

FIRST GENERAL RAIN IN MONTHS SOAKS AREA THIS WEEK

Roosevelt Greets 4,000 Farmers, Including Scurry-Borden Trio

FDR UPHOLDS HIS PROGRAM, SOCKS CRITICS

Pat Johnston, Pete Thrane and Clemens von Roeder Off to Washington Sunday.

Among the cheering throng of 4,000 farmers who heard President Roosevelt laud the administration's adjustment program Tuesday at Washington were two delegates from Scurry County and one from Borden County.

A. Johnston, O. P. Thrane and C. N. von Roeder, the three delegates from this territory, left early Sunday for Fort Worth, where they proceeded at once, by special train, for Washington.

Scurry County farmers raised about three-fourths of the funds to send the two county men, and Snyder business houses contributed the balance, according to W. R. Lacey, treasurer for the trip fund.

Want AAA Program. Continuation of the government's AAA program was the chief point of support for the farmers who went to Washington in helpful humor from 25 farm states.

In session last Saturday, the Scurry County Farm Association suggested to the delegates that they seek to correct several special cotton inequalities peculiar to this area.

Chief among these was basing of the reduction program on percentage of cultivated acres on a farm. In order that the farmer who has carried on a balanced farming program in the past might not be penalized; and raising of the county's accepted lint percentage of 90.6 per cent to a higher figure, based on adjustment of inequalities brought about by cross-county ginnings.

Noise From Minority.

Explaining the purpose of the trek to Washington, C. H. Day of Plainview, an advance man for the delegation of farmers, said Sunday: "We've been hearing back home a lot of noise from a small percentage of farmers who didn't like the AAA. We just got a little tired of this and we hadn't said anything. So we decided the time had come for those of us who approve the AAA to do a little talking."

Greeted with tumultuous shouts as he appeared on the south portico of the White House to face the farmers Tuesday, Mr. Roosevelt was introduced by Secretary Wallace as "the heart of America."

Dr. W. D. Alldredge Is Interred Friday After Brief Illness

Funeral rites were held at the Primitive Baptist Church Friday afternoon, 3:00 o'clock, for Dr. W. D. Alldredge, 73, veteran medical doctor and Primitive Baptist preacher.

Burial was in Snyder cemetery, with Odum Funeral Home in charge. Bro. R. B. Hester officiated at the church.

Dr. Alldredge resided and practiced in Snyder until about eight years ago. He also preached frequently for Primitive Baptist congregations in this area. He went to Andrews from here, but returned to Snyder last fall.

He is survived by his widow, whom he married here some time after the death of his first wife; six sons and three daughters.

"Since it was organized in February, 1934, the club has bought glasses or otherwise helped the vision of more than 30 children, more than two-thirds of whom reside outside of Snyder."

Most of Highway No. 7 Lands Are Settled by Court

Definite trades have been made for practically all of the new Highway No. 7 right-of-way between Snyder and Hermleigh, according to County Judge H. J. Brice, following regular meeting of the Commissioners Court Monday.

One of the final deals was made Monday with W. T. Murphree, who accepted an offer of \$1,350 for land, fencing and damages resulting from the highway crossing. A number of other trades were made earlier in the year.

The court authorized the county judge to purchase \$38,000 in Donley County road and bridge funding bonds at a flat price of \$40,000, purchase to be made with permanent school funds, which are used only for investment. Members of the court recently visited Donley County, checked prospective value of the bonds, and found them to be safe for investment purposes.

The bonds will net a fraction more than 5 per cent interest, or 5 1/2 per cent on \$38,000 for the \$40,000 investment. Interest is payable from April 1 of this year. The funds had not been reinvested since an original investment at 5 per cent ended February 12.

Regular report of the county treasurer, Mrs. Otto S. Williamson, was approved. A number of accounts were allowed.

Misuse of License Tags to Be Stopped

Albert Smith, constable, who has added a number of shakels to the county treasury because of his diligence in seeing that new tags were placed on cars and trucks, advises folks this week that car and truck license plates are being misused in some cases.

Farm truck tags, he says, cannot be used on commercial trucks or cars of any kind. Commercial tags must be placed on delivery pickups, cars or trucks used for any commercial purposes.

