

Boy Scout School Will Start Tuesday of Next Week For County Men

Business Men and Others Invited by Four Patrol Leaders to Enroll in Training Classes.

At least 82 business and professional men, along with men from Dunn and other Scurry County points interested in Boy Scout work, are expected to be enrolled in the scout training school that starts Tuesday night at 8:00 o'clock above Winston-Clements.

The American Legion and the Lions Club, sponsoring organizations for the two troops of Boy Scouts to be organized here, have named four patrol leaders for the school, as follows: W. R. Luce, R. L. Williams, Melvin Newton and Warren Dodson. Each patrol leader has the task of enrolling at least eight men in his patrol.

The school will be conducted along the lines of a Boy Scout meeting, with an outdoor camp to climax the school on the last night of the six-night school. R. L. Williams of Sweetwater, executive of the Buffalo Trail Council, will be instructor. He will teach the fundamental principles of Boy Scout work, including knot tying, signaling, first aid, citizenship and campcraft.

Reports from the patrol leaders yesterday indicated that more than 20 men have already been definitely lined up for the school.

The second class will be held on Thursday night of next week, and subsequent dates will probably be April 26 and 27, and May 1. Certificates will be given those who complete the course.

Mr. Williamson is completing a school this week, at which 40 men from Pecos, Wilbarger, Garza, Heston and McManis were attendants.

Reid, Sweetwater; Rev. F. S. Rogers, Brady; Rev. Ben Parker, Breckenridge; Rev. J. A. O. Wood, Albany; Rev. B. O. Wood, San Angelo; Beulah Carter, San Angelo; Mrs. W. B. Gordon, R. S. \$129.60 Donated By County for Hunters

Among bills passed by the Commissioners' Court at its regular session Monday were 15 for rabbit drives for a total of \$129.60. The court recently voted to give one box of shells out of every three used on county drives and a stated figure.

The commissioners spent most of their time Monday and later in the week in working out projects for the use of money provided through the new relief act. Upwards of \$50-600 in work has been outlined, although Judge R. H. Carnute and the commissioners admit that they have no idea how many man-hours they will be allowed.

The court authorized opening of a new road, half mile north of Dunn, branching from Highway No. 161.

Survivors are Mrs. Norton and four children, Robbie, Norma, Oma and Lona; his father, Alva Norton of Beaver City, Nebraska; his mother, who was accompanying him here; one brother, Vivian Norton, of Beatrice, Nebraska, and a number of other relatives, most of whom live in Nebraska.

Unusually Heavy Vote In Trustee Races Saturday

Voting on one end of the county to the other was heavier than usual in the trustee balloting Saturday.

Snyder, with no competition for either of the three vacancies, was an exception to the rule. Only 27 voters here cast ballots for A. C. Preult, G. H. Leath and Edgar Wilson, all of whom were candidates for the places to which they had previously been appointed.

Ninety-one Pecos citizens turned in a record vote, despite muddy roads. R. N. Garrett, Lynn McGlothlin and D. Z. Hess were elected out of a field of seven candidates. Garrett succeeds Shelby Adams, while McGlothlin and Hess were re-elected. The four other members of the board are Dave Ammons, Jim Light, A. Coldevy and J. W. Young. Following are the voters: Garrett, 71; McGlothlin, 57; Hess, 39; J. A. Reed, 18; B. J. Clecker, 15; E. N. Cummins, 9. A. C. Preult received all the 91 Pecos votes in his at-large race on the county board.

At Fluvanna, where 89 voters went to the polls, W. H. Jones, M. B. Noel and T. J. Rea were elected. Eight names were on the ticket, as follows: H. C. Flournoy, J. R. Truss, R. B. Willis, L. A. Haynes, Guy Turner, Rea, Jones and Noel. J. M. Pritchard, recently appointed to the board, is a holdover member. Ira voters selected G. R. Newman, who received 26 votes, and A. H. Kruse, who received 23. J. P. Jourdan received 16. E. A. Kruse took 15, and T. C. Devenport's total was 14.

Preliminary returns indicate that M. B. Hamilton was re-elected to the county board place in Precinct 1 over Frank Wilson, A. C. Preult won the place in Precinct 2 over practically no opposing votes, and L. A. Haynes of Fluvanna was practically unopposed in Precinct 2.

