

COUNTY REJOICES OVER MONDAY'S SNOW, RAIN AND SLEET

Cotton Contract Sign-Up Slated to Begin in Scurry Next Tuesday

Full Support of Farmers Expected by County and Community Committees

Tuesday, March 19, was set yesterday by county and community cotton committees as first sign-up day for 1935 contracts.

Members of the county committee are confident that the support of practically all farmers will be secured, since the 1935 program is entirely the farmer's own set-up.

Efforts are being made to speed up contract signing in every way possible. The committee is hopeful that last year's delays may be avoided, and that the entire program may be completed in a short time.

Non-1934 Signers Expected.

A number of non-signers in 1934 are anticipated for the new program. Last year there were 1,152 contract signers, or about 85 per cent of county producers.

In most instances farmers will be expected to sign contracts at designated places in their school districts. The county cotton committee will be in session throughout the sign-up period, ready to assist farmers whose contracts offer unusual features. In every case, however, the farmer must first contact his community committee.

H. P. Winters, A. M. McPherson and O. P. Thrane compose the central committee, which will remain in Snyder.

Community Committeemen.

Community committeemen are as follows:

Giles Bowers, Snyder; Ben P. Brooks, Plainview; M. W. Bavousett, Camp Springs; Frank Wilson, Ennis Creek and Lloyd Mountain; R. B. Woody, Pleasant Hill; G. M. Garner, West and Northwest Snyder; Union; W. B. Lemons, Union south to Turner and Arath; Charlie Bley, Fluvanna and Dermott;

R. G. Nabors, Canyon; Joe S. Griffin, Bison; J. E. Falls, Ira; Joe Hairston, China Grove; W. E. Wade, Dunn; J. H. Jean, Pyron and Inadale; H. A. Wimmer, German; W. O. Moore, Hermleigh.

Cotton Chief Comments.

C. A. Cobb, chief of the cotton production section of the United States Department of Agriculture, comments as follows concerning the 1935 sign-up and the national and international cotton prospects:

"The Agricultural Adjustment Administration has investigated the present supply, the probable market requirements, the probable carry-over August 1, 1935, of American cotton, and the foreign situation in an effort to determine the size crop that would bring producers the largest income in 1935. As a re-

sult of these investigations, it would seem that a crop of about 11,500,000 in 1935 should be planned for. While a crop somewhat smaller would in all probability bring a higher price per pound, the total income from the crop might be less. On the other hand, a crop materially larger than 11,500,000 bales would unduly depress the market in 1935 and make it difficult to reduce the carry-over to a desirable figure by August 1, 1936, and in this way would affect the 1936 price as well as the 1935 price.

Must Take Full Reduction.

"If the objective of a crop of approximately 11,500,000 bales is to be achieved in 1935, it will be necessary for contract signers to take the full 35 per cent reduction permitted

RELIEF LOANS WILL BE MADE FOR PLANTING

Special Funds From Federal Relief Administration Are Available In Scurry County.

Special funds have been made available to the Texas Relief Commission by the Federal Emergency Relief Administration for the purpose of making emergency seed loans for spring planting of commercial and forage crops. It was announced early this week by Adam R. Johnson, state relief director.

Joe Monroe, Scurry County administrator, states that the funds were made available here early this week.

"These funds have been made available to meet the emergency created by temporary lack of funds in the Farm Credit Administration which heretofore has made such loans," Mr. Johnson said. "Loans will be made in all cases of emergency regardless of whether the applicant is on relief rolls or not."

All applicants will be passed upon by the local county committees which heretofore have functioned under the Farm Credit Administration. It was pointed out, however, that no loans would be made to farmers who are able to obtain credit through usual commercial channels and that in cases where existing crop or chattel liens existed, waivers and non-disturbance agreements from such lien holders will be required before any loans will be approved. For non-relief clients, loans not to exceed \$50 will be approved.

Mr. Johnson said the Relief Commission will discontinue making these loans immediately upon resumption of activities by the Farm Credit Administration.

Grand Champion San Angelo Cow From Local Herd

A junior yearling heifer from the Winston Brothers herd, Snyder, was named as grand champion at the San Angelo livestock show that ended Wednesday.

The champion cow teamed with 10 other Winston Herefords to win nine places at the San Angelo show, which is rated as one of the top-ranking livestock exhibits in the state.

Winston animals won two second places, three third places, two fourth places, and one fifth place. The entire exhibit of 11 Herefords is being carried to Fort Worth, where they will be seen during the Fat Stock Show, which opens this week-end.

The Winston Brothers, Harrie and Wade, say the stock show promises to be the best in several years.

Director of Choral Singing Gives Rule

Miss Mildred Holt of Dunn, county director of choral singing for grade students, calls attention of teachers to a change in this year's union singing rule.

"In the official notices of the February Interscholastic League there is an exception to the union singing rule," she reminds. "In this year's selections there is a 'round' song ('Are You Sleeping') and it should be sung as a 'round.'"