Mr. Smith requests that owners adjust their tags at once, since the highway department has asked officers to see that the law is enforced in this respect.

EROSION WORK FIRST, ALLRED TELLS W. T. C. C.

Snyder Sends Several Delegates to Plainview for Annual C. of C. Regional Meeting.

Control of soil erosion is the greatest immediate work possible for the permanent improvement of Texas, Governor James Allred told the West Texas Chamber of Commerce Tuesday night at Plainview.

The governor was principal speaker at an informal dinner affair given in his honor at the annual convention.

Among several Snyder persons attending the convention were W. J. Ely, director from Snyder; Dr. H. G. Towle, mayor, and Charles Rosenberg.

Planning Board at Work "Erosion, both from wind and water," the governor said Tuesday night, "has wasted away our soil because we failed to protect our natural resources. Not only the national but the state government has taken a great and progressive step toward control. The state planning board is definitely dedicated toward that end."

The governor urged a "return to the principles which made our government great."

"The time has not come," he said, "to depart from the code of morals of our fathers and mothers. Departure from the fundamentals of government established by our forefathers is responsible for our trouble. We forgot the lessons and teachings of the past."

Directors in Action. The chamber, meeting in its 17th annual convention, went on record through its directorate as favoring inquiry into a state sales tax as a field for additional revenue, a 30 per cent reduction in ad valorem taxes, establishment of a permanent soil erosion plan, adjustment of local debts, and development of highway, irrigation, water conservation, park and other public works projects in West Texas.

R. E. Dickson, superintendent of the state experiment station at Spur, spoke to the convention on the practical value of control of soil erosion. He recently spoke to the Snyder Lions Club on the same subject.

Other leading speakers included State Senator Roy Sanderford of Belton and Congressman Martin Dies of Orange.

RAIN FIGURES PROVE 1934 WAS MUCHO DRY, 1935 GETTING WET

Now that we've seen the rain, and felt it, and gloried over it, let's take a look at some of the rain figures produced for Snyder by the weather man in recent months.

Counting Tuesday night's rain, the total for 1935 is 5.52 inches. This is better by 57 than the total to June 1 last year. Rain totaling 226 fell in April and May last year, whereas the total already is 2.83 for April and half of May this year.

The only rain that approached this week's in size and coverage, for more than two years, was November 19, 1934, when Snyder received 1.78. Many parts of the county received less than an inch at that time.

The official rainfall in Snyder for 1934, according to records kept by Mrs. Wesley Evans, was only

11.93, in contrast with the county average over many years of about 21 inches.

Here are the totals, by months, beginning in January, 1934:

FARMERS MAY GET BANKHEAD TAGS EARLIER

All Scurry Cotton Farmers Will Meet Monday With Their Local Committeemen.

With the county-wide Bankhead sign-up coming Monday, May 20, it is probable that farmers will have their tags in hand before ginning begins, according to information from the county agent's office.

This hastening of applications for tax-exemption cotton certificates, it is pointed out, will mean that there should be no need of interim ginning certificates similar to those issued last fall.

All cotton farmers will meet at the various community centers Monday with their local cotton committeemen. Before certificates can be issued, the farmer must make the application.

Application Forms. Application forms will give a history of the cotton production on the farm the grower is working during the years 1928 to 1934, inclusive. In most cases, these forms were prepared last year by the farmers when they signed their applications late in July.

The county agent's office has been busy the last few weeks transferring last year's records to this year's forms and the sign-up Monday. In most cases, will require only the signature of the producer and his landlord, if on a rented farm.

Farmers Urged to Cooperate. Farmers are urged to cooperate with their local committeemen in every way possible, and especially by being at their community places Monday for the sign-up. All landlords living in Scurry County will be expected to come with their renters to sign up. Otherwise, a delay in getting the certificates will likely result.

Those who are unable to sign up with the local committeemen will come to the county agent's office after Wednesday, May 22, at the earliest possible opportunity, and sign.

Names of communities, locations for the sign-ups, and names of committeemen, will be found at the bottom of this page.

MOST COUNTY SCHOOLS WILL CLOSE FRIDAY

Only Seven to Remain in Session After This Week; Several Already Dismissed.

Friday of this week is the most popular closing date for county schools. Only seven will remain in session after that date, according to information reaching the office of Frank Farmer, county superintendent.

