FRIENDLY

you that, while I am writing this letter, just beyond my typewriter sits a vase containing a bouquet of beautiful, fragrant pink carnations, plucked from a neighbor's open yard yesterday. Grapefruit and lemons could have been gathered in the same yard. On our drive to Redlands (about six miles away) we pass along side several orange groves, the beautiful green trees of which are laden with golden fruit from near the ground to the top-most twigs.

Mentone, of which our home is a part, is only a village—a sort of suburb of Redlands. In fact, our entire road to Redlands is a street, the only division between Mentone and the Redlands city limit being a signboard. Redlands is a beautiful little city of some 18,000 people. It is about 1400 feet above sea level. Although it is a few hundred feet lower than Mentone, it is colder in winter, the latter place being outside the frost line. Redlands has 17 square miles within her city limits; has 156 miles of streets, 133 miles of which are paved; she has 18 miles of ornamentally lighted streets and 66 acres in parks. She has 22 churches and school of various grades up to and including a university, but, with all this, so far as this writer has observed, there is not a skyscraper in it—no building, I think, being more than four stories in height.

I would not have the readers of this article to think that I am trying to give a glowing account of California. The fact is, I have only seen a little strip of it along 125 miles of highway, and with this limited observation I have seen some that I would not have. Furthermore, we have not been here long enough to know much about even the valley in which we live. Neither have we tried a summer here yet. Evidently there is much to be learned. I am sure that this, like other states, has a portion of both the good and the bad. For example, here in Mentone practically all the unimproved (and some that is improved) land is almost covered with stones—granite rocks ranging from the size of pebbles up to a 20-gallon barrel. These stones are in and under the soil as well as on top of it. At least a part of the surface rock must be cleared away before planting begins. But here, as in other cases, good comes out of apparent evil. The rock enriches the land and, furthermore, they give the poor man a chance—stony land does not sell so high.

Next week I will mention some of the strange things that have come under my observation since leaving Fluvanna.

SNYDER COUNTRY CLUB ELECTS OFFICERS TUESDAY NIGHT

The Snyder Country Club in its annual election of officers named the following men Tuesday night to constitute the board of directors: Earl Fish, Ivan Dodson, Dr. J. G. Hicks, Dr. W. R. Johnson, Ernest Taylor and Charles Harless.

The board in turn named the following men to head the club: W. T. Raybon, president; Dr. J. G. Hicks, vice president; G. A. Hagan, secretary-treasurer.

The matter of a new club house was discussed but nothing definite announced. Beautifying of the course with new trees and other additions was approved.

Under the leadership of President Raybon last year the club enjoyed one of its best and most interesting seasons, and his re-election calls for another term of progressive activity.

WOODMAN CIRCLE

The Woodman Circle met Jan. 3 to install the officers in their respective offices. After a beautiful installation service, delicious refreshments were served.

Marvelous Work of New Konjola Medicine Told

Stinson Drug Store to Introduce Advanced Remedy For First Time in Snyder

If you were told that one single medicine put hundreds of men and women back to work in Chicago, Philadelphia and other large cities after they had been idle for months with health troubles, it would sound

G. H. MOSBY Discoverer of Konjola

impossible, wouldn't it? And that countless people were completely relieved of rheumatism and neuritis, and that they were able to walk again, without cane or crutches, and that this same medicine restored health to men and women who had suffered with stomach and kidney troubles for years, that complete relief had come in cases of misery where health resorts, expensive treatments and medicine upon medicine had failed—indeed, it seems impossible! Yet, it is all true, and the medicine that has done all these things is the new Konjola, which is being introduced, starting today at the Stinson Drug Stores, this city.

Wherever introduced, this Konjola is vastly different and more effective in thousands of cases of ill-health than any previously known medicine. It is a remarkable liquid compound for the following well-known troubles:

RHEUMATISM: Especially severe cases, where pains are intense, muscles swollen, joints stiff and rigid. In the milder cases of this disease, Konjola relieves almost at once, and this medicine brings the same results to the neuritis victim that it does for the rheumatic sufferers.

STOMACH, LIVER, KIDNEYS AND BOWEL TROUBLES: Nearly all forms of misery that arise from these unhealthy organs have been so quickly relieved by Konjola that men and women sufferers everywhere were surprised. It is the action of this medicine on the organs of the inner-system that removes toxic poisons from the system and brings quick relief in so many cases. The secret of this Konjola is the way it acts on the important functional organs of the body, namely: the stomach, liver, kidneys and bowels. So many diseases and long standing disorders of these organs were so completely conquered and entirely banished by this new compound that thousands of people in

larger cities were able to give up taking medicine for time to come. After the great accomplishments and wonderful work of Konjola in other sections, it is declared that this medicine is what hundreds of sufferers in Snyder and vicinity have long needed to actually reach their cases, and preparations are being made to introduce Konjola for the first time at the Stinson Drug Store, where this medicine will be sold and explained to the public daily.—Adv. 35-1tc

PASS THE SALVE

Too Much "Doctor, do you think the anaesthetic will make me sick?" "No, madam," replied the surgeon. "I think not." But still she was not satisfied. "But," she continued, "how long will it be before I know anything?" "Madam," replied the other gravely as he signalled to his assistant that he was ready, "don't you think you are asking a great deal of the anaesthetic?"

NEW PRESIDENT OF MEXICO SHOT AT INAUGURATION

Two hours after his inauguration Wednesday as president of Mexico, Poscuat Ortiz Rubio was wounded in the face by a gunman who fired six bullets into the presidential automobile as the machine was emerging from the honor gate of the national palace. Rubio's jaw was broken, his wife a nip on the ear and a slight wound was found on her scalp.

The head of the Mexico City federal district stated that the President would be at his desk within a few days unless complications set in.

The assailant was from a party of the defeated presidential candidate of the anti-re-election party.

METHODIST CHOIR ELECTS OFFICERS

The Methodist Church Choir in official session last night elected the following officers: W. J. Ely, president; Mrs. W. W. Hamilton, vice president; Mary Banks, sec'y-treasurer; Mrs. A. C. Preuit and Mrs. W. W. Hamilton, joint pianists. A committee to have charge of special Sunday music service con-

sists of E. D. Curry, W. J. Ely, Mrs. A. C. Preuit and Mrs. W. W. Hamilton. Two hundred new song books were ordered, and a program of special interest will be arranged by the committee.

Palace Theatre

VITAPHONE PROGRAM FOR THE WEEK

Friday, Feb. 14 "Our Modern Maidens"

Starring Joan Crawford. This is a silent picture, however one of her best, so don't miss it.

ALL-TALKING COMEDY Starring Charlie Chase "Crazy Feet," also Movietone Fox News

Saturday, Feb. 15 "The Parade of The West"

Starring Ken Maynard and his wonder horse, Tarzan. Also All-Talking Comedy

Mon. and Tues., Feb. 17 and 18 "So This Is College"

All-talking, with everything a college is supposed to have. Youth, gaiety, the songs and cheers and loves of college life make this one of the liveliest entertainments that have come to the talking-singing screen.

Also Harry Langdon in an all-talking comedy, "Hotter Hot"

Wed. and Thurs., Feb. 19 and 20 "The Hollywood Revue"

The talking, singing, dancing sensation; 25 stars, chorus of 200, big song hits, laughs, sketches. The greatest film entertainment of all time. See it.

Also Oswald the Rabbit in "Amateur Night"

Ritz Theatre

Friday and Saturday Feb. 14 and 15 "THE BELLAMY TRIAL"

One of the year's best court pictures. Also comedy, "Uncle's Visit."

Gas Company Delivers Goods When Needed

Snyder Users Proud They Have Community Gas Interests Here

Snyder citizens have been loud in their praises of the Lone Star Gas Company and its selling organization, the Community Natural Gas Co., in keeping gas to the point it was wanted during the cold spell.

The Dallas News in an editorial following the January tempest said: "It is probable that the strain thrown upon the maintenance and operation force of the gas company and allied companies supplying Dallas during the recent severe weather was the greatest in their history. And it is but fair to note in their behalf that they served the people of Dallas admirably throughout."

