Side Quit Hurting, Got Stronger, Well; CARDUI Helped Her

Mrs. R. L. West, of Huntsville, Ala., writes: "I was weak and run-down. I had a pain in my side, and I kept losing weight. I was nervous over my condition—was unusual for me, for I am very cheerful when I am well and don't usually get nervous. I knew I ought to take something. My aunt told me I ought to try Cardui, which I did. I began to feel better. I kept it up until I had taken three or four bottles. My side quit hurting and I was soon feeling strong and well."

Card of Thanks.
 After four years of service as city marshal, as my term of office closes I desire to express to my friends and the public generally my appreciation for their generous support and help given me. I have tried to be impartial to everyone in the discharge of my duty while in office. And now that I am seeking the office of sheriff of this county, I pledge my devotion to duty and public welfare, should the people honor me with that position.—W. L. Camp. 1tp

Voters Thanked.
 After receiving such a fine vote of confidence from the people of Snyder Tuesday, I would be ungrateful indeed if I did not publicly express my appreciation. Every citizen may be sure that I shall consider this vote as a belief in my ability to carry out the duties of the city marshal's and tax collector's office with fairness and impartiality. I shall consider it a privilege to serve you, no matter how your vote was cast in Tuesday's election.—J. A. Woodfin. 1tp

Practice Debate Today.
 Both Snyder debate teams, county champions, were slated to appear in chapel at the high school this morning at 10:30 o'clock. But instead of debating visiting teams as their custom has been, they debated each other. Tomorrow they go to Sweetwater to take part in the district meet.

State Candidate From Red River County a Guest

A quite unknown but quite determined candidate for governor was a visitor in Snyder Friday of last week. He is Edward K. Russell of Annona, Red River County, who greeted a number of local citizens. The candidate has devoted all his life to farming and kindred businesses. He is a live stock raiser and believes strongly in raising the best grades of live stock and farm produce. He is the originator and is now the breeder and raiser of Russell's improved cottonseed. The pamphlet summarizing his platform gives emphasis to the spirit and methods of President Roosevelt's recovery program, including that for agriculture. Mr. Russell is "unilaterally opposed to repeal of the prohibition amendment to our state constitution." He favors a revolving fund, under government administration, for relief purposes; home ownership through crop rental from the government, reduction but not erasure of the ad valorem tax; full payment of all teacher salaries; encouragement of legitimate business; further improvement of our prison system, reformatory of state constitution; improvement of eleemosynary institutions; betterment of the present condition of the laboring classes.

Four Attend Plains Livestock Showings

Four Snyder men were in Lubbock last week to attend the annual South Plains Quality Meat Show. They are W. R. Luce, Herman Darity, J. R. Joyce and Harrie Winston. One of the heaviest displays—the best—on the records of the show was reported by the local attendants. Fine crowds were there to see the entries and varied program.

Easter Program at M. E. Church Here

The special Easter program presented at the First Methodist Church Sunday morning was well attended and warmly appreciated. After a piano prelude, "The Day of Resurrection" was sung as the worshipal hymn. The call to procession was given by the pastor, and the invocation, the doxology and reading of Psalm 118 by the pastor followed. Responsive readings came next. A brief Easter sermon preceded a special Easter offering.

CONOCO INTRODUCES A Remarkable new MOTOR OIL

Its lower consumption and greater protection to motors proved by the most convincing test ever made!

THIS new oil has a tremendously increased "film strength"—and a penetrative oiliness to always protect your motor. The "Hidden Quart" never leaves a dry spot or a bearing without lubrication—it resists dilution—and eliminates much trouble caused by carbon and sludge.

New and Improved Conoco Germ Processed Motor Oil excels in the most convincing test ever made, under the supervision of the AAA Contest Board.

IN presenting New and Improved Conoco Germ Processed Motor Oil you are furnished facts of performance. You will at once be convinced of the direct value of this new oil. A test so dramatic, so honest, that it will go down in history!

This test was held at the Indianapolis Motor Speedway. The Contest Board of the American Automobile Association supervised all details, thus assuring an unbiased opinion. Six new regular stock cars were delivered direct to them. They tested and measured each to obtain an equal condition in all.

Six brands of motor oil, of the same S. A. E. grade, were used. Five of them, all purchased by the AAA on the open market, were nationally known, widely recognized leaders. The other one was New and Improved Conoco Germ Processed Motor Oil. All cars were then carefully broken in for 2500 miles. Five quarts, a new and complete fill, were put in each car and the crank-cases sealed. Then the real battle for supremacy began. The cars were driven for as long as the motors continued to operate.

Here are the results: Oil No. 4 quit at 1713.2 miles; Oil No. 6 quit at 1764.4 miles; Oil No. 5 wrecked the motor at 1815.9; Oil No. 1 ceased its lubricative protection at 2266.8 miles; and Oil No. 3 at 3318.8 miles.

New and Improved Conoco Germ Processed Motor Oil carried on to a total 4729 miles! Over three thousand miles farther than the first oil to go out, and over four hundred miles farther than the final oil of the five!

It is the Germ Processing principle, only used by Conoco, that won the test. This "Hidden Quart" that lubricates all parts at all times—that stays up in your motor and never drains away. Drive into a Conoco Station or Dealer for a fill. You are getting the most in lubrication value that money can buy.

NEW Air-Cooled ELECTROLUX
THE SERVEL Gas REFRIGERATOR

It is our sincere belief that the New Air-Cooled GAS Refrigerator has more to offer you than any other refrigerator. It costs less to run, because a tiny gas flame circulates a simple refrigerant. Ordinary air from your kitchen cools it. It is perfectly silent because it has no machinery, motors or other parts to wear. Only the GAS Refrigerator can offer you all these advantages.

Electrolux offers you many other conveniences in addition to those big advantages . . . ice trays that release at the trip of a trigger . . . split shelves to accommodate large bottles and roasts . . . temperature regulator that speeds freezing and defrosts without stopping . . . and many other modern features that the busy housewife wants.

For Country Houses, Too
The Gas Refrigerator operates in the country also, with STRAGAL. Ask about it for farms and camps.
