### County Dads Turn Thumbs Down on H. D. Agent After February

#### H. M. BLACKARD VOTES ALONE TO APPROPRIATE FOR WORKER

Work of Miss Nellie Ward Would End After This Month Under Late Court Action.

The county Commissioners' Court, by a vote of three to one, said in special session last week that "no appropriation has been made to pay for services of a county home demonstration agent for Scurry County for the year 1935."

H. M. Blackard of Precinct No. 3 cast the only "no" vote on the proposal that the court notify the Extension Department of Texas A. & M. College that the work of the agent will not be supported by the county this year.

Forest Jones of Precinct No. 1 presented the motion, with H. E. Brock of Precinct No. 4 seconding. Holly Shuler of Precinct No. 2 added his vote of approval.

Miss Nellie Ward began service as home demonstration agent of this county in June, 1934.

A month's notice was given, in accordance with the agreement entered into with the Extension Department in the spring of 1934.

The county has been paying Miss Ward \$50 monthly from the general fund special, from which warrants are payable almost up to date. It was voted last week by the court that the February salary should be paid from the general fund, on which warrants can be cashed only at a discount of 20 per cent and up.

Representatives of local study clubs and of home demonstration clubs are making plans to appear before the Commissioners' Court Monday in an effort to have the decision rescinded.

During the seven-month period, June through December, Miss Ward organized 24 girls' and women's clubs, with a total enrollment of 480 members from 429 county homes.

#### LUBBOCK JURY TRIES BADMAN

Virgil Stalcup is on trial for his life at Lubbock this week, charged with the slaying of Sheriff W. B. Arthur of Dickens County in a jail break last October 27. This is the third day of the trial of this young West Texas badman who already has 254 years of imprisonment stored up for future use.

Implicated with Stalcup in the jail delivery is Clarence Brown, formerly of Snyder, who is held in the Lubbock County jail. Brown does not have quite so many years ahead in the penitentiary as Stalcup, but one life imprisonment term is on his record.

Mrs. Brown was arrested in Snyder Saturday by local officers, at the request of Sheriff John Koonsman of Dickens County, District Attorney Dan Blair and the Lubbock County attorney, who lodged her in the Lubbock County jail after taking her in tow here. She is suspected by officers of having slipped the death-dealing gun to Stalcup and her husband before their escape at Dickens.

#### New Car Tag Plan Outlined for State

For the benefit of those who are not yet in the clear concerning the new Texas automobile registration plan, Tax Collector-Assessor Bernard Longbotham presents the following facts:

House Bill 6 passed by the second called session of the 43rd Legislature changed the automobile registration year from January to April 1.

It is unlawful to operate an automobile in this state during February and March of this year unless it has been registered for the unexpired portion of the 1934 registration year and has attached thereto 1934 license plates.

It is unlawful to attach 1935 registration plates before midnight, April 1, but the new plates may be obtained now at the collector's office.

Mrs. Brown was arrested in Snyder Saturday by local officers, at the request of Sheriff John Koonsman of Dickens County, District Attorney Dan Blair and the Lubbock County attorney, who lodged her in the Lubbock County jail after taking her in tow here. She is suspected by officers of having slipped the death-dealing gun to Stalcup and her husband before their escape at Dickens.

#### Penalties to Be Remitted on All Delinquent Taxes

Action of the City Council Monday night and of the local school board Wednesday afternoon made it possible for taxpayers to have penalties and interest on delinquent taxes remitted until March 15, 1935.

The two bodies passed resolutions sanctioning the plan laid down by the fourth called session of the 43rd Legislature for remission of penalties on state and county taxes due before August 1, 1934.

City and school taxes for 1934 may also be paid until March 15, without penalty and interest, but a small penalty must be paid on current county and state taxes.

Bernard Longbotham, county tax collector-assessor, states that a number of taxpayers are taking advantage of the new plan, and J. S. Bradbury, collector of city and school taxes, makes the same report.

The two collectors state that late January tax paying for 1934 showed a higher figure than they anticipated.