"The ordinary user of gas does not know the tension that seizes upon those thousands responsible for the very lives of thousands in a time such as we have just passed through. But in order that Dallas may have heat, when the thermometer goes down, down, down, many men have to labor in places of exposure and under circumstances of bitter bodily discomfort. The endeavors of the valiant corps of workers who brought us safely through a genuine emergency with ample fuel supply deserve to be ranked but little below the plane of the heroic."

Seasons of distress and difficulty, such as this one proved to be, test out men in the utility service generally. Executives who go through with it, without a failure of accommodation to the public, experience an exhaustion of mind and frame not unlike the utter weariness of those who battle with the elements in the physical struggle. The gas was delivered, pressure was maintained and Dallas greeted the returning sunshine shivering, but grateful. Maybe few customers will think to thank the company or its men. But the thanks have been earned by fidelity under trial."

The longest "spells" of cold weather ever known in Texas have been handed us this winter, and it has cost a number of millions of dollars extra, to have provided, for a few days in the year, for an extraordinary demand for natural gas from the users.

There are many towns and many thousands of Texas people who are using natural gas for domestic purposes, doing their cooking and heating their homes, for the first winter in Texas—this winter.

We wonder how they would now like to drive out to the shed and bring in some kindling wood for a fire, several fires, after an experience in using natural gas?

FUNERAL SERVICES FOR TWO CITIZENS OF DUNN HELD

N. H. Durham and Bob Billingsly Laid Away by Neighbors and Friends

Funeral services for N. H. Durham, venerable and honored pioneer of the Dunn community, were held there Saturday afternoon, with Rev. L. N. Lipscomb, Sweetwater, presiding elder of this district, in charge of the services. A large group of friends paid final respects to this pioneer.

Monday afternoon funeral services for Bob Billingsly, 21, were held at the Dunn Methodist Church, Rev. Cal C. Wright officiating.

Mr. Billingsly had gone to Dallas to have a small growth removed from his lip, and he was found dead in a hotel room some time Sunday, having died from the effects of a medicine that had been administered at the hospital to remove the growth. It was said, Mr. Billingsly, who had always lived in the Dunn community, leaves a wife and son, a mother, Mrs. Jim Billingsly, and four brothers, Dick, Hugh, Nat and Jimmie. The church was unable to hold the vast crowd that had come to attend the final services for this fine young man.

COUNTY POLITICS

By Phebe K. Warner

A lot of folks seem to think that county politics do not amount to much. Just anybody will do for county office. And it makes little difference whether I vote or not. Somebody will vote. There are always a lot of people who want to vote. Strange, isn't it? Strange that a person with good, common sense as most of us think we have, whether we have or not, should want to have anything to say about the affairs of their county and school and the roads they travel every day and the use of their tax money and the management of their home town or city.

Let's take a look just for a minute at the political meaning of a county. How many things in your county are decided by the ballot? First of all, the man who weighs your grain when you haul it to market will be selected by the ballot. Should you be interested in whether he is an honest man or not? The justice of the peace will be selected by the ballot and strange as it may seem he will have the power to marry your daughter or your son to anybody in the county or nation if he is asked to do so. Of all the ridiculous laws in our nation we believe this caps the climax. That anybody who happens to be elected justice of the peace in the precinct of a county inherits with his office the power to seal the sacred fate of a young man and woman life. But since our country gives him this power which has led to more run-away marriages than anything else in the nation, should we mothers be interested enough in the character of such officer to pay our poll tax and cast our vote for a decent man for the job?

Now our county commissioners are selected by the ballot. On them devolve the duties of keeping our roads, of building all our county buildings, such as a new court house, a county hospital, hiring the county's work done, employing the county farm agent or the county home demonstrator, and a hundred and one other things that have to be done in every county. Is it essential to have honest men in such positions? Is it essential to have public-spirited men in such positions—men that will think first of the good and safety and advancement of the county? Do you women who have been paying taxes for the last fifty years or less want a home demonstrator in your county to help YOU with YOUR problems of living? Do you want a county nurse to look after the health of your children and save money on doctor bills and suffering and lost time and expense in general? Do you want the mud holes dried up forever on your road to town? If you do, then pay your poll tax and vote for men for county commissioners who will think more of the safety of you and your children than of the pigs and calves and other material things. And the safety of the lower animals has had a lot more attention in the past in most of our counties than the safety of the higher animals.

And then there are the school trustees in every district in your county. Every one of them and the county trustees are also selected by the ballot. Every new school house depends on them. Every teacher in the county is selected by those trustees. The progress of your school depends on them. And your child's life for all the future will be molded by the teachers those trustees select and the course of study and the educational equipment they provide for that child. Should a mother be interested in anything that means so much to her home and her child and his future? And not only your poll tax you can not have one word to say who is selected for your county superintendent of schools or even your state superintendent of schools. Our whole educational sys-

tem is at the mercy of the ballot. Yet it is not a political institution at all.

And another thing that comes under county politics is all the town and city officials. Every one of them is elected by the ballot. Are you interested in what is going on in your home town? Does it make any difference whether you have lights or water or sewerage or pavements or a library or a hospital? All these things and many more must be settled by the ballot. And even if you do not want them, if you think your money should not be spent that way you can have nothing to say without the ballot.

The county judge, the tax assessor, the county clerk, the sheriff and every other officer is selected by the ballot. And every one of these officers has to deal with problems of vital interest to every home in the county. It is the sheriff's business to keep your county clean morally and socially just the same as it is your business to keep a clean home for your children, prepare clean food for them to eat and a clean bed for them to sleep in. It is of any concern to the mothers of the county whether that man has a reputation for being clean himself, socially and morally? Or should we vote for anybody because he needs the salary? Are county offices where the safety and welfare of the whole county is at stake more Christmas gifts to be distributed among the most needy? We believe of all the county offices that gives him this power which has led to the most self-sacrifice. It involves the greatest risk, the most daring work, and the strongest test of honesty. It is upon the multiplied work of every sheriff in the state that the enforcement of all our laws depends. What kind of a man are YOU going to select to protect your home and your community from the vandals of society? Should the mothers of Texas be interested in the character of the man who is elected as sheriff? It is not a political question at all. It is a social and moral duty you owe to your home which will cost you \$1.75 to perform. And your poll tax receipt is not a political document at all. It is simply a permit to prove you are old enough and have sense enough to direct the use of your taxes, your children's education and the protection of your home and property.

But county politics does not end with county. It is in our home county where we select every state and national officer. The governor of our state will depend on your vote in your county. As the counties vote the state officials will be chosen. And the same is true of even the president of the United States. He will be selected in the county elections. There is no such thing as a state election or a national election. All the voting in the state or nation is done in the county and by the people of the county. So if you would have a voice in state or national affairs you need only pay your poll tax of \$1.75 and you have a permit to vote every election of county, state or nation.

HIGHWAY NO. 7 TO BE FIRST COUNTY PAVING

Highway No. 7, connecting Slaton and Lubbock, has been designated by Guy R. Johnston, resident engineer of the state highway department, as the first section to be paved in the county. Mr. Johnston and his force are now located in Lubbock with offices in the Temple Ellis building. A field party of the staff started cross section work Monday on Highway No. 7. This is for the purpose of preparing the work that the next step of letting the contract may be consummated. This project alone entails the expenditure of approximately \$300,000 of the bonds voted in December—Slaton Slatonite.

HEAT AND FEED ARE WHAT CHICKS NEED

W. O. Logan, County Agent

Four-H Club boys and girls who have chosen poultry as their club project know they must take good care of the little chicks, because weak, sickly and dying chicks are discouraging. A field of milo or cotton can be planted over, or a club girl's dress can be ripped open and done over, but a brood of chicks neglected or abused—well, it's just too bad.

Now, taking care of baby chicks isn't such a delicate task; in fact, if you will remember the little rhyme heading this article, "Heat and feed are what chicks need," you will have the important rules.

The baby chick has just emerged from the warm shell where it spent three weeks at a temperature of around 100 degrees under a hen, or in the incubator. The old hen's way of raising chicks is to continue keeping them under her at the same temperature or thereabout. However, we have found artificially raised chicks less trouble. But we must keep the brooder stoves and

HOT AIR IS THE ENEMY OF COMMON SENSE

You, I and everyone else are daily confronted with problems. Every group of people and every community has problems.

