Son-of-a-Gun Feed to Be Staged April Fool's

NEW WORK FOR ORGANIZATION, SAY DIRECTORS

Winston Again Made President; Joe Caton and Joe Stinson Are Vice Presidents.

One of those old-fashioned, informal eat-all-you-can, son-of-a-gun feeds for which West Texas is famous will be staged at the armory on Friday night, April 1, with every business and professional man and woman of Snyder as potential guests.

Plans for the affair were made Monday night by the Chamber of Commerce board of directors, meeting in their first business session of the fiscal year.

Held as it will be on April Fool's night, the get-together will include many a funnybone tucker. For instance, it is reliably reported that no one who does not have a spoon of his own will be admitted, for the depression has made even eating utensils come at a premium.

But the chief purpose of the feed will be to get the leading citizens of the town together once more. Problems will be discussed, a plan for meeting the emergencies of 1932 will be considered, and the general welfare of Snyder will be brought before the group.

The directors Monday night were emphatic in their declaration that the function of the Chamber of Commerce has about-faced within the past two years. President Harrie Winston called attention to the fact that even the regional Chamber of Commerce has first years of existence must be changed to the solving of problems that face the people of West Texas.

Winston Re-Elected

Harrie Winston was the unanimous choice of directors for leading the Chamber of Commerce through a conservative year, as the rancher-banker has done since March of 1931.

Joe Caton was made first vice-president, and Joe Stinson was elected second vice-president.

Action will not be taken concerning the sections held by J. W. Scott for three years, until early in April.

Likewise, it was declared, the individual chambers of commerce have changed their tactics. The work of the local organizations during the past year was given as a notable example of the change.

Many Accomplishments

Instead of encouraging new enterprises to make their way to Snyder, discouragement has been the keynote if the field was already over-supplied, declared Secretary J. W. Scott. Too, the chamber has not attempted to stage any high-powered ballyhoo to attract institutions or persons for which the community had no need and no room. A policy of taking care of the needs of the people and institutions already here has been successfully followed.

Outstanding among the accomplishments of the body during the year is its charity work. By assuming the responsibilities for this kind of work for all agencies of the county, the Chamber of Commerce, with Secretary Scott at the helm, has cared for those in dire need, without doubling the work and at a minimum of cost.

By discouraging collections among the business men, and by taking only one small collection itself, the civic group has in this field alone been worth hundreds of dollars to the town, it was pointed out Monday night.

Directors Pledge Action

After re-election of Harrie Winston as president, the directors pledged their whole-hearted support in a program of education and enlightenment—education as to the new function of the Chamber of Commerce and how it has been of service here the past year, and enlightenment of all those who are receiving the benefits arising from their share of the upkeep burden.

The directors are: Joe Caton, Joe Stinson, A. C. Alexander, Forest Sears, H. L. Wren, John E. Sentell and J. C. Smyth.

More definite plans for the year's program will be laid by the directors at a later meeting.

Grade and Drainage Work on North Road

Grade and drainage work in Garza county from Southland to Post and Post to Justiceburg and the Scurry county line, is to be built when the county secures the right-of-way, according to word from Lubbock last week.

This project includes completion of about seven miles in Lubbock and Lynn counties, from Slaton to Southland. When the route is settled in Garza County this work will be started in Lubbock county.

FORMER TEXAN

Melvin A. Traylor, president of the First National Bank, Chicago, is being boomed by his friends as the Democratic candidate for president. A Traylor-for-President Club was formed here last year. The internationally-known financier is a former Texan. He was at Ballinger before he entered the Windy City's money mart.

RURAL SCHOOL MEET HONORS FOR DERMOTT

Gannaway Second; High Interest in Preliminary Outdoor League Events Saturday.

A well-balanced track and field team from Dermott took first honors in the rural athletic meet here Saturday. Gannaway was a close second with fine team, while two or three teams were closely bunched for third place.

Keen interest in the pre-county rural athletes will win places in the following 12 schools entering about 60 students: Strayhorn, China Grove, Bison, Ennis Creek, Turner, Dermott, Canyon, Crowder, Plainview, Bethel, Independence and Gannaway. Class B schools also had entries in the playground ball and volleyball events.

T. B. Hicks, rural athletic director, reports that practically every event on the League calendar was entered. He thinks several of the rural athletes will win places in the county-wide meet which later Saturday's winners will enter Friday and Saturday.

Final Scores Indefinite

Final scores for the winning schools cannot be definitely decided until after the regular meet. A preliminary check-up, however, shows that Dermott received about 35 points, Gannaway, 26 points, and three other schools about 20 points each.

Schools entering the rural pentathlon are requested by the director to participate in the events as they are entered next Saturday, and a separate record will be kept to determine the pentathlon championship.

Finals in the rural boys' playground ball will be played Friday at Saturday at the convenience of the Canyon and Independence teams, qualifiers for the play-off. Ennis girls won the playground ball finals in their division, with Independence second, and Bison and Plainview tying for third. Fluvanna boys won the Class B ball title, and the right to meet the rural winner, by defeating Snyder, 13 to 4, Monday afternoon.

One Event Postponed

One junior event, chinning the bar, could not be conducted, but will be scheduled for Saturday morning. All rural schools having entries for this event are asked to enter them at that time.

Only three schools entered the volleyball play-off. Hermleigh defeated Pyron in two straight sets for the county championship, the benefits arising from their share of the upkeep burden.

Additional Announcements in regard to rural events will be made Friday at the Snyder high school during the literary events.

Famous Stamps Not Here; Songs Go On

Virgil Stamps and his well-advertised little bird friend disappointed a church-full of folks who went Baptist-ward Sunday night. It was not altogether embarrassing that the well-known singer and his protegee failed to make contact, for the home-talent crew took charge and made the First Baptist Church ring with the songs of Zion and Stamps song book.

But Stamps wasn't here, and he hasn't considered the matter seriously enough, evidently, to even let singing leaders here know the whyfore of his absence.

COURT DRAWS LARGE CROWD

Closing arguments in the case of Lloyd C. Walters vs. the Employers Liability Assurance Corporation are being heard in district court as The Times goes to press, and a jury verdict is expected to be returned late today. A hung jury resulted when the case was tried in December, and that possibility is in sight for the second trial.

Crowds have filled the courtroom during trial of the case, which opened at noon Monday. Judge A. S. Mauzey stated yesterday that court history might be made in the case, which involves Walters' negligence when he entered into an agreement with the defendant concerning payment of accident insurance.

A liquor case Monday morning and a burglary case which may have to be postponed until the next term due to lack of time, complete the fourth and last week of Judge Mauzey's first term of court in Snyder.

Relative of Snyder People, T. E. Day, Buried at Abilene

T. E. Day, 51, formerly of Snyder and well known in West Texas, died Tuesday morning at his home in Dallas, following a brief illness of influenza and complications.

Funeral rites were held in Abilene, also a former home, Wednesday afternoon, with Dr. J. C. Burnett of Del Rio conducting the services. Dr. M. A. Jenkins, pastor of the First Baptist Church of Abilene, assisted.

Mr. Day is survived by his wife; his mother, Mrs. Mary Louise Day of Snyder; three sisters, Miss Marie Day, Mrs. J. B. Anderson and Mrs. B. M. Wesa, also of Snyder; and by two brothers, D. C. Day of Fort Worth and D. S. Day of Lamesa.

Those from out-of-town attending the services included the immediate family with the exception of his mother, who was unable to attend; Mrs. H. L. Davis and Miss Saxon West of Snyder, and Mrs. Jake Burnett of Breckenridge, and Mrs. J. A. Baggett of Dallas.

Will Layne Legion Post Condemns WTCC For Opposing Bonus to Vets

In a meeting Wednesday night, members of the Will Layne Post No. 181, American Legion, adopted resolutions reflecting on the activity of the West Texas Chamber of Commerce, following their general conference of officials at Fort Worth Tuesday, as regards the payment of the soldier bonus.