#### OPTIMISM FOR HOSPITAL PLAN IS INCREASING

Committeemen Report New Pledges As Success of Financial Drive Nears Realization.

Optimism was the keynote of the hospital committee's report to The Times late yesterday.

"We are more convinced than ever before that a modern hospital will be erected in Snyder shortly, along the lines suggested last month," a committee spokesman said.

New pledges during the past three days have hoisted financial prospects within seeing distance of the \$20,000 goal for a 14 bed hospital and complete equipment.

The committee points out that the financial drive is being conducted on a sure footing, just as preliminary plans were made. They report that many citizens have expressed their willingness to sacrifice "to the bone" in order to insure erection of a hospital of which Snyder and her entire trade territory will be proud.

#### School Music Tops Program Heard by 110 Teachers Here

#### SCURRY COUNTY FARMERS WERE Agent Says Farmers Did Best They Could COOPERATIVE IN COTTON SIGN-UP

"For the most part the farmers entered into the sign-up with a spirit of complete cooperation and tried to assemble their production records to the best of their ability," writes County Agent W. R. Lacey in his annual report for the year 1934. The agent gives the following summary of the cotton acreage reduction campaign of 1934-35:

"During the first week of January a district meeting was held in Snyder to present plans for the 1934-35 acreage reduction program. From then on the campaign was under way, first with talks at the various community centers over the county, and then the farmers were busy assembling the necessary facts to prepare a contract, the last few days of January being a mad rush to complete the sign-up by the then existing deadline.

Estimates Difficult. "Due to the fact that farmers' records were poor or totally lacking for the early years of the base period, and the years 1932 and 1933 were years of very good production, there was a tendency to overestimate the production during the earlier base years.

"As a result, after the county and community committees had made a

"The producer shall... endeavor in good faith to bring about the reduction of acreage in this contract in such a manner as to cause the least possible amount of labor, economic and social disturbance, and to this end, insofar as possible, he shall effect the acreage reduction as nearly ratably as practicable among tenants on this farm;

"Shall, insofar as possible, maintain on this farm the normal number of tenants and other employees; shall permit all tenants to continue in the occupancy of their houses on this farm, rent free, for the years 1934 and 1935, respectively, (unless any such tenant shall so conduct himself as to become a nuisance or a menace to the welfare of the producer);

"During such years shall afford tenants or employees, without cost, access for fuel to such woods lands belonging to this farm as he may designate; shall permit such tenants the use of an adequate portion of the rented acres to grow food and feed crops for home consumption and for pasturage for domestically used livestock; and for such use of the rented acreage shall permit the reasonable use of work animals and equipment in exchange for labor."

#### County and City On Ground Floor Of Public Works

Scurry County and the city of Snyder assured themselves of the ground floor positions on Uncle Sam's new gigantic public works appropriation that is now pending before Congress.

The county sent Councilman W. J. Ely to a state-wide meeting at Dallas last Friday, where possible projects were submitted from all parts of Texas.

Speakers pointed out that the proposals were strictly in the nature of a survey of public works possibilities in the state, but that a project would probably not be considered late unless it is listed before February 11.

Among tentative city projects are: Curbs along the new Highway No. 7 right-of-way, new Deep Creek bridge for 27th Street, street work for 150 city blocks, improvement of Avenue S dip over Deep Creek. The county submitted a number of proposals from the four precincts.

A united nation—North, East, South and West—will pause next week to remember the sacred heritage he left.

#### SLOW DRIZZLE VISITS COUNTY

A slow drizzle several hours Wednesday tapered off early Thursday morning to a heavy fog in Scurry County's gift from the heavens this week. Most of the county has benefitted from the light precipitation.

Cloudy weather and light fog continue as The Times goes to press Thursday at noon.

The drizzle, with its moderate temperature, is a distinct blessing to the county, say farmers and ranchers, although the total fall has been less than a quarter inch.