B. B. CRIMM'S REVIVAL WILL BEGIN SUNDAY

Cowboy Evangelist and His Singer, H. M. Powell, Coming Under Baptist Auspices.

One of West Texas' best known evangelists, Rev. B. B. Crimm, comes to the First Baptist Church Sunday to begin a series of revival services that will extend into April. The cowboy evangelist will be accompanied by Prof. H. M. Powell, who will be in charge of music during the services.

Rev. Lawrence Hays, host pastor, announces that morning services will be held at 10:00 o'clock and evening services at 7:30 o'clock.

Rev. Crimm and Prof. Powell will come to Snyder from Paducah, Kentucky, where they conducted a month-long series of services. A Paducah newspaper says this of the services:

"More than 5,000 people heard B. B. Crimm, cowboy evangelist, at the Immanuel Baptist Church in four services Sunday. Approximately 2,000 persons jammed the building for the afternoon lecture, 'Bug Hunting.' It was estimated an equal number could not gain entrance to the building, which was packed to capacity an hour before the lecture was billed to begin. The day's services ushered in the third week of a month-long revival, during which more than 22,000 people have already heard the Texas evangelist. There were 50 professions and additions Sunday.

"Song services during the revival are in charge of Prof. H. M. Powell, who directs the choir of 80 voices. A specially constructed platform across the back of the building holds the large chorus."

Evangelist Crimm began revival work 21 years ago. A cowboy in inclination, he ran away from home as a boy and worked on a ranch near Ballinger. His conversion followed a visit to his parents' home just as he verged into manhood, and upon returning to the ranch his cowboy friends raised funds with which to send him to school. Most of his evangelistic work has been in the West, during which he has spoken to more than 18,000,000 people. His conversions exceed 104,000.

Tigers Planning Invitation Meet For Eight Teams

Eight high school track and field teams are expected to compete here Saturday in an invitation meet at which Coach W. W. Hill and his Tigers will be hosts. Athletes have been invited from Rotan, Post, Ira, Hobbs, Ralls, Roscoe, Fluvanna and other schools in this immediate area.

The Tigers took third place in a five-way invitation meet at Rotan last Saturday. Rotan was on top with 38 tallies. Post ranked second with 31, and Snyder was next with 25 1/2. Hobbs and Ralls trailed.

Beavers led the Snyder lads with firsts in the discus and the shot put. Morgan showed his heels to the pack in the mile, took second in the high hurdles, and fourth in the high jump.

Billy Mitchell was second in the 440-yard dash. Johnny Boren was third in the half mile race, W. D. Sanders tied for second in the high jump, and R. W. Hucklebaite climbed to fourth in the pole vault.

J. P. Tate, Finis Webb, Teddy Vinson, Fulton Strickland and L. A. Berry were other local contestants.

Miller and Watkins Operating Laundry

Mr. and Mrs. Coy Watkins became co-operators Monday morning of LaRue's Laundry, just east of the square on Twenty-Sixth Street. The local couple have taken over the interest of S. A. LaRue, and will continue in partnership with Bernie Miller.

The new operators state that they will conduct the business on the highest plane possible, giving courteous and efficient service to local patrons. Mrs. Watkins has been associated with the laundry for some time. Mr. Miller, formerly of Corpus Christi, purchased an interest in the concern several months ago.

Cowboy Evangelist Coming

Rev. B. B. Crimm, cowboy evangelist who originated in West Texas, comes to Snyder Sunday under auspices of the First Baptist Church. He will make his local appearance

SINGERS WILL CONVENE HERE

Singers from four counties will gather here in district convention during September, it was decided Sunday at the semi-annual session in Roby. The fall meeting will include the convention's annual business session.

Lawrence Dever, president of the convention, reports that more than 2,000 people were in Roby Sunday, and that a large group was present for the Saturday night singing. Scurry County had a large representation, he said.

In addition to singers from Scurry, Fisher, Nolan and Mitchell Counties, a number of non-district attendants were on hand.

Shrubs for School Grounds Yet Needed

A few plants—shrubs, rose bushes, hedges and trees—were received at the school this week as a result of last week's appeal, say school officials, but many more plants are needed.

People who have plants are requested to call No. 83. The gifts will be called for Tuesday and Wednesday of next week. All the plants will be used for beautification of school grounds.

Wolf Hunters Succeed.

Men and dogs in good number took to the Flat Top country near Deratt Tuesday night for a rip-roaring hunt. Three Santa Anna residents and several from this county combined their packs to give chase to several coyotes—and to round up a good-sized "cat."

Interscholastic League Debates Will Be Staged in Snyder March 19, 20, 21

Six boys' and six girls' debate teams will start Tuesday of next week on a round-robin schedule to determine the county Interscholastic League winner. Each team will debate twice each night from Tuesday through Thursday, beginning at 7:30 o'clock, in the Snyder High School auditorium.

This year's debate question is: "Resolved, that the government should own and operate all electric light and power utilities."

