AND SNYDER SIGNAL

VOLUME XXXVII

SNYDER, TEXAS, THURSDAY, JUNE 19, 1924

Number 3

SNYDER TO HAVE A PHYSICAL CULTURE CLUB

Mr. J. D. Boren, relative of the Boren family of Snyder and a former resident of Ennis, Texas, has moved to Snyder to make this his future home, and with his associate, Mr. B. L. Thompson of this city have organized an athletic or physical culture club. At this time they are very busy getting their building which was formerly the Direct Mattress building, in shape and the equipment installed. Snyder is indeed fortunate to obtain this club because it is organized for the purpose of furnishing its members with a place to develop themselves both physically and mentally to receive instruction in muscular development and to care for the body and preserve health. Its purpose is to create an atmosphere of physical education and to co-operate with the citizens of this community in teaching their boys better ways to live and keep them from the stumbling blocks of vice and sin.

Any and all undertakings will be done under the approval of its board of directors, such directors having the power to revise or amend the laws and regulations of the club at any time and to see that such changes are enforced by its proprietors.

Laws

1. Any member using profane, vulgar or indecent language on or about the premises of said club shall be suspended for a period of one to three days for the first offense, and

CROPS ARE HOLDING UP WELL IN SPITE OF HOT WEATHER.

The crop conditions in and around the vicinity of Snyder are holding up very well considering the hot winds that we are having. It seems that the cotton is not being hurt and a few more days of clear weather and the farmers will be caught up with their cotton chopping. Maize and corn is both looking very well, and the cotton still has a healthy color and will remain in good condition for several days yet without any rain. Some rain at the present time would help conditions provided it did not remain cloudy for a long period of time, under which condition it would not be so good for the crops. From present outlooks we should

any member who fails to comply with these rules ignoring them entirely shall be suspended by the board of directors from the club until he can prove to the board that he has reformed.

2. There shall be no prize fighting, gambling or dancing allowed however, boxing instructions may be given and members may box among themselves subject to regulations by the board.

3. Each and every member shall have free access to the shower bath, dumb bells, trapez, writing tables, dressing room, etc., and shall receive individually or in classes instruction in physical culture, hygiene, muscular development, wrestling and boxing.

4. Each and every member must refrain from indulging in athletics of any nature on Sunday, but may have free access to the shower baths and writing table; and anyone found guilty of violating this rule shall be penalized by the board of directors.

5. The board of directors shall be composed of three members. Vacancies shall be filled by the remaining members of the board, and the majority of said board shall constitute a quorum to transact business.

6. The board shall have the authority to make and enforce such rules and regulations for the welfare of the club as they desire.

The present board of directors is composed of C. F. Sentell, C. E. Jamison and W. M. Morrow.

have a bumper crop this fall in all lines.

SAND STORM DAMAGE HEAVY OVER KNOX.

KNOX CITY, June 19.—One of the most destructive sand storms this country has witnessed in many years struck here early last night, thousands of acres of cotton and late feed crops being ruined.

W. D. Beauchamp and wife after a visit here with their relatives, Mr. and Mrs. J. R. Webb, left Sunday for their home at Rotan.

P. H. Brumley and wife returned the first of the week from Rule, where they have been visiting for the past week with relatives.

SCURRY COUNTY RANKS HIGH IN POULTRY

Scurry County ranks at the front of heavy poultry and egg production. A campaign has been started to get the farmers to get rid of their roosters and produce infertile eggs or to pen up the males in each flock. However, outside of a very few no attention is being paid to this request and the result is that thousands upon thousands of eggs are being discarded. The local poultry association reports one man bringing in 30 dozen or 360 eggs and after candling only 6 marketable eggs remained. In dollars and cents this man actually lost \$5.31 as against the market price he could have received for these eggs if they had all been infertile. Another batch came in from which a live chicken hatched before the eggs were all uncracked. Somebody may think they are putting something over when they try to shove this class of stuff onto the market, but instead they are only cutting their

own throats and damaging their neighbor who may be trying to handle his eggs properly. There will be full three months more in which the weather is going to be hot and a fertile egg will be a bad egg inside of 48 hours from the time it is laid. This is one reason why our people are not getting more for their eggs than they are and just as long as they persist in bringing fertile eggs to the market for sale just so long are they going to lose money. Infertile eggs are now selling for 18c to dealers, the highest price ever paid for eggs in Snyder at this season of the year. It costs less to produce infertile eggs and if anything production is stimulated. Don't let anyone pour you full of the nonsense that getting rid of the rooster affects egg production. The largest egg farm in the world never had a rooster within its gates.

LAST MAN IN NORFLEET CASE FILES APPEAL

AUSTIN, June 19.—Appeal of W. B. Spencer of Tarrant County, convicted of theft in the famous Norfleet swindle case, was filed in the court of criminal appeals here today.

The convictions, carrying a total of eight years imprisonment, marks

the last chapter in the trial of the men accused of stealing \$50,000 from J. F. Norfleet in November, 1922, through a fake stock deal. Norfleet personally trailed the swindlers to the borders of the United States, bringing about their arrest single-handed.

YOUNG WOMEN'S MISSIONARY AUXILIARY.

The Young Woman's Missionary Auxiliary met June 16th at the church.

Song.
Business.
Prayer.
Lesson on Japan.
Next meeting, June 23rd, at Mrs. Tate Lockhart.

NEFF WILL LOOK ON AT THE

AUSTIN, June 19.—Governor Pat M. Neff announced today he would go to the Democratic national convention in New York as a "spectator." He will leave here Thursday morning.

Will W. Watson, advertising manager of the West Texas Fair of Abilene, was in Snyder Tuesday boosting the automobile races to be held at Abilene on July 4th.

CHRISTIAN REVIVAL UNDER WAY AT THE CITY AU- DITORIUM.

The First Christian Church is holding its revival meeting this week. The services were held in the church building, but owing to the hot weather the services were transferred Tuesday night to the tabernacle (city auditorium). The preaching is being done by Rev. Abbott of Rule, Texas. Earl Sparks is leading the song service. A very enjoyable meeting is being experienced by all who attend.

S. A. Morrow of Post spent Sunday here visiting with relatives.

BOB TERRY OPENS FILLING STATION AT THE OLD HI- WAY HOTEL.

R. L. (Bob) Terry has opened a filling station at the old Hi-Way hotel building on East Bridget Street. He has installed the necessary dispensing machine for the sale of gasoline and oil. The battery service of Clevenger and Wade is in the same building with Mr. Terry. Mr. Terry is local dealer for the Pierce Oil Corporation here. Mr. L. A. Wade is in charge of the filling station. Both Mr. Terry and Clevenger & Wade will be glad to have their friends to call on them when in need of anything in their line.

SNYDER MAN HONORED AT KANSAS CITY MEET

WACO, Texas, June 18.—Two Texas men, Drs. W. B. Georgia of Waco and H. G. Towle of Snyder, were honored at the recent meeting in Kansas City, Mo., of the American Optometric Association. Dr. Georgia, who is president of the State Board of Optometry, was

elected first vice-president of the American Optometric Society and a member of the board of control for two years. Dr. Towle was elected a member of the board of control for four years. The latter is also a member of the State Board of Optometry.

BRIEF PRINTED BY CHAMBER OF COMMERCE

The brief of the West Texas Chamber of Commerce traffic bureau in the Texas common point freight rate matter has been compiled by ex-President Spencer, Traffic Manager Pawkett and through the assistance of Traffic Manager F. A. Leffinkwell. We will have five hundred extra copies of this brief printed. If you want one or two extra copies, kindly let us know promptly in advance so we can take care of your request. The traffic committee will again be headed by A. B. Spencer, the retiring president of the organization and we want to let you know that every effort is being made to retain the common point freight rate both intra and interstate, and that an appropriation was made for this at the board meeting held in Sweetwater, June 6.

The Senate bill 3047 providing for an appropriation of \$2,000,000 for potash investigations in Texas and other southwestern territories passed the Senate and according to the letter we have received from Senator Shepard will remain over and if the bill is passed at the next session of the House of Representatives, it shall become a law. We will shortly write you further in connection with this. We desire to call your attention to the resolution passed by the executive board at Sweetwater in connection with the enforcement of the

prohibition laws at the conventions of this and all other organizations. The board went on record unanimously favoring a strict enforcement of this law and regretted very much that there were some few persons at the last convention at Brownwood who took advantage of the convention in order to load up on booze. Of course we realize that there are some persons who cannot be controlled but it is the sincere desire of the executive board that this law be enforced.

Quite a number of the fairs of West Texas seem to be anxious to make contracts for aviation and flying stunts during their fairs. It has been difficult in the past for small fairs to make these contracts except at prohibitive prices. While we are under no obligations to anyone, and not particularly interested in anything other than assisting those fairs that want this work, we call your attention to an ad in West Texas today of the Gates Flying Circus, 408 Taber Building, Denver, Colorado. We believe these people are fine people with whom to do business, and will be pleased to consider contracts for some of the fairs in some of the smaller towns. If interested write them.

Yours very truly,
PORTER A. WHALEY,
Manager.

ADOBE WALLS CELEBRATION, JUNE 27-28.

The fiftieth anniversary of the Adobe Walls fight, in which a few white men fought so valiantly against an overwhelming number of Indians, June 27, 1874, will be celebrated with a two days' reunion of famous frontiersmen from the States of Texas, Oklahoma and Kansas, June 27-28, 1924. The program will be sponsored by the Panhandle-Plains Historical Society.

Judge Thomas F. Turner, president of the Panhandle-Plains Historical Society, will be master of ceremonies. The first day, June 27, the monument will be unveiled, and there will be speaking by Judge Nelson A. Phillips, formerly of the Supreme bench of Texas; Judge Turner, W. E. Connelly of the Kansas Historical Society; J. B. Thornburn of the Oklahoma Historical Society; President J. A. Hill of the West Texas Teachers college and others. Andrew Johnson of Dodge City, Kansas, (who fought in the battle of 1874) will address the audience and promises to relate some history which has never been published. It will be a great gathering of old frontiersmen from Texas, Oklahoma, Kansas and other States.

Music will be furnished by the Canyon College Band. The second day's program will include speaking, horse racing and other amusements.

The celebration will be held on the famous old battle grounds, on the north bank of the Canadian river, in Hutchinson county, 10 miles east of Plemors, near the headquarters of the Turkey-Track ranch.

Following is a correct list of those who took part in the Adobe Walls fight. It includes 28 men and one woman. The fight took place June 27, 1874. Their names will be placed on the shaft to be unveiled on this occasion: Fred Leonard, James Langston, James Hanrahan,

Thomas O'Keefe, "Bat" Masterson, Mike Welch, — Shepherd, Hiram Watson, Billy Ogg, James McKinley, "Bermuda" Carlile, William Dixon, James Campbell, Edward Trevor, Frank Brown, Harry Armatage, Billy Tyler, "Dutch" Henry, — Keeler, Mike McCabe, Henry Lease, George Eddy, Williams Olds, Sam Smith, Andrew Johnson, Ike Shadler, "Ehorthy" Shadler, Mrs. Williams Olds.

This will be an historical event in frontier history of Texas, Oklahoma and Kansas. There are a number of men who were in camp when the fight took place on June 27, 1874, and who came into Adobe Walls a few days later. Among those who are familiar with all those who took part in the fight, who spent years on West Texas frontier is J. Wright Moar of Scurry county. Mr. Moar will doubtless be unable to attend the celebration by reason of attending court in San Angelo during the week of the 27-28. If he can possibly get off at San Angelo he will attend this celebration. In looking over the list of those whose names are to go on the shaft he says that he can vouch for the correctness of same.

NOTICE TO SINGERS OF SCURRY COUNTY.

There will be an all-day song service at the city auditorium, Snyder, Texas, the fifth Sunday in June, being the 29th day of said month.

All leaders, together with their respective singing classes are urged to come and join in the song services and you are urgently requested to bring all your song books. Now, this is an off Sunday and there will not likely be any services in the country churches and it will be a good opportunity for the people of the various communities of the county to meet together in a great song service. So come and let us enjoy the day together.

S. T. MINOR.
HORACE HOLLEY.

HEAR NO NEWS OF MUTINY ON DAKAR

HOUSTON, Texas, June 19.—No details have been received by Houston relatives of George Finlay Simmons of the desertion of the crew of the steamer Blossom in Dakar, French West Africa, as reported in news dispatches. Captain Simmons is in command of a nautical history expedition financed by the Cleveland Museum of Natural History and sailed the last of last year for the unknown regions of the South Seas.

The crew, made up of college boys, is reported to have deserted the Blossom in Dakar. D. E. Simmons, Houston attorney and brother of Captain Simmons, said Tuesday that the last news the family had of his brother was from Dakar, but

they had heard nothing of a mutiny aboard the ship.

