How can we make folks WANT to trade in Snyder? Several local merchants are answering the question every week of the world. Boiled down to a few points, the answer would read like this:

- 1. Keep pace with the times in merchandising. Nobody likes to trade at a store where stocks are incomplete, out of date, or shelf-worn.
2. Use the "sunshine" approach. Who in the Sam Hill wants to buy anything from a merchant who keeps his depression and drouth face showing all the time?
3. Keep step with competitive prices. Generally speaking, folks are willing to pay a wee bit more for stuff in their home town, if stocks, services and other factors in selling are on a par with mail-order houses or nearby towns.
4. Tell folks about your stocks, your services, your prices, your little "extras" that make your store just a little better than the average store.

Hospital Notes

Mrs. Pete White of China Grove, who had a minor operation in the Emergency Hospital last week, went home Sunday.

Mr. and Mrs. M. L. German are the proud parents of a baby girl, who arrived in Snyder last Thursday. The new arrival has been named Linda.

Snyder Group to Annual Colorado C. of C. Meeting

A delegation from Snyder was in Colorado Tuesday night for the Mitchell County capital's annual Chamber of Commerce bean feed and social function.

The locals heard a full program of fun and neighborliness at the American Legion hut, and then listened to J. T. Stanford of Austin, head of the state rural rehabilitation department, who was principal speaker of the evening.

A conference with Mr. Stanford prior to the Chamber of Commerce program convinced the local delegation that the rehabilitation program in this county, long delayed, may get under way in a short time. The local group included W. J. Ely, Snyder WTCC director; Joe Monroe, Scurry County relief administrator; H. J. Brice, county judge; W. R. Lacey, county agent; Harrie Winston, Chamber of Commerce president; Jim Reynolds and Sterlin Taylor.

Mr. and Mrs. Herbert Bannister and children, Mrs. J. M. Bannister and Mrs. J. G. Hicks were in Lubbock Tuesday.

HER BOY HAD ALWAYS BEEN WEAK AND PUNY

"My four year old boy had been weak and puny since birth, and had constipation and indigestion. Nothing did him any good until we tried MILKS EMULSION. Since using it, he can't get enough to eat and has outgrown his childhood trouble. He plays out with the children now, and he was never able to do that before."

Weak, ailing children usually start eating and getting stronger from the very first bottle of MILKS EMULSION. MILKS EMULSION restores healthy, natural bowel action. MILKS EMULSION is strongly recommended to those whom sickness has weakened. This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. You are urged to try MILKS EMULSION. Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The MILKS EMULSION Co., Terre Haute, Ind. Sold by druggists everywhere.

Dri-Sheen Process License Is Granted

The Graham & Martin tailor shop has just received a certificate which makes the concern an authorized, licensed user of the Dri-Sheen Process of cleaning. Stickers and other supplies relating to the process have also been received.

New equipment that makes possible the use of the copyrighted process was installed several weeks ago by the local establishment. "Food for Fabrics" is the slogan used in connection with the Dri-Sheen Process.

Guests of Mrs. A. M. Curry and daughters during the week-end were Glen Voss and Morris Shepherd, both of Post.

THE WEEKLY DOZEN

The Split-Skirt Rage. Pessimism Pete says the new split-skirt rage owes more to freedom of the eyes than to freedom of the limbs.

What Does Easter Mean? Talkative Tillie thinks Easter usually means resurrection of a winter-worn wardrobe on the credit plan, rather than observance of the resurrection of the Savior of men.

Teachers on Wheels. Someone has called them "teachers on wheels." County agents, we mean. Russell Lord says: "There are 2,100 of them in America, assisted by half as many women, home demonstration agents and by 300 club agents. That multiplies them in mind."

Wanted: An Inventor. Wanted—By a country that is being blown away by degrees; an inventor who can construct dust-proof houses and blow-proof fields; price is no object; what we want is results—re-suits—and damn the consequences and cost. Apply before the next duststorm to any Northwest, Mid-West or Southwest farmer or housewife.

A Suggestion, Uncle Sam. Dear Uncle Sam: Here's a suggestion we picked up from an exchange newspaper—"If the American people will attend to the things that need attention in this country they won't have much time to give to reforming other countries." Dear Neighbor: That bit of philosophy applies to you, too.

