Code Eagles Fly to Snyder This Month

The funds derived from the poppies are used by the auxiliary and the American Legion in giving aid to disabled veterans, their families and families of the dead, for whom no aid is available. Groceries for the family of a veteran too sick to work—such as for the children of a veteran lying ill in a distant government hospital—a loan to a convalescent veteran struggling to get back on his feet—these are typical of the purposes for which the poppy contributions are used.

Bill Slaughter of Abilene Recollects Snyder as Trading Post in Seventies

Bill Slaughter has written The Times from Abilene that "all I know is what I saw happen." Among other things, he says he saw "the Abilene country pass from the buffalo range to the cow range 59 years ago. I have lived so long in the Abilene country that I can hardly find an old-timer to talk to."

Very Much Improved After Taking Cardui

"I have suffered a great deal from cramping," writes Mrs. W. A. Sewell, Sr., of Waco, Texas. "I would chill and have to go to bed for about three days at a time. I would have a dull, tired, sleepless feeling. A friend told me to try Cardui, thinking it would help me—and it did. I am very much improved and do not spend the time in bed. I certainly can recommend Cardui to other sufferers." Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

Announcement

Beginning June 1, I will open a summer class in piano. For information, see me at 2111 28th Street or call 297.

Charlie Bley Puts His Hat Into Ring For Weigher's Job

Politics in the Fluvanna country was given a new boost this week when Charlie Bley announced that he is a candidate for public weigher from Precinct No. 2.

A resident within a mile or so of Fluvanna all his life, Charlie might be called one of the old-timers. He has farmed practically all his life with the exception of two years when he was in the Fluvanna State Bank.

Charlie's friends believe that he can fill the weigher's job as it should be filled. They point out that he is capable, honest and experienced in various phases of the work he seeks to do. "If elected," Charlie said when he turned his announcement over to The Times Tuesday, "I shall do my best to serve every citizen of the precinct, and I solicit support on the basis of this promise."

Candidates' Names Must Be Filed Soon

Midnight of June 16 is the last date on which names of county and precinct candidates may be filed, County Democratic Chairman P. L. Townsend reminds office seekers.

Mr. Townsend points out that a Supreme Court ruling says that names can not be entered on the stickers after that date even if all opponents in the race involved agree to the candidacy.

Two Scurry County candidates failed to file in time in 1932.

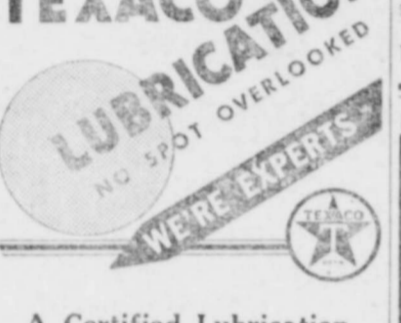

Seek to Determine Amount of Holdover

Letters to community action committees from the county agent's office this week are seeking to determine the number of bales that are being held over by farmers of Scurry County.

The information is requested by the government as a detail of the Bankhead Bill. The figures do not apply to cotton on which there is a 10-cent loan.

Farmers who are holding cotton are requested to contact one of their committeemen or the county agent.

Four Centennial Committeemen to Serve in County

Appointment of four Scurry County citizens—two men and two women—to serve on the Texas Centennial advisory board was announced late last week from the Austin headquarters of the Texas Centennial committee. Mrs. Robert H. Curmiste, Mrs. H. G. Towle, O. P. Thrane and J. C. Smyth represent this county. Two were appointed by State Senator Wilburne B. Collier and two by State Representative Joe Merritt.

The first official meeting of the commission will be held in the Senate chamber at Austin on June 6 at 10:00 a. m., according to Will H. Mayes, temporary state secretary and executive vice president.

Dale Miller, associate editor of the Texas Weekly in a recent radio address, said of the centennial: "It is this Texas Centennial, if properly supported by the people, that will really usher in the great development of the future. All Texas needs is to attract the eyes of the nation in a tangible way, and certainly no other state could offer a more colorful and spectacular exhibition."

"Texas, for example, represents the Anglo-Saxon and Latin races not contested through many centuries for dominion of the New World. It was here—across this broad frontier—that France yielded to Spain, Spain to Mexico, Mexico to the free republic of Texas, and Texas to its great sisterhood of states. The only state in the union to have been a sovereign republic, the only state to have served under six different flags, Texas has indeed a unique and fascinating history."

