

## Gaynor Realizes Screen Ambition Twice In Career

The hope of every screen actress is to get a vehicle that is perfectly suited to her talents. An excellent actress may by sheer technique and ability, play a role that "isn't quite the type" and make it real and convincing—but she can always do infinitely better if the part fits her. In the case of Janet Gaynor, this hope has been realized—not once but twice. The first time was when she played the memorable "Diane" of "Seventh Heaven"—a role that might have been written to order for her unusual personality and her wistful appeal.

Now the lightning strikes a second time in her latest vehicle, "Daddy Long Legs," opening at the Palace Theatre Sunday for a three-day run. As the immortal "Judy," the little orphan girl whose courage wins her eventual happiness, Miss Gaynor again has a part that measures up to her own high standards of poignant charm.

While Fox studio officials had long realized the appropriateness of the well known Jean Webster play for their star, the peculiar suitability of the part was not apparent until Director Alfred Santell and Sonya Levien, the scenarist, began work on the picture.

Both Miss Levien and Santell were astonished to find that no alteration of any kind in Miss Gaynor's part in "Daddy Long Legs" was necessary or even advisable. The part of Judy was so ideally suited to her that it was utterly out of the question to change in any way other than the unavoidable condensation of a two-hour-and-a-quarter play to make an act-and-20-minute picture.

Warner Baxter is co-starred with Miss Gaynor in the film. Claude Gillingwater, Una Merkel, Elizabeth Patterson, John Arledge, Louise Closser Hale and Effie Ellisler have parts in the cast.

## McGahey Will Be Chairman At Big Baptist Meeting

Rev. Philip C. McGahey of Snyder, district organizer, will preside at a meeting to be held at the First Baptist Church, Colorado, on October 21. This will be one of 17 district meetings scheduled for October 9 to 23, in which instructions relative to the Every Member Canvass, to be taken November 29 to December 6, will be given.

There are 84 churches with a membership of 10,703 in this district. The seven members of the promotion committee from each church in the district are expected to attend the meeting.

Texas Baptists have launched this campaign to raise \$6,350,000 from the Southern Baptist Convention territory. This state's 2,288 churches are expected to raise \$750,000 of this amount. A portion of this will be used for mission work among the Mexicans and other foreigners of Texas. There are 249,632 Mexicans in Texas.

Dr. George W. Truett, pastor of the First Baptist Church, Dallas; Dr. M. A. Jenkins, pastor of the First Baptist Church, Abilene; and Dr. J. Howard Williams, executive secretary of the Baptist General Convention of Texas, will appear on the Colorado program.

Children should eat sweets only at the end of a meal, because sugar is a very concentrated food which the body uses for fuel only. Because it is so concentrated and so quickly utilized by the body, sugar dulls the appetite. If a child is allowed to eat candy before he sits down to dinner he has no appetite for the other foods he needs to build his body and keep it in good running order. After he has eaten the required amount of other food, a child may have a piece of candy, a few dates or figs, a plain cookie or a piece of cake or dessert.

## Joan Crawford Cast As Modern Daughter

Pauline Frederick proves that a mother can keep pace with her daughter in pleasure-mad Paris in the Metro-Goldwyn-Mayer continental comedy, "This Modern Age," which will be shown Wednesday and Thursday at the Palace Theatre.

Starring Joan Crawford, this latest vehicle is one of the most ultra-modern ever produced. Living in the colorful French capital, Miss Frederick as the mother and Joan Crawford as the daughter have their youthful fling at high life together. There is no age line.

Almost any combination may be used for fruit cup or fruit salad, but there should be included something pleasantly acid, such as grape-fruit or orange or tart sliced apple. Some of the best fruits to include in a salad are canned pineapple, peaches, fresh or canned, cantaloupe, cherries, fresh or canned, apricots, dates, prunes, figs, maracchino cherries, Malaga or Tokay grapes. A few nut meats are an agreeable addition, and also berries in season. The fruits should be cut in attractive pieces, and they should not be stirred about, or they will look mushy and shapeless.

## This Will Help You Go To School

Now that the cotton acreage in Texas has been reduced 30 percent for the next two years by legislation we are willing to allow, until further notice, 20 percent above market price for cotton taken in on the purchase of scholarship. We will transfer the scholarship to the student upon delivery of warehouse receipt to us and will allow 20 percent above the market price on the day receipt is delivered.

We will also issue scholarship against notes secured by real estate, with clear title, or notes with personal endorser that the local banks will recommend as being good pay and worth the money. We give a 10 percent discount from our regular cash rate to those who prefer paying cash upon enrollment. To others, we offer a liberal installment payment plan. We make no charge for securing students spare time work to earn board and room.

Write, or better still, come to our office and let's talk your problems over. There are very few cases, where a student really desires to attend our school, that we cannot arrange in some business like manner for him to do so.

# THE "HIDDEN QUART"

**That Stays up in the Motor and Never Drains Away**

— is Worth its Weight in Gold to Any Motorist! —

It's not the mileage your speedometer shows that makes your car wear out quickly, lose power and need costly repairs. It's motor wear, caused by friction, that does it! And almost half of all this motor wear occurs while you're starting. Cut down starting wear and you'll give your motor longer life.

That's just what the "hidden quart" of Conoco Germ Processed Motor Oil does! It stays up in your motor and never drains away and thus cuts down starting wear! Ordinary oils drain away, leaving working parts unprotected until oil is pumped from the crankcase through the motor, which takes several minutes. Conoco Germ Processed Motor Oil penetrates and combines with metal surfaces of working parts, stays there and never drains away. The "hidden quart" safely lubricates every cylinder, piston and bearing the instant you touch the starter.

