A program was also given by the singers at the Sunday morning service, and a large crowd was present at that time. It was the evening service, however, that made its deepest impression on the hearers.

Man Lost 26 Lbs. Looks 100% Better

Feels Stronger Than Ever

Just to prove to any doubtful man or woman that Kruschen Salts is the SAFE way to reduce—let us take the letter of Mr. F. J. Fritz of Cincinnati, Ohio, recently received.

He writes: "I've tried extreme dieting, setting up exercises with very little results—but the results from Kruschen are almost incredible. In three months I reduced from 205 to 179 pounds and feel stronger than ever—no more wheezing or gasping for breath. Friends say I look 100 per cent better."

Bear in mind, you fat men, that there is danger in too much fat. Try the safe way to reduce—one-half teaspoonful of Kruschen Salts in a glass of hot water every morning—cut down on fatty meats and sweets—one bottle that lasts four weeks costs but a trifle. Get it at Stinson Drug Company's two stores, or any drug store in the world. D-1

To Voters of the 118th Representative District:

Permit me to say that I am again making an appeal to you for an honest, conscientious and economic administration of the governmental affairs of Texas during the forty-third Legislature. I assure you that your vote and influence will be sincerely appreciated.

Respectfully,
 Itp N. C. OUTLAW, Garza County.

To the Citizens of Scurry County:

I want to thank all the people of Scurry County for the many courtesies shown to me during this campaign. Hard as I have tried, it has not been possible for me to see all of you. I hope all of those I have been unable to see will take this as a personal solicitation, and I know you will understand that it is impossible to see each voter.

Thanking you for your hearty support and influence on next Saturday, I am, Yours sincerely,
 MRS. FRITZ R. SMITH.

Loraine Man Gives Merritt Unsolicited Recommendation

Loraine, Texas, April 14, 1932—This is to certify that I served in the State Legislature during the Fortieth Session and that Mr. Joe A. Merritt, of Snyder, Texas, was a member at that time.

I had an opportunity to observe Mr. Merritt's actions in the House and in his every day life while there, and found him honest, conscientious, energetic and trustworthy. He was at his post of duty at all times, trying to serve his constituents in an honorable way. Mr. Merritt stands well with the members of the House. Having been there several times, he has learned the procedure, and can present a measure in a way that commands their respect. It takes time to learn the rules of the House, but I found Joe Merritt an apt student at all times while there, always alert to everything that was going on. He was considered by the membership as a man who could be depended upon to do the right thing at the right time. He never side-steps an issue, but looks it right in the face, and does what he thinks is right with what information he has before him.

This is being written without the solicitation of Mr. Merritt. Very respectfully yours,
 J. C. HALL, Loraine, Texas.

To Scurry County Voters:

It is a physical impossibility for me to see all of you before Saturday's election, for I have had neither the time nor the money to make a thorough canvass of the rural districts. But I do have a willingness to serve you as county clerk, and I believe my years of experience in work of this nature qualify me for the place.

I pledge myself, if elected, to an honest, efficient and serviceable administration. Your careful consideration of my candidacy, and your influence and vote if you think I will make you a good county clerk, is earnestly solicited.

Very respectfully,
 ELMER LOUDER.

Seeking the Office on Her Qualifications

SENTELL FOR Representative

Vote for him! He is experienced in legislative and state affairs. He not only knows what we need but he knows definitely how to work for what we need. He knows our problems. He is the friend of the masses of the people and knows how to get results. He has told exactly where he stands on public questions, and can be depended upon to fight always for honesty, economy and efficiency in our government. He will ably and fairly represent all of the district. He is 44 years old. He considers public office a public trust. He will appreciate your vote and will prove it by service to the district and to the state. Think carefully before you cast a vote against him. We need qualified men now as never before, and he is qualified.

To the Voters of Scurry County:

I am taking this method of soliciting your vote in the coming election, next Saturday, July 23rd, for the nomination for tax assessor of Scurry County.

The voters will remember I made the race for this office two years ago, but did not receive the nomination in the first primary, but received sufficient encouragement and support to cause me to continue my efforts to obtain this office. Since that time I have worked diligently to improve my qualifications. I have served the City of Snyder and the Snyder Independent School District as tax assessor for the past two years, and my record in that capacity stands for itself.

I am asking for your support not only on my qualifications, but remember that I am continuing the race of two years ago. It has been my intention to see every voter in the county, but owing to conditions,

Dunn Hears Plenty Of Campaign Talks

Dunn played host Thursday night of last week to practically every county candidate, and to the three candidates for district judge. A medium-sized crowd heard the talks from an improvised platform in the business part of town. Candidates for the judgeship were given 20 or 30 minutes for presenting their pleas for votes, while county candidates were given two minutes.

The fact that the political rally was originally scheduled for Friday night prevented a larger crowd from being on hand.