#### ELEVEN AND A HALF MILES OF NEW ROUTE TO BE COMPLETED

The resolution guarantees that no center parking will be allowed on highway streets through the business district, that no signs or semaphores giving preference to local routes will be erected, and that no speed limit less than 20 miles per hour will be set in the city limits.

Mr. Rogers, local veteran in the cleaning and pressing business, stated before he left Friday for Phoenix, Arizona, that he was forced to leave Snyder in an effort to regain his health, which has been on a downward grade for several years. He was accompanied by Mrs. Rogers and two children, Jay and Lola Jo. Netha Lynn, the eldest daughter, who is a senior in Snyder High School, will remain here until close of the school term in the spring.

Mr. Rogers was a local leader in civic, school and church affairs for more than 20 years.

Joe Graham announces that he is making no change in his business. Brandon Moffett, associated with the firm for several years, will continue at his old job. Addition of new equipment recently makes it easier to serve folks in the Snyder territory. Mr. Graham said yesterday. The plant will also continue to handle men's suits, trousers and overcoats.

#### Farmers Urged to Get in Touch With Farm Enumerators

Farmers of Scurry County who were not enumerated in the farm census that was conducted during January are urged by K. C. Holmes, district supervisor Lubbock, to get in touch with the enumerators of their precincts.

"It was rather difficult for the enumerators to make a check of every farm in the county, due to the fact that so many farmers were either away from home, or were moving from one community to another," the supervisor advises The Times.

Unenumerated farmers who cannot get in touch with a precinct enumerator are invited to write the district office.

Enumerators who worked in this county are as follows: M. W. Boussett, Precinct 1; John T. Cargile, Precinct 2; W. C. Hooks, Precinct 3; J. S. Neal, Precinct 4.

Miss Jimmie Squires, a close friend of the bride, and Horatio Littlefair, both of Cleburne, attended the couple.

## THE WEEKLY DOZEN

**But the Pocketbook Smiles.**  
Talkative Billie says the groundhog's forecast of wily weather for six weeks is giving cold shivers to prospects of an early spring wardrobe.

**Helping the Individual.**  
"Everything that we do with intent to increase the security of the individual will, I am confident, be a stimulus to recovery."—President Roosevelt.

**Give Hauptmann the Credit.**  
Pessimism Pete says Bruno Hauptmann must be credited with at least one good point: He has stretched the American vocabulary to include a whole parcel of new "furrum" names.

**Not to Mention Saxophone Players.**  
A well-known cartoonist says he has three pet aversions: Men's quartets, after-dinner speakers and radio announcers. We suggest that he add ground-hogs and road hogs to the list.

**It's Not Worth the Trouble, Fellers.**  
One of Snyder's street-corner philosophers suggests that would-be safe-crackers should be gently advised that their risk and trouble would hardly be rewarded at 25 cents an hour even if they were to break into a local safe every night.

**Blessings on Thee, Cold Weather.**  
Human beings have a way of forgetting the blessings that usually accompany disaster. Take the recent heavy freeze, for example. "Destruction of insects by frigid weather," says the Santa Fe bulletin for February 1, "offset many times the damage done to livestock and crops." On top of insect destruction, says the bulletin, "the severely cold weather added appreciably toward an improved soil condition."

**They Are Passing Fast.**  
All of us need to be reminded that the settlers of this West Texas of ours are fast passing from the stage of a new generation. We need to reverse them for their hardihood and their courage in the face of conditions that modern West Texans could not and would not endure. "Uncle Billie" Nelson was one of these never-say-die pioneers whose life helped make of Scurry County a richer land of promise and fruitfulness. His rugged stripe cannot be replaced.

**Glad to Hear It, Mr. Capers.**  
"Contact with the state's editors—particularly the country weekly publishers—gives the legislators an opportunity to learn what the boys and girls in the 'forks of the creeks' are thinking about state affairs," writes Julian Capers Jr., one of the state's prime publicists. Thanks, Mr. Capers, but that's nothing new to us. The legislators have usually been willing to get all they can from country publishers, but they hesitate to give anything aside from adverse legislative digs.

