THIRTY-FIFTH YEAR

SNYDER, SCURRY COUNTY, TEXAS, FRIDAY, JUNE 17, 1921.

NUMBER ONE

## MASS MEETING CALLED TO CONSIDER SCHOOL SITUATION

### S. H. MOBLEY DELIVERS ADDRESS ON DAIRYING

### GOVERNOR TO CALL SPECIAL SESSION

Waco, June 15.—Governor Neff today announced that he would issue the call for the special session of the Legislature the last part of this week. It is his intention to fix the meeting date on July 11. The Governor said he had received a reply from Prison Commissioner W. G. Fryor, in answer to the Governor's letter asking for his resignation, but declined to comment on it.

### FIFE-McKEE MEETINGS DRAWING GOOD CROWDS

The Fife McKee meetings in progress at the Tabernacle has been drawing good crowds but has been hindered on account of the rainy weather which has been almost continuous since the meeting began.

Rev. Clyde Lee Fife pastor of the Christian church is doing some splendid preaching and Arthur W. McKee is conducting the singing.

Mr. McKee and his wife at the piano, are making excellent music. The meeting will continue through next week.

### MR. AND MRS. J. D. McCLANAHAN ENTERTAIN

Mr. and Mrs. J. D. McClanahan entertained last Friday night with a community party in honor of Mr. and Mrs. Frank Erwin who departed Saturday for New York City.

Games, music and good things to eat were the order of the evening.

Those present were: Mr. and Mrs. Billie Wilsford, Mr. and Mrs. Rob Strayhorn, Mr. and Mrs. Frank Erwin and Mrs. Mary E. Banks.

### Roscoe Quebec Postponed.

Roscoe, Texas, June 15.—Roscoe's big barge and trades day has been postponed from the 18th of June to the 4th of July. On account of the recent heavy rains it was decided that it would be better that it be postponed until the 4th of July. Farmers will be so busy that they could not well attend on the 18th of June.

### Scurry County Onions.

Just a few years ago in Snyder we thought we were fortunate in getting these big Bermuda onions shipped to us from old Mexico, or some other foreign country, but now it is a very common thing to see Scurry county Bermuda onions. People have learned that they can be just as successfully grown here as anywhere. Three Bermuda onions were brought to the Signal office the other day by C. P. Shafer. These three onions weighed about three pounds, others are growing them equally as well which proves that there is no use to go out of Scurry county for onions.

Howell Harpole went to Cisco Wednesday on business.

The people of Snyder and Scurry county would have listened to one of the greatest treats in a long time had they gone to hear Mr. H. S. Mobley at the Auditorium Saturday afternoon. It is very possible that never before has a man so learned in livestock and general agricultural affairs been in our midst and who could tell it in such an able manner. As it was, very few heard him.

Mr. Mobley's store of information was seemingly inexhaustible, especially with reference to dairy cattle. The qualities of a good milk cow were gone into with detail and how to make selection of a high milk producer without error was simply and clearly explained. In connection with his lecture, Mr. Mobley used beautifully colored drawings of beef and dairy animals showing the best of the various breeds. Now that the cream market has commenced to pick up again it is to be regretted that every man that milks a cow in the county could not have heard this lecture.

Mr. Mobley and his family have been in the dairy business for 27 years and have kept an accurate account of every return from the sale of cream over this entire period and his records show that taking an average of each five years for that period that the average received for butter fat has been 33 cents per pound. His opinion is that this in all likelihood will continue to be the average. His figures further proved that 10 head of the most ordinary milk cows will provide greater and steadier returns than the average cotton farm of the entire south and that 6 or 7 good cows will yield twice the net profit of the average cotton farm; that it is an average daily income as compared to the cotton crop which is practically all marketed at one time during the year and that the handling of dairy cattle is possible without keeping the wives and children in the fields a big portion of the year.

### Woman's Missionary Aux. Meeting.

The Woman's Missionary Auxiliary met Monday June 13, with splendid attendance.

Song, "My faith looks up to Thee." Prayer, Mrs. I. W. Boren.

Report of officers.

Mrs. O. P. Thrane gave a splendid report of the Northwest Annual Conference meeting at Quanah.

Mrs. C. C. Higgins interestingly presented Stewardship.

Mrs. Emmett Johnson with the assistance of Mesdames Meeks and Funk ably presented the Bible lesson.

Monday the 20th, will be Mission Study. Subject "Bible, The Leaves of the Tree."

We urge all members to be present.

G. H. Barnhart says his watermelon vines are growing so fast that it is wearing the melons out dragging them along the ground.

There will be a mass meeting at the Central School building at 6 o'clock p. m. today. This meeting is called by the board of trustees in order that they may get some idea as to what the people want and to devise some means by which the school can be operated next term. This meeting is of vital importance and every patron of the Snyder school is expected to be present whether you believe in schools or whether you do not believe in schools your presence is needed. Some might conclude that their presence and ideas concerning the matter would be of no avail for the board will act as they see fit, but this is not the case. The condition of the Snyder schools have reached a crisis and under existing conditions the board

does not care to act without the voice of the people and this is entirely correct. The Signal believes that the Snyder folks are going to get together on the school and work out a nine month plan so that we can be able to keep our affiliation. If we loose our affiliation we loose several years, also the probability of several good citizens. The Signal does not assume the responsibility of working out some plan but we do say that by all means let's keep up our affiliation. The Snyder people have never yet failed in a big undertaking. Snyder has a magnificent temple of justice and a court house yard and square that is not excelled in West Texas. It is said, Scurry county has one of the best and longest highways in the State. It is said, and the schools? WHAT IS SAID?

### DISTRICT COURT DOCKET NOW BEING CLEARED

District court has been grinding this week with extraordinary rapidity. District Judge W. P. Leslie has made an unusual record this week in the disposition of cases. There being up to Thursday morning five jury cases disposed of as follows:

State of Texas vs. S. R. Etheredge forger, 2 years suspended sentence. State of Texas vs. E. D. Wright forger, 5 years, suspended sentence; State of Texas vs. H. C. Middleton, forger, hung jury; State of Texas

vs. B. A. Worthington, swindling of value exceeding \$50.00 given 2 years in penitentiary; J. V. White vs. W. B. Dane, suit for commission, judgment for plaintiff in sum of \$50.00.

