

FIFTY BANKERS EXPECTED FOR CONVENTION SATURDAY

SINGERS TO BE IN SNYDER FOR TWO DAY MEET

Saturday Night and All Day Sunday Sessions Planned for Semi-Annual Gathering.

Scurry County singers, along with many from adjoining counties, will gather at the city tabernacle here Saturday night and all day Sunday in semi-annual sessions of the county singing convention.

Special interest centers in this meeting because of the fact that officers for the new year will be selected.

Emmett Butts of Snyder is convention president. He urges all classes to bring their books.

Walter Holmes is vice president. Mrs. Connie Smith is secretary, and Walter Dever is chaplain.

At the last business session it was decided that Snyder would be the central meeting place for all convention meetings.

Special guests will include S. E. Clark and daughter of Abilene and S. B. Summers of Lubbock.

Heavy Fire Damage For Walter Holmes

A fire of undetermined origin brought several hundred dollars worth of damage to Walter Holmes, who resides northwest of Snyder, Thursday of last week.

Flames that started in the barn roof completely destroyed that structure and the lot fence.

Mr. Holmes asks The Times to express his appreciation to the friends and neighbors who have been so helpful since the loss of this property.

Dunbar School Will Close Friday Night

Closing exercises for the Dunbar colored school will be held by the intermediate department Friday evening of this week, at 8:00 o'clock.

Featuring the closing exercises will be a comic opera in two acts, "The Sunbonnet Girl."

The public has an invitation to attend. Reserved seats will be set aside for white visitors.

FRED WOLCOTT LEADS IN THREE RUNS TO CINCH DISTRICT TITLE

Tigers Nose Out Abilene With Half Point to Spare in Thrilling Track-Field Event.

"A slender blond flyer, Fred Wolcott of Snyder, broke the finish tape three times on Saturday to boost the Tigers' total enough to give his team-mates the district five track and field championship by the bare margin of one-half point.

Continuing, the Abilene paper said: "Wolcott started out by taking the 100-yard dash in 10.7 seconds, and he returned a few minutes later to capture the 220-yard low hurdles after a close battle with Neil of Big Spring.

Rotan, favored to win the meet, was shoved to third place, with 18 1/2 points. Hawley, with a one-man team named Laramore, took 14 points.

Rotan, favored to win the meet, was shoved to third place, with 18 1/2 points. Hawley, with a one-man team named Laramore, took 14 points.

Two new district records were set at the meet. Elvie Stagner of Colorado overcame the handicap of a slight south breeze to cover the half-mile distance in 2:05.2, lowering his old mark of 2:05.4 set in 1932.

Heavy Attendance Promised for P.-T. A. Meeting

Winners of Four League Districts Going to Abilene

Scurry County winners in district interscholastic League events at Sweetwater during the past two week-ends will go to Abilene Saturday to compete for regional honors—semi-final to the state finals at Austin next month.

The regional contests are being held for the first time this year, the Abilene region including four of the state districts, those centering around Sweetwater, Breckenridge, San Angelo and Brownwood.

From this county will go a team of Tigers that won the district track and field meet Saturday; two Fluvanna boys who won six points at the same meet; the Hermiech one-act play cast; first-place district winners; Viola Autry, first-place Class B essay writing winner; Myrl Gary of Dunn, second-place winner in senior boys' declamation; Sanford Thompson of Camp Springs, second-place winner in junior boys' declamation, rural schools.

Most contests will start at 9:00 o'clock Saturday morning. Track and field events will be held at the Abilene High School stadium this hour; essay writing at the high school, 10:00 o'clock; one-act play contest, Saturday night at 8:00 o'clock (drawing at 6:00 o'clock).

All league contestants and faculty sponsors will be served free lunch at the high school cafeteria. An admission fee will be charged for track and field events and for the one-act play contest.

Farmer Baby Victim Of Pneumonia Siege

As the result of a six-weeks' siege of pneumonia and whooping cough the 11-month-old son, Cecil Roy, of Mr. and Mrs. G. W. Farmer, died at the home Saturday night.

Funeral services were held at the family residence in Northeast Snyder Sunday afternoon, with Rev. Philip C. McGahey officiating. Odum Funeral Home was in charge, and burial was made in the Snyder cemetery.

Little Misses La Trice Roper and Opal Ikard were flower girls and Opal Ikard, Hiram Roper, were acted as pallbearers.

Survivors include the parents and seven brothers and sisters, all of whom were present for the funeral. All the brothers and sisters live here with the exception of one married sister, Mrs. George Wendland, of Miles.

Homes Needed for P.-T. A. Visitors

A ringing appeal to Snyder citizens who wish to assist with entertainment of delegates to the district P.-T. A. convention was made early this week by Mrs. Hugh Taylor, chairman of the homes committee.

Visitors are to be given "bed and breakfast"—bed, on Friday night, April 27; breakfast, Saturday morning.

Advance reports indicate an attendance of at least 150 women. "In order to reflect the true Snyder hospitality, we must have homes arranged well in advance," Mrs. Taylor said.

These having accommodations for one or more delegates are urged to get in touch with Mrs. Taylor, Mrs. R. H. Odum, Mrs. R. J. Randals, or Mrs. W. C. Hamilton, members of the homes committee.

Scout School to Hold Its Second Session Tonight

Second session of the Boy Scout leaders' training school will be held in the First Presbyterian Church basement tonight at 8:00 o'clock.

The patrol leaders, W. R. Lacy, R. L. Williams, Melvin Newton and Warren Dodson, anticipate an attendance of about 40 men.

At the first session, on Tuesday night, 20 men braved the whipping elements to take part in the opening session. The surprisingly large attendance for a stormy night was pleasing to A. C. Williamson of Sweetwater, area Boy Scout executive, who is instructor for the course.

Fundamentals of scouting are being taught—and practical training, as Mr. Williamson promised in the beginning, are not only being given but such as scouts themselves must learn in order to join the boys' organization, but they are having plenty of fun in doing it.

Brief talks, naming of temporary patrols, knot tying and games were chief elements of the Tuesday night meeting.

Definite dates for the remaining four nights are to be set tonight. It is probable that two will be held next week, two the following week.

Men of all ages are being invited, whether they ever intend to become active scout workers or not. The patrol leaders report that more than 40 men have definitely stated that they will attend the Thursday night session thereafter. Five or more attendances is necessary before a man can obtain a certificate for completion of the course.

The training school is preliminary organization of two Boy Scout troops, one under sponsorship of the American Legion, the other under the Lions Club.

Delegates from Clubs To Federation Return

The group of Snyder club women who attended the Seventh District Federation convention at Amarillo Monday, Tuesday and Wednesday of this week returned Wednesday night.

A detailed account of the happenings at the convention will appear in next week's Times.

Palace Enlarges

The Palace Theatre, Snyder's leading show house, is lengthening its present location, and will soon be capable of handling larger crowds.

Manager P. W. Glend and announces that he will have complete details ready for publication in a few days.

B GOLF SQUAD DOWNS ROTAN

"B" golfers from Snyder took the church congregation Sunday night by Mmes. J. M. Doak, A. P. Morris and Willis Rodgers concerning their trip to the state Sunday school convention at Fort Worth last week.

Reports were brought to the church congregation Sunday night by Mmes. J. M. Doak, A. P. Morris and Willis Rodgers concerning their trip to the state Sunday school convention at Fort Worth last week.

Albert Greenway, J. T. and Fred Trice are proprietors of the new auto service station just opened two blocks west of the square on Twenty-fifth Street. It occupies the former Nichols & Trice gin stand.