Think, Talk, Write Texas! The slogan of the Texas Centennial could well be planned for the Texas products display which is being planned by Snyder by the Twentieth Century Club. The woman's club is going to the limit to make the exhibit worthy of Texas manufacturers and packers.

The Grapevine Still Works. Old-timers who believed that the grapevine would go out of existence with the coming of radio, telephone and television have a new belief coming. The famous news and gossip carrier works in full swing across the Snyder square every hour of the day.

The Tiger Band Does the Job. Tiger Band has made such rapid strides in recent weeks under direction of Fred P. Rattan that the musicians are winning wide spread public approval. Those who want to pep up the lads and lassies in preparation for the district band contest next week will surely be near the land stand Sunday afternoon at 3:00 o'clock to hear the first outdoor concert of the year.

Then There's a Charge. Snyder automobile dealers, following up the Free Auto Show, might use this invitation that appeared in a Cherokee, Iowa, newspaper: "Local dealers make it plain that there is no obligation when you go to their showrooms. They want you to come as their guests, feel free to ask all the questions you care to, and enjoy yourself 10 per cent."

Thanks for the Auto Ride. The fact that upwards of 2,000 people attended the Free Auto Show Friday and Saturday prompts local dealers to proclaim the affair as an outstanding success. It was the first venture of the kind ever undertaken in Snyder. Out-of-town visitors declared that it was the most successful auto show they had seen outside the larger cities.

Locust Trees Are A-bloomin'. Snyder air is pregnant with the perfume of locust blossoms. Those who have the will power to stop their duststorm-sniffing for a few moments will find a new joy in living when they inhale the nose-nectar from the tree that has become so typical of Snyder. It is said that the locust tree is not a native West Texas plant. If this is true, the first man who planted a locust in the county should be praised for his wisdom.

Come on, You Singers. Depression, drouth and the doldrums seem to have little effect on singing conventions. Folks who can sing right on through thick and thin can't be whipped, no matter what nature and Uncle Sam does to them or for them. So it is that the semi-annual county singing convention will be heavily attended and greatly appreciated at the Union Baptist Church this week-end. Come on, you singers!

Correcting the Tenant Evil.

Senator John K. Bankhead of Alabama, author of the famous Bankhead Cotton Control Act, has come forward with a farm tenant bill, which aims at correcting many of the evils of tenantry that have grown up for generations.

"Having been born and reared in the rural section of Northwest Alabama I know that the tenant situation is not what it ought to be in my part of the country," the senator writes. "And I am informed that it is not what it ought to be in other parts of the country."

"Now the tenant situation of today is not a negro problem. Neither is it the result of the depression, nor of the Agricultural Adjustment program, or any other recent program. It is the result of a condition that has been growing in seriousness for more than 50 years. It is not directly the fault of the bad landlord or of the shiftless tenant. It is the result of the 'system' that has grown up over a long period of years, and if we want to solve it we must begin at the root of the trouble. We must remove the cause. And when we do that, many of the social and economic ills directly and indirectly connected with the tenant system will disappear."

"The big trouble with tenancy is that the tenant moves too often for his own good as well as for the social and economic good of the community. The average of all tenants is only four years at a place. It is next to impossible to build a good community when a large part of its people move every year or so. Naturally, there are some fine tenants in every part of the country who seldom move. But there are others who boast of spending Christmas at a new place every year. Some of our tenants are regular gypsies, and ready to move at a moment's notice. Tenancy is closely associated with the commercial production of our big cash crops like cotton, tobacco and wheat. For that reason it is greatest in the Southern and Mid-Western parts of the country. It is lightest in the New England states, and along the Pacific Coast. But there is some tenancy in every state in the Union."

Senator Bankhead's tenant bill, which largely coincides with a bill introduced in the House by Marvin Jones of Texas, is "to create the Farmers' Home Corporation, to promote more secure occupancy of farms and farm homes, to correct the economic instability resulting from some present forms of farm tenancy, to engage in rural rehabilitation, and for other purposes."

An Old Idea in New Clothes.

Have you noticed that not as much is said in these days about trading in the home town as we said five or six years ago? Even chambers of commerce and newspapers, which pushed the trade at home idea to the breaking point a few years ago, have turned to other community building projects.

The wisecracker will tell you that there isn't much use to gripe about business going out of town now, because there isn't enough business to make much difference, anyway. But the wisecracker hasn't learned that the mail order houses are doing a bigger volume of business right now than they have ever done.