Now there are two kinds of sense for use in the solving of any problem, common and preferred—plain and fancy. Preferred may enter into some private affairs, but it certainly will not do in the solving of any community problem.

Unadulterated, plain, everyday common sense directs that it IS common sense and good business for any mercantile establishment to have the people that work in the store sold ON the store, and know what that store has to sell; it IS common sense and good business for an industrial or manufacturing concern to have the people who work in the factory sold on the firm and the products made; and likewise it is the same kind of common sense PLUS GOOD BUSINESS for all of the people of any community to be SOLD on the community.

There is no hot air about THAT. It may sound a little hazy, like "cooperation" and "civic loyalty" that sometime or other you have undoubtedly labeled as hot air; but it is sense—a cold, hard fact, and the quicker you realize it, just that much quicker will you cash in on it.

Being sold on Snyder doesn't mean that morning, noon and night you have to go around hollering about it. Usually people that holler the loudest think the least, and although community boosting may once have been based on pure lung power and hot air, it surely is not the case today.

Every community wants something—needs something. Snyder is no exception. If Snyder were the only city that wanted or needed something, that would be different; but your community and every other community has competition, and competition that THINKS will put out of business any fellow or a group of fellows who fall or refuse to think.

YOU are Snyder—don't forget that. What you do, the way you act, and the way you think will be in great degree the way Snyder will do, act and think. Therefore, your problem is to conduct yourself so that you will sell all of those with whom you come in contact ON the fact that Snyder IS a good town, any way they want to consider it. Let everybody in Snyder do that for six months, and Snyder will have what it wants and what it needs.

You may say that THAT is hot air, but to prove it you will have to show that doing such is wrong; and the only way to show that is to bury the hatchet, work together with the other fellow, think about Snyder, get sold on it yourself, and sell it to others. Then if you still say it's hot air, all right; but you won't, because, in the first place you will make money by it, and besides you will like it, therefore you will keep on doing it.

And right then Snyder will begin having what it needs, and what it wants—and then some.

(Copyright, 1929, Dyckston, Inc. Reproduction prohibited in whole or in part.)

five times a day the first few days. This is usually done by putting it on newspaper, then destroying the paper. This method makes you visit the brooder often and look after the chicks. A good hopper full of feed before them is as good.

With feed must come drink; pure water, kept clean, if dried milk is used. Sour milk is good if dried milk isn't in starter, and gives good results.

Teach chicks table manners by using hoppers they can't get in or dirty up. Same goes for drinking fountains.

OPENING OF COLORADO CHURCH IS POSTPONED

Opening of the attractive new Colorado Church of Christ building at Elm and Fifth streets, recently completed, has been postponed to an indefinite date. Minister J. D. Harvey announced Wednesday. The minister stated that late arrival of seats to be placed in the church auditorium made postponement of the opening exercises, formerly planned for last Sunday, the only course for members of the congregation to take.

The seats, purchased at the factory in Ohio, were shipped to Colorado January 2, and have been delayed in transit. Should they arrive within the next few days it is probable that the opening of the church will be announced for Sunday, Feb. 16. At any rate it is the plan of Minister Harvey to formally open the church at the earliest possible date.—Colorado Record.

OWNERS OF PIGGLY WIGGLY STORES

WIGGLY STORES MEET IN COLEMAN LAST WEEK Owners of Piggly Wiggly stores in West Texas met in Coleman last Thursday to discuss pool buying and other cooperative business methods, according to the Coleman Democrat-Voice. Their meetings were held in the directors room of the Coleman National Bank, and lunch was served the group at the New Moore Hotel.

About twenty towns were represented at the meeting, and in each of these towns the Piggly Wiggly store is owned by local men. Some of the towns represented were Mason, Fredericksburg, Brady, Brownwood, Colorado, Santa Anna, Snyder, Abilene, Eastland, Ranger, Breckenridge, Cross Plains, Lampasas, Cisco, Sweetwater and others.

HOUSE H-111

Continental Europe, Norway, Sweden, Germany, Austria, Denmark, Belgium, France and even the staid or conservative British Isles are well on their way in the development of a new "Modern" style in architecture, while America, except for the skyscraper type, lags far behind.

This new, straightforward and vigorous modern style has unlimited possibilities of development since it is not hampered with historic precedent or family ties. Suitability is the keynote. A house as a place to live in, a church as a place to worship, a shop for sales, an industrial plant for manufacturing and so on—first, last and always—must forget the architectural sugar coat of useless ornament. Let good taste rule. Beauty follows fitness—it's got to come.

If we can't buck the tide we can go with it—and the modern wave threatens to assume tidal proportions, and it is needed. If it wipes out some of the old it will do much good. A better Chicago arose from the ashes of a great fire, San Francisco came back after the earthquake, and Florida after the hurricane. What seems to be needed is continual change—it is the cycle of events. Even great disasters seem to be blessings in disguise. Standards of living change, so do ideals and theories, so do methods of transportation—all move forward—yet architecture has been held back. We must go to the ancients. Why?

The Camel goes modern, and here's how:

The roof treatment, the wing walls sheltering the terrace, the curved glass bay and balcony and the vigorous simplicity of the whole setup.

It schedules:

Basement, which, eliminated, would greatly save cost on this home.

First Floor: Entrance vestibule with two coat closets, living room,

dining room, kitchen and a one-car motor room. A paved terrace connects with both living room and dining room.

Second Floor: Three bed rooms, a bath and ample closets.

The plans as shown are for a lot facing south or west. For a lot facing north or east the plans should be reversed.

House frontage 40 feet. Lot frontage, minimum 55 feet.

Construction: Frame with stucco finish; roof, slate; foundation, concrete; windows, steel casements in special arrangements, with integral screens; doors, wood, to special details.

Interiors: Floors, wood for linoleum finish; walls, plaster; kitchen, plaster; bathroom, composition tile; steam heat, gas and electric wiring. Cubature, 26,750 cu. ft. Approximate cost \$8,200.

Complete working plans and specifications of this house are available for a nominal sum. Address the Building Editor of this paper and refer to House H-111.

spent last week-end with Robert Hoyle and wife of Dunn.

Mrs. Johnnie Hoyle and son were guests of Mrs. Hoyle's parents, Mr. and Mrs. W. B. Wilkerson, Saturday night and Sunday.

Sam Mitchell and family have rented the place formerly occupied by Mr. Sellars for this year.

If any Polar readers have news, leave it at Polar Mercantile for this writer. Needn't sneak around and say "that's my business," for if I hear anything about you, to the Times-Signal it goes.

POLAR NEWS

By Mrs. J. A. Martin

We have been enjoying summer weather for the past week with a little sand mixed in. We hope the warm weather continues with some good rains, and our hopes will be for a good crop this year.

It has been prophesied in newspapers and elsewhere that produce from the farm will be cheap during 1930. Most of our people have already gained from one to 25 pounds each this winter, so our community may be fairly good-sized by 1931, if we have to eat all our cream, butter, eggs, etc. But we are hoping this prophecy may be false like some of the weather forecasts.

Miss Alene Dell Martin celebrated her second birthday with a dinner in the home of her parents, Mr. and Mrs. J. A. Martin, Wednesday evening. Only one of the two invited guests was present, this being Miss Nora Hoyle. Other guests who enjoyed the dinner were Misses Betty Hoyle and Mamie Hoyle and Mr. Henry Hoyle with their parents, and Mrs. Johnnie Hoyle and John Jr., and Mr. and Mrs. W. O. Christopher of Dunn, grandfather of Miss Martin. The white birthday cake with two blue candles in pink holders and a bouquet of pink roses greeted the guests as they took their places at the table. Those present went home wishing Alene Dell many a happy birthday.

Polar Bears went to Clairmont Friday afternoon and played the Clairmont boys and girls two games of basketball. Polar girls were winners again, while the boys were defeated. This writer says, Hurrah for Polar! The place a fellow lives in is always the best.

Brother Kelly of Fluvanna, Methodist pastor here, was visiting among his members last week.

Ed Ware has been employed at Clairmont for the past week.