The young men, well known to Scurry County folks, invite their friends to drive their automobiles to the station for gas and oil, accessories and repair work. All-night service will be given.

FIRST REPORTS FROM DISTRICT GIVE IMPETUS TO LOCAL PLANS

Advance notices from towns and cities of the 14th district indicate that the 24-county Parent-Teacher convention to be held here April 27 and 28 will have a minimum of 150 attendants.

This news is encouraging members of the local Parent-Teacher Association to put forth even greater efforts to make the convention a red-letter event in district history.

In carrying out the convention theme, "The Child and His Community," Mrs. William Dings of Texas Tech, Lubbock, will speak on "Training for Leisure." Dean D. M. Wiggins of Simmons University will talk on "The Child and the New Era."

Other leading speakers will be Mrs. J. M. Drain of Claude, fourth vice president of the state congress of P.-T. A.'s and director of public welfare; Mrs. A. C. Surman of Post, state third vice president and director of extension; and Mrs. H. F. Godeke of Lubbock, state parliamentarian.

Entertainment features are headed by Mrs. John Eichelman of Hermelich, soloist; High School Choral Club numbers; music by High School Orchestra; opera; "The Treaders," girls' and boys' choral clubs; Charles S. Owens, soloist.

Clubs in the district are as follows: Bailey, Lamb, Hale, Floyd, Moley, Cottle, Cochran, Yoakum, Gaines, Dawson, Borden, Scurry, Fisher, Jones, Heckley, Lubbock, Crosby, Dickens, Terry, Garza, King, Lynn, Kent, Stonewall.

Convention sessions will begin on Friday morning at 10:00 o'clock, and will end Saturday afternoon about 3:30 o'clock.

Business sessions of the convention will be presided over by Mrs. Jas. B. Day of Rotan, president of the district organization. Other district officers are: Recording secretary, Mrs. John R. Dean of Sudan; corresponding secretary, Mrs. J. R. Strayhorn of Rotan; historian, Mrs. A. C. Surman of Post; parliamentarian, Mrs. H. F. Godeke of Lubbock.

In addition to speeches, various social events, and business sessions, the convention will headline: An exhibit room containing posters, record books, yearbooks, and general P.-T. A. literature; conferences on practically all phases of P.-T. A. activity; the planting on the high school campus; and a question box conducted by Mrs. Crain.

The social calendar. The social calendar includes a board of managers' luncheon at the home of Mrs. H. J. Brice Friday at 12:00 o'clock, with Mrs. J. W. McCooch of Post as honor guest; lunch at the same hour, school cafeteria, for all tea honoring delegates and visitors at the home of Mrs. J. C. Stinson Friday evening at 5:00; luncheon at the First Methodist Church Saturday at 1:00.

Publicity Brought By Home Towners

Snyder is receiving widespread publicity because she has already entered 20 students in the "My Home Town" speaking contest, sponsored annually by the West Texas Chamber of Commerce.

Replying to a Times letter concerning the school's and business men's support of the contest, Maury Hopkins, manager of the contest, says that it is to meet in San Angelo May 14, 15 and 16, has this to say:

"Your letter is the kind that makes the convention manager very happy, and we are taking the liberty of giving your home town contest in Snyder widespread publicity.

"I sincerely hope that you will be successful in your ambition to have the largest Snyder delegation at the San Angelo convention."

Key members will breakfast at the Barrett Hotel at 7:30 a. m. Monday. President Joe Mills of the Colorado club will call the meeting to order at 9:30. The morning session will be climaxed with model lunches at 12:00 by the Midland, Lubbock and Plainview clubs.

The afternoon program, beginning at 2:00 o'clock, will feature report of District Governor Del W. Harrington of El Paso, entertainment features, and an address by Sam Braswell of Clarendon, director of Lions International.

A barbecue at Ruddick Park will open the evening program at 6:00 o'clock. A stunt program by various clubs, including Snyder, will be held immediately thereafter, and a dance at the American Legion hut will follow at 9:30 o'clock.

A president-secretary breakfast and a tail twisters' breakfast will be held at 7:30 o'clock on Tuesday morning. A varied program will follow from 9:30 to 12:00, when a banquet will be served at the Hotel Colorado, followed by concluding business sessions.

The vacationers included Misses Charline Kincaid, Alma Alice Casey, Hazel Pollard, Margaret Miller, Tommie Reed, Pauline Jenkins, Mittie Idellah Crowder, Hazel Holcomb, Virginia Will, Allene Garner, Katie Dorfman, Helen Caudle, Vera Gay Arnold, Mary McCarty, Louise Ely, Elizabeth McCarty.

Richard Davis, W. T. Falls, Jack Darby, W. H. Shuler, Jeff DeShazo, Corwin Patterson, John Blakey, Bob Hamilton, Delmus Perry, Leslie Kelly, Royce Eiland, York Murphy, Maurice Burdett, and the four sponsors.

Bill Crowder has come to town from the Ira county. And he has arranged to take care of the eating requirements of his friends from his home community and other sections when they come to town.

His friends will find him behind the counters at a new cafe in the Harrell building on Twenty-fifth Street, just east of Hand-Dandee No. 2. The sign at the front reads: Bill's Cafe. Good food, good cooking, good service—that's what he says the folks will get when they come in.

Participation of every city and town in West Texas in the many-sided program of the sixteenth annual convention of the West Texas Chamber of Commerce at San Angelo May 14 to 16 is being sought by the regional chamber's officials and the San Angelo general arrangements committee.

It is on such a knotty problem that the Young Democrats will chew at 8:00 o'clock Tuesday night when they gather in regular monthly session at the district court room. Open discussions will be the order of the meeting, according to President Herman Darby of the county group, who believes that a large crowd will be on hand to bite at the subject with genuine constructive thought.

Miss Sturdivant is taking the place of Miss Glennie Moschel, who was recently transferred to Abilene.

Monthly Pains Relieved

Women who take CARDUI have found that severe monthly pains have been relieved and that by continued use of it for a reasonable length of time their strength has been renewed and their general health improved.

"I am glad to speak a few words for Cardui, the medicine I have taken for a weak, run-down condition, for bad pains in my side and back and for irregular periods," writes Mrs. Ray Chandler, of Cassata, Ala. "Cardui straightened me out and I felt 100 per cent better. It certainly helped me."

"Thousands of women testify Cardui benefited them. If you do not benefit YOU, consult a physician."

Why Liquid Laxatives are Back in Favor

The public is fast returning to the use of liquid laxatives. People have learned that the right dose of a properly prepared liquid laxative will bring a perfect movement without any discomfort at the time, or after.

The dose of a liquid laxative can be varied to suit the needs of the individual. The action can thus be regulated. A child is easily given the right dose. And mild liquid laxatives do not irritate the kidneys.

Doctors are generally agreed that senna is a natural laxative. It does not drain the system like the cathartics that leave you so thirsty. Dr. Caldwell's Syrup Pepsin is a liquid laxative which relies on senna for its laxative action. It gently helps the average person's bowels back to regularity.

The Very Latest

8108—With or without ruffles, irresistible pretty in either way—and so easy to make in soft batiste, dotted Swiss or crepe. Also nice for velvet without the ruffles or for cotton prints. For taffeta, with or without the ruffles.

The short waist portions are lengthened by full skirt portions that are finished with a ruffle. The arm ruffles are attached to the drop shoulders of the waist. A sash of ribbon or material ties in a nice bow at the back.

8094—In a frock like this housework is almost a joy. The skirt has straight lines but enough width for comfort. A broad, revers-collared outlines the deep V of the fronts, and a small vestee squares the neckline. There is a choice of sleeves—a long sleeve with a band cuff—and a short sleeve trimmed with an upturned cuff.