Among the major thoughts emphasized in a resolution approved by the 67 members present was that it was the unanimous belief of this Post that the action of the WTCC was influenced by those opposing payment of the bonus, and does not represent the sentiment of the contributing members of their organization.

Several resolutions were adopted. One of them was that the Post should register the protest and challenge the loyalty of the West Texas Chamber of Commerce who have secured the majority of their support from this region.

George Says It.

Commenting on President Winston's remarks, George H. Brown, service officer, said: "The WTCC has stepped out of its former progressive sphere and is not truly representing the interests of a territory that has given the chamber body every type of service in the last war. It is a wonder," concluded Brown, "just how many ex-service men were in the meeting at Fort Worth yesterday."

A resolution committee composed of Warren Dodson, George Brown and Dr. R. L. Howell submitted the resolutions that were accepted by every man present. They will be forwarded to the West Texas Chamber of Commerce, to every Legion Post, within the district of the regional organization, and to every chamber of commerce, who, in turn, will give their findings to the Department Commander, Department of Texas.

Good Faith Questioned

The Post further brought out in the resolution that they were at a loss to understand in what way the West Texas Chamber of Commerce is representing the best interests of this territory by opposing the bonus bill, which would cause the distribution of money in West Texas at this time which would be of great benefit, and more than offset any economy that would be effected by the defeat of the bill.

Post Commander Harrie Winston, who is also president of the Scurry County Chamber of Commerce, stated that the Post as a

Large Sum For County Veterans If Law Is Passed

If full payment of World War adjusted service certificates is authorized by Congress, approximately \$10,000,000 will be due Scurry County veterans, according to a recent statement by Wright Patman, Texas Congressman, before the House of Representatives. The Texasiana legislator cited figures for every county in the United States, as obtained from the Veterans' Administration at Washington.

The total for Texas, Patman's figures reveal, would be about \$95,641,820.30, with few counties receiving less than \$100,000.00 each.

"We are not asking for a bonus," declared the Texas man. "We are asking for the payment of an honest debt that has been publicly confessed and acknowledged by the Congress of the United States to the veterans of the World War for services rendered."

The local American Legion post has been active in presenting the adjusted service payment question before its own membership, the public and West Texas representatives in Congress.

These Are Disease Months

March and April, according to tables compiled by Dr. E. W. Prothro, director of the Nolan county Health Unit, are peak points for practically all kinds of diseases. "We behoove careful persons to regulate their physical care at this time," warns the doctor.

America has some fine old ruins. You see them at night clubs with sweets.

More Oil Scouts In This Area Recently

Three oil scouts from major companies were in Snyder early this week, and others have also been interested recently in Scurry County developments. They were here for the Empire Gas & Fuel Company and for the Standard Oil & Gas Company, the latter a subsidiary of the Standard Oil Company of Indiana.

Recent developments at the Pender and Blackburn tests were looked into by the visitors.

M. Z. Dibble, who led the way for the Murphy and Blackburn tests in South Scurry county, states that drilling is continuing at the latter well, and that high faith for a deep producer is held.

SNYDER MAN WRITES DRAMA FOR CONTEST

"Letters of Guilt," one-act play to be presented in the district tournament at Sweetwater Friday evening by a Snyder High School cast, holds double interest for local drama lovers.

The author is E. J. Anderson, of Snyder, who has made several successful ventures into the writing field. Mr. Anderson is personally assisting Homer F. Springfield, director, in coaching the players who will give "Letters of Guilt" its first public introduction.

The Snyder players will appear Friday evening at 8:15 o'clock, in the Sweetwater municipal auditorium, with Roscoe, presenting "The Queer Duck," by Asband, on the program. If this first round is survived, either Merkel or Abilene will be met in the semi-finals Saturday afternoon. Finals will be held Saturday evening at 8:30 o'clock. A loving cup, donated by the Business and Professional Women's Club of Sweetwater, will go to the winner.

The Springfield players won third place in the tournament last year. Sweetwater was first-place winner.

"Letters of Guilt" is a short, tragic, real clipped from the life film of an American family of very small means. It features Dawson Bridge-man as John Thomas, father, who holds that obedience should be his daughter's staff; Charline Ely, as Mrs. Thomas, peace-loving mother, who sympathizes with her only child; and Ida Sue Wallace as Cora, the 18-year-old daughter, a child of the jazz age.

Arriving at her humble home at 1:00 o'clock in the morning, suitcase in hand, Cora tiptoes about the

FIRST CHECKS ON UNCLE SAM ALREADY HERE

More Than 350 Applications Sent To Dallas Office by Scurry County Farm Folks.

First checks from Uncle Sam's farm loan budget to Scurry County farmers were received here Monday, only a week after the applications were made. Eight checks were in the office.

More than 350 loans had been applied for by county farmers yesterday, and the number has mounted steadily each day this week. Applications may be made until the latter part of April.

Errors Delay Checks.

A number of checks were delayed last week because applications were caused by misdirection of the local committee at the district meeting early this month. Corrections have been made, and the delayed checks should be on their way this week.

The average application is for \$100, according to the county chairman. Amounts have been cut at the Dallas office in a number of cases, and some refusals of loans have been received.

Since a portion of the borrowed money may be used for general maintenance purposes unlike the 1931 loans, several thousand dollars will undoubtedly be turned loose in the community within a few days as a direct result of the loans.

Totals About \$35,000.

Total farm loan money to reach Scurry County will probably be \$35,000 or more, in contrast to more than \$100,000 last year. Those handling the applications state that farmers as a whole are keeping their requested amounts at a minimum, partly as an economy measure and partly because the re-payment clauses are so stringent.

Applications reached a high peak Thursday of last week. Business men of Snyder and others, continuing to give their services free in connection with the work, as long as they were needed.

Mr. Shuler states that a list of checks will be posted in the court house basement as the year proceeds.

OUR NEW JUDGE

Hon. A. S. Mauzey of Sweetwater, appointed district judge to succeed the late Fritz R. Smith of Snyder, concluded his first term of Scurry County court this week. He is a candidate for an elective term on the bench.

One of the Worst Uns

The sandstorm that fumed late Sunday night, and continued through Monday, was one of the longest of the year, and was a distinct pain even to housewives who have lived in West Texas for years. Advance flurries indicate that the sandies may come thick and fast this spring and summer.

Special Farm TRAIN TO STOP HERE IN APRIL

The Santa Fe farm and home special, operated by the Santa Fe Railway company in operation with the Texas A. & M. College and making a forty-five day tour of all Scurry County, will arrive at Snyder, Wednesday, April 6, for a show beginning at 12:30 o'clock that noon. This will be the train's final stop.

The special completed a total of 76 stops in GC & SF territory March 12 and on March 14 began its itinerary in Panhandle and Santa Fe territory. According to J. R. Hitchcock, vice-president and general manager, and T. E. Gallaher, general freight and passenger agent, Amarillo, and college officials, programs will be presented at stops on the P & S F lines similar to those on lines of the GC & SF. J. D. Tinsley, agricultural agent, Amarillo, will direct the programs on the P & S F lines.

The special is a nine car train carrying numerous agricultural and livestock exhibits stressing tried methods of making the farm self-sustaining and of cutting production costs. The train is being operated by the Santa Fe, the exhibits and speakers being supplied by the college and other cooperating agencies.

Specialists from the Extension Service and the college will speak on the exhibits and the facts they emphasize, calling attention to the importance of having several sources of income on the farm in order to bring a sale of all stock items on a sound basis. Following the talks, visitors will be invited to go through the train to view the exhibits. Passenger coaches will be used for meetings in inclement weather.

The speaking program has been arranged so as to hold interest for women and young people as well as men. Questions regarding the exhibits and farm problems will be invited.

