Six Months, in advance \$1.25  
Elsewhere—  
One Year, in advance \$2.50  
Six Months, in advance \$1.50

## THE WEEKLY DOZEN

**Not Rendered in the Bill.**  
Emerson has a thought for the world weary: "Life is a boundless privilege, and when you pay for your ticket, and get into the car, you have no guess what good company you shall find there. You buy much that is not rendered in the bill."

**This Thing Called Relief.**  
Pessimism Pete says the principal difference between the man who gets direct relief and the man who sells shoes or prunes to the man who gets direct relief is that the man who sells shoes or prunes doesn't have to climb the courthouse stairs.

**A West Texas Institution.**  
Rabbit driving is a West Texas institution, although other sections of the country organize to fight the stealthy jacks. Out here it is a combined sport, act of neighborly kindness, and, most important of all, a wiping out of an annual plague. On with the drives!

**The Women Are Pickers.**  
Talkative Tillie says the club women who are the center of attraction when they talk across the bridge table of their manifold operations are pickers compared to a few Snyder business men who monopolize all the conversation in the average session of the Hot Stove League.

**Get Those Prairie Dogs!**  
Many landlords of Scurry County have begun their annual plaint—"Get rid of these pesky prairie dogs!" It is difficult to imagine why a farmer or rancher whose land is infested with the animals should refuse to do away with the critters, for his own sake, if not for the protection of his neighbors.

**Grand Jury Days Are Coming.**  
Now that district court time is almost with us again, get ready for the usual grand jury parade of average citizens. Mr. Average Citizen, by the way, takes pains to cuss law enforcers, but when the time comes for him to give them a helping hand, his backbone gets weak and his streak of good citizenship turns yellow.

**"West Texas' Greatest Friend... Rain."**  
Douglas Meador in West Texas Today: "Friendships either grow richer and more mellow, or they are lost, but in the heart of West Texans there is a reverence for the friendship of the rain. A sacredness and silent homage, inherited by children from their parents, men and women who clung on with broken fingers and carved the monument of today from the rock of yesterday."

**The Times Welcomes Visitors.**  
Many folks in Scurry County have said that they would like to see The Times being printed. Why not? The publishers and the whole bloomin' force are proud of the Snyder newspaper plant, and it tickles them to have visitors come in and look the situation over. If you would like to see the big press running with its cargo of brand-new Times, drop in between 1:00 and 3:00 o'clock almost any Thursday afternoon.

**Lifting the Debt Load.**  
Debt is and has been for some time the bane of the average farmer's existence. It is particularly interesting to read this government statement about FCA, which sets a high goal for farm debt liquidation: "All credit institutions under the Farm Credit Administration are endeavoring in every way possible not to increase the farmer's debt load, but to help him, by the efficient use of low-cost credit, gradually and systematically to pay off debts and become sole owner of his farm business."

**Refinancing the World War.**  
If you have any vain imaginings about the glory of war, it might be well for you to observe that Uncle Sam is still paying millions of dollars of interest on World War financing. This week, to make a case in point, the secretary of the treasury is giving fourth Liberty Bond holders an opportunity to exchange the old bonds for a new issue of treasury bonds. In Wall Street terms, this process must be called refinancing... refinancing a war that was fought almost 20 years ago.

**Brains Take the Spotlight.**  
The emphasis that is being placed on literary events in this year's Interscholastic League contests should be highly pleasing to the large group of country folks who have wondered if athletics were not the heart of every school's activities. Crowds that saw the one-act plays last week and this week testify that acting has become an art instead of a mere sideline in some county schools. The same decision goes to schools entering debaters in the contests that are progressing this week.

**The Prosperity of Texas.**  
"The prosperity of Texas has been the object of my labors, the idol of my existence. It has assumed the character of a religion, and the guidance of my thoughts and actions for 15 years." Stephen F. Austin said almost 100 years ago. No greater tribute could be paid to Austin than to say that he fulfilled his every ambition for the state, and spent a lifetime of service for it. The memory of "the father of Texas" will not be forgotten when the state observes in 1936 the Centennial of its achievement of independence.—Texas Centennial Commission.