Cotton prints, rayon, pongee, tub silk or light weight wools, also plique or linen may be used for this style.

Musical Coterie Has Its Monthly Meeting.

Mrs. Roy Stokes and Miss Ora Norred were hostesses to the Musical Coterie and guests last Thursday afternoon in the home of the former. The program was "Study of Symphony," with Mrs. Stokes as leader.

Miss Norred gave Andante from "Surprise Symphony" by Hayden; Allegro from "5th Symphony" by Beethoven was played by Mrs. A. C. Preullit; and the leader gave the story and illustration of Largo from Dvorak's "Symphony of the New World." A three-voice choral number, "Goin' Home," was beautifully given by Mrs. Hugh Boren, first soprano; Mrs. A. C. Preullit, second soprano; and Mrs. Walla Fish, alto, with Mrs. W. C. Hooks as accompanist.

The hostess passed a lovely pepperoni ice with angel's food cake to the following: Mrs. W. Norred, Mrs. Harold Enfield of Hollywood, California, and Miss Ethel Mae Sturdivant, guests; and Mmes. W. C. Hooks, Melvin Blackard, Walla Fish, A. C. Preullit, W. W. Smith, Roy Stokes, W. W. Hamilton, J. E. Sentell, Homer Snyder, Hugh Boren, J. E. Hardy, J. R. Sheehan and Elmer Spears, club members.

Mr. and Mrs. Jones Entertain Friends.

Mr. and Mrs. Willard Jones were host and hostess to friends Monday evening with a dinner party. The house was beautifully decorated with varied colors of tulips, which were also in the center of each of the three tables.

After dinner the following enjoyed games of forty-two: Mesars. and Mmes. Walla Fish, Alfred McGlaun, J. C. Smyth, A. A. Bailey, A. R. Porter and the host and hostess.

Rundown, Nervous?

Mrs. Martha McLasky of 1112 Spring St., Shreveport, La., said: "Some years ago I was rundown and in need of a tonic and nerve. I can still vividly remember the wonderful benefit I received from Dr. Pierce's Favorite Prescription. I do not care to go into details about my symptoms, and I do not care to say, I can cheerfully recommend the 'Prescription' to any ailing woman."

J. R. Cornelius of Sweetwater In Race For Attorney Place

J. R. Cornelius of Sweetwater announces this week as a candidate for district attorney. George Outlaw, also of Sweetwater, has been the only announced candidate for the place now held by George Mahon, who seeks the 19th district congressional post.

Mr. Cornelius was appointed as district clerk at Sweetwater in 1927 by the late Fritz R. Smith of Snyder, then district judge. He served at that post until January, 1933. He did not seek re-election. During his tenure of office as district clerk, he passed the state bar examination, and has been a practicing attorney since his clerkship ended. He has specialized in criminal law. After his return from army service during the World War the Sweetwater man taught school in Mitchell and Nolan Counties.

Stating that he has no platform except "doing the right thing, with law enforcement as his prime objective," Mr. Cornelius says he expects to see as many voters in the district before primary time.

We wonder whether the college professor who assembled and classified 667 "known annoyances" included the person who collects useless statistics.

CLEVELAND . . . Edison E. Oberholzer, Superintendent of Houston, Tex., schools, is the new president of the National Educational Association. He was born at Patrickburg, Ind. and is 54 years old.

Mahon's Supporters Pass Through Town

Enthusiastic Colorado supporters of George Mahon, candidate for Congress from the new 19th district, are making weekly rounds of the 25-county area in an effort to acquaint voters with their favorite son. Five of the traveling Mahon-salesmen were in Snyder Thursday afternoon after calls that day in Jayton, Chalmers, Girard, Spur, Dickens, Crosbyton and Ralls. The group included B. L. Templeton, J. Ralph Lee, Rev. Wallace Jones, Smiley Merritt and Earl Bibbee.

Debt Committees Doing Good Work In Saving Farms

County farm-debt adjustment committees are doing fine work in saving the homes of worthy farmers from foreclosure, according to the Farm Credit Administration. "These committees are saving little about the good they are doing, and the public needs to know more about their efforts," an administration report reads. "The central thesis, however, that most debt cases can be adjusted best by conciliation rather than by hasty court action is rapidly gaining approval."

The Scurry County farm-debt committee is composed of Ben P. Smith, chairman; Joe Stinson, J. L. Carroll, Giles Bowers and J. O. Dodson. The chairman reports that a number of farmers have been aided through the county committee, and that others are invited to take advantage of the opportunity, possibly to save their farms from foreclosure.

It is pointed out that this service is organized to aid the farmer in distress and to see that the creditor interests are justly protected. Cases where the debtor is in distress will not be considered by the committee.

The 39 states which are now organized to deal with the farm-debt problem report that more than 1,900 county committees have been officially appointed. That means four out of five agricultural counties.

In a New Orleans court a man was charged with abusing his team and using loud and profane language. One of the witnesses was an old negro. "Did the defendant use improper language when he was beating his horses?" "Well, he talked mighty loud, sah."

"Did he include in profanity?" "The witness seemed puzzled, so the lawyer put the question in another form. "What I mean, Uncle Sam, is did he use words that would be proper for a minister to use in a sermon?" "Oh, yes, sah," the old man replied with a grin, "but they'd have to be 'ranged in different order.'"

CANDIDATE

Walter Wordal, veteran member of the Texas Senate from Harris County and chief of the law-enforcement body during the past session, is a candidate for lieutenant governor. He expects to visit Snyder during the campaign.

Entire Fluvanna Faculty Elected By New Trustees

In a called meeting of the Fluvanna school board last week, the entire faculty, headed by Superintendent E. O. Wedgeworth, was re-elected for the school year 1934-35. The superintendent was named for the sixth consecutive year. Under his leadership the school has been housed in a new modern plant, has taken in several smaller schools by affiliation, and has received affiliation with higher institutions of learning.

E. H. McCarter Jr., principal, has also been with the school for several years. The other faculty members are as follows: Miss Genevieve Wilhite, English and Spanish; Buford Browning, science and agriculture; Charles R. Gotes, history; Lee E. Beaver, English and geography in grades; Chas. Line Tarter, third grade; Mercedes Robertson, second grade; Myrtle Turner, primary.

Following are the school board members, including those elected 10 days ago: E. W. Lemus, president; T. J. Bea, vice president; W. H. Jones, secretary; J. G. Landrum, assistant secretary; H. H. Haynes, M. B. Noel, Mert Patterson.

When Martha was visiting in Oklahoma, she was giving some illustrations of the size of Texas. "You can board a train in the state of Texas at dawn," she said impressively, "and 24 hours later you'll still be in Texas."

"Yes," said one of her Oklahoma listeners with feeling, "we've got trains like that here, too."

County Superintendent Asks School Patrons to Insure Full 1934-35 Term

Frank Farmer, county superintendent, asks The Times to make the following statement to patrons who are interested in maintaining a high standard for their schools during the 1934-35 term:

Under the new program set out by the State Department of Education each unaccredited school should be so classified by the county board to insure an eight-month, or an eight-month term as possible, on its own resources. This will enable all rural pupils to get to an affiliated school if the patrons of the schools will support the program, and transportation facilities will permit. The state is offering to pay \$2 per pupil per month for transportation to all high school students who attend an affiliated school or a school of a higher rank.

This is not to be forced on any district that does not want it, and that has ample resources to have the desired length of term. We are asking that the trustees of the various schools of the county meet with the county board in the near future to discuss such classification.