Clark M. Mulligan Makes Monday Call

Judge Clark M. Mulligan of Lubbock was in Snyder Monday for his first campaign call. He is a candidate for Congress from the new 19th district. While here he made a round of the square, meeting a number of business men and others.

J. E. Shipn, who served with the candidate—Colonel Mulligan—in the World War, was introducing the visitor, who is now district judge at Lubbock.

"I understand that your wife came from a fine old family," "Came is hardly the word—she brought it with her."

Production Loan Interest Rating Given Reduction

A. M. Cooper, secretary-treasurer of the Sweetwater Production Credit Association, has just received word from Governor W. I. Myers of the Farm Credit Administration in Washington, D. C., that the interest rate on new loans from production credit association has been reduced from 5 1/2 to 5 per cent.

According to Mr. Cooper, the new 5 per cent interest rate becomes effective immediately on all new loans made by the association and will be applicable until further notice.

"The new interest rate of 5 per cent will not affect loans already advanced in full," Mr. Cooper said. "These will continue to bear the rate of interest prevailing at the time when the loan was closed. The interest charges on loans from the association are collected when the loans mature. The Sweetwater association is now making loans on acceptable crop and chattel security to farmers in Nolan, Fisher, Mitchell, Scurry, Dawson and Borden Counties."

"The reduction of interest to 5 per cent on new loans," Mr. Cooper continued, "is made possible by a recent sale of federal intermediate credit bank debentures to investors at an unusually low rate of interest. The association gets money to lend farmers from the federal intermediate credit bank of Houston."

"The lowering of the interest rate on new loans to 5 per cent is the second reduction in two months, the rate having been reduced from 6 to 5 1/2 per cent on March 16, according to the former Myers," said Mr. Cooper, "the federal intermediate credit bank is passing on immediately to farmer-borrowers from production credit associations the saving made possible by lower cost of raising money. The confidence of investors in the security of the intermediate credit banks has been such that the banks are able to get money to lend at the lowest discount rate in their history. Governor Myers says that the resulting low rate of interest on production credit association loans is enabling farmer-borrowers to save thousands of dollars on the cost of their farming operations this year. If the association make sound loans, and loans that are collectable, an adequate supply of low cost money will continue to be available."

Any additional information, relative to production credit loans, may be secured from O. P. Thrane, Snyder, Scurry County director of the Production Credit Association, or from the application writer at Snyder. Any person desiring to make application for a loan may do so there without leaving his home county.

Loans are available to livestock men and farmers, for operating expenses, refinancing of debts, contracted for agricultural purposes for the purpose of buying additional livestock or implements or any other agricultural purpose.

In addition to the low interest rate extended to the borrower, he only pays interest while actually using the money, as interest stops immediately on any part as soon as repaid.

Corbell Child Dies At Home of Parents

Death came suddenly Thursday of last week to Donald Wayne Corbell, nine-month-old son of Mr. and Mrs. Earl Corbell, who reside west of Snyder.

Final rites were held Friday at the Odum Funeral Home, with Rev. Cone Merritt officiating. Burial was in the local cemetery. The parents and three brothers and sisters survive.

Farmers Asked for Reports on Legumes

The U. S. Department of Agriculture is anxious to learn what experience farmers have had with Lespedeza sericea, a perennial legume introduced into this country several years ago. The plant received little notice at first, but in the last four or five years it has attracted widespread attention, particularly in the Southern states where it grows well on land too acid for alfalfa or most of the clovers.

Because of the lack of dependable knowledge about this plant Dr. A. J. Pieters, who is in charge of forage crop investigations in the department, is asking farmers who have grown this crop to write to him, giving their experience.

Stamps Quartet Will Give Local Concert

Arrangements are being completed this week for appearance here on the night of Tuesday, June 5, of the famous Stamps quartet, under auspices of the Snyder Lions Club. Emmett Butts is assisting the club in advertising the program.

The quartet members, with their accompanist, have produced a number of Columbia and Victor records, and have appeared in concert in many Southern cities.

The Lions Club will use all its percentage of gate receipts for purchasing glasses for children of the county.

Visiting Preacher Is Heard by Baptists

The First Baptist Church pulpit was occupied Sunday morning and evening by Rev. John Williams of Hobbs, New Mexico, who was accompanied by his wife.

Arrangements are being made to have preaching services at both hours next Sunday, according to N. M. Harpole, chairman of the board of deacons.