Closings are scheduled Friday for Turner, Woodard, Camp Springs, Plainview, Strayhorn, China Grove, Pyron, Lloyd Mountain, Dunn and Fluvanna.

Those remaining in session are Snyder, Canyon, Bison, Independence and Arab, scheduled for closing Friday, May 24; Hermleigh and German, scheduled for closing Friday, June 7.

Several Last Week. Cottonwood, Bethel, Gannaway, Ennis Creek, Sulphur and Ira finished their work last Friday, May 10. Dermott, Crowder and Martin had previously closed.

C. C. Thompson of Colorado will be principal speaker at Dunn commencement exercises Friday night. Elsie Holmes is valedictorian and Julia Casey is salutatorian. Rev. Wallace Jones of Colorado preached the closing sermon last Sunday night.

Pyron closes this Friday instead of last Friday, as announced in The Times last week. C. D. Evans of Texas Tech will deliver the address; Rev. G. W. Parks of Roscoe gave the baccalaureate sermon last Sunday.

More Closing Services. Rev. Eugene Surface preached for Fluvanna graduates last Sunday. Zolite Steankley of Sweetwater will deliver the address Thursday night of this week.

A. J. Cody of Snyder was principal speaker for Bethel's closing last Friday morning. Camp Springs plans its special program this Wednesday evening. Strayhorn school will feature "Elsie Butler's Wife," a play, and another short program Friday night.

China Grove had a program Wednesday night and an all-day picnic is planned for today (Thursday). Big Sulphur students presented a play Thursday night, and school ended the following day.

Colorado Pastor Talks to Seventh Graders Tonight

Rev. P. D. O'Brien, pastor of the First Baptist Church at Colorado, will be principal speaker when seventh graders from most schools of the county gather in Snyder tonight (Thursday) for annual graduation exercises.

The Colorado man is widely known for his humorous presentation of fundamental truths, and for his fund of useful information for students, says Mr. Farmer.

No special dress will be used for the occasion, but graduates will sit in a body in the high school auditorium. More than 120 seventh graders are expected to participate.

County-wide seventh grade examinations were held Monday of this week.

The auditorium is expected to be filled with patrons and others interested in promotion of the youngsters from grade to high school.

Scurry County, under the administration of A. A. Bullock, now state rural aid supervisor, was one of the first counties in the state to inaugurate county-wide seventh grade examinations and closing programs.

Mack and Erleen Boast Ten Pounder

"He's a big un!" Mack will tell you. And, sure enough, an investigation of Emergency Hospital records revealed that a 10-pound boy was born at 8:30 a. m. Tuesday to Mr. and Mrs. Mack Casey.

Mrs. Casey, the former Erleen Martin, is proud of the strapping youngster, too. She and the boy, unnamed yesterday, are quite fine, thank you.

SAVES TWO LIVES

Muriel Woodard, 15-year-old student in the Plainview school, last Wednesday rescued Mrs. Clarice Bush, primary teacher in her school, and Mrs. Bush's stepson, Carol, from drowning. Douglas Payne, 12, a Plainview student, lost his life in trying to rescue the 7-year-old stepson. Muriel is a daughter of Mr. and Mrs. John Woodard, well-known farming family. Information of the rescue is being gathered in an attempt to get a Carnegie medal for heroism for Muriel.

HOSPITAL BIDS ARE ACCEPTED

Bids on a proposed hospital for Snyder were opened by the board of directors Tuesday. Lowest of the seven quotations will be accepted when incorporation papers are completed, according to G. B. Clark Sr., chairman.

Stockholders representing about 75 per cent of stock subscribed in the local concern recently, meeting the evening after bids were accepted, voted unanimously to begin erection of the building as quickly as possible.

Mr. Clark believes preliminary work should be finished within less than two weeks, and that actual construction will begin the last week in May.

Magnolia Ready To Try for Deep County Pay Sand

Magnolia equipment is moving out to the J. Wright Moorar sink this week in preparation for raking of probably the deepest oil test known in the county. Drilling is expected to begin as soon as the rig is up.

The test will be located in the center of the northeast one-fourth of section 342, northwest of Snyder. It lies not far from the Moorar test made several years ago, and just two miles south of the Allen test.