The schedule announced by E. H. McCarter Jr. of Fluvanna, county debate director, follows:

Tuesday, March 19, boys, 7:30 p. m.—Dunn vs. Fluvanna, Ira vs. Hermleigh, Pyron vs. Snyder; girls, 7:30 p. m.—Hermleigh vs. Fluvanna, Dunn vs. Snyder, Ira vs. Pyron;

FIRST COUNTY RABBIT DRIVES BEING STAGED

Thousands of Pests Already Wiped Out by Organized Groups of Shot-Gun Hunters.

The rabbit population of Scurry County has already been reduced by several thousand head, in drives staged in several communities. The first of the big drives were reported to The Times last week.

Community leaders have notified the paper of three drives slated for next week: One in the Crowder Canyon area Tuesday, another in the Mt. Zion section the same day, and a third six miles east of Hermleigh next Thursday.

The drive southwest of town is scheduled to begin at 8:00 o'clock at Ott Martin's north line. It will go south on a mile-wide front to Roy Sterling's place. The Mt. Zion drive will start at the church, on the Roby road, east of Snyder, and move eastward. Dinner will be at Marvin Snowden's.

The Hermleigh drive will start at the Henry Cajanek place and go east. Basket lunch will be spread at the J. A. Hood place.

Plenty of beef with trimmings is promised at the drives. All hunters who want to help rid the county of rabbits and at the same time enjoy several hours of sport and fellowship are invited to take part in the drives.

A drive in the Camp Springs country netted several hundred animals Thursday last week, and an Ennis Creek drive brought good results the previous day in spite of a healthy sandstorm. Ennis was scheduled to have another drive on Wednesday of this week.

Most communities report plenty of rabbits—and plenty of desire to see this menace to crops and pastures thinned out.

Veteran Farmer Of Knapp Taken By Death Mar. 9

Henry Richter, 63, one of the county's best known farmers, died at the West Texas Baptist Sanitarium, Abilene, at 8:30 o'clock Saturday morning, five days after a cancerous condition of the stomach brought a severe heart attack. He was ill several days prior to the attack. He was carried to Abilene Tuesday.

A brief funeral service was conducted at Odum Funeral Home Saturday afternoon by Rev. J. W. McGaha, with a number of friends and neighbors attending. The body was taken overland Sunday by Odum to Lockhart, where final services and burial were held.

Judge J. B. Fuchs of New Braunfels officiated at the graveside, as many friends of the locality where Mr. Richter resided until 1908 paid silent tribute. A spoken tribute was given by A. A. Bullock of Austin, formerly of Scurry County.

The veteran farmer left Kendall County, where he had resided for two years, in 1910, and settled on the place in the Knapp community where he was stricken last week. He was a member of the school board in his community for several years, and was a leader in farmer organization and other activities. He and his neighbors often entertained visitors from Snyder and elsewhere with golf, picnicking and other fellowship gatherings.

Mr. Richter was married in 1904 to Ella von Roeder, who survives him. Other survivors are two sons, Gilbert and Rudolph, who reside at the Richter home place; one daughter, Mrs. Kurt Ohlendorf, Lockhart; two brothers, Paul and Max Richter, Lockhart; three sisters, Mrs. Dirks and Mrs. Peter Klassen of Kendall County and Mrs. Adolf Bodemann of Lockhart.

Relatives of this section, in addition to the family, who were in Lockhart for final rites are: Nolan, Richard and Clemens von Roeder, R. H. Odum, Frank Farmer and Jim Lockhart. A. A. Bullock, Horace Holley and Manford von Roeder of Austin, and Herbert von Roeder of Ranger, all well known here, were also attendants.

Pallbearers at Lockhart were Joe Vogel, Henry Schultz, Martin McDowell, Herman Conrad, Frank Farmer, Mark Hande and A. A. Bullock. Mrs. Rust, Mrs. Manford von Roeder, Mrs. Kurt Bodemann and Miss Helen Ohlendorf were in charge of flowers.

Moisture, Like Manna, Beautiful and Beneficial to Drouth-Ridden Section

The moisture that drifted onto Scurry County from Monday skies was surely as beneficial as the manna that fell into the camp of the Israelites generations ago.

And the snowy flakes that composed most of the moisture must have been as beautiful to the eyes of drouth-ridden residents as manna was to the wilderness-wanderers of Old Testament days.

In Snyder, Mrs. Wesley Evans reports, the official fall of rain, sleet and snow was 1.13 inches. No part of the county, as far as The Times has learned, failed to get upwards of three-quarters of an inch of moisture, and a few localities reported as high as two and a quarter inches.

Not the Whole Story.

But figures tell only a part of the story. They do not reveal that

ONE-ACT PLAY PRELIMINARIES START FRIDAY

Hundreds of Folks Expected to Be In Snyder for First County League Event.