"All I've got to say is, if there has been any trouble on that ship, I know who came out on top," was Mr. Simmons' tribute to his brother Tuesday afternoon.

According to information received here, Captain Simmons, his wife, who formerly lived in Fort Worth; Kenneth Cuyler of Austin, Robert Rockwell of Brooklyn and a negro cook are left aboard the Blossom.

Captain Simmons is a son of the late D. E. Simmons, former United States District Attorney for the Southern District of Texas, who died last January, and a grandson of the late George Finlay of Galveston.

MASONIC FRATERNITY IN AMERICAN COLLEGES.

WASHINGTON, D. C.—A bill has been introduced in congress granting a national charter to organize the Sigma Mu Sigma fraternity. According to the bill "the object of this organization shall be to initiate Master Masons who are students in American colleges, into subordinate chapters of Sigma Mu Sigma, to promote among Master Masons the true spirit of Masonry as applied to their student life, and for the promotion of sincerity, morality, and scholarship."

The officers and sponsors of the organization are: Sidney C. Brown, Jr., president, Fort Wayne, Indiana; Professor Earl C. Arnold, vice-president, Washington, D. C.; Herbert R. Grossman, secretary, Louisville, Ky.; Robert S. Johnson, treasurer, Manchester, Iowa; Brig. Gen. Amos A. Fries, Washington, D. C., and Capt. R. G. Wood, Washington, D. C.

The bill has been referred to the committee on the judiciary, and is known as H. R. 9670.

RETURNED SATURDAY FROM KANSAS CITY, MISSOURI.

H. G. Towle returned Saturday from a short stay in Kansas City, where he went to take some post-graduate work in the Optrician School of that city. He returned earlier than he had planned as Dr. Wall, eminent man from Columbia University was unable to be there because of sickness in his family and the school had to be postponed to some future day.

METHODIST REVIVAL CLOSED SUNDAY NIGHT.

The revival conducted by Revs. C. B. Meador and J. C. Mann came to a close last Sunday night. About 15 conversions and 12 additions to the church was the visible result.

Rev. Meador is a strong, forceful preacher of the gospel and strikes straight from the shoulder. He is hard on sin and worldlyness but loves men.

Rev. Mann has a wonderful voice and charmed his audience again and again with his solos.

The co-operation of all the churches was beautiful. Our pastors stand as a unit for the things that are high and holy and are all as one against the things that break down the moral life.

METHODIST ANNOUNCEMENTS.

In the absence of the pastor, Rev. J. W. Hunt will occupy the pulpit at the Methodist Church Sunday at 11 a. m. There will be no preaching at the evening hour on account of the revival at the Christian Church.

On the following Sunday Rev. A. D. Jameson, pastor of the Methodist Church at Blackwell, Texas, will occupy the pulpit. The Snyder Methodist are to be congratulated on having these two ministers to preach for them as they are both able men and you will hear something worth while.

I will probably be at home by the next Sunday. Everybody be good and "don't do anything I wouldn't."

Your pastor,
C. E. JAMESON.

TEXAS CORN CROP AT CRITICAL STAGE

Telegraphic reports received by the News from twenty-six counties in the best corn-producing areas of Texas indicate that while the dry weather and hot winds of the last few days have begun to affect the condition of the crop in most sections, the crop would be saved by rain coming at any time within the next six or seven days. Corn, however, is at a critical stage in its development, the reports say, and the weather of the next few days will determine whether or not Texas is to have a corn crop this year.

In Central Texas and in Central West Texas, it appears, the dry, hot weather of the last four or five days has done more damage than in other sections of the State. Waco, Hillsboro, Temple and Waxahachie report considerable damage already done, and some of them say that unless rain falls in the next few days the yield will be cut down materially. Stephenville and Comanche also report corn as wilting and showing the effect of the heat during the daytime.

In Eastern Texas and in the northern tier of counties, of which Gray-

son, Fannin and Lamar are representative, the crop is late and has shown but little effects of the recent dry weather and high temperature. In some places the wet, cold weather of late spring which caused the crop to be late was also responsible for poor stands, and the total yield is expected to be less than the average, even with normal growing conditions from now until the crop has matured.

A considerable reduction in corn acreage is also indicated by the reports received by the News. While in some localities the acreage will be about the same as last year, in others the acreage has been cut from 5 to 25 per cent, as compared with 1923. Paris, Texarkana, Henrietta and Marshall report reductions of approximately 10 per cent, Temple 15 per cent, Stephenville, Waxahachie, Gatesville and Sulphur Springs 20 per cent, and Corsicana about 25 per cent. In Brown County, on the other hand, there has been an increase in acreage amounting to about 10 per cent. The Wichita County acreage is 25 per cent larger than last year. Cherokee County planted only half as much as in 1923.—Dallas News.

HUMPHREYS WELL SHOT MONDAY MORNING

The Humphreys well, drilling on the Wellborn farm south and west of Ira was shot early Monday morning with 60 quarts of nitroglycerine. For some reason the shooter failed to discharge all of shot and when the tools were run in the hole subsequent to the first shot another explosion took place which tore off the bit and caused some damage to the drilling equipment. At the latest reports no

definite statement has been made relative to whether the shot has helped the well or not as it will be impossible to form an estimate until the hole is again cleaned out.

Persistent rumors are abroad that the Camp Springs Oil Co. has had a good showing in a hard black lime formation; some of the officers of the company are here and it is hoped that something of a good nature will be learned shortly.

TEN YEARS AGO THEY SAID SHE COULDN'T LIVE

But Mrs. Greer Turned to Tanlac and Got Immediate Relief.

"After I had suffered for ten years all the tortures stomach trouble and rheumatism can cause a person, my husband did the least expensive and yet the most wonderful thing in all his efforts to save my life when he bought me Tanlac," recently said Mrs. N. M. Greer, 20 West Cole St., McKinney, Texas, in a vivid and impressive account of her experience with the famous medicine.

"As long as ten years ago, I was told I couldn't live and at times since then I have been so low that everyone thought I was gone. I could not eat anything but malted milk and buttermilk and I had starved until I was nothing but a shadow, only weighing 90 lbs. Besides that, I had rheumatism so bad that for three years I sat in my chair unable to get up, and I could not lie down for smothering spells. I could hardly bend my back, my arms were so stiff I wasn't even able to lift a cup to my mouth, and my legs were terribly swollen and utterly useless.

"My husband spent thousands of dollars trying to save me and I suffered so I prayed to die, but when Tanlac began helping me, I was one of the happiest women in Texas. In a short time, I was eating heartily and after I had taken seven bottles, I hadn't a sign of stomach trouble or rheumatism; I was walking around as anyone, doing all my housework, and my weight had gone from 90 lbs. to 140 lbs.—a gain of 50 lbs. It has been three years since then and I have now passed my 65th birthday, but I am still feeling fine. All my friends know that what I have said is true and I want the whole world to know that Tanlac saved my life."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanlac Vegetably Pills are made and recommended by the Manufacturers of Tanlac.

L. N. PERRYMAN SELLS HIS 1924 Wool Clip.

Mr. L. N. Perryman sold, this week, his 1924 wool clip to local buyers, delivering at Justiceburg. He got 37 cents per pound and marketed 2259 pounds. His sheep sheared 11 pounds of wool per head.

This wool clip of Mr. Perryman brought him a nice snug sum of money, and there was more clear profit in same than any other clip he could have marketed. Mr. Perryman's experience should be the experience of practically all the farmers and ranchers of Scurry county. If we had a general wool clip to come in now it would tide the country over until cotton picking and marketing starts. Scurry county people needs a midsummer or late spring money crop to come in between cotton season and other crops. In other words we should have a general diversified program. A one crop is a draw back to any country, and especially in Scurry county does conditions demand a diversified program. The sheep business has been thoroughly demonstrated as practical. Wool always brings a good price and mutton will hold its own any season compared to cattle. The feeding and maintaining of sheep is small compared to cat-

tle. The sheep industry cannot be controlled by outside influence as there is too many industries depending on same.

Speaking of diversification the Times-Signal writer has preached this doctrine for years. While on the Plains we carried on a persistent campaign to get the people away from an all-wheat program, and today we see up there in Floyd and Hale counties a diversified program adopted. We returned from Floyd and Hale counties Sunday and while there we found a big wheat yield waiting those people. In addition to wheat the oats are fine. The grain crop will put at least \$500,000 of new money into circulation in Lockney banks alone. Those people have big cotton and feed crops to come on later. Thus have those people added programs that will bring to them lasting prosperity.

The same course should be adopted in Scurry county. We have the wool industry which has been proven and which could be made an important link in our commercial activities. Then we can raise wheat as well as on the Plains. We do not need to go very strong on wheat, but some acreage should be planted to wheat

each year. Giles Garner has 200 acres of wheat just west of town that will make 50 bushels to the acre. The market this year will run around and above \$1.00 per bushel. If we could add two to five hundred thousand dollars new money each year as result of wool and sheep growing it would prove a big investment for Scurry county as a whole. We must not set all our industrial eggs under one hen. We must not stake all on a cotton crop, nor a feed crop nor a wool crop or any other one crop. Diversify and live at home is the road to certain prosperity in Scurry as well as all other sections of the West.

Superior DAIRY RATION

Increased production at least cost is the one big thought uppermost in the minds of all cow owners, and Superior Dairy Ration has the following fourfold superiority:

- 1st. Increased milk production.
- 2nd. Longer lactation period.
- 3rd. Stronger calves and healthy cows.
- 4th. Convenience and dependability.

There is a great deal more to a dairy feed than the essential analysis. Superior Dairy Ration is not only accurately balanced, but also contains the very essential vitamins and mineral matter necessary for a long and maximum milk production and the development of strong, vigorous calves and healthy cows. It is made from selected, inspected and analyzed high grade milk-producing feed elements that are proven before mixing. It is honest, dependable and absolutely uniform in its perfect ratio; although it may vary slightly in color, due to its protein base (Corn Gluten Feed) being a product that varies from a brown to a light yellow, but by having this feed analyzed we are able to maintain at all times the standard set for this remarkable milk producer.

In order to mix a ration properly one must know a great many things that can only be learned by practical experience. Some of these are the physical condition and palatability of feeds and the chemical elements that go to make milk, bone and flesh in scientifically accurate proportion. Experienced breeders are almost unanimous in their convictions that to get maximum production one must follow very closely a certain standard which is embodied in SUPERIOR DAIRY RATION.

Superior Dairy Ration is composed of the following: Corn Gluten Feed, Old Process Linseed Oil Meal, Prime Cotton Seed Meal, Finely Ground Maize Heads, Wheat Bran, 8 1-5 per cent Alfalfa Meal, Cane Molasses and 1 per cent Salt.

Stinson Drug Company

DOES SNYDER NEED RELIGIOUS REVIVAL.

This question was incorporated in a subject last Sunday by the Rev. Dr. Sparks at the opening of a series of meetings at the First Christian Church. The Times will undertake to answer the question and in doing so we will make some observations as to social and religious conditions not only in Snyder but in America generally. Does Snyder need a religious revival? Does America need a religious revival? We certainly need spiritual showers, not of the modern kind, but of the old-time quality and quantity. The writer is classed as an old foggy in many things, but we are rather proud of the appellation when in looking around we see customs in religion and social living so different from what they used to be. As to living now and then the comparison is striking. It involves the question, "Is the world and civilization really advancing along religious lines and real worth while things that make for Time and Eternity. It is true there are more big things being done or the church today than ever before in the history of America; there is more money being spent for costly church edifices and the promotion of religious and philanthropic nature, but the question we want to ask, "are the people as pious and religiously inclined today as they were thirty or forty years ago." We do not think so, and in making this charge we want to point to some of the fundamental causes that is leading the church in worldly paths, or in other words, "bringing the Church to the level of the world." We see card players in the church, Sunday school teachers, who on Sunday, teach the young people the folly and danger of gambling, and during the week days getting the example in social card playing; we see men and women who go to church through force of habit, giving little or no thought to the spiritual part of their act. We see church adding all kinds of worldly amusement to their worship; jazz bands, motion picture entertainment, dancing and a general

tendency to bring the church to the level of the world. You hear this argument: "Oh, we must entertain the people, if not they will go elsewhere. We must compete with the world and the flesh in matters of church entertainment or the Devil will get the best of us." etc.

Church life is reflected in everyday life, as people live during the week days so will they be on Sundays. There cannot be a double standard of living—one standard for the week days and another for Sundays. Church attendance is small during the entire year, especially during the summer. Everybody carries on Sundays and the general tendency is to stay away from church. Car riding is taking the place of church going and literature. Book reading has given away to joy riding, and we have a race of light readers. There are more people today that read the picture sections than those who read the editorials of newspapers and magazines. We are all guilty—none escapes the ban of accusation.