Mrs. J. T. Simms is a guest of her sister at Odessa.

Miss Velma Mitchell has been a guest of her cousin, Mrs. Ernest Treat, of Snyder for the past week.

Mrs. Emma Shuler of Snyder was visiting home folks Sunday. We hear she was driving a new Ford.

Mr. and Mrs. Gray Craig were the guests of W. R. Craig and family last week-end.

Mrs. R. C. Hoyle and children

DERMOTT NEWS

By Mary J. Hulsey

There wasn't very many out at Sunday school on account of the sand storm blowing up. There was to have been church, but the preacher was detained by car trouble as well as the wind and the sand.

The Methodist preacher will be here the third Sunday, and the Baptist preacher will preach the fourth Sunday.

Howard Reynolds from Oklahoma, a nephew of W. A. Reynolds and a cousin of A. N. Edmonson, has been visiting here.

Mr. and Mrs. W. A. Reynolds spent Sunday with Pess Boyd West of Snyder.

Clyde Odum is visiting in Dermott this week.

There will be a box supper at the Dermott school house Friday night. The funds will be used for a basketball.

A. N. Edmonson sold Mr. Stokes a bunch of fat steers this week.

Mr. and Mrs. H. O. Greenfield visited in Fluvanna Sunday afternoon.

Mr. and Mrs. Earl McDonald of near Fluvanna visited Mr. McDonald's aunt, Mrs. J. W. Russell, on Thursday.

Mr. and Mrs. Charlie Johnson spent Thursday visiting relatives and friends in Fluvanna.

A. N. Edmonson made a business trip to Sweetwater Thursday.

Mr. and Mrs. Claud Wilson, Mrs. Dollie Ditmore made a business trip to Snyder Wednesday.

Miss Afton Smith spent last week with her sister, Mrs. Una Durden, of Justiceburg.

Mr. and Mrs. Haywood Garden took dinner Sunday with William Johnson and family.

A. N. Edmonson left last week for Ben-

jamin to accept a pumping job there.

John Cargile and Mrs. Edgar Shuler of Snyder were visiting in Dermott Sunday.

Dermott people have been enjoying a few warm days during the past week.

Several farmers have begun listing land. Those who have plowed say that there is more moisture than they had expected and that the land plows well.

Harve Browning returned home last week from Abilene where he has been taking treatments for a stomach ailment. It is doing very well.

Mrs. Tommie McDonald, who has been sick for the past week, is improving.

Mrs. Evelyn Browning, who had a serious attack of appendicitis recently, is said to be better.

FLUVANNA NEWS

Mr. Raymond Seale of the First State Bank is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him by sending your news and subscriptions to him.

Church Services

The attendance at the Sunday schools and church last Sunday was good despite the sand stormy condition.

Services were held at the Fluvanna Baptist Church Saturday night, Sunday and Sunday night, Rev. D. G. Wells conducting. He delivered some fine sermons to his listeners. The services held Wednesday and Thursday nights were also well attended and much interest shown. Rev. Hunt conducting these services. Rev. Green, the Baptist Association Missionary, made a talk Thursday night about the re-organization of a B. Y. P. U. here, and it is thought that we will try and reorganize.

Next Sunday will be regular preaching day for the First Baptist Church.

Methodist Church News

The regular preaching days at the Methodist Church are the first and third Sundays, services both morning and evening. Sunday school each Sunday at 10 a. m., and Epworth League at 6:30 p. m. The Women's Missionary Society meets Monday afternoons from three to four o'clock. First Monday is business session, second Monday Missionary Voice program, third Monday Mission study. At present the society is studying "Life as a Stewardship," which is a very deep and interesting Biblical study. Fourth Monday is social day. We wish all ladies, especially Methodists, would take part in this society, and in so doing we feel that they would get a great blessing. On Wednesday evening we have taken up the study of missions called "The Church and the World Parish," taught by Bro. Kelly in connection with a good prayer service. We wish that all would attend this service. On Tuesday evening after each third Sunday we have one of the most important meetings of all. This is the workers council in which we plan all the Sunday school work. On each fifth Sunday there will be a Sunday school all-day service on the charge, and Fluvanna will entertain the first on the fifth Sunday in March. Now, good people, let's not forget and be gone somewhere. Stay home on these nights. Brother Kelly and wife can't run the church without the help of the members, so, friends, let's make a better church and Sunday school. If we do our duty to God and the church, we will see good fruit arising from our labor.—Church Reporter.

Track Meet
(Continued from Page 1)

been invited to compete as Class A schools are Ralls, Stanton, Anson, Lamesa, Post, Tahoka, Spur, Colorado, Slaton, Roby, Rotan, Sweetwater, Big Spring, Merkel and Haskell.

Class B schools invited include Fluvanna, Hermleigh, Dunn, Ira, Hobbs, Champion, Blackwell, Pyron, Westbrook, Lorraine, Coahoma, Southland, Gail, Clairmont and Trent.

As the Tigers' basketball season will not be over until after the district tournament this week-end, and for a while after that, it is thought, Coach Moore has arranged for the boys not out for basketball to begin training with the assistance of other faculty members who seem to have had some coaching experience in the past.

Snyder school officials in charge of the meet are W. N. Corry, director; J. M. Claunch, assistant director; C. Wedgeworth, awards and accommodations; R. S. Sullivan, records; Otis M. Moore, host to visiting coaches.

Monday to attend the commissioners' court.

J. R. Patterson and wife, J. P. Dowdy and Mrs. Ola Stavely, made a business trip to Abilene Wednesday.

Miscellaneous

We notice in Brother Tate's letter published in the paper last week about the weather contrast, and we hope that he missed the sand storm which we received Sunday. This was a little reminder for the people to let them know that this is still West Texas. Up to this time, however, the weather conditions have been very fine, and it begins to look as if the groundhog might miss his guess, but it isn't hardly time yet to charge the little fellow with misjudgment on his prediction, because the six weeks are not up yet.

Band Concert was held at the Presbyterian Church Sunday afternoon at three o'clock.

RAYMOND SEALE.

WHO WAS THE FIRST

Someone has asked the question as to who was the first man or company to lease oil land in Scurry County.

The answer is Max Elser, who was the first individual in Scurry County to lease oil land, taking part of the Reynolds ranch in 1918, and the location was in the southwest corner of the county.

Sickness and Accidents

Charley Bley received a badly sprained arm in one of the basketball games played during the week-end.

Wadel Flournoy, who has been very sick with pneumonia, was reported out of danger this week, and we are all wishing for him a speedy recovery.

O. A. Sewall had the misfortune of stepping on a nail and hence has been suffering with his foot, resulting from the poisonous nail.

Visits and Trips

Miss Vernay Boynton spent Saturday and Sunday with her parents here.

Earl Browning went to Lubbock Wednesday for treatment of an eye.

E. E. Hulsey of Crosbyton is here on a visit this week.

L. L. Seale and wife and daughter were visiting with the writer and wife Sunday.

D. A. Jones, T. F. Koonce, J. R. White and J. B. Taylor went to Gail

CANTRILL'S QUINTET TROUNCES SNYDER IN FAST CAGE BATTLE

The above caption appeared in last week's Colorado Record, and was followed by the appended news: Jim Cantrell's Wolf quintet trounced the Snyder Tigers to the ratio of 23 to 19 in scheduled meet at Colorado Friday night. The visitors were outplayed in scoring but much as to advantage cannot be said for either cage combination in the floor work displayed. During the first half the Wolves were faster and covered the court with a more machine-like perfection than

did their opponents. However, during the last half period, the Tigers came back fighting harder, holding their opponents in tow to a parity.

Some excellent cage work was displayed by both the Wolves and the visitors. One of the most brilliant assaults seen on the local floor this season was staged by the Tigers when they marched through a seemingly impregnable Wolf stand to score, completing the trick without a single error.

Now the truth of the whole matter is this: that the above article was mighty true, but Editor Bill Cooper overlooked the fact that on Saturday night Cantrell's Wolves came to Snyder, and the Tigers cut their talons right off close to the hide and defeated them 31 to 19, along with the further good news that our Tigerettes walloped the Colorado girls Friday night on the local court. Now, Bill, what we want to tell you is this: Please give all the angles when you are shooting the old typewriter—and not just the wins. But well forgive you, for just getting on the job and ar-

ranging yourself accordingly, anybody will overlook such matters to start. So, Bill, this is no sour grapes; it's just our little velvet hammer tapping at your door.