Frank Kelly, district Magnolia man, has been in the county to make advance plans for the test. Magnolia has held extensive leases in the county for several years. The new test will go beyond 7,000 feet, if necessary, it is reported.

The Allen-McLaughlin well reached 2,186 feet Wednesday, and acting of eight-inch casing is scheduled to begin today. The drill was stopped in a brown lime formation.

Combination Storm Hits Near Fluvanna

It wasn't a heavy storm that struck in the Fluvanna vicinity for 15 or 20 minutes early Saturday night, but it was heavy enough to overturn a few outbuildings, break off a few tree limbs, and scare folks a bit.

The young puffer brought great swirls of dust, wet down at intervals by gusts of rain. After the blow was over, Fluvanna country was quiet and peaceable—but there was only a touch of rain.

Clarence Brown to State Penitentiary

Clarence Brown, formerly of Snyder, who was recently given life sentence for murder of W. B. (Bill) Arthur of Dickens County, went through Snyder Saturday as a "guest" of "Uncle Bud" Russell, prison agent.

Brown and nine other men were in the black barred truck. The former local man had been in the Lubbock County jail since his sentence.

FALL TUESDAY NIGHT HITS IN EVERY SECTOR

Creeks Get Out of Banks as Rain Averages About Two Inches Throughout County.

Scurry County awoke Wednesday morning to find herself bathed in the heaviest general rain that her drouth-laden eyes have witnessed in more than two years.

Showers had been visiting spots in the trade area for more than a week. The Tuesday night rain broke out in all directions, sent creeks on a rampage, and washed high hopes into the veins of farmers, ranchers and businessmen.

In Snyder, the official rainfall, according to Mrs. Wesley Evans, was 1.73 inches—a quarter inch Tuesday and one inch and a half late that night.

Heavy North and West. The western portion of this county and much of Borden County was drenched with water that gave ranchers their highest hopes in more than a year. Northern and northwestern areas received such a flood, ranging from two to three inches, that Deep Creek rose to its highest point since 1933.

The concrete bridge on Twenty-sixth Street was completely submerged. Hundreds of folks crowded to Deep Creek tanks to watch the heaviest flow of water seen in Scurry County in more than two years. A few homes along the creek were slightly flooded.

Dry Creek, too, reached its highest peak in several months, revealing that the country northeast of Snyder received good rain.

No Community Missed. Unless small spots not reported to The Times were missed, no point in the county received less than 1 1/2 inches of moisture this week and many communities received two to three inches.

Cotton that had barely come up and was hanging onto slim moisture was given a new lease on life. Communities where it had been too dry to do much planting are preparing to put their planters to work when fields get dry enough.

The rain early this week was fairly general over West Texas. The towns along the T-P. were drenched with two to four inches, while Dawson County and other Plains areas were given showers or moderate rains.

Annual Grandmothers' Party Given By Twentieth Century Club Tuesday

The Twentieth Century Club honored grandmothers of the town with their Annual Grandmothers' Party last Tuesday afternoon in the home of Mrs. Joe Strayhorn. A wealth of lovely roses decorated the entire house.

Grandmothers of the town have been looking forward with anticipation for weeks to the time of their annual party. As the gracious gray-haired women chatted about their pioneer days, their supreme happiness made the occasion one of the town's outstanding social events of the year.

Members of the Century Club sang "School Days" for their guests, and then the grandmothers gave in answer to roll call "Glimpses of Early School Days." Mrs. P. C. Chenaunt, president of the host club, directed the afternoon's program.

Mrs. D. P. Yoder, a guest, sang "Amazing Grace," and Mrs. P. M. Bolin, also a guest, read "That Old Sweetheart of Mine." Mrs. J. E. LeMond, club member, told the story of "Harvest Moon" by Seth Parker.

Miss Irene Spears was hostess to members of Etude et Plaisir at her home Tuesday evening at 6:30 o'clock. The meeting took the form of a shower, complimenting Miss Netha Lynn Rogers, a club member whose engagement to Fred Jones was announced Friday at tea.

A clever reading dedicated to Miss Rogers was given by Faynelle Spears, and the lovely gifts were presented by the hostess.