It has been rather difficult to see every one.

Again I want to thank you for your support and assure you if elected will stand at all times in readiness to render the people the service they have a right to expect.

Respectfully,
 BERNARD LONGBOTHAM.

To the Voters of Precinct 4.

As I have been unable to see every voter in precinct No. 4, I wish to take this method of soliciting your vote in the Democratic primary.

Every voter knows that I have been weicher for only one cotton season—a season with a very small crop. The present crop will be much later in maturing this fall, and should I not get to handle the crop after January, 1933, I would realize little financial benefit from the weicher's office.

I am making this race for my second term upon my qualifications, merits and my record last fall, I respectfully solicit your consideration in the coming election.

Sincerely,
 K. B. RECTOR.

Brooks Supporters Campaign In Snyder

Eight fellow townsmen of James T. Brooks of Big Spring, candidate for district judge, were soliciting support for the district's special judge here Friday. They met a number of business men and others in Snyder, emphasizing the qualifications of the man for whom they were making an unsolicited canvass.

The group was composed of W. W. Inkman, Shime Phillips, Frank Jones, L. W. Croft, J. Y. Robb, Cecil Wasson, Bob Cook and E. L. Gibson. Robb and Wasson were members of the World War company that Brooks is said to have organized and taken overseas.

Thomason Here.

Y. L. Thomason, Haskell, candidate for state senator, was making final campaign calls here Wednesday. He said he was confident of entering the run-off with Oliver Cunningham, incumbent.

Sulak Does Not Talk.

The campaign speech of L. J. Sulak of La Grange, candidate for congressman at large, failed to materialize on the Snyder square last Saturday afternoon, as planned. A telegram to Jacob Brom, Scurry County friend of the candidate, stated that Sulak had strained his voice while speaking, and that it was impossible for him to appear here.

NORTH SIDE SQUARE SNYDER, TEXAS

J.C. PENNEY CO., INC.

TO VOTERS OF SCURRY COUNTY:

I am asking for a first regular term as County Judge, not upon indefinite promises, but upon my record for rigid economy and tax reduction.

Since I assumed the duties of County Judge, nine months ago, the running expense of the county, as evidenced by the general fund, has been steadily reduced and taxes lowered. This general fund expense for the year of 1930 averaged \$3,448.78 per month; for the first nine months of 1931, the average was \$2,564.73 per month, or a reduction of \$884.05 per month. For the last three months of 1931 and the first six months of 1932 (my tenure of office) the average was \$1,717.14 per month, or a further reduction of \$847.59 per month. The above figures were tabulated from the records of the County Clerk, which records show a larger percentage of reduction in the running expense of the county for my nine months in office than for any like period in the history of Scurry County.

Expenses have been reduced in many ways, only a few of which space will permit me to mention. Probably of most importance is the fact that we simply quit buying. The enormous charity demands have been held to a minimum by an organization created for the purpose and which could and did make a careful investigation of each charity. The burial situation has been handled by the County manufacturing a substantial and nicely finished casket and furnishing other necessities, thus saving the enormous charges of the undertakers. Two of these caskets are in the basement of the court house, and I invite you to see them.

The Commissioners' Court recently reduced the pay for the feed and care of prisoners from 90 cents per day for each prisoner to 60 cents per day for each prisoner. This reduction is in keeping with reductions made by other counties, and the Court thought the reduction justified since more than half of the families in Scurry County are being fed on less than 60 cents per day. I mention these instances of reduction out of the many for the reason that misstatements have been made concerning them, not by my opponent, but by others.

The Commissioners' Court has just completed its duties as a Board of Equalization and reduced valuations from \$6,985,100 for 1931 to \$5,653,520 for 1932, a reduction of \$991,580, or nearly one million dollars. This is the largest tax reduction that has ever been made in one year in the history of Scurry County. The County could not stand a larger reduction this year for the reason that the bonded indebtedness of the county is, in round numbers, one-half million dollars, which debt is a lien against the County and it cannot be legally or in honesty repudiated. More than 60 per cent of the revenue provided is necessary to pay interest and provide sinking funds. If valuations should be reduced to the extent that revenue would not be provided to pay the County's debts, then the interest will compound and the debts grow larger and the County go deeper in debt. It shall be my policy, so long as I am your County Judge, to keep this County from going deeper in debt and I shall, with the help of the Commissioners' Court, gradually bring her out of debt by rigid economy in expenditures and sound business policies.

If I am honored with a full term, I shall continue to reduce expenses and to lower taxes.

JOHN E. SENTELL.

The Times Creed.

For the cause that needs assistance;
For the wrongs that need resistance;
For the future in the distance,
And the good that we can do.

THE WEEKLY DOZEN.

Pete's Prediction.

Pessimism Pete predicts that the huge ticket facing Democrats Saturday will change election day to election daze.