**Pledge**  
I will think—talk—write... Texas Centennial in 1936! This is to be my celebration. In its achievement I may give free play to my patriotic love for Texas' heroic past; my confidence in its glories that are to be...

## Those Winning Herefords.

When Herefords from the Winston Brothers pens went down to San Angelo last week and won top places, it was no surprise to close followers of the local breeders.

But to those who have observed the blooded Snyder Herefords only casually, the placing of several Winston cattle in a single show was a distinct awakening.

For several years the Winston Herefords have been widening their influence in cattlemen's circles. Some of them have sold for fancy prices year in and year out. Some of them have won places in important shows. It may almost be said that they have been recognized more widely abroad than at home.

The Winstons have made of Snyder a center for Hereford breeding. They have brought many inches of publicity to this county—publicity that cannot be measured in dollars and cents. They deserve ample credit, therefore, not only for the prizes they have won and the efforts they have put forth in giving West Texas a higher cattle breeding rating, but for the advertising that have given their home community.

The fact that one of the Winstons is president of the Texas Hereford Association is proof positive that the breeders themselves, as well as the animals they own, are recognized as leaders in improving the intrinsic value of Texas Herefords.

Scurry County should pause to pay tribute to the Winstons and the herds they have bred to such a high peak. They may be counted among the county's leading assets.

## EDITORIAL OF THE WEEK

### DIVERSION OF TAX AROUSES PROTEST

Proposed diversion of a part of highway gasoline tax to other purposes has aroused a storm of protest from those who have "fit, bled and died" all these years in building up what road system we have. And their cause is a just one. Some of the figures in literature sent out demonstrate in a striking manner the tremendous importance which the automobile age has assumed. These figures indicate that this country now has 24,000,000 motor vehicles, affecting the nation's life in ways too infinite to enumerate. For instance, everything you buy goes over the highways three to a dozen times. Rural mail carriers travel over 1,350,000 miles of roads daily, some of it none too good a road. Automobile tourists spend \$2,000,000,000 per year. Buses annually carry 2,000,000,000 passengers. There is one car for five people, enough to take the whole population out riding at one time, as you may see for yourself on a sunny Sunday afternoon. Twenty-five billion dollars is invested in cars, garages, auto factories, roads and streets, and the \$9,000,000,000 we spend each year on the industry makes jobs for a tremendous per cent of workers. Every rightful dollar diverted from maintenance of our highway system affects in a way this colossal network of interests grown up around the automobile.—Baylor County Banner.

### THEY DIDN'T HAVE \$1.75.

Proponents of the measure to reduce the poll tax to one dollar scored a victory in the senate recently when that body overrode an unfavorable committee report on the bill. The vote, 19 to 12, indicated that the measure probably will pass the senate eventually.

Opposing any poll tax at all, Senator Westerfield made the remark that "we are short 20,000 votes this year in Dallas County because of poverty."

Most Texans would oppose doing away with the tax entirely unless provision were made to replace the revenue thus lost by some other means, for the dollar goes into the school fund and the schools have already been hit hard enough.

Tens of thousands of Texans, many of them among the most substantial and respectable in the state, have been disfranchised this year through no fault of their own. They simply could not spare the \$1.75 necessary to acquire a poll tax receipt.

Texas is one of eight states levying a poll tax. Most of the others have registration only. To the list of qualifications required of voters, such as ability to read and write, register or be of good moral character, Texas adds: "And raise \$1.75." One state that levies a poll tax, Alabama, makes unemployment a disqualification. Texas does not do that except indirectly, as witness the \$1.75; but it does forbid the ballot to paupers.

Along with the election law in general, Texas should revise its method of qualifying the electorate.—Abilene Morning News.

**The Educated (Ford) Person.**  
An educated person, I think, is one who not only knows a lot, but knows how to do a lot of things.—Henry Ford.

**The Times Creed:**  
For the cause that needs assistance;  
For the wrongs that need resistance;  
For the future in the distance,  
And the good that we can do.