Fewer Business Failures.

Only 19 commercial failures occurred in Texas during April, as against 21 in March and 44 in April of 1933, declines of 9.5 and 57 per cent, respectively, according to figures compiled by the University of Texas Bureau of Business Research from reports from Dun and Bradstreet, Inc.

"WHY HELEN, DON'T THE ICE TRAYS STICK?"

"MY DEAR, ICE TRAYS THAT STICK ARE OUT-OF-DATE ..."

Ours is a Frigidaire '34"

Automatically—at a finger touch—ice trays glide from the freezer of the Frigidaire '34! But that's only one of the features of this fine Frigidaire.

For instance, the Super Series Frigidaire '34 has automatic defrosting; it has Lifetime Porcelain inside and out; it has the new Sliding Utility Basket for eggs and small articles; and the Frigidaire Servashelf that's so convenient when rearranging things in the refrigerator.

Nor is that all! ... double Hydrator capacity; interior lighting; faster freezing; and more-than-generous food space, with extra room for tall bottles. And the powerful, quiet rotor operates on a remarkably small amount of current! Will you come in and see what's happened in electric refrigeration?

Here is a Frigidaire that Uses Less Current than One Ordinary Lamp Bulb

Quartet Appears Before Lions in Opening Number

An impromptu quartet was so pleasing to the Lions Club in its Tuesday noon session that an encore was in heavy demand. But the four song birds declared that they had no reserves in their bag. W. J. Ely, Harold Brown, Charles S. Owens and Willard Jones composed the warbling group.

Mrs. Hilton Lambert, reader also pleased with a picture of married life and strife. Billy Hamilton, official Lions pianist, gave a number, and was heartily endorsed when it was announced that he would continue as pianist through the summer months.

W. J. Ely, Snyder's West Texas Chamber of Commerce director, brought a report of the convention at San Angelo last week. He outlined the work of the convention, and gave Snyder citizenship credit for the first time in this town received on the WTCC activity roll for the past fiscal year. He especially praised Miss Geraldine Longbotham, Snyder's home town contest entry, and Miss Janice Ervin, sponsor in the Rainbow Round-up.

Ralph Odum was informally presented with the snapshot taken at the previous meeting, when he was presented with a master key and a plaque for his membership activities.

Melvin Blackard was named as a member of the board of directors to fill a vacancy.

Emphasis was placed on next Tuesday's meeting, when officers will be nominated for the ensuing Lions Club year. It was urged that a full attendance be on hand for that session.

THE WEEKLY DOZEN

This Week's "Dozen."
This week's "dozen" are concerned largely with aspects of federal recovery measures. They represent a rather concise view of some things that are taking place along the national front.

In the Way of Recovery.
One of the chief things that stands in the way of recovery, as Talkative Tullie sees it, is the over-abundance of men who want something for nothing and of women who wear something for nothing.

That Was a Long Time Ago.
Pessimism Pete said he heard only a few years ago of the man who did not know that "damn" and "Republican" are separate words, but the woman who can not separate "man" and "money" is as old as Adam's apple.

The Men Who Administer It.
A modern sage has said that "the government will never be any more efficient than the men who administer it." Those who usually go to the polls to vote for the man or woman who will be the balmyhoo will do well to consider that bit of wisdom before they cast their 1934 ballots.

News and News-Advertising.
A Canadian editor declares that "the primary business of a newspaper is the publishing of news, but if the advertisements were left out, the most valuable news of the day would be missing." And had you ever thought that advertising in the news columns of such national movements as NRA, FERA and AAA has been largely responsible for the success of these vital changes in our economic and social schemes of things?

Poppy Day Is Coming Soon.
Poppy Day will be Saturday of this week. The county American Legion Auxiliary, composed of mothers, wives and sisters of veterans, is doing more work in connection with poppy selling than it has ever done before. Citizens who remember the sacrifices of those who fought during the World War will join 100 per cent in purchasing the little tokens of remembrance on Wednesday of next week.

Farming, Oiling, Ranching.
Since Scurry County is not in the midst of any great oil field, we usually think little of what is being done in connection with the state's supply of black gold. It might give us a different viewpoint of the whole relationship of farming, oil production and ranching if we were to consider that crude oil has exceeded lint cotton in value in Texas since 1922, and that the packing house industry is the largest single business in the United States.

