

TRENCH SILO DEMONSTRATION PLANNED NEXT THURSDAY

SNYDER COOPERATIVE GIN HAS BEEN GRANTED STATE CHARTER

Trice Gin Purchased by Farmers' New Organization, Which is Boasting 128 Members.

A state charter was issued last week to the Snyder Cooperative Gin Company, whose temporary officers report purchase of the Trice gin in West Snyder.

One hundred twenty-eight farmers, with an aggregate of 9104 acres, compose the present membership of the new company. Sterling Taylor, temporary secretary-treasurer-manager, will continue to take subscribers, according to T. J. Gillmore, temporary president. Sherman Blakely is temporary vice president.

Clyde Daniels of Abilene, well known cooperative marketing leader, now of the Southwestern Cotton Growers Association, was here Saturday to help Scurry and Borden County farmers perfect the new organization.

How Gin Started. In the following article prepared for The Times, C. N. von Roeder, a member of the new cooperative group, gives details of the organization, financing and operation plans:

"On May 27 a number of Scurry and Borden County farmers held a meeting in the district court room at Snyder to discuss the practicability of organizing a cooperative gin company. After the plans, as well as rules and regulations for cooperative gins prescribed by our cooperative marketing laws and our banks for cooperatives, were presented by Clyde Daniels of Southwestern Cotton Growers Association, as well as staff members of the cooperative gin of Abilene, and after further discussions by local farmers, it was decided to launch a campaign to organize a cooperative gin at Snyder.

Decide to Buy Gin. "We were advised to buy out an existing gin rather than to build a new one, because we would thereby just so much competition, cause less friction in the ginning business, and possibly be able to give better service, with a gin properly tuned up or conditioned than a newly assembled plant would give. Revival Reports in Spotlight at Ira Baptists in Meeting

Glowing reports of revivals held in this area and of meetings held elsewhere by association pastors were heard at the August meeting of the Mitchell-Scurry Baptist Association at Ira Tuesday, according to local attendants.

Plans for the annual associational program, to be held at Westfield Thursday and Friday, September 5 and 6, were outlined. Special talks and music were brought by a district team of the Allied Youth Forces for Prohibition, headed by Rev. Willis J. Ray, district missionary.

"Salvation" was the general theme for Tuesday's meeting. Rev. E. N. Baldere of Looney led the devotional. Other parts in the program were: "God's Part in the Sinner's Salvation," Rev. G. W. Parks, Roscoe; "The Sinner's Part in Salvation," Rev. James Easterwood, Roscoe; "The Condescending Christ," sermon, Rev. Lawrence Hays, Snyder.

Hey There Skinny! The Circus Will Be In Snyder Tonight

It's been many a year since Snyder had a circus. But there's one here today, with clowns, lions, ponies, dogs and all.

Hammer Brothers Circus is giving two performances—one this (Thursday) afternoon and one tonight. There will be a street parade at noon. It is advertised that 2,500 seats are available, and that depression prices are in effect.

The show has grown in four years from a truck with two ponies to its present size. It comes from the Plains, where it has enjoyed a good business, says the advance man.

Dr. Noble Hamiter is featured with a group of seven African lions. Miss Robbie Decker and her horse, "Major," Professor Allen's band, plenty of beautiful horses—and, of course, plenty of funny clowns—are also on the afternoon-night bill.

The circus comes to Snyder under auspices of the Snyder volunteer fire department, which will receive a percentage of the proceeds.

Teletypewriter Installation at Local Transfer

With installation Thursday of a "teletypewriter" at the Snyder Transfer Company here, Pete Bridgeman, owner, believes he is in position to serve his customers as well as any transportation agency in the state.

The new machine, which is operated electrically, is manipulated in typewriter fashion, with a Bell System hook-up. Boiled down, it is simply talking direct to another party, by written messages instead of oral, without the need of contacting "central." The service is free to Snyder Transfer customers.

The teletypewriter is almost a newcomer to West Texas. Lubbock has only two, including one installed there three months ago by the local transfer company. Abilene has only five, including the one in the office occupied by Bridgeman's company and the Fort Worth Warehouse & Storage Company. Big Spring has one, and Sweetwater has one, recently installed.

Local office of Snyder Transfer Company now has direct connection with its other two principal offices, Abilene and Lubbock, for transmission of orders, and other company business; also with Fort Worth, Dallas, and other major shipping points.

"This is our latest step to try to give people in our territory the best transportation service that money can buy," Mr. Bridgeman said yesterday. The locally-owned concern now operates a line from Lubbock to Abilene by way of Snyder, another from Snyder to the New Mexico line, and another from Lubbock to Big Spring by way of Lamesa.

District Set-up Assumes Charge Of Local Relief

Scurry County relief affairs were definitely merged last week-end into the new district set-up, with seven-county headquarters at Sweetwater. The transition took place last Friday, when R. P. Fornway, district supervisor, came here to size up the local situation.

Thirty-eight district headquarters are now administering relief in Texas. They supplant the county administrative offices throughout the state.

Case workers are being maintained in the counties, but county directors and other county workers are eliminated. Joe Monroe was named Scurry County director for a number of months. Jim Reynolds, clerk, Misses Loraine McCormick and Mmes. Ruth Ballard and L. R. Bailey are continuing case work here.

Jim Eckard and Mrs. Ruth Line, formerly with the office, were recently transferred to the rehabilitation office, of which David C. Pawcett is supervisor. Johnny Jenkins, who has been handling reemployment applications in the county, exclusive of Texas Relief Commission jurisdiction, will continue to serve in that capacity.

Under the new set-up, allocations will continue to be made to counties, but funds will be disbursed from the district offices. County relief boards will be continued as advisory bodies.

Softball Team Will Play in Tournament

A Snyder all-star softball team arranged Tuesday to take part in Abilene's invitation tournament, which is to be staged August 22 to 30. Filing of application and posting of a \$10 entry fee entitles the team to compete for \$190 in prizes to be awarded the four top teams out of an entry list of 16.

Marcel Josephson has been named as team manager; Red Hill as captain.

