

Mr. and Mrs. B. S. Tate Celebrate Their Golden Wedding Anniversary

Mr. and Mrs. B. S. Tate celebrated their fiftieth wedding anniversary Sunday, October 27, at their farm six miles east of Snyder. The celebration began Sunday morning when the friends and relatives of the couple began to arrive at their home, and lasted through the day.

A short program was held in the morning in the bedroom of Mr. Tate, who was confined to his bed because of illness. Readings and original compositions were read commemorating the event and the lives of the memorable couple.

Then a beautiful anniversary cake prepared by friends from Water Valley, former home of the Tates, was brought in and, from a "wishing well" within the cake a roll of written congratulations from friends of this place were read. The crowd then withdrew to partake of a barbecue dinner arranged on tables in the yard, where another huge anniversary cake was cut.

Reviews Married Life.
In the afternoon, Mr. Tate was moved to a chair on the porch, from where he made a talk reviewing the 50 years of married life, and expressing his philosophy on the institution of marriage. After this, short talks were made by T. L. Tate of Brownwood, son, and S. E. Tate of Post, grandson, both ministers. The remainder of the afternoon was filled with songs.

Mr. and Mrs. Tate were married at Dexter, Cook County, October 28, 1885, by Rev. Tripp. Mrs. Tate

was Lennie Laswell. They lived in Cook County for several years and moved to Hunt County and on to Brown County, where Mr. Tate preached in preaching and farming. In 1907 the couple moved to Water Valley, Tom Green County, where Mr. Tate went into the mercantile business and also continued his preaching. After living here 16 years, they moved to Kent County and on to Snyder, where they have resided for the past eight years.

All Children Present.
To Mr. and Mrs. Tate were born ten sons and two daughters, all of whom were present for this celebration except one daughter, who died in infancy. Nine of the boys, with their wives, present were: J. W. Tate, Jayton; T. L. Tate, Brownwood; J. P., G. R. and O. B. Tate of Snyder; S. L. Tate, Water Valley; Earl Tate, Emory; D. D. Tate, Goldthwaite; Erton Tate, Lubbock; and one unmarried son, Ernest Tate, Snyder. The daughter, Susan, and husband, J. E. McMahan of Wall, were also present, and an only sister of Mr. Tate's, Mrs. Amanda Laswell of Fort Worth, enjoyed the day's celebration.

Twelve of the 18 grandchildren and one of the nine great-grandchildren, besides about 40 or 50 friends of the couple, were also present.

BERNICE ADAMS

This picture of Mrs. Bernice Adams, formerly of Snyder, appeared in a recent J. C. Penney Company ad that was published in the Wichita Daily Times. Mrs. Adams is now in charge of the millinery department of the Wichita Falls store. She was associated with local dry goods stores while she was a resident of Snyder. She invites her friends to visit her when they are in Wichita Falls.

Opal Ikard Gives Birthday Party.

Little Miss Opal Ikard celebrated her seventh birthday with a party given at her home Saturday afternoon. After games were played, punch, cake and candy were served.

The party list included: Latrice Roper, Donna Jean Aultry, Patsy Ruth Eaton, Nancy Jo Richardson, Sandra Jean Josephson, Annie Lou Piqua, Charlotte Faver, Dorothy Sue Cox, Elda Jean Littlepage, Oral Faver, Wanda Grace Minor of Roby and Billy Thompson.

Those assisting Mrs. Jim Ikard, mother of the hostess, in entertaining were: Mrs. R. O. Piqua, Doris Wilson, Dorothy Pinkerton and Miss Loy Dell Minor of Roby.

Eleanor Hays, a 1935 graduate of Snyder High School, who is attending Texas Tech, Lubbock, visited with relatives and friends in the county last week-end.

Refreshing Relief

When You Need a Laxative

Because of the refreshing relief it has brought them, thousands of men and women, who could afford much more expensive laxatives, use Black-Draught when needed. It is very economical, purely vegetable, highly effective. Mr. J. I have taken it for constipation and the dull feelings that follow, and have found it very satisfactory."

Texas Centennial Tea Is Given by Altrurian Club In O. P. Thrane Home

The Texas Centennial tea given by members of the Altrurian Club at the home of Mrs. O. P. Thrane, club president, Friday afternoon from 3:00 until 6:00 o'clock was one of the prettiest and most appropriate affairs of the year.