Remedies for the New Taxes.

Many a wise bird has worked out ways and means by which he can avoid paying taxes to our various governmental agencies. But so far no one has offered a remedy for the tax put on your time and attention by anxious candidates.

Weeds and Johnson Grass.

Farmers are not the only creatures who get fed up on Johnson grass and weeds. Around town the unruly foliage of these pests has been flooding alleys and business district backyards. Now that The Times has rid itself of the greenery for a few days, perhaps we ought to gripe because more of our neighbors don't do likewise.

Last-Minute Campaigns.

The candidate who brings new issues into a race too late for his opponent to make answer is usually deserving of defeat. You can hear words to that effect from many a voter's lips this week. Yet when the showdown comes we allow last-minute campaign spits to effect us more than we admit. Honesty, economy and efficiency are the three yardsticks of a man's or a woman's candidacy. If there is really anything wrong with the candidate, the chances are that it will come out long before the last election week.

Women Will Take a Hand.

We prophecy that women will take a lead hand in the elections which are almost upon us. Their influence won't be felt as much in the first primary as it will be felt in the second; and not nearly so much in the second as it will in the third. Women, or the vast majority of them, are prohibitionists, and they will vote for the party or the men whom they believe will come nearest holding the anti-liquor banner high. Boiled down, the two major parties are as alike as two peas on the liquor question, but it will require some wizard politicking to convince milady.

The West and the South of It.

That old fallacy about East Texas and South Texas getting hotter than West Texas has been revived during the present sunbursting spell in Scurry County. Newspaper reports indicate that the temperature has been only one or two degrees lower, at most, in San Antonio, Austin, Houston and other South Texas points, than it has been in this area. But when you get down in that wooded country, with nothing to strike up a breeze except a sluggish Gulf of Mexico, you will discover that the plains of the West are more comfortable when the dog days of heatdom come.

Ten Million a Year.

Only 24 of Texas' industries produce more than \$10,000,000 in revenue, according to a preliminary report of the Census Department of Texas. The grand total for the state is said to be \$1,450,246,431. Beside figures of Eastern manufacturing states, the output of manufactured products from Texas is small; yet the state is growing by huge leaps in this respect. It is invigorating to note that a few candidates for state office have forgotten their economy and prohibition platitudes long enough to pledge themselves to help give Texas her rightful place in the manufacturing world.

Amateur Music De Luxe.

The male quartet from San Marcos, appearing here twice Sunday, does not pretend to be a professional group, but their songbeauty was well pleasing to the ears of Scurry County people. The voices were remarkably free from the harshness that usually characterizes amateur singing. They kept the attention of people who were drenched in the perspiration of one of the year's hottest days. They brought the sheen of tears to many eyes when "Tell Mother I'll Be There" and other old-time favorites were sung. Music of this nature continues to be America's favorite, despite the inroads of jazz and half-lewd sex songs.

Find Out If You Can.

If you have a divining rod, perhaps you can discover how The Times crew stands on state, county and precinct political questions. Otherwise, you'll have to use your imagination, in case you have an urge to know. With the exception of supporting West Texans for congress-at-large places, The Times has kept its nose clear of political personalities. We have discussed issues from week to week, but candidates were involved only if they happened to be for

Beautiful Yards—And Future.

Snyder's yards and gardens have been a matter of much favorable comment this year, from strangers and from our home people.

Behind the unusual interest in these features of home improvement was the Yard and Garden Contest, begun by The Times and carried forward by a loyal group of women.

The contest, which ended Friday of last week, was a success in every sense of the word. Hard feelings usually arise in connection with such a city-wide affair, but this contest has been particularly free of dissension. There will be disappointments, of course, when the prize winners are read in today's paper, but the sponsors feel that there will be nothing but good wishes for those to whom prizes were awarded by the group of efficient and unprejudiced judges.

The contest was successful, too, from the standpoint of prizes offered by local merchants. The National Yard and Garden Contest Association was so much impressed by the list of prizes that its officers made inquiry concerning ways of obtaining such cooperation from the merchants. Prizes offered are valued at more than \$50.

The Times believes that the contest will have lasting results. We believe that Snyder should become an active participant in the contest for first prizes among West Texas towns showing the most home and yard improvement between now and next spring. The contest, as announced in this week's paper, is being sponsored by the West Texas Chamber of Commerce.

Snyder is one of the prettiest towns in West Texas. If we don't win that WTCC prize, the reason will be simply lack of interest in the contest.

Again we rise to thank all those who in any way contributed to the success of the Snyder Yard and Garden Contest.

West Texans for Congress.

The congress-at-large races are so thickly populated that the average voter doesn't know which way to turn. As a result, many a candidate who is practically unknown will get a number of "luck" votes.

The Times does not wish to pose as a political advisor, but it does wish to call attention to some facts in connection with this all-important race.