NEW COACH AT TEXAS TECHNOLOGICAL COLLEGE

Pete W. Cawthon, former director of athletics at Austin College, Sherman, has been selected director of athletics and head football coach at Texas Technological College. Although Cawthon is not expected to begin his new duties until the opening of school next fall, he probably will conduct spring football training in April.

Status of E. Y. Freeland and other present members of the coaching staff will not be determined until Cawthon and the college athletic council meet with the board of directors to complete details of reorganization, President P. W. Horn said last week.

Whether Freeland will be retained will be announced, he said, as soon as a decision is reached.

Sunshine is the order of the day.

How to Raise Poultry
By Dr. L. D. LeGear, V. S., St. Louis, Mo.

Dr. LeGear is a graduate of the Osceola Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Renowned authority on poultry and stock raising. Nationally known poultry breeder. Nared author and lecturer.

ARTICLE LI
Is Bacillary White Diarrhea A Pipe Dream?

Many Widely Differing Opinions Have Been Printed About This Deadly Disease. Most Investigators Now Agree that Blood Testing is the Only Dependable Means of Detecting its Presence in the Parent Stock — Sanitation and Elimination of Carriers the Only Effective Weapons Against It.

Editor's Note—This is another story in a series of 82 stories on poultry raising written by the well known national authority, Dr. L. D. LeGear, V. S., of St. Louis. The entire series will appear in this paper. Our readers are urged to read them carefully and clip them out for future reference.

We find experts of unquestionable reputation who assert with great positiveness that Bacillary White Diarrhea (B. W. D.) is the greatest menace to poultrydom since the landing of the ark and that the blood test is the one sure means of achieving a victory. Another group of just as impressive reputation assert with equal assurance that the B. W. D. menace has been vastly overrated and the kindest thing they can say about the blood test is that it is just an experiment with only limited value, if any. The one group maintains that it is a germ disease, while the other is quite sure that it is caused by improper brooding, too early feeding or the feeding of improper materials, etc.

The majority of our best authorities favor the view that B. W. D. is a highly infectious disease which is transmitted from hen to chick through the egg. These writers are also of the opinion that the blood test known as the Agglutination Test, is the only sure means of detecting the disease in mature fowls. My own study of the disease extending over a number of years convinces me that the true B. W. D. is a genuine contagious bacterial disease transmitted from hen to chick through the egg and is quickly spread from affected chicks to others in the brood.

This fact should be fully realized by poultry raisers everywhere, for B. W. D. is one of the worst diseases affecting baby chicks. Losses up to 50 per cent are not uncommon and not infrequently 80 to 90 per cent of a hatch will be wiped out. Of those that survive, many will retain the germs in the ovary or egg sack where they will find their way into the eggs causing infection of future generations, if these birds are used for breeders. The most critical period is during the first 48 hours.

All cases of bowel troubles in baby chicks are not B. W. D. by any means. Simple Diarrhea is not contagious, and is often the most com-

mon kind seen. It is usually caused by faulty feeding, improper brooding, dampness, etc.

Affected chicks are dull, dispirited and dejected looking. In the most serious cases a white pasty substance closes up the vent. As a result the chick becomes pot bellied and utters a pitiful "peep, peep," indicative of great pain. Death usually follows in a few hours. Those only mildly affected may develop rapidly, show no outward signs of the disease and reach maturity with the germs concealed in their ovaries. Such fowls are called carriers or re-actors.

Since carriers show no external evidence of their condition, the importance of finding some way to detect these disease spreaders has long been recognized. Several tests are now available, but the most reliable one is that known as the Agglutination Test. There are many biological laboratories in the country capable of making such tests. Once it has been determined which hens are the carriers of the disease, they should be separated from the flock and used no more for breeders.

Steps can be taken to limit the spread of the disease. Baby chicks should be divided into small flocks of 100 or 200 or less. By this means they can be watched more closely. If any are noticed with bowel troubles, they should be removed at once, and either kept to themselves a few days for developments, or killed and burned. Droppings should be cleaned out often. Feeding and watering equipment should be kept scrupulously clean at all times. Floors should be cleaned often and disinfected with a 3 per cent dip and disinfectant solution. Dry, clean litter should then be placed on the floor.

By covering the brooder room floor with half-inch mesh wire, raised a few inches from the floor, will do a lot to prevent the spread of this disease. Chick tablets should be dissolved in all drinking water for the first three weeks. Fresh buttermilk or clabbermilk should be fed daily in clean protected vessels. Only feed of the best quality should be fed.

It is especially important that incubators and brooders be thoroughly scrubbed and disinfected before being used for fresh hatches. A very important factor in the control of this trouble is to keep houses, runs and all equipment in 100 per cent clean and sanitary condition at all times by cleaning often and using freely a good dip and disinfectant. The germs of B. W. D. may remain alive for months and unless such precautions are observed may cause an outbreak of the disease.

LEAST FAILURES IN TEXAS IN A DECADE

The Bureau of Business Research (Austin) says that there were fewer business failures in Texas in 1929 than in any other year since 1920. The total liabilities of the 1929 failures was the smallest on record.

Slaughter Cows Not Producing, Advise Experts

Dairy Association Makes Plans to Absorb Texas Butterfat Surplus

DALLAS, FEB. 7.—Slaughter of all cows in Texas whose productivity is not profitable to farmers and dairymen was advocated at a called meeting of the Southwest Dairy Association here this week.

This recommendation was included among other major proposals accepted at the session as measures to create finer dairy herds in the state and to encourage the consumption of more milk and butter in Texas. The meeting was called by Frank Briggs, president of the association, to discuss methods of establishing a thoroughly organized industry and absorb Texas' portion of the country's surplus of 50,000,000 pounds of butterfat.

A general committee composed of men and women well known in the dairy industry was appointed to work out a program and report later to the main body.

The association declared itself in favor of a safe and sane dairy program leading to development of improved dairy herds through intelligent feeding, breeding and weeding, of slaughtering all low-producing cows, and a program to call attention of the consuming public to the value of dairy products as a health food.

The association further endorsed the recommendations of the National Dairy Council in carrying out this program. It was brought out that the per capita consumption of butter in Texas is lower than any other state in the union.

PRICE-TAG BUYING IS BIG HANDICAP IN STOCK FEEDING

Some folks are afraid of a new idea. If you are such a person, this is not for you to read. You had just as well skip this article—either that or get rid of your fear.

The idea is, dairymen have got to stop using the price tag as a measure of value in feeds. The initial cost gives no more idea of what a feed is actually worth, either home-mixed or commercial, than does the

A Wonderful Help to Mothers

Dallas, Tex.—"Dr. Pierce's Favorite Prescription was a wonderful help and comfort to me as a tonic and nerve. I found it especially beneficial during pregnancy. It kept me in such good condition that I was able to do my work, hardly realizing my condition, and when a woman gets along without suffering at this time her mental condition is greatly helped. Also Prescription babies are healthier and stronger." "Dr. Pierce's Pleasant Pellets are the best regulator of the bowels."—Mrs. L. J. Bryant, 3723 Race St. Dealers. Write to Dr. Pierce's Clinic in Buffalo, N. Y., for free medical advice.

color of a cow's hair indicate her performance at the pail. The question should not be "How much does it cost?" but "What will it do?"

What really counts in measuring the value of feed is the feed cost per 100 pounds of milk or per pound of butterfat. This is the correct way to determine which feed gives greatest returns for money spent. Using this measuring stick will in a great many cases show the low-initial-cost rations to be less economical than the high-initial-cost rations. And the same goes for feeding other livestock—sheep, swine and beef cattle.

Now can the figures in feeding standards be regarded as the last word. Take hog millet—the figures show it contains less fat and carbohydrates than corn, and more fibre. Yet in Colorado feeding tests, pig fed on hog millet made a profit over feed of \$8.26 per head, while pig fed corn made only \$3.49 profit. So, when you come right down to it, the only dependable test is that of results.