Dainty refreshments were passed to Mmes. H. P. Rogers and John Spears and Misses Irene Wolcott and Faynelle Spears, guests, and to the following club members: the honoree, Estine Dorward, Roberta Ely, Martha Jo Jenkins, Florentz Winston, Charlyne Kincaid, Evelyn Erwin, Juanita Burt, Sadie Tell Jenkins, La Frances Hamilton, Vera Gay Arnold, Frances Northcutt, Frances Stinson, Grace Elizabeth Caskey, Oteka Ware, Maxine Huckabee and Mary Margaret Towle.

THE WEEKLY DOZEN

To a Budding Romeo. Pessimism Pete, remembering that "In the spring a young man's fancy lightly turns to thoughts of love," begs to quote another sage of other days, who said: "Romance is not worth the price of starvation."

It Was a Good Show, Ladies. A final word of congratulation to Twentieth Century Club members and those who assisted them in making the exhibit of Texas products an outstanding success last week. The show was so educational and entertaining that it should be the first of a series of annual Texas products exhibits here.

Our Own "Believe It or Not." A cartoon feature copied from Ripley's "Believe It or Not" has been created for practically every angle of world activity. Most recently it is the circus cartoon. With four-legged chickens, two-bodied lambs, and two-faced street-corner gossips, why couldn't Scurry County start a cartoon of her own?

Death Changes Horses. Suicides have decreased, but automobile accidents and murders have increased, according to figures released last week by Dr. John W. Brown, state health officer. Accidents showed a gain of 70 per cent from 1932 to 1934; homicides a gain of 76 per cent from 1930 to 1935. There are the figures; figure 'em out for yourself.

Let's Talk About Clothes. Sweet young graduates, and some not so sweet because their parents have spoiled them, have been thinking more earnestly these days about the clothes they shall wear than about the grades they shall make, in the observant opinion of Talkative Tillie. "Let's talk about clothes," suggests Tillie, "but let's not break our dads in buying them."

To a Girl Who Kept Her Head. Muriel Woodard, 15-year-old girl who saved her teacher and a child from drowning last week, is not an excellent swimmer. She became a heroine because she kept her head in a time of stress. In an era when most of us are as hair-brained as a penful of chickens, too much praise cannot be given this girl who met an emergency with an orderly mind.

This Week's Poem No. 2. Without apologies, and without comment, we offer this week's poem No. 2: Here lies the body of William Jay, Who died maintaining his right of way. He was right as he sped along, But he's just as dead As if he'd been wrong. Or, putting it another way: "Check the wheel—make sure that a loose nut isn't holding it."

Congratulations, Ira and Pyron. Granting of affiliation to Ira and Pyron schools means the taking of two more forward steps by Scurry County schools. Snyder, Hermleigh, Dunn and Fluvanna had previously been accredited. Over a period of years, they have produced students that ranked high when they went to colleges or universities. Now Ira and Pyron have been added to the list. Congratulations to the school leaders and board members who made possible the educational advance.

Are We Flabbergasted? Was our face red? Two strangers entered the Times office Friday afternoon. "How about some chain letters?" they asked. "None, we don't have 'em," was the Times reply. A look of wonderment, then of scorn, overspread the faces of the visitors. "This is the first printing office I've seen that didn't sell chain letters," one of them said pointedly. We saw the point. We bowed our head with shame, and admitted that we are too far behind the times to manufacture sucker bait.

Getting Behind Our Scouts. Scurry County seems at last to be getting behind her Boy Scout movement in no uncertain manner. Last week she sent several of her boys to the jamboree at Big Spring. This summer she will send representatives to the national jamboree at Washington. This week the rural scouting program is being begun at Pyron. When fathers and other men come to realize the physical, moral and mental benefits of scouting, they will throw away selfishness and become even more scout-minded than they now are.

"It Isn't Fair to Him." Do you have a dog? Do you want a dog? Or are you neutral about dogs? No matter. You will like this verse from a poem written by Mina M. Titus: Unless you want a friend to share Your every mood and whim Don't buy a dog, I beg you, Sir. It isn't fair to him! Another suggestion: Unless you want to prove to your friends and neighbors that you have a heart of stone and a soul of cinders, don't be guilty of dog poisoning this season.