Abilene Has Patients. An enterprising Snyder citizen said yesterday that 12 Scurry County citizens, to his certain knowledge, have undergone operations at Abilene within the past week. "Just think of the big saving for our folks if the new Snyder hospital had been ready," he suggested.

WILL LECTURE

Rev. W. T. Rouse of Arlington, former pastor of the First Baptist Church here, will deliver a series of lectures morning and evening at the local church, beginning Monday and continuing through Friday. He will also speak on the courthouse lawn Saturday afternoon, 4:00 o'clock, in defense of the dry cause, and will occupy the Baptist pulpit at both services Sunday.

SET HOSPITAL OPENING DATE IN SHORT TIME

Dr. Grady Shytles and Family Move Late Last Week From Abilene To Snyder Home.

Early September has been set by the board of directors as probable opening time for Snyder General Hospital, Chairman G. B. Clark Sr. said yesterday.

Albert H. Boren of Dallas, architect for the structure, visited here early this week, and expressed enthusiasm over progress of the work. Most of the outside work has been completed, and workmen are busy with interior finishing. Equipment is expected to begin arriving in a few days.

Dr. Grady Shytles, back several days ago after a trip to eastern and northern medical centers, moved with his family to Snyder late last week. They are residing in the home of Mrs. J. T. Whitmore, East Snyder, just a block south of the hospital. The widely-known Abilene man, who will be chief surgeon, describes his family as "one wife and three ugly boys." He is staying in Snyder all the time except when he is called to Abilene for operations. He joins Architect Boren in expressing keen appreciation for progress and attractiveness of the hospital work.

W. J. Ely and N. M. Harpole, members of the finance committee of the hospital, announced early this week that the hospital stock has been practically subscribed, only a few small subscriptions remaining available.

Young Farmer Dies Following Operation

Funeral rites were held Sunday afternoon, 1:30 o'clock, at Odum Funeral Home for Hubert Williams, 26, who died Saturday following an operation in a local hospital. Rev. Lawrence Hays, pastor of the First Baptist Church, officiated. Burial was in Snyder cemetery.

The young farmer, his wife and a small daughter, resided north of Snyder, on the place of Mr. and Mrs. O. C. Rinehart, parents of Mrs. Williams. Mr. Williams' parents, Mr. and Mrs. T. W. Williams, are citizens of Mississippi. Three brothers and eight sisters also survive.

Pallbearers were Robert Johnson, Elton Moses, Earl Rinehart, Erdist Rinehart, Oddist Rinehart and Ernest Rinehart.

DEATH CLAIMS H. P. WELLBORN AT HOME HERE

Landowner, Banker, and Former Sheriff Had Lived in County More Than 50 Years.

H. P. Wellborn, 72, resident of this section for more than 50 years and an early-day sheriff and commissioner of Scurry County, died at his home in Southwest Snyder early Saturday morning following an illness of three months and poor health of more than two years.

Funeral rites for the landowner and former banker were held Sunday afternoon at 4:30 o'clock from the First Baptist Church, with Rev. J. W. McGaha, a long-time friend, Rev. Lawrence Hays, local pastor, and Rev. Orval Cary, young preacher whom Mr. Wellborn had assisted in getting an education, officiating. Odum Funeral Home was in charge of burial in Snyder cemetery.

Sheriff for Six Years. Mr. Wellborn was elected sheriff of Scurry County in 1892, about three years after he had moved from Brown County and settled on a claim 17 miles southwest of here, in what is now the Bison-Knapp community. He served as sheriff for six years and later as a county commissioner from Precinct No. 3. After serving in the sheriff's office for several years.

In the early days Mr. Wellborn was a banker and also managed his land interests, which gradually grew to large proportions in the Knapp area. Later, he was first vice president and a director of the First State Bank & Trust Company.

After his terms in the sheriff's office, the pioneer moved to his home place from Snyder. He moved back to Snyder 12 years ago. Mrs. Wellborn passed away three years ago at their home here.

Active in Affairs. Mr. Wellborn continued active in county affairs until his health failed him. He became a Mason when he was a young man, and had long been a thirty-second degree Mason and a Shriner. The esteem in which he was held by hundreds of neighbors and friends was testified by the throng that crowded into the Baptist church Sunday afternoon.

Six children survive. They are: Mrs. S. N. Cade, Albany, Oregon; Olin Wellborn, Fresno, California; Mrs. H. E. Clark, Robert Wellborn, C. M. Wellborn, and Mrs. C. V. Thompson, all of Scurry County. Mrs. Cade and Olin Wellborn were unable to attend final rites a number of grandchildren and several great-grandchildren also survive.

Pallbearers were Wright Huddleston, Ross Huddleston, Fred Miller, Jimmy Key, Dwight Monroe and Bud Pryor. Flowers were in charge of six granddaughters.

Honorary pallbearers were Walker Huddleston, W. H. Thompson, Jarrett Dyer, Tom Cary, Billie Wren, J. Wright Moor, Andy Trevey, Dr. A. O. Scarborough, Dr. H. E. Rosser, Joe Caton, Joe Golden, Jim Henderson, J. H. Byrd, Jeff Isaacs, Dr. H. G. Towle, Fred Gray, J. C. Dorward, E. P. Sears, Ernest Taylor, S. H. Hamlett, Hugh Taylor, J. E. LeMond, Joe Monroe and H. L. Wren.

Scenes From the Double Heart

The colorful days of frontier life will be renewed again when scores of the outstanding cowboys of Texas, New Mexico and Oklahoma meet at the fifth Nolan County Round-Up at the Double Heart Ranch, south of Sweetwater, Friday, Saturday and Sunday, August 16, 17 and 18. Buffalo, bad bull and bucking horse riding are listed among the major attractions. The upper action photo shows Fagan Miller, 18-year-old cowhand from Odell; the lower, Billy Lewis of Sweetwater, both of whom will be at the Round-Up.

HEAT WAVE TAKES CONTROL FOR FEW DAYS, BUT 1934 WAS WORSE

Saturday Was Hottest Day of 1935, With 107 Degrees; Showers Cool Things Off.