I am taking this means to ask the patrons of the schools of the various districts to let their school board of trustees know their wishes in regard to this, that we may the better discuss this phase of the new program. In fewer words, the

Loraine Band To Be In Chapel Tomorrow

The Loraine High School Band, under direction of W. L. Leggett, will play during chapel at the local school Friday morning at 10:30 o'clock. The public is cordially invited, according to Clyde Rowe, local director.

Snyder's band will present a program at Loraine in a few days, under the exchange plan. Mr. Rowe states that the band's sponsorship of "The Cat and the Fiddle" at the Palace Theatre last week netted enough funds to assure the trip to Abilene for contest purposes late this month.

Dollars Grow Where You Plant Them

If you want flowers in your backyard, you plant them in your backyard. If you want a free flow of money in your town, you must spend those dollars close to home. Both of those statements are as true and positive as they can be. You can't have a growth of dollars and industry in your home town unless home owners patronize their own business. If you don't buy from your fellow-citizens, they can't buy from you. They can't help pay your salary. They can't pay taxes to improve and protect your town. They can't do anything without your money—and soon you too will have no money. Your home industries ask your business on the above basis—and more. Snyder, Texas, Thursday, April 19, 1934

Welcome, Banker Friends.

Snyder counts itself fortunate because she is to entertain South Plains bankers Saturday.

Delegates will not find a town of expansive buildings and prolific entertainment features. They do not expect such outward manifestations of hospitality, we take it, or they would have chosen Lubbock or another city for their 1934 meeting place. Rather, they expect the hospitality of the Old West, tempered by the niceties of New West.

Visitors may be assured that such a robust hospitality awaits them at Snyder, which occupies an enviable position betwixt the rolling Plains and the bounding prairies.

The depression-aggravated custom of lambasting legislators, bankers, and men with steady-paying jobs has spread to Snyder, of course. It is possible that not even the smallest hamlet in the state has escaped this backlash of a dissatisfied people.

But here, where there are a few to complain, there are many to praise. Snyder has an excellent bank—and excellent bankers. The substantial citizenship of the town realizes that the banker's path has not been strewn with roses since the pompous days of 1928. It has come to the enjoyable conclusion that bankers, after all are flesh of their flesh and blood of their blood.

No finer tribute could be paid the local bank than that it has more deposits this fourth month of 1934 than the three Snyder banks had a few years ago. The citizens of Scurry and adjoining counties have an unbounded faith, we say, in the local bank and its management.

You are welcome to such a town, where dwells such a bank and such bankers. We hope that your visit, though brief, will be pleasant and profitable.

EDITORIAL OF THE WEEK

FURTHERMORE AND HOWEVER.

(Note: "Furthermore and However" is a column produced in the Wichita Falls Times by John Gould. This excerpt is lifted from the current issue of West Texas Today.)

The early settlers of West Texas must have been an awful ignorant lot of folks.

It's hard, studying the history of this section and the experiences of its pioneers, to understand how they ever got by. They had courage, all right, and determination and hardihood, but they were so stiff-necked.

For instance, in the dreary years, when there were crop failures and actual starvation confronted the settlers, they didn't have intelligence enough to send word to their congressmen up in Washington that they were in a hell of a fix and to rush a bill through Congress to give 'em relief. Poor, ignorant nesters! That never even occurred to 'em. They just pitched in and got by, somehow or other, without any aid from Washington or Austin or elsewhere.

Of course, their ignorance is readily explained. Most of them never went to school very much and hadn't learned that their government was supposed to be a sort of umbrella that they could raise over themselves whenever disaster overtook 'em. So they went ignorantly ahead and worried out of their difficulties in their own way, the best they could.

They knew, of course, that there was a state government at Austin and a federal government at Wash., D.C., but they didn't concern themselves much about either of them. They had enough on their minds.

If the horse-thieves or cattle-rustlers got unduly active, nobody telephoned to Austin to send the National Guard to handle the situation. In the first place there weren't any telephones. In the second, there wasn't any National Guard. In the third place, the governor wouldn't have sent it. So the pioneers dealt with the trouble themselves. The accepted and approved method was the suspended sentence. It involved suspending the thief or rustler for an indefinite period. It was an informal way of dispensing justice, but, oh boy, it was effective.

In the earliest days the settlers had trouble with the Indians. They didn't dream of asking any governmental agency for help. Indeed, they would have resented any governmental interference. Chasing Indians was a diversion that they were selfish about and they didn't want any soldiers horning in on it. They felt that they were entitled to their recreations, free from outsiders.

Sometimes their wives had babies. It is appalling to think of it, but there weren't any Department of Agriculture bulletins in those days dealing with such matters. Women had babies and nursed 'em and raised 'em and never even looked in a government pamphlet to see if they were proceeding according to approved methods.

Vitamins hadn't been invented and a West Texan wouldn't have known a calory if he met it in the road. The idea that carrots squashed through a colander was proper food for infants had not then developed the following it has now. West Texans knew that ensilage was, but they didn't know they were supposed to feed their young on it.

It is hard to realize it now, but some right respectable West Texans were reared by parents who never even looked into a book of psychology. Said parents did not know that children were afflicted with inhibitions, complexes and suppressed desires that made 'em misbehave. When a child was bad, his ignorant parents thought it was due to the old Adam in the brat, and dealt with it accordingly.

Harness was the principal instrument of discipline. Shingles were too hard to get, and trees were too scarce for parents to depend on switches. So harness was used. A rein for inhibitions, a breech-strap for complexes, and a piece of a trace for suppressed desires—that may have been the rule, only our West Texas forefathers probably didn't use those psychological terms. Modern parents would be downright surprised to discover how effective a leather trace is in dealing with suppressed desires. It absolutely cures 'em, even if the psychology books don't recommend it.

They were a crude and unlettered bunch, those pioneers of this section.

My favorite of all anecdotes about West Texas has to do with the old-timer who slipped one over on a tenderfoot in a land deal. The tenderfoot had been negotiating for ten sections of land belonging to the nester. It was in one of those years when there hadn't been as much rain as there might have been, and the grass was poor and the cattle were thin.

The papers were signed and next day the ranchman was going around grinning, telling everybody of the trick he'd played on the outlander.

"He thought he was buying ten sections," said the West Texan, gleefully, "and when he wasn't looking I changed the deed so as to make it twenty."

Our Yesterdays

Written By Request.

Somehow the hours—Our toby
 Is coldly valueless
 Until it is yesterday
 I cared for you—like this.

You're dangerously gay
 I wonder why you show malice
 At some things. And we say
 icy shrouds go with a palace.

You warm the heart at will
 With sunny smiles and clothes,
 And when you care you chill
 Life acid on the nose.

Youth learns just so much
 To file in plastic memory;
 The scythe of age can touch
 Stout hearts to such dimery.

 Become your own—sly ghosts.

A pull at the heart-strings of the great American public is always sure of a response.

You should not try to blow a train off the track with your horn. It can't be done!

With so many politicians working overtime trying to reduce rates, raise taxes and getting city and national government into business in open competition with its citizens, the millions of people who have plenty to worry about. Looks as though they were the forgotten people.

Optimism is far more healthy than pessimism. Keep good health! You should spread the name of your city. Herald its advantages and achievements everywhere.

It is widely known that a large proportion of our older roads are unsuitable for modern traffic, which was not foreseen when they were built. It is also recognized that many of the new roads constructed in the past few years are unsuitable for the demands now being made upon them. This condition will exist so long as we continue to build roads that can not serve both through truck and motor car service such as is required these modern days.