In the first place, the state constitution provides that the state be redistricted after each census, if population increases justify increasing the number of congressmen. The state Senate, by a vote of 13 to 11, defeated the redistricting bill. It was nothing more than a "frame-up" of South, East and North Texas against West Texas, for this section would have gotten at least two of the three new congressmen if the redistricting provided by the constitution had been carried through.

The only alternative was for the race to be thrown open to congressmen-at-large candidates, seeking three places. When the state Democratic executive committee decided that each candidate should announce for a specified place, West Texas was given a further jolt in favor of the population centers of the state.

The logical thing left for West Texans to do is to support the West Texans who are seeking congressman-at-large places. Some voters, of course, have a decided preference concerning other candidates, and it is only right that they vote for the candidates of their choice. But those who are undecided would do well to consider the merits of our West Texas friends.

In place No. 1, Pink Parrish is the only candidate from this section. He has made an outstanding state legislator. Mrs. Phebe K. Warner is the only distinctly West Texas candidate in place No. 2. Everyone in this virgin country knows that the farmer and the farmer's wife have no better friend. J. E. Boog-Scott of Coleman County and A. H. King of Throckmorton County are place No. 3 candidates from West Texas. The former is an outstanding cattleman, and has many Scurry County friends; the latter is a long-time worker for the farmer's interests, and was a runner-up for commissioner of agriculture two years ago.

We will make no mistake in supporting these West Texans.

A farmer was passing the insane asylum with a load of fertilizer. An inmate called through the fence, "What are you hauling?" "Fertilizer," replied the farmer. "What are you going to do with it?" "Put it on my strawberries," reported the farmer. "The inmate countered quickly: "You ought to live here. We get cream and sugar on ours."

The choir was rehearsing a new setting on "Onward Christian Soldiers" for the Sunday School anniversary. At verse three the choir-master said: "Now, remember, only the sopranos sing down to 'the gates of hell,' and then all the rest come in."

or against the particular issue involved. The truth of the business is that the six or eight votes involved in the Times families probably will be divided almost as many ways.

Our Farewell Advice.

Candidates dislike advice more than anything else, but we would not be loyal to a time-honored newspaper custom if we did not warn new campaigners to take their medicine with a smile, if they go down with the fortunate majority who won't have offices thrust upon them. As some rough wisecracker has said, one little smile is worth a carload of bile.

Wearing Out the Dial.

There are straws in the wind indicating a growing revolt among radio listeners over the amount of dreary, vulgar advertising patter to which they are forced to listen. The average "sponsored program" (sponsored being radio's Nice Nellie way of saying "paid for") is now only 15 minutes in length, and many protests are being received by the stations from owners of sets who complain that they are forced to keep shifting the dials to avoid hearing things they don't like. If any advertiser has brains enough to give the radio audience one solid hour of good music, with no interruption except the announcement of the station required by law, he could undoubtedly build for himself an enormous good will.—The New Republic.

Hoover Plays Politics.

President Hoover must be credited with playing a minimum of politics during his administration. Such voluptuous warhorses as Secretary Hurley have done plenty of playing for him, but the chief executive has, for the most part, kept his mouth shut when politics was involved. Last week, however, he made a move that strongly smacks of political expediency. We refer to his reduction of salaries for himself and his cabinet members. Our frank opinion is that \$75,000 yearly is a meager salary for the man who sits highest on the world's ladder of political position. Babe Ruth gets that much for knocking 50 or 60 home-runs per year. But Hoover hit a vote-getting chord when he reduced his salary—and November is not so far away.

LETTERS FROM THE PEOPLE
OUR READERS' OUR VIEWS

Explains Murphy Picnic.

The article in The Times about the picnic in the Murphy community on July 4 was certainly a "slam" for this community, and the people here were all shocked and disgusted. We do not blame The Times in the least, but we cannot find out just why it was put that way. We want everybody to know that this little community will try as hard as any to feed its crowds, even though there are just a handful of people around here.

It is seldom, however, that everybody gets plenty to eat at a big picnic at any place, and I really think it advisable for people to always take some lunch when they go, even if it is a free barbecue.

That is what all the adjoining communities did here the Fourth, and there was plenty to eat for everyone, and people felt better and enjoyed the picnic better than if they had been only half fed. We all enjoyed the big crowd and thank the people for being so good and helping out so with the dinner. It surely was good of all of you.

We wish to say to those of you who did not come on account of reading that piece in the paper that we sincerely apologize in the name of whoever put it that way.

In the future, when you hear of a rodeo or picnic in the Murphy community, just consider that you will be welcome and that we will try to treat you right. Sincerely,
Knapp. MRS. W. ED MURPHY.

If you don't get one of the election extras issued by The Times, call at a Stinson drug store Sunday, or at this office during the week.

