies of people. This ought not to be. We always have had, and probably always will have, these two apparently indispensable classes or companies among us. The Prince of Teachers said, "Ye have the poor always with you." Presumably the rich also. In fact, and in a general way, we all belong to one or the other of these two great groups of people. The rich do not all live in one state or on one continent, while the poor, (or the laboring class) all reside in another state or another continent. We are living in the same communities, often side by side. We are therefore neighbors; or at least, we should be; and should ever think of and treat each other as such. Be it remembered that, "None of us liveth to himself." Under the present economic order, these two groups are absolutely dependent upon each other—they "are workers together."

Labor is capital the same as wealth is capital. Money is simply a convenient medium of exchange and also a measure of value. For instance, money does not grow cotton. It requires labor (hence the laborer) to do that. This is too clear to require argument. The importance of capital is not so readily seen by many. The farmer's cotton, so valuable today, would not be worth hardly anything in the market if it were not for the operation of capital. What would it be worth without the gin? Someone bobs up and states that the farmers may own and operate their own gins. Very true. But what about financing and operating the iron mines from which the metal for gin building came? Who furnishes the money for providing and operating the great factories where gin machinery is turned out? Who organizes, plans and furnish the capital—huge sums of it—necessary for the construction of rail roads and rolling stock, by means of which gin machinery may be conveyed from mines and factory to points convenient to the cotton farms? But cotton is not ready for the consumer when it leaves the gin. It was only the raw material. What would it be worth without the cotton mills where it is manufactured into various kinds of cloth and a visit to the dye plant where the fabrics are properly colored? By means of dyestuffs, much of which comes from the bowels of the earth, involving the expenditure of much wealth and thus made fit and desirable for use and ready for market? Once again, suppose we have the cotton, the gins the cotton mills, the dyes and the dye plants, how much cotton could be used, and at what price without adequate transportation facilities, already referred to, by means of which the unfinished product is shuttled from one center to another until ready for the consumer?

It is quite true that labor is one of the essential factors in all these industries and should be highly appraised, but is not capital equally essential? This enquiry reminds me of a question I once put to my grandfather about a piece of machinery, the working of which I did not understand. He answered without giving me much light on my query that it was one wheel within the other and the one could not do without the other. So it is, I think, with capital and labor. Neither one would be of much value without the other.

The two things essential to harmony and success are, that the two groups, labor and capital, clearly understand their relations to each other and that all parties practice the golden rule. Capital may organize and plan, labor may organize and federate, commissions may be appointed and serve, councils may be convened, treaties may be solemnly ratified, but plan and strive as we may, the proclamation of the Heavenly Host, at the birth of the Saviour, "On earth peace, good will toward men," will never be realized until men and nations learn to practice Matthew 7:12.

The reader will understand that I have used cotton to illustrate what might take place in any great industry.

**"THANKSGIVING DAY" ---1919.**

History tells us that the Pilgrim Fathers in the new world—grateful for a golden harvest—gathered together for a feast of rejoicing.

And they called it "Thanksgiving Day."

And year by year this all-American custom of giving thanks has grown into the hearts and minds of our people. No other holiday in any season is so typically American as our own Thanksgiving Day. Of all the world's festive occasions this day alone is consecrated purely to our nation—to the freights of America.

We are coming to the close of a year filled with many blessings. Have we not just cause for gratefulness? When the Beneficent Author of All Good has seen fit to shower upon our nation such blessings as this year has brought, the season takes a new meaning—sweeter, fuller than ever before—filling us with a glow of gratitude such as no other Thanksgivings have ever done.

We are thankful for twelve months of peace and contentment; for a harvest unsurpassed in our country; for the triumphant return of our gallant army; for the brain and brawn and sinew of American manhood dedicated to the work of Reconstruction.

And this bank is thankful, too, for the confidence, friendship and co-operation of the men and women of this community. May the good things that the year has brought to each and every one fill us with a new determination to work and to strive with a freshness of spirit and hearts filled with the desire to serve for the good of our people our town, our community.

That Modoc war over two oil wells near Wichita Falls will not probably effect the price of cotton or the production of coal, therefore the public do not feel any great concern.

There will probably be no peace agreement with Germany, and may be it will be just as well any way. Germany has little regard for agreements or treaties.