**Two Noses in the Pork Barrel.**  
Postmaster General Farley is bringing a lot of wrath onto the head of the administration because he persists in bossing the post office and the Democratic party at the same time. It would seem to the average political observer that if he wants to continue control of the party he could at least hand the title over to another faithful cohort. As the impetuous Senator Norris has said, it just doesn't look righteous for a single man to hold post office plums in one hand and the remainder of party plums in the other.

**Whiskey Takes the Steering Wheel.**  
In a statement issued last week, the Industrial News Review, published by hard-headed business men, said: "In a recent series of graphic bulletins, the National Safety Council points to a tremendous increase in drunken driving during the past year—and to a substantial gain in the number of deaths and injuries due to mixing alcohol and gasoline. The first 12 months of repeal may have been beneficial in some respects—but it left a devastating trail of death behind it. Severe as the drunken driving problem was during prohibition, it has become doubly severe now."

**A Few Choice Clippings.**  
Here are a few choice clippings, agree with them or not: "Politicians shout their heads off for a few cents reduction in my light bill, to curry favor; but they never open their mouths about the sharp practices in merchandising, which are permitted daily." "Destruction of private business means destruction of constitutional rights." "Reports from the 12 states served by the Santa Fe Railway indicate that the general outlook for agriculture this year is one of continued improvement due to reduced supplies, expected increases in the purchasing power of consumers and brighter prospects for crops."

**Texas Is One of Six.**  
The national business map reveals that Texas is one of six states in the Union that finds business not so good as it was a year ago. Alabama, Utah, New York, Vermont and New Jersey are the others. Five states are hitting at just about the same average. All the rest of the states are in a better position. On the surface, that looks bad for Texas. Beneath the surface, it is fine for Texas. We have just issued from a serious drought, yet business shows only a slight downgrade from a year ago. Give Texas a fair crop this fall, and you will see her sitting on top of the heap, where she has usually roosted since 'way back yonder.

**The Times Creed:**  
For the cause that needs assistance;  
For the wrongs that need resistance;  
For the future in the distance,  
And the good that we can do.

## "Will the Hospital Be Built?"

"Will the hospital be built in Snyder?" That burning question has been asked of The Times so often in recent days that an answer will be attempted in print. It has assumed almost the proportions of that everlasting West Texas question, "When will it rain?"

The Times firmly believes that the hospital will be erected. It believes that the central Chamber of Commerce committee, backed by the vast majority of folks in the county, will successfully surmount the financial obstacle, and that actual work on the building will begin within a short time.

On the basis of need alone, there are a paltry few who would argue against a hospital of modern proportions for Snyder and Scurry County.

Health is the first requisite of happiness for the average person. How many Scurry County people, during 1934, would have given all their worldly possessions for a complete hospital within a few minutes' run of their homes? "If we could only have gotten him to a hospital sooner!" is the heart-rending cry that has echoed through Scurry County many a time recently.

In the final analysis, an all-service, capably-manned hospital is today's "protection against the ravages of acute and chronic disease. That is the first and the last reason for carrying this hospital idea to a successful conclusion.

A complete hospital of the type suggested by the Chamber of Commerce committee would certainly be an economic blessing. Tens of thousands of dollars are leaving the county annually for surgeons' and hospital fees. Other thousands are being spent on car bills, hotel and eating bills, and other expenses incidental to having loved ones and friends in out-of-town hospitals.

The need for a hospital, then, is practically unquestioned. But it will not come simply by wishing, or by depending on the key workers and their helpers. It will come by hard work and sacrifice, just as all other good things come.

Snyder and Scurry County can do the job, and they will do it, The Times confidently believes.

## EDITORIAL OF THE WEEK

**SIGNS OF PROSPERITY.**  
For evidence of "better times" which have followed the higher tobacco prices this year, writes George B. Bryant Jr., in the Wall Street Journal, the farmer about the county court houses and crossroad stores through North Carolina offers a few readings from the rural business barometer.