Returns from all precincts will be available next week, after official tabulation.

SCHOOL CHIEF IS REFLECTED

The local school board makes the following announcement concerning recent reelection of C. Wedgeworth as superintendent of schools for the eighth year:

"During the past seven years the Snyder school has ranked high with other schools of the state under his supervision. Mr. Wedgeworth is to be praised for the excellent work the school has made both in higher education and improvements to the school building and grounds. Much of the credit goes to him and citizens of this district appreciate the untiring effort which he as superintendent has made in bringing such school to such a high standard of efficiency in the past seven years."

At Least One Acre Of Sudan Suggested Per Head of Stock

With plenty of land for living at home in the form of retired cotton plant at least one acre of Sudan grass for every horse and cow on the farm, it is pointed out by extension service specialists at Texas A. & M. College. March, April and May are the chief months for planting the greatest of all Texas grazing crops, the Sudan. At least one-eight acre of Sudan should be planted for each hog, and at least one-fourth acre for each sheep. Sudan pasture should if possible be fenced hog-proof to get the most out of it.

Sudan grass does better as a rule if planted in 2 to 3 foot rows at the rate of 5 to 10 pounds of seed per acre. The land should be prepared as for corn, cotton or grain sorghum. An ordinary planter with a sorghum plate is satisfactory for seeding the crop. The grass should be kept free of weeds by shallow cultivation until it is ready to graze which is when the grass gets 15 to 18 inches high. When the grass gets truth and starchy it may be renewed by mowing.

YOUNG PIANIST PLACES FIRST

First place in her division went to little Miss Virginia Preult Saturday, when the daughter of Mr. and Mrs. A. C. Preult competed in a piano contest at Abilene. She was entered in the group of children up to nine years of age.

Virginia will represent District No. 6 of the Texas Federation of Music Clubs, under whose sponsorship the Abilene contest was conducted, at a state-wide contest to be held in Galveston on April 24. Mrs. Elmer Sprays is her teacher.

Don't Forget That Band-Boys Picture

"The Cat and the Fiddle" is coming to the Palace Theatre tonight (Thursday) and tomorrow night, under the sponsorship of the Snyder High School Band. Half of the proceeds from all tickets sold by the band members and other students will remain in the band treasury. The money will be used late this month to pay expenses of the band, about 30 strong, to the West Texas band contest at Abilene.

Buy your tickets from a band boy or some other student if you want to give the fine musical organization a helping hand.

SPRING COURT TERM PROVING NEAR WASHOUT

Second Week Petit Jurymen Go Home; Grand Jury Leaves After Few Indictments.

The three-week spring term of district court is proving a near washout.

It's not because court attaches are not ready to take the bits in their mouths, but because cases are scarce, and most of the cases that you find on the civil and criminal dockets are those slow-moving affairs that can be held up by a microscopic technicality.

The second-week list of prospective petit jurymen took oath Monday morning, but they were told a few minutes later that they would not be needed.

Oil Cases Settled.

So far, Judge A. S. Mauzey has held the scales of justice in a few civil cases, and the most important cases have been settled by arbitration. An agreed judgment has been entered in the oil case of Seifert vs. Dibble. In the case of Seifert and others vs. Owen-Scott Oil Company, involving the recovery of the Murphy oil well near Ira, an out-of-court bargain has likewise apparently been struck.

The grand jury returned several indictments at the close of its Tuesday session. Jess Dixon, charged with possession for sale and sale of intoxicating liquor, was indicted because an error was discovered in the indictment of the grand jury last fall. He is under \$10,000 bond. Teodoro Cisneros, Mexican, who admitted to officers that he shot and killed another Mexican here several weeks ago, was no-billed for murder.

Three pool hall indictments, one at Snyder and two at Hermleigh, were turned over to the county court.

Desperado Indicted.

Luke Trammell, West Texas desperado, was indicted, with J. B. Stevens, for alleged burglary of the Santa Fe pool house last fall. Bonds were set at \$1,500 each. Bob Newman was indicted on a charge of theft of an automobile during the winter from Alvis Simmons. His bond was fixed at \$750. Raymond Hartford and J. V. Dodd were indicted jointly for alleged theft of casing from the Davis oil well location in Northeast Scurry County. Bonds of \$750 each have been posted.

Court officials state that next week, which closes out the term, will find few cases to come before the court from the criminal docket.