When people are brought to church it should be for the teaching them of God's word, and not for entertainment. In olden times we read where the people stood in the sun without meals for days to hear the law read to them. Where are those today who would undergo similar hardships in order to hear the word of God expounded? Where are those who go to church to learn deep spiritual lessons and become familiar with God's teachings. His directions to man. His standards explained to the people? Lighter the church services in point of real spiritual food the better. The sincere milk of the word is not desired nor given, and people. It causes effort to think and lighten the spiritual food administered less effort will it require to digest same.

Yes, Snyder and all America needs spiritual revival, but not of the modern kind. They need the plain truths of the Bible taught, the doctrine of Jesus Christ inculcated into the hearts and minds of the people. Yes, we need spiritual revival and restoration of the joys of our salvation. Brethren need to dwell together in religious peace, and a forsaking of the custom of religious ideals, and live more consecrated. It is a well-recognized fact and admitted by the best brains of the world, to-wit: if civilization is to be saved it must be through the teachings of the Word of God and not by modernism, materialism nor of bringing the church to the level of the world. Let

us seek out the old paths and walk therein. America needs the old time shouting religion of her fathers, a religion of humility, of consecration, of simplicity. We need to forsake completely the jazz age and custom of living and worshipping. We need preachers of courage who will get into the pulpit and whip the devil out of its pews instead of pussy-footing these social evils. We hear preachers say, oh, we must go easy on these matters, lest they offend. In thus reasoning and acting we are cheerfully compromising with the devil and destroying God's Eternal Truth. God is not mocked in these matters and the church is going to reap a harvest after its kind.

Getting onto another trend of thought we might propound this question: "Who is responsible for the social evils, the wild trend of society? Who is responsible for the reckless gait our young people are going? The answer is, "The Church." The church is responsible for its advancement or its going backward. Civilization is committed to the church and in its keeping rest the destiny of the world. The Church holds the truth, the keys to Eternity. If the Church functions properly, keeps itself clean and unspotted from the world it will perform its mission. The people compose the Church, for as lively stones they are builded together into a spiritual temple. If this generation does not carry the work of the church to perfection and along the lines that God has ordained He will raise up another people that will do His bidding. It is evident that God intended that there be no dissension among them, that they speak the same thing, do the same things and thus fulfill His righteousness. Let us seek out the old paths and walk therein. Return to Him who will abundantly bless us.

Speaking of Government ownership it is said to have cost the taxpayers \$44,000 to rehabilitate every disabled soldier from the world war. The difference in the actual cost of rehabilitating the soldier was swallowed up in red tape and hangers-on in administering the law of rehabilitation. The people should oppose every effort towards government ownership. The government cannot transact business as economically as in private life. This is our main objection to William McAdoo for President of the United States. He is known to favor government ownership of railroads. The people

have not seen any tax burdens compared to what government ownership of railroads would cost them.

The Lamb County Leader suggests that some candidate ought to adopt a hopped-hair plank. It would prove a good vote catcher if the flapper age was admitted to the polls. As it is bobbed hair is confined largely to the under voting age.

In the hurry of Congress adjournment no provision was made to carry out the soldier's bonus law. No appropriation was made and it will be until the next Congress meets before funds will be available to put into effect the bonus.

The tax on motion theaters has been repealed by a bill that passed congress just before adjournment. This tax was 10 per cent.

The Republican party held their convention and nominated President Coolidge as their choice for President. Coolidge only lost forty-four of the convention vote, which gives him the nomination practically unanimously. The Republican platform, among other things, declares for a world court. The Republicans will launch their campaign for the next national administration with harmony prevailing and with a strong man as their standard bearer. If the Republicans from a party standpoint they shall have a long way towards gaining control of national affairs. President Coolidge was by far the strongest man that could have been named President. Going into the presidency as vice-president he did so without any party alliance or strings on him. All Vice-Presidents when they become President, are independent and have no political obligation to discharge. Roosevelt was an independent, and made a President that not only Republicans but the entire nation are glad to refer to and remember for his constructive and independent administration. Coolidge has proven himself of the Roosevelt type of statesmen.

STRAYHORN ADDING NEW OFFICE EQUIPMENT.

Some of the most substantial improvement and equipment that has been added in any garage in West Texas is taking place at Joe Strayhorn, the Ford dealer. Mr. Strayhorn has a garage that is magnificent in proportions and equipment. The building is 160 front by a depth of 100 feet. Recently the office and part room has been enlarged and extended clear across 100-foot space.

He has added steel bins and cabinets for Ford parts and equipment. The part rooms and office space and equipment surpasses anything in the West.

Mr. Strayhorn enjoys a big business, both in his sales department and repair shops. His repair department is most complete and equipped

with modern machinery to turn out work promptly and in first-class manner.

Mrs. M. E. Lane of Granbury left Monday for her home after a visit here with her daughter, Mrs. W. A. Barnett.

STAR PARASITE REMOVER

Given Chickens in drinking water will rid them of Lice, Mites, Fleas, Chiggers, Blue Bugs and all other blood-sucking parasites, and save many young chickens that these pests kill. Also is a good tonic and blood purifier. Keeps fowls healthy and increases egg production or money refunded.

TOURIST, WATCH FOR THE SEAL OF SAFETY!

The State Board of Health in cooperation with civic clubs and other organizations will launch a state-wide "Seal of Safety" Campaign beginning June 15th. Dr. Duggan, State Health Officer, stated that in addition to fish, a healthy tan, a vigorous appetite, a gain in avoirdupois, chiggers and poison ivy, many of the 1928 tourists caught dengue, malaria, and typhoid, and the purpose of the "Seal of Safety" campaign is to better protect the vacationist and tourist by raising the standard of sanitation at the various tourist camps, swimming pools and drinking water supplies afforded the tourist such as streams, roadside wells and springs.

The local supervision and inspection of camps will rest with the city and county health officers or other designated authorities who will cooperate with the local chambers of commerce and civic organizations. The camps will be inspected as to proper drainage, adequate and potable supply of drinking water, proper disposal of sewage and garbage, and if approved they will be listed as an approved tourist camp and further identified by appropriate sign boards and posters on the highways.

The water supply of all wells and hydrants will be tested by the laboratory of the State Board of Health, and if the water is safe, a metal "Seal of Safety" will be attached to advertise the supply as safe. The State Board of Health will furnish the metal seals, with posters for placarding camps as well as streams. Some of the posters read, "This Is an Approved Camp Ground," "Help Keep It On the Approved List," or "Do Not Use This Water for Drinking Without Boiling," and "The Water From This Well Has Been Tested and Found to be Safe for Drinking." The state board of health is also planning to classify the swimming pools and bring about a more sanitary control of the two hundred pools in Texas.

All city and county health officers in Texas have been requested to make surveys of camps and to collect samples of water in their locality and have been furnished questionnaires for recording the conditions found. The information obtained will be used as a basis for the issuing and placing of the "Seals of Safety." When the development is not satisfactory, advice regarding the improvement or abandonment of the camp or water supply will be given the State and local health departments, and periodic re-examinations will then be made from time to time. Camps wishing recognition should communicate with the State Board of Health as soon as possible.

TEXAS COTTON PROGRESS IS GOOD.

WASHINGTON, June 19.—Crop and weather conditions in Southern states during the week ending yesterday were summarized today by the Department of Agriculture as follows:

The week was probably the most favorable of the season so far for the general growth and cultivation of cotton. Soil moisture was sufficient in nearly all sections and the absence of continued rains with normal sunshine, favored cultivation, though in a few localities rain interfered and fields are becoming grassy.

In regard to cotton in Texas the report said:

Progress of cotton fair to very good, but condition generally poor; wet soil delayed chopping in some sections; stand and size of plants irregular.

INVESTING IN HUMAN VALUES.

Through the generosity of Col. A. E. Humphreys of Mexia, prominent oil man, the Boy Scouts of Dallas today possess a large tract of wooded and watered land. "all their very own" for learning the lessons of play, work and nature which go into the making of a boy scout. The gift of Colonel Humphreys, announced recently, adjoins a tract previously given to the boys.

Such gifts weigh far beyond their consideration. The Boy Scouts of America are engaged in one of the most important works going on under the Stars and Stripes. They are building in the youth of the land the qualities of manhood and citizenship that cannot be without their effects in raising American standards of the future. Operating mostly in the cities, where crowded conditions prevail, such facilities as are thus happily provided for the Dallas Scouts are urgently needed, even at the present, and will meet a greater need and be of greater service in the future.

The person of means whose benevolence can realize the advantages of investment in human values is fortunate. He is able to erect to himself monuments more enduring than stone, and stores of satisfaction greater than that of acquiring means, even greater than that of bestowing means in the ordinary fashion.

FERGUSON LOSES IN TEXAS BALLOT CASE.

AUSTIN, Texas, June 12.—The Special Supreme Court, answering certified questions in the case of J. E. Ferguson, ex-Governor, held that the impeachment was constitutional and legal; that the Senate acted within its constitutional jurisdiction,

and that its decision is final, and that as to impeachment it is a court of original, exclusive and final jurisdiction.

It also held that Mr. Ferguson's resignation as Governor did not prevent the judgment of the high court of impeachment from being carried out, otherwise it would have been a farce.

This decision holds void the decree of the barred the former Governor from holding office in Texas, and, in effect, will keep the name of James E. Ferguson off the Democratic ballot.

ATHLETE LOSES LIFE IN LAKE

ABILENE, June 19.—Homer Brown, 21, athlete and student of Abilene Christian College, met death while bathing at Lytle Beach, Wednesday night. His body was recovered by divers about 20 minutes after his disappearance and when found was lying on the bottom in 22 feet of water, directly under the float from which he had dived.

Brown was rated as an exceptionally good swimmer and from the condition of the body when recovered physicians who were called concluded that death was due to heart disease. In company with Cecil Noel and other friends, Brown had been swimming about the lake for some time. After a rest on one of the floats, about 60 yards from the dam, Brown and Noel dived in, intending to swim to a diving pier near. Noel on coming to the surface missed his companion and began a search for him, swimming nearby and diving for several minutes.

Eighteen Swimmers Search.
Failing to locate Brown, he gave the alarm. Eighteen good swimmers who were in the water joined the beach force and a systematic search was begun which ended 20 minutes later with the discovery of the body by Jack Reid, who also brought the body to the surface. First aid treatment was immediately administered and a pulmotor put into service, but without effect. Blood was flowing freely from the lungs when the body was brought to the surface and hindered possible resuscitation. Mack Samons, life guard at the beach last season, and Bob Barber, one of the life guards this year, directed the divers in their search for Brown's body.

Body Sent to Rochester.
Dorin Brown, father of the young man, was notified and upon his instructions the body was sent to Rochester on the Thursday morning Wichita Valley train. Young Brown, together with a brother and sister, all students of A. C. C., were living at the home of Judge E. M. Overshiner of this city.

WHEAT HARVEST BEGINS; HANDS ARE NEEDED.

The wheat harvest has begun in West Texas and the south part of the Panhandle, according to C. W. Woodman, superintendent of the United States Employment Service. Large numbers of harvest hands are needed now, he announced. All men wanting work in harvest fields can get it if they communicate with Woodman's office.

According to A. P. Smythe, a director of the Plainview Board of City Development, cotton choppers and wheat harvest hands are needed in that section. The cotton acreage is twice that of 1923 and a crop of 40,000 bales is expected in Hale county, he notified Woodman. The crop in Floyd county will be 60,000 and in Crosby county, 50,000 bales, with good crops in Swisher, Briscoe and Lamb counties, he indicated. A wheat crop of 1,200,000 bushels is expected in the Plainview section, with Floyd county having a larger crop than Hale county.

The wheat harvest around Plainview will begin this week, according to a telegram received by Woodman from John Boswell, secretary of the Plainview Chamber of Commerce. The demand for farm labor has already been felt, he said. "We can use a number of hands at \$2.50 a day with board," he wired. "The harvest is about a week earlier than usual because of the warm weather."

Approximately 40,000 men from outside the state will be needed in harvesting the Kansas crop of wheat, according to information given Woodman by George E. Tucker, field director at Kansas City of the United States Employment Service. The harvest season will begin about June 20. In Nebraska the season will begin about June 25. The crops of Texas, Oklahoma, Kansas, Colorado and Nebraska are expected to be better than in 1923. Tucker said.—Star-Telegram.

AMERICAN ENTRIES IN INTERNATIONAL BALLOON RACE.