Former Scurry Man To Open New Ford Agency Here Soon

With H. H. Elland, former Scurry County man, in charge, the local Ford agency will open in new quarters early in April, it was learned early this week. The agency until two weeks ago was held by Joe Strayhorn, who has closed his doors.

Work is going forward on the Fuller building, just east of the Strayhorn display rooms. It is being remodeled, and will be equipped in a few days with standard Ford fixtures and other improvements.

Horace Elland, brother-in-law of Mrs. Ethel Elland of Snyder, comes here from Stanton, where he and his brother, Guy Elland, operate a Ford agency. He has a wide reputation as an aggressive business man and a civic leader.

Full announcement of the new agency's plans will be made next week.

Some men dispose of a disagreeable matter by stuffing the papers in the drawer of a desk.

Vote April 2 For Trustees

School trustees for rural and independent Scurry County districts will be elected Saturday, April 2, the last date for placing names on the ballots having expired yesterday, according to A. A. Bullock, superintendent.

The all-important position of a school trustee, especially in such a year as this, cannot be stressed too much, declares Mr. Bullock. "I am hoping that every qualified voter will cast his ballot in his district, and especially do I urge that the county board be chosen with care," he said. "Let us rally to the polls next week and elect our favorites by a vote which reflects their usefulness in the life of our schools."

The name of D. P. Yoder will appear again on the ballot for county board member at large. The term of M. W. Bayoulet, who expires in Precinct 1, and that of J. C. Carroll in Precinct 2, E. J. Ely in Precinct 4 and A. Rhoades in Precinct 3 are held-overs.

The Rock Island line of farm equipment, long handled by D. P. Strayhorn and Son, has been taken over by Hugh Taylor and Company. The stock has been moved to warehouses near the square.

The Strayhorn implement and harness store has been closed, and practically all merchandise has already been disposed of.

'GRANDMA' LESLIE Distance No Barrier SEES HER DOCTOR

Grandmother Leslie of Hermleigh had a fall, saw her friend, and she didn't let her 96 years, or the 112 miles to Lubbock hinder her.

Her doctor, W. H. Ward, was in a Lubbock sanitarium. The pioneer resident boarded an automobile, made the trip, saw her friend, and returned to her home. She enjoyed it immensely, for it was the longest trip she has made in many a day.

Grandmother Leslie is the step-mother of Dr. A. C. Leslie, Snyder. The Hermleigh doctor, at latest reports, was not in serious condition.

Maybe there isn't a drop of Irish blood in your veins but if there isn't any Irish lace in your spring wardrobe you won't be in on one of the smartest fashions of the season.

Right now there is something decidedly attractive about black silk crepe or satin dresses made with cuffs or undersleeves and collars of Irish lace. Don't hesitate to buy a dress of this sort. Maybe it is going to become a very popular fashion and maybe six months from now you won't care so much about it. Well, it's smart now, and later on you can take out the Irish lace and add something else that is newer.

Another phase of the Irish lace fashion presents itself in the form of blouses. There are entire blouses made of Irish pattern lace, very simple and easy to wear, just the thing to wear under a new two-piece suit that you may wear under your coat now and without a top coat later on.

Another interesting type of Irish lace blouse is made with alternating strips of net and Irish lace. The strips of net are run with fine pin tucks and are possibly twice as wide as the Irish lace insertion. For a more summery looking blouse you could use fine handkerchief linen for the strips between the Irish lace insertion.

Then there are new Eton jacket costumes, made with a high waisted skirt and a short jacket with the Irish lace under blouse showing beneath the jacket.

The sketch shows one of the new black silk crepe dresses, made with a yoke of Irish lace and finished with two artificial flowers made from Irish lace.

These flowers can be bought or they can be made from Irish lace edgings—the lace drawn into four or five petals with either the plain or the irregular edge outside.

Mrs. Fritz R. Smith Enters Treasurer's Race in this County

To the People of Scurry County: I hereby announce myself as a candidate for county treasurer of Scurry County, subject to the action of the Democratic party at the July primary. I am confident that I can fill this office in a way that will please the citizens of this county if they see fit to elect me.

P. Brady Announces For Representative

To the Democratic Voters of Scurry County: I hereby announce myself as candidate for the Legislature from the 118th District, composed of Scurry, Stonehall, Kent, Borden, Garza and Dickens counties, subject to the action of the Democratic Party at its primary in July, 1932.

C. F. Sentell Jumps Into Representative Running This Week

To the People of Representative District No. 118: I hereby announce my candidacy for Representative of the 118th District, subject to the action of the Democratic Primary.

My decision to ask to represent this district has been made after careful consideration. I fully appreciate and understand the responsibility of this office. However, there is a special responsibility as well as opportunity at this juncture to render valuable and lasting service to the district and to the state.

The time is here when the people of the state as a whole, and especially of the more sparsely settled areas, such as this district, need some of the reins of government in their hands. We can do this by sending to the legislature representatives who are capable to cope with those who oppose what is best for the masses of the people, who know how to work in the Legislature for the people, who will do so, and whom you know you can count upon.

It is with an earnest desire to make such a fight that I want to represent this district. It is my conviction that many of our people over the state have heretofore been considering the importance of this office too lightly. When we think of the legislature as a whole we cannot consider it lightly, because through it is controlled largely the quality of the state government, the taxes we pay, etc.

However, we know that the legislature cannot be greater than the ability, experience, knowledge, honor and patriotism of the individual men sent there by us. The people should draft the best men available, and if the good men running against me or I should not measure up to a good standard, that is our misfortune, and you should seek another. This is no time to name the office to some one as a favor to him; you are the judge of whom you send, you are responsible for him, and then he is responsible to you and the state. We cannot longer afford to let the larger centers and special interests run the state government to the injury of the masses of the people.

Those who may not know me, I give some of the background of my life. My grandparents, both maternal and paternal, were Texans in frontier days. My father now lives six miles west of Weatherford, in Parker county, where his father settled in 1852. I was born there 44 years ago one of a large family, and lived there on the farm until grown. I worked my way through school, the Methodist college and Business college at Weatherford, then made my way through the Denton college, secured a permanent certificate, studied in the University of Texas, and was principal and superintendent of seven and nine teacher schools for three years. I studied law privately and in the University of Texas, was admitted to the bar and have practiced law 13 years. In 1922 moved with my family to Snyder, Texas. Here I served as County Attorney for four years, and am now in the private practice of law.

I have already had four years experience in the legislature. In 1917 I was elected from Parker county, over two good men, and for a second term without opposition. I served during the stormy 35th and 36th sessions. When the complete survey of the state government was made by 20 members selected from the house and 5 from the senate I was one of the 20 and was made chairman of one of the five main committees. This gave me a detailed knowledge of the workings of the state government that I could not have received otherwise. I have always taken a keen interest in state affairs and believe that I have a good working knowledge of affairs of state such as will enable me to render valuable service from the very beginning. And I believe that I know how to work with the legislature so as to secure results for a cheaper and better government. I fought for definite ends then, and shall, if elected, use my experience for your good.

The people first should know that a man is honest, second that he is energetic, experienced, fair-minded and capable; and, third, that he knows our problems, that he has some definite plans for doing something when he gets to Austin. I have always believed that one should be able to put in black and white what he stands for and let the people know. We all know that we need and must have relief, but it cannot be obtained without definite ideas and plans to work to propose to give you some of the changes I shall work for, because if I ask your vote, you have the right to know. If I am wrong, vote against me. If I am right vote for me and I promise not to fail you.

I favor: 1. Elimination of the poll tax as a qualification for voting. The men and women who have had to spend their few dollars for broad and shoes for their little ones should not be denied the right to vote.

2. Removal of the tax burden from the homestead. Home ownership is the foundation of our government and is every man's right.

3. Reduction of automobile registration to practically the cost of registration, keeping the cost on gasoline and letting the counties have a fair share to use locally. This will lighten the tax burden.