The case of the State of Texas vs. Bob Reeves, murder was continued until next term of court.

The case of Rankin Thompson vs. Sam Sanders, et al., suit for damage, continued for service. The case of Helen Rootes vs. Sam Sanders et al, continued for service.

### O. AND W. G. LYKES ARE NOT INDICTED

Snyder, June 17.—In the case of the State of Texas versus Oscar Lykes and W. G. Lykes, no bill of indictment was returned by the grand jury. Oscar Lykes is the owner of a tract of land near Hermleigh, and for several years former owners had claimed adverse possession and last January moved a tenant by the name of Brewer on the property. In attempting to regain possession of the property Brewer was shot by Lykes in self defense.

Oscar Lykes is prominently known as a hotel man over Western Texas.

### REV. J. H. HICKS TO TEACH BIBLE COURSE STUDY

The annual Conference of the Epworth League of the Northwest Texas Conference meets at Merkel this week. The session of the conference began yesterday and will last for four days.

Rev. J. H. Hicks pastor Methodist church of Snyder has been chosen to teach the Bible Study Course. This is quite an honored distinction for Bro. Hicks as he was chosen for this work out of the pastors of the N. W. Texas conference. Three other courses of study will be handled by prominent ministers of Tennessee, and Alabama. Bro. Hicks will also preach at the evening hour on Sunday the closing hour of the conference. Delegates from Snyder are Georgia Winston, Hattie Ditto, Bertha Curry, Theodore Yoder and Olin May.

J. T. Biggs will go from Crowder. Merkel is planning for a great gathering at this conference. 250 delegates are expected.

### Dixon-Kent.

Rev. Silas Dixon, pastor of the Methodist church at Fluvanna and Miss Mae Kent of Hamlin, were married Tuesday evening June 7th, at the Methodist parsonage in Hamlin, by Rev. C. E. Jamison, pastor Methodist church at that place.

Rev. Dixon is a very able young minister and is now pastor M. E. church at Fluvanna. Miss Kent is one of Hamlin's most charming ladies.

The Signal joins the many friends of these young people in wishing for them a very pleasant life's journey. They are now at home at Fluvanna.

### WIFE OF FORMER CITIZEN DIES THURSDAY OF LAST WEEK

Mrs. J. Wright Mopar died Thursday of last week at the Moor ranch, home north of Snyder, according to information received at Colorado. Mr. and Mrs. Moor made their home in Colorado for a number of years, before moving to Scurry county a few years ago.—Colorado Record.

### BODY OF PVT. WILLIS CASEY BURIED AT HERMLEIGH

Wednesday afternoon the Snyder Post of the American Legion was called to Hermleigh for the purpose of interring the body of private Willis Casey, just returned from France. The Snyder Post left Snyder at one o'clock under the command of Commander Robert Strayhorn. A large number of former service men were present to take part in the ceremonies. At Hermleigh, others of the boys joined with the men of Snyder in giving their fallen comrade a military burial.

At the church the procession was formed and marched to the home of Mrs. Casey, mother of the deceased, where the body was in waiting. From the home the procession, lead by the hearse, marched back to the church where the service was held.

At the church, chaplain Davis, took charge of the services. The eulogy was delivered by J. Pat Horton of Post City, former pastor of the deceased. Pastor Horton spoke touchingly of his friendship for an association with the family. His speech was well delivered and very much appreciated by those present.

After the service the body was taken to the cemetery where the procession was again formed and marched to the grave. At the grave the salute was fired after which the body was lowered into the grave, after the filling of the grave, the placing of flowers and the benediction, taps were sounded, when the large crowd began to disperse.

Private Casey was among the first to volunteer at the call of his country. In France he fell a victim to pneumonia. As a citizen private Casey was an honest, conscientious Christian gentleman. As a soldier he was patriotic, dutiful and brave. He did his work well and is worthy of every honor. His memory shall not perish with his body. The principles for which he made the supreme sacrifice are preserved and must not perish from the earth.

The American Red Cross was represented by Mrs. Robert Strayhorn, and Mrs. McClanahan, who were dressed as Red Cross nurses. The floral offerings were beautiful, showing the high esteem of the friends of the family for the fallen comrade.

### Their Baby Died.

Mr. and Mrs. Morrison of Camp Springs recently lost their infant baby about 10 months old. The remains were buried at camp Springs cemetery. Eld. R. W. Roe conducted the funeral services. The bereaved have the sympathy of the county.

### Sunday at the Baptist Church.

All regular services will be held at the Baptist Church Sunday morning. Sunday school at 9:45; preaching at 10:45 by the pastor. The Business Men's Bible Class will meet in the County Court Room at 9:30, the lesson will be had from the sixth chapter of John. It is very necessary that we have a full attendance at all of the services. Every member of the Sunday school and church is urged to be present at the morning services. There will be no evening services unless the meeting at the tabernacle closes.

Jeff Davis, Pastor

### James Templeton Receives B. A. Degree at University

Austin, Texas.—Approximately 450 students of the University of Texas comprised the graduating class this year and were awarded degrees, at the thirty-eighth annual commencement exercises which were held June 13. These students are from widely scattered parts of Texas, and several are from places outside of this state. The awards consisted of 236 Bachelor of Arts degrees, 13 Bachelor of Science, 40 Bachelor of Business Administration, 3 Bachelor of Science in Architecture, 2 Bachelor of Science

### COMET DUE TO BE HERE JUNE 26

The biggest demonstration of nature's own fire works of the season will take place on or about June 26th. Scientists inform us the Pons-Winnecke comet will pay the Earth a nocturnal visit and will come within 2,000,000 miles of this old world. The Pons-Winnecke, being somewhat of a "high flyer" is touching only the high spots on this tour of the universe, but will be plainly visible regardless of his far-awyness.