When the three American balloons leave the ground in the International Balloon Race from Brussels, Belgium, on the afternoon of June 15, seeking the upper air currents and distant places, the Yankee pilots and aides, participants in the most thrilling of aeronautical contests, will be in touch not only with the radio broadcasting centers of continental and insular Europe, but with a powerful station in their homeland 3000 miles away.

For the first time in the history of the James Gordon Bennett trophy classic the entries representing the United States will have the spoken encouragement of their countrymen through the medium of the Westinghouse Radio Station WBZ operating on 337 meters from the Boston-Herald-Traveler Studio, Boston, Mass.

The trio of American bags, "Good-year III," piloted by Ward T. Van Orman and Carl K. Wollam, winners of the National elimination race from San Antonio, Texas, April 23; the Kansas City balloon in charge of Capt. H. E. Honeywell, veteran aeronaut, and the United States Army balloon, to be navigated by Major Norman W. Peek, will all carry radio instruments and expect to "tune in" the Boston station at the outset of the race.

Radio proved an all-important factor in determining the outcome of the recent American air contest from the Texas city. For that reason arrangements were made by the Good-year Radio Club, of Akron, Ohio, with the Westinghouse station to broadcast a special program beginning shortly after the 18 contestants bearing the flags of seven nations

are released in Brussels, June 15.

An interesting page will be added to the annals of radio broadcasting on the night of the international air dash opens in Belgium, and it is estimated that fully 100,000 American radio headpieces will be snapped into place to hear the messages sent to the fliers scudding across the skies of Europe.

Meteorologists, who have studied the trend of wind tides and currents over the European continent during a period of years, believe the general direction of the face's course will be in a easterly quadrant varying slightly to either the northeast or southwest.

These conditions may sweep the vagabond balloons over Belgium, Germany, Poland, or Czecho-Slovakia, Hungary and possibly Jugo-Slavia, Roumania or Bulgaria. By a decision of the committee of the Federation Aeronautique Internationale, Russian territory is neutralized, and no credit for distance beyond the boundaries of that country will be given the contestants.

Wherever the prevailing winds carry the airmen from this country, it is believed that they will be able to hear the signals from the long wave broadcasting station on the Atlantic seaboard.

This, it is pointed out by aeronautical authorities, should be of psychological value to the Americans contesting for honors against the crack balloonists of England, Belgium, France, Switzerland, Italy and Spain for the classic in air victories.

NOTICE TO CAR OWNERS.

It is against the laws of the city of Snyder for boys and girls to drive cars within the city limits of Snyder who are under the age of 14. Heretofore we have allowed boys and girls of this age to drive cars by special permits. All special permits have been withdrawn and hereafter the laws in reference to the matter will be rapidly enforced. Please take notice and keep the boys and girls of the age suggested from driving automobiles.

There is a state law against running cars with mufflers opened, and this law will also be enforced in Snyder. Hereafter all mufflers must be closed.

Notice is also given against the habit of double parking of cars on the streets and public square. Hereafter no double parking will be allowed. Cars are allowed to be parked at the curb in the center of

C. F. Sentell J. E. Sentell
SENTELL & SENTELL
Attorneys-at-Law
General Practice
Offices: Court House Phone 147

the square and at the court yard curb, but positively no double parking will be permitted.

The city has replaced the turning blocks on the public square and all drivers of automobiles are required to observe the ordinance against miscellaneous cutting of corners.

These laws and ordinances must be obeyed and any violation of same will be prosecuted.

J. E. CHINN, City Marshal.
FRITZ R. SMITH, Mayor.

Pepsinated Calomel Is Better than the Old-Time Sickening Kind

It is gentle, imported English Calomel, combined with Pepsin and other helpful ingredients. It is mild but certain, causing no harshness or unpleasantness and will absolutely relieve indigestion, biliousness, bad colds, constipation and sick headaches. And best of all it does it at once—quickly and pleasantly. Take one small tablet at bed-time and you will get up hungry and feeling fine. Recommended by **STINSON DRUG COMPANY**

WEST TEXAS C. OF C. RE-ELECTS WHALEY.

Re-election of Porter Whaley for the sixth time as manager of the West Texas Chamber of Commerce; vigorous prosecution of the common point freight rate preservation fight; adoption of a budget of \$85,000 for the current year, and appointment of standing committees featured the first meeting of the new executive board of the West Texas Chamber of Commerce, called here for Friday by President C. C. Walsh, San Angelo banker.

Following his election, Mr. Whaley submitted the following assistants for ratification by the board: Homer D. Wade, assistant manager; B. M. Whittaker, exhibit manager; R. A. Highsmith, convention manager; F. A. Leffingwell, traffic manager; B. F. Bennett, S. J. Cole and Harvey Allen as district managers, and K. Goodman, advertising manager.

Orient Aid Urged.

State Railroad Commissioner W. M. W. Splawn met with the board Friday morning and emphasized the necessity of careful attention to the Orient railroad, as well as to see that certificates of necessity were issued by the Interstate Commerce Commission for the proposed extensions of the Burlington, Frisco and Katy Railway systems into West Texas. Former President A. B. Spencer of Crosbyton was continued in charge of the organization's fight for preservation of the West Texas common point freight rates, with ample funds set aside for the employment of counsel and other expenditures.

At noon the visitors were guests of the Sweetwater Board of City Development at the Hotel Wright, where the session was held. A resolution calling for strict enforcement of all laws, and especially prohibition laws, on the part of towns entertaining the convention, was directed. A motion picture film of the convention at Brownwood was exhibited.

Committees Named.

Committees appointed by President Walsh are as follows: Legislative—Sidney Webb, Mineral Wells, chairman; John W. Gaines, San Antonio; J. A. Wheat, Seymour; W. P. Hallmark, Dublin; Claude Weaver, Eastland; Leon Shields, Coleman; Dan D. Moore, Fort Worth; Hardy Grishom, Haskell; Alba H. Warren, El Paso; W. M. Massie, Fort Worth; B. D. Donnell, Wichita Falls; R. W. Haynie, Abilene; W. P. Dykens, Ranger. Irrigation—C. A. Caldwell, Abilene, chairman; D. W. Bozeman,

Pecos; L. C. Eastland, Breckenridge; R. A. Thompson, Wichita Falls; Stuart L. Williams, Ballinger; Hervey Hemlong; J. M. Burrow, Dalhart; Houston Harte, San Angelo. Agriculture, Live Stock, Poultry.—A. M. Mourland, Vernon, chairman; W. W. Rix, Big Spring; C. C. French, Fort Worth; O. P. Thrane, Snyder; F. W. Kennerly, Quannah; F. W. Wulff, Brady; J. E. Bell, Fredericksburg; George A. Sager, Memphis; J. W. Cheney, Amarillo; J. S. Dickey, Henrietta; C. M. Jackson, Loraine; J. Q. McAdams, Winters; O. P. Rutledge, Floydada; John L. Greenfield, Tahokka.

Publicity—B. D. Donnell, Wichita Falls, chairman; B. S. Huey, Cisco; R. W. Haynie, Abilene; J. L. Nunn, Amarillo; Houston Harte, San Angelo; R. Penick, Stamford; Sam H. Braswell, Clarendon; C. T. Watson, Lamesa; Clifford B. Jones, Spur; John D. Waring, Comanche. Exhibit, Immigration—R. J. Murray, Slaton, chairman; R. A. Underwood, Plainview; O. H. Loyd, Vega; Claude Simpson, Roswell; J. S. Dickey, Henrietta; George A. Sager, Memphis; W. R. Chancellor, Midland; O. P. Thrane, Snyder; W. R. Slayton, Channing; R. M. Chitwood, Sweetwater; J. D. Hamlin, Farwell; William D. Cargill, Brady; Murry Hopkins, Floydada.

Texas Technological College—Clifford B. Jones, Spur, chairman; Dr. P. C. Coleman, Colorado; Rufus Wright, Sweetwater; R. S. Posey, Lubbock; Dack Walker, Graham; Amos G. Carter, Fort Worth; Louis Schreiner, Kerrville; R. M. Chitwood, Sweetwater.

Public Utilities—F. W. Greber, Brownwood, chairman; P. A. Rogers, Wichita Falls; P. P. Sheppard, Hamlin; P. C. Campbell, Cisco; U. E. Lewis, Eastland; G. W. Foy, Abilene; C. L. Stewart, Abilene.

Spencer Heads Traffic Body. Traffic—A. B. Spencer, Crosbyton, chairman; R. L. Haynie, Stamford; A. G. Hinn, Plainview; T. N. Carswell, Abilene; E. I. Jackson, San Angelo; P. A. Glanville, Brownwood; E. B. Tanner, El Paso; J. A. McCurdy, Sweetwater; O. V. Vernon, Amarillo; Ray Leeman, Mineral Wells; Robert B. Leopold, Breckenridge; U. S. Pawkett, San Antonio; R. Q. Lee, Cisco.

Industrial—V. A. Robinson, Post, chairman; Roscoe Ary, Fort Worth. Officers and directors in attendance included O. D. Dillingham, Ranger; Clyde Payne, Sweetwater; John Q. McAdams, Winters; J. A. Wheat, Seymour; F. W. Kennerly, Quannah; R. L. Penick, Stamford; W. W. Rix, Big Spring; Kingsford Goodman, Fort

Worth; B. M. Whittaker, Haskell; C. C. Walsh, San Angelo; C. N. Caldwell, Abilene; Walter M. W. Splawn, Austin; B. S. Huey, Cisco; J. L. Nunn, Amarillo; L. L. Shield, Coleman; I. L. Williams, Ballinger; Houston Harte, San Angelo; L. C. Eastland, Breckenridge; D. W. Bozeman, Pecos; W. P. Hallmark, Dublin; O. P. Thrane, Snyder; C. M. Jackson, Loraine; Rufus Wright, Sweetwater; R. M. Chitwood, Sweetwater; A. B. Spencer, Crosbyton; Clifford B. Jones, Spur; D. Walker, Graham; Porter Whaley, Stamford.

THE STATE OF TEXAS, COUNTY OF SCURRY, CITY OF SNYDER, TEXAS June 11, 1924

By virtue of the authority vested in me as mayor of the City of Snyder I hereby give notice and issue proclamation that an election will be held in the West Ward of the City of Snyder on Saturday, July 12, 1924, at the City Hall, for the purpose of electing an Alderman for said West Ward, to fill the unexpired term of Alderman, J. I. Baze, whose resignation has been accepted on account of his removal to the North Ward.

I hereby appoint J. C. Maxwell and D. P. Lane, judges of said election. Witness my official signature, this 11th day of June, A. D. 1924. FRITZ R. SMITH, Mayor.

Attest: A. C. Pruitt, City Sec.

NOTICE.

The Fluvanna Methodist have changed the date of their revival meeting from the first Sunday in August until the Friday night before the third Sunday in July (July 18.)

This changed was made so our meeting wouldn't conflict with other meetings of the town. Brother G. R. Brown of Dunn will do the preaching.—Church Reporter.

PERSONALS

Jesse Rankin and wife of Seminole, came in Tuesday on a few days' visit to their father, W. T. Rankin. From here they will be joined by Mr. W. T. Rankin to several points where they will spend some ten days visiting with relatives.
J. C. Raney of Lubbock spent Sunday here visiting with W. V. Jones and family.
Mrs. Jim Curnutte came in Tuesday on a visit to her parents, Mr. and Mrs. J. H. Henderson.
Mrs. Clyde Pogue and little son returned to their home at Slaton Tuesday after a couple of weeks' visit here with her parents, Mr. and Mrs. Lon Pearce.

Mrs. Jack Grundy is here this week visiting with her mother, Mrs. Kate Cotten and other relatives.
Mrs. Millroy and niece, Miss Gilliland after a few days' visit here with their friend, Mrs. W. E. Smith, left Wednesday for Post where they will spend several days visiting with friends before returning to their home in Dallas.
Mrs. Fish and son, Collie, returned Tuesday from Gorman where they have been visiting with their daughter and sister, Mrs. Morrow.
Emzie Marcus and sister, Willie, and friend, Miss Blake Byson, of Bertram, came in Monday on a visit to their sister, Mrs. Duckworth. Miss Byson left Tuesday morning for Post where she will visit friends.