The once well known "Hoover-carts"—made from the rear wheels of the family car, equipped with a light cart body, and drawn by a mule—have been replaced on the highways by new and used automobiles.

Patent-medicine men, with their bags of tricks and "cure alls," have been plentiful this season. The big circus had a full tent each night. Farmers are again carrying check books. Farm homes and buildings show signs of recent repair.

The lightning-rod salesmen, almost unheard of for the past several years, are again making the rounds.

Supporting these old-time prosperity indicators are the actual business gains boasted by automobile dealers, merchants and bankers.—Salisbury (Mo.) Press-Spectator.

## McCRAW SHOWS DIPLOMACY.

William McCraw, the new attorney general of Texas, has shown commendable diplomacy and statesmanship in his remarks about the hotly contested "land litigation," which has caused so much turmoil in West Texas in years past.

One of the principal reasons why many parts of West Texas opposed Mr. McCraw's candidacy during the past campaign was that it was generally believed McCraw would "crack down" on West Texas land-owners who have victimized by ambiguous legislation relative to the leasing of lands in West Texas originally purchased from the state.

McCraw's first public utterance on the subject, released in daily papers this week, was to the effect that he would proceed with caution, recognizing there were two sides to the question and that his office would endeavor in every way to keep uppermost the best interests, both of the state school board, and of the many honest men and women in West Texas who would be made the "goats" of such litigation.—Pecos Enterprise.

## Life Insurance, Sure Enough.

All this talk of old-age pensions brings out the fact that several million Americans are writing their own old-age pension acts. A few years ago life insurance was really death insurance; most insurance money was paid to beneficiaries." In 1934 it was really "life" insurance, for more insurance money was paid to living policyholders than to beneficiaries. A few cents a day saved by old persons when they were in their twenties and thirties would give them the protection they are now seeking through the government. Let us pray that the new generation will save its pennies and nickels, and invest the coins in insurance or some other form of protection.

## Final Rites for Pioneer Held in Snyder Saturday

Final rites for W. W. (Uncle Billie) Nelson, 77, who died Wednesday evening of last week from a sudden heart attack, were held at the First Baptist Church Saturday afternoon, with Rev. Lawrence Hays, pastor, officiating, assisted by Bro. O. D. Dial of the Snyder Church of Christ. The body was held at the Odom Funeral Home and at the family home in West Snyder for three days, awaiting the arrival of an only son, W. W. Nelson Jr., from Los Angeles, California.

Burial was in the Snyder cemetery, with members of the Masonic Lodge as pallbearers and conductors. Active pallbearers were H. L. Davis, Sid Bruton, H. G. Towle, O. P. Thrane, J. G. Lockhart, A. C. He was the county tax collector for two terms—1931 to 1935. His first wife died a number of years ago, and he was married in 1933 to Miss Ella Snider, who was at his bedside when he died at the home.

Mrs. Nelson, the son from California, one daughter, Mrs. C. L. Ezell of El Paso, and a second, cousin, J. P. Nelson, of Snyder, who lived with the pioneer for several years, are the immediate survivors.

Mrs. Ezell is remaining in Snyder for several days. Her husband, with whom she came from Paris, Texas, where he is temporarily stationed, returned late last week. W. W. Nelson Jr. was accompanied from California by a son, W. W. Nelson 3rd. Other out-of-town relatives and friends who attended final rites were: Mr. and Mrs. J. W. Ezell, Lewis Ezell and Mrs. J. H. ## BETHEL COURT TEAMS ON TOP

Bethel senior boys won the Ennis Creek invitation basketball tournament Saturday, whipping Pleasant Hill and Turner to take the first honors. They also won the title last year.

At the same time, the Bethel junior boys' team took first honors, and the Bethel girls' team was eliminated in the finals by Turner, 13 to 12.

Eight girls' and boys games were played in the tournament, according to C. S. Harris, principal of the host school. "The success of this meet proves that there should be more invitation meets in the interest of rural schools," declared the school man yesterday.