On this date the earth will have one of the greatest displays of fire-works that it has ever seen, according to our learned scientists. This will be in the form of a meteor-shower accompanied by light rays of varied colors, unless another planet attracts the comet before it gets near enough to the earth so that the atmospheric gases of each body may have opportunity to combine.

The usual scare reports that the comet, which is of great volume and containing a great deal of solid matter will strike the earth has been discounted by scientific calculation. The comet will be within the influence of both the earth and planet Jupiter at about the same time, and the rival influence, both fighting to the limit of their magnetic powers to attract the newcomer will result in its wavering between the two until it has proceeded on its way far beyond the influence of either.

### BRICE BOUGHT LEATH INTEREST IN GINS

H. J. Brice and G. H. Leath have been partners in the ginning business in Snyder for the past two years. These men owned and operated two gins in the city having bought out the E. F. Sears gin on west Bridge Street and enjoyed a splendid business.

Last week Mr. Brice bought out the interest of Mr. Leath and will operate the business alone. Mr. Leath is Tax Assessor and will give all of his attention to the office.

Mr. Brice is a good gin man and has been in the business a good many years.

### REV. JEFF DAVIS TO HOLD MEETING AT SEMINOLE

Rev. Jeff Davis pastor of the Snyder Baptist church, will begin a protracted meeting here on the first Sunday in July.—Seminole Sentinel.

W. S. Beachamp and wife, June 7, a girl.

W. C. Gordon and wife, June 6, a boy.

Miss Mary Heath is visiting Misses Veda and Zada Maxwell.

### NEW RULING CONCERNING COUNTY TEACHERS' EXAMINATIONS

New Rulings County Examinations. Do not permit any applicant from another county to enter the examination without a written permit from his own county superintendent.

In case applicants doing summer normal work in the county wish to enter the July examinations, this may be permitted provided each brings a separate written permit from the conductor of the normal. This must be attached to one of the papers of the applicant, when they are sent in.

The new certificate law. Please note that the certificate law

goes into effect June 12, 1921. After this date, fees for county examination will be \$4.00. If the papers are sent to the State \$2.00 is retained by the county examiners, and \$2.00 sent to state examiners.

After September 1, 1921, teachers to receive a certificate, must be 18 years of age. Applicants under age may take examinations, but no certificate will be issued to such applicant until they have reached the required age.

Respectfully yours,  
ANNIE WEBB BLANTON,  
State Superintendent.

The town and community that accomplishes anything it wants to is the one that is one in purpose, one in thought and one in action. A town divided can hardly expect to go forward, neither will commercial enterprises be successful. Civic development cannot attain to any degree of interest. Where community ideas are at variance educational matters suffer. In all communities there is, of course, different ideas, but where our ideas usually conflict with the communities' interest, is that personal interest is to often first con-

sideration. If we would have our town in the forefront—and when we are serving our town we are serving our individual interest—we must sacrifice some of our ideas for the community at large.

The electric White Way around the courthouse square is complete and is now in operation. There are twelve lamps that circle the square and are connected by an underground conduit. This adds both beauty and service to the city.

Since the continued rains all vegetation is growing by leaps and bounds and weeds are no exception to the rule. In fact, if there were any distinction made in the rapidity of growing vegetation, we are sure that weeds would be classed as the most prolific and less hindered in their growth. Snyder has lots of weeds, especially along Deep Creek, and the ravines that run through the city. Health officers and all authorities on the subject tell us that weeds are harbingers of typhoid fever, especially around pools of water that have no outlet. This is one and the principal reason that Snyder should clean up the weeds. There are some streets and back alleys that are unsightly. Let's cut the weeds.

Admiral Sims has been recalled from England by Secretary of the Navy Denby. It seems that Mr. Sims is getting in bad with Washington on account of a speech delivered in London attacking Sinn Fein sympathizers in the United States.

**The Passing of a Good Woman.**

Miss Julia Gallagher was born in New York City December 25, 1852. Her mother died in 1859, leaving a large family of children. Left an orphan at the age of 7 years, she went to reside for one year with an aunt who lived in Mobile, Ala., by the name of Rouse, who likewise had a large family of children, mostly girls. While living with this aunt she took the name of Rouse. Before the year was up, the time for her return to her home in New York, the Civil War came on, communications were severed and she remained with her relatives in the South where she grew up to young womanhood. From Mobile she emigrated with relatives to Fort Richardson, Jack County, Texas, when that point was one of the outlying posts of civilization and ever since that time she had been closely identified with western frontier life.

She was married to John Swartz at Fort Richardson in 1869, and in 1875 moved to Fort Griffin to engage in the hotel business with her husband, later moving in 1881 to Colorado City, Mitchell County, Texas, where she and her husband continued in the hotel business until his death, which occurred shortly after moving to that place. In 1897 she was married to J. Wright Mooar, the Rev. Whitehurst, pastor of the Methodist church, officiating, of which church she had long been a faithful and consistent member, and in which faith she passed away at 6 o'clock on the morning of June 10 at her home near Bethel, Scurry County, Texas.

Two years ago she and her husband returned for the first time to visit her relatives in Mobile, and from there went to New York to visit the only surviving sister. As a child she had visited the seat of her ancestral home in Ireland twice and had often planned to visit it again after growing to womanhood. She left no children and is survived by her husband and an only sister. For many years Mrs. Mooar had been in poor health, and an oft repeated expression of hers was that she was ready to go when the Good Lord called.

Her strong intellectual powers and grace of Christian womanhood were recognized by all those who came in contact with her and fitted her for the arduous duties of early frontier life, and for the companionship of him whose joys and misfortunes she so heroically shared throughout a long and useful life. The beauties of Godliness was the subject of the discourse by her pastor before a large concourse of friends and neighbors who assembled at the First Methodist church to pay the last tribute to her memory. Friends from San Angelo, Water Valley, Colorado and Fluvanna, besides hundreds from Snyder and scores of neighbors from and near the Mooar ranch followed the remains to the Snyder cemetery, where they were tenderly and lovingly laid to rest with the beautiful commitment ceremonies of the Order of Eastern Star, beneath a mound covered with floral offerings.