Mrs. C. I. June and daughter of Breckenridge are here this week visiting with their friend, Mrs. Clevinger.
J. M. Reeves of Roscoe was here Sunday visiting with his brother, W. T. Rankin.
Mrs. N. B. Moore left Tuesday for Lockney where she will spend several days visiting with her daughter, Mrs. Oran Wilson.
Mrs. J. B. Watts left on the early morning Santa Fe train Wednesday for Sweetwater where her daughter, Mrs. D. Lawless, of Goree, will join her and they will journey together to Blackwell where they will visit daughter and sister, Mrs. W. L. Chew.
Mr. and Mrs. J. G. Reed of Hermleigh were in town Monday shopping.
Dr. W. D. Hunter and son of Nacoma, Texas, left Sunday after a week's visit here with their friends, Mr. and Mrs. Dane.
Mrs. W. J. Sizemore left Thursday for her home in St. Louis after a five weeks' visit here with her sister, Mrs. N. S. Crenshaw.
Mr. and Mrs. Charley Smith and family of Fresno, Cal., came in Sunday on a visit to her sister, Mrs. Orville Dodson. They were en route to points in Missouri where they will visit.

George Oldham, Misses Tip Messmer, Janie Davis, Leslie Davis and Carley Jenkins went to Sweetwater Sunday night to meet Mrs. Oldham who was returning from a ten days' visit with relatives at Gorman.
Miss Hattie Hawkins of Galveston returned to her home Sunday after several weeks' visit here with her friend, Mrs. W. A. Johnson.
Mrs. Dorfman, son and little grandson, came in Friday on a visit to their daughter and sister, Mrs. Nelson Dunn.
Mrs. E. J. Anderson and little daughter, Brentz, left Sunday for Dallas and Shreveport on a month's visit with relatives.
Mrs. Dixie Smith went to Spur Friday for a visit. She was accompanied by her mother, Mrs. Higgins.
George Northcutt and nephew, George Oldham, returned Saturday from a week's fish and outing on the Llano and other places in that part of the country. They report a most enjoyable outing and lots of fish.
George Northcutt, manager of Higginbotham general store here, left Sunday afternoon for Comanche, to attend a meeting of the clothing buyers for their various stores. Mr. Northcutt will return by the way of Gorman where he will meet his family who have been there for the past two weeks visiting and accompanying them back home.
O. S. Williamson and family went to Sipe Springs Saturday to attend the memorial services held in that city Sunday morning for Mrs. Williamson's sister, Miss Ashenhurst, and three others who were killed in an auto accident there the latter part of April.

THE AS YOU LIKE IT CLUB.

Mrs. Henry Ware was hostess to The As You Like It Club Wednesday afternoon.
A business meeting was held arrangements were made for a picnic and other business discussed.
A very enjoyable social hour was spent. At six o'clock the hostess, assisted by Mrs. Chas. Cleanenger and Mrs. J. D. Jones, served delicious refreshments to the following members: Mesdames Page Cleanenger, Frank Darby, Chas. Cleanenger, Bill Hutcheson, Loy Ramsour, Hamlett, Claude Sims, J. D. Jones and to guest, Mesdames Raymond Sears and Clint Ware.
The next meeting will be held with Mrs. Addison Cassteners, June 25, at 4:30.—Reporter.

CARD OF THANKS.

Words cannot express our thanks and appreciation to our many friends and neighbors for their kind assistance and sympathy during the illness of our daughter, Elizabeth.
We shall ever remember all who stood by us at this time when friends were needed so much. Your many acts of kindness and the beautiful flowers helped drive away the gloom. We pray that God may richly reward each of you.
S. D. HAYS and WIFE.
M. H. Brumley returned Monday from Abilene where he has been visiting with relatives. He was accompanied home by his sister, Miss Pauline, who will visit here with her brother and father, P. H. Brumley.

Martin's Swimming Pool

Is Now Opened to the Public

PICNIC HONORING MRS. MILLROY AND MISS GILLILAND.

Mr. and Mrs. W. E. Smith entertained a number of their friends last Thursday evening with a picnic honoring their guests, Mrs. Millroy of Gorman and Miss Gilliland of Dallas. It was a merry party that gathered and drove out to the Tom Davis ranch where a delicious and appetizing feast was spread and heartily enjoyed by the following guests for the occasion: Mr. and Mrs. Chas. Noble, Mrs. Simpson, Mrs. Millroy; Misses Gilliland, Joyce, Gross, Harris, Lorena, Leona and Cecil Strayhorn and Worthington; Messrs. Shull, Boren, Blackard, Van Zandt, Limer, Thompson, Christian and Dane.

After the main feature of the picnic was over which consists of the most important part of the program, the "eating," some time was pleasantly spent in enjoying various games, suitable for out door sport and such occasions these young people feel very much indebted to Mr. and Mrs. Smith for a most enjoyable outing and pleasant evening.

To All Genii, Imperial Representatives, Grand Dragons and Hydras, Great Titans and Furies, King Kleagles and Kleagles, Giants, Exalted Cyclops and Terrors, and to All Citizens of the Invisible Empire—Greetings:

The following resolution was unanimously passed by the Cyclops of all Texas Klans in convention assembled at Dallas, May 21st, motion unanimously prevailing that copy be furnished to the press:

Whereas, the Knights of the Ku Klux Klan stands for the Constitution and its amendments;

And, Whereas, Many doctors and druggists are abusing the sacred trust this government has placed in them in that they promiscuously write and fill whiskey prescriptions, thereby violating the spirit of the 18th amendment; therefore be it

Resolved, That it is the sense of this body that the State of Texas should follow the lead of twenty-three other states and surrender its privileges to dispense whiskey through its doctors and druggists or by any other means.

Officially issued from the office of the Grand Dragon, Realm of Texas, on this the 26th day of May, 1924, in the year of our Klan LVIII.

Faithfully yours,
In the Sacred, Unfailing Bond,
(Signed) Z. E. MARVIN,
Grand Dragon, Realm of Texas.

GROWTH IN COTTON GROWERS' EXCHANGE MARKET.

The below information was furnished by Mr. C. Hill, field service director for Scurry County, regarding the growth of the Exchange during the last month:

The total membership of each of the State Associations on May 1, was as follows:

- Alabama 21,861, Arkansas 12,279, Arizona 1,285, Georgia 38,798, Louisiana 5,501, Mississippi 19,519, Missouri 574, North Carolina 34,625, South Carolina 13,862, Oklahoma 53,274, Texas 37,681, Tennessee 6,640. Total 245,899.

MT. JION.

Crops of this community are looking good if the rain will stay away a few days so the farmers can get most of the weeds.

Mr. and Mrs. W. F. Reed and daughter, Tomie, motored to Wastella Sunday visiting their friends.

Mr. and Mrs. Odie Steward visited Mr. and Mrs. Will Robinson Sunday evening.

Miss Della Morton was a visitor at Miss Hodge's Sunday. There was a large crowd attended singing at Mr. Will Robinson's Sunday night.

We are glad to know Mr. Tom Crenshaw is able to walk on his foot some. We have missed him in our Sunday school.

Mr. and Mrs. C. A. McCoy visited Mr. A. L. McGinty and family Sunday.

Mr. and Mrs. L. A. Crenshaw went to hear Rev. C. B. Meador of Abilene, preach.

Mrs. W. A. Pitts visited her daughter, Euna Pope in Kent county Friday.

Mr. and Mrs. Sam Crenshaw motored to Snyder Saturday.

Mr. and Mrs. Bueford Robinson was visitors at Mr. Will Robinson's Sunday. **BLUE EYES.**

The extreme in woman's suffrage when a negro wench was placed on the Republican National committee from Mississippi. It remains for the Republicans to push the negro forward in social equality among the whites and the blacks. When negro women begin to hold office in America it is time for white women to forego the ballot altogether.

BOLTON MAY TAKE UNIVERSITY JOB IF WIFE IS WILLING.

AUSTIN, June 19.—A woman probably will decide whether Dr. Herbert E. Bolton of the University of California shall accept the presidency of the University of Texas. The woman is Mrs. Bolton.

According to H. A. Wroe, member of the university board, practically all the financial arrangements are satisfactory and all that remains is to gain Mrs. Bolton's consent. For this purpose Dr. Bolton returned to Berkeley, Calif., to discuss the matter with his wife.

Dr. Bolton was offered a flat salary of \$10,000 a year with \$2,500 for expenses and a house, Wroe said. This would be the largest salary ever paid a president of the University of Texas.

To meet the plans of Dr. Bolton for making the University of Texas the greatest college in the Southwest, a bill to be introduced in the next Legislature providing for a limitation on the State's liability for any funds borrowed by the board of regents, Wroe said. Under this measure, the State would not be liable for funds borrowed but only would give authority for loans. The loans would be secured by the income of the University from rents, oil and other sources.

Ralph Johnson spent Sunday visiting with friends in Gail.

SPECIAL BULLETIN.

To All Hydras, Great Titans, Furies, Kleagles, Exalted Cyclops and Terrors, and to All Klansmen Throughout the Realm of Texas—Greetings:

There is now pending before the proper committees in the House and Senate of the United States a certain bill, seeking to legalize the sale of beverages containing as much as two and seventy-five per cent of alcohol, which if favorably reported and finally passed by both Houses of the Congress, would destroy the solemn wish of the people of the United States as expressed in the Eighteenth Amendment to our Federal Constitution.

The Klan stands for the Constitution and all of its amendments. Therefore, I, Z. E. Marvin, Grand Dragon of the Knights of the Ku Klux Klan, Realm of Texas, solemnly call upon all Klansmen in this State to immediately wire or write their respective Congressmen and Senators, urging them to use their best efforts to prevent favorable action on said bills, and in the event same should be reported out of the committees, to do all in their power to defeat the same in both Houses of Congress.

Faithfully yours,
In the Sacred, Unfailing Bond,
(Signed) * Z. E. MARVIN,
Grand Dragon, Realm of Texas.

STATE PRIMARY TICKET ARRANGED.

The Democratic state executive committee met in Dallas Monday, and made up the state ticket to be voted on in the primary July 26. The names of the district, county and precinct candidates will be added, which will make a very long ballot.

The committee refused to permit the name of J. E. Ferguson, impeached governor, to appear on the ticket, as the courts have issued a temporary injunction, and the case is now being argued in the state supreme court. However, Mrs. Ferguson's name was certified as a candidate for governor, and will appear on the ballot.

The following is the complete list of names as certified:

For United States Senator—Morris Sheppard of Bowie County; John F. Maddox, of Harris County; Fred W. Davis, of Travis County.

For Governor—Felix D. Robinson of Dallas County, George W. Dixon of Harris County, W. E. Pope of Nueces County, Joe Burkett of Eastland County, Miram M. Ferguson of Bell County, Lynch Davidson of Harris County, V. A. Collins of Dallas County, T. W. (Whit) Davidson of Harrison County and Thomas D. Barton of Potter County.

For Attorney General—J. M. Melson of Hopkins County, Edward B. Ward of Nueces County, Dan Moody of Williamson County, John C. Wall of Grayson County.

For Comptroller of Public Accounts—O. B. Baker of Milam County, Pat Maulden of Collin County, Don F. Smith of Galveston County, S. A. Terrell of McLennan County, A. J. Smith of Haskell County, Tom Bell of Bowie County.

For State Treasurer—C. V. Terrell of Wise County.

For State Superintendent of Public Instruction—S. M. N. Marrs of Travis County.

For Commissioner of Agriculture—Robert E. Sparkman of Ellis County, George E. Terrell of Cherokee.

For Land Commissioner—J. T. Robinson of Morris County, Will L. Sargent of Tarrant County, J. E. Binkley of Young County.

For Railroad Commissioner (regular six-year term)—Clarence E. Gilmore of Van Zandt County, J. C. Mason of Taylor County, Ed. E. Weaver of Bowie County.

For Railroad Commissioner (four-year unexpired term)—W. A. Nabors of Wood County, J. M. West of Harris County, Lon A. Smith of Travis County, Robert E. Speer of Tarrant County.

For Railroad Commissioner (two-year unexpired term)—Walter M. W. Splawn of Bell County.

For Chief Justice of the State Supreme Court—William Clayton Wear of Hill County, R. H. Buck of Tarrant County, C. M. Cureton of Bosque County.

For Associate Justice, Court of Criminal Appeals—O. S. Lattimore of Travis County.

RESEARCH OF DENTAL SOCIETIES IN REFERENCE TO BROWN STAIN.

The West Texas Dental Society, which held its annual convention in Lubbock, Friday and Saturday, was addressed by several very eminent dental research men, working under the American Dental Society. These were Dr. J. M. Murphy of Temple, state representative of the American Dental Society research commission; Dr. F. O. Hetrick, of Ottawa, Canada, chairman of the commission, which is spending \$35,000 to \$50,000 a year in research work, and at present giving attention to the cause and possible cure of brown stain and mottled enamel now so prevalent on the teeth of the children of the Plains. Dr. Pierle, chemist at Canyon Normal.