4. A graduated income tax on the larger incomes, thereby relieving the little man of the burden.

5. Legislation to prevent the taking of our natural resources by foreign interests without adequate returns to our state government.

6. Consolidation and elimination of offices, bureaus and commissions and duplications, in cities, counties and the state. This is very important and necessary.

7. District court re-districting and abolishment of about one-fourth of the courts. It is shown that in the average district judges work less than one-half of the time. This can save hundreds of thousands of dollars without decreased efficiency.

8. Abolishment of the Courts of Civil Appeals, simplifying our trials and appellate procedure. Our juries and trial judges have no common sense, and their power should be

Ira Girls Awarded Sweaters at Chapel Service Last Week

The Glee Club of the Ira High School sponsored a chapel program Friday afternoon at 3:15 in honor of the basket ball girls. At the close of the program, during which many songs were sung in honor of the team, Superintendent E. L. Taylor surprised the following girls, Captain H. Holladay, Co-Captain J. Lloyd L. Smallwood, L. Holladay, E. Lloyd, J. Allen and L. Minor.

The girls were still more surprised when O. H. Holladay, president of the Ira school board, came in and presented them with beautiful sweaters. These sweaters were awarded the team for the splendid work they have done in athletics.

The team as a whole wishes to express their most sincere thanks and gratitude to each and every one who help to make it possible for them to be awarded such beautiful sweaters.

Snyder Students To Enter Auditions At Simmons April 16

Contestants from Snyder High School will compete in the annual voice auditions to be held at Simmons University, Abilene, April 16. It was announced Saturday.

Seven other towns have already entered: Abilene, Ballinger, Cisco, Breckenridge, Roby, Midland and Stamford.

The contest has been enlarged this year to embrace, not only solo contests between the boys and girls, but also choral and quartet work. This will give the contest six divisions. Loving cups and banners to schools, and scholarships to individuals are being offered as prizes.

The full personnel of the Snyder group has not yet been announced.

Leaguers Plan Post Trip This Week-End

Epworth Leaguers of the Willing Workers Union will go to Post Saturday evening for a devotional and business meeting. At least 15 or 20 messengers from Snyder, Dunn, Ira and other Scurry County points are expected to be present.

Curtis and Felix Jarrett of the local League will be featured in a musical number, while Clarence Walton will talk on "What the Epworth League Has Meant to Me." Le Roy Fesmire will have charge of the business session.

Rev. Douglas Carver, pastor of the Baptist church at White Deer, was called last week as pastor of the First Baptist church, Sweetwater. The young pastor and his wife, who is former Snyder girl, assisted in a revival meeting at the First Baptist church here, and are well known to Snyder people.

CITY ELECTION ON TAP APRIL 5

When Snyder voters go to the polls Tuesday, April 5, they will probably have plenty to wonder about, for two races have competition, with possibility of still further entries this week and next.

The major excitement will hinge around Walter Camp, J. A. Woodfin and W. H. (Bill) Jenkins, candidates for city marshal. Camp now holds the place, Woodfin is a former incumbent, and Jenkins is new in the political field.

In the north ward alderman's race, S. A. LaRue is opposing James R. Hicks, incumbent. A. C. Martin is seeking the east ward place held by G. H. Leath. The latter has not announced whether he will be a candidate for re-election. L. T. Stinson has no opponent in the west ward. Hold-over aldermen places follow: Dwight Monroe, east ward; S. J. Casstevens, north ward; and S. W. Ely, west ward.

H. G. Towle, serving his third term as mayor, is unopposed, and A. C. Preuitt, city secretary, likewise has no competitor to date. H. V. Williams, recorder, is asking for re-election, unopposed.

Payment of \$3.50 on State Apportionment Nets County \$12,000

More than \$12,000 came to Scurry County Monday in the form of a portion of the state apportionment of \$17.50 to each school child. The payment was \$3.50 for each student. Nine dollars of the apportionment remains unpaid.

Completion of the annual school census must be made in all districts by April 1, the county superintendent points out.

Practically all rural aid money was received earlier in the month, and smaller schools are now on a fairly good financial footing. The total sum paid was about \$15,000.

Methodist Leaguers Granted 21 Credits At M. E. Institute

Twenty-one Leaguers from Post and Snyder were granted credits Sunday at the close of the Willing Workers Christian Culture Institute, to which the local church played host Friday, Saturday and Sunday. Dunn also sent several delegates, but they did not attend the number of times required for credit.

Seven young people from Post accompanied their pastor, Rev. H. W. Hanks, who taught one of the three courses offered at the five periods. Officers of the school included: Le Roy Fesmire, supervisor; Clarence Walton, dean; Rev. S. H. Young, pastor; D. P. Yoder and Rev. Mr. Hanks, teachers.

A feature of the institute was a lunch, served picnic style in the church basement Sunday. Miss Nelda Garrett of Colorado, district Epworth League secretary, was an institute guest Friday evening.

New Laundry Chassis. The Snyder Laundry truck, herded day by day by one of the Smith brothers, was nearing the end of its days of usefulness last week. As a result, Sam La Rue had the body placed on a larger chassis, and the old bus perks right along.

Both Local Debate Teams Win Highest Honors in Tourney

Snyder debaters were 100 per cent winners in the county round-robin tournament that ended here Wednesday night. Pluvanna was second in the boys' division, while Hermleigh and Snyder tied for third. Hermleigh girls won second place, with Pluvanna third. Since only three teams entered, however, the last place does not count in the League standings.

The series of debates were held in the high school auditorium on Friday, Monday and Wednesday nights. E. H. McCarter of Pluvanna directed.

Hermleigh boys forfeited two debates, one to Snyder and one to Ira. One of the debaters was ill. Ira boys forfeited one debate to Pluvanna for non-appearance.

Debaters in the boys' division were: Snyder—Earl White, Harold Davidson; Pluvanna—Sam Houston, Roland Squires; Ira, Melvin Lewis, Woodrow Allen; Hermleigh—John Sheehan, Grant Groves.

Girls who argued were as follows: Snyder—Jeanette Lohr and John Mathison; Hermleigh—Oleta Westbrook, Gaynelle McMillan; Pluvanna—Jessie B. Odom, Juanita Ball.

Bullock and Others May Attend Meet

Copies of the program for the state conference of county superintendents and supervisors to be held in Waco, April 19 and 20, have been received by A. A. Bullock, Scurry county superintendent.

Mr. Bullock has made definite plans to attend the meeting. He has taken an argument part in the state sessions for several years. He may be accompanied by other county school leaders.

Scout Camp Site To Be Chosen At Once

Officials of the Buffalo Trail Area, Boy Scouts of America, have been in Edwards county the last few days to select a camp site for the annual summer junk. The proposed site is more than 300 miles from Snyder. Other sites are also being inspected.

It is possible that several scouts from the local troop may attend the camp, although no definite plans have been made. Two members of the Snyder group attended last year.

Anyway there is one sensible bill before Congress and that is an appropriation of two billion dollars for building roads. That will amount to something.

Frozen assets are not moving very rapidly but our crop of frozen countenances is gradually thawing out.

KNIGHTS WILL VISIT IN ROTAN

About thirty Knights of the Snyder Commandery will leave here at 8:30 o'clock Sunday morning to be guests of the Rotan lodge in a special Easter service. Knights also will attend from Colorado, Post and other towns in the Commandery.

H. J. Brice of Snyder will lead the group, which will be in full uniform. At the close of the special service Sunday morning, visitors will be guests at a banquet tendered by the Rotan hosts.

Ira Church Named. The Times neglected to state last week that the Mitchell-Scurry Baptist association meeting at Dunn, March 15, chose Ira as the site of the next workers' meeting, April 11. H. L. Wren of Snyder and Rev. Claude C. Scott of Union were among the speakers at Dunn.

The Times Creed.

For the cause that needs assistance;
 For the wrongs that need resistance;
 For the future in the distance,
 And the good that we can do.