A plot has been uncovered at Des Moines, Iowa, to bump off the mayor of that city and three I. W. W. have been arrested. One of the accused men is said to be Walter Eggleton of Texas. It is more than probable that there are in Texas a considerable sprinkling of that clan of anarchists.

The day cannot properly be appreciated, enjoyed to the full, without the dinner cooked to a "turn," as the Majestic range or New Perfection oil stove will cook it.

From the standpoint of economy, from the standpoint of utility, comfort and satisfaction.

You can be thankful at this time if you use the Majestic range or New Perfection oil stove. If you don't have one arrange for it now and make this a Real Thanksgiving Day.

Congress is considering a bill for stricter examination of foreigners seeking citizenship in the United States and such a law cannot be made too strict, and then no foreigner should be allowed to refuse to qualify for citizenship within a reasonable time.

Snyder did well in the Red Cross drive. Our Snyder women did it.

A farmer in Ellis county sold a 250 acre farm for \$300 an acre. He can bring that money to West Texas and buy 2500 acres and leave his purchaser to sweat it out.

**Perils of Revolution**

The great world swing in Europe from the old doctrine that kings can do no wrong, back to the acknowledged enthronement of the common people as their own rulers is a great stride toward world civilization and popular liberty, but unless self government is safely guarded and properly directed it is apt to lead to a more unwanted demoralization of society than where the people are subject to dictators by a constituted authority. The uncrowning of kings in Europe has brought about a spirit of audacity among former subjects who have not heretofore known independence and these are now disposed to go to extremes of tyranny even more terrible than that of autocratic rulers and that spirit becoming rampant among the more ignorant and vicious threatens the civilized world with anarchy and destruction of all forms of government and social order.

What would cotton be worth without the mill, and what would the mill be worth without the cotton? Money in the hands of captains of industry is capital. Likewise muscle, skill and "a mind to work" in possession of labor is capital. Thus we see, each group is indispensable, each group is dependent upon the other.

**A Good Cough Medicine for Children**  
Mrs. J. W. Phillips, Redon, Ga., phoned to J. M. Floyd, the merchant there, for a bottle of Chamberlain's bought a bottle of it at his store recently and that it was doing her children so much good that she wanted to keep up the treatment. You will find nothing better for coughs and colds in children or for yourself. It keeps the cough loose, expectoration easy and soon frees the system from the cold.

Only a Cold . . . . .  
Are you ill? Is often answered, "Oh! its only a cold," as if a cold was a matter of little consequence, but people are beginning to learn that a common cold is a matter not to be trifled with, that some of the most serious diseases start with a cold. As soon as the first indication of a cold appears take Chamberlain's Cough Remedy. Remember that the sooner you get rid of your cold the less the danger, and this remedy will help you to throw it off.

### EVERY STREET IN SNYDER

Has Its Share of the proof that kidney Sufferers Seek

Backache? Kidneys weak? Distressed with urinary ills? Want a reliable kidney remedy? Don't have to look far. Use what Snyder people recommend. Every street in Snyder has its cases. Here is one Snyder man's experience Let John Brown tell it.

John Brown says: "I was troubled with too much uric acid about a year ago. I had a frequent desire to pass the secretions which were scanty and caused a lot of pain. I felt pretty bad off until I heard of Doan's Kidney Pills, which I took and I am glad to say I received wonderful re-

lief. Doan's regulated the kidney action and made me feel better in every way."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brown had. Foster-Milburn Co., Mfgs., Buffalo, N. Y. 24

The Signal has been here with the people of Scurry country thru all sorts weather and conditions and it is here to rejoice with them over the return of prosperous times.

Milk wagon drivers in New York went on a strike for more pay. The dairy owners granted the increase and then added the difference to the price of milk and now the consumers have struck and refuse to buy milk.

### Notice

I expect to be in Snyder during the first week in December for the purpose of collecting unsettled claims simply ask for a kidney remedy—get due me. I respectfully urge everyone to be prepared to make settlement with me while there. 24 R. L. HOWELL, M. D.

Mr. A. Lewis of Naples, Texas, is here to visit his aunt, Mrs. P. M. Bollen. He says East Texas is in fine shape the people have made lots of cotton, fruit and potatoes and they are nearly all rich, or all nearly rich. They have an abundance of wood there but the local people are so independent they can't be hired to chop it.