Dr. Hetrick spent Sunday in Plainview and went with Dr. C. D. Wolford to Canyon to confer further with Dr. Pierle, who will have active charge of the research work for this section. The national society has appropriated \$1,000 and will be asked to double the amount for this work here. Eminent dental research scientists claim they have found the cause of the brown stain, and will submit their conclusions at the convention of the national society which will be held in Dallas in November, at which a chair clinic will be put on. Some months ago the local dentists examined a thousand Plainview school children and found that more than half of them are afflicted with this stain.—Plainview News.

FOURTH OF JULY.

ABILENE, Texas, June 19.—Holiday seekers, thrill hunters and racing fans all over the western portion of the state are turning their eyes toward Abilene in expectation of a "Glorious Fourth," when for the fourth consecutive year this city will celebrate the "biggest automobile racing classic of the Southwest." That's the way the speed fans have termed the Abilene July Fourth auto races at the West Texas Fair Park. A crowd of something like 20,000 is slated to attend the 1924 event. Box seats have already gone on sale in response to the big demand for these five hundred seats, the only reservations available for the Independence Day race meet.

Calcium chloride, the substance to be used by the officials in rendering a practically "dustless" track for the comfort of the race crowds and greatest efficiency of the racers, was successfully tried out during the past week.

Entries for the July 4th meet will be officially closed at midnight, June 21; and on the homestretch of this premier racing event letters are coming in thick and fast from some of the "big ones" of the race aristocracy, giving promise of faster cars, more famous drivers and greater thrills than ever before in the history of the Abilene speed classic.

Among the eleventh-hour entries is that formidable veteran of the Abilene track, the Hudson Super Six, originally owned by Glenn Breed, driven in last year's races by Herbert Haas, who will pilot her this year, under the ownership of Haynie Blocker of San Angelo. This car came like a charm through a sensational smash-up last year, in which the two cars caught fire following the crash. Other late entries are John H. Lee of Houston, one of the big daredevil drivers of the country in his Mormon Special, and Rex Edmonds of Houston, an unknown quantity to Abilene race crowds, but well known on many of the speedy tracks of the State. Edmonds came out winner in two events of the recent Houston races, making the fastest twelve miles ever made on that course. He will probably enter two cars, a Dodge Special and a "Fronty" Ford.

Mrs. Morrow and granddaughter, Mary Kelley and Lola Flo Wilks of Post, returned to their home at Post Tuesday after a visit here with their relatives, Mr. and Mrs. J. R. Webb.

BUT WOMEN ARE CITIZENS.

The editor of the Snyder Times, whose ideas on some things are akin to the Middle Ages, is incensed because the president of the Woman's Christian Temperance Union of the state has given notice she will make speeches and tell the people how the anti-prohibition element dominated the Democratic state convention held in Waco recently. He says 'this good woman, along with all other good women, should remain in the home and leave politics alone.'

That is just what every selfish and corrupt special interest, every dishonest politician, bootlegger and other vicious element favors—for they know that if the women take an active interest in politics they cannot elect their candidates nor put through their nefarious schemes. The more interest women take in politics, the better off the country will be.

The adoption of the nineteenth amendment made the women full-fledged citizens, and it is just as much their right and duty to take an active interest in politics as the men. It is just as much their duty to make political speeches, to write articles for newspapers, and to take active parts in political conventions and primary elections. Nor does such work make them any the worse mothers or wives; in fact, some of the most delightful women we have ever met are active in politics.

In the case the Times speaks of, that of the president of the Texas W. C. T. U., the women have elected her to give a large measure of her time to promotion of its work, and it is but right that she do her duty as such.—Plainview News.

The world is full of extremists, and perhaps with some our position on certain fundamental issues may seem extreme, but they seem to be founded on real facts. Women's participation in public affairs does not seem to improve the situation in America since the 19th amendment was adopted. There is more graft in public office today than was ever known in public life. The recent scandals in Washington thoroughly bears us out in these matters. As to the betterment of society present conditions will also bear us out in the charge that America made a mistake when it gave the women the ballot and further taken them from the home. Woman's participation in politics has not improved public affairs nor improved the home. God has ordained that woman shall be the home keeper and builder, and when she is taken out of this sphere both the home and state will suffer. No nation or state can rise any higher than its womanhood. Character building is given the woman as her task in life, and if the character building in the future is to be neglected or turned over to the state or some other influence we will soon reach a state bordering on Russian

The Times again affirms that the woman's place is in the home and not in politics and in commercial activities, in club work, etc. In every home in America women have an important work in character building. In every home a mother's influence and training is needed and it is of more need than politics.

The writer would not be a party to placing women in slavery nor places burden upon upon them other than the care of their homes. If the ballot could be used moderately and with modesty and discretion it would not be so bad, but women, like men, cannot be temperate, and to take part in office holding and politics in general is to neglect the more important work of home building and child training.

RELATION OF LABOR TO CAPITAL.

We are in an age when the relationship of labor to capital is almost completely lost sight of. Labor has reached the point in Texas and America when it thinks that all an employee makes above salaries is clear profit. Labor is turning Bolshevik openly—the rights of capital is loss sight of. In the past we have heard a great deal of discussion about down-trodden labor, but the tables seem to be turned and we can more truthfully speak of down-trodden capital. Of course we have reference to the average employee.

The Times has had occasion to test these matters fully. Recently we associated with us a young man on a handsome salary—\$40.00 per week. We gave him the combination to our safe, the run of business, he went and came as he pleased. We trusted him, we placed utmost confidence in him, and in four months' time he notifies us that he is going to enter business against us on his own hook. We do not own a bill of sale to the town, nor could we object to outside competition coming in if it so desired, but we do object to those whom we employ taking advantage of our confidence, and inside business information to be applied to their own individual interest. This case is a true reflection of the labor situation and the regard that labor holds to capital. Not willing to live economically and accumulate in certain substantial ways it seeks to better its condition by forsaking of principles and a complete overthrow of rights of the employee. Labor is restless, it is grasping, and reflects a situation where only individual interest of labor is considered.

The laborer who is drawing \$40 a week as printer or any other kind

of employment, who thinks that there is no overhead for the employer and that all he takes in above the wage salaries is clear profit will have to be convinced only by experience. Disloyal and ingratitude to employer is reflected in the above just only last week's development. A man who is not loyal to his employer will not prove loyal to the public when placed in public business.

More funds to be asked for the University of Texas is the heading of an Austin dispatch of recent date. The cost of the University education in Texas is every increasing. The university is a political creature and depends on the candidate for governor, who suggests that the university be taken out of politics, and a tuition fee for maintenance be charged. He says that the university is primarily a rich man's school, and the majority of those who attend are able to pay their own way. Burkett would take the money given the university and give it to the public schools of Texas. The university and public school system in regard to maintenance has been a political issue in Texas always. The suggestion of Senator Burkett as to tuition to be charged is a good one, but as to giving the cost under the tax plan to the free schools will not prove a permanent solution to the public school question. The necessities of the public school is ever increasing and the university maintenance cost added to the public school would mean only temporarily relief. The Times plan in regard to our public schools is to do away with state aid altogether and place the maintenance of our public schools for local solution. Take the limit off of local school tax and let each community build as high a system as it desires. This suggestion would be indignantly opposed by East Texas people for the reason they do not pay very much school tax and their schools are maintained largely by Texas taxes.

The Republicans nominated Brigadier General Charles G. Dawes as vice-president after ex-Governor Frank Louden of Illinois had repeatedly declined the nomination. It is Coolidge and Dawes against the selection of Democrats which will take place a little later. As to who will be chosen by the Democrats is yet undetermined. McAdoo is a strong contender, but the consensus of opinion is that he cannot win. The Democrats will have to look to a dark horse to outdistance Coolidge and Dawes in the coming November election.

SOCIETY JELLY BEANS.

"Society jelly beans" were excoriated last week by Judge Seward in county court at Pecos, according to the Pecos Enterprise, when a 21-year-old father of a baby less than one year of age received sentence on the charge of wife and child desertion. According to the Enterprise, the court, in passing sentence upon the young man, said:

"The evidence in this case proves that you are not earning a great deal of money," said Judge Seward, "yet you recently purchased a coupe and stepped out into society after deserting your wife and baby."

"There is plenty of room on the country roads for these society jelly-beans who are willing to sacrifice the love of a good wife and a deserving little child. You signed notes agreeing to pay \$40 a month for an automobile so you could play the part of a 'final hopper,' yet you were unwilling to provide a living for the woman you married and the child you brought into the world."

"I'm not going to send you to the county road. I'm going to give you an opportunity to get some grease on your hands, rather than on your hair. You may lose that automobile but you are going to pay the wife you left \$10 a week. I am going to enter an order to that effect, and you will be held responsible. I shall require you to report weekly to this court that you have paid the stipulated amount."

"It is unfortunate that some young men never realize that they can earn more than \$100 a month until court action forces them to that realization. When you leave the courtroom, I want you to mull over this 'society-jelly-bean' stuff you've been pulling and try to amount to something."

Passing on our comment we want to say that the jelly bean is no more to blame than the flapper for these early, inexperienced marriages. The girls of our age blows the boys in for every cent they can get hold of and chased them to an early, premature marriage. The parents of these girls do not give the matter serious thought and allow these early courtships to blossom into matrimony long before either party reaches marriageable age. There is no question but that a majority of our divorces can be traced direct to these early marriages. A boy or girl marrying before they reach their majorities is

a dangerous experiment, and is leading to the divorce courts in an alarming manner. The social jelly bean is no more to blame than the social butterfly that buzzes around the bean continually and is fed on ice cream, joy riding and jewelry. It takes all the average boy can make at wages these days to keep his girl in the style that society has approved. It use to be considered disgraceful for a girl to accept presents from boys until after they were engaged, but now the girls accept everything from silk teddies to diamonds, and there is nothing said about it. In the days gone by if a boy would have offered to give a girl a pair of teddies or stockings he would have been kicked off the premises. Years ago we remember a young man who offered a young lady a pair of silk hose. The irate father promptly kicked him out of the house. But where is the parent that will say a word if a boy presents a girl with a pair of silk teddies. Disgraceful is the age in which we are living, an age of familiarity among the sexes. The man or woman that endorses the present social customs are consuming fools and are living on the ragged edge of a social volcano.

Col. Humphreys, the well-known oil capitalist, has recently made a large donation to the Boy Scouts. He is investing in the boyhood of this nation in assets that will prove big dividends when the final accounting

is made in the hereafter. Money invested in humanity will bring greater returns than invested in marble shafts or costly churches. The money given by Col. Humphreys to Boy Scout work will do more good than ten times that amount invested in memorials and vain glory shafts.

Weak Nervous

"I was weak and nervous and run-down," writes Mrs. Edith Sellers, of 466 N. 21st St., East St. Louis, Ill. "I couldn't sleep nights, I was so restless. I felt tired and not in condition to do my work. I would have such pains in my stomach that I was afraid I would get down in bed. . . My mother came to see me and suggested that I use

CARDUI
The Woman's Tonic

I felt better after my first bottle. I had a better appetite. It seemed to strengthen and build me up. I am so glad to recommend Cardui for what it did for me. I haven't needed any medicine since I took Cardui, and I am feeling fine.

Nervousness, restlessness, sleeplessness—these symptoms so often are the result of a weak, run-down condition, and may develop more seriously if not treated in time.

If you are nervous and run-down, or suffering from some womanly weakness, take Cardui.

Sold everywhere. E-105

TO THE CITIZENS OF SCURRY COUNTY, TEXAS.

Having been very busy with the duties in my office, I have not been able to make a personal campaign of the voters of Scurry County, Texas, and I may not be able to see each and every one of you between now and election date, but it is my intention to make a vigorous campaign from now on. I want to personally see every man and woman in the county and solicit your vote, but should I fail, I want it understood that I want your vote and will appreciate it.

I am not making this canvass on anything other than my own merits. I have faithfully and impartially discharged the duties of this office and am asking for the honors of the second term. In 120 you honored me by electing me tax collector of Scurry County, but as a matter of law this office went back to the office of Sheriff, and I submitted without a protest and patiently waited until the sheriff at that time had filled the office of sheriff and tax collector a Democratic compliment of two terms. I then came before the people and you honored me by electing me your sheriff and tax collector, and I have been so, through this my first term, and I am now asking that you give me this office for a second term, with no other promise to the people except I will do my very best to make a fair and impartial sheriff, with no obligations whatever that would impair me from the discharge of my official duties without fear or favor.

L. T. CONDRA.

CHARLES JONES DOES DARE DEVIL STUNT IN "CIRCUS COWBOY."

In "The Circus Cowboy," his latest William Fox release, which comes to the Cozy theater Saturday, Charles Jones performs one of the most dangerous stunts of his career. Pursued by a posse that suspects him wrongly of shooting a man, Jones rides the rest until he comes to a canyon. Facing death at the hands of his pursuers, he is hard put what to do. The only means out of his difficulty is his lariat.