THE WEEKLY DOZEN.

The Nearer They Come.

The nearer some people come to the gates of pearl, observes Pessimism Pete, the more they begin looking for oyster shells.

Again: What We Need.

"What this country needs more than anything else," said a funny man the other day, "is for the doctors to introduce some moderately priced disease."
 —Stamford Leader.

Looking at the Loan Plan.

From the way this new farmers' loan board is being organized we are of the opinion that it will cost the people of the country about \$100, for dispensing, to \$1 that is finally put in the hands of the farmer, who agrees to sign away his rights.—Garland News.

Earning and Spending.

When an individual consistently spends more than he earns he soon gets into serious trouble. When a business firm follows that course it soon ceases to exist. A government is no different. Regardless of how we regard the federal deficit, one fact is apparent—it must be wiped out.—Sweetwater Reporter.

Something to Try About.

When we awoke Sunday night to find that the finest sandstorm in the universe was whistling into our newly-cleaned house, we inwardly decided to pretend Monday that a sandstorm was nothing in our young life. And sure enough, we did—until a typical candidate, anxious to fit himself into our thought channels, bungled the job, and began to break down our sand resistance.

This From J. L. Martin.

The present age and the present prevailing conditions demand an unamused press with editors who are not afraid to tear down idols and pet hobbies of political leaders. The present is no time for "soft soaping," "pussyfooting," or "soft pedaling," but a time when men should be fearless in taking stands for right, equity and justice regardless of cost or consequence.—Childers Daily Index.

Cotton Acreage Increase?

In the opinion of a good many observers, the long period of cold weather over Texas this month, killing or seriously damaging many crops, will lead to an increase of the cotton acreage in Central, East and South Texas. In a good many counties of the state the early-planted corn crop was nipped, and it is now getting late in the season to replant. The natural impulse will be to turn to cotton.—Ablene Daily Reporter.

Spring Takes a Holiday.

Although Spring has taken a holiday in this country, Spring clothes will be here to stay on Easter. Women who go to church only when the styles in preachers or clothes change, will be in the hey-day of their glory. Men who pretend that styles are a pain in the neck, will be craning their necks to see what their neighbor's daughter's cousin is wearing. We suggest that all the pastors of the town preach Sunday on "A Crown In the Hereafter Is More Valuable Than New Headgear in the Here."

News MUST Be News.

A contemporary weekly editor comments at length on various phases of the newspaper business, finally coming to the conclusion that it's brains, not good writing, that makes a newspaper better or best. He also concludes that his paper will continue to print the news of the week, no matter its origin or destination, and that editorial flavors will be saved for editorial columns. If you catch The Times violating this policy during 1932, kindly send us a crate of sour lemons and a passel of garlic seed.

Everybody Opposes This Tax.

Almost every new tax proposal stirs up bitter opposition from those who must pay. Here's one exception—sportsmen throughout the country are asking Congress to levy a tax on shot-gun ammunition as a means of providing funds for the increase of wild game. As the tax will be paid by those who are proposing it, everybody approves. The tax is to be collected at the source, the ammunition factory, by way of a stamp applied to the box of shells, exactly as is now done with cigarettes.—Tulsa Herald.

From the Pathfinder Magazine.

We glean this from the Chicago Dental Bulletin: "Some time ago a dentist in the Forty-Mile section, not far from Eagle, Alaska, died after pulling every tooth from the head of a man named Johnson."
 "No other dentist was near, so Johnson returned to his trapping camp with bare gums. There he found a bear had broken into his cache and eaten his food. Johnson got his rifle, trailed the bear and shot him. Then, having once been a metal worker, he got out some old tools and fashioned a dental plate into which he set the best of the bear's teeth. The set of false teeth clicked, so Johnson ate the bear with the bear's own teeth."

Parties Go on Forever.

Despite short salaries and no salaries, the regular whirl—or perhaps it's merely a walk—of Snyder parties and entertainments of various natures keeps on keeping on. A few chronic fault-finders think the devil will overtake our socially-inclined matrons and off-springs, but we are of the opinion that a little more sociability, even if it costs extra bread and olives, and the borrowing of our neighbor's china and chairs, is better for our troubled souls than the contemplation of small minds in solitude.—Scurry County Times.

It is a good thing. It takes your mind off past due rent and lagging income. Sociability is rare enough in every-day life, what with the public's frame of mind being like it is; so it's a welcome diversion when genial evening hours come and friends congregate to do society. Whether it's a mere two tables of bridge, a sewing club, a hotel tea, a thousand guests, or just the old quartet in the kitchen 'round a bowl of pretzels, it's good for the soul. West Texas society, anyhow, has an appeal all its own. You don't don full dress and ermine and go to a theatre and a supper club after. The Astors and Vanderbilts this side the Red River put more punch in their parties than that. They have the fun of raking up the dough for a two-bit wave set, borrowing brother's overcoat, lugging the kids across town to a grandma's and getting to the party twenty minutes late but that doesn't make any difference anyhow as another guest had to work extra time at the store and is late too. If your bridge's punk, that's all right, because it won't last any longer than 10:00 o'clock when Amos 'n' Andy come on and anyhow the guy you're playing against probably works for you and if he doesn't you know his income and private worries and just what his wife paid for that new dress she's got on. You recognize the teacups from a party somewhere else; maybe you even helped the host was extra chairs across the alley from a neighbor. Nobody can high-hat anybody else because everybody's got so much low-down on each other that sailing under false colors is impossible. Or at least impractical. Faith, Hope and Charity—that's the keynote of small town society, whether the parties be given or thrown. Come to West Texas. Come to Sweetwater. Come home early and help dust the parlor, we're entertaining.—Nolan County News.

EDITORIAL OF THE WEEK.

THE "WHIP" PARTY.

Pecos was visited this week by a candidate for the presidency of the United States. Odd but true. The candidate, self-styled though he may be, had a printed statement of his platform, well dressed and sported an affluent air.

He breezed into the Enterprise office at dusk Monday evening, handed us a copy of his campaign platform and then breezed out, following a handshake, with the very palatable conclusion:

"I gotta be moving—I've gotta cover the whole country and the United States is a pretty big place." Here are some of the sagacious expressions in the platform of the visitor, George Edward Stewart.

"I herewith toss my hat, coat and bull into the circus ring.

"I am a WHIP, and, so far as I know, the only member of that party.

"I have a fine car and no gas.

"I have one suit of clothes and thank God for it.

"I do not drink.

"I say to you that the platform of my party is a sandwich big enough for everyone to climb onto—with meat in it.

"I will enforce the prohibition laws if I have to deputize every member of the army and navy as a prohibition officer.

"I say our trouble is an overload of Big-Business brains which settled to the feet and caused chillsbains."

"Then, after a lot of other 'I will' and 'I do,' Stewart winds up his platform by the statement:

"If I have said anything I'm sorry for I'm glad of it."

Anyone that wants to see the full text of the announcement may have it at the Enterprise office. Thus, I have cleared my skirts and am ready to ask Mr. Stewart for a job when, and if, he is elected.—Pecos Enterprise.

Vitamin—"Have you heard that Garoof is on the rocks?"

Hormone—"No. What was he sent to jail for?"

New Stenog—"Sharpleigh called about his account this morning."

Dunn-Brown—"And you told him I'd just left for Europe?"

New Stenog—"Yes, and that you wouldn't be back until this afternoon."

Novelist—"Unless my book sells I shall starve to death."

Publisher—"Excellent idea! That would advertise the work splendidly."

There's lots of poetry in business, says Charles Schwab. You might say now that business is going from bad to verse.

One debt most folks are not anxious to collect is from people who say, "We owe you a visit."

The trouble about buying something you can't afford is that it calls for a lot more things you can't afford. They are needed to match it.

England has imposed a 50 per cent luxury tax on such "abnormal American importations" as silk stockings. Probably regard them as sheer nonsense.