Weighed in the Balances. At the close of the legislative session, Leonard Westfall, first Stonewall man ever to represent this district at Austin, says to his constituency: "At some later date I will give a full account of my service and the stand I have taken on every major issue that came before the Legislature." If you have not followed Representative Westfall's activities this session, you owe it to him to check his record before offering too much praise or too much denunciation. No matter on which side of the fence we voted, we should all hope that the record was one of which the district may well be proud.

The Trip to Washington.

As usual, Scurry County farmers hit the ball hard and straight when they got in a pinch. Waiting until the last minute to select delegates for the trip to Washington, they used keen insight in selecting Pat Johnston and Pete Thrane.

Borden County, too, put its best foot forward when it named Clemens von Roeder for the responsible place. The Times has through confidence in this Washington trip. Although a few radicals are in the group of more than 4,000 farmers, the majority will show the same clear-headedness at Washington that their friends and neighbors showed in selecting them. After all, the trip aims not so much at "fighting selfish interests" and "holding up the farmer's rights" as it does in presenting the farmer's viewpoint.

The sameness with which the trip was organized in Texas, the ease with which it spread to other states, and the clear-headedness with which the delegates descended on Washington deserves more praise for the future of American farming than most folks seem to realize.

Roosevelt and Wallace, along with other Democratic leaders, have proven to the farmers that the administration wants to begin at the grass roots—and has done so—in hastening American recovery. Now the farmers, given an opportunity to present their cause before the officials, are approaching the matter in the same sane, reasonable manner.

After all, there is little to be gained in going to Washington with blood in one's eye. Even those who are anti-administration must admit that Rooseveltian policies have been based largely on the suggestions of people they effected most. Congratulations to the organizers of this trek to Washington; and double congratulations to Scurry and Borden farmers, who chose their delegates with wisdom.

EDITORIAL OF THE WEEK

TWO SHORT STORIES. Only work brings production; Only production brings abundance; Only abundance brings prosperity.

These three sentences of four words each are just as true as the statement that "two and two make four and no more." Yet the ponderous payroll propagandists at Washington are franking through the mails millions of words to induce the people to believe they can get something for nothing—they can have more by producing less—they can attain "the more abundant life" through the force of waste and extravagance. The complete answer to the endless propaganda from Washington may be stated in another short story of three sentences of less than four words each:

Idleness brings waste; Waste brings destruction; Destruction brings poverty. —Public Service Magazine.

"Did You Ever Stop to Think—"

By Edson R. Waite, Shawnee, Oklahoma. Don Bridge, advertising director of The New York Times, says:

"The purchase of newspaper advertising space might be compared to renting a building. In the average lease of desirable business property the owner provides a building of certain demonstrated value at a specified price but does not guarantee that the tenant will sell a certain amount of merchandise. The more undesirable the property, the greater the concessions offered to obtain a tenant. The greater the sales productivity of the location, the fewer concessions. The parallel with the purchase of advertising space is obvious.

"A building that is clean, complete and modern is worth more per foot, just as a newspaper that is clean, complete and modern is worth more per line. The value of a location is enhanced if the neighboring business institutions are honest and reliable and the value of newspaper space is enhanced if the neighboring advertisements are honest and reliable. Neighboring buildings that are cheap or gaudy in appearance detract from the value of the rental space and a dignified, quality atmosphere increases its value.

"Rental value depends upon the number of buyers, rather than the number of people, who pass the location and the purchasing habits capacity of those buyers. The value of advertising space depends upon the number of buyers, rather than the number of people, who read the newspaper and the purchasing habits and capacity of those buyers."

There may be something in the contention of a Columbia professor that all schools should have a course in marriage, but we'd be sort of sorry for any poor girl who got an "A" in matrimony and never had a chance to practice it.—Boston Herald.

"Would you marry a woman who is a great talker, or the other kind, Ezzy?" "What other kind is they?"

The elder Dillinger has been offered \$500 a week to appear in vaudeville. Conditions seem to have reached a pass where the only thing a farmer can raise at a profit is a scalawag son.—Boston Transcript.

The Times Creed: For the cause that needs assistance; For the wrongs that need resistance; For the future in the distance, And the good that we can do.