MUSIC It's appeal

There is only one universal language, and that is music. Music does not need to be translated. Even though the words are unfamiliar, anybody with musical perceptions can enjoy a song in a foreign language, if it is well sung and the tune is appealing. I went to a concert in New York the other night where one young woman, Winifred Cecil, held a large audience entranced for nearly two hours singing songs in Italian and German. We didn't care what the words meant; it was the beauty of the music and its perfect rendition by the singer that enthused us.

I am a typical middle-class American, and I know that in my home we tune in on really good radio programs. To me the finest service the radio can render is its power to bring best music into each home.

FACULTY HERO MAKES FRIDAY COMEDY DEBUT

Three-Act Farce for Library Fund Expected to Break All Local Laughing Records.

When W. P. Cox, the hero and Miss Maurine Cunningham, the heroine, make their bows in the high school auditorium Friday night at 8:00 o'clock, Snyder will probably be in for one of the laughing-est entertainments she has seen in this or any other season.

The farce comedy is being staged by the high school faculty, primarily for the benefit of the school library, which is being built up largely through donations and entertainments. "Follywood Revue" and "The Torvadors" are previous stage shows for library benefit.

The intensive ticket selling campaign has already netted excellent results, and faculty "pushers" are expecting a jammed-crammed house when the curtain goes up. Admission prices are 10 and 25 cents.

Hero and heroine will be assisted by Misses Elizabeth Ward, Mattie Ross Cunningham and Effie McLeod; Mrs. J. P. Nelson; W. W. Hill, C. Wedgeworth, R. L. Williams and Clyde Rowe.

There will be music. There will be vaudeville between the acts. There will be everything that goes into the making of a well rounded evening's entertainment.

Mrs. Hilton Lambert is play director, and will also have charge of the vaudeville. She promises some unusual between-acts surprises.

"This Was a Pretty Wild Country," Declared H. C. Clark Back in 1897

W. A. Johnston of Dunn has discovered a clipping from a copy of The Snyder Signal, published several years ago, in which several articles from The Coming West of August 19, 1897, are included.

H. C. Clark, one of the county's old-timers, and a brother-in-law of Jim and Tom Dunn of Snyder, wrote to editors of the paper that "this a pretty wild country" when he arrived here 17 years before 1897.

The paper also tells of the death of Garland Dunn, son of Mr. and Mrs. A. T. Dunn, from whom the town of Dunn was named. Mrs. Dunn continues to reside in the Scurry County town.

Following is the Clark letter: Having arrived in Scurry County seventeen years ago today, I thought maybe your many readers, especially those at a distance, would read with some interest a brief sketch of our beloved country since that time.

"A Pretty Wild Country." "This was a pretty wild country then with fine grass and thousands and tens of thousands of cattle and hundreds of cowboys to work them. Will say that, though wild, the cowboys were loyal, big-hearted and true friends. All carried six shooters to kill a stray Indian or buffalo.

"The year before I came the Indians made a raid and stole a good many horses from the ranches here. Wild game was plentiful. Antelope and wild turkeys were numerous. It was fine sport to chase and kill them. A year or two after I came I went on a hunting expedition to the Plains. We saw some large herds of buffalo, killed several and brought home two calves. Panthers, wild cats, wolves and cougars were thick all over the country. Panthers would attack men. One man killed a panther with a buffalo bone. Sometime when on a "drive" or in a hurry, the six shooter was used to kill rattlesnakes, if one happened to stumble over them with no other weapon. The writer killed over a hundred the first year here. Fish were more plentiful at that time than now.

Rounding Up the Cattle. "It was a grand sight to see the cowboys rounding in the cattle by thousands. During snow storms or blizzards cattle would drift great distances. "Hards" would come from the Panhandle to the "works" here, and men from here were sent to the Concho and like distances after cattle that had drifted during

"Whenever kites become entangled in electric wires, don't climb poles or use long sticks to remove it. Call the company and a lineman will get it down if possible. Another wise precaution is to not fly kites during a rain, as a wet string is almost as dangerous as a wire should it come in contact with an electric line. Kites with metal frames, or wood frames braced with wire, should not be used.

"Employees of the company will visit local schools within the next few days and make a further explanation of the dangers of flying kites near electric wires."

COURT ENDING LAST OF WEEK

This is the last week of a three-week district court term that has been one of the lightest seen here in recent years.

Three cases of wide interest have been settled this week. Harry Henderson's trial Wednesday on charge of selling liquor resulted in a hung jury. Preston Martin, charged with burglary of the L. N. Perriman garage in the Dermott community, was given a three-year suspended sentence.

In the Tuesday suit of the Mintex Oil Company vs. Seifert, et al, Judge A. S. Matzuey dismissed the jury when it could not agree, and gave an instructed verdict favoring the plaintiff. Oil properties in Southwest Scurry County were involved.

The charge against Denny Adams for a Herneburg burglary many months ago, and that against Jess Dixon for sale of liquor, were dismissed because of absent witnesses.

Bankers in Siam use monkeys to test the metallic content of coins paid in. The animals bite the coins and their teeth marks indicate whether the money is genuine or counterfeit.

At Fluvanna, last week's paper announced that W. H. Jones, M. B. Noel and T. J. Rza had been selected. Snyder renamed A. C. Preull, G. H. Leath and Edgar Wilson.

Every effort is being made by district cotton review committees and the state review board to rush county cotton contract approvals through to completion in order that government cotton checks may begin pouring into Texas in April if possible, says the extension service at Texas A. & M. College. The first payment of 1934 benefits should amount to more than \$15,000,000 in Texas.

The long drawn out campaign slowed up the making of final county summaries and their checks and approval by district committees and the state review board, it is pointed out. Clerical forces have been doubled in district offices to speed the approval process, which cannot be completed until county figures are put in line with known production data of the U. S. Bureau of Crop Estimates.

Only one of these five families is here now. Oh, such a change! It seems but a short time only. Not a wire fence nor a well of water here then. One dwelling and a store house, where now stands our beautiful little town with its windmills pumping the pure water from the shallow, but inexhaustible wells. Look now over the country and see the hundreds of happy and prosperous families, as well as ranchmen, while at that time cattle were driven to Fort Worth to ship, and ranch supplies were hauled from that place. The next year after I came the T. & P. reached Colorado, and the country began to develop."

H. C. CLARK Snyder, July 23, 1897.

Miss Sue Carroll of Abilene arrived here this week to begin work as a teacher in the Independence school, southeast of Snyder. She is a sister of Miss Mickie Carroll, who teaches in Herneburg. She is making her home with Mr. and Mrs. Marcel Josephson on 26th Street.

The new county teacher is taking the place of Miss Dorothy Strayhorn, who recently began work in the local school as a substitute for Miss Blanche Mitchell.

Late word from Miss Mitchell, who is receiving medical treatment at Hot Springs, New Mexico, indicate that she is doing nicely.

Cattle brands of the Southwest, representing ranches of the past as well as ranches now in operation, will be engraved upon the stones which will form the walls of a headquarters building and bunk-house for the pioneer cowboys to be erected on the Texas Cowboy Reunion grounds at Stamford.

This unique feature of the cowboys building was decided upon at a meeting at Stamford Monday of the directors of the Texas Cowboy Reunion Association, an organization made up of cowhands who saw service in the saddle at least 35 years ago. John Gist, pioneer cattleman of Odessa, president of the association, presided at the meeting.

Mr. and Mrs. Erton Tate had as their guests Sunday Mr. Tate's parents and his brother and family of the Plainview community.