Politically speaking, if the war didn't make this country safe for democracy, the depression and the Republicans did.

Possibly never before in the history of the world have there been as many places for rent on Easy Street.

Spenders, says a columnist, are waiting for the turn. What will they do after turning the other cheek?

The new calendar, as proposed, will skip one day each year. All of us will hope that will be the day our taxes come due.

Welcome to Our Town.

Interscholastic Leaguers who invade Snyder Friday and Saturday will be anxious to find the town folks waiting for them with outstretched arms that seem to say: "Come into us; let us be friends." We're not trying to be funny. Deep down in their hearts our farmer friends would like to be given a more rousing welcome than they find. The children, mostly, will be here, but there will be many proud parents who will be as puffed up over their point-winning offspring as you were of the first pair of galluses you ever wore. Loosen up your grin muscles, Mr. Merchant, and try to give our visitors the welcome they deserve. And throw away some of your prejudice, Mr. Farmer, and find out for yourself that peace, friendship and quality are worth two to one in Snyder.

In the Shadow of the Terror

CURRENT COMMENT
 BY LEON GUINN

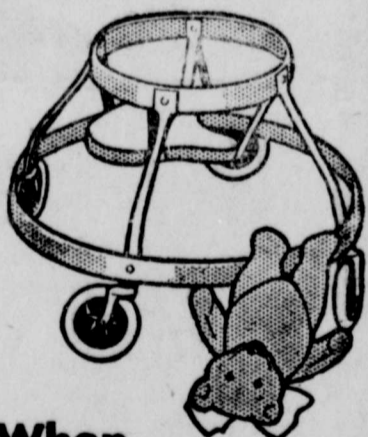

It seems assured that Germany will elect Hindenburg to the presidency again, thus insured of a coalitionist in office instead of Pastic Hitler. At a time when Spain dethroned Alfonso, when Russia exiled pretender Cyril, it is proof that the conservative element of Germany needs no radical whirlwind, knows no East or West when national stability is on the ballot. Blase Parisians last week cooed "vive Hindenburg" between drinks, as France wants a stable Germany, also stable U. S. dollars, of which they have drawn in \$700,000,000.

George Eastman will long be remembered for bringing photography within the reach of all, for being responsible for today's clear prints in our papers, for \$75,000,000 given away. Remember "Your story in pictures leaves nothing untold."

Watchful Editor and Publisher has this to say about the Lindbergh kidnapping, with dailies, that "press silence is not to be added to the advantages already held by gangsters over society." Typical press ballyhoo: Brisbane interviewing Al Capone to assist in the search. Like the Manhattan World-Telegram, I too believe that we do not need such help.

United States-produced meats last year totaled 16,777,000,000 pounds. Americana consumed 14,530,000,000 pounds, and our per capita meat consumption was 133.2 pounds. As hogs supplied 52.7 per cent of last year's meat, it is wise for Texas farmers to raise their own meat, use their heads as well as hands in perpetuating our cupboard meat supplies.

Film stars are going on the stage to bring added popularity to hot-cha, liberal pay-rolls. Buddy Rogers and Lupe Velez are in Ziegfeld's "Hot-Cha," and while Buddy's salary is not a small wad, Lupe is clicking off \$3,000 per week. Jackie Cooper will shortly go on vaudeville.

When BABIES are Upset

BABY fits and ailments occur to us as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?
 For the protection of your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. It's gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

Xylose sugar is made from cottonseed hulls, is pure and non-fattening, used to cost \$100 per pound, but modern chemists have made it

universally cheap to purchase. Cellulose can be made from smokeless powder. After the Armistice 60,000 tons were converted to cellulose. It can be made into paint by the chemist's magic test tube. Those days not ours. For us the feast is spread, the lamps are lit, and music plays withal. Then let us love and leave the rest unsaid. This island is our home. Around it roar Great gulfs and oceans, channels, straits and seas. What matter in what wreck we reached the shore. So we both reached it? We can mock at these. Oh, leave the past, if past indeed there be; I would not know it; I would know but thee.

Efforts to plow riches by going into debt have little chance of winning. Too much like feeding gorse grease to a poor Chinaman to make to make him feel like a rich Jew.

SYNOPSIS

Six people, Horace Johnson (who tells the story), his wife, old Mrs. Dane, Herbert Robinson and his sister, Alice, and Dr. Sperry, friends and neighbors, are in the habit of holding weekly meetings. At one of them, Mrs. Dane, who is hostess, varies the program by unexpectedly arranging a spiritualistic seance with Miss Jeremy a friend of Dr. Sperry and not a professional, as the medium.

At the first sitting the medium tells the details of a murder as it is occurring. Later that night Sperry learns that a neighbor, Arthur Wells, has been shot mysteriously. With Johnson he goes to the Wells residence and they find confirmation of the medium's account. Mrs. Wells tells them her husband shot himself in a fit of depression.

The French maid admits she was out at the time Wells was shot, telephoning from a nearby drug store. Johnson goes to the drug store where the clerk tells him the maid phoned to the Ellingham house, telling somebody there not to call that night.

At a second seance, Miss Jeremy adds details about a summer resort where Charles Ellingham was known to have been at the same time that Mrs. Wells was there. She also speaks of a pocketbook being lost which contained some important cards and letters. Mrs. Dane, alone of the women, seems thrilled by the investigation.

Johnson goes alone and investigates the deserted house. He is frightened by strange noises, as of an intruder in the house, but completes his investigation.

NOW GO ON WITH THE STORY.

I know, as it happens, very little of firearms, but I did realize that a shot from a .45 Colt automatic would have considerable penetrative power. To be exact, that the bullet had probably either lodged itself in the joint, or had penetrated through the flooring and might be somewhere over my head.

But my candle was inadequate for more than the most superficial examination of the ceiling, which presented so far as I could see an unbroken surface. I turned my attention, therefore, to the floor. It was when I was turning the rug back that I recognized the origin of the sound which had so startled me. It had been the soft movement of the carpet across the floor boards.

Some one then, had been there before me—some one who knew what I knew, had reasoned as I had reasoned. Some one who, in all probability, still lurked on the upper floor.

Obediently an impulse, I stood erect and called out sharply, "Sperry!" I said, "Sperry."

There was no answer. I tried again, calling Herbert. But only my own voice came back to me, and the whistling of the wind through the window had long opened.

My fears, never long in abeyance that night, roused again. I had instantly a conviction that some human figure, sinister and dangerous, was lurking in the shadows of that empty floor, and I remember backing away from the door and standing in the center of the room, prepared for some stealthy, murderous assault.

When none came I looked about for a weapon, and finally took the only thing in sight, coal-tongs from the fireplace. Armed with that, I made a cursory round of the near-by room but there was no one hiding in them.

I went back to the rug and examined the floor beneath it. I was right. Some one had been there before me. Bits of splintered wood lay about. The second bullet had been fired, had buried itself in the floor and had, some five minutes before been dug out.

The extraordinary thing about the Arthur Wells story was not his killing. For killing it was. It was the way it was solved.

Here was a young woman, Miss Jeremy who had not known young Wells, had not known his wife and until that first meeting at Mrs. Dane's, never met any member of the Neighborhood Club. Yet, but for her, Arthur Wells would have gone to his grave bearing the stigma of moral cowardice of suicide.

The solution, when it came, was amazing, but remarkably simple like most mysteries. I have in my own house, for instance, an example

of a great mystery, founded on mere absentmindedness.

That is what my wife terms the mystery of the fire-tongs.

I had left the Wells house as soon as I had made the discovery in the night mystery. I carried the candle and the fire-tongs downstairs. I was apparently, calm but watchful. I would have said that I had never been more calm in my life. I knew quite well that I had the fire-tongs in my hand. Just when I ceased to be cognizant of them was probably when, on entering the library, I found that my overcoat had disappeared, and that my stiff hat, badly broken, lay on the floor. However, as I say, I was still extraordinarily composed. I picked up my hat, and moving to the rear door, went out and closed it. When I reached the street, however, I had only gone a few yards when I discovered that I was still carrying the lighted candle and that a man, passing by, had stopped and was staring after me.