Californian, Former Resident Here, Dies

L. D. Grantham of Long Beach, California, brother of R. C. Grantham and Mrs. D. P. Strayhorn of Snyder, died suddenly Tuesday. He was 70 years of age. Mr. Grantham came to Snyder in 1914, and was in business here for several years. From here he moved to Fresno, and later to Long Beach, California.

"Doughboys" in Town.

The Light Crust "Doughboys" were in the air here Wednesday just after noon. They were en route to Fort Worth from Plainview, where they played during the WTCO convention. One of the Doughboys, Kenneth Pitts, visited the Times force while food was being prepared for the travelers at a local cafe.

Pardon Us, Fishermen.

So many local nimrods have been in happy fishing grounds in recent days that The Times finds it hard to keep pace with them. Aside from Melvin Blackard and Wayne Williams, who admit that their trip into Old Mexico late last week netted short results, most of the fishermen are dodging Times reporters for fear their fishing tales will get into print.

"Vomited 3 or 4 Times Every Day"

—18 years with a stomach like that! And in 3 doses of Gordon's!

Wonderful! Think of finding relief in 3 doses, at 3c a dose! Read what she says: "For 18 years I suffered with what all said was gall bladder trouble. All but one said nothing but operating would do any good. Got to where I suffered untold agony. Vomited 3 or 4 times every day. Had gas, bloating, sour stomach. Then I read a testimonial letter about GORDON'S COMPOUND that described just how I felt. Didn't suppose would do me any good, but tried it, anyway. In three doses I felt better! By the time I had taken one bottle I felt like a new person. Took two and one-half bottles. Has been over a year now, since I have had to use any GORDON'S. I can eat anything now and all I want, and it digests. Felt better the past winter than for years. I tell all my friends. I can't recommend it too highly. I am so overjoyed with results." —Mrs. G. W. Henderson, 245 South Schuler Street, Ottumwa, Iowa. Take GORDON'S and eat what you like! If you have ACID STOMACH, GAS ON STOMACH, SOUR STOMACH, BLOATING, DYSPEPSIA, HEARTBURN, etc., try it. New Quota of CCC Men Will Be Given County in Summer

Texas' quota of young men to join the Civilian Conservation Corps has been nearly doubled by an increase from 14,200 under the old program to 26,800 under a new program, it was announced a few days ago by Neal Guy, enrollment supervisor for Texas.

Scurry County's new quota will be about 35, according to Joe Monroe, county relief administrator. Enrollment under the new quota will take place between June 15 and August 31, Guy stated, at which time county relief administrators will receive applications from young Texans desiring to go to civilian conservation camps. Heretofore, applicants have had to be between the ages of 18 and 25, which has now been stretched to a ten-year bracket of from 18 to 28. Part of the men accepted will be sent to camps in nearby states, the rest to camps in Texas.

For Bad Feeling Due to Constipation

Get rid of constipation by taking Black-Draught as soon as you notice that bowel activity has slowed up or you begin to feel sluggish. Thousands prefer Black-Draught for the refreshing relief it has brought them. —Mrs. Ray Mullins, of Late, Ark., writes: "My husband and I both take Theodor's Black-Draught and find it splendid for constipation, biliousness, and the disagreeable, aching, tired feeling that comes from this condition." With reference to Scurry of Black-Draught, which this mother gives her children, she says: "They like the taste and it gave such good results."

ECONOMY OF FAMOUS AMERICAN CAR WINS FOREIGN MARKETS

"New Dodge saves money every mile it travels"

In foreign markets, the high cost of petrol (gas) is one of a number of reasons for Dodge increased popularity. American sales of the New-Value Dodge are humming, too—setting new high records—as thousands of owners spread the news of its amazing economy in gas, oil and upkeep. Mr. W. E. Flook, of Olathe, Kansas, writes, "My new 1935 Dodge saves me money every mile it travels. It has big-car luxury, comfort, and performance—yet I am getting 20 miles to the gallon of gas. That's economy!"

Locals Planning to Honor Abilene Man

Several local citizens, headed by Mayor H. G. Towle, are planning to be in Abilene Saturday night to attend the appreciation dinner honoring Judge W. R. Ely, retired state highway commissioner, at Hotel Wooten.

Delegations from practically all West Texas towns are to attend the affair, according to the dinner committee of the Abilene Chamber of Commerce.