Proof that the one-act play contest is rapidly marching to the front as an annual Interscholastic League event is expected to be climaxed Friday and Saturday, when preliminaries are held at 8:00 o'clock in the Snyder High School auditorium.

Hermleigh, Pyron and Snyder plays will be presented, in order, Friday night. Ira, Fluvanna and Dunn will be on the Saturday night program. The two top plays will compete Tuesday night of next week, at 8:00 o'clock, for first League honors.

It is pointed out by E. O. Wedgeworth, director of this League event, that Garza County judges will be used for preliminaries and finals. Admission prices each night will be 20 cents for adults and 10 cents for children. Proceeds will be used to defray expenses of the contest and for purchase of trophies for county League awards.

Plans are being made for several hundred listeners to be on hand Friday and Saturday nights and for the finals contest Tuesday night.

Each of the six competing schools will present a vaudeville number between plays.

Following are the names of competing schools, the plays, they will present, their coaches, by night:

Friday—Hermleigh, "No Sabe," Mrs. A. P. Gannaway; Pyron, "The Flash," Victor Drinkard; Snyder, "The False Witness," Maurine Cunningham.

Saturday—Ira, "The Book," Farris Stevenson; Fluvanna, "The Mirage," E. O. Wedgeworth; Dunn, "The Flash," Gilbert Mize.

Willing Workers to Ira Methodist Meet

With three chapters represented and two pastors present, the Willing Workers Union of Methodist young people met in the Ira Methodist Church Tuesday evening. Representatives from Snyder, Dunn and Ira were present, and Rev. H. C. Gordon of Snyder and Rev. W. G. Anderson of Dunn were in attendance.

Following the program and a short business meeting under direction of Miss Ruby Curry of Snyder, union president, a social hour was enjoyed. Announcements were made that the Sweetwater district young people would meet for a district meeting in the First Methodist Church, Sweetwater, Saturday and Sunday. Plans were made for a number from the union to attend.

Son Born to Ottis M. Moores of Ranger

Coach and Mrs. Ottis M. (Red) Moore of Ranger, formerly of Snyder, announce the arrival of an eight and one-half pound son, David Yeary, at the West Texas Baptist Sanitarium in Abilene Monday morning.

Mrs. Moore and the baby are doing nicely, according to Snyder people, who have visited with them in Abilene this week. Mrs. Moore's mother, Mrs. C. W. Harless of Snyder, has been in Abilene during this week with her daughter and grand-

the combined precipitation was so perfectly timed that it soaked into thirsty fields and pastures. A county average of more than an inch of moisture to last month showers and snows of about the same amount, and you have a story that can be written only in raised hopes and polished confidence.

Bustling clouds rolled the north and west skies not long after darkness had closed the gates behind a Sunday studded with sunshine and beauty. By daylight the graycaps had flung themselves in all directions, and a chilly gust whipped them about.

Now Takes the Air.

A shower, interspersed with sleet, began in mid-morning. As the temperature gradually lowered, a moderate fall of snow dotted the skyline. Not once during several hours did it cease completely. It tapered off to nothingness shortly after dark, but only after the unusually wet and clinging flakes had built cathedrals and minarets on telephone poles, tops of buildings and tincan piles.

A few wires were broken under the heavy weight of ice and snow. A few cars went into snowy ditches.

But it was a glorious snow; a beautiful snow. Most of all, it was a snow that glistened with shiny new dollars that will emerge this fall from the womb of Mother Nature's moistened soil.

Lions Will Lead In Financing of League Trophies

Snyder Lions Club voted Tuesday at noon to lend full support to the county Interscholastic League meets this month, and to take the lead in raising funds for purchase of new team trophies. The club will endeavor to care for all contestants' entry fees, approximately \$50, it was decided.

The service club's action means that the entry fee of 10 cents per competing student, assessed by the League directors because no other method of raising sufficient funds could be found, means that contestants' tickets will be furnished through the county superintendent's office and paid for by local business men.

Committees will comb the business area for League support within two or three days.

The club voted, also, in its business session, to support Jimmie Greene of Colorado as governor of District 2-T, Lions International, when the vote is taken in district convention at Plainview next month.

The junior choral club members of the local school presented several numbers under direction of Mrs. Novis Roberts.

M. E. Savage was initiated and installed as a new member of the club, and J. R. Reeves was officially accepted as a transfer member from the Lamesa Lions Club.

MORE COTTON FUNDS COMING

More cotton money has been pouring into the county since receipt of \$44,553.50 in pool dividends early in the month.

The county agent's office received several more pool checks Saturday. Seventy-eight parity checks for \$1,947.43 were received Tuesday.

Those Pretty New Tags May Be Used

Don't worry about your new auto tags; that is, if you have the money with which to pay for them.

Just go down to the tax collector's office any time between now and midnight of April 1, purchase the pretty plates, and attach them to old Lizzie without fear of arrest or seizure.

But don't wait until after that deadline, or you might be picked up for violating Texas' new license plate law.