Each club member invited one guest, and invitations were issued to all study clubs of the town. More than 150 called during the three hours. The tea was given to further call attention of local people to the Centennial.

Mrs. Thrane greeted guests at the door and presented her sister, Mrs. J. S. Vaughan of Colorado. Other club members assisted her in the living room. A Centennial theme was emphasized in decorations as well as in the program and refreshment plate.

Lovely cut flowers, including giant dahlias, roses, queen's wreath and others, and ferns were used profusely throughout the house, the large bouquet of pink dahlias and queen's wreath on the piano being especially lovely. An oil painting of Stephen P. Austin, father of Texas, hung in the living room. Texas, hung in the entrance, and a map of Texas studied with stars was placed just below six flags, which have flown over Texas.

Mrs. A. C. Preuit, chairman of the club's music committee, was general program chairman for the affair. At the beginning of each hour's entertainment, greetings and comments on the Centennial were given successively by Mmes. W. W. Hamilton, J. C. Dorward and J. W. Lettlich. Miss Ruth Irby, teacher of speech arts in the local high school, entertained with a reading, "The Last Joy," at each hour.

Musical numbers also followed the Centennial theme. Mmes. Melvin Blackard and Novis Rodgers played piano solos, and also gave "Home on the Range" as a vocal duet. A quartet composed of four of the club's music committee was M. E. Savage, I. L. Gray and A. C. Preuit—sang "Shortenin' Bread," with Mrs. Hamilton accompanying, and Miss Zulena Barne gave a group of vocal solos the last hour.

A clever dance was by little Misses Nina Katharine Quinney and Margaret Campbell of Colorado, pupils of Mrs. W. R. Martin of Lorraine. Their dance was "La Paloma," a Spanish folk dance, and they were accompanied by Mrs. Martin.

The dining table was covered with lace and centered with a huge bouquet of red rose buds in a beautiful cut glass bowl. Green tapers burned in crystal candelabra at each side of the centerpiece. Miniature log cabins, Indian teepees and Indian dolls were also to be seen on the table, and silver coffee and tea services were at either end of the table. A model of the Alamo was on the buffet, with the six Texas flags above it.

Mmes. J. C. Dorward, H. P. Brown, J. C. Stinson, H. G. Towle, A. C. Preuit and Hugh Boren poured the coffee and tea. Favors were gold stars to represent the "Lone Star State," placed on the salad plate passed to each guest.

Mmes. Fred A. Grayum, Lee T. Stinson and R. D. English served

in the dining room, assisted by Mmes. Herman Doak, P. W. Cloud, J. D. Scott and J. P. Strayhorn, all members of the Altrurian Daughters Club.

Other members of the club in the house party were Mmes. W. R. Bell, R. L. Gray, G. A. Hagan, W. W. Hamilton, J. W. Lettlich and J. C. Smyth.

An exhibit of historical relics—American, Indian and Spanish—in one room was explained to the guests before they left. The exhibit included a wooden ox-yoke, which was used in hauling the first lumber to Scurry County by J. Wright Moor. A buffalo gun used by Mr Moor was also on exhibition.

A photostatic copy of a land grant issued in 1827 to Samuel Shupe, grandfather of Mrs. R. W. Cunningham, had an important place in the exhibit. The land grant was issued to Shupe, who was a Pennsylvania Quaker, after he had joined Green DeWitt's colony. He was a hero in the Battle of San Jacinto.

Price of Sudan Set Five Cents a Pound

Sudan growers of several Panhandle counties recently met and organized the Sudan Seed Growers Association, with the purpose of securing fair prices for their sudan seed. They decided among themselves, and are asking other growers, to cooperate to hold their seed for 5 cents per pound, against speculation by outside buyers.

Farmers who are interested in helping the non-profit association maintain this fair price are urged to write at once to the Sudan Growers Association, Farwell, Texas, giving past and present figures on sudan acreage and yields.

Sports In Brief

Mr. Calloway states that he has 28 boys out for basket ball. He does not know the quality of the group because most of the time is spent on football yet.

The team will be under way soon. The coach expects to select about 15 boys and start some aggressive work by meeting each Tuesday and Thursday afternoon.