## Successful Revival Of Association BTU

The Baptist Training Union revival in which more than 20 churches of the Mitchell-Scurry Association took part was closed Sunday afternoon with a commencement service at Dunn. Dr. N. A. Moore, head of the Bible department at Hardin-Simmons University, Abilene, brought the address to more than 400 people who overflowed the church building at Dunn. Awards were made at Dunn for more than 600 persons who completed study courses. About 40 conversions were announced for the week. Snyder church enrolled 67 during the week and gave awards to 43 persons.

**Fatal Highway Accident.**  
Alvin Comer, Aspermont high school senior, was fatally injured in an automobile accident on Highway 83 three miles south of Aspermont early Saturday night. No other occupants of the two cars involved in the accident were injured.

**Young People in Sweetwater.**  
Members of the young people's department of the local First Methodist Church who attended the district rally in Sweetwater Saturday and Sunday included Misses Ruth Yoder, Rubye Curry and Allene Curry. The rally theme, "Life to the Uttermost," was well-discussed by outstanding young people of the district, according to Snyder people who attended.

## "The Black Ace" to Be Presented Friday

The Lloyd Mountain Sports Club will present "The Black Ace," a mystery drama in three acts, in the Dunn school auditorium Friday evening at 8:00 o'clock. The play cast is composed of the members of the young people's club, and Mrs. Travis Rhoades will direct. The director announces that the program will be well worth the 10 cents admission charged those who attend.

**Quality Meat Show.**  
The eyes of West Texas stockmen, 4-H club members, vocational students and rural club women will be on Lubbock during April 1, 2 and 3, when the fifth annual Quality Meat Show will be staged at the fair grounds. Several citizens of Scurry County are planning to attend the show and an accompanying auction sale of baby hedges, fat pigs and fat lambs on closing day.

**CITY ELECTION NOTICE**  
The Snyder city election will be held Tuesday, April 2, 1935. Three aldermen to be elected, one each from north, west and east wards. North Ward box at sheriff's office, courthouse; H. L. Wren, judge. West Ward box at justice of peace office, courthouse; J. C. Maxwell, judge; East Ward box in Commissioners' Court room, courthouse; M. Stacy, judge. 40-3te

## Debate Finals Will Be Held Next Week

Failure of judges to appear Wednesday night and interference of the county-wide teachers' banquet Thursday night will force postponement of League debate eliminations until Tuesday and Wednesday of next week, says E. H. McCarter Jr., debate director. Seven to 9:00 o'clock is the arguing time.

Girls' debate results Tuesday night were: Fluvanna from Hermleigh, Snyder from Dunn, Pyron from Ira, Fluvanna from Snyder, Ira from Hermleigh, Pyron from Dunn.  
Boys' results: Fluvanna from Dunn, Hermleigh from Ira, Snyder from Pyron, Fluvanna from Ira, Snyder from Dunn, Hermleigh from Pyron.

## Morgan, Beavers to Ft. Worth Tourney

J. C. Morgan, sprint specialist, and Forest Beavers, a heap-big weights man, will accompany their coach, W. W. Hill, to the Fort Worth Fat Stone Show track and field meet this week-end. Morgan specializes in the mile run and the high hurdles, Beavers in the discus and the shot.

Free tickets to "David Copperfield," at the Palace Theatre March 28-29, await Mr. and Mrs. Vick Montgomery.

**Truck owners know economy THAT'S WHY THEY BUY CHEVROLET TRUCKS**

**CHEVROLET TRUCKS**

**World's Lowest Prices**

**YODER-CHEVROLET CO. SNYDER, TEXAS**

MEN who study haulage costs know that Chevrolet trucks are outstanding in economy and durability as they are in price. Chevrolet trucks handle rough hauling jobs day after day at small operating cost, because they are built to Chevrolet's own high standards of quality in every part. The powerful six-cylinder valve-in-head engines are truck motors, especially designed to give sustained pulling power. Features that assure stamina and long life are evident in every detail of the precision-engineered chassis. Chevrolet trucks offer maximum capacity, economy and quality—because Chevrolet is the world's largest builder of trucks.