Another thing: If you are wise, you will do your license plate shopping within the next few days, for the collector's office predicts a last-minute rush that will force late comers to stand in a long, long line.

WHY WEAR Smoked Glasses INDOORS?

Smoked glasses deprive you of light — as they are meant to do when you peer at the sun. But indoors, if you do not have sufficient light, it is equivalent to wearing smoked glasses. Science has revealed that light is the partner of sight, and poor lighting is the chief cause of eyestrain and, perhaps, permanent damage to vision.

Floor lamps and table lamps, placed where you and members of your family read, are the solution to proper lighting in your home. We have a free booklet, "How to Light Your Home," which will aid you in arranging your lighting.

The girls won from Van, whose team went to the finals in the tourney last year. They lost to Breckenridge, which was eliminated in the next round by Brackenridge of San Antonio, winner of the meet.

Miss Effie McLeod, debate coach, Miss Velma Sharp, Virginia Yoder and Leslie Kelley accompanied the debaters to Abilene.

Both Lorraine debate teams are scheduled to meet the locals here this afternoon.

THE WEEKLY DOZEN

This Mail Business. Mr. Farley says the \$1,200,000 postal surplus is indicative of business recovery. Either that or more people are writing home for money.—Boston Transcript.

Praise for Hull Trade Pact. The Hull reciprocity program is notice to the world that Uncle Sam is ready to do business on the fifty-fifty basis with all comers. America has hoisted the banner of world trade peace. It is now for those who rally around it who will.—Washington Star.

Whooping Cough Is Dangerous. Babies should be safeguarded and kept away from persons known to have been exposed to whooping cough. . . There is no communicable disease which exacts a higher toll among very young children than whooping cough.—Dr. John W. Brown, state health officer.

Johnson Sets the Pace. For sheer enjoyment of political rough-and-tumble, commend to us Gen. Hugh S. Johnson, erstwhile captain of dragons, manufacturer of plows, falconer of the blue eagle and—in or out of office—phrasemaker extraordinary to the Roosevelt administration.—Christian Science Monitor.

Legislature High-Pedaling. The Legislature reached the halfway mark in its 120-day session, with final action taken on less than half a hundred of the 1,100 general bills poured into its hopper since it convened. But committees have been working earnestly on the big job of sifting the wheat from the chaff.—Julian Capers Jr.

Minorities and Mistakes. We must continue to recognize that incorrigible minorities . . . should not be allowed to write the rules of unfair play and compel all others to compete upon their level. . . I do not deny that we may make mistakes of procedure. I have no expectation of making a hit every time I come to bat.—President Roosevelt.

More Money for Schools? When one considers the tremendous wealth and resources of the state, \$20 per capita apportionment for every school child in the state is by no means an extravagant figure. The state of Texas might well adopt as a minimum an annual \$20 per capita contribution to the scholastics of the state.—Dr. Sam B. McAllister of North Texas State Teachers College.

What Makes a Small Town Small? One thing that makes small towns small is the long parade of vicious and mean gossip which always floats from mouth to mouth, most of it the product of someone's imagination colored to suit their own tastes for scandal, and so untrue that not a single person who tells it would look the victim in the eye and tell him to his face.—Abernathy Weekly Review.

An Anti-Sales Tax Argument. It is a surprising fact that notwithstanding more than 20 states when adding to the tax-burdens of the people promised to reduce the property tax and reduce the deficit, but the only state of the Union to actually reduce its deficit has been Texas. All the sales tax states where the new revenue was promised to do this—P. E. Morris.

A New Order of Buying, Selling. There is an evidence of a new and finer craftsmanship in buying, of the coming of a keen expertness in purchasing on the basis of the fitness of merchandise of machines to do a definite job. The new order of selling must match the new order of buying. Salesmen must have complete information. They must know exactly what tools, machinery or merchandise will do and why.—A printing trade bulletin.

Tidbits From the Mail Box. A newspaper office is the object of most publicity hunters' affections. Every mail brings a stream of good and bad reading matter that usually goes into the wastebasket after a casual glance. But out of the chaff of propaganda and would-be free advertising comes a trickle of information that is worthy of all acceptance. A few of those trickles are published in this issue's Weekly Dozen. They are not necessarily the opinions of the publishers.

Dear Old Brazos River. The Brazos offers possibly the best stream source in Texas for generation of electrical energy. From its headwaters in the plains of West Texas to its mouth near Freeport, on the Gulf, there is a total fall of more than 3,000 feet. . . The board of directors (of the Brazos River conservation project) contemplate no competition with public utilities. Rather, they hope to wholesale the energy to utilities and municipalities.—From a prepared article on the giant Brazos project.

The Green Pastures. The Lubbock Avalanche-Journal turned green with prejudice when "The Green Pastures," master road show with colored characters, threatened to invade the peaceful community of all-whites and gen-yew-wine Americans. Mother Nature proved in a few days (Sunday afternoon, to be explicit) that she knows no color line, for she enveloped the Lubbock area in a duststorm that was neither green, black nor white—but altogether see-proof.

