Lady's Painful Trouble Helped By Cardui

Why do so many women take Car-dui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from crampwash t good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and 'do-less.' Dr. Harris Makes Good.

It's mighty late in the day to be writing that Dr. Sed A. Harris of Snyder makes good. The veteran dentist has so long been associated with this city and community that everyone knows him and appreciates him. But it isn't every day that we consider what it means for him to be named for 20 consecutive years as secretary-treasurer of the West Texas Dental Society. Truly, a man who can please such hardpulling fellows as dentists should have the everlasting esteem of his homefolks.

What Will They Do?

If the new National Youth Administration does no more for the youth of the nation than some other similar organizations have done, its existence will be almost in vain. But the new group has a ring of genuine sincerity and possibility. If the Texas part of the administration carries out its purposes, approximately 5,000 college students and 10.000 high school students will be assisted in obtaining an education, and the 61,467 young women between the ages of 16 and 25 now on relief rolls of the state will be helped to find employment through work relief proj-