The active pall bearers were: H. G. Towle, R. H. Bynum, Joe Strayhorn, H. P. Wellborn, D. A. Jones and E. B. Barnes. The honorary pall bearers were: W. A. Johnson, J. M. Shannon, R. L. Johnson, E. S. Carden, W. W. Nelson, W. D. Sims, G. S. Conroe, Jake Mauer of Colorado City, A. C. Wilmet, J. W. Russell, J. A. Scrivner and R. H. Curtnutte.

**Scurry County Peaches.**

Mrs. C. A. Williams, living south of Snyder near Dunn, was in the city Saturday, calling on the Signal while here. Mrs. Williams brought the editor some fine specimens of peaches grown on her farm, and are certainly a fine sample of what Scurry county can produce in peaches. Mrs. Williams said her peaches were plentiful and of the best quality.

The farmers who keep everlastingly at it will come out ahead in the long run; it takes experimentation and perseverance to succeed at farming, as well as at any other business.

**Card of Thanks.**

To the Signal and our Friends: We want to thank our neighbors and good friends for their many kindnesses and ministrations to us during our recent sickness, and even from far-away Georgia and our dear children, who have met every emergency. We hope and trust that it may never be your lot to pass through such times as we have had to go through with.

Very respectfully,  
J. WARD,  
MRS. MASSEY.

Miss Cora ... here from Temple.

**ELECTION ON JULY THIRD FOR AMENDMENTS**

The five proposed amendments to the Texas Constitution to be voted on by the people at a special election to be held July 3, are:

—Abolishment of offices of the three prison commissioners and placing management of the prison system under one head.

—Increasing salaries of the Governor from \$4,000 to \$8,000; Attorney General from \$4,000 to \$7,500; Land Commissioner from \$2,500 to \$5,000, and Secretary of State from \$2,000 to \$5,000.

—Increasing the Confederate pension tax from 5 to 7 cents on the \$100 property valuation. Adoption of this amendment would give the Confederate veterans a material increase in pensions.

—Increasing per diem of members of the Legislature from \$5 to \$10 per day for a session of 120 days, and \$5 per day thereafter. \*The lawmakers now receive \$5 per day for a regular session of sixty days and \$2 per day thereafter. The amendment also proposes to reduce the mileage or traveling expenses to one-half of what it is at present.

—Providing that only native born or naturalized citizens of the United States shall be qualified electors in this state, and providing that either the husband or the wife may pay the poll tax of the other and permitting the legislature to authorize absentee voting.

In the event this amendment

should be adopted a person would have to be fully naturalized before being permitted to vote, also it would authorize a person to vote in a general election without being present, just as it now permits, under the absentee voting law in primary elections.

In the reconstruction of things, when we get back to an honest day's work we will be back to normalcy.

It used to be that a man felt humiliated if he thought that he had not done a day's work, but now it is different. Get the money with just a few hours labor as possible, but get the money. We are all afflicted in some degree, and the sooner the spell is broken the sooner we will be back to the good old times.

\*Mrs. E. C. Neely left last week for San Antonio to put the baby under treatment.

Mrs. James Turner from out at Turner was a visitor at the Signal office Saturday. Mrs. Turner has a son in the Aviation department, located at Anacostia, D. C.

Miss Ida Mae Southers left Wednesday for an outing in California. She will be gone all summer.

**MASONS WILL FORM ASSOCIATION ON JUNE 25**

A district conference of Masonic bodies in eight districts surrounding Sweetwater to perfect the Maconic Service Association of the United States will be held at Sweetwater on June 25, at which time twenty-five

counties will be represented, according to a letter received here by Mayor George H. Sheppard from Andrew L. Randall, grand master of the Grand Lodge of Texas.

In the formation of this association Sweetwater will be headquarters permanently, as indicated by the call for the first conference here. Similar conferences will be held at various centrally located cities over the state to organize the different districts.

An extensive program has been prepared for the Sweetwater meeting, details of which will be published in the Reporter at a later date. A large number of Masons will attend the meeting here.

The object of the Masonic Service Association is as follows, the letter to Mr. Sheppard stated:

"The object of this association shall be the Service of Mankind, through education and enlightenment, financial relief and Masonic visitation, and ministering to, comforting and relieving the members of the Fraternity and their dependents, particularly in times of distress and disaster, whether caused by war, pestilence, famine, fire, flood or other calamity."

Counties to be represented at the meeting here are: Taylor, Jones, Nolan, Fisher, Mitchell, Scurry, Borden, Dawson, Howard, Martin, Glasscock, Midland, Reagan, Gaines, Andrews, Ector, Crane, King, Stone-wall, Kent, Dickens, Crosby, Lubbock, Garza and Lynn.—Sweetwater Reporter.

Mrs. J. W. Templeton left the latter part of last week for Austin to attend the graduation exercises of the State University. Her son, Jim, will be one of the graduates of the University this term.

**STATE LANDS GO ON SALE SEPTEMBER 1**

Many West Texas Tracts Said to Have Been Turned Back.

Austin, Texas.—Land Commissioner J. T. Robison announced a few days ago that approximately 500,000 acres of land will go on the market on Sept. 1 and that the detailed list thereof has been sent the printer for publication for prospective purchasers. The list is expected to be ready for distribution by July 1 and will show the acreage by counties, classification and minimum price.

Nearly every county in the western half of the state is represented in the list, the acreage being widely distributed. This land has been forfeited for non-payment of the annual interest on the unpaid purchase price and is subject to recovery if the interest is paid before Sept. 1, therefore the published list will be subject to revision up to the last minute. Payment of interest before Sept. 1 would mean that that particular tract would not be for sale and should come out of the list.

Because of the low prices which have been prevailing on products of the West, cattle, hides, wool, mohair, and sheep, it is not believed that many of the tracts will be saved to the original owners, and that the land will be sold for failure to pay the interest.

In publishing these lists Commissioner Robison fixes the minimum price at which the land will be sold, and then it is disposed of by the bidding system, the highest amount getting the land. All are written and sealed bids. No bid will be accepted offering a price lower than the Land Commissioner's minimum.