There is a deep-rooted reason for the placing of emphasis in some other direction. Here it is: Our community leaders are learning that you can't force or bullyhoo folks into trading where they don't want to trade.

The new sensible idea that is being used by community leaders and merchants is to make folks WANT to trade in their home towns. There's the kernel in the nut.

How can we make folks WANT to trade in Snyder? Several local merchants are answering the question every week of the world. Boiled down to a few points, the answer would read like this:

- 1. Keep pace with the times in merchandising. Nobody likes to trade at a store where stocks are incomplete, out of date, or shelf-worn.
2. Use the "sunshine" approach. Who in the Sam Hill wants to buy anything from a merchant who keeps his depression and drouth face showing all the time?
3. Keep step with competitive prices. Generally speaking, folks are willing to pay a wee bit more for stuff in their home town, if stocks, services and other factors in selling are on a par with mail-order houses or nearby towns.
4. Tell folks about your stocks, your services, your prices, your little "extras" that make your store just a little better than the average store.

### Crimm Preaches To Great Crowds In Last Services

Final services of the B. B. Crimm revival at the First Baptist Church attracted crowds that could barely jam into the building. In the closing sermon Sunday night, the cowboy evangelist preached on "Hitting in a Pinch" to probably the largest group of the entire month-long meeting.

In the afternoon, the preacher spoke to a group of men that filled the lower floor of the church on "The Man Who Stood Hithed," while his singer, H. M. Powell, was talking to a sizeable crowd of women and girls at the First Methodist Church. Crimm's chief point of emphasis was the immorality of the day, especially among high school students.

The morning sermon was "Put God First." The evangelist called this his philosophy of life, pointing out that Christianity in any life should be above politics, money making and other popular conceptions of success.

Pastor Lawrence Hays of the sponsoring church reports the following visible results of the meeting: Additions by baptism, 85; professions not yet united with any church, 20; uniting with churches other than the local Baptist, 20; additions to the sponsoring church by letter and statement, 35; total coming to the altar for re-consecration, 96; total actions taken during meeting, 259.

"We are far better pleased with the general religious awakening than with the number who came to the altar," Rev. Hays said yesterday. "Along with the pastors throughout the county, I feel that the revival has made folks take stock of their sins and resolve to live for greater Christian usefulness."

**Lions Hear Reports From Children Who Are Being Operated**

"They're getting along fine" was the text of reports heard at the Lions Club Tuesday noon concerning the two children who are undergoing eye operations at Marshalltown, Iowa. A letter from Elmer Louder, who chauffeured a group of six to the eye clinic, and three telegrams from members of the Marshalltown Lions Club, were read by W. R. Bell, chairman of the blind work committee.

Expenses incident to the two operations were financed by the local service club. Operations are also being performed on W. A. Louder of Hermleigh and C. L. Louder of Stanton, who were in the group.

Mrs. Earl Louder and Miss Maurine Cunningham, guests at the Tuesday luncheon, and A. C. Preullitt and Warren Dodson, local Lions members, were introduced as leaders of the local program that will be presented at the district convention in Plainview next week.

Mrs. Louder presented two piano accordion numbers. J. R. Reeves gave an outline of the three-day convention.

Jack Martin was elected as a member of the club.

Mrs. Lora Miller and Mrs. T. J. Thompson are guests of relatives and friends in Abilene this week. The Snyder women left Tuesday morning.

Morris Sturdivant of Odessa, a former resident of Snyder, visited friends here during the week-end.

### MANY BORROW ON 1935 CROP

About 200 applications for 1935 crop loans had been made late yesterday through Charles J. Lewis, clerk of the county crop loan committee. Since the loans are averaging \$200 each, totals have mounted to \$40,000.

Mr. Lewis reports that only a few feed loans are now being made. About 1915 of these were made from July, 1934, to date.

### Last Contract Signers AREA WINNERS WILL COMPETE

The county cotton committee is busy this week checking up on contract signers who made out their papers during final days of the sign-up period. Monday was the final application day.

water, Brownwood, Breckenridge and San Angelo districts will compete.

Superintendent R. D. Green of Abilene, director general for Region 2, announced that free luncheon will be served at the high school cafeteria to all contestants and faculty sponsors Saturday.

This county will be represented by Viola Autry, Ira, Class B essay writing; J. C. Williamson, Turner, rural junior boys' declamation. Sev-