The MOLINE KO is the outstanding two-row Cultivator. You'll like the combine cross and straight arch construction—wheel guide and gang shift together—or wheel guide alone.

When you own a MOLINE you'll have everything worth while ever seen on any two-row cultivator, plus many new patented and exclusive features. The pivot bearings are dirt and weather-proof, with Alomite-Zerk lubrication, and the arches are suspended entirely by pendulum bars. This is why a slight touch on the pedals shifts the gangs instantly—FREE, EASY ACTION. Even small boys handle the KO more easily than many a one-row.

Come in and see it yourself . . . you'll be surprised and agree with millions that it is the world's best two-row cultivator.

You're The Loser

WHEN you allow Headache, Neuralgia, Muscular, Rheumatic, Sciatic or Periodic Pains to keep you from work or pleasure. You can't go places and do things when you are suffering—and the work or good times won't wait for you.

Why allow Pain to rob you of Health, Friends, Happiness, Money?

DR. MILES ANTI-PAIN PILLS have been used for the relief of pain for more than forty years. They taste good, act quickly, do not upset the stomach, nor cause constipation, leave no dull, depressed feeling.

Thousands have used them for twenty, thirty, forty years, and still find that nothing else relieves pain so promptly and effectively.

Why don't you try them? Once you know how pleasant they are to take, how quickly and effectively they relieve, you won't want to go back to disagreeable, slow acting medicines.

Chas. W. Webb, Radio, Calif.

You too may find quick relief. Why wait forty minutes for relief when Dr. Miles Anti-Pain Pills will relieve you in ten to twenty minutes?

As a household remedy I have never found anything that equalled Dr. Miles Anti-Pain Pills. Mrs. Silas D. Keller, Penfield, Pa.

I never found anything that was so good to stop pain as Dr. Miles Anti-Pain Pills. I have told many about them and I find they are all using them. Mrs. Martha Lacy, Davenport, Iowa.

I have been using Dr. Miles Anti-Pain Pills for years. I keep them on hand all the time. I can certainly recommend them for pain. Miss Audra Seybold, 2417 W. 2nd St., Dayton, Ohio.

Your Anti-Pain Pills have been a wonderful help to me. I have used them for three years and always keep them on hand. Mrs. E. Pierce, Lapwal, Idaho.

I have used quite a lot of Dr. Miles Anti-Pain Pills. They are fine pills to stop pain. Mrs. J. L. Kester, Shickshinny, Pa.

THIS TIRE REMOVES ALL DOUBT OF SAFETY

THE TIRE WITH NO WEAK SPOTS

Seiberling has struck aside all claims about tire safety—built for the first time by a new exclusive process—tires with NO WEAK SPOTS—tires that are single units of live rubber and live cotton. All tires must be vulcanized. Other manufacturers place the tire in an oven-like mold, subject it to dry, scorching heat for from forty to 120 minutes. Seiberling vulcanizes tires in a gentle steam bath, cures them perfectly, evenly—safeguards against weak spots—builds a tire far safer—a tire which will deliver from 10% to 30% greater mileage. See these new Vapor Cured Seiberlings—they cost no more.

INSPECTION OF COMPANY G IS SET FOR TODAY

Local National Guard Unit Ready For Annual Check-Up This Afternoon and Night.

Captain Robert J. Kirk Jr., assistant instructor of the 142nd infantry, is here today from Fort Worth for the annual federal inspection of Company G, Snyder's National Guard unit.

Inspection will begin this afternoon, and will be completed tonight with the company's 66 men and officers on deck.

Captain John E. Scetell, commanding officer, states that his men should be in position to make a creditable showing. Since he organized the company several years ago, it has ranked on or near the top of the regiment practically every year.

First Lieutenant Tim Cook will be in command of the first platoon. Roy Irvin, first sergeant, will have charge of the second platoon in the absence of Tommie Black, second lieutenant, recently resigned. Sergeant Delmer E. Holden and Sergeant Cecil Rhodes are next in command.

Pair of Fire Calls Made on Week-End

Two rush calls were made by the fire department last week-end. A blaze in the Snyder Laundry boiler room Friday afternoon made plenty of smoke but did little damage. Ignited waste oil on the floor apparently caused the flames. The fire department extinguished the fire with little trouble.

A call Saturday morning at 11:45 o'clock took the two trucks to the A. D. Elk washhouse in Northeast Snyder. Fuel oil in a barrel in the small house seriously threatened the Elk home for a few minutes, but the threat was averted by the chemical and emergency hose. The small house was a complete loss.

Land Bank Loan Work Handled in Future By Bond

Hugh Boren, secretary-treasurer of the Snyder National Farm Loan Association, received word Tuesday from William I. Myers, governor of the Farm Credit Administration, Washington, D. C., that federal land bank loans and land bank commissioners' loans will be made in the future through the federal land bank in bonds of the Federal Farm Mortgage Corporation, which bonds are guaranteed by the United States government both as to principal and interest, which will be at the rate of three and one-fourth per cent per year for the bonds to be issued at this time.

These bonds will take the place of the cash distribution in the disbursal of the unclosed loans previously approved by the federal land banks.

The bonds of the Federal Farm Mortgage Corporation, according to the statement by Governor Myers, will have behind them not only the unconditional guarantee of the federal government as to both principal and interest, and the capital of the Federal Farm Mortgage Corporation amounting to about \$200,000,000, but also the consolidated assets of the federal land banks issued in exchange for the bonds of the Federal Farm Mortgage Corporation and the mortgages accepted by the land bank commissioner as security for loans.

An Attractive Investment. Governor Myers assured Secretary Boren that the Federal Farm Mortgage Corporation bonds will be an attractive investment. "They will be as readily marketable as bonds of the United States government and they will be quoted in all of the principal markets," he continued. "Holders who have to dispose of these bonds should not sell them without first ascertaining their real market value."

The governor particularly stressed the fact that county bankers probably will be large investors in these securities since the creditors of farmers who are being refinanced may not all be in the position where they can hold the bonds so acquired and will find it necessary to sell them. Secretary Boren states that these bonds, which will be tendered to farmers' creditors in payment of the refinanced indebtedness, are "except from all federal, state, municipal and local taxation, except surtaxes and estate, inheritance and gift taxes. They are lawful security for 15-day borrowings by member banks of the Federal Reserve system. They are also lawful investments for all trust, public and fiduciary funds of which the deposit or investment is under the authority or control of the government."

The payments of the interest on these bonds and the repayment of their principal are guaranteed by the United States, which means that the Federal Farm Mortgage Corporation should ever be unable to meet the payments on the bonds, the treasury will assume such payments.

Various Denominations. These bonds will be issued in denominations of \$100, \$500 and \$1,000. However, amounts less than \$100 will be disbursed in cash. For example a loan of \$965 would be

Your Chamber of Commerce Alone Fills This Need

Early in his development man realized that group action was superior to individual action. Thus the formation of tribes concentrating on a common purpose—the tribe's well-being.

As man progressed his tribe's territory expanded, common purposes increased. Governments were established, expanded, and cities of stone replaced temporary homes.

Came realization that as cities grew property values were enhanced. Property could be exchanged for double, perhaps five or ten times, what it had cost—depending upon the city's rate of growth.

Growth of his city became important to man. Instinctively he knew that mass action was more effective than uncentralized, haphazard individual action—that by joining his neighbors in "selling" his city to others more could be accomplished.

The work could not be done effectively by government. Government's purpose was to govern. It had to be an organization unhampered by extraneous details of government and with one major purpose: To build the city! Thus was evolved the modern Chamber of Commerce.