If you've been using "Fan my brow!" and other expressive hot-weather terms, you owe it to your thermometer to consider what you might be saying if 1935 were as hot as 1934. Boiling down figures gleaned from the records of Mrs. Wesley Evans, government weather tabulator, we find that 67 days in 1934 had a maximum temperature of 100 or above. So far, 1935 has produced only 11 days during which the mercury went 100 degrees or over.

It Couldn't Be as Hot. Even if all the remaining summer days of 1935 were to be dripping with 100-degree perspiration, we would yet have only a little more than a third as many really hot days this year as we had last year. Last Saturday tied for the honor of being the hottest day of 1935 in Snyder-town. The mercury rose to 107 that day. The same figure was hit July 13. June produced one scorcher, the 21st, with 102-degree weather. Seven July days—8th through 13th—registered 101 degrees or above. So far, August has seen such hot weather only thrice: 102 last Friday, 107 Saturday and 102 Sunday.

Showers and threats of showers in various parts of the county broke the heavy heat wave Monday, Monday night and Tuesday morning, and the mercury has not risen to 100 degrees again. Last year May had two 100-degree days; June 15; July 29; August 21. June 21 was one of the hottest days ever recorded here—114 degrees—and the following day was little better with a temperature of 111. July of 1934 hit a high peak of 108 degrees, and July's high was 106.

If figures don't lie, as some say, we might as well put up our fans and thank our lucky stars that we are not living in another 1934.

Anyway, the hot weather evidently chased off most of the cotton fleas and worms; and most of the farmers who received showers early this week are happy over the wetness. Most of our folks are looking forward to a pretty good crop year—rain or shine, 100 degrees or 85 degrees.

Co. 'G' Bringing Home the Bacon

Scurry County has learned to count on Company G, 142nd Infantry, to bring home the bacon. The local National Guard unit is doing that very thing down at Camp Hul- en, Palacios, where they are in annual encampment.

Clerk E. L. McCrory was awarded a blue streamer because it had 100 per cent attendance at the annual army inspection. A red streamer went to the unit when the men met qualifications on the target range for 60 per cent or better of the enlisted personnel.

But the biggest slab of bacon to be brought home so far is the regimental infantry musketry competition for 1935. Company G heads the list with a score of 100.6, giving them a comfortable margin over the nearest rival, Company I of Borge, which follows with a score of 99.7. Captain John E. Sentell thinks the local unit has a favorable chance to capture 36th Division honors. "This will mean hurding three infantry regiments and one engineers' regiment."

Coming Home Sunday. The guards will leave camp Saturday, and will arrive at the home station some time Sunday.

The clerk says, aside from too many sprinkles of hot weather, the camp has been pleasant this year. Last year found men and equipment almost washed away by high water and storm.

Clerk McCrory, after thanking The Times for sending the boys a bundle of papers last week, and after explaining that a letter was not sent from camp last week because everyone was too busy, proceeds to give this interesting information in a letter written last Sunday:

SPECIALIST EXPECTS TO MEET HUNDREDS OF COUNTY FARMERS

Pro Drive Will Be Carried Into 14 Communities

Dry speakers will carry their drive against repeal of the state prohibition amendment into 14 communities of the county next Tuesday and Thursday, August 20 and 22, according to Rev. H. C. Gordon, chairman of county dry forces.

Rev. G. E. McPherson, pastor of the First Christian Church, spoke on the courthouse lawn Saturday afternoon in behalf of a dry vote at the August election. A group of district speakers, headed by Rev. Willis J. Ray of Big Spring, appeared on the lawn Monday evening.

Saturday of this week will find Rev. W. T. Rouse, Arlington, formerly local pastor, speaking at 3:30 o'clock in the last of the series of Saturday afternoon speakings.

Following is a schedule of the 14 community speakings next week: Tuesday, August 20—Canyon, Rodney Glascock; Bison, Cone Merritt; Plainview, Rev. D. I. Hull; China Grove, Rev. James Easterwood of Roscoe; Lloyd Mountain, Joe Merritt; Dermott, Jim Fields; Ennis Creek, Herman Darby; Dunn, Rev. Alfred M. Dorsett; Camp Springs, D. P. Yoder; Mount Zion Church, A. J. Cody.

Thursday, August 22—Sulphur, Herman Darby; Pleasant Hill, D. P. Yoder; Turner, Rev. Alfred M. Dorsett; Arah, A. J. Cody.

Two Schools of County Planning To Open Monday

Two Scurry County schools—Hermleigh and Crowder—will open for business Monday morning, with prospects of increased enrollment in both cases. Hermleigh will be increased by students from Lloyd Mountain, Strayhorn and Gannaway districts.

E. H. McCarter Jr., former Fluvanna principal, is the new Hermleigh superintendent. He will be assisted by Fred Kerr, Mr. Armstrong, Victor Drinkard; Misses Cleveland of Plains, Clarice Harkins, Hazel Lee and Ruth Long; Mmes. Howard Appleton of Dallas (formerly Miss Marie Killingsworth), Blanche Patterson, Minnie Duncan and Gladys Dixon. The faculty was completed Tuesday night.

Crowder will have the same faculty as last year—Elma Cummings and Mrs. Edgar Shuler. Ira opened Monday with the largest enrollment in her history. She has students this year from Triangle, seventh grade up from Bison, and tenth and eleventh grades from Canyon. Turner also opened with a good enrollment last week. Bethel, Dermott and Pyron opened the previous week.

Winston & Clements Lose Safe Saturday Night Then Find It

Snyder has been pestered now and then by safe breakers. Now the safe stealers have started operation. Visitors late Saturday night boldly went into the front door, pulled the big safe out at the same opening, loaded it onto a truck, and hauled it out east of town.

There it was found Sunday morning, dumped into a narrow lane, where it was ripped open, door and bottom. Clyde Boren, manager of the store, reported the loss of more than \$60 in cash, a similar amount in checks, and several notes. Only the cash was a total loss, payment having been stopped on the checks and the notes, in most cases, having been subject to easy renewal.

The Winston & Clements door was left wide open, but the loss was not discovered until after daylight. Officers say they have found no tangible clue to the bold robbery, although numerous fingerprints were found on the safe.