**"JOHN PETTICOATS" PRESENTS HART IN MOST NOVEL ROLE**

Deserts—Lumber Camp and Travels to New Orleans in New Photoplay

Ladies. How would you like to buy your spring hat from Bill Hart? That's not as improbable as it seems, for the noted two-gun man is proprietor of a modiste shop in his new Paramount-Artercraft picture, "John Petticoats," which is coming to the Cozy Saturday. The filming of the story, which was supervised by Thomas H. Ince, took the famous star from the great North woods to the old Creole section of New Orleans. He starts as a lumberjack and is surprised to learn that he has inherited a modiste shop from a deceased uncle in the Southern city. Determined to investigate, "Hardwood" John Haynes, the hero, played by Mr. Hart travels to New Orleans and there becomes involved in a serio-comedy of big dramatic scenes, laughs and a pretty little romance.

Mr. Hart is said to be thoroughly at home in this strikingly new type of role and to shine as brightly in a dress suit as he does in the familiar garb of his Western parts. A good cast was assembled to support him, including Winifred Westover, Walt Whitman, George Webb, Ethel Shannon and Andrew Arbuckle.

**Card of Thanks.**

I desire to express my most sincere thanks to all those who so liberally ministered to my wife through her final afflictions. To those left behind, these kind and thoughtful acts will light the way to the end of life's journey and cannot be forgotten until memory's tablet is broken. Especially do I wish to thank the Order of the Eastern Star for their friendly sympathy and touching tributes of respect.  
 Sincerely yours,

**PRESIDENT HARDING ISSUES PROCLAMATION**

Overwhelming disaster has come upon the people of Pueblo and the surrounding district. Realization of their suffering now and in the days to come prompt me to issue an urgent request to all whose sympathies are awakened to assist the labors of the American Red Cross which has quickly organized to cope with the first great need and will stand by until homes and home life can be re-established there.

Contributions may be sent at once through the office of any Chapter or directly to Red Cross headquarters at Washington for use in the stricken territory.

American ships, flying the Stars and Stripes will carry you and your goods anywhere

Two and three generations ago, the Stars and Stripes were all over the world. Then they almost vanished from the seven seas. But today they are back again.

Big splendid steamers, American owned and operated, carrying passengers and goods, are crowding their way into all foreign harbors with the Stars and Stripes proudly fluttering from their masts.

American exporters, importers, travelers—all can help by shipping and sailing under the Stars and Stripes.

In the Matter of the Quarterly Report of Ida Kelley, County Treasurer of Scurry County, Texas, and the affidavits of the Commissioners of said county.

COMMISSIONERS' COURT

Scurry County, Texas, February Term, A. D. 1921.

We, the undersigned, commissioners of Scurry County, Texas, and Horace Holley, County Judge of said Scurry county, constituting the Commissioners' court of said county and each one of us, do hereby certify upon our oaths, that on this, the 14th day of May, A. D. 1921, at a regular term of our said court, we have compared and examined the quarterly report of Ida Kelley, Treasurer of Scurry county, Texas, for the quarter beginning on the first day of February, 1921, and ending on the 30th day of April A. D. 1921, and, upon finding same correct, have caused an order to be entered upon the minutes of the Commissioners' court of Scurry county, stating the approval of said Treasurer's Report by said court, which said order recites separate the amount received and paid out of each fund by said County Treasurer since his last report to this court, and during the time covered by this report and the balance remaining in each fund on said 30th day of April, A. D. 1921, and have ordered the proper credits to be made in the accounts of said Treasurer, in accordance with said order, as required by Article 867, Chapter 2, Title XXV, of the Revised Statutes of Texas, as amended by an act of the Twenty-fifth Legislature of Texas at its regular session.

And we, each of us, further certify, upon our oaths, that we have actually and fully inspected and counted the amount of money, in cash and other assets, in the hands of said Treasurer, belonging to Scurry county on this day and date, and found the same to be as follows, to-wit: Total cash on hand belonging to Scurry county in the hands of said Treasurer on deposit in Snyder National bank of Snyder, Texas . . . . . \$20,267.16

Assets, in addition to the above amount of money, as actually and fully counted by us in possession of said county treasurer:

Bonds, etc. . . . . \$23,580.00  
Grand total, Money and assets . . . . . \$43,847.16

Witness our hands this 11th day of May, A. D. 1921.

"Bucking the Tiger."

With Conway Tearle in the stellar role there is never any doubt in the minds of the audience that the entertainment will be a good one, and in "Bucking the Tiger" the Selznick Picture showing at the Cozy Tuesday, the role of Ritchie MacDonald gives him every opportunity to display the personality which has made him one of the most popular stars of the screen.

As the ne'er-do-well, living in exile from his aristocratic family; as the nonchalantly generous soldier of fortune willing to sacrifice his life for a whimsical impulse; and as the courageous lover who fights for his life against an infuriated antagonist, Conway Tearle acts with a conviction and realism which anchors the sympathies of the audience throughout the entire picture.

First presented to the public in the form of a stage play, the production has been much improved by pictorialization. The wonderful northern scenery, the flash backs in color, the action, and the quick action, make the picture absorbing entertainment.

Supporting Conway Tearle is a cast that gives sharply etched individuality to the various roles.

WHY NOT REPRIMAND AMBASSADOR HARVEY

Washington, June 13.—Senator Harrison, Democrat, Mississippi, introduced today a resolution requesting President Harding to inform the senate whether "there is as much reason and justification for a reprimand or the recall of Ambassador George W. Harvey for his Pilgrims' day speech of May 19, 1921, as for the reprimand or recall of Admiral William S. Sims, for his speech of June 7, 1921."

The resolution also requested the President to report whether he directed or approved the recall order sent Admiral Sims "and why an order by the President or secretary of state of similar import is not issued against Ambassador George W. Harvey."

Senator Harrison's resolution would have the President advise the senate on the following additional points.

Whether he was consulted or knew of the purported speech of Ambassador Harvey before it was made.