The predominant purpose—and accomplishment—of the Snyder Chamber of Commerce is the building of Snyder area rendering service to its citizens no other organization can render.

The Chamber of Commerce will only be as effective as the individual response and support of the citizens to its task of building the city and community. Its work of the past and plans for the future deserve the loyal support of every person in this community.

SHEPHERDS OF AREA PLANNING LOCAL WOOL BUYING MARKET

Meeting at Courthouse This Week Promises Establishment of Profitable Business.

First cooperative steps to make Snyder a year-after-year wool market were taken at the courthouse Monday afternoon by about 30 shepherds and others interested in this forward-looking undertaking.

It was pointed out during the discussion that between 200,000 and 250,000 pounds of wool, or about 10 carloads, are clipped annually in the Snyder trade territory. Growers were practically unanimous in saying that they would patronize the local market, and thus save heavy transportation and handling charges, if prices could meet those prevailing at San Angelo.

Plans and prospects of a local market were discussed at length by O. W. Akers of Graham, a representative of Armour & Company. The experienced wool buyer said there was no reason why carload shipments of wool out of Snyder, if properly handled, would not bring a price equally as good or better than that possible to obtain at San Angelo.

Marvin White and Dock Bynum, local produce men, expressed their desire to cooperate with shepherds in establishing a worthy market here. Both their houses are planning to handle wool when the shearing season opens May 10 to 15.

made in a \$500 bond, four \$100 bonds and the rest in cash. In addition, to provide for certain debts, such as taxes which cannot be paid in bonds, cash covering the required amount will be provided.

"Loans which have been applied for and approved, but on which the cash has not been paid out, as well as those approved by the bank in the future, will be financed on the above basis. Their arrangement in no way disturbs or alters the other provisions of the loans. The interest rate on new loans will continue to be four and one-half per cent for the emergency period when made through a national farm loan association and five per cent when made directly by the bank."

During a big funeral in darktown the corpse suddenly sat up in the casket and gazed calmly around. What followed was only natural. The minister was in the front ranks of the exodus.

Two minutes and two miles from the scene, two devout sisters paused to regain their breath and discuss the unparalleled event.

Mandy—"Sarah, I just can't think as much of our person since this happened."

Sarah—"Why, I thought he was preaching a right noble sermon up to the time the corpse came back to life."

Mandy—"Yes, but when I was climb'n' over the first big bunch we passed I heard him a-sayin', 'X-78', such church dat ain't got but one door!"

County Agricultural Association May Be Planned by Farm Agencies

The following outline for a County Agricultural Association, as presented at a recent session in Dallas of various farm agencies, J. L. Carroll attended from this county.

- Purposes. 1. To plan a program of county activities for the united effort of the membership. 2. To correlate the plans and efforts of the crop control committees, credit associations, and other governmental agencies. 3. To assist the county and home demonstration agents and vocational teachers.

- 4. To encourage and foster the home demonstration clubs, the 4-H clubs and the future farmers. 5. To develop a planned agriculture for the county including the use of pure bred livestock, pure bred seed, terracing, land utilization and improvement, cooperative marketing and cooperative purchasing, farm financing, home improvements and live-at-home programs, and other county-wide programs of home, crop and soil improvement.

- Memberships. 1. All farmers who are members of any cooperative purchasing or marketing organization operated within the county. 2. Members of the women's home demonstration clubs. 3. Members of the 4-H Clubs, both boys and girls. 4. Members of the Future Farmers of America. 5. All farmers cooperating in any government control plan such as cotton, wheat, cattle, corn or hogs. 6. Members of Production Credit Associations.

The president or other representative of the above groups, the county agent, the home demonstration agent and the vocational teachers.

Meetings. The directors should probably meet at least once a month, the county associations once a quarter. A general membership meeting attended by everyone at least once a year with outstanding speakers of the state, or oftener if desired.

Community Organization. Each school district to have its own association patterned after the county association, and have regular meetings at least once a month. Programs of the community meetings to be worked out carefully. The business part of the meeting to stress that subject which is most timely. Entertainment features provided in cooperation with the schools, enlisting the assistance of the teachers in the community schools, particularly the vocational teachers. A model community program will be sent on request.

You can't stop a man who doesn't want anything for self and who isn't afraid of anything.

MAY 1 SET FOR RACQUET MEET

A tennis tourney to which all racquet wielders of the county are invited has been set to begin Tuesday, May 1, according to R. L. Williams, principal of the high school, who is general manager of the county-wide event.

Players who wish to enlist for singles or doubles play must get in touch with Mr. Williams not later than Saturday, April 28. One new tennis ball will be the entrance fee.

A successful tournament with more than 20 entries was staged last year, and another in 1931. It is believed that the county now has more persons interested in the racquet game than ever before.

Girls and women will play, also, for the first time in a local tournament.

John Doe of West Texas Plans Out A New Farm System Under New Deal

Ever since last January when John Doe, West Texas cotton farmer, signed a contract with the government to reduce his cotton acreage he has been figuring on how to best shift his farm system to meet the new conditions.

Mr. Doe has a 120-acre farm on which he has been growing 60 acres of cotton the past few years. In addition he has had 35 acres of grain sorghums, 10 acres of sorghum hay, 10 acres of native pasture, and 5 acres in the farmstead for house, barn, lots and garden.

He has contacted with the secretary of agriculture to take 24 acres out of cotton production, leaving him 36 acres for this crop this year. How shall he use the remaining 34 acres?

New Farming Plan. With the help of the county agent he has worked out a farming plan which he thinks will help him a lot this year. The new plan will give him a better living at home than he has had before, and let him terrace his entire farm without interference with the crops.

He has found that the 45 acres in feed crops is enough for a home living if he works it right. He does not need any of the 24 acres rented to the government to make this living at home. He cannot, therefore, plant feed on that land if he complies with his contract. He doesn't want to plant crops that he can't harvest. He knows he ought to sow some corn or other cover crop and plow it under, but hesitates to go to that expense.

His farm needs terracing and the county agent has shown him a neat way of doing it at his leisure this year through a proper use of contracted acres. The plan is to lay out the entire terrace system and to plant all the land except strips

30 feet wide or more along the terraces. This is a form of strip cropping. The contracted acres will be along the terrace tops and will be left bare, but the crops on either side will prevent blowing. The lines have been run this spring but the terraces may be built any time during the season.

Mr. Doe Figures.

The way Mr. Doe gets his 24 contracted acres on terrace tops is this: 24 acres times 42,560 square feet per acre gives 1,021,440 square feet to take out of production. Dividing by 30 feet, the average width of bare strip along each terrace top gives a total of 34,380 feet or 11,116 linear yards of terraces that will be required to occupy a total of 24 acres. Mr. Doe simply measures the total length of his terrace lines. If he has more than 11,116 yards he can plant on part of them; if he has less than 11,116 yards he will probably widen the bare strips enough to get his 24 acres.

His cropping system this year will be 36 acres of cotton; 23 acres of grain sorghums; 10 acres of sorghum hay; 10 acres of temporary pasture (sudan grass this summer, small grain next fall and winter); 2 acres of potatoes, beans, melons, and cane for syrup; 10 acres in pasture, a large garden and a home fruit plot in the 5-acre farmstead; and 24 acres along bare terrace tops. Early next fall he will probably seed small grains on the bare strips to prevent winter blowing.

How He Got It.

This live-at-home system Mr. Doe got from studying extension service plans, and is convinced that with the help of his wife in following it the five members of the Doe family can just about produce their own home needs for food. It would cost them about \$600 to buy this food at the stores.