The feeder seeking a lower cost of production should not aim at a lower feed cost so much as at a ration which will increase production. When that is secured, there will be time to go back to the price tag and use initial cost figures in the calculation of feed cost.

Remember, the first consideration should be better feeding, to get maximum production. Chances are, a feed which will enable the cow to

do her best will be the cheapest you can afford to feed her. Certainly any ration that keeps her from doing her best at the pail needs improvement.—The Farm Journal.

CITY OF ROSCOE EXTENDS TIME TO PAY CITY TAXES

Unpaid city taxes at Roscoe will not be declared delinquent until the first of March and a second extension may be granted when that date arrives, the Roscoe city commission voted in its regular meeting last week.

A crop shortage of last summer combined with payment of school and county taxes during January drained the resources of many residents, the commission stated in making its decision. No penalties will be assessed for at least another 30 days.—Sweetwater Reporter.

THE MAIL CARRIER IS THE FARMER'S FRIEND

In the cold and blustery weather, When the frost is on the rail, Would you love to face a blizzard With half a ton of mail?

In the biting blizzard weather When snow comes to your knees, Would you love to fish for pennies While your elbows and feet freeze?

When the gleaming snow is drifted Underneath a foot of sleet, Would you love to have chilblains

In your elbows and your feet? When outdoors the wind is whistling And the air is full of snow, Would you love to have a jitney And the blamed thing wouldn't go?

Yes, I'd love the good old fireside, Sipping coffee from a pail, But I have to buck the snowdrift, 'Cause the farmers want their mail.

I don't mind the frozen snowdrifts, When my knees are stiff with cramps, If you keep the bloomin' pennies When you buy a quarter's worth of stamps.

There's snow covering my windshield, And I get it in my socks, But it never hurts my feelin's Like those loose pennies in the box.

You get way out on the highway And a tire loses all its air, It don't hurt what the farmers say, But it's just that frigid stare, They will condemn your being late, Can't imagine why you're not on time, But bring out a load of pennies When they want to spend a dime.

WASTELLA SCHOOL CLOSED BY EPIDEMIC OF FEVER

SWEETWATER, Feb. 5.—Sixty-one school children at Wastella were inoculated against scarlet fe-

ver and the school dismissed for the week Monday by order of Dr. M. H. Jensen, director of the Nolan County health unit, as means of preventing further spread of the disease.

One fatality resulted in the community last week, and four or five other cases were reported. The school will be allowed to reopen next Monday unless the scarlet fever shows a tendency to spread, Dr. Jensen stated Tuesday.

TRIBUTE TO RURAL FARM YOUTH GIVEN

Out of seventy-five boys and girls appearing before Juvenile Judge Chas. C. Thompson during the past five years, not one of them came from a rural home in Mitchell County.

Such a tribute was paid the rural youth of this county Saturday afternoon by Judge Thompson in an address delivered before the annual achievement meeting, convened in the county court room.

Thompson, himself a 4-H Club member, declared that he cherished the fact that he was the first rural youth to ever be enrolled in this work in Mitchell County. "My membership card is No. 1, and I was enrolled as a club member soon after W. A. Dulin came to this county as our first county farm agent in 1915."—Record.

HOW FORD METHODS CUT COST OF DISTRIBUTION

Lower profits in selling save you at least \$50 to \$75 in addition to the many savings in manufacturing

TWENTY-SEVEN years ago the Ford Motor Company was formed to provide reliable, economical transportation for all the people. That original purpose has never changed. The constant effort in every activity is to find ways to give you greater and greater value without extra cost—frequently at lowered cost. This applies to distribution and similar important factors, as well as manufacture.

For the Ford Motor Company believes that its full duty is not only to make a good automobile at the lowest possible price, but to see that there is no waste, extravagance, or undue profit in any transaction from the time the car leaves the factory until it is delivered to your home. It is obvious that hard-won savings in production will be of little value if they are sacrificed later through excessive selling costs.

EVERY purchaser of a motor car has the right to know how much of the money he pays is for the car itself and how much is taken up by dealer charges. If these charges are too high, one of two things must happen. Either the price of the car must be raised or the quality lowered. There is no other way. The money must come from somewhere.

In the case of the Ford, the low charges for distribution, selling, financing and accessories mean a direct saving of at least \$50 to \$75 to every purchaser in addition to the still greater savings made possible by economies in manufacturing. Ford charges are not marked up or increased to cover a high trade-in allowance on a used car.

The profit margin on the Ford car has always

been fair to both the dealer and the public. Within the past three months, it has been possible to effect still further economies. Today, the discount or commission of the Ford dealer is the lowest of any automobile dealer. The difference, ranging from 25% to nearly 50%, comes right off the price you pay for the car.

THE business of the Ford dealer is good because he makes a small profit on a large number of sales instead of a large profit on fewer sales. He knows, too, that the extra dollar-for-dollar value of the car makes it easier to sell and more certain to give satisfactory service after purchase.

Consider also that the Ford car is delivered to the purchaser equipped with a Triplex shatter-proof glass windshield, an extra steel-spoke wheel, and bright, enduring Rustless Steel for many exterior metal parts, in addition to four Houdaille double-acting hydraulic shock absorbers and fully enclosed four-wheel brakes.

If for any reason you wish to buy certain small accessories, you will find that these, too, are sold at the usual Ford low prices. Replacement parts are also available at low prices through Ford dealers in every section of the country.

THESE are important points to remember in considering the purchase of a motor car. They show why it is possible to put so much extra quality into the new Ford and still maintain the low price. They are also the reasons why more than 35% of all cars sold today are Model A Fords.

"I THANK YOU IN THE NAME OF CONOCO"

Thank you for the immediate and tremendous response to our challenge, on the introduction of Conoco Germ-Processed Motor Oil. Thank you many thousands of Regular Customers as well as the many thousands of new users who have flocked to Red Triangle stations, until it has kept all of us on the jump to drain and refill crank cases with this remarkable motor lubricant. Because of unprecedented demands for Conoco Germ-Processed Motor Oil, it has been difficult for our refineries to keep all our stations adequately supplied, but now stocks are moving faster and you can depend on quick and efficient service at any station displaying the Conoco Red Triangle.

Conoco challenged the oil world last November with the revolutionary new Germ-Processed Motor Oil. Definitely the first fundamentally better oil of the century, this oil is now smashing all sales records. No reasonable person will use any other oil once he has heard the story of this new oil and its "Penetrating Lubricity." We invite you to stop at the Sign of the Red Triangle for your first crankcase fill.

SOCIETY

MRS. BRUTON ENTERTAINS SUNDAY SCHOOL CLASS

The approach of Valentine day received recognition in decorations and refreshments Wednesday evening, Feb. 5, when Mrs. Ollie Bruton entertained the Faithful Followers at her home.

The president, Miss Alta Bowers, took charge of the business session. The class voted to carry a basket of fruit or candy to someone sick or shut in each week during February.

After the business the game of hearts was enjoyed.

Dainty table covers of red and white crepe paper with red hearts in the corners and napkins to match were laid and refreshments passed to the following: Earlene Martin, Eva Nell Arnold, Vernelle Bradbury, Estelle Roe, Alta Bowers, Dixie Lee Davis, Saxton West, Louise Wilson, Lola Mae Littlepage, Eddie Lake Tate, Mavis Shuler, Nadine Stumrud, Bonnie Neal, Mary Nell Morton, Mr. Bruton and Ollie Jr.

HAPPY CAMP CLUB

The Happy Camp Club met at the home of Mrs. J. P. DeShazo Tuesday afternoon, in a special session. The meeting was cut short due to extreme cold weather.

The purpose of the called meeting was to enroll the names of our members and to get our special demonstrators and county operators lined up for the year's work before us. Much interest was manifested in the session. Each member present made a resolution to make every specific aim of the club and individual as near perfect as possible. We are looking forward to our next meeting day on the second Tuesday at 2 o'clock, with Miss Jessie Lee Davis, who never fails to teach us something that makes us proud of having her.

MRS. JIM BEAVERS.