Whether he or through his direction, the secretary of state has protested or reprimanded Ambassador Harvey or undertaken to ascertain whether the ambassador was correctly quoted in the American newspapers.

Whether the Secretary of state or the President had received any communications from Ambassador Harvey to any request or protest from either the President or Secretary of State. The resolution requests that if any such communication has been received it be transmitted to the senate.

Senator Harrison sought immediate consideration of his resolution, but objection by Senator Curtis of Kansas, Republican whip, forced it over.

"The remarks of Ambassador Geo. W. Harvey, touching the reasons for our entry into the war," the resolution said, "do not represent the views of the American people and were most reprehensible, and the provocation for his reprimand or his recall is as great, if not greater, than that for the recall of Admiral Sims."

Senator Harrison told the senate that Ambassador Harvey's statement that we were afraid not to fight "was an insult to every soldier, sailor and marine which served under the Stars and Stripes."

"I can't believe," he declared, "that General Pershing and his associates were impelled by the thought that they were afraid not to fight. I cannot believe that the thousands of young men all over the country enlisted because they were afraid not to fight."

"I can't believe Allen C. York, the great hero of the war, was a hero because he was afraid not to fight. I can't believe Quentin Roosevelt, a son of a gallant soldier and of a distinguished leader of the Republican party, laid down his life because he was afraid not to fight."

THE GIRL ON THE JOB

How to Succeed—How to Get Ahead—How to Make Good  
By JESSIE ROBERTS

TEACHERS

TEACHERS are looking about these days for opportunities that will give them better returns than those the schools yield. This may be a pity from the point of view of the schools, but it is a fact.

But many women love teaching, and feel that they are particularly well-suited to this work. Yet they must earn more money. There is an opportunity for joining the two in teaching salesmanship. Many of the big department stores run classes for teaching their salespeople better methods and for giving them a chance to advance to the higher positions. Teachers are now taking special courses in selling and then going into the teaching of this branch of commerce.

There is also an opening in doing special research work for retail and department stores, and teachers are qualifying for such positions. Naturally they soon make a far greater salary than ever they got by school-teaching, and what is more the life itself is broader, more various and fuller of opportunity. Teachers who go into commerce from this angle often develop into saleswomen themselves, and grow to prefer that work. Executive positions in retail and department stores are also open to them after the experience that comes with teaching.

A certain time spent in teaching school is good practice for almost any job. Witness how many of our famous men were at one time of their career teachers in country or city schools. But the young woman who wants to get out into the world and make a real future for herself will not stay too long in the classroom. She will use her training to bring her the best results possible. Executive positions in wholesale and retail trade are one possibility, and an excellent one.

THE IDEAL WOMAN  
BY WILLIAM S. HART

Health first having been my creed, I reckon the ideal girl, if she exists, for me would be the breeziest sunniest and wholesome out-door girl that ever rode a broncho. She might have a heap o' freckles and perhaps a few calloused spots on her hands for paddling a canoe, but she'd be a mighty good gal.

I thought I'd met her once. It was a right smart while ago and to sort of make sure, I was right, I invited her and her mother on a campin' trip in the Yosemite Mountains. When the day came for startin' they appeared on the scene with seven trunks and two French maids.

Well, we went on that trip, but when we came back we weren't exactly what you'd call pals, her being stiff as a poker from riding and her mother havin' to go to a sanatorium from the terrible shock of sleepin' in a tent!

Right Diet Means Much. Emerson said: "Give me health and a day and I will make the pomp of emperors ridiculous." Right habits of eating do a lot toward supplying health.

Worse Than Outright Lie. Many a man who would shrink from a false statement will give a false color—which is still more unfair, because more difficult to correct.

#### FELT LIKE AN IRON BAND AROUND HEAD

Mrs. Osborne Says She Shudders  
When She Thinks How She  
Suffered.

"For years," said Mrs. V. E. Os-  
borne, of 718 Lancaster Ave., Lex-  
ington, Ky., "I have been in a run-  
down condition; nervous, weak and  
dizzy. I was actually so nervous that  
any sudden noise or excitement  
would produce a palpitation of my  
heart that frightened me. I abso-  
lutely could not climb stairs, for to  
attempt such would thoroughly ex-  
haust me.

"I had nervous headaches and  
when they came on it seemed that  
an iron band was drawn tight around  
my head. I now shudder when I  
think of those headaches. My stom-  
ach was weak and I could not digest  
the lightest liquid food. Any food of  
a solid nature caused nausea and the  
sickening sensation remained for  
hours.

"My misery was almost unbearable.  
My sleep was never sound and I was  
worn out all the time. My condition  
was indeed a very deplorable one.  
I finally sought treatment in Cincin-  
nati but nothing helped me one par-  
ticle. I was on the verge of giving up  
in despair when a neighbor pleaded  
with me to try Tanlac. I obtained a  
bottle of the medicine and began its  
use.

"I began improving at once and  
soon felt my nervousness and dizzi-  
ness disappearing. Then my head-  
aches left me and I realized my  
strength had returned. My appetite  
and digestion improved and I am now  
so much better in every way. This  
Tanlac is a wonderful medicine and  
the only one that ever really helped  
me. I hope every poor woman who is  
suffering as I did will try it."

#### Mongolians Are American-Like.

There are a great many points of re-  
semblance between the Mongolian and

the Mongols have long been converted  
to Lamaism, one of the most exacting  
and intolerant of religions.

the husband of the past became the riot of the present.

Did you ever know pictures had  
manners just the same as individu-  
als? Well, they have, and Margue-  
rite Clark called attention to the fact  
in commenting upon her First Na-  
tional production, "Scrambled Wives."  
It seems that because of the tendency  
of a camera to distort it has been  
dangerous to always see that ladies  
were all seated before the gentlemen  
took their places in a drawing room  
scene. The natural difference in  
height would be so much emphasized  
that the men would appear ready to  
shoot right out of the top of the pic-  
ture. But nothing like that in "Scram-  
bled Wives," according to Miss Clark  
who characterizes it as the "best  
mannered" picture in which she has  
ever appeared in spite of the fact that  
it is farce comedy. "Scrambled  
Wives" will be at the Cozy Theatre  
Saturday June 25th.