### Mrs. Dunn Made Parent-Teachers Association Head

Mrs. Nelson Dunn has accepted the office as president of the local Parent-Teachers Association. The retiring president is Mrs. Wade Winston. Mrs. Dunn will be assisted by the following officers: Mrs. F. W. Wolcott, first vice-president; Mrs. A. C. Alexander, second vice-president; Mrs. J. O. Temple, third vice-president; Miss Maurine Cunningham, secretary; and Mrs. W. W. Hamilton, treasurer.

At a call meeting held Thursday evening at the school auditorium, the new president announced the following committees: Program: Mmes. F. W. Wolcott and J. C. Dorward; Enrollment: Mmes. A. C. Alexander; J. G. Hicks; J. M. Newton and Mr. R. S. Sullivan; Finance: Mmes. J. O. Temple, Roy Brown and E. E. Wallace; Publicity: Mmes. J. M. Harris and J. W. Roberts; Social: Mmes. R. L. Gray, W. H. Cauble and W. C. Hamilton; Mrs. John Keller was appointed cafeteria chairman and reporter is Mrs. J. W. McCouch.

Mrs. Dunn states that the Association is not having regular meeting dates this year but will only meet when necessary, and announcements of meetings will be made beforehand. It was decided Thursday evening that dues for the year would only be 25 cents. The Association voted to have a big Halloween carnival on Friday evening, October 30, at the city tabernacle. Mrs. Hugh Taylor will be in charge of the booths for the occasion and Homer Springfield will be responsible for the evening's entertainment along the musical line.

A membership drive is being conducted and it is hoped that parents and teachers will cooperate with the new enthusiastic group of officers, under the leadership of Mrs. Dunn, and put the P. T. A. on top this year.

### Angry Farmers Spill the Milk

A St. Louis Dairy refused to cooperate with the Sanitary Milk Producers Association of southern Illinois. Members of the association retaliated by holding up a train of milk trucks bound for St. Louis and letting 4,000 gallons flow onto the pavement at St. Jacob, Ill.

Farmers are still gathering their cotton as fast as they can. The weather is ideal, and cotton is white and clean—about the best cotton we have made since 1927. If we could only get a living price for it, even enough to pay for help to get it out before the wind and sand damages it—but there seems nothing to do only keep the children out of school until it is gathered, and that is hard to do when it is not worth what a child loses while staying out. Maybe it is for the best, although we cannot see it that way.

### Commercialization of Radio Played By Senator in Los Angeles Address

Public control over radio broadcasting channels will be maintained at all cost, even if it is necessary to amend the constitution, asserted Senator C. Dill of Washington before the convention of the Public Ownership League in Los Angeles this week. Senator Dill declared that the interests responsible for the super-commercialization of our broadcasting were endeavoring to nullify the intent of Congress and establish the principle that the owner of a broadcasting station operating on a broadcast channel under a federal license acquires a vested right to this channel.

"Congress endeavored through definite provisions in the 1927 Radio Act to prevent this very thing," said Senator Dill. "Congress compelled every station owner to sign a waiver stating that he would make no claim into the use of the channel beyond the term of his license and that he would immediately after the opening of Congress, and announced that he would introduce legislation designed to make commercial broadcasting stations pay a license fee and a federal tax on their gross revenues to help cut down the huge federal deficit."

Senator Dill announced that he would insist on the vigorous prosecution of the suit for the dissolution of the Radio Corporation of America for violations of the anti-trust laws even if the corporation agreed to open its latent pool. He promised to renew his long fight against the monopolization of radio immediately after the opening of Congress, and announced that he would introduce legislation designed to make commercial broadcasting stations pay a license fee and a federal tax on their gross revenues to help cut down the huge federal deficit.

### Fall Harvest.

by Leon Guinn.  
The maize is waving gayly  
The cotton's open now  
And feed is headed daily  
The harvest time and how!  
September bids us hurry  
For leaves will soon turn gold,  
We'll have to work and scurry  
And soon the nights get cold.  
Wife and kids are helping  
Their dad to save the crop,  
The family soup dog's yelping  
All sure have to hop.  
Rural schools are going  
Crop proceeds are down,  
But homefolks are showing  
That things must gain ground.  
What though the back is aching  
Work and have some cheer,  
But if the farmer's shaking  
Oh how some sap would jeer.  
Our mules will need a haircut  
And numerous problems crown,  
The cow must keep the milk up  
For you can't keep the chickens down.  
The town folks help us kindly

**Courts Should Uphold.**  
"I am certain that the courts will uphold the constitutionality of the Radio Act's protective clauses. If they don't, we shall continue to fight for the public's rights even if we have to amend the constitution."  
Senator Dill harshly criticized the Federal Radio Commission for the favoritism shown the Radio Corporation of America.  
"The commission is administering and interpreting the Radio Act for the benefit of the corporations profiting by the super-commercialization of radio and against public interest," stated the senator. "Before I left for Europe this spring, I was certain that the Radio Commission would obey the law and refuse to renew four of the 1400 licenses of the Radio Corporation which had been found guilty of monopolistic practices and unfair methods of competition, a conviction which made it mandatory for the commission to deny a renewal of the licenses. Before I left, even the representatives of the Radio Corporation seemed to believe such an