CURRENT... COMMENT
BY LEON GUINN

Swift to its close ebbs out the campaign speech, and July 23 will find Mr. Average Voter and Mrs. Average Voter "cutting through the brush" of names and finally leaving the name of some candidate on the card, who nine chances out of 10 will be their beacon light. . . . For this year voters will make the pilgrimage to the polls, wearily cast the sure thing vote, and no doubt call it a day by going to the movies. . . . All of which suggests that life's ballot seems to have three divisions, namely, a vote for a wife, a vote for better biscuits, and the vote for crossword puzzle home budgets.

Rising cattle and hog prices indicate that commodity price upping

is in the making. . . . Modern packers utilize the weight of a live hog but 9.38 pounds. . . . Texas cotton acreage is the smallest in 10 years, as only 14,192,000 acres are in cotton, while wheat is falling below par due to unfavorable weather. . . . Senator Reed submitted samples of how the two-cent tax on checks could be evaded when the law was passed, and the evasion method remained in the Congressional Record to aid big check users. . . . And we will exclusively illustrate to Times readers how it is done. . . . Let's take the case of National Dairy Products Corporation.

When they issued dividend drafts to shareholders, shareholders cashed the small dividend drafts at the Bankers Trust Company as agent; Bankers Trust Company obligingly added up the total every day, N. D. P. Corp. would write out a check for the amount, pay the legal two cents . . . which is rather a slick

thing. You understand a two-cent tax on a 50-cent check would be a prohibitive four per cent. . . . According to The Southern Cultivator, published at Atlanta, Georgia, the new quick freezing processes will enable Georgia farmers to ship peaches, etc. to distant markets. . . . And after reading the article, I conclude that Texas farmers and gardeners will have to use the same thing, or else severe inroads will be made on Texas fruits, which are the best in the Southwest.

CHAPTER II.

Bell Telephone Laboratories have the world's most potent microscope. Each wire is wrapped with paper, then a lead sheath. . . . And 1,800 pairs of wires are used in some telephone cables.

They say alone in the moonlight, And she soothed his troubled brow, "Dearest, I know my life's been fast. But I'm on my last lap now."

FERBER'S PRIZE NOVEL IN FILM

"So Big" the new picture starring Barbara Stanwyck, which Scurry County picture goers will have an opportunity to see next Wednesday and Thursday at the Palace Theatre, has been adapted from the Pulitzer prize novel by Edna Ferber, which was not only a best seller when it was published but has gone on selling steadily and largely ever since. It has, in fact, attained a place on the shelf of American classic fiction.

"It seems very important that 'So Big' should be faithfully reproduced on the screen," said Edna Ferber in New York, while Miss Stanwyck's latest vehicle was in production at the Warner Brothers studios in California. "So Big" holds a very special place in my affections, and so many people have written me since it was published, telling me that it holds a special place in their affections, too, that I have long ceased to regard the story as belonging to me alone. It belongs to those people who have loved it, fully as much as it does to me, though I wrote it. I can never think of 'So Big' as I do of most of my other writings. It holds a place apart."

Many Attend Red & White Picnic Held at Buffalo Gap Camp

Red & White stores throughout West Texas were closed Wednesday of this week that the owners of these stores, with their families, clerks and many friends might attend the annual Red & White picnic, which was held on the Presbyterian encampment grounds at Buffalo Gap.

Many forms of entertainment were provided. Wire speeches, music, readings, games of all kinds, plenty of basket lunches in the shades of the giant oaks, and various iced drinks, there was not an idle moment. The large concrete swimming pool, free to visitors, was well patronized at all times. The principal address of the day was delivered by Rev. Service, pastor of the First Presbyterian Church, Abilene. One of the highlights on the program was a baseball game between a Red & White team from Winters and Buffalo Gap. R. & W. won, 3 to 1.

Such gatherings are to be an annual Red & White event, and they feel that the trade will gladly grant them this one day of recreation.

A Coleman band furnished music throughout the day. Twelve hundred and sixty-two visitors were registered at the main entrance to the grounds, while several hundred entered uncounted through another way. It was estimated that about 1,500 men, women and children were in attendance from nine Red & White units.

Those in attendance with members of their families from the Snyder unit were: W. C. Hamilton, Herbert A. Smith, H. P. Brown, Melvin Newton, Sam Hamlett, J. S. Bradbury, Jack Martin, Snyder; Wallace Jones and John A. Stavelly, Fluvanna; L. A. Scott, Dunn, and Floyd Merket, China Grove.

"MY BEST GIRL" IS POSTPONED

Because of the unusually large amount of political news and advertising this week, The Times was forced to omit the eleventh installment of "My Best Girl," the romance of Maggie, the shop girl, and Joe, the millionaire's son.

Judging from word coming to the publishers, "My Best Girl" is proving to be one of the most interesting stories ever printed in The Times.

Watch for the eleventh installment next week.