**OUR EDUCATIONAL PROBLEMS**  
By Phebe K. Warner

That we are in the midst of an educational revolution, there is not a doubt. However, comparatively few of our American citizens seem to be conscious of it. It is one of those bloodless American Revolutions. It may last for years and years but there will be no war debt to pay when it is over, if it ever is over. One reason we do not hear much about this revolution is because the grown up folks are not taking much interest in it. No, it is not among the educators of our nation, as you would naturally expect. If it were, there would soon be something done. There

**THE "OLD RELIABLE"**  
**THEDFORD'S BLACK-DRAUGHT**

White Haired Alabama Lady Says She Has Seen Medicines Come and Go But The "Old Reliable" Thedford's Black-Draught Came and Stayed.

Dutton, Ala.—In recommending Thedford's Black-Draught to her friends and neighbors here, Mrs. T. F. Parks, a well-known Jackson County lady, said: "I am getting up in years; my head is pretty white. I have seen medicines and remedies come and go but the old reliable came and stayed. I am talking of Black-Draught, a liver medicine we have used for years—one that can be depended upon and one that will do the work."

"Black-Draught will relieve indigestion and constipation if taken right, and I know for I tried it. It is the best thing I have ever found for the full, uncomfortable

has been a slight disturbance among the teachers and educational leaders but it was due to financial unrest and soon put an end to that, or will as soon as the dollars are in sight. And this was a righteous cause, but it a few dollars added to their salaries was one of the effects, rather than a cause of our educational revolution.

No, the trouble is not among the parents, to whom the school belongs. Most of them are asleep and do not know there is anything unusual going on in our schools. Most of the people who own and control the schools of our nation seem perfectly satisfied with them. So satisfied that they seldom step inside of a school house to see what is going on.

This silent, bloodless revolution is going on among the children. There are 22,000,000 children in this army. In just a few years these 22,000,000 children will be the men and women of this nation. They are the boys and girls who are to take our places just as soon as we drop out, and we are dropping out every day. The world is calling them. The earth, the air, the sea, is calling them. The farm, the city, and every from of

human activity is calling them. The future holds more for our boys and our girls than we will ever know or see, and they ought to be prepared for the day in which they are to live and serve humanity, but they are not. A few, but oh, such a few, are receiving any training for the great world work that is calling them, while the very great majority are possibilities without any training for anything.

And herein is the most dangerous revolution our nation has ever known. The fact that the children of today actually refuse to be educated is one of the reddest flags floating over our nation. It means more suffering, more sorrow, more loss in every way than anything else that is going on. It means loss of time, loss of money, loss of energy, and loss of life, to the future of our country. The greatest drawback to our country today is IGNORANCE, and we are multiplying it every day. Most of our suffering, most of our unhappiness, most of our poverty and crime today are the results of an untrained, uneducated citizenship. What is the matter? Why do our children nearly all drop out of our free schools before they reach the end of the seventh grade?

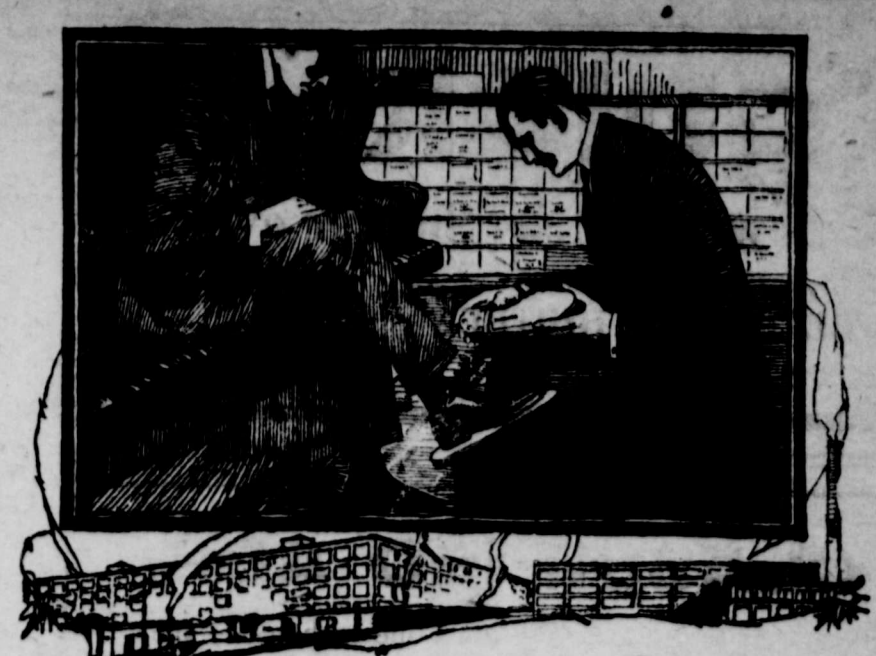

There is no effect without a cause. There is a reason for this unnatural fact. It is as natural for children to learn as it is for them to grow, if the environment is normal. Children love to learn until learning is made unnatural. It is as natural for the mind to develop as the body. It is more natural, because the body has just so many years to grow and then its growth ceases. But there is no limit to the development of the mind. Our Creator surely intended it to grow on forever. And if it gets a good start it will do it. There are many examples of this in our own acquaintance and yours. The well educated man or woman is always looking for something more to learn, but the man or woman who has never

gone to school at all sometimes seems to feel that it is a kind of a disgrace to try to learn anything new. This idea is one of the greatest stumbling blocks in the progress of our nation. And a lot of folks reach the point where they do not need to know anything. Here is one of our silent causes for this great educational revolt and revolution. As a rule such folks think their children do not need to know anything, either. So, instead of building schools to fit the needs of the citizens of the future, we just let them go and a little later the same tax payers build an addition to the poor house, or the penitentiary for them.

Before anybody can put an end to anything they must discover the cause and eliminate the cause. And we believe the cause of our educational revolution is—our present school system does not fit the needs of the children of our country.