An employee at a cafe just southwest of the feed store thought he heard noises at the place about 2:30 p. m., but he thought nothing of them until he heard of the robbery.

Schools Open Ninth. The Times stated incorrectly last week that local schools will open September 7. The opening date, as announced early in the month by Superintendent C. Wedgeworth, is Monday, September 9.

Feed to Be Placed in Underground Storage Space on Ben Brooks Place August 22.

One of the most interesting and important gatherings of farmers to be held in the county this year is slated for the Ben Brooks place next Thursday afternoon, August 22, beginning at 2:30 o'clock.

At that time and place—six miles northeast of Snyder—E. R. Eudaly, specialist of the A. & M. College Extension Service, will explain and give a complete demonstration of the construction and use of a trench silo.

Farmers and other interested persons from all parts of this trade territory are invited. Eudaly will give a practical and economical method for storing up West Texas feeds for lean years, according to W. R. Luce, county agent.

County agricultural leaders insist that the meeting is of such vital importance that every farmer could well afford to leave his home duties and take a half day off for the demonstration.

The county agent reports that George Brumley, west of town, is now filling a new trench silo, and that Charley Eastman, his neighbor, is digging one that will soon be ready for filling.

Trench Silo Survey.

In a survey of trench silo work in Texas recently, an Extension Service news report says: "Trench silos are getting filled this month in Texas. Corn, red top cane, seeded ribbon cane, hegar, kafir, milo and a few more such crops are going into them."

"E. R. Eudaly, Extension dairyman, says these crops had better be ripe because if they are cut too green the silage will contain a surplus of acid and as a result scour the cattle if fed liberally."

"He says that the leaves on the upper half of the stalk should be green—but the ripier the crop the greater the feed value of the silage."

Plenty of Feed Space. "A trench silo six feet wide at the top, four feet wide at the bottom, five feet deep and 100 feet long, will hold 30 tons of silage. That makes three tons per cow for a 10-cow herd. Eudaly says three tons is just about what a dairy cow needs."

"But that isn't all. Each cow should be supplied with one ton of hay and one of feed per year. He says cannily, Remember, the more roughage the cow will consume, the less of grain mixture will be required. Hay and silage are cheaper than corn and cottonseed meal."

"On a recent trip to the Gulf coast territory spreading the gospel of trench silos or 'canning the cow's winter food supply,' Eudaly found that Refugio County had only one trench silo. Since he spoke there two months ago, 100 silos have been dug and filled."

Passes Birthday Cake.

A. L. Graham, who lives west of town, celebrated his sixty-fifth birthday in unique fashion Friday. He passed around slices of a birthday cake, made by a daughter, to several friends in town. The Times office, thanks to Mr. Graham's kindness, was included in the "shower."

Snyder Scouts to Leave Friday for Jant to Pacific

Disappointment was the lot of three Snyder Boy Scouts last week—and they had for company almost 30,000 other scouts in the 48 states of the Union. The blow came when President Roosevelt cancelled the giant jamboree at Washington because of an infantile paralysis epidemic.

But disappointment was turned to joy yesterday when it was announced by A. C. Williamson, Sweetwater, area Boy Scout executive, that Buffalo Trail members who were scheduled to make the capital trip will go by bus to the Pacific coast.

The boys will leave Sweetwater Friday morning at 7:00 o'clock. Snyder's trio of delegates—J. R. Hucklebee, Leon Aury and Eugene Pinkerton—will meet the group at Roscoe.

The international exposition at San Diego, Yosemite National Park and the Grand Canyon are among points of interest that will be visited on the westward jaunt.

Each Man Actually Directs His Own Destiny . . .

The balance of power—the seats of the mighty—these are things every man is interested in.

Control, the power to direct one's destiny, is for most of us, however, a matter of close-to-home, down-to-earth saving.

When the time comes to determine a new course of action, it's the man with money to fall back on who dares to succeed.

MOOAR RANCH PICNIC SCENE FOR M. E. FOLK

The picnic had by the children's division of the First Methodist Church last Thursday afternoon at the J. Wright Mooar Ranch north-west of town proved to be an enjoyable occasion.

Department superintendents, teachers and members together with parents of the children composed the group of nearly 100 to attend the affair.

Sixteen cars filled with picnickers reached the ranch house late in the afternoon and were directed through the historic ranch house by J. Wright Mooar, pioneer West Texas ranchman, and Mr. and Mrs. Tom McDonnell, who were hosts for the afternoon.

Various old relics were viewed by the group, but special delight was shown by the visitors in the white buffalo hide on display. Records show that the animal killed by Mr. Mooar numbers of years ago was one of two ever killed in its kind. The skin is the only one of its kind in the world today.

A beautiful picnic ground near the house was a scene for various games, which furnished amusement for those present. Games of softball proved to be the most popular of all.

Rev. H. C. Gordon, pastor of the local Methodist Church, gave the invocation, preceding the supper. Fried chicken, sandwiches, cookies and iced lemonade were on the supper menu.

The group included the following: Mr. Mooar, Mr. and Mrs. McDonnell, Rev. and Mrs. H. C. Gordon and children, Mrs. H. Keith, Mr. and Mrs. Homer Snyder and sons, Mr. and Mrs. W. W. Hamilton and son, Mr. and Mrs. W. P. King and son, Mrs. E. J. King, Virginia Pruitt, Patricia, Sara and Lucy Dodson, Genevieve Yoder, Mrs. C. M. Donaldson, Mrs. Alfred Greenway and son, Mrs. Cleo Richardson of Dimmitt, Mrs. Albert Smith and daughter, Mr. and Mrs. H. L. Vann and son, Mrs. Lida M. Hardy, Mr. and Mrs. Warren Dodson, Mr. and Mrs. L. C. Wilmet and daughter, Mrs. W. E. Shultz and children, Mrs. Frank Farmer and daughter, Mrs. Lee T. Stinson and son, Burgess Wilson, Mrs. R. J. Randals and children, Patty Joyce and Bobby Hicks, Dorothy Louise Cornelius, Mrs. Boswell and children, Mrs. John Cox and children, Mrs. W. P. Cox and sons and Mr. and Mrs. W. W. Smith.