The third-week jury list follows: Fred Wasson, J. O. Stinson, John L. Webb, G. D. Bart, T. A. Echols, E. P. Lovely, Roy Stevins, J. E. Hanson, W. R. McFarland, C. E. Eastman, C. F. Landrum, Hugh Taylor, A. W. Arndt, Gay McGlath, J. E. Chapman, Luther Morrow, John Keller, H. E. Hicks, W. O. Moore, W. M. Nichols, Clyde Reed, J. W. Eades, R. B. Glass, C. L. F. Sterling, Joe Wilson, L. H. Johnson, E. M. Mahoney, Jackson Ellis, Jim Merket, Roy Brown, C. M. Ainsworth, E. E. Glass, L. S. Murrays, J. A. Dunn, Giles Bowers.

Special Invitation Extended by Church of Christ Minister

O. D. Dial, minister of the Church of Christ, makes the following announcement in regard to Sunday services:

"The Church of Christ extends a cordial invitation to the entire public, regardless of religious affiliation, to attend its services next Sunday. Special sermons, or lectures will be delivered by the local minister, and he especially urges that you come. Much has been said by a minister of the denominations of our town, both from the pulpit and privately, concerning the use of instrumental music in the worship of God, and some claims and charges have been made that are calculated to mislead the untutored, therefore we deem it necessary to inform the public of these matters. To this end the following subjects will be discussed: Sunday morning, 'Two Minutes' Sunday evening, 'Why We Do Not Use Instrumental Music in Our Worship.' Please understand that this will not be an abuse of others who use mechanical instruments in instead of worship, but in the negative, 'Why We Do Not Use It.' The minister, with the entire congregation, takes this method of especially urging you to come and be with us and study these lessons."

Enter the Hero! He'll Be Coming to School Soon

"Enter the Hero," by Ray Hodges, a farce comedy in three acts, directed by Mrs. Hilton Lambert, will be presented in the high school auditorium Friday night, April 29, by the high school faculty.

The cast includes: Adelaide Melnot, ingenue lead, Miss Maurine Cunningham; Muriel, Adelaide's best friend, Miss Elizabeth Ward; Emma Bumstead, Muriel's aunt, Mrs. J. P. Nelson; Betty Chatterton, a close friend and neighbor of Adelaide's, Miss Mattie Ross Cunningham; Al-las Usher, an athlete very much in love with Adelaide, W. W. Hill; Della Clark, another close friend, Miss Effie McLeod; Jasper McInolt, Adelaide's father, C. Wedgeworth; Joe Diggs, a life saver and very much in demand, R. L. Williams; Lance Davis, Robbie's chum, Red Moore; Robbie Sawyer, the hero, who is supposed to be quite an athlete, W. F. Cox.

The scene is laid in a summer resort near a lake where Adelaide meets the man she loves—Robbie. Her father, an athletic fan, is opposed to the match until he learns that Robbie is a renowned athlete.

The other two library programs were "Follywood Revue," presented by the grammar school faculty, and "The Toreador," presented by the choral and glee clubs. A nice sum has been realized, but the library stocks have not yet been fulfilled yet. An intensive book-selling campaign is beginning this week.

C. L. Devenport Is Death Victim After Short-Time Illness

C. L. Devenport was taken by death Monday morning at his home in Southeast Snyder, following a brief illness. He was 59 years of age. Final rites were conducted at the First Baptist Church Tuesday morning, with Rev. Cal McCashey and Rev. T. L. Nipp officiating. Odom Funeral Home was in charge.

Mr. Devenport moved to Snyder two years ago from the Union community, where he farmed. He was born in Johnson County, moved to East County at an early age, and later to Fisher County, whence he moved to Scurry County several years ago. He became a member of the Missionary Baptist Church at the age of 14, and had been a deacon since 1922.

Survivors are Mrs. Devenport; nine children, five girls and four boys, two brothers and two sisters, all of whom were present; and nine grandchildren.

Fellow deacons were pallbearers, as follows: N. M. Harpole, H. L. Wren, M. Stacy, Giles Bowers, Harvey Shieler and H. E. Eliand.

Paint for Water Tower.

Workmen have just completed painting the water tower in Southwest Snyder. Aluminum is the color. Some water patrons have complained of the fluid tasting "funny" this week, but city dad is glad to assure them that no poison has been dropped inside the tank.