Mortgages vs. Prosperity.
Although Uncle Sam's efforts to aid the distressed home owner, beset by unsound mortgages levied in the pompous days of prosperity, have not been altogether workable, thousands of home owners have been enabled to retain their places of abode. The real estate mortgage debt in the country as a whole is \$43,000,000,000—the largest single class of outstanding long-term indebtedness. It is nearly as large as the combined totals of national, state, county and municipal debt.

Relief That Sicks.
Out of the government's trial and error method of broadcasting relief has come the latest and most workable of all helping-hand plans. We refer to the plan whereby a family is loaned tools and other necessities with which to shift for itself. The man who can farm is placed on a plot of ground and given the things with which he can make a crop. The man who can not farm is given—or loaned—a wagon and team, a house in which to live, or a garden spot to work. Permanent relief, after all, must be just what the name implies—permanent relief—of self-respect, of earning ability.

Sop Crying "Wolf."
Said President Roosevelt on May 3: "The people as a whole will be impatient of those who complain and of those who hold out false fears. It is time to stop crying 'wolf' and to cooperate in working for recovery." A similar sentiment was expressed in the text of the keynote appeal made recently by President Henry I. Harriman of the United States Chamber of Commerce—an organization that has openly fought Roosevelt on several issues. "Some federal agencies cooperating with business must continue to carry out the major functions exercised by the NRA and the AAA," he said.

It Must Be a Sign.
To those few who are seeking a definite sign that recovery is actually on its way, we present these automobile figures direct from R. L. Polk & Company. Reports from five states received for the full month of April show an increase in the sale of motor cars of 42 per cent over March. Reports from 106 leading cities, constituting 46 per cent of the country's market,

A Tribute to Joe Monroe.

Joe Monroe is a public servant of which Scurry County may well be proud.
As relief administrator for a number of months, he has filled a job that few men could or would handle. He has done it so acceptably that complaints have come almost altogether from those who wanted a free suck from the relief teat, and were denied that privilege for legitimate reasons by Joe Monroe.
In a day when it is popular to speak of graft and incompetency, when it is taken as a matter of course that a public servant will help his friends along as much as possible, Joe Monroe has proven to all observers that he does not know the meaning of unfairness and shady dealing. He has come out of delicate situations with flying colors, since his relief job began, because no man could honestly accuse him of a misdeed.
One of the highest compliments that can be paid Mr. Monroe is that he has not been accused of political favoritism, although he is known to have very definite political opinions. He has hired and fired men, worked on a multitude of projects, and parceled out supply buying without knowing or caring for whom a man voted in 1932 or any other year.
If we had more men who were unwavering and far-sighted in dealing with their fellow men, more who were working for the public good instead of the private pocketbook, more who have strong political convictions but do not use them for selfish benefits, then we should not have much to fear for the well-being of our governments.
Give us more men of the Joe Monroe stripe, and you would not hear of the West Texas Chamber of Commerce or any other organization passing resolutions condemning the mercenary motives of some relief workers.

A Prayer of Memory.

ON POPPY DAY, MAY 26.
"Let us forget, dear God, the hate that started
A war that rent the world, itself, in twain;
Let us forget the shrapnel's bitter rain;
The screaming shells that soared and dipped and darted.
But let us not forget the broken hearted,
Who never more will look on life again
Without a sense of loss, a sigh of pain—
And let us not forget the loved ones parted!"
They are the war! These men who will never be whole again, because of an uncivilized and brutal conflict. These men who, long years after the Armistice Day, are still suffering. To the thousands of disabled veterans fighting this grim battle, the tragedy of the World War is not a memory; it is still a heart-breaking reality, returning with every daybreak and lingering through the night, as they lie sick and helpless in hospitals throughout the land. Very few of them were ever recognized as heroes; very few of them understand of what the altar upon which they were sacrificed was made. They were just a group thrown into mass formation, into a stopen of battle. Just as a shovel full of separate lumps of coal is thrown upon a furnace so that a roaring, annihilating fire may be induced. They are, today, the ashes of a fire that has left in its wake. The ashes of a fire that was built as the pagans, dim centuries ago, builded their fires to strange demanding gods—to the gods of lust and power and greed.
The Flanders poppy won the heart of every American soldier by weaving a mantle of beauty over the hastily dug battle graves, sending out a message of courage and hope to those who still lived.
Today, long after the war has ended for us, a little red crepe paper poppy lifted a gay banner of courage in 56 hospitals over our land.—By the Legion Auxiliary.