Jones allies the stump of a tree across the canyon and then ties the end he holds to another tree. With the chasm gasping thousands of feet below him and with the full realization that one false action means he will be dashed to death on the rocks below, he makes his way across the canyon by means of this rope, hand over hand.

While half way on this perilous trip, a crack shot among the posse severs the rope with a rifle bullet. Jones clings to the rope and swings to the opposite side of the chasm, smashing against the precipice. He climbs to safety under a shower of lead and evades his pursuers.

This feat was actually performed during the making of "The Circus Cowboy" and is no photographic delusion. After the scene was shot, Jones looked questionably at Director Wellman.

"Phew!" was all he said.

LADIES' AID OF FIRST CHRISTIAN CHURCH.

The Ladies' Aid of the First Christian Church met at the church Monday afternoon at 4 o'clock with a good attendance considering the warm weather.

The following program was rendered:

Song—More About Jesus.

Devotional—Mrs. Sparks.

Roll Call, answered by Scripture quotations.

Minutes of previous meeting read and approved.

The lesson for the evening, led by Mrs. Wasson. The Conquest of Canaan proved very interesting and instructive, bringing out some very valuable points. These lessons will prove very interesting to all members if they are given the necessary study and thought.

The following program will be rendered next Monday:

Song.

Prayer—Mrs. Monroe.

Roll Call, to be answered by some helpful thought.

Devotional—Mrs. Earl Brown.

Reading—Charles Hamlett.

Piano Solo—Hellen Boren.

Reading—Mary Ruth Pierce.

Piano Solo—Inez Baze.

Reading—Ruby Sparks.

Local Duet—Misses Martins.

Reading—Willie Mae Garner.

Piano Solo—Mary Francis Hamlett.

Mizpah Benediction.

TEXAS EDITORS TO ENJOY BABY BEEF BARBECUE.

AMARILLO, June 19.—Registered baby beef from a famous Hereford herd, barbecued to a turn over a hickory fire by a pioneer Plainsman, will furnish sustenance for Texas editors here this week while members of the press gang are engaged in exploring Palo Duro canyon.

The choicest beef, the best cook and the finest scenery in the Panhandle will be Amarillo's offering for the day. And the program will be completed by a swim and supper at West Texas State Teachers' College at Canyon City, which boasts one of the finest educational plants in the State.

Editors who love pioneer history will find much to interest them in John Snider, the jovial king of Panhandle barbecuers. For years, no celebration, no reunion, has been considered complete unless Snider prepared the grub. But winning a reputation as a barbecuer has been only one of Snider's achievements. He has lived in the Panhandle since early boyhood, including several years at old Tascosa when that long-vanished town was the metropolis of the Plains and a favorite rollicking place of Billy the Kid. Though still hale and hearty, he has seen the passing of the buffalo, the passing of the longhorn, and borne an active part in the transformation of the Panhandle from a "wild and woolly" region to the present state of development and orderliness.

The trip to Palo Duro Canyon will be the principal outing of the Press Association's three-day convention here, but the other days also will be interesting ones for the visitors.

Refreshments at Clarendon.

CLARENDON, June 19. Preparations are being made by the local Chamber of Commerce to serve refreshments to the members of the Texas Press Association and their ladies who will pass through Clarendon Tuesday evening aboard the Editor's special train bound for Amarillo, the 1924 convention city.

An attempt was first made to have the train stop over here for a short time but the lateness of the hour of arrival at their destination made this impractical.

Clarendon, which is the home of Sam M. Braswell, president of the association, will do the next best thing and serve refreshments aboard the train.

Mrs. L. E. Morgan of Phoenix, Ariz., spent several hours here Monday, en route to her home from Lexington, where she visited Mrs. Morgan.

EDITORS OF TIMES SIGNAL ATTENDING TEXAS PRESS ASSOCIATION

Mr. and Mrs. Ben F. Smith, editors of the Scurry County Times Signal left Tuesday for Amarillo where they will attend the Texas Press Association which meets in that city Wednesday, Thursday and Friday of this week. They made the trip overland and will stop one day in Lockney to visit with friends and relatives. They were accompanied as far as Lockney by Miss Elizabeth Smith who will visit there with relatives for several days. They expect to return home Saturday afternoon. In their absence the Times-Signal will be in charge of the "force," so any favors are greatly appreciated.

J. H. Carney of Rochester, Texas, was here Saturday prospecting and visiting with his friend, Mr. Dane.

GAINES COUNTY FARM LANDS AT REASONABLE PRICES AND ATTRACTIVE TERMS

Very little ready money is required to own a good farm in the South Plains of the Texas Panhandle. Payments for your farm are on about the same basis as paying rent.

At Seagraves, Gaines County, Texas, we offer you farm land at prices from \$12.00 to \$20.00 per acre, cash payment down only one dollar per acre, four yearly payments of one dollar per acre and the balance in yearly payments of two dollars per acre with interest at six per cent.

This is strictly a general farming country. Abundance of pure water, no boll weevil; and cotton a sure crop. At present prices of cotton it will not take a great many bales to pay for a 160 acre farm in one season.

This is your big opportunity. If interested in securing a farm and home for yourself and family on very unusual terms, now is the time to act.

Address W. A. SoRelle, General Agent, 17 Santa Fe Building, Seagraves, Gaines County, Texas, for terms of sale and descriptive folder.

HOW'S THIS?

HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh.

HALL'S CATARRH MEDICINE consists of an ointment which quickly relieves the catarrhal inflammation, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces, thus assisting to restore normal conditions.

THE WAY OF A RAILROAD.

By S. T. BLEDSOE, General Counsel.

In an editorial in The Topeka Daily Capital of April 28, 1924, entitled "The Way of a Railroad," after referring to the fact that the Santa Fe system lines had invested fifty million dollars in additions to and improvement of property in the year 1923, it is stated that the "Owners added nothing to investment, but traffic did" and—

"It would not seem probable that in the next ten years, on the average, less than fifty millions valuation will be added every year; it is added by taking from rates and fares paid by patrons to build up the property. So the patrons add to the valuation on which the patrons must also pay a 'fair return.'"

In an editorial in the same paper of May 3, 1924, entitled "Funds for the Railroads," it is stated:

"We had the other day the Santa Fe report, showing fifty millions expended last year for improvements and additional facilities, money taken out of current earnings, yet leaving about 15 1-2 per cent earned on the common stock, more than half of which was added to surplus."

Summary of Editorial Statements.

Summarized the statements contained in the two editorials are as follows:

(1) That the Santa Fe System lines invested fifty million dollars in 1923 in improvements and additional facilities out of current earnings contributed by traffic.

(2) That there was left of the net railway operating income after paying interest, preferred dividends, and the investment of 50 millions in improvements and additional facilities, sufficient of current earnings from traffic to pay 15 1-2 per cent on the common stock in 1923.

(3) That the owners contributed nothing to the fifty millions invested in improvements and additional facilities in 1923, but it was all contributed by the traffic handled.

(4) That the Santa Fe System lines will continue to invest fifty millions in each year for the next ten years out of current earnings, and Santa Fe patrons will be compelled to pay a return on the investment contributed by them.

These statements are not supported by, but are in direct conflict with, the facts as to everything, except that fifty million dollars was invested by Santa Fe System lines in 1923 in improvements and additional facilities.

Explanation of Accounting Terms.

Under the accounting rules of the Interstate Commerce Commission:

(1) Operating revenue includes all revenue received from the operation of the properties of a railroad company employed in the transportation service.

(2) Operating expenses includes the actual cost of operation of the properties employed in the transportation service and includes nothing for interest, dividends, or a return upon the value of the property.

(3) Net railway operating income is the balance of operating revenues remaining after the payment of operating expenses, taxes and equipment and joint facility rents, and is the sum available for the payment of rents for leased roads, miscellaneous income charges, interest, dividends, and for improvement of the property.

(4) Other income is income from investments in securities or other property not employed in the transportation service, and the cost of which is not included in determining the value of the property upon which a railroad company is entitled to earn a fair return.

income for the year 1923 was \$46,362,272, the amount required to pay interest and dividends was \$31,441,673, and the amount of net railway operating income left after the payment of interest and dividends and available for payment for leased roads and miscellaneous income charges and improvements was only \$14,920,599.

The maximum amount, therefore, of current earnings from the traffic handled which could have been invested in improvements and additional facilities in 1923 was only \$14,920,599.

The second statement is that after paying interest, preferred dividends, and expending 50 millions in improvements and additional facilities out of current earnings there was sufficient left in 1923 to pay 15 1-2 per cent on the common stock.

The facts are that interest on bonds and dividends on preferred stock in 1923 amounted to \$17,024,428.

Fifteen and one-half per cent on the common stock is \$36,024,867.

It would have required in 1923 to pay interest, preferred dividends, 15 1-2 per cent common stocks dividends, and to invest fifty million dollars in improvements and additional facilities out of current earnings from traffic, a net railway operating income of at least \$103,557,295, whereas the actual net railway operating income was \$46,362,272.

If fifty millions out of current earnings from traffic had in fact been invested in 1923 in improvements and additional facilities, there not only would not have been left out of net railway operating income a dollar to pay interest and dividends upon either preferred or common stock, but there would have been a deficit of at least \$3,637,728.

The third statement is that the owners contributed nothing to the investment but traffic did.

The facts are, as shown above, that after the payment of interest and dividends out of Santa Fe System lines net railway operating income for 1923, there was left only \$14,920,599, and that this is the maximum amount that could have been invested out of current earnings from the traffic moved in the year 1923.

However, the total of the net railway operating income was earned under reasonable rates, prescribed by public authority, which yielded less than 6 per cent upon the fair value of the property employed by the Santa Fe System lines in the transportation service, and yielded less than two-thirds of such fair return on the value of the greater part of the railroads serving Kansas.

Net railway operating income earned under reasonable rates, prescribed by public authority, and yielding less than a fair return upon the value of the property employed in the transportation service, is, under every legal and moral test, the property of the stockholders, and when invested is invested by the stockholders, the owners of the property.

The fourth statement is that the Santa Fe System lines will continue to invest in improvements and additional facilities out of current earnings from traffic 50 millions of dollars in each year for the next 10 years.

This statement is apparently based on a false assumption as to past earnings from traffic handled.

The facts are that for the ten years ending December 31, 1923, the average annual net railway operating income was \$41,197,386, and the aggregate annual amount of interest and dividends was \$31,583,608, and the maximum amount of net railway operating income, one the average available annually for improvements of property was \$9,613,778, or less than one-fifth of the amount invested in 1923, and less than one-fifth of the amount which the editorials referred to estimate will be

invested from current earnings of traffic handled for each of the next ten years. Using past experience as a measure, the maximum amount of net railway operating income available for improvement in each of the next ten years, will be \$9,600,000 instead of 50 million dollars.

Uncompensated depreciation on roadway and structures approximates amount of railway operating income available for improvements.

Santa Fe System lines total investment in road and equipment was on the average for the ten years ending December 31, 1923, \$751,803,949, of which \$593,540,142 was in roadway property and \$153,263,807 in equipment.

As of December 31, 1923, Santa Fe System lines total investment in road and equipment was \$874,527,137, of which \$658,119,918 was in roadway property and \$216,407,219 in equipment.

Nothing is charged to operating expenses by Santa Fe System lines on account of depreciation of roadway property except nominal amounts on ice plants in Arizona and California, although the original cost less salvage, of property units retired and replaced during any given year is charged to operating expenses.

Notwithstanding the fact that no charge is made by Santa Fe System lines, and most other railroads, to operating expenses for depreciation of roadway property, the Interstate Commerce Commission in valuing the property of the railroads for rate purposes is deducting from the cost of each unit of each class of property, other than "land" and "grading," a percentage of the cost of such unit for each year it has been in service. If the Santa Fe System lines had charged to operating expenses in each of the ten years the same rate of depreciation which the commission deducts in finding value for rate purposes, instead of the original cost, less salvage, of units retired and replaced, such charges would have been sufficient to absorb the greater part, if not all, of the \$9,600,000. In other words, the amount of net railway operating income available for investment in improvements on the average for the last ten years has exceeded by little, if anything, current depreciation of property values as computed and deducted by the Interstate Commerce Commission in fixing value for rate purposes.

Santa Fe Policy.

The result of the Santa Fe System lines financial policy of long-time financing at low rates of interest, payment of dividends at moderate rates (5 per cent on preferred, 6 per cent on common), investment of a part of net railway operating income deductions for depreciation made by the commission, instead of disbursing the full amount of such net railway operating income to its stockholders, to whom it belongs, is reflected in the fact that the Atchison Company has not had to borrow in the war period large sums of money at high interest rates, and in the satisfactory condition of its roadway and equipment, which enable it to render an unexcelled transportation service.