It has been announced that the gathering will be entirely informal. Gibb Gilchrist, state highway engineer, plans to attend.

What Kind of Bird Was Killed in Hail Near Town April 2?

From Sunday's Lubbock Avalanche-Journal:

Was it a sparrow-hawk or was it a burrowing owl that was killed by some hail near Hermleigh, in Scurry County about April 2 of this year? This is the question that has puzzled U. S. Biological Survey officials, according to J. M. Hill Jr., local representative.

A farmer brought to the office of W. R. Lacey, Scurry County agent at Snyder, a sparrow-hawk that he said was killed by hail on April 2. The bird had a band on one leg, number A-544,093. On the band was a request to notify the U. S. Biological Survey, at Washington, D. C.

Mr. Lacey wrote Washington, giving the number of the band. He sent a carbon copy of the letter to Mr. Hill at Lubbock.

In return, Mr. Hill received a copy of a letter from F. C. Lincoln, of the division of wildlife biological research, which stated to Mr. Lacey that a band with that number was placed on a burrowing owl at Northfield, S. D., by Dr. J. P. Brenkle, on May 21, 1933.

Mr. Lincoln asked that further investigation be made to determine what type of fowl was killed by the hail.

Two Snyder Studes Elected Councilmen

Snyder furnished two officers for the Hardin-Simmons University student association for 1935-36 in a run-off election Saturday. Buck Howell was made chairman of the intramural council, and Theo Riggs was elected to place 2 on the council.

Elton Murphy, Brady, and Ann Taylor, Haskell, were elected president and secretary of the association. Only a few days earlier, a former Snyder girl, Miss Bonita McGahey, was named by Col. Roscoe Turner, air ace, as the most beautiful girl in the school.

Twentieth Century Club Successful In Three-Day Texas Products Show

Twentieth Century Club's unique exhibit of Texas products at the Snyder Garage last Thursday, Friday and Saturday was entirely successful, declares Mrs. P. C. Chenuault, president of the woman's study club.

Hundreds of people viewed the exhibits, attended the Texas products luncheon at the Manhattan Hotel Thursday at noon, or visited the entertainment features presented each night.

Several manufacturers and packers sent personal representatives to present their products to the public. A number of others sent canned goods, confections and other edibles that were sold by the sponsoring club.

Only foods grown or packed in Texas were served at the Thursday luncheon, which was attended by more than 60 club women and business men. The menu included sugar-cured ham and Texas-packed coffee.

A feature of the free show was the Thursday night style review, under direction of Mmes. R. C. L. Robertson and Marcel Josephson of the Alpha Study Club. Costumes for all occasions, from the eighties and nineties to 1935, were modeled.

Among costumes that attracted considerable attention was the wedding dress worn years ago by Mrs. H. G. Towle. It was modeled by Mary Margaret Towle, a daughter. Jim Nunn, one of the founders of Snyder, wore a suit, including frock-tail coat, that was made for him at Brenham in 1881.

An extensive musical program was featured Friday and Saturday nights. Snyder Band, an old fiddlers' contest, choral club, and pupils of Mrs. Hilton Lambert, were headlined.

Sweetwater Music And Softball Talk Featured by Lions

Piano selections by Miss Sybil Stewart of Sweetwater, and extensive planning for the benefit softball game to be staged next Tuesday afternoon, featured Tuesday's Lions Club session.

Miss Stewart, well known as a radio artist and accompanist for the Sweetwater Quartet, was heartily received. The tall twister furnished the remainder of the program's entertainment when he forced all Lions to empty their vest pockets. A prize was given A. C. Alexander because he carried the best variety of vest-equipment.

R. H. Odum and his lieutenants, Marcel Josephson and Willard Jones, presented complete plans for the softball game. Each Lion was made responsible for sale of at least 15 tickets. Jesse Jones, a guest, captain of the "outsiders" team, promised that his squad would do its best.

Resignation of R. L. Williams as secretary was accepted, and G. B. Clark Jr., treasurer, was elected to fill the unexpired term, until July 1, when the new Lions year begins. May 28 was set as nomination date for new officials, and June 18 as election date.

Guests included Alfred H. Boren and his brother of Dallas.