EDITORIAL OF THE WEEK

THE TAX DODGER.

County Judge Lewis of Sweetwater told the West Texas Chamber of Commerce at San Angelo that "the delinquent tax payer who is giving us trouble is the one who can pay and who won't." This is borne out by surveys which show that the larger part of the total delinquent taxes is owed by a very small percentage of the total number of taxpayers delinquent. Judge Lewis advocated a "system whereby property owners would be forced to show why taxes are delinquent." Change "would" to "can," and we have such a system now.
Leniency of tax collecting officers extended to those who may not be able to pay is the cloak behind which habitual tax dodgers shelter themselves year after year. As a consequence, the tax rate required to supply government need of funds is higher. This, of course, does not hurt the tax dodger, but it does hurt the property owner who steps up and pays his taxes each year.
Present tax laws are sufficiently effective to catch the tax dodger who is able to pay without punishing the small property owner who may be unable to pay. There is no reason why county officials should hesitate to proceed against tax dodgers, who represent less than five per cent of property owners, and there is certainly no reason in gratitude of office holders for such hesitation. It is the 95 per cent, that pay in the money for the office holders' salaries.—Fort Worth Star-Telegram.

The world is being made safer in some ways. You very seldom hear now of a woman catching her heel on the ruffle of her dress and falling downstairs.

Financing for the homes of 1,000,000 families was supplied by the nation's building and loan associations during 1930-31-32, with a total volume of home lending of \$3,000,000,000.

World membership in Sunday schools increased at the rate of a million a year, during the past four years.

Do the duty which lies nearest to you.

showed an increase during the first 25 days of April of 28 per cent over March. Final March registrations showed an increase of 83 per cent over sales in February this year and an increase of 121 per cent over March, 1933.

Where Is the School-Going Child?

Something has happened to the school-going child in Scurry County this year. Scholastic census returns completed a few days ago reveal that Snyder has gained in scholastics while the county as a whole has lost. Two explanations might be given offhand. In the first place, Snyder has been the center of relief activities, and many families have moved in or near town as a result. In the second place, the county had a peak population a year ago, following the largest cotton crop in her history. It is quite probable, too, that many families of the type that drift in with good crops are not the type that would care a tinker's dam about having their children on the scholastic rolls—or in the school room.

Final Grammar School Exercises on Friday; Number of Awards Given

Thirty-eight grammar school students received their on-to-high-school diplomas Friday morning from the hands of R. S. Sullivan, principal.
Before the diplomas and other awards were given, Rev. S. H. Young delivered the class address, urging the students especially to reverence their parents in all things. Superintendent G. Wedgeworth was master of ceremonies.
Marilyn Roberts gave the class inspirational talk on "Past, Present and Future," following the invocation by Bro. O. D. Dial. The class song, "Voices of the Woods," with Mrs. Helen Rodgers as accompanist, was sung by the class. Elizabeth McCarty gave a reading, and Richard Brice was presented in a clarinet solo.
Medals were awarded to Joe Rue Lesley and Frances Head, who ranked highest in the class. Governor point system. Both were in the high sixth grade.
Certificates for excellent penmanship were awarded to nine of the graduates, as follows: Doris Wilson, Adell Watkins, Madeline Roberts, Gloria Sheid, Charles Harless, Dorothy Jones, Louise Hardin, Johnnie Sue Cogdell and Frances Clark. Twenty-two sixth graders received pins as tokens of their superior writing ability.
Mr. Sullivan announces that in a recent achievement test given the seventh graders, Charles Harless ranked first and Elizabeth McCarty was second.
Following is a list of grammar school graduates: Elwanda Allen, Len Aubry, Nelda Ballard, Orden Benbenek, Richard Brice, Mary Jane Carnes, Francis Clark, Johnny Sue Cogdell, Raymond Day, Louise Hardin, Charles Harless, Martin Harris, Mavis Jenkins, Dorothy Jones, Walter Jones, Madeline Joyce, Weldon Kincaid, Florence Lewis, Raynell Lightfoot, Elizabeth McCarty, Lu Velle Merritt, Lucile Neidecken, Marilyn Roberts, Valeri Robison, Gordon Rogers, Adelle

Rollins, Jackie Scarborough, Gordon Sentell, Wallace Smith, Cloma Smith, Bruce Taggart, Edwin Walton, Harvey Walton, Adelle Watkins, Maxine Watkins, Hazel Willis, Doris Wilson, Orene Wilsford.
Tavern Has Business.
Bob Gray reports a bustling business at The Tavern, which was recently opened on the southeast corner of the square. People have patronized his week-end specials regularly, he says. The Tavern made an error in advertising his double malted milk, a recent special, as containing two eggs—it should have read containing two dippers of cream. The Tavern is serving as this week's special an ice cream soda, with whipped cream topping, for nine cents.