The Season of Youth.

This is the season that brings forth the best that is in the youth of Scurry County.

From Friday night of this week, when one-act play eliminations begin, until the afternoon of March 30, about 600 youngsters of school age will vie for the honor of representing this county in the district Interscholastic League meet.

Any adult who has not lost the last spark of enthusiasm for the accomplishments of the younger generation will thrill with new hope and new ideals as the students pass from one contest to another.

The Interscholastic League is too often taken as a matter of course. Teachers and parents, as well as those who have no direct interest in the schools, are inclined to consider the state-wide organization merely as an annual pain-in-the-neck—as something that makes them work harder before the "meet" and drive a few more miles on contest days.

Teachers and parents are often guilty in another respect, also. After watching League events in this county for five years, the Times publishers realize that practically every particle of friction that has arisen in League events was due to the prejudice or the unsportsmanlike attitude of teachers and parents. The contestants, to whom losses often mean broken hearts, approach the annual League season with the spirit of "I'll do my best to win, but I'll cheer the other fellow if he beats me."

So the season of friendly rivalry is at hand. The Times has a feeling that it will bring forth the best that is in the teachers and parents, as well as the best that is in Mary and Johnny.

Let us pause, as the season nears, and praise the Texas or Texans who concocted the Interscholastic League idea—probably the greatest single builder of finer young people that the state knows.

Snyder, host city, realizes more than ever before that she has a heavy responsibility each year in the entertainment of more than 1,000 students, teachers and parents. But she is ready to do her best—to join hands with the other folks of the county in making the 1935 Interscholastic League meet the very best ever staged.

Flies in Our Ointment.

The handful of Scurry County people who spend half their time cursing the government and the other half figuring out ways to avoid work are becoming increasingly distasteful to citizens who live by faith and hard work. Since the last group includes most folks in the county, we can safely say that the radical disturber who contends that the government owes him a living is the fly in the county's ointment.

Remember 'way back yonder in the twenties, when relief rolls were unknown, when almost every man was anxious to win his living by the sweat of his brow? When "prosperity" was the buy-word—and how we did buy?

The man who stopped to consider the future, who dared to save a few dollars, was lost in the whirl of buying and spending, of going and coming, of embracing the installment plan, of letting the better things of life go begging.

Many of those who spent so freely are on the relief rolls today. A few of them regained their balance in time to avoid the heaviest landslide of the depression. And a handful of them, sad to say, became street-corner knockers—knockers who are ready to blame conditions on anything except their own short-sightedness.

Neither the Morgans nor the Mellons nor the In-sulls nor the government nor the economic cycle brought on our misery, dear professional complainer. You are the fellow who brought it on—your own devil-may-care attitude and your disregard of "mana-nana." Yes, and your neighbor is the fellow who brought it on—your neighbor with the same accursed American attitude.

Depressions are made of human weaknesses. Almost all of us are to blame for the mess in which we find ourselves.

The tribe of government-cussers, work-dodgers is composed of the weakest humans of us all. For they see the beam in another's eye but fail to pluck the mote from their own eye.

EDITORIAL OF THE WEEK

SAND STORMS AS NEWS

Very likely sandstorms in West Texas are just sandstorms like they always have been, with this important addition that the farmer has come along and plowed up thousands of acres of land, giving the winds access to loosened soil that was not available "away back when—"

Seemingly in these latter years the sandstorms are more awe-inspiring, because the cloud of dust and dirt which they gather makes pillows and billows hundreds of feet into the air that settle down and sift through cracks and crevices. On highways and adjacent to fields, when a heavy storm hits, traffic stops for a few minutes at least.

In the past year or two the writers have come to "write up" the sand storms and the winds that formerly were taken for granted. They make good material for a person who is handy with the adjective pot.—Floyd County Hesperian.

Scurry County Folks Attend Final Rites

Mr. and Mrs. John Watts and Miss Lois Huckabee, who live west of town, were in Dalhart early last week to attend the funeral of a cousin, Charlie Coots, who died following a several day siege of pneumonia and meningitis, last Monday.

The boy was the youngest son of Mr. and Mrs. G. B. Coots, prominent ranch people of the Panhandle, who have visited relatives and friends here several times during recent years, and are known to a number of Scurry County people.

Funeral rites for the 17-year-old high school student were held at the First Baptist Church in Dalhart last Tuesday afternoon.

HERE IS MORE CONCERNING Cotton Sign-Up

CONCLUDED FROM PAGE 1

In 1935. If producers who signed contracts in 1934 and those who sign contracts in 1935 reduce 35 per cent, it is estimated that a crop of about 11,500,000 bales will be produced if yields are no more than average.

"It will be to the advantage of individual cotton producers to remove 35 per cent of their base acreage from cotton production and receive the maximum rental payments permitted under their contracts in 1935.