Members and guests of the "Double Five" group of the younger set, were entertained Wednesday at the home of Milton Joyce, daughter of Mr. and Mrs. R. E. Joyce.

A delightful theatre party was enjoyed by the group, and then they returned to the Joyce home, where various games were played and watermelon was served. Members present were: Elizabeth McCarty, Janice Burt, Jackie Scarborough, Wallace Smith and the hosts. Guests who attended were Marguerite Higginbotham, Earlene Line, Virginia Pruitt, Richard Brice, Jimmy Sharp and Souvill Britton, both of Hermleigh, and Eddie Hicks of Lubbock.

YOU DON'T HAVE TO "BREAK IN" THE FORD V-8

You can drive it 50 miles an hour the day you buy it

THE FORD V-8 is ready for normal driving when you buy it. There is no tedious period of breaking-in for 500 or 1000 miles. You can drive it up to 50 miles an hour the first day. And after the first hundred miles you can drive it as fast as you desire.

The reason for this is as important as the result. The Ford V-8 needs no breaking-in because of unusual accuracy in the manufacture of moving parts and the smoothness of bearing surfaces. Clearances are correct when you buy the car. It is not necessary to depend on a long wearing-in period to eliminate tightness and insure smooth running. Longer life, greater economy and better performance are bound to result from such precision methods. The Ford V-8 gives you fine-car construction, along with fine-car performance, comfort, safety and beauty.

THE WEEKLY DOZEN

Stringing You Along.

The Houston Post wins the cake for penning this recent wisecrack: "It is Wrigley's boast that the sun never sets on his chewing gum. But almost everybody else does."

Training the Children.

"Soap carving," says the Abilene Reporter-News, "is the newest activity for youngsters at the Taylor County recreation center." That's good training, all right, for in a few years they'll be in Grown-Up Land, where soft-soaping and bubble blowing are two of the most popular indoor pastimes.

They Are Building a Bridge.

Commissioners Brock and Jones, with plenty of assistance and moral support, are building a real bridge across Deep Creek in the south end of the county. The taxpayers will no doubt be ready to say, "Well done!" when the county dads get through saving more than \$1,000 in hard-earned tax money.

Adjustment Works Wonders.

Figures just released by the Agricultural Adjustment Administration reveal that the government's program worked wonders with the county cotton income for the 1934 season. Benefit payments, which in one sense of the word are crop insurance, brought a total of \$163,083.08 into the county through last April.

The Value of Play and Rest.

Physicians who have investigated tuberculosis cause and cure for years will tell you that one of the crying needs of the day is adult education. Teaching grown-ups how to play and how to rest has always been an unsolvable health problem. Most of us do not sleep enough, and when we find time for play we play too hard.

Make Me a Boy Again . . .

Dear Fate: Make me a boy again, just for tonight, so I can make a trip down to see the little circus that's coming to town, and so I can enjoy it 999 per cent. Take the scales from my eyes, and permit me to overlook the flea-bitten animals and the worn-out folks who have only contempt for such "tank" towns as ours.

Congratulations to Pete.

Pete Bridgeman, top-kick of the Snyder Transfer & Storage Company, is to be congratulated for installation of the teletypewriter at his local office. There are only a handful of these machines in West Texas. Snyderites are proud of Pete's concern, which has spread out to become one of the largest transportation companies west of Fort Worth.

My First Cigar, Boys.

Talkative Tillie says the most interesting sight of the week-end was two youths, one about 14 and the other about 16, who must have been smoking their first cigars. The two-for-five stogies were evidently being immensely enjoyed, temporarily, by the adventurous youngsters, but she cringed with the thought of what happened to their stomachs a few hours later.

Says the Prince of Wales.

You will relish this quotation, which reveals the Prince of Wales, one of the world's most widely-quoted citizens, in a role entirely different from that which he is usually forced to play: "There is in the heart of practically every man, woman and child in our nation today a real desire to be a friend towards animals. Kindly deeds react upon our own character and make us better citizens."

The Sun Shines in East Texas.

Stars fell on Alabama, but the Sun continues to shine in East Texas. The Corsicana Daily Sun, we mean. That trail-blazing newspaper, which passes most of the larger dailies of the state in advertising inches year after year, added another star to its newspaper heaven late in July, when it published the first complete edition about the Texas Centennial. The Sun truly is carrying out the official slogan: "Think-Talk-Write Texas Centennial in 1936—It's Your State, It's Your Celebration."

Budget-Forgetting Time's Coming.

Now is the time for all good citizens to prepare for budget-making. For soon the county, school and city dads will have their facts and figures all ready for perusal of the people. Good citizens will not be out for the budget hearings, of course, for it is much more pleasant to condemn officials, after the budget is in operation, than to make suggestions while the budget is being prepared. So it's budget-forgetting time in Scurry County and throughout the state. And may all the big budgets become little ones!

Gerald Mann Carries the Ball.

Just as Gerald Mann, S. M. U. football star of a few years ago, carried the ball many a yard for his alma mater and thus brought nation-wide fame to "the aerial circus," so does Gerald Mann, secretary of state, continue to carry the ball in more official ways. The little gridiron wizard started an upward trend of interest in the amendments on which Texas will vote August 24, simply by writing informative articles for newspaper publication. Now he is continuing the good work by broadcasting impartial discussions of the amendments. You may look for Mann in Texas political headlines from here on out, and the voters will welcome such a fellow who carries the ball with the public interest as his goal.

Why Not Vote Next Week?

If you have paid your poll tax, is there any legitimate reason why you should not vote next week? The poll tax, when properly used, is one of the marks of a good citizen. Why, then, pay \$1.75 for it without exercising the privilege it gives? It is the duty of every citizen to study the amendments and decide how to intelligently cast his vote. Be for or against, but never be neutral—that is the biblical admonition, and it applies to politics as well as to things religious. The Times, which believes in temperance and in promoting temperance by education and regulation, is in favor of retaining the state prohibition amendment. Poor regulation is better than no regulation. But regardless of our opinion about this moot question, the chief thing of interest to us is to get people to vote. We believe that a people interested enough to vote will be interested enough to think out the right decision on the liquor question and all other public questions. Why not vote next week—provided you have a poll tax? Boiled down, there's no reason at all. Let's exercise the badge of good citizenship next week.