BLACK-DRAUGHT For CONSTIPATION

"I am 71 years old and have used Theodor's Black-Draught about forty years," writes Mr. W. J. Vanover, of Home, Ky. "We are never without it. I take it as a purgative when I am bilious, dizzy and have swimming in my head. Black-Draught relieves this, and helps me in many ways."... Keep a package of this old, reliable, purely vegetable laxative in your home, and take it for prompt relief at the first sign of constipation.

Cream Producers

GET MORE FOR CREAM BY GRADING IT!

Under new rulings recently set out by the State Department of Agriculture, buyers of cream will be authorized to purchase only better grades of cream from producers in the state. This is made mandatory because of strict regulations now affecting the manufacturers of butter.

Effective June 1, 1934, all cream received by stations will be graded, and prices will be paid according to the grade. Your product will bring a better price if you will bring us only the higher grade of cream. The following regulations will govern grading effective June 1:

First grade cream is cream that is slightly sour, clean to the taste, free from objectionable flavors and odors, and free from foreign material or matter, and to contain not less than 25 per cent butterfat.

Second grade cream shall be defined as cream that is too sour to grade as first grade sour cream, and shall be free from foreign matter, but may contain slight off flavors or odors.

Third grade cream shall be cream that will not qualify as first or second grade cream, and shall include all cream containing oil, dirt, musty, onion or other disagreeable flavors or odors, or foreign fats or scrap butter, that would render it unfit for human consumption.

THIRD GRADE CREAM SHALL NOT BE ACCEPTED AT ANY PRICE!

We Want to Give You the Best Prices For Your Cream—You Can Help Us By Bringing in Only Good Cream.

Tire Performances Reveal Leadership

According to Horace Eiland, local Firestone dealer, the new Firestone high speed tire for 1934 is the last word in tire construction.

"In no product today is there wider performance difference than in the various makes of tires at high speeds," Mr. Eiland said. "No other product is more vital for safety of motorist. The 500-mile race of past years at the Indianapolis speedway was recognized as a race of tires. To keep the tread on the body of the tire was the greatest problem due to the terrific strain and the heat generated by internal friction at high speeds. Gum-dipping was the answer of Firestone engineers.

Junior National Honor Group Has Been Organized

A junior chapter of the National Honor Society was organized for the local schools Friday afternoon at Wolf Park, with 11 students as charter members.

Initiation for the new society members included furnishing and serving a picnic lunch at the park, selling stamps in the business sections for the benefit of crippled children, and performing various stunts.

Membership cards were issued to Marie Oliver, Joetta Besuchamp, Florentz Winston, Virginia Yoder, Dorothy Terry, Victor Baze, Doris Davis, Virginia Egerton, Josephine Kelly, Horace Young and Charles Burk. This group, with the exception of Virginia Egerton, participated in the Wolf Park activities.

The following teachers were also present: C. Wedgeworth, R. L. Williams, W. W. Hill, W. P. Cox, and Misses Elizabeth Ward, Effie McClelland, Maurine and Mattie Ross Cunningham.

These members of the senior honor society were also present: Virginia Will, Melba Clark and Mabel Watkins.

The society was formed for the benefit of the lower high school classes, with the following purposes in mind, as indicated by the constitution: "To create an enthusiasm for superior scholarship; to stimulate a desire to serve faithfully one's school, community and country; to promote trustworthy leadership; and to instill exemplary qualities of character in the pupils of the 8A, 9B, 9A and 10B grades of the Snyder school."

Ten members of the senior society were also voted in Friday, as follows: Scyble Burroughs, John Blaisey, Pauline Jenkins, Tommie Reed, Delaine Shamblin, Edna Mae Dunham, La Frances Hamilton, Clyde Sturdivant, Dessie Mae Caton, Geneva Glascock.

The senior society group has practically the same objects as those named for the junior group. It is