Editorial Statements Unjust to Company and Prejudicial to Public Interest.

Such statements as those appearing in the editorials referred to misrepresent vital and important facts and tend to create a belief among the patrons and employees of the Santa Fe

System lines that they are being exploited for the benefit of the stockholders. Such belief destroys co-operation, which is necessary to economical and efficient operation, and substitutes therefor hostility and friction, which are destructive of economical and efficient operation. Such

statements are not only unfair to the owners of the property, but unavoidably enhance the cost of operation and tend to prevent rate reduction.

Good Advice for Women

San Antonio, Texas—"While taking Dr. Pierce's Favorite Prescription for feminine weakness I was also relieved of stomach trouble. The 'Favorite Prescription' was exactly the tonic I needed in every respect. I got well shortly after I started taking it. My belief is that what it did for me it will do for others. Therefore I advise all women who are in poor health to take a course of this treatment."—Mrs. J. T. Stauffer, 1522 W. Houston Street.

Miss Beatrice McGinty spent last week with his sister, Mrs. C. A. McCoy. BUE EYES.

Frank J. Vavra of Lubbock representing the Ferguson Seed Company of that city was here Tuesday on business for his firm.

BRIDE ELECT HONORED AT A BEAUTIFUL SHOWER.

On Tuesday afternoon amid a setting of unusual beauty, Miss Bessie Garner, whose marriage to Mr. Walla D. Fish, will be solemnized in June, was complimented with a miscellaneous shower.

The hostess for the charming affair was Mrs. Chas. Noble, whose home was transformed into a bower of loveliness to greet the pretty bride-elect.

The flower gardens had been robbed of their treasures and each room was a "thing of beauty" and we feel sure a joy forever. The lights were softened by pink shades and showers of pink hearts were seen everywhere.

As the guests arrived they were asked to register and write a bit of advice in the bride's book, presided over by Miss Bertha Worthington.

A contest was the next feature in which the date of the wedding was guessed? And then came an impersonation of the bride given by little Miss Athline McClinton, who was very pretty and attractively dressed in orchid organdie with hair ribbons to match.

The hostess announced that she believed in people working for what they got and handed the bride-elect a silver basket with cards of instruction where she might possibly find hidden treasures and peeping behind the stove, under the bed, in the bath tub and in various places she would bring forth a package and exclaim what she had found that time. About the time all the secret places had been robbed of their treasures Western Union sent such a message which read like this:

"Snyder, Texas, June 16, 1924. "Miss Bessie Garner. "Congratulations to the sweetest girl in all the world. Guess?"

Dainty refreshments were served to about thirty guests. Those from out-of-town were, Mrs. Annis Millroy of Gorman, and Miss Gertrude Gilliland of Dallas.

The bride-elect was becomingly gowned in a dainty pinkorgette with lace trim. A string of pearls were the only jewelry she wore. Miss Winnie, sister of the bride-to-be, was dressed in a dainty lemonorgette, combined with ecru lace. Miss Lillian Fish, sister to the groom, in her quiet and unassuming way, was beautiful in a lovely dress of tan crepe de chine, with accessories to match.

AT THE CHURCH OF CHRIST.

Bible study at 10 o'clock. Preaching at 11. No preaching at night on account of the revival at the Christian Church.

Our protracted meeting will begin the fifth Lord's Day in this month. We will have one of the leading evangelists to do the preaching. We want all to begin to get ready to hear this man. He will do you good. Meeting will be held under the city tabernacle.

E. CHRISTIAN, Minister.

HIGH GRAVITY OIL FOUND IN HUMPHREYS WELLBORNE.

J. F. Carty, who drilled Wellborne No. 1 for Col. A. E. Humphreys et al, on the Wellborne survey near Ira, stated Tuesday that the well was producing an unusually high gravity oil for this field. The crude, according to Carty, will test forty gravity. The well is pumping seventy barrels from a sand encountered at 3390 feet and penetrated forty feet. The oil bearing strata is from 300 to 400 feet deeper than that from which wells south of the river in Mitchell county are producing and the oil is showing a better gravity test, Carey said.—Colorado Record.

HIGHWAY MEETING MONDAY, JUNE 23RD, 4 P. M.

All property owners of Scurry County are urged to be at this meeting. It will be of vital interest to every tax payer.

Under the present system the roads being used by State and Interstate traffic are roads built at an enormous cost to the counties. State and Federal highways should be built and maintained by the State and Federal Governments. And such highways should be built in a system and be connected. Under the present system we are building highways only in patches. What we wish to do is to provide Texas with a system of permanent highways, permanently maintained. To do that, an amendment to the Constitution is necessary.

THRILLING HINES PICTURE.

Johnny (Torchy) Hines' initial feature length starring vehicle, "Burn 'Em Up, Barnes," which comes to the Cozy theater for two days, beginning next Monday, is said to be packed with thrills. Mr. Hines, who temporarily deserts the title role in Torchy Comedies, has in "Burn 'Em Up Barnes" the role of a speed-mad youth, and automobile racing enthusiasts will find it thoroughly to their liking. Winsome Betty Carpenter is the leading woman, and the supporting cast includes such artists as Edmund Breese, George Fawcett, J. Barney Sherry, Matthew Betts, Julia Swayne, Gordon and Dorothy Leeds, George A. Beranger directed, and Hal Young is responsible for the photography.

WEST TEXAS REFINERY TO START OPERATING SOON.

The \$150,000 oil refining plant of the West Texas Refining Company, nearing completion adjoining Colorado, will officially be opened Saturday, June 21. J. Steve Anderson, vice-president of the company, stated here Thursday afternoon. By that time every unit of the plant will be in place and thoroughly tested out.

The pipe line connecting the refining plant with the field has been tested out under high pressure and the contractor is working a large crew of men painting the line and burying it underneath the ground. Pumping plant and crude storage on the Smart lease of the Sloan Oil Company, at which point production in the field will be centralized and brought to the refinery by pipe line, is near completion. The large pumps which will force the oil through the 14 miles of pipe line were in place several days ago.

The large boilers at the plant were fired up for the first time Thursday to generate steam for testing out the network of pipe connections and distill units at the refinery. Every unit of the large plant, however, has been carefully installed, and the management is expected very little adjustment work to develop with this test. Early next week the pumping plant in the field will be started sending crude through pipe line into the storage tanks on refinery site and a surplus supply of the raw product will be in storage when the plant begins operations.

Already the management is receiving calls for West Texas gasoline, fuel oil, naphtha and other products to be refined at the plant. Representatives of the Texas & Pacific railway were here Wednesday to negotiate contract for purchasing fuel oil for use in locomotives. It became known Thursday that one large concern, after investigating the high commercial grade of motor fuel to be manufactured from Mitchell County crude, is proposing to contract for entire output of gasoline at the plant.

The plant of the West Texas Refining Company at Colorado is one of the most modernly equipped oil refining plants in West Texas. It represents an investment of \$150,000 is built for permanency and many of the newest ideas known to the trade are incorporated in the various units.

Reports from the field continue to hold out the most optimistic future for development. Tentative plans for drilling a number of new tests have been announced. Completed wells on the pump are gauging a daily production which is indeed encouraging to local oil men. Daily production in the field is now placed at 2,000 barrels.

Snyder can have the same advantages as Colorado is now enjoying for we have as good oil field as they. The Ira field will prove as big as the Mitchell County field, and if this oil is piped here, it all hinges on Snyder getting the pipe line and when the time comes for us to get busy we must go after this pipe line in earnest. It means more to Snyder than another railroad—even the Katy. The proposition will be put up to get the pipe line built here. Without the pipe line we will not profit by oil development in this county. It would be nothing but a calamity for us not to get the rebound from our own oil resources and this can only come with pipe lines connections to Snyder. Refineries will follow the pipe line. It is said our oil is of higher gravity than that produced in the Westbrook field.

Get Rid of That Backache.

Snyder People Point the Way. The constant aching of a bad back, the weariness, the tired feeling; headaches, dizziness, nervousness, distressing urinary disorders—Are often signs of failing kidneys and too serious to be neglected. Get rid of these troubles! Use Doan's Pills—a stimulant diuretic to the kidneys. Hosts of people recommend Doan's.

This is a Snyder case. You can verify it.

J. J. Davis says: "I had a dull hurting pain through the small of my back, which made it impossible for me to do any stooping or lifting. My kidneys acted too freely, especially at night, when I had to get up to pass the secretions. I took Doan's Pills and they cured me of the attack."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Davis had. Foster-Milburn Co., Buffalo, N. Y.

Miss Mary Lou Rosser went to Lubbock Tuesday morning to accompany her mother home from the Lubbock Sanitarium where she has been for treatment for blood poison on her hand for the past several weeks. The many friends of Mrs. Rosser will be glad to have her home again and hope that she will continue to improve and soon be entirely restored to health.

Miss Lucile Kelley of Grandview, Texas, is here visiting with relatives. Mrs. H. Paul Hudgins of Fort Worth came in Wednesday morning on a visit to her mother, Mrs. J. H. Hamlett.

J. H. Hammett of Slaton was here Monday night the guest of his friend, F. T. Wilhelm.

RELATION OF HOME TO CITIZENSHIP.

Summary For the Week Beginning April 7, 1924.

By W. E. Myers, Attorney, Fort Worth, Texas.

The paramount duty of this organization is to preserve the sanctity and integrity of the home.

Whenever an assault is made upon this, the most sacred of all institutions, every red blooded American is ready to defend it and repel the aggression. The stability of this republic rests upon the home. The first government of man was the parental government to which filial obedience is rendered, and without the home no government is secure, or can exist. The kingdom of home is the oldest and most important of all governments. The better and purer the home, the better our citizenship. (Those people who are indifferent to home, who are careless about the home and treat it lightly are shiftless, lawless people.) Who are the violators of our law? Who are they that despoil virtue? Who are the people that are a menace to the good order and well being of society? Destroy the sanctity of the home and human government will perish.

Frugality of citizenship is reverence for the home. It is the one place that is likened unto heaven. And yet, who can define it? To me, it does mean a particular location, a house with its appointments, a family with all the tender family associations; a holy and sacred asylum, where the heart can find enjoyment and rest, where companionship holds its close councils, safe from all intrusions; the real indoors of this world; the nest of childhood where it feels safe and is happy; where the springs, the rocks and the big hills are abiding friends; where young life first blossomed into reality. The one place to which we recur wherever we may be or go. It is the one remembered place; the one one bright picture that hangs in memory's hall. Each day of toil to make it, each effort to save and beautify, still seems to stay there. It is the blessed shrine of previous memories. It rings with laughter and echoes with song and breathes the name of mother. To the weary it is the open door of paradise; to the disconsolate the vestibule of heaven. When clouds of trouble hover over us, and we are tired of the struggles of the day, when temptations meet us, and beset us, how sweet to rest in the quiet councils of home at evening tide, where love in monarch and contentment is queen. Though having been tossed from place to place upon the

uncertain sea of life, there is peace on the galilee of every troubled heart in the bosom of home. Therefore, it behooves us as individuals, to maintain and preserve it. What grander task could occupy humanity? "Home, Sweet Home" contains a sentiment that appeals to men regardless of position. It leads them to forget the barriers of tradition, race and birth, and with this song upon their lips, all men are brothers in the universal fraternity of God. It is our battle-hymn and will be the permanent pass word when earth's children shall have become a common brotherhood. "When the Rockies shall lift no more their crags unconquered to the storm, when the Alps shall break their silence and the Andes dissolve in melody, when the universe shall resound with the notes that trumpet earth to judgment," this song, fraternity's truest expression Klan Krafts most beautiful illustration will burst from the translated living and the awakened dead as the most fitting tribute of man to God.

Earl Henry and family and mother, Mrs. W. D. Sims, spent the week-end in Hamlin and Anson, visiting with relatives.

SCURRY COUNTY TIMES.

In answer to Mr. Poultryman write-up about our coming show will say I have just lived long enough to learn that you can say what you are going to do, but it's a different thing to do what you say.

I am expecting one of the best poultry shows to be at Snyder, for we are advertised and our show has had the best birds and best judges in the state. But I am not expecting to lose the silver cup, unless you buy a bunch of our guaranteed to win birds. So if you fellow want the cup and are willing to pay for your winners we have them.

But please don't borrow your friend's fine birds and enter them as yours. Some of you are not doing the right thing showing other people's birds.

So I can say, if you expect to win the cup you must have some real birds. Yours truly, C. W. GREEN.

Miss Grace Cotton returned last week from Mineral Wells where she spent some time visiting. Miss Cotton was accompanied home by Mrs. Bramlett for a few days' visit.