EDITORIAL OF THE WEEK

Peter Molyneux, editor of The Texas Weekly, has been more or less opposed to the AAA program of crop control since its inception. In the following editorial in his magazine, the authority on economics views one side of the cotton program:

The cotton crop is estimated by the government to be 11,798,000 bales. This is 484,000 bales more than world consumption of American cotton during the past year, which was reported by the New York cotton exchange service last Saturday as 11,314,000 bales. It means that if the government's estimate is borne out by the amount of cotton ginned the world supply of American cotton during the next 12 months will be approximately 500,000 bales more than that of the past year. The world carry-over of American cotton is slightly more than 9,000,000 bales, so the supply for the coming year on the basis of the government's estimate of the new crop will be 20,800,000 bales, as compared with 20,300,000 bales during the past year.

Unless there is an increase in the consumption of American cotton during the coming year there will be a larger carry-over next August, and the size of the carry-over will fluctuate to a degree corresponding to the relation to the consumption during the coming year to that of the past year and the relation of the amount of cotton ginned to the government's present estimate. Last year about 500,000 bales more cotton was ginned than the amount estimated by the government in August, but the estimate was made in the midst of the drought and there was improvement later in the season. The conditions this year are not comparable to those of last year and the final ginnings may be less than the estimate. There is no possibility, however, that the amount of cotton finally harvested and ginned will show a sufficient decline from the government's estimate to change the fundamental situation materially. And any increase will make the situation more critical.

The Agricultural Adjustment Administration has finally reached the barrier of the blind-alley toward which it has been headed all the time. It has reached the limits of its ability to reduce the carry-over without materially increasing world consumption of American cotton. And that carry-over is the enormous amount of 9,000,000 bales. It cannot be materially reduced in the near future without a material increase in consumption, and a big per acre yield in any future season, due to favorable weather and growing conditions, could easily increase it.

Last January, Henry A. Wallace, United States secretary of agriculture, told the senate committee on agriculture that the objective of the AAA program was to reduce the carry-over to 7,500,000 bales by August 1, 1936. "The cotton control program already announced for 1935," said Mr. Wallace, "is in line with the programs that were in operation in 1933 and 1934 and aims at a further reduction in the surplus. With average yields and a continuation of moderate improvement in demand conditions, it is expected that the present program should bring the world carry-over of American cotton down to about 7,500,000 bales by the end of the 1935's marketing year. The carry-over would still be above average, carry-over existing on August 1, 1932, before these but it would represent a material reduction from the programs were undertaken." Well, in order to bring the carry-over down to 7,500,000 bales by next August there must be an increase of 2,000,000 bales in world consumption of American cotton, if the government's estimate of the new crop is approximately correct.

Mr. Wallace's calculations went wrong because consumption of American cotton outside the United States fell off 2,200,000 bales during the past year. Any reduction of the carry-over now must depend on increased consumption outside the United States. And the AAA program is not calculated to promote this.

DISTRICT HOME SUPERVISOR IN TOWN FRIDAY

Institute for Applicants in New Field of Rural Program Is Attended by Several.

Mrs. George F. Cornean, district rural home supervisor, was in the local office Friday conferring with Mrs. Ruth E. Baker, rural home supervisor for Scurry County, about the local work. She also held an institute for applicants from several counties for rural home supervisor work.

The institute was attended by Mrs. Ann Weekly, Roby; Mrs. Mary J. Hopson, Stewart; Miss Beryl Boone, Haskell; Mrs. Alton Campbell, Tulla; Mrs. Paul James, Lubbock; Miss Dorothy Gore, Lorena; Miss Talma E. Buster, Marneal; Miss Eda McFarland, Snyder.

The work of home supervision is new in the United States. Texas was the first to take the initiative in the work, and Mrs. Cornean was the second rural home supervisor to be placed in the field. The success of the resettlement program, according to Mrs. Cornean, will be measured by the number of families and individuals who, by their own efforts, are able to provide the necessities of living as well as some of the things that add to the comforts and richness of life.

Mother Responsible. "The mother and housewife," said Mrs. Baker, county supervisor, "has the task of keeping up courage, as well as assisting in providing daily bread. This is more difficult for the woman in the destitute than in the economically sound home. She is largely responsible for setting up the standards of living in the home, and she largely furnishes the ideals and the inspiration that makes hard work seem easier and worth-while. She supervises the training of the children, ministers to the sick, and is the producer of many of the products the family uses.

"As rural home supervisors, our work consists in striving to rebuild in the woman with whom we deal the desire to do these things which is her natural heritage. Our clients have been unfortunate, and in many cases their morale and ambition have been weakened. It is worth while to try to restore in these women these sacred characteristics? We think it is, and we indeed appreciate cooperation in this work."

Thanks Study Club. Mrs. Baker expresses appreciation, through The Times, to the girls belonging to the Presbyterian Study Club, who, under direction of Miss Lucretia Robertson, "presented to me through Mrs. L. E. Bailey a box of used clothing for my resettlement work. If any other clubs wish to make similar contributions, we shall appreciate their assistance in this worthy cause." Mrs. Baker's office is on the third floor of the courthouse. Her telephone is No. 4951.

FIGHT WINTER COLDS WITH CIRCULATED HEAT

Enjoy Summer all Winter with Gas Floor Furnace

Beware of colds! They thrive in drafty, poorly heated homes. Pictured above is interior of a home that has installed a precaution against them—circulated heat provided by gas floor furnace. In this location it heats living room and small adjoining study.

Designed to burn gas efficiently without waste, the gas floor furnace is as inexpensive to operate as the warmth it circulates is healthful. No oxygen is taken from the air it circulates. It is vented to carry off products of combustion and eliminate wall sweating. It can be equipped with thermostat for automatic control. For maintaining a uniform temperature in all parts of the room it is unsurpassed.