W. J. ELY GETS CALL AS WTCC LEADER AGAIN

W. J. Ely was renominated as West Texas Chamber of Commerce director from Snyder at a call meeting of the local Chamber of Commerce board of directors Monday night. Formal election to the place will be made at the annual WTCC convention at San Angelo next month.

The directorate decided to open the delayed drive for local memberships next Tuesday morning at 9:00 o'clock, with R. H. Odem, membership chairman, at the helm.

The campaign was delayed three weeks ago because of the community-wide epidemic of pneumonia and other diseases.

Harrie Wanstun, president, and other Chamber of Commerce leaders believe that business and professional men of the town have been so thoroughly "sold" on the organization that the drive will be largely a matter of contacting every prospect.

The time campaign teams that were appointed recently will serve Tuesday.

Southland Casings Recovered Sunday By Snyder Officer

J. A. Woodfin, new city marshal, went into action just after he had taken office.

In addition to enforcing traffic regulations and attending to minor offenders, he made a haul Sunday morning of 30 stolen tires and two men alleged to have stolen the casings Saturday night from automobiles at Southland.

Learning of the Southland robbery from W. W. Headstream, Ira gin man, who operates a gin at Southland, Mr. Woodfin, with the assistance of G. H. Leath, was on the lookout for Garsa County officers who discovered an Oklahoma car, with a tire-filled trailer attached, parked just north of the square.

The two car occupants were taken in tow when they emerged from the Bon Tom Cafe, Garsa County. Practically all the tires were identified by Southland automobile owners.

New Tabernacle At Old Pioneers Cemetery

Thanks to the hard work of the cemetery committee and many others of the community, and to a few donations of money and materials, the Pioneers cemetery has a new tabernacle to replace the one that had been on the grounds for a number of years.

The cemetery trustees ask the Times to express their appreciation to all those who assisted in any way in erecting the tabernacle.

Twenty Students in Home Town Contest

Snyder jumped into the West Texas Chamber of Commerce "My Home Town" speaking contest this week with 20 entries, and business men jumped to their support by offering \$18 in prizes to the three top students in the local contest.

Students have already begun work on their five-minute speeches, according to reports from the high school, where each contestant is in charge of a sponsor. Definite plans for holding the preliminary and final contests will be announced in a few days.

The speech of each student must be original, and the contestant must be a bona fide high school student this current school year.

The home town declamation contest has developed into one of the features of the annual chamber convention, where the top winner from each town appears in competition. The assembly will be held May 14, 15 and 16 at San Angelo this year.

Eighth Grade Girl Writes Best Essay

The young lady from the Ira school—Verna Aubry—who won first placing in the essay writing contest for Class B high school at the district meet in Sweetwater last week is an eighth grader—a freshman, if you please.

It was not only by mere chance that this 13-year-old girl who lives "way down near the river" at the end of one of the school bus routes, took the only first place in literary events for the county, aside from the Hermleigh one-act play contest. Two years ago she was junior essay winner in this county, and apparently her good work has just begun.

Her prize winning essay topic in the district meet was "Sounds I Like to Hear at Night." In the county meet she wrote on "My Pet Animals."

HERMLEIGH TO HAVE NEW P. M.

The appointment of W. C. Fargason as Hermleigh postmaster, authorized some time ago by the first assistant postmaster general, was approved several days ago by the post office department.

The appointee, a long-time merchant and community leader, received the appointment out of a field of 15 seekers for the place. He has not yet been notified as to the beginning of his term.

Miss Pearl Vernon is Hermleigh postmaster now.

Woods and Bullock Speak to Teachers On Education Plan

L. A. Woods, state superintendent of public instruction, and A. A. Bullock, chief supervisor of rural schools, were speakers to a group of Nolan, Fisher and Scurry County teachers who gathered in Sweetwater Saturday. A banquet was held at the Blue Bonnet Hotel.

The two car occupants were taken in tow when they emerged from the Bon Tom Cafe, Garsa County. Practically all the tires were identified by Southland automobile owners.

ONE ACT PLAY CAST REPEATS

"A Message From Khufu," Hermleigh's entry for Scurry County in the district one-act play contest at Sweetwater Friday, completed its conquest by taking highest laurels. On the previous week-end, the play had won top ranking in preliminaries. In the run-off, it defeated Sweetwater's entry, "Highness."