MISS ISAACS ENTERTAINS

Friday evening at the home of Mr. and Mrs. Collie Fish, Miss Mabel Isaacs entertained a group of friends. Various games were enjoyed throughout the evening, and the hostess served a lovely plate lunch to Misses Aliene Tate, Pauline Jones, Lila Mae Williamson, Arthur Duff, Forest Wade, Jake Smyth, Roy Irvin and Mr. and Mrs. Collie Fish.

BRIDGE PARTY AT NELSON HOME

Saturday afternoon Mrs. J. P. Nelson entertained with three tables of bridge honoring her house guest, Mrs. Frances Upchurch. The game of earthquake bridge was played, after which the hostess served pie and coffee to Mesdames Amos Joyce, Melvin Blackard, Jesse Sellars, Ixon Joyce, Wayne Williams, Frances Upchurch, Misses Myrtle Harrell, Hattie and Gertrude Herm, Alma Nell Morris and Neoma Strayhorn.

COLORADO GIRLS HONORED

Miss Nell Harper Greene, daughter of Mr. and Mrs. J. H. Greene, and Miss Geraldine Baze, daughter of Mr. and Mrs. John Baze, all of Colorado, are sophomores at Simmons University, Abilene. During the session of 1928-29, and up to the present time, they have made "A" grades in all their subjects. Out of a student body of more than 1,200 there are only 30 students to register such a record. Colorado is the only city represented by the student body on Simmons campus to furnish two students maintaining such a commendable record. Both young ladies are well known in Snyder. Miss Baze having formerly lived here.

MRS. ANDERSON HOSTESS TO ALTRURIANS

Mrs. E. J. Anderson was hostess to Altrurian Club members Friday afternoon, Feb. 7. In the absence of the president, Mrs. Joe Caton, Mrs. J. T. Whitmore presided.

After a brief business session and report of committees, study and discussion of "Ramona," by Helen Hunt Jackson, was continued from last meeting, with the following special numbers:

Reading, Original Criticism on Ramona, Mrs. Fritz R. Smith.

Roll Call—A Bit of Superstition or Realism from "Ramona."

Reading, Out Where the West Begins, Mrs. Hugh Taylor.

Text Exposition, Types Which Make the Story, Mrs. C. R. Buchanan.

Picture Story, Ramona Scenes Today, Mrs. Carl Yoder.

Argument, "Ramona" will Remain a Classic, Yes, Mrs. J. M. Harris; No, Mrs. W. W. Hamilton.

Parliamentary Drill, Mrs. C. R. Buchanan.

After the program the hostess assisted by her daughter, Brentz, and Mrs. J. M. Harris, served delicious refreshments to Mesdames Roland Bell, H. P. Brown, C. R. Buchanan, R. D. English, G. A. Hagan, W. W. Hamilton, C. C. Higgins, Joe Stinson, Fritz Smith, Lee Stinson, Joe Stinson, Hugh Taylor, O. P. Thrane, J. T. Whitmore, C. J. Yoder.

MRS. L. E. TRIGG ENTERTAINS SELF CULTURE CLUB

Mrs. L. E. Trigg was hostess on Tuesday afternoon to the Mothers Self Culture Club. After a business session, Miss Eloise Scott gave a splendid talk on "Camp Fire Girls."

Then Mrs. P. C. Chenault led the lesson on "Paintings," and the following program was carried out:

Roll Call—Name of an Artist and a Description of His Painting.

How to Tell a Good Painting, Mrs. E. F. McCarty.

The Library of Congress and its Mural Decorations, Mrs. West.

Piano solo, Mrs. Trigg.

Uses of Paintings in the Home, Mrs. J. L. Caskey.

The hostess served a delicious plate to the following members: Mesdames Avary, Williams, Woodfin, Wylie, McCarty, Chenault, Alexander, West, Couble, Reynolds, Brownfield; guests, Mrs. T. L. Lollar, Mrs. E. M. Deakins and Mrs. Smith.

The next meeting will be Feb. 25 with Mrs. P. C. Chenault. Mrs. Woodfin will be leader of the program.

SUNDAY SCHOOL CLASSES ENTERTAINED

Wednesday afternoon, Feb. 5, Mrs. J. M. Bannister and Miss Brookside Wright entertained their Sunday school classes of the Junior Department with a party at the parsonage. Various games were played, and refreshments of jello and cake were served to about twenty guests.

YOUNG MEN'S BIBLE CLASS ORGANIZED

The young men of the Methodist Church organized a Bible class last Sunday morning, electing the following officers: E. R. Heath, president; Sykes Curry, vice president; J. O. Mitchell, sec'y/treasurer. Two committees were appointed, membership and absentee. J. T. Trice, Marvin Lemons and LeRoy Fesmire serve on the membership committee, and Clarence Walton, Harold Brown and Billy Wright on the absentee committee. A. C. Preuitt is the teacher, and Rev. Cal C. Wright, assistant. All young men who are not in Sunday school work somewhere are cordially invited to attend.

Advertise in the Times-Signal.

SOPHOMORE B CLASS FORMS ORGANIZATION

On Monday, February 3, at the initial meeting of the Sophomore B class, officers were elected for the new term. Mrs. Nelson, the Sophomore sponsor, presided over the meeting until H. P. Grant, the newly elected president, was installed in office. Grover Scott was chosen vice president, Jessie Mae Hanson as secretary, Henry Clements treasurer and Hazel Bannister reporter.

The new president appointed the following committees: Mabel Reichardt, Dawson Bridgeman and Pauline Scott to select the class flower and class colors; Rex Gladison, Opal Crowder and Beatrice McGinay to select the motto; Grover Scott, Wanda Benbenek and Earl White as social committee. The meeting adjourned to meet again Monday, Feb. 17.

MRS. J. E. SENTELL AT HOME OF MRS. SENTELL

Mrs. J. E. Sentell, Mrs. Raymond Sims and Mrs. Charles Noble were joint hostesses to the Alpha Study Club Sweetheart party at the home of Mrs. Sentell.

The hostesses surprised the club with a theatre party at the Palace. By a cleverly planned game each lady was given a number, and the men drew for the numbers, thereby securing their dates, and the entire club went in a party to the picture show, after which refreshments were served to the following:

Messrs. and Mmes. Wayne Williams, G. B. Clark Jr., Melvin Blackard, Ixon Joyce, Wade Winston, Jesse Sellars, W. T. Raybon, Henry Brice, Forest Sears, Wayne Boren, C. F. Sentell, Albert Norred, J. G. Hicks, Clyde Boren, Bill Miller, Charles Noble, Wraymond Sims, J. E. Sentell, Mrs. Homer Snyder, Misses Neoma Strayhorn and Hattie and Gertrude Herm.

MR. AND MRS. SHULL HOSTS TO BRIDGE CLUB

Mr. and Mrs. W. C. Shull entertained the Thursday Night Bridge Club last Thursday evening with five tables of bridge. Valentine decorations were used, and the motif was further carried out in the refreshments and favors. In bridge Mrs. Wraymond Sims and W. T. Raybon won high score. The hostess served pie and coffee to Messrs. and Mesdames W. T. Raybon, J. G. Hicks, Wraymond Sims, G. B. Clark Jr., Wayne Williams, Albert Norred, Jesse Sellars, R. H. Curruite Jr., J. E. Sentell, Miss Vesta Green and Wayne Boren.

MRS. BROADFOOT HOSTESS AT PARTY

Monday afternoon Mrs. T. M. Broadfoot was hostess to the ladies of the First Christian Church at her home. The guests joined in singing "Blest Be the Tie that Binds," and were then led in prayer. The afternoon was spent in various games and contests which were a Bible contest, advertising contest, cake contest and games of blind feeding the blind, barnyard, and cupid's archery. Readings and songs by a group of children added much to the entertainment.

The hostess served a delicious salad course to Mesdames Piper, Nettie Wasson, Lon Pierce, Raymond Smith, A. J. Cody, J. H. Hamlett, J. L. Ritzenthaler, Clarence Spradley, Roy Brown, George Brown, Gall Smith, Fritz R. Smith, Lane, P. Benbenek, W. T. Baze, Sam Larue, Wolf, Miss Elizabeth Smith and Rev. T. M. Broadfoot.