See this and other new gas circulating heaters. Install now at August savings and be ready to fight winter colds with healthful circulated heat.

PROJECTS FOR FARM CLIENTS BEING SOUGHT

Many Types of Work May Be Done By Rehabilitation Men; Plan Of Finance Proposed.

Work projects that will employ farmers who are clients of the rural rehabilitation program are being worked out by David C. Fawcett, Scurry County supervisor.

Among jobs that may be done by these clients are running terraces, building dams, digging wells, and constructing trench silos.

Citizens who have work that needs to be done on their places may secure workers through Fawcett's office, third floor of the courthouse. If they cannot finance the program now, it is possible for them to be financed through the Resettlement Administration at a low rate of interest.

Several Projects Begun.

The local supervisor reports that several projects for his clients have already been started. He invites farmers and property owners interested in securing good laborers at the prevailing wage scale to confer with him as to projects they have in mind.

The following list of projects that may be handled through the local office is merely suggestive. Others may be worked out with local and state approval.

Running of terrace and contour lines; building terraces; building terrace outlets or spillways; repairing broken terraces; plowing up contours.

Proposed Farm Work.

Making fills and digging out high points; building temporary dams in gullies; planting pasture mixtures on contours; digging or building ponds; straightening or changing creek channels.

Planting trees or shrubs to control soil erosion or for reforestation purposes; planting, cultivating or harvesting crops; setting orchards, grafting, budding and pruning.

Constructing trench silos; constructing storage houses, barns, cellars, school buildings; building fences; making hollow tile; laying tile for sub-irrigation; rural electrification; county health program.

BRIDGE NEARS FINAL STAGES

The big bridge over Deep Creek, between Ira and Dunn, is getting along toward the final stages, Commissioners H. E. Brook and Forest Jones, who have been in charge of the work, reported yesterday. All concrete work was completed early this week, and fills are expected to be completed today or tomorrow.

Judge H. J. Brice says the county has saved more than \$1,000 on the bridge, which was washed out four weeks ago by high water after standing for more than 30 years. The saving was made largely because the commissioners—all four of them—and their helpers, were willing to cooperate to complete the job, says the judge.

Flooring will be laid within the next few days, and the iron work, most of which was salvaged from the flood, will then be returned to its place.

Varied Program Is Featured at Lions Club This Tuesday

A program that ranged from almost sublime to almost ridiculous was presented at the Lions Club Tuesday noon.

With Frank Farmer, first vice president, in the chair, the club first heard a report from Jake Smyth, chairman of the bulletin and publicity committee, who presented the new club bulletin, with trimmings. The board was made and donated by Dick Randalls and painted by Ed Thompson.

Mrs. Violet McKnight, formerly of Snyder, was heard in a trio of applauded vocal solos. She was her own accompanist.

Cy Reid of Sweetwater was introduced by Earl Louder as the first key member of his home club.

Tail Twister W. E. Holcomb conducted another musical contest, because, he said, there had been so much fusing, fuming and fighting over the one staged recently. Miss Estine Doward, club pianist, played snatches from well-known tunes, the Lion guessing the exact titles to receive a prize next week.

GINS WARMING UP THIS WEEK

Scurry County gins are warming up this week in preparation for the 1935 ginning season. It will probably be late in the month, if not early in September, before the first bale comes to town, according to most ginner.

Abilene ginned its first bale of the season Monday. The crop in that vicinity is slightly earlier than it is in Scurry, of course, but it is probable that only a few bales will be ginned there within the next month, say observers.

Light showers in a few communities Tuesday held back opening of the crop to a small degree. Continued hot days are pepping up the harvest season later in the week.

Host of Relatives Honor "Mother" Woolever on Seventieth Birthday

More than 75 children, grandchildren and great-grandchildren of Mrs. O. C. Woolever, Scurry County pioneer, gathered at the home place five miles west of Snyder Friday, Saturday and Sunday in their tenth annual reunion. Friends and neighbors who joined in the three-day celebration of Mrs. Woolever's seventieth birthday brought the total guest list to more than 100.

Since the first Woolever reunion 10 years ago, 28 grandchildren, great-grandchildren and "in-laws" have been added to the family circle. Not a death has occurred during that period in any of the immediate families. The family circle has increased by 28 during the 10 years of the reunions.

Several softball games were played during the big reunion, including Woolevers against Bethel and Snyder, and a game between the old and the young Woolevers. A full program of music and other numbers was rendered Saturday night.

Barbecued goat and beef headlined the three-day menu. The food was spread on a long table beneath the trees in the yard. More than 100 persons ate from the well-laden table several meals. The Woolevers ask the Times to relay their thanks to the many friends and neighbors who helped make the 1935 reunion so successful.

Several pictures were made, including one of "Mother" Woolever and nine of her 10 children. Only E. V. Woolever and family of Slaton among the near relatives were unable to attend the celebration. The children who were there with their families included: E. E. Woolever, Mrs. Paul Davis and Mrs. Jess Dixon, who reside in or near Snyder; Mrs. A. E. Miller and Mrs. Owen Miller, Ira; Mrs. M. E. Bishop and Mrs. T. J. Sterling, Knapp; Mrs. C. R. Bishop, Ralls; E. H. Woolever, Idalou.

Other relatives included: Mr. and Mrs. Claude Woolever, Edgar Woolever and family, Idalou; Mr. and Mrs. Lee Myers, Weldon Bills and family, Mr. and Mrs. Jack Davis, all of Scurry County.

Others who attended from out of the county included: Mr. and Mrs. Jeff Tomlinson and son, Mr. and Mrs. Curtis Odle, Mr. and Mrs. Herbert Bowden, all of Wichita Falls; Robert Wilson, Mr. and Mrs. Homer Testen and baby, Miss Mildred Dawson, all of Ralls; Mr. and Mrs. B. Stalcup, Breckenridge.

Nervous, Weak Woman Soon All Right

"I had regular shaking spells from nervousness," writes Mrs. Cora Sanders, of Paragould, Ark. "I was all run-down and cramped at my time until I would have to go to bed. After my first bottle of Cardui, I was better. I kept taking Cardui and soon I was all right. The shaking quit and I did not cramp. I felt worlds better. I gave Cardui to my daughter who was in about the same condition and she was soon all right." "Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician."