Peter Nachlinger again won highest individual honors among the boys for his interpretation of Ben Hur. His friends were adding new laurels for him as he built a refrigerated display case for his grocery on the northeast corner of the square that would do credit to an experienced cabinet maker.

Rabbit Drives Slow Down in Springtime

The coming of real spring—improving time—means that rabbit drives in this area are near the stopping point.

Several sections were driven just southwest of Knap Friday, with 34 guns and a kill of about 500 rabbits. Bebel and part of the Hermleigh area had fairly successful drives. Turner had a big kill yesterday, it was reported.

THE WEEKLY DOZEN

Just One Good Reason.

Presidential Pete says the only reason some candidates have for running for office is that some candidates are running for office.

Ignoring Precedents.

All human progress has been made by ignoring precedents. If mankind had continued to be the slave of precedent, we should still be living in caves and subsisting on shell fish and berries—Viscount Phillip Snowden.

After the Baby Show.

The biggest news about Abilene's approaching baby show will probably never get into the papers—unless bloodshed as well as wordshed follows in the wake of irate mothers whose youngsters fail to get silver loving cups.

The Finishing Touches.

Let us put the finishing touches on Spring Fire Prevention Clean Up week by having our cans and other trash ready for the collectors. A little clean-up today may prevent a big fire tomorrow—and it will undoubtedly hoist community pride a number of notches.

A War to the Finish.

Managing editors of the Associated Press decided at the end of 1933 that the national war on kidnappings was one of the ten biggest stories of the year. Let us pray that at the close of 1934 they may look backward and call war on open sale of firearms to gangsters one of this year's leading stories.

A Perfect Lady.

"A perfect lady," says the Corsicana Daily Sun, "never chews tobacco in public or shoots any man unless he is her husband." We might add that a perfect lady, by the same yardstick, never goes to church unless she has some new gowns to wear and another lady's new gowns to look upon.

A Convention City.

Snyder may not be a convention city from the standpoint of auditoriums, paved streets, mammoth hotels and unique attractions ("assets that are heavily burdened with debt in most localities"), but she has enough hospitality and genuine solidarity to make amends for these lacks. Delegates to the district Parent-Teacher Association convention to be staged here April 27 and 28 will make this pleasing discovery if Snyder performs as she has in the past.

Ford vs. Cadillac.

Accident's play such a dangerous part in the lives of almost every American family that it is well to ask the why question, and to answer it truthfully. The facts seem to show that it is not so much a change in the care and competence of drivers as it is a change in the horsepower of motors. Ten years ago the horsepower of a Cadillac was not as much as the horsepower of a Ford today. Roads, lights, traffic regulations, drastic driving laws—and horse sense on the part of drivers—need reformation before we will be able to keep pace with this increase in horsepower.

Applauding the New Deal.

Says the Jacksonville (Florida) Times-Union: "The situation in Texas has undergone a great change in the year just past. Cotton was selling in Texas at 6 cents a pound in March, 1933; today it is about 12 cents. Petroleum, selling for 50 cents a barrel last spring, and in May going down to 25 cents, is now one dollar a barrel with excellent promise of stabilization. Texas is applauding the New Deal, and has great hopes of its success." But the fondest New Deal realization, Miss Florida, is that faith and upward looking, as well as hope, have begun to spring eternal in the Texas breast.

It Is No Accident.

It is no accident that city voters went to the polls last week and polled more ballots than they had ever done before. Personalities entered into the balloting, yes, but above all there was the undercurrent of keen election interest that is destined to spread throughout the state before the Democratic primaries have run their course. Candidates who get very far must see more voters than ever before. May the God of justice watch over every voter's shoulder and see that he casts his ballot with at least 50 per cent of the horse sense he uses in everyday business. Thus we can be assured of a marvelous set of officials for the coming biennium.

"Why God Made Peanuts"

One of the outstanding success stories that might be told to budding high school graduates comes from the Kansas City Journal-Post: "A distinguished native of Missouri visited New York City the other day for 24 hours, in which time he spoke twice at New York University on 'Why God Made the Peanut.' It is safe to say that Dr. George Washington Carver, negro scientist of P. K. State Institute, knows more about that subject than anybody else in the

How to Talk About Scurry County.

