COULD BEAT HANDS SHUCKING HIS CORN

At Least J. A. White Would Bet So, After Being Relieved of Dyspepsia by Tanlac.

"My wife and myself have had stomach trouble," says Mr. J. A. White, residing on the Leestown Pike, R. F. D. No. 6, near Lexington, Ky., "and both have been nervous and run down."

"We could not see anything without suffering afterwards and could not sleep at night. We were regular nervous dyspeptics. We tried many remedies without permanent benefit until we heard of Tanlac. I got this medicine and began using it. We noticed immediate results. We are both greatly improved by Tanlac. We give all credit for the change of health to Tanlac. It is a remarkable medicine."

"I personally feel so good that I told my hands a day or two ago that I could beat any of them shucking corn. I meant it and believe I could have beat 'em all."

Of all the maladies that afflict humanity chronic dyspepsia, such as Mr. and Mrs. White suffered from, is probably the most prevalent and hours might be consumed in describing the sufferings, mental and bodily, of the victims of chronic dyspepsia.

A morbid, unreal, whimsical and melancholy condition of the mind, aside from the nervous physical suffering, is the usual state of the average dyspeptic and life seems scarcely worth the living.

Tanlac, the celebrated medicine, was designed especially for overcoming this distressing condition and millions of people have taken it with the most astonishing and gratifying results. It seems to go straight to the spot, toning up and invigorating every organ of the body.

Tanlac is sold in Snyder by the Grayum Drug Company.

Ford Car Stolen.

A Ford car, almost new, was stolen from F. D. Bruton at his home in northeast Snyder Monday night. He traced the car a considerable way east of town himself. He left town Wednesday in search of it.

Miss Ann Morris returned Tuesday from Colorado, where she has been on an outing for the past three weeks. She reports a very pleasant trip. She was in North West Colorado in among the mountains. Most of the high peaks are covered with snow she said.

Is Handicapped.

Plodding Pete says the reason he hates to look for a job is that he hasn't the heart either to cut rates or charge the regular price for a day's work.

Artificial Silk Improved.

A new process has been developed whereby the same raw material (wood cellulose) is converted into an imitation silk which, when woven into cloth, has remarkable brilliancy and durability, with a "feel" like that of real silk. It is waterproof and no more inflammable than natural silk. The new process silk can be drawn into much finer threads than those of ordinary artificial silk, and is said to be particularly remarkable for the quality of the velvets made from it.

Its Nature.

"Isn't it too bad, this dispute they're having with Germany over coal?"

"Yes; it is a burning shame."

A Compromise.

At breakfast there had grown up in the family a tendency for a diversified choice as to food. One would take pancakes, another shredded wheat, another puffed rice and so forth.

One morning the head of the house, asserting his authority, said: "It'd be so much easier for mother if we all ate the same."

Martha, aged five, who alone had ordered puffed rice, spoke up: "All right, papa, let's go. You and mama and Virginia and Catherine and Phillip take 'puffed rice,' won't you, please?"

Easily Frightened.

"Is he easily alarmed?"

"I think so. He seems terribly afraid the blue Sunday laws will come to pass."

NEXTS UNDAY AT THE BAPTIST CHURCH.

All regular services will be held at the Baptist church Sunday morning. Sunday school at 9:45. Business Men's Bible class at 9:30 in the County Court room. Preaching services at 11:45 by the pastor.

There will be no service at the Baptist church Sunday night, as the Methodist meeting. We will all go to the Tabernacle instead.

In October.

October 17 (1885)—Some of the oranges are now a deep brown red; others are changed to a light green, which at a little distance, especially in the sunshine, looks like the green of early spring. In some trees, different masses of the foliage show each of these hues. Some of the walnut trees have a yet more delicate green. Others are of a bright sunny yellow.—Nathaniel Hawthorne, "American Note-Book."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F.