## WHEN YOU TAKE A LAXATIVE

... use a spoon

It isn't what brand of laxative you take that's so important—it's the form. A liquid laxative can be taken in any required amount. If only a little is needed, you need never take a bit too much.

Doctors favor the easily measured liquid laxatives. Instead of any form that does not encourage variation from the fixed dose. A fixed dose may be an overdose for you—or your child.

Always remember this one thing about constipation: the secret of any real relief is reduced dosage.

Give the bowels only as much help as may be needed, and less help as the need grows less. You will find Dr. Caldwell's Syrup Pepsin an excellent aid in regulating the bowels. It contains senna and cascara (natural laxatives) and it will clear-up any bilious, sluggish condition without upset. Delightful taste, and pleasant action. Your druggist has it.

# Edd Dodds Celebrates First Birthday In Snyder

## RED & WHITE GROCERY SHOWS APPRECIATION WITH SPECIALS

The first anniversary of Edd Dodds' Red & White store in Snyder will be celebrated this week-end by the south side grocery.

In observance of the event, Manager Buel Fox announces a household of crisp specially-priced merchandise, plus demonstrations of food products for the benefit of anniversary sale visitors.

Several wholesalers, manufacturers and jobbers are joining Scurry County in saying "Congratulations!" by running paid advertisements on this page and the opposite page.

Edd Dodds has been in the grocery business so long that he can hardly remember when he sold his first sack of sugar and his first can of sardines.

Since 1912, he recalls after a bit of head-scratching, he has supplied folks of the Roscoe country with groceries, meats and other supplies that a well-manned grocery store is supposed to carry. Nor is Buel Fox, genial young manager of the Snyder store, a newcomer to the grocery business. He began handling spuds and flour

for Mr. Dodds at the Roscoe store a dozen years ago. A year ago he came to Snyder as manager of the store that his "boss" had just purchased from Joe Taylor.

### Time-Honored Slogan.

At the end of his first year of business in Snyder, Mr. Fox points to the time-honored Edd Dodds slogan, "No long waits, no short weights," as the chief secret of the store's success.

"Folks from Scurry County who had long noticed the unusual slogan on the Dodds building at the intersection of Highways 1 and 7 at Roscoe, have learned during the past year just what it means," the local manager says. "The first part of the slogan simply means that we have what people want, and know how to serve them courteously and efficiently so that they will come back again. 'No short weights' means just what it says. The customer always has the benefit of the doubt. An Edd Dodds employee does not know what it means to cheat the customer out of pennies and nickels."

### Dodds Thanks Folks.

While in Snyder early this week to help make final arrangements for the special anniversary sale, Mr. Dodds told The Times that he is well pleased with the reception given his year-old store by folks from Scurry County and adjoining communities. "In spite of depression and drought," he said, "we have established a steady volume of business. We believe that the future has in store even greater growth, regardless of the turn of crops."

"Of course I cannot see every customer personally, but I want them to consider this special sale and these few words as my way of saying:

"Thank you, folks, for enabling us to celebrate our first Snyder anniversary in great style!"

People would rather be amused than instructed.

### GAINED 20 POUNDS IN TWO MONTHS

"Up to two months ago my stomach was in such a bad condition I could not even take a cup of coffee in the morning without being in distress for two or three hours. I bought a bottle of your Emulsion and it helped me from the start, so much so that people thought something had happened to me all of a sudden."

"Since then I have used six bottles and now I can get up in the morning and eat corned beef and cabbage, my stomach is in such good condition."

—E. H. Knobloch, 1955 Lincoln Ave., Chicago, Ill.

Milks' Emulsion restores healthy, natural bowel action.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Wonderful for weak, sickly children. You are urged to try Milks' Emulsion. Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

## MOTHER! don't experiment with your Child's Cold

### VICKS' VAPORUB

Often, "mere colds" have serious consequences. It is dangerous to neglect a cold—equally dangerous to experiment with half-way measures.