The Texas Weekly for April 7, called the New Deal Train Edition, carried an article on "How to Talk About Texas." Peter McVeyneaux, editor, a nationally known economist, suggests that Texans should begin talking of industrial progress and of the use to which the state is putting her natural resources, instead of her mammoth size, for which God alone is responsible.

"The very size of Texas," opines the Weekly, "the natural advantages of its geography and the varied character and abundance of its resources, together with the relatively small development that has occurred to date, in spite of breath-taking advantages in certain lines, make it incredible that progress will not be resumed as soon as general conditions improve. . . . It becomes plain that talking about Texas may be made exciting as well as interesting. The prospect in so many directions is indeed exciting. And it is a rapidly approaching prospect."

The Dallas publication relates a number of surprising facts to show that Texas really has something to brag about. For instance, Texas is the leading spinach producing state. . . . one farm in Zavala County had a greater acreage of spinach in 1932 than the total acreage of the second spinach producing state, Virginia.

Perhaps most children and a few grown ups would not brag much about this spinach item, because of their personal antipathy to the food, but certainly every man, woman and child can find plenty of things to be braggy about without wearing the size angle entirely threadbare.

Scurry County could take some lessons from this Texas Weekly slant on the state as a whole. We are accustomed to talking loud and long of our cotton yields, of our three highways, of our football teams and our other headline features. Outstanding as these "big" features might be, from a publicity standpoint, they are almost meaningless unless we give them a future-looking slant.

It would be much more beneficial to talk much of the per-acre yield of our best farmers than to spend so much time on cotton quantity. Highways are not much good unless we put Scurry County on the map as a suitable place in which to rest and enjoy life and hospitality; to stop and become a citizen. Football teams are worth more in the long run as youth trainers than as community upbuilders.

Our soils are producing many things besides cotton. Our schools are producing many things besides football teams. Our truck farms, our little poultry farms, our purchased cattlemen. . . . they are providing something for the future, something that cannot much be measured in dollars and cents and tallyhoos.

Scurry County is rich in natural resources, some of them yet to be discovered. It is rich in transportation facilities, rich in prospects for small factories and canneries. It is up to its citizens to prove to the world that these riches await far-sighted men and women with capital, energy, or both.

EDITORIAL OF THE WEEK

WHAT THE MOTOR CAR PAYS

We wonder if the people who drive cars realize how much they contribute to the greasing of the government's wheels. The Texas Tax Journal in a recent issue gives the sources from which the state derives its revenues. It will be a surprise to know that the gasoline and license tax largely exceed the entire tax received from all ad valorem taxes. For 1932 the state taxes received from all sources of property (ad valorem) amounted to \$24,175,000. That same year the gasoline tax brought into the state treasury \$28,213,020 and the car license tax brought in an additional \$3,639,619, making a total of \$31,852,639. In other words the owners of motor cars paid \$7,664,639 more to run the state than all the lands, houses, railroads, factories and every other kind of real estate. And in addition to this, more than two million dollars were collected on oil royalties owned by the state and from taxes on crude oil. Then Uncle Sam came in last year with a tax of 1 1/2 cents a gallon on gasoline, and while we do not have the figures on what this amounted to, it was certainly more than \$10,000,000 from Texas alone. And then the national government puts a heavy tax on new cars and the states makes you render your old car for taxation.

It would appear that motor vehicles pay more than their part of the burden of the government. But heaven only knows what would become of us if we didn't have this source of taxation. And the driver of a car very often gets the idea that the rich contribute the money to carry on the government, whereas the figures show that the owner of a car, on an average, pays \$47.16 in all the forms of taxation he has to pay.

It is right and logical that the motor vehicles should pay for the keeping up of the highways but here in Texas one-fourth of the gasoline tax goes to the school fund. The schools, of course, must be maintained but its hardly fair to impose this burden on only a part of our citizens.—Marshall News-Messenger.

world. He has discovered 285 uses to which the peanut may be put, besides eating it on railroad trains and feeding it to elephants at the zoo." Dr. Carver was born in slavery near Diamond Grove, Missouri, about 1864.

Collecting and Spending.

Round figures show that during the last fiscal year the state collected from all revenue sources \$94,000,000; and at the end of the year its total deficit was approximately \$9,000,000 more than it was at the beginning of the fiscal year; which simply means that during the year 1933, the expenditures of the state amounted to \$103,000,000. These blunt figures from C. A. Jay of Dallas might have a potent effect on the coming Democratic primaries.