My composure is shown by the fact that I dropped the candle down the next sewer opening, but the fact remains that I carried the fire-tongs home. I do not recall doing so. In fact, I knew nothing of the matter until morning. On the way to my house I was elaborating a story to the effect that my overcoat had been stolen from a restaurant where I and my client had dined. The hat offered more serious difficulties. I fancied that, by kissing my wife good-bye at the breakfast table, I might be able to get out without her following me to the front door, which is her custom.

But as a matter of fact, I need not have concerned myself about the

hat. When I descended to breakfast the next morning I found her surveying the umbrella-stand in the hall. The fire-tongs were standing there, gleaming, among my sticks and umbrellas.

I lied. I lied shamelessly. She is a nervous woman, and as we have no children, her attitude toward me is one of watchful waiting. Through long years she has expected me to commit some indiscretion—innocent, of course, such as going out without my overcoat on a cold day—and she intends to be on hand for every emergency. I dared not confess, therefore, that on the previous evening I burglariously entered a closed house, had there surprised another intruder at work, had fallen and bumped my head severely, and had, finally, had my overcoat taken.

"Horace," she said coldly, "where did you get those fire-tongs?"

"Fire-tongs?" I repeated. "Why that's so. They are fire-tongs."

"I am not a curious woman," she put in incisively, "but when my husband spends an evening out, and returns minus his overcoat, with his hat mashed, a lump the size of an egg over his ear, and puts a pair of fire-tongs in the umbrella stand under the impression that it is an umbrella, I have a right to ask at least if he intends to continue his life of debauchery?"

I made a mistake then. I should have told her. Instead, I took my broken hat and jammed it on my head with a force that made the lump she had noticed jump like a toothache, and went out.

When, at noon and luncheon, I tried to tell her the truth, she listened to the end. Then: "I should think you could have done better than that," she said. "You have

the letters are found. They were in the pocket book, presumably.

He folded up the papers and replaced them in the drawer.

"We'd better go back to the house," he said. "Whoever took your overcoat by mistake probably left one. The difficulty is, of course, that he probably discovered his error and went back again last night. Confound it, man if you had thought of that at the time, we would have something to go on today."

"If I had thought of a number of things, I'd have stayed out of the place altogether," I retorted tartly. "I wish you could help me about the fire-tongs, Sperry. I don't seem able to think of any explanation. Mrs. Johnson would be willing to accept."

"Tell her the truth," I explained. "She simply wouldn't believe it. And if she did I should have to agree to drop the investigation. As a matter of fact, Sperry, I had resorted to subterfuge in order to remain out last evening, and I am bitterly regretting my mendacity."

But Sperry has, I am afraid, rather loose ideas.

"Every man," he said, "would rather tell the truth, but every woman makes it necessary to lie to her. Forget the fire-tongs, Horace, and forget Mrs. Johnson tonight. He may not have dared to go back in daylight for his overcoat."

"Very well," I agreed.

But it was not very well, and I knew it. I felt that, in a way my whole domestic happiness was at stake. My wife is a difficult person to argue with.

She is just as tenacious of her opinion once formed as are all very amiable people. However, unfortunately for our investigation, but luckily for me, under the circumstances, Sperry was called to another city that afternoon and did not return for two days.

It was, it will be recalled, on the Thursday night following the second sitting that I had gone alone to the Wells house, and my interview with Sperry was on Friday. It was on Friday afternoon that I received a telephone message from Mrs. Dane, asking me to take tea with her.

"At what time?" I asked her secretary.

At four o'clock.

I hesitated. I felt that my wife was waiting at home for further ex-

Good Situations For Will Rogers' Humor At Palace

Floye Hill, Correspondent

Will Rogers is at his hilarious best in "Business and Pleasure," his latest Fox Film starring vehicle, which will make its bow at the Palace Friday and Saturday nights.

Although Booth Tarkington wrote "The Plutocrat," from which the film was taken, as a defense of the Middle Western "Rabbit," Rogers gets much more out of the story than that, and keeps interest at a high pitch as he provides more than his usual quota of laughs.

As in all other Rogers pictures, there is not an off-color joke or situation in the entire production, a circumstance that has endeared him to the American family.

The world famous comedian-humorist is given excellent support by a cast which includes Jetta Goudal, Joel McCrea, Boris Karloff, Peggy Ross and Jed Prouty.

"Business and Pleasure" is excellent and entertaining. Our recommendation is to see it by all means. You can't afford to miss it.

Lucky may have been with you for years, but it can leave you any minute.

planation of the coal-tongs, and that the sooner we had it out the better. But, on the other hand, Mrs. Dane's invitations, by reason of her infirmity, look on something of the nature of commands. I carried to the drawing-room, plainly excited. Never have I known a woman, who, confined to a wheelchair, lived so hard. She did not allow life to pass her windows, if I may put it that way. She called it in, and set it moving about her chair, herself the nucleus around which were enacted all sorts of small neighborhood dramas and romances. Her secretaries did not marry. She married them.

It is curious to look back and remember how Herbert and Sperry and myself had ignored this quality in her, in the Wells case. She was not to be ignored, as I discovered that afternoon.

"Sit down," she said. "You look half sick, Horace."

Nothing escapes her eyes, so I was careful to place myself with the lump on my head turned away from her. But I fancy she saw it, for her eyes twinkled.

"Horace, Horace!" she said. "How I have detested you all week!"

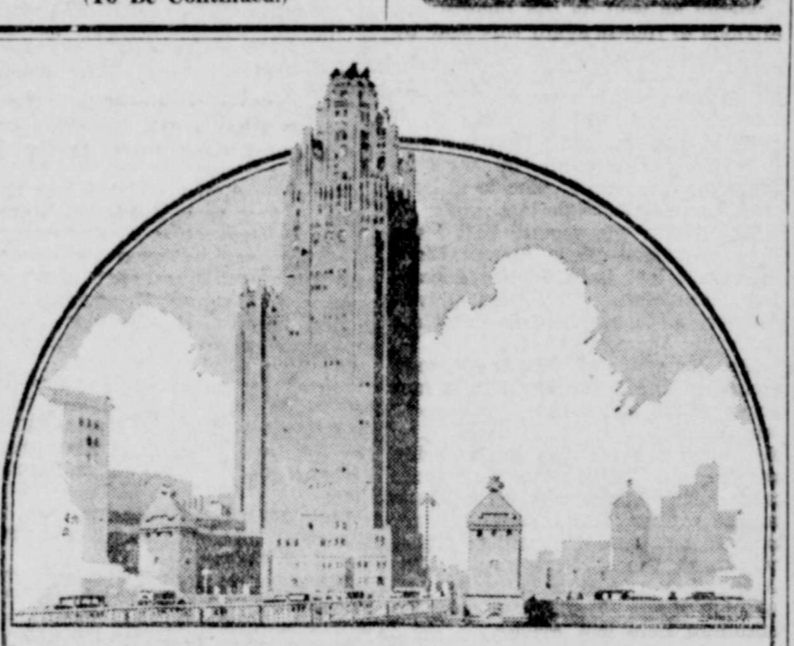

"I? You detested me?"

"Loathed you," she said with unction. "You are cruel and ungrateful. Herbert has influenza, and does not count. And Sperry is in love—oh yes, I know it. I know a great many things. But you!"

I could only stare at her.

"The strange thing is," she went on, "that I have known you for years, and never suspected your sense of humor. You'll forgive me, I know, if I tell you that your lack of humor was to my mind the only flaw in an otherwise perfect character."

Small Borrowing Urged For West Texas By WTCC

"Borrow as little as possible" of this year's federal crop production loans, the West Texas Chamber of Commerce urged farmers of its affiliated territory late last week.