"It will be to the further advantage of individual producers to plant in 1935 only 65 per cent of their base acreage because in no case will the bases used in making allotments of tax-exemption certificates be more than 65 per cent of a producer's base production.

Producers therefore will be cautioned against planting more than 65 per cent of their base acreage with the anticipation of buying surplus exemption certificates at reduced prices in 1935. It will be our recommendation that provisions be made which will prevent surplus exemption certificates being sold much below the full amount of the tax. We will also recommend that the tax be kept adjusted at 50 per cent of the price. Neither of these things were done in 1934.

"Due partly to the drought, food and feed will be somewhat less plentiful and prices will be higher in 1935 than they were in 1934. For this reason cotton producers should plant only 65 per cent of their base acreage to cotton, thus making available additional land on which to produce food and feed for home consumption.

"It should also be called to the attention of producers that if two crops of different size are sold for the same gross value, a larger proportion of the total market value is usually returned to the producer from the smaller crop. It is certain that the farmer cannot produce the larger crop as cheaply."

New Chevrolets Arrive.

EVERYWHERE motorists are switching to the economy of the big, powerful, New-Value Dodge. You can place my order now. Please have Coupe awaiting me Boston on our return to States. You can take it and sell my old Dodge now. It was a darned good car. After months of roughing it in this sea and ice that new 'Ariglide Ride' will certainly feel swell. Dodge has always been the finest riding and driving and most economical car I have ever driven— and I've handled 'em all.'" (Signed) Clay Bailey, Radioman U. S. N. Foot Specialist to Visit Here Tuesday

A representative of Dr. Wm. K. Scholl, world famous foot authority, will be in the J. H. Sears & Company store all day Tuesday, March 19.

Forest Sears, who has made a long-time study of Dr. Scholl's foot comfort appliances, states that the visitor will demonstrate how foot relief may be obtained easily and lastingly.

Dr. Scholl recently made this statement: "As fast as America is emerging from the depression it gives more attention to its physical well-being. America is furthering the idea of 'getting on its feet' by beginning to get on good feet."

Robbers' Roost

by ZANE GREY

THE STORY

Chapter I—Jim Wall, young cowpuncher from Wyoming, in the early days of the cattle industry, seeks a new field in Utah. He meets Hank Hays, who admits to being a robber, and tells Wall he is working for an Englishman named Herrick, who has located a big ranch in the mountains. Herrick has employed a small army of rustlers and gunfighters, and Hays and others are plotting to steal their employer's cattle and money. Hays wants Wall to throw in with the rustlers.

Chapter II—At the little settlement of Green River, Hays gets into an argument with a gambler called Stud, over a poker game. Wall saves Hank's life by bluffing the gambler out of shooting. With Hays and two other rustlers, Happy Jack and Lincoln, Jim Wall starts out for Herrick's ranch. In camp, the first night out, Jim regrets the step he has taken, but it is too late to turn back.

Chapter IV—Heeseman tells Wall that Hays was once his (Heeseman's) partner and double-crossed him. Herrick delegates Jim to go to Grand Junction to meet Miss Herrick. Jim gets Barnes, a young cowboy with him, to tell her that he (Jim) is a desperado of the worst type. Barnes does so, but the girl treats the information lightly.

Chapter V—On his arrival at the ranch, with Helen, Jim is confronted by Hays, who betrays unusual interest in the coming of Miss Herrick. Jim tells Hays that Miss Herrick brought a Wells Fargo package, probably of money. Jim goes riding with the Herricks and greatly impresses Helen with his revolver shooting.

Chapter VI—The cattle drives to Grand Junction are started. Jim Wall finds himself falling in love with Helen. He coaches her in riding western style, and finally kisses her. She is angry and dismisses him, but relents and asks him not to leave the ranch. Hays' men return from the drive with the stolen cattle. The leader has sold the cattle and brought back the money. A quick getaway is imperative. Hays tells his men to go on ahead, that he will join them at a certain canyon. The riders arrive at the canyon and to their amazement and Jim's dismay, Hays and a lieutenant are sighted with Helen Herrick—a captive.

Chapter VII—The gang is about to break with Hays over the abduction, but he explains that he robbed Herrick and stole Helen for ransom. Realizing that Helen will be worse off if she falls into Heeseman's clutches, Jim Wall rides on with Hank and his men. Heeseman's riders are discovered in pursuit. After a running battle in which Latimer, one of Hays' men, is wounded, Hays leads the gang into a canyon retreat, difficult of access and easy to defend—The Robbers' Roost.

Chapter VIII—After camp has been made, Jim seeks out Smoky Slocum, and secures his promise to aid in case Helen is threatened with harm by the villainous Hays. Jim hears a wild cry in the night. Before he dies, Latimer, who was wounded in the fight with Heeseman, tells Jim and Smoky that Hays has held out some of the money he stole from Herrick.

Chapter IX—In the "roost" the robbers make permanent camp. Jim keeps a watchful eye on Helen. She steals from her tent at night to tell him that she fears the outlaw, Hank Hays. While they whisper, Hank steals upon them. Jim makes him believe that he has spurred a bribe from the girl to rescue her. Heeseman's riders are seen approaching and the desperadoes prepare to fight.