Students from Scurry County won more literary honors at the district meet this year than they have won in some time.

As told elsewhere, the Harmelich one-act play cast won first place. Viola Autry of Ira ranked first in her division, the class B high school essay writing contest.

The girls' debate team from Snyder, composed of Estine Dorward and Geraldine Longbotham, advanced to the finals against Abilene to go to the finals against Abilene to get probably the highest ranking ever obtained by a Scurry County debate team. They lost the decision by a two-to-one judges' vote in the final contest Saturday night. In what many listeners said was the most closely contested debate of the year in this district. They won from Wylie and Sweetwater in the preliminaries.

Leslie Kelley and Roland Bell Jr., members of the boys' debate team, also made themselves a place in the meet, advancing to the semi-final round before elimination by Abilene in the semifinals, after drawing a bye and then winning from Peacock, 3 to 0. The Abilene decision was 2 to 1.

Lions Vote To Set Aside \$50 To Buy Glasses For Scurry County Students

Snyder Lions set aside \$50 Tuesday at noon to be added to their "blind" fund, which is used for the purchase of glasses for Scurry County students. This amount will supplement more than \$10 already placed in the fund by the "tail twister," who collects 10-cent fines at the regular meetings for various breaches of etiquette.

The blind committee, composed of Herman Drby, Dr. H. G. Towle and Dr. J. G. Hicks, reported that it would begin at once to find needy students with defective eyes who will be recipients of the several pairs of glasses made possible by the fund of more than \$60.

Program Varied.

The cast was: York Murphy, villain and announcer; Bob Hamilton, father, Peewee Wilsford, heroine; Jack Darby, hero. The scene was laid in the northwestern corner of Berden County.

Guests of the day included members of the Hermleigh one-act play, district winners, and their coach, Miss Mickle Carroll; Elmer Taylor, superintendent of the Ira school, and Miss Viola Autry of Ira, first place district winner of the Class B high school essay writing contest. Members of the Hermleigh cast are Peter Nachlinger, D. R. Layman, Jack Watson and Gordon Stevenson.

BLACK-DRAUGHT For CONSTIPATION

"I am 71 years old and have used Theodore's Black-Draught about forty years," writes Mr. W. J. Vanover of Rome, Ky. "It is never without it. I take it as a purgative when I am bilious, dizzy and have swimming in my head. Black-Draught relieves this, and helps me in many ways." Keep a package of this old reliable, purely vegetable laxative in your home, and take it for prompt relief at the first sign of constipation.

Thousands have Ended their Bowel Worries by taking this advice!

Can constipation be safely relieved? "Yes!" say medical men. "Yes!" say the many thousands who have followed their advice and know.

You are not likely to cure your constipation with salts, pills, tablets, or any of the habit-forming cathartics. But you can correct the condition by gentle regulation with a suitable liquid laxative.

THE LIQUID TEST:

First: select a properly prepared liquid laxative. Second: take the dose you find suited to your system. Third: gradually reduce the dose until bowels are moving of their own accord.

Simple, isn't it? And it works! The right liquid laxative brings thorough bowel action without using force. An approved liquid laxative (one which is most widely

Used for both adults and children is Dr. Caldwell's Syrup Pepsin. It is a doctor's prescription, and is perfectly safe. Its laxative action is based on senna—a natural laxative. The bowels will not become dependent on this form of help, as in the case of mineral drugs.

Hospitals and doctors have always used liquid laxatives. The dose can be measured, and the action controlled. Pills and tablets containing drugs of violent action are hard on the bowels.

If there are children in your household, don't give them any form of laxative, but use a healthful, helpful preparation like Syrup Pepsin. Its very taste will tell you it is wholesome, and agreeable to the stomach. Delightful taste, and delightful action: there is no discomfort at the time, or after. Ask your druggist for Dr. Caldwell's Syrup Pepsin, all ready to take.

GINNERS HEAR COTTON CHIEF AT AREA MEET

Several Scurry County Operators Attend Texas Cotton Ginners' Convention at Dallas.

Several Scurry County ginners, along with delegates from all parts of Texas and from several adjoining states, met at the annual convention of the Agricultural Adjustment Administration, who spoke Friday during the Texas Cotton Ginners' Association convention at Dallas.