The organization roundly scored the Department of Agriculture for its insistence in sewing up a man's entire production, declaring that under this arrangement it was impossible for the landlord to receive rent and for the local merchant and bank to receive any relief.

"In view of this ruling, therefore, also in view of the greatly improved agricultural condition of West Texas," says the WTCC, "we recommend that it be the purpose of our West Texas committees to use as little as possible of this production loan. In the first place, the need is not as acute as last year; and in the second place, the mortgage requirements are detrimental to your interests. Last year West Texas received a great deal of publicity out of having exceeded all others in paying back the loans. This year, let's put West Texas on the map by borrowing less from the government than any other section.

"The attitude of those in charge of administering the loan in Dallas is to lend \$10,000,000.00 in Texas. This will have to be paid back; and in paying they are paying the government rather than home creditors. Our attitude and our recommendation is: Let's borrow as little as possible on this year's production loan."

High Priced Hog Meat

The blue ribbon ham at the Panhandle South Plains Fat Calf, Pig and Meats show, Lubbock, this week-end, is expected to bring a dollar a pound, in contrast to the market price of four cents. Several Scurry county exhibitors won prizes at the show last year, and others are expected to make entries Thursday and Friday.

Kite Flying Danger Cited by Officials of Texas Electric Co.

A warning to the parents of boys who fly kites was issued Monday by officials of the Texas Electric Service Company, who called attention to the danger that is incurred by kites near electric wires. Serious accidents have resulted from kites becoming entangled in wires and subsequent efforts of boys to get them down.

"Boys should be cautioned to fly kites in open places," the power company officials declared. "If the kites become entangled in the electrical wires, under no circumstances should boys try to get them down. The Texas Electric Service Company will gladly send out trained men who understand the dangers of high voltage electric current to remove the kite.

"Kites with metal frames and the use of a fine wire instead of cotton string are two other great hazards, for if the metal frame or the wire string come in contact with electric wires, serious injuries may result and electric service to a large part of town may be interrupted."

Employees of the power company will visit local schools in the near future with a verbal explanation of the hazards of kite flying.

Miss Doak Goes to Learn New Methods

Miss Doak also attended the three-day Wichita Springs Style Show for Beauty Dressers recently conducted in Dallas. "As a result of attending both of these schools, I have learned various new methods and chic ideas for hair dressing and permanent waving," states Miss Doak.

Mrs. J. M. Doak accompanied her daughter and visited with friends and relatives in Fort Worth and Dallas.

Garner Solid In West Texas, Say Two Snyder Men

The rally of Georgia voters to the president-bound standard of Speaker John N. Garner, Texas, was given a decided boost several days ago when two Snyder men wired Atlanta headquarters of the Garner movement that West Texas was solidly for its native son.

John E. Sentell, county judge, and H. G. Towle, Snyder mayor, telegraphed Judge G. H. Howard, who is running for the nomination in Georgia on a platform pledged to support Speaker Garner for President, as follows: "West Texas solidly for Garner for President. We approve Judge Howard's activity in Georgia, and wish the cause success."

The Georgia campaign for Garner holds added interest for Scurry County in view of the fact that the former Miss Mary Strayhorn of Snyder, daughter of Mr. and Mrs. D. P. Strayhorn, married a son of Judge Howard, and is now residing in Atlanta.

Backing of Garner by the two local men was given prominence on the front page of the Atlanta Sunday American, issue of March 13. Messages were also cited from Governor Ross S. Sterling and former Governor Oscar Branch Colquitt, to show that Texans are behind their favorite son.

A number of county Garner-for-President clubs have been formed in Georgia. L. Thomas Gillen, campaign manager for Judge Howard and Garner, declared that "the South has realized at last that it can cast off the shackles of 75 years and take its rightful place in the nation's government."

Woodmen Will Hold June District Meet
Modern Woodmen of Scurry county will be attending June 1, at Sweetwater, of a West Texas rally for the lodge. Eight candidates compose the district, as follows: Taylor, Nolan, Mitchell, Fisher, Scurry, Howard, Jones and Martin.

Robert L. Vidler, of Dallas, State deputy, and George Hattenbuehler, of Bloomingburg, Illinois, a member of the board of directors of the order, are expected to attend the meeting.

Sunflowers May Be New Income Source
A new source of farm income may be offered Scurry County by the experiences of Runnels county farmers who have been raising sunflowers profitably for several years. Information concerning the plant comes from C. W. Lehberg, county agent at Ballinger.

A pool to buy seed and to encourage acreage is planned by the agent. The seed brings 2 to 3 cents a pound to the farmer, and is used as poultry feed. Runnels county land produces better than 1,000 pounds to the acre.

Mrs. W. W. Cook of San Angelo visited with her parents, Mr. and Mrs. Joe Strayhorn, and with friends here last week. Mrs. Carson Miles, also of San Angelo, was the guest of her sister, Mrs. Forest Sears, last week.

An economy hint worth remembering is to save orange and lemon rinds, and use them to flavor various dishes. They form delicious food flavorings at no cost. The peel may be grated, and yellow portion only being used since it contains the oil cells that give the flavor. Mix grated peel with sugar and store in a tightly covered bottle or jar. Use to flavor cakes, pies, breads, rolls, desserts, fillings and sauces.

10:10 a. m. General S. S. Conference.—O. C. Taylor, Lamesa, in charge.
10:40 a. m.—Election of officers and other convention business.

11:10 a. m. Rev. John Cobb, Rotan School.

County Heads Plan Meet At Midland

Entertainment plans for the convention of the West Texas County Judges and Commissioners Association were practically completed a few days ago by the commissioners' court at Midland, where the session will be held. More than 300 delegates are expected at the meet on April 28 and 29. Judge Tom K. Epley, of Abilene, is president of the organization.

Charley Lockhart, state treasurer, a native of Scurry county, will be one of the principal speakers. Scurry county officials will probably attend.

Brake inspection is your protection. Times classifieds bring results.

Connally Proposes To Reduce Salaries

A five to 15 per cent cut in salaries of all government employees above \$2,000 a year has been proposed by Senator Tom Connally. Meanwhile, a house committee has been working to draft a bill for introduction in that branch to reduce government workers' pay to aid in balancing the budget.

"I am willing that my own salary be reduced, and my bill cuts thousands of dollars annually from the salaries of members of congress and senators," Connally said. "These are unusual and tragic times. The taxpayers are now bearing a tremendous burden."

Fourteen bands competed last year. Snyder musicians, then under direction of Millard Shaw, took second place in the Class B division, with Colorado leading by a small margin. A solo contest will feature the Abilene affair this year, according to Prof. D. O. Wiley, who will be in charge of the tourney.

Snyder Band to Be Entered At Abilene

The Snyder High school band, which has shown marked improvement recently under direction of Homer F. Springfield, will probably enter the West Texas high school band contest, to be held at Simmons University, Abilene, on April 30, under auspices of the Cowboy band.

... at Easter and you know it's worth the price . . .

When you "Say It With Flowers" at Easter, you know it's worth more than the cost in money. Whoever receives the flowers will probably never forget your thoughtfulness and consideration. But think of electric service. Think what it will mean to your family to have any or all of the electric appliances pictured below. Like flowers at Easter, they are all worth far more than their cost in dollars and cents. Electricity is cheap—use more of it.

Black-Draught

"If I got constipated, I would get dizzy and have swimming in my head, I would have very severe headache."

"For a while I thought I wouldn't take anything—maybe I could wear out the headache; but I found they were wearing me out."

"I found Black-Draught would relieve this, so when I have the very first symptoms, I take Black-Draught and now I don't have the headache."

"I am a firm believer in Black-Draught, and after using it 20 or more years, I am satisfied to continue its use."

THE DORR'S Black-Draught

WOMEN who are run-down, or suffer every month, should take Black-Draught. Used for over 25 years.