Mr. Doe is figuring on putting in a few hundred feet of home-made concrete tile to sub-irrigate part of the garden and to start an orchard in the fall.

This is only one way of shifting 1934 cotton farming to meet the new conditions. County agents are ready to help farmers develop farm demonstrations in readjustment, and home demonstration agents can help in planning and using the home food supply.

INDIAN BOY

Billy Domingo, four-year-old Indian boy, native of the Amazon valley in South America, will speak and sing at the First Methodist Church Sunday evening at 7:30 o'clock in connection with the appearance of Rev. A. F. Reifsnnyder, a returned missionary. The child speaks and sings in three languages: English, Spanish, and his native dialect.

White Seals Sold By Students for Cripple Benefit

With the National Honor Society as sponsor, White Cross Seals are being sold in Snyder by school students at one cent each. These tiny stickers for mailing pieces are being sold for the benefit of crippled children throughout the state and the nation. The movement has the active support of President Roosevelt, Governor Pearson and other officials.

The 12 active members of the local group of honor students, with Miss Mattie Ross Cunningham as sponsor, have also placed boxes at Stinson No. 1, Snyder Drug and the Post office, where donations may be made.

Texas has a law, less than six months old, which provides a physical restoration service for crippled children in the vocational rehabilitation division of the State Department of Education. It also provides for establishing diagnostic clinics; for designating hospitals for the care, treatment and hospitalization of crippled children, and for other services.

To cover all these provisions there is an appropriation of \$10,000 per year. There are 20,000 crippled children in Texas. This means the amount of 50 cents per child. The seal sale is designed to raise funds to support this national movement.

Senator Margie Neal, the author of the crippled children's law, is state director of the campaign.

Men, women and children are being asked to buy at least as many seals as they are years old.

Missionary From Amazon Basin To Present Program

Although the Campa Indians prohibit by death penalty the white man's entrance into their territory in the eastern jungles of Peru, Rev. A. F. Reifsnnyder, diminutive, soft-spoken American missionary, successfully dared that hazard. His journey into the interior climaxed three years among the natives on the fringe of the Campa country.

Rev. Reifsnnyder will lecture and present motion pictures at the First Methodist Church Sunday evening at 7:30 o'clock. The pictures will depict his thrilling experiences of the beaten trail of the white man and in pathless jungles among the savages.

The missionary has brought with him to the United States a four-year-old Indian boy that he was able to rescue from being buried alive with his dead mother when three days old. Born on Sunday, his father named him Domingo, Spanish for the day. The Reifsnayers retained it for his last name and called him Billy. The child speaks and sings in three languages.

The Methodist congregation extends a cordial invitation to the public to enjoy the program with them. A free will offering will be taken.

Strayhorns' Sister Passes at Alvarado

Mrs. Sallie Johnson, pioneer resident of Alvarado, died at her home Sunday. She had been a frequent visitor and a former resident here, where she had two brothers and three sisters: D. P. and Joe Strayhorn; Mmes. S. T. Eliza, J. A. Farmer and R. C. Grantham.

The following Snyder people were present for funeral rites Sunday: Mmes. Eliza, Farmer, Grantham, E. O. Wedgeworth and Herbert Banister; D. P. Strayhorn and J. P. Nelson.

Advertising and the NRA

One of the fundamental facts dwelt upon at the open sessions on codes in Washington was that the consuming power of the country must be restored to its normal extent and that the confidence of buyers must be gained through enforcement of the fair-practice provisions of the codes.

The Consumers Advisory Board reported that attempts are made to sell substitute merchandise with the argument that standard products must bear the burden of advertising costs. The fallacy of any such assertion should be apparent, but if it is not, there is plenty of proof in a recent statement from the Alexander Hamilton Institute, which quotes a report of a large soap manufacturing company back in 1929:

"In 1929 our output was 500,000 cans for the entire year. Now 18,000,000 cans are produced in one week. In 1898 the expense of salesmen was 7 1/2 per cent and for advertising 14 per cent of the advertising less than 3 per cent, making a total selling cost of 5 per cent. If a consumer buys a can of soap for 12 cents (that was back in 1929) 36-1000 of 1 cent is spent in advertising."

B. C. Forbes quotes other figures (for February 1934) as follows: On a 10-cent package of biscuits the advertising expenditure is less than 1 mill. On a \$1.96 shirt, 64-100 of a cent. On a \$1.75 sheet, 1 cent.

That advertising makes quantity production possible, which in turn makes possible lower prices, is a simple, indisputable fact, and consumers will be abundantly justified in disregarding any assertion to the contrary.

Lions Entertain Winners of District Track-Field Meet at Tuesday Lunch

Winners of the district track and field meet at Sweetwater, with Coach Red Moore, were guests of the Lions Club Tuesday at noon. The visiting athletes included Fred Wolcott, Aubrey Wise, Sonley Westis, Forest Beavers, William Boren, J. C. Morgan.

A. C. Williamson of Sweetwater, area Boy Scout executive, invited the men to take an active part in the scout leader's training school which was to begin Tuesday night. He outlined the work of the school, insisting that it was designed for any man who still had the spirit of play. He said he was looking forward to seeing Snyder again lined up with the Boy Scout movement with two live-wire troops and business men who supported them 100 per cent.

Conventions Discussed. Brud Boren was another luncheon guest. Henry Rosenberg, recently returned to Snyder, was voted in as a member of the club.

The Lions were urged to support the coming Parent-Teacher Association convention by providing use of their homes and in other ways requested by local P-T. A. members.

Attention was called to the district Lions Club convention at Colorado Sunday, Monday and Tuesday. It was announced that a

Salesmanship Wins W. W. Gross Plaque

For selling more life insurance during the month of March than any other representative in the state of the Harvester Life Insurance Company of Dallas, W. W. Gross of Snyder has been temporarily awarded a beautiful plaque, with his name engraved thereon.

The Gross record of \$22,000 for the month of March was made only two months after the local man became a Harvester representative.

The Texas salesman who wins the award the most months out of the twelve in 1934 will keep it as his permanent property.

Match the Performance of the FORD V8 for 1934 against any Car at any Price

THE CAR THAT FLASHED DOWN A Florida beach to the world's land speed record was powered by the V-type engine.

The V-type engine knifed an Italian plane through the air at the record-smash speed of more than 420 miles per hour.

On the St. Clair River, the V-type engine swept a speed-boat to the world's record of 124.8 miles per hour.

And that's the type of engine that powers the Ford V-8 for 1934. It's the only V-8 engine in a car calling for less than \$2,000.

Why is the swing to GAS refrigeration?

Because:
The GAS Refrigerator operates for 25c a week, or less—an operating cost much less than any other system of refrigeration. A saving that goes on day after day—year after year!

Because:
The GAS Refrigerator operates without motors or complicated machinery. A tiny gas flame circulates a simple sealed-in refrigerant. Ordinary air from your kitchen cools it. That's all!

Because:
The GAS Refrigerator is the most scientifically advanced. The absence of moving parts means freedom from expensive repairs. It is the simplest freezing method next to nature itself!

Because:
The GAS Refrigerator operates in absolute and permanent silence. It has no moving parts to make noise or become inefficient and cause vibration.

Because:
The GAS Refrigerator is the only system with a constant operation. There's no starting and stopping. Hence, a constant, uniform cold below 50 degrees is maintained regardless of any sudden rises in room temperature.

Because:
The GAS Refrigerator has been subjected to severe tests under all sorts of conditions by the American Gas Association, Good Housekeeping Institute and your own gas company. These and the experiences of owners prove that the GAS Refrigerator will give you more years of care-free, dependable refrigeration at much less cost!