IRA CLUB WOMEN MEET

The Ira Club women met with Mrs. G. W. Lewis Feb. 6. There were fourteen present with several new members. Miss Davis measured Mrs. Lewis' garden and gave a demonstration on gardening. Every one present had a most enjoyable time. The next meeting will be with Mrs. F. E. Crabtree on Feb. 20.

ALPHA STUDY CLUB MEETS AT HOME OF MRS. SENTELL

Mrs. J. E. Sentell, Mrs. Wraymond Sims and Mrs. Charles Noble were joint hostesses to the Alpha Study Club Sweetheart party at the home of Mrs. Sentell.

The hostesses surprised the club with a theatre party at the Palace. By a cleverly planned game each lady was given a number, and the men drew for the numbers, thereby securing their dates, and the entire club went in a party to the picture show, after which refreshments were served to the following:

Messrs. and Mmes. Wayne Williams, G. B. Clark Jr., Melvin Blackard, Ixon Joyce, Wade Winston, Jesse Sellars, W. T. Raybon, Henry Brice, Forest Sears, Wayne Boren, C. F. Sentell, Albert Norred, J. G. Hicks, Clyde Boren, Bill Miller, Charles Noble, Wraymond Sims, J. E. Sentell, Mrs. Homer Snyder, Misses Neoma Strayhorn and Hattie and Gertrude Herm.

MR. AND MRS. SHULL HOSTS TO BRIDGE CLUB

Mr. and Mrs. W. C. Shull entertained the Thursday Night Bridge Club last Thursday evening with five tables of bridge. Valentine decorations were used, and the motif was further carried out in the refreshments and favors. In bridge Mrs. Wraymond Sims and W. T. Raybon won high score. The hostess served pie and coffee to Messrs. and Mesdames W. T. Raybon, J. G. Hicks, Wraymond Sims, G. B. Clark Jr., Wayne Williams, Albert Norred, Jesse Sellars, R. H. Curruite Jr., J. E. Sentell, Miss Vesta Green and Wayne Boren.

Y. W. A. ORGANIZED

Monday evening at the home of Miss Maurine Cunningham the Y. W. A. of the Baptist Church was organized with the following officers elected: Miss Nona Carr, president; Miss Clarice Irvin, vice president; Miss Allene Tate, secretary and treasurer; and Miss Mable Isaacs, reporter. The hostess served delicious refreshments to Misses Clarice Irvin, Ollie Mae Irvin, Vesta Grubbs, Nona Carr, Allene Tate, Mattie Ross Cunningham, Lila Mae Williamson, and Mable Isaacs.

MRS. WEISE ENTERTAINS

Monday evening Mrs. A. E. Weise entertained in honor of Miss Lillie B. Herbert. The Valentine motif was carried out in the decorations, favors and refreshments.

After the games of "42", the host-

ess served a lovely plate lunch to the following guests: Misses Vera Nell Grantham, Edith Grantham, Eloise Scott, Nona Carr, Mary Lynn Nation, Ann Duncan, Brookside Wright, Maurine Stokes, Mary Hartley, Lillie B. Herbert, Mrs. Gertrude Smith, Herbert Bannister, Cleve Blackard, Max Brownfield, Gaither Bell, J. D. Scott, J. P. Strayhorn, Robert L. Gray, Dean Cochran, Marshall Higgins, Gardner Martin and A. E. Weise.

MRS. BEGGS ENTERTAINS

Tuesday at one o'clock Mrs. W. D. Beggs entertained with a delightfully appointed luncheon. Red carnations centered tables where dainty valentines marked places for thirty-six guests. The hostess served a delicious three-course luncheon, after which bridge and "42" were enjoyed by the following guests:

Mesdames O. P. Thrane, Amos Joyce, Joe Stinson, Dixie Smith, W. R. Johnson, Ernest Taylor, J. M. Harris, E. J. Anderson, A. D. Ervin, Billy Lee, W. T. Raybon, J. G. Hicks, Forest Sears, G. B. Clark Jr., Maurice Brownfield, Fritz R. Smith, E. M. Deakins, T. L. Lollar, Wayne Williams, Albert Norred, E. E. Wallace, Hugh Boren, Jesse Sellars, Lewis Blackard, R. H. Curruite Sr., G. A. Hagan, R. J. Randals, Charles Harless, C. C. Higgins, Hugh Taylor, Joe Monroe, C. E. Fish, H. E. Rosser, L. O. Smith, R. H. Odum, C. E. Ferguson, R. L. Gray and Pat Brown.

To The Voters of Scurry County

In announcing as a candidate for the office of county judge of Scurry County I am not unmindful of the fact that announcing for the office does not amount to much unless the

candidate meets the approval of a majority of the qualified voters; and unless I am given a majority of the votes that are cast in the democratic primary next July, I shall merely be only one of those "who also ran".

For this reason I am calling your attention to the fact that I am a candidate, and to the further fact that I respectfully solicit your support in the race for the nomination.

I have had the honor of serving the people of this county in the office of county judge when the office was in fact a double office, including also that of county school superintendent; and covered the periods between November, 1906, to November, 1910, and from November, 1912, to November, 1916.

There is a record of what I did and of what I assisted others in doing during those two periods of four years each. This record is written in the archives of the county and in the memories of the citizens of the county who resided here at those times; as to whether or not that record was satisfactory, others may render the verdict.

I am now as I was then in favor of real progress and of making reasonable public improvements, and I am also in favor of holding tax values and tax rates on a basis that will make the burden of taxation on the people as light as is consistent with the proper economical management of the county's financial affairs.

The taxes assessed for county purposes in Scurry County lack only a few thousand of being \$100,000.00 each year, and the handling of this large sum devolves upon the commissioners court of the county, of which the county judge is the presiding officer, and is usually the chief advisor.

In my opinion a big business concern like this county cannot be economically administered on a

time or credit basis; discounts must be made for cash, and inflated prices must be paid for things that must be bought, all of which makes an unnecessary bonus that must be paid; for these and other reasons, if I should be elected, I shall work to put Scurry County's finances on a cash basis and keep them there.

Other matters of public interest I might mention, but this statement is getting to be too long.

Respectfully,
C. R. BUCHANAN.

Check up on your guess for cotton ginnings in the county—and pay off like a sport!

SNYDER CITIZEN MOVES TO FORT STOCKTON

Mr. and Mrs. Marion Watkins, formerly of Snyder, have moved to the E. O. Riggsbee irrigated farm on Block One, four miles north of Fort Stockton where they expect to engage in dairy farming.

They brought a herd of ten dairy cattle with them, and have already arranged to sell their milk to the new Fort Stockton creamery.

Mr. and Mrs. Watkins have six children, Miss Juanita, 15; Harold, 13; Neil, 11; Malcolm, 8; Margaret, 5, and Mariam Jean, 3 years of age. —Fort Stockton Pioneer.

A Medicine You Have Waited Many Years For

THE NEW KONJOLA

Being introduced in our store for the FIRST TIME. This celebrated new remedy is for the stomach, liver, kidneys and bowels and rheumatic and neuritis troubles. Chicago, Philadelphia, and other large cities have gasped at the wonderful accomplishments of this remarkable medicine.

This remarkable compound is destined to bring new hope, happiness and glorious health to Snyder people. Thousands of seemingly hopeless cases of health troubles have been conquered in larger cities by this advanced compound.

Konjola, the medicine made from extracts of 22 plants of Nature, containing over 30 beneficial ingredients, works with the sufferer's own food, bringing more normal healthy action to the important organs of the body—the stomach, liver, kidneys and bowels.

PAINS Went Away

"I was very much run-down in health. I had a dreadful ache across the middle of my back. I had a dull, tired feeling, and I dreaded the thought of having to do my household tasks. I was tired when I got up in the morning. I got no rest from my sleep, and I was sleepy all day long."

"My husband got a bottle of Cardui for me. It was not long before I began to show a decided improvement. My strength began to return and I felt much more like myself. The sleepy spells gradually quit and the pains in my back and sides disappeared."

"Cardui is a splendid tonic for women. I proved it for myself."—Mrs. J. E. Shelley, Box 22, R. F. D. 1, Electric, Texas.