Greta Garbo Stars In "As You Desire Me" for Three Days

Following close upon the heels of her brilliant success in "Grand Hotel," Greta Garbo makes her latest appearance on the screen in "As You Desire Me," a filmization of the widely-discussed Luigi Pirandello play, which was presented on Broadway last season. The picture will show Sunday, Monday and Tuesday at the Palace Theatre.

"As You Desire Me" is Miss Garbo's seventeenth production in this country, marking the close of her sixth year on the screen since 1926, when she was brought from Sweden to the United States to make her debut in "The Torrent."

George Fitzmaurice, responsible for such cinema successes as "Mata Hari" and "Strangers May Kiss," directed the new Garbo film and is said to have mounted the picture with a wealth of beautiful settings and natural backgrounds. William Daniels, who has photographed all of Miss Garbo's pictures, again was behind the camera, and the star's costumes were designed by Gilbert Adrian, who has achieved an enviable reputation for his ability to create striking gowns for the exotic Swedish actress.

Kat Klawers Licked By Lamesa Sunday

Snyder's Kat Klaw golf team lost to the Lamesa club on the Lamesa links Sunday afternoon. The points stood 29 for Lamesa and 15 for Snyder.

In the first flight Scott and Holcomb lost both individual and foursome honors to Vaughn and Tatum. In the second flight Hill and Kelley won foursome honors over Surface and Lavender, while Hill defeated Surface and Kelley losing to Lavender. In the third flight Boren and Randals lost foursome honors to Smallin and Powell while Randals took individual honors from Powell and Boren losing to Smallin. In the fourth flight Norred and W. F. Cox lost low ball to Hill and A. Cox. Lamesa also taking both individual matches.

Snyder's next match will be with Stanton on the Stanton course next Sunday afternoon.

It Looks Like Rain!
As The Times goes to press at noon Thursday, heavy clouds are draping the sky in all directions, and it appears certain that the three-week dry spell will be broken before the day has passed. In fact, parts of the county have already probably received showers today.

To the Voters of Scurry County:

Because I feel that the people of the county elected me to discharge the duties of the office rather than spend my time out of it, I could not make a canvass of the entire county. In addition to the duties of my office, I am taking care of my old mother, whose health will not permit me to be far away from home long at a time. I am, therefore, taking this method to ask for your support on July 23.

I feel that my need for the office is as great as any asking for it. I have tried to serve you courteously and efficiently, and I want to thank you for support given me in the past. If you think I deserve another term, I shall be grateful for your vote next Saturday.

Your friend,
EDNA B. TINKER.

Postal Workers Get Payless Furloughs

Local postal employees, as well as all others throughout the nation, are feeling the effects of the recent economy bill passed by Congress and signed by President Hoover. Instead of taking a direct cut in salary, however, clerks, city and rural letter carriers are required to take a 30-day furlough without pay, or the equivalent of taking one-twelfth off their salaries.

Postmasters also have received a slash, but in view of the fact that they are not permitted to take furloughs, they were given a straight salary reduction of 8 1-3 per cent.

Sterling Talk Made In Snyder Saturday

A twenty-minute talk in behalf of Governor Sterling's candidacy for re-election was made at the bandstand here Saturday afternoon by C. C. Thompson of Colorado, former county judge of Mitchell county. He was introduced by W. W. Hamilton.

The speaker told of Sterling's business administration, and gave figures to show that he had saved the state thousands of dollars in taxes.

He also cited the wonderful prison system built up by the governor, and defended martial law in East Texas as the salvation of the little producer and the means of saving the state thousands of dollars in taxes.

Brief reference was made to the Ferguson impeachment, withdrawal of federal road aid during the Ferguson regime, and other matters which Judge Thompson said were of public record.

To the Voters of Scurry County:

I wish to again ask the voters of Scurry County to support me for the office of tax assessor in the coming primary. Having been born and reared in Scurry County, I feel that I know something of the wants and needs of the people.

Believing that I am thoroughly qualified to discharge the duties of this office, and promising if elected to do everything in my power to give you the very best service, I ask that each and every voter consider my claims before casting your ballot. It has been impossible for me to meet all the voters. I ask that those whom I have failed to see take this as a personal solicitation.

Assuring each and every one that your support will be greatly appreciated, I am, Sincerely yours,

SEVENTY-FIVE CAST ABSENTEE BALLOTS FOR COUNTY ELECTION

Unusual Interest in Away-From-Home Voting May Reflect Heavy Polls Saturday.

About 75 absentee election ballots were filed with Mrs. Mabel Y. German, county clerk, yesterday afternoon, and several more are expected. Tuesday at midnight was the deadline for mailing absentee ballots.

The unusually large number of absentee voters may reflect an intense interest in the polls Saturday, and many observers are saying that a larger percentage of those who have paid poll taxes will vote than ever before.