"Oh, but," says some of our great classic educators, "we are losing sight of the ideal and the beautiful. We are drifting into nothing but industrial education." In Heaven's name, how can you lose an ideal, until you have one to lose? How can you write poetry or a great thesis on the classic things of life until you know how to spell and compose a few sentences correctly? And how can you hope to do this until you have at least finished the seventh grade in our public schools? And should you discover there is a germ of talent in you and you did not have a bank account to keep you going, how would you ever find a way to develop that germ? It takes means to reach any end. And if you do not happen to be born with means and talent, too, then a way must be made to develop that talent.

We are not talking about classic education. We are not talking about the fine arts. Of course, they are necessary. We all want them. But why are there no more artists in our country? Because only five or six of our American children ever get past the seventh grade in school and only one in every three hundred ever gets as far along as the end of the free high school. How many artists of every kind do you suppose are lost to the world in the 299 American children that never have an ideal aroused in them until it is too late for them to go back and make their lives over? And just how many of the ONE in every three hundred are

taught to do anything in our high schools that would enable them to go on with an ideal if one were discovered lurking in their system?  
Our great educational problem is not what shall we teach the few rich and capable children who may have opportunities thrust upon them, but what are we going to do to hold the 94 out of a hundred in school instead of six? How are we going to get the full benefit of our free school system for 299 instead of 1? What is the matter? Is the trouble with the children, the parents, the teachers, or the school? There is something wrong somewhere, because we repeat it is just as natural for a child to learn as it is to grow. A child's mind is a most wonderful creation. It is so tiny and empty at birth that it is not perceptible at all, but day by day it grows so long as we live. And it is so constructed that unless we keep filling it with the best things in life the worst will flow in to fill the vacuum, because nature abhors a vacuum, and let alone, nature will fill our child's mind with something. The minds of our children are entrusted to us as their parents to be filled with the good and useful things of life. Are we doing it? If your child was born without a mind you would give everything in this world you had to give it a mind. But God gives them their minds when He calls them into being. It is a part of His plan of life, and without this great plan there could be no joy on earth. How much do we appreciate our children's minds? Not enough to feed them. Not enough to keep them growing naturally. We will actually starve our children's minds to feed the hogs and cattle. As a nation we spend more money on cigarettes to tear down their minds than we do on education to develop them. About the only public expense we ever kick on is the taxes to develop our children and make them fit to live. You seldom ever hear a man complain about his taxes to build more asylums, jails, poor houses, penitentiaries, orphan's homes, homes for the friendless, or any of the innumerable things we would never need if we only take care of our children's minds and make them strong and equal to the tasks in life they must perform.

As a whole nation we are asleep, asleep, asleep. Rip Van Winkle a wide-awake man compared to us. The ideals of the next generation and the work and life of the next generation depends on the schools of today. The home is the source of life, but the school sets the standard of the home. When the school is made to fit the needs of the home, the school prepares the children of the future. It is today, when they feel that they cannot afford to keep their

**Power Farming**  
With the **Fordson**

The Fordson Tractor is taking care of every power job; it is taking the drudgery out of farm work and solving the labor problem. Power farming with the Fordson reduces the cost of preparing land to almost one half what it would be with horses, and saves a third to a half of the farmer's time. What machinery does for the factory, the Fordson Tractor is accomplishing on the farm—it is increasing production at lower costs and making farm life attractive.

Apply this power farming idea in your threshing. More and more farmers are making themselves independent of unfavorable conditions by using the Fordson tractor linked up with a light thresher. By seizing the right moment and being able to do the job without waiting and in quick time, crop losses are avoided and profits increased.

The Fordson operates with kerosene. When used on belt work, running at full power at 1,000 R.P.M., the fuel consumption does not exceed 2 3-4 gallons per hour. It will run the electric light plant, operate the milking machines and straw bales—will take care of every kind of belt work.

The Fordson plows 6 to 8 acres in a 10-hour day, handling two plows with ease in the average soil. It requires an average of only 1 1-2 to 2 gallons of kerosene to the acre.

It is the ideal year-round tractor. It will pay for its fall and winter keep in many ways such as road work, hauling grain to the elevator, pumping water and moving granaries.

### That Blasting Evolution.

Honorable William Jennings Bryan—that highly honored and beloved citizen who, in spite of endless abuse, still stands in the front rank of America's greatest and best men—has recently paid his tribute of respect to Darwinism, as taught in many public schools and colleges of our country. While delivering an address in Springfield, Ill., on May 2nd, he said:

"Teachers and professors in schools supported by public money, are turning the youth of the land out into a starless night, robbing them of their faith in immortality and a Heavenly Father, and substituting cold, clammy materialism which reduces Christ to mere man and gives him an ape for an ancestor. The Darwin theory is not scientific. It is wilder fiction than the Arabian nights."

The Editor of "The King's Business" in commenting on Mr. Bryan's statement says:

"This would be an appropriate message to read in all our grade schools, colleges and seminaries, and would not be amiss in many of our churches."

It has always been a mystery to us how a theory such as that of evolution, which never had any foundation but was hung on air by Brother Darwin who loved to think of his ancestors hanging by their tails to the branches of trees, talking in an unknown language to their fellow citizens while cracking nuts and jokes, could have found such a foothold in the minds of supposedly intelligent people. No wonder that Paul says, by the power of the Spirit, that the "wisdom of men is foolishness with God."

This reminds us of what that scholarly Chinaman, Dr. Chew, recently said, while speaking from the chautauqua platform in Snyder. He explained that it is common for a Chinaman to be able to trace his ancestors back through many generations. He stated that he could trace his own ancestors back to something more than the sixtieth generation (I have forgotten the exact number), where the head of the family was found to be a prince. Being satisfied

with this noted man as a forbear, further research was left off lest, perchance, they might find some of their ancient grandparents playing in the tops of trees and swinging to limbs by their tails."

This was shrewdly put, and not without its much deserved gibe. It looks as if we should have as much sense as Chinamen. Don't You think so?

JAS. H. TATE.