"Last year's cotton adjustment program was the first chapter in the book of controlled production," Mr. Cobb declared. "We know that it turned chaos and disorder into order and contentment. That it gave farmers a new grip on life, and that it enabled thousands of farmers to lift themselves, as is commonly said, by their own boot straps."

He said that last year's program was a good beginning for farmer and ginner alike, and that the cotton belt liked the results so well that it asked for a continuation of some sort of controlled production. "That request was granted, and this spring sees the opening of the second chapter in the book of controlled production," continued Mr. Cobb.

Other outstanding speakers at the meeting included J. E. McDonald, Texas state commissioner of agriculture; G. M. W. Arnold, president of the Mississippi Ginners' Association, and W. S. Pope, casualty insurance commissioner of Texas.

New officers of the organization are: President, Hal Yakey of Agua Dulce; vice president, Aubrey L. Lockett of Vernon; secretary-treasurer, John C. Thompson of Dallas. "The outstanding thing in last year's program was cooperation," the cotton chief emphasized, "cooperation from practically everybody in the cotton belt. I know some of you were opposed to these programs at the beginning, but you understood, you took a progressive attitude that was marvelous. And I want to thank you for it. When we all cooperate and pull together nothing can stop us."

"You couldn't have hired enough men to plant, or played up 10,000,000 acres of cotton against their wishes. But with their determination to cooperate, you couldn't hire enough to stop them. So I repeat there is strength in cooperation. And our first duty is to cooperate among ourselves that we are going to support the 1934 reduction program, and the ginners' agreement and then stick to it."

Marketing Agreement Given.
Outlining purposes of the new era of cooperation Mr. Cobb said: "One of the things we are striving for is quality lint. And in view of the fact that it takes adequate and properly operated gin facilities to produce the best lint, it seems to me that it would be to the ginner's own interest to support the ginners' marketing agreement that is now before your industry. "That ginners' agreement proposes to eliminate cut-rate competition. It proposes to insure a fair price for ginning. To charge so much a hundred instead of so much a bale. And finally, it provides for a self-governing organization which permits ginners to work out their own problems, and to even decide their own service charge as long as the charge is fair and reasonable. A combination of this year's limited crop and the ginners' agreement should enable us to turn out a real quality crop this year.

"America has a reputation for producing good cotton and for producing beautiful crops for export. The way to hold that reputation is to produce a quality that is second to none, and in amounts that will insure producers and ginners a fair price for their services."

COUNTY AGENT NOTES

Not Many Come Under May 1 Option Rule.
Newspaper notices to the effect that cotton options must be exercised by May 1 apply only to those who have not done anything with their options. In other words, those who borrowed \$30 per bale from the government or sold their options outright are not affected. The ruling will affect a very few Scurry County farmers, and the holders of only about 90,000 bales throughout the nation.

Government reports show that about 1,550,000 bales have been placed in the option pool which drew the \$30 per bale advance.

"Vegetorials" Given by Extension Horticulturist.
Several garden pointers have been given the agent by the extension horticulturist.

Best yields of cabbage are said to come from planting 14 inches apart in rows 36 inches apart. First plant butter beans, says the A. & M. man, using the Henderson Bush variety as a bush type and the Florida variety for the pole or climbing type. The ground is not warm enough to plant the vine crops, such as squash, cucumbers,

cantaloupes and watermelons. To insure a stand of these plants, mix equal parts of rotted manure with the soil for covering the seed.

Every garden should have a few plants of hot pepper and a full row of sweet pepper. California Wonder is an excellent variety of thick walled sweet pepper. Eat a pepper instead of a cough drop for colds.

Expert Tells How to Grow Tomatoes Successfully.
In answer to an inquiry from the county agent, J. P. Rosborough, extension service horticulturist, has given some pointers concerning tomatoes and beans that bloom and then fall to set fruit. "This condition is due to a lack of pollination in the blossoms of the fruit," he writes. "Dry atmospheric conditions during the middle part of the summer prevail and this prevents the pollen in the flowers from germinating. The result is that the blossoms shed."

Mr. Rosborough suggests that some varieties are found to do better than others under West Texas conditions. Eschiana and Juno Pink are recommended. The small cherry type tomato is said to bear all summer in this section.