Absentee voters already recorded are as follows: R. H. Noles, Horace Holley, Marie Casey, W. M. McMath, J. O. Hamilton, J. R. Brown, Pauline Jones, Mr. and Mrs. H. F. Rogers, Walla Fish, H. N. Sterlin A. Taylor
TAX ASSESSOR
SCURRY COUNTY

Candidate for Re-Election
To the Voters of Scurry County:

After about four months' work making the 1932 assessments, I have been very busy with my office work.

Being your assessor, and with the responsibility of carrying on the duties of the office, I have not had the opportunity of being out a great deal. However, I made an effort to see each voter at the time I was working outside and solicit your support. I am sure that the voters of our county understand my position, and trust that you will appreciate my attitude, that is, to first take care of the duties of the office to which you have intrusted me. If I have not seen you, you will kindly accept this as a personal solicitation for your support.

There are just a few things that I would like to mention. During my tenure of office I have personally carried on the work of the office, using but very little help. In doing so I have endeavored to do so in a pleasant, honest, courteous and business-like manner. I sincerely believe that if there is anything I know it is Scurry County and Scurry County folks. I have been on every farm and across every ranch in the county number of times. I have not questioned anyone, but will refer you to the present Commissioners' Court or anyone who ever served on the Court and worked with me as to my knowledge of Scurry County.

I have endeavored to inform myself on our tax situation by attending the Tax Assessors' Convention, where these problems are not only discussed by the assessors but by able men both in and out of the state. Also by personal conversation with the assessors of the different counties, and by reading magazines and all articles treating on tax questions that come under my observation.

Someone has asked the question, "What determines the values of property?" My answer is: Study the tax values of the different counties of the state and try and keep our county in line with values of other counties of the state in accordance with their values—more particularly neighboring counties that keep the state as a whole in mind, as we all send state taxes to Austin; and if you do not you are likely to get your county out of line.

That is one of the reasons I recommended to our 1931 Commissioners' Court to lower our values in place of lowering our county rate. This year I asked for a reduction in our values. I did not get all that I asked for, but compromised on a 10 per cent reduction. Speaking of working with the Court, you will always find me at their service when passing on my work.

There are a lot of things about our tax system that I think should be changed: First, if we are to keep our old system, I think our tax assessors and Commissioners' Courts should have a more systematic and accurate way of arriving at values. Second, I think our Legislature should enact laws shifting the burden of taxes from our real property, thereby encouraging home ownership, which is a very vital thing to good citizenship. In the small counties it is not so noticeable, but in the larger counties and cities there are millions of dollars worth of business and wealth that escape taxation under our present system.

You have made it possible for me to accumulate quite a bit of experience and knowledge in tax matters, more particularly concerning Scurry County. As humbly as I can say it, I do not think that the job belongs to me or that I am the only fellow who can do the work, but I feel that with my past experience I can render you a service in the future better than I have in the past. My services have always been willingly at your command and with pleasure. If you want to honor me with this office another term, my services will continue as in the past, to the very best of my ability.

Thanking you for your vote on July 23, I beg to remain,
At your service,
Sterlin A. Taylor

Gertrude Binion, Correspondent

The weather in our community was warmer Saturday and Sunday than it has been this season. I suppose this is just an echo of sultry days ahead. However, in spite of so much warm weather, more housewives, when asked how their time was occupied the past week have answered, "Canning," than has ever been known to take place in all my experience here. More farmers also have been known to do more haying and threshing as a means of preserving their grain for flour and meal than ever before.

Another thing which is striding onward in spite of the warm weather is the election. Folks, election time is upon us. I am sure you will all be interested in its return. So The Times here is doing a splendid thing by offering a three-month subscription to the Home County Paper for 30 cents. Subscribers will receive the county paper to the middle of October. All those wishing to subscribe please turn your names and addresses over to me and they will be sent in to the office on Tuesday as the news is sent in. Remember, "the sooner the quicker" and no one can deny that this is a bargain for you.

Trucks and Busses Pay Heavy Taxes

—Trucks and busses in Texas pay \$2,675,787 MORE in taxes than the gross amount paid by the railroads. Although trucks and busses constitute only 14 per cent of the total number of motor vehicles registered in Texas, they pay 25 per cent of all taxes paid by all motor vehicles in Texas.

These figures were compiled from the records of the State Comptroller, State Highway Department, State Treasurer, and Railroad Commission of Texas for the year 1929. The records for 1930 and 1931 now being compiled will no doubt show a decided increase in the taxes of the motor vehicles and a reduction of railroad taxes.

LARGE TICKET FACES VOTERS AT DEM POLLS

One Congressman at Large in Each Place May Be Selected by Each Qualified Voter

A sample of the official Scurry County ballot, with all names in their proper order, is printed below. Attention is called to the fact that Rex McCabe of Dallas County withdrew from the race for state comptroller of public accounts, and George W. Armstrong of Tarrant County withdrew from the governor's race, after the ballots were printed.