CHAPTER X
Smoky came panting in with Hays' peck and started off again. "That's enough, Smoky, called Jim.
Slocum returned. "Nothin' left 'cept Hank's bed," he panted. "I couldn't locate thet."
"Listen!"

"What do you hear?"
"Hesses."
"Jim, keep your eye peeled on the cliff," said Smoky, and stole forward under cover of the brush.
Presently a white puff of smoke showed above the ragged rim. Spang! The fight was on. One of Hays' men—Bridges—let out a hoarse hawl and swayed over, almost losing his balance. Jim looked no more at him, but concentrated his gaze on the rim. Another puff of white! Something dark—a man's slouch hat—bobbed up. Jim's rifle, already raised, swerved a trifle—cracked. The hat went flying.
The horses came over the bench, frightened, but not stampeding, and Mac drove them into the corral. This was around the corner from the range of the sharpshooter of the rim. Bridges, reeling on the horse, followed Mac, who ran out of the corral to catch him as he fell. Then, as they came along close to the wall, Hays arrived from the other direction.
"Heeseman—with his outfit—nine in all," he heaved. "They're scatterin' to surround the roost... but they can't cross—below us—across there it's—out of range... We're all right."

A bullet thudded into the wall, followed by the report of a rifle.
"Duck back! That was from somewhere else," shouted Hays.
They dove 20 feet farther back. Here they were apparently safe, except from the grassy ridge of the oval in front, which it was unlikely any sharpshooters could reach in daylight.
After a careful study Jim crept into the brush, stirred by a renewal of firing from the west rim. Wisps of white cloud, thinning on the light wind, located the positions of the shooters. First Jim peered through the growth of brush directly in front.

Almost at once he caught a movement of a dark object through a crevice in the rim. The distance was great for accurate shooting at so small a target. But with a rest he drew a course, steady aim and fired.
The object flopped over. A shrill cry, unmistakable to any man used to any man used to gunplay, rent the air. Jim knew he had reached one of the Heeseman gang, to disable him, if no more. Next instant a raking fire swept the brush on both sides of Jim. He dropped down into the cave.
Smoky stood there, in the act of climbing.

"They near got me," rang out Jim. "I hit one of them way over where they shot at Bridges. There's a bunch of them hid on that cliff to the right of the outlet, you know, where Jeff went up to scout."
"Jim, they got us located," replied Slocum, gravely.
"Sure. But so long as they can't line on us in here—"
"They can move all around. An' pretty soon Heeseman will finger that men behind the high center in front can shoot straight in here."
"They're below the ridge now. Look sharp, Smoky, or they might get a couple of shots in first."
"Wal, I hope if they do both bullets lodge in Hank's gizzard."
"My sentiments exactly. Smoky, I saw something shine. Tip of a rifle. Right—to the right... Ah."
"Take the first feller, Jim... One—two—three."
The rifles cracked in unison. Jim's mark sprang convulsively up, and plunged down to roll and weave out of sight. The man Smoky had shot at sank flat and lay still. Next moment a volley banged from the cliff and a storm of bullets swept hissing and spanging uncomfortably close.
Jim slid and leaped to the floor of the cave below. Smoky, by lying down, lowered the rifles to him, and then came scrambling after.

Hays had slouched back to them, followed by Happy.
"Jack, gimme Jeff's gun an' belt," Hays said, and receiving them, he buckled them over his own. Next he opened his pack to take out a box of rifle shells, which he broke open to drop the contents in his coat pocket on the left side. After that he opened his shirt to strip off a broad, black money belt. This was what had made him bulge so and give the impression of stoutness, when in fact he was lean. He hung this belt over a projecting point of wall.
"In case I don't git back," he added. "An' there's a bundle of chicken-feed change in my pack."
There was something gloomy and splendid about him then. Fear of God, or man, or death was not in him. Rifle in hand he crept to the corner on the left and boldly exposed himself, drawing a volley of shots from two quarters. Then he disappeared.
"What's Hays' idea?" asked Jim. "He must know a way to sneak around on them."
A metallic, spanging sound accompanied rather than followed by a shot, then a sodden thud right at

INCONSPICUOUS GLASSES

... that blend with your complexion
... that harmonize with your features
... that are hardly noticeable at all

The DUALENS

You who dislike to wear glasses because they distract from your appearance—banish all fear, for optical scientists have recently perfected a lens that is hardly noticeable at all. . . . This is the DUALENS. Around its margin it has a delicate tint which eliminates the shiny "edge glitter" of ordinary clear lenses and also reduces the glare from the indirect field of vision. Its center is clear—allowing all the light for direct vision. . . . Dualenses are the most cosmetic of all spectacle lenses—they are really becoming. Recognize the Dualens by its two tone appearance—clear center and delicate tinted margin.