Feel safe! Use Vicks VapoRub—the proved external method of treating colds. No risks of constant internal "dosing," which so often upsets delicate digestions and lowers resistance when most needed.

### DOUBLE DIRECT ACTION

Just rubbed on at bedtime, VapoRub fights a cold direct—two ways at once—by stimulation and inhalation. This combined poultice-vapor action loosens phlegm—soothes irritated membranes—eases difficult breathing—helps break congestion. Often by morning the worst of the cold is over.

### Demonstrations of Advertised Brands Featured Saturday

Saturday will not only be one of the special anniversary sale days of foods at the Dodds store, but will mark demonstrations of several products in the grocery. Patrons and friends are invited to call during the day and receive courtesies offered by the concern and distributing houses.

Maxwell House coffee, made fresh every hour right in the store, will be served with cream and sugar to everyone who calls. This famous coffee will also be offered at special prices from shelves of the Dodds grocery.

Supreme Bakers products will be served to those who call during the day. These products, from ovens of the Merchants Biscuit Company, have been handled at the south side store ever since the place was opened.

### Abilene Man Taking Over Produce Plant

J. M. Hudson of Abilene late last week became manager of Snyder Produce Company to succeed Felix Parker.

Mr. Hudson has been associated with the Western Produce Company at Abilene for five years. He is acquainted with all phases of the business, having worked in the grading, shipping and business office divisions. Mr. and Mrs. Hudson have an apartment with Miss Elizabeth Smith in South Snyder.

Mr. and Mrs. Parker have moved to Dallas, where the former local man will be associated in business with his father.

### Flour From "Most Modern Mill" Sold By Dodds Grocery

One of the leading items handled by the Dodds store during its year of growth has been Yukon flour. Other products from this mill are found in the store as well.

"The most modern flour and cereal mill in America" is the way some have described the Yukon Mill and Grain Company, manufacturers of Yukon's Best flour. The plant covers several acres, embracing a number of modern elevators and mills.

Yukon's Best flour is followed by Yukon's Western flour and Yukon's Best meal, both also handled by the Dodds store.

### Former Resident of Union Section Dies

Mrs. Cynthia Ann Gorman Heaton, 77, who resided in the Union community in 1917 and 1918, died late last month at the family home near Alvarado, friends here have learned. She was the mother of Mrs. Henry Shuler, recently of Snyder, who is now located, with Mr. Shuler, at Fort Worth.

Mrs. Heaton had been a resident of Johnson County for 40 years. She had been ill for many months. Mr. Heaton, five daughters and a son survive.

### STORE PRIDES ITSELF ON MEAT MARKET; SCURRY CATTLE USED

Edd Dodds store prides itself on the fine market it operates in the rear of the popular south side grocery. A complete line of fresh and cured meats is stocked at all times, as well as a variety of cheese, lunch meats, etc.

A nationally-famous Ed Friedrich display counter is used to properly show the market items, in which safe and sanitary principles are uppermost. A Frigidaire refrigerating unit insures ample cooling methods for the large storage box and display counter.

For several months the Dodds market has specialized in Scurry County raised beef. Choice stock has been bought here, then penned in preparation for slaughtering. Not only has sanitation of the meat been stressed by the Dodds store, but fresh-from-slaughtering has been an aim of the market to assure the south side store's patrons of only the choicest meats while they are flavorful and sweet.

# ANNIVERSARY Sale

—How time flies! Just a year ago Edd Dodds came to Snyder and opened a modern, sanitary Grocery and Market. Now we are happy to celebrate our first anniversary in appreciation of the response accorded our low-margin policy of giving greater values by operating on a strictly cash basis—Passing on to our customers that portion of the cost which otherwise would be charge to overhead.

—Because of our system, we feel somewhat proud of the fact that Dodds' has brought about savings to those who have purchased from our store. We shall continue to maintain this money-saving policy for our patrons and friends.

Too, Dodds' feels so somewhat elated at the fact that we have become known in the Snyder trade territory as the pace-setter in the Grocery and Market business.