Each qualified voter may cast his ballot for one congressman at large candidate in each of the three places. Some confusion has arisen on that point throughout the state.

Only one candidate for district judge of the 32nd judicial district is to be voted on. Confusion has also arisen on this point, due to the fact that a special judge is now serving a brief term.

This is the pledge: I am a Democrat and pledge myself to support the nominees of this Primary.

Gainesville Will Be New Home of Ferguson Family

The pastorate of Rev. C. E. Ferguson ended at the Slaton Baptist Church Sunday, and he is moving to Gainesville this week to accept the leadership of the First Baptist Church there.

Pastor of the First Baptist Church here for almost four years, Rev. Ferguson went to Slaton more than two years ago. He was in Snyder Friday on a farewell visit with friends before going to the North Texas city. He stated that his present charge has been pleasant and that his labors with Slaton people were apparently successful.

The Slaton church is larger than the local church, and the Gainesville church is more than twice as large as the one at Slaton. Rev. Ferguson's change of residence is therefore considered a worth-while promotion.

While here, the preacher became noted for his evangelistic spirit and for his ability to win men to Christ. He came here from a pastorate at Stuttgart, Arkansas. He received an M. A. degree from the Southwestern Theological Seminary at Fort Worth and had been a student of Baylor University, Waco, and of Decatur Baptist College, Decatur.

Instructions will also be given in regard to the prohibition referendum election. "Every member of the committee should be present," urges Mr. Townsend.

COL-TEX LOSES TO LOCAL NINE

Col-Tex Refining Company team lost a hard fought game Sunday to Snyder, 6 to 3, at Colorado. Jones, pitching for Snyder, held Col-Tex to six hits, while Snyder garnered eight off of "Deacon" Dorn.

"Blackie" Adams, Snyder first sacker, hit a triple in the seventh to score two men. He also doubled in the fifth with nobody on. Cotton made a circus catch of Scarborough's drive to left in the fifth frame. Snyder missed a triple play by a hair in the ninth.

Murphy Baseball Club Whipped By Local Nine, 3-2

A highly-touted and deeply disappointed Murphy baseball club went back "down on the river" last Friday after being beaten by Snyder in the last half of the ninth frame, 3 to 2. Despite their importing a catcher and a pitcher from the "Red Sox" (Boston, we suppose) they lost.

Snyder club got eight clean hits off Stephens, the imported port-sider.

The locals scored twice in the fifth. Curry was safe when von Roeder dropped his pop-fly. West struck out. Bullock flied out, and Curry went to third when Hollis erred on Cotton's near hit to center. Cotton went to second, and Curry scored on a double steal. Horton singled to score Cotton. Louder grounded out.

Snyder failed to score in the seventh on three hits. Curry led off with a single to right, but West hit into a double play. Bullock singled, and Cotton doubled, but Horton grounded out.

The winning tally came in the ninth. Curry again led off with a single. West singled. Curry went to third when Bullock hit into a double play. Curry scored when Bill Bryant muffed Cotton's hard-hit liner. Then three wild to first.

Fred C. Haile Makes Statement.

Voters of Dickens County and the other five counties, Kent, Stonewall, Garza, Scurry and Borden, of the 118th Legislative District, have an opportunity of sending a man to the Legislature next Saturday that will do not only what he has told them in platform addresses and street talks but will be for the interests of the common people—farmers, ranchmen, merchants—at all times, and that is Fred C. Haile.

Fred, as he is known all over West Texas, has not only proven himself to be a successful business man in the past 10 years, but is a friend to every man, woman and child that he comes in contact with.

Operating the Spur Mutual, the best known mutual insurance association in Texas, and the soundest, he has demonstrated time after time his ability as a business man, friend and helper to those in need of assistance.

A former student of Simmons University and California, where he made his major study history and political science, Fred has continued that study through the years and is today, both by study and contact, one of the best posted men in the state in regard to the operation of the state government, the difficulties facing it, the problems it has to solve and how these problems should be solved for the best interests of you and me, the folks that are now paying for the upkeep of our great state in taxes.

Fred is a Dickens County man. Reared on a ranch near Afton, a resident of Spur, the son of a farmer-ranchman and associated every day in business with every class of people in this district, he knows what the public wants and needs in the way of a man for office; what the problems of the individual farmer are; what the problems of the merchant are; the problems that are facing the day laborer and professional man, and we repeat he has a solution for these problems that the state must solve in the next year.

The government is of and by the people, through their representatives elected by them, and to have the government we want and must have we must elect men that we know will make up that kind of government. Keep this in mind when you cast your ballot Saturday, and remember that Fred C. Haile is the man for State Representative from the 118th District. 1tc