GINNERS PLAN ABILENE MEET

Approximately 800 ginnners of the West Texas Ginnners Association and of the Brady area are expected in Abilene today (Thursday) for a joint session of the two areas.

W. J. Ely, state director for the area, will head a group of Snyder ginnners to the gathering. Threatened cotton tie-up in Texas followed an injunction issued by a federal court will be the principal topic of discussion. A representative from the Internal Revenue department is to be on hand to give the views of that body on the Bankhead Act, and to explain when bale tags will be issued in this area.

\$1,143 Per Man Is Asked for State Under PWA Plan

The County Judges and Commissioners Association of Texas Tuesday called upon the federal government to restore the original allocation of \$1,143 per man per year on works progress administration projects in Texas. The allocation has been reduced to \$600.

Tuesday's meeting, held at Dallas, was attended by County Judge H. J. Brice and Commissioners Forest Jones, Holly Shuler and H. E. Brock.

The Tuesday resolution also asked that the WPA rules be changed so that projects submitted to the WPA on an average basis of the man-years allocated to each county rather than by restricting the applications for projects within the maximum limits of the allocations granted to the county.

The resolution was adopted after considerable discussion during which the fear was expressed that the counties containing metropolitan areas would gain at the expense of the less populous counties under any plan that set minimum and maximum limits for the man-year rates of pay.

Harry Hines, chairman, and Gibb Gilchrist, chief engineer, of the Texas highway commission, attended the meeting. Hines said that the commission had outlined projects totalling \$11,500,000 and sent them to Washington for approval. He predicted that when the commission's estimates on lateral roads are completed, which he said will be in a few days, another \$5,000,000 will be added to this amount.

McMurry President Talks Here Sunday

Dr. C. Q. Smith, president of McMurry College, Abilene, filled the First Methodist Church pulpit Sunday morning. He spoke to a large and attentive audience, according to Rev. H. C. Gordon, pastor. "Righteousness Exalteth a Nation" was Dr. Smith's major sermon theme, after he discussed the rapid growth of McMurry in preliminary remarks. The school, he said, registered more than 800 students last year, and promises to grow even larger this year.

The speaker laid the moral, social and religious degeneration of America to sins of the people, and said we must get back to spiritual life and right living or we will never find complete recovery. He gave a far-reaching historical background to show that nations, once righteous, which drifted into widespread sin, have always perished unless they returned to God.

wish to have it distinctly understood that their temporary selection must have no influence upon the selection of the new officials of the organization. They do not want to get the jump on anybody else. "As was expected, we encountered a little outside opposition in our efforts to build up this cooperative gin company, but we were elated over the expressions of good will and even offers of assistance made us by several of the Snyder ginnners. Consequently we are thoroughly imbued with the spirit of cooperation not only among the membership, but cooperation also with the other Snyder gins. It would be an ungrateful and serious folly were this new cooperative gin to meet its generous reception with a spirit of antagonism. "We certainly appreciate Mr. Trice for his most fair and noble dealings in the gin transaction."

HERE IS MORE CONCERNING Company "G" CONCLUDED FROM PAGE 1

about. However, camp isn't over yet so let's not talk too much about the weather and mosquitos. Those reporting at sick call have been few so far. Private Ernest E. Davis sent yesterday sick in the hospital, but is back in his regular quarters this evening and will probably be assigned to regular duty tomorrow. The usual number of blisters and bruises are requiring attention.

Incidentally, we have several cases of sunburn today after a party of 23 Company G men spent last night and a greater part of today on a fishing excursion. The party, going by boat, went about 20 miles out and had some luck—but will tell them their own fish stories when they get home.

Have Guests at Lunch. The enlisted men of the company were honored today by having as their guests at lunch Captain John E. Sentell and wife, First Lieutenant Tim O. Cook and wife, and Second Lieutenant Roy O. Irvin and wife, along with Miss Mary Sue Sentell and John Sears Sentell. However, Sears is a regular and takes most of his meals with the men. We hope our guests enjoyed the meal prepared by Sergeant Clark and his force.

Two of our musicians helped to furnish rhythm for the officers' ball last night. They are Sergeant Felix Jarratt and Private Curtis Jarratt. They also turn out a few lively tunes for the boys occasionally, for which we are all thankful.

You told The Scurry County Times readers last week that Captain Sentell had departed Snyder with a full company of three officers and 65 enlisted men, all in happy spirit. We still have a full company and we are still looking up. The fact is, we think we have some of everything it takes to make a first class rifle company.

John Sears Likes It. If you have any doubts about camp being o. k. just read following letter from the smallest soldier in our company:

"Dear Marvin: "How are you? Camp is fine. I am having a good time if you will tell Opel to right me a letter."

(Signed) John Sears Sentell.

Sears is our mascot, but he hobnobs with the big shots quite a little. Tomorrow morning our officers and 48 of our enlisted men will leave camp on a two-day hike and combat problem, leaving 17 men in camp. There ought to be a lot of news when the boys get back to camp.

Next Friday the ghost walks; Saturday Company G travels—towards its home station; and Sunday we'll give you more news, first hand.

McCrory adds two suggestions whose meaning must be clear only to the boys at camp. "Anyone interested may ask Private Clarence Irion about the use of pivot oil for the care of a rifle," says the writer. "A few days ago," he continues, "Private Essie L. Ryan was very busy trying to find the key to the parade ground. The odd thing about that is that he actually found the key and returned it to the men who sent him after it."

Mrs. Mary E. Banks spent several days this week with her daughter, Mrs. W. G. McMeans, in Benjamin.

Coach Red Hill has announced that fall football practice for the Tigers will begin Monday morning at 9:00 o'clock. The mentor, who is beginning his second year as chief of local gridiron forces, asks that all the boys interested in football practice report for their equipment at the hour indicated.

Practice will be held at 3:30 each afternoon, Hill says. He is looking forward to greeting at least 30 youngsters, several of them holdovers from last year's squad. Added weight is expected to be a feature of the 1935 lineup.