The tennis courts are being leveled and rolled as five or six boys prepare for practice. Charles Lewis, Wallace Smith, Billy King, Gordon Sentell, Carl Patterson and Charles Harless are among those interested in getting the courts in readiness.

What Kind of a Newspaper Do You Want? Now that Times "Bargain Days" are in force again, this question faces the publishers more bluntly than ever before: "What kind of a newspaper do our readers want?" The reader pays for the paper. He deserves to get what he wants to read. If the paper has failed to give readers what they wanted, it was because of the publishers' failure to understand what was wanted. Some weekly newspapers have a smattering of home-town and home-county news, and place emphasis on serials, special columns by syndicate writers, and other such reading matter. Other weeklies give plenty of home-town news, but leave the remainder of the county almost out of consideration. Still others use all the space possible for home-town and home-county news, with the material divided according to where the papers are mailed each week. Papers in the latter class use state or national news only when that news has a particularly local interest. It is to this class that The Times belongs. The publishers believe people take The Scurry County Times because they want news of Snyder and other communities of the county, plus a few other communities within the trade territory. When there is space for other news, it is used. When it comes to a matter of choice between home news and outside news, The Times takes home news every time. Maybe we're wrong. Maybe our readers would like a mixture that includes more outside news. Maybe they want a serial. Maybe they want Brisbane or Irvin S. Cobb or Washington news or patterns or short stories or other features of general interest. What kind of a newspaper do you want? That's the kind the publishers want to give. If any reader has any suggestion about making the paper more interesting, the publishers are anxious to receive it.

EDITORIAL OF THE WEEK TWO KINDS OF SOAP. Thrift is saving a dime by shining your own shoes. It is sending a telegram only when somebody is dead. It is having the old dress die a different color and brightening it up with a girde of a contrasting shade. It is buying shoes that were the style last year. It is resisting the temptation to have somebody clean your motor car and doing it yourself. It is using one match to light four candles. It is having the old felt cleaned and reblocked and getting your wife to take the spots off your neckties so that they will do until Christmas. It is waiting for movies to reach the second-run houses. It is turning out all the electric lights except those that are being used. It is having one kind of soap for the family and another kind of soap for guests. It is buying tooth paste by the gross and making one tooth brush last a year. It is writing one letter to Aunt Susie and having the other members of the family add postscripts. It is skimming the cream for coffee and cereal off the top of the milk bottle. It is getting books from the public library and rushing them back before two weeks is up. It is waiting until you get into town from the suburbs and asking a friend if you can use her telephone for a few calls. Thrift is, in short, watching the pennies so care-fully that you are enabled to live within your income with a little to spare and thus can afford such luxuries as taxes, charities, miscellaneous contribu-tions and investments that do not turn out so well. —Baltimore Evening Sun.

There's Something Remarkable. There's something remarkable about the answers one gets to the question: "How is your grass this season?" The remarkable feature is that one gets almost the same answer: "It's just about as fine as any I've ever had." When so many cattlemen are agreed on such a vital question, surely it's safe to figure that the business of making a profit on cattle raising is in for a violent recovery. Let's Have a Motion. It's mighty embarrassing to make such a con-fession, but we must admit that living in a town the size of Snyder often means getting into a rut as far as civic pride is concerned. An excellent case in point: The small weed patch in front and back of the Times plant. But we'll pledge ourselves to have 'em out before you read this editorial! Texas Mammoth Takes a Bow. Texas Mammoth, the West Texas cotton seed that has been developed in Borden and Scurry Counties by West Texans, took another bow late last week when Clemens and Nolan von Roeder sold several bales for a hefty premium. Merrill Bishop in The Texas Outlook: "All languages have maintained a comparison. The English language had one some time ago, but America has made obsolete the use of comparison. No matter to what you listen over the radio, it is the best. No matter what advertisement you read, it is the best. No matter what luncheon club you belong, it is the best. No matter, if you live in a city that has a baseball team which brings up the rear, it is the best. The American people have been fooled by the best."

CURRENT COMMENT By Leon Gunn. From Mrs. Marie Machelet, president of the League of Northern Housewives' Organization, one can get graphic information about the housewife's organization of Norway, Sweden, Finland and Denmark. Modeled after home demonstration work in the United States, with headquarters at Oslo, the housewife's organization maintains a staff of experts constantly on tour, the marked difference between the Norwegian Husmorforbund and U. S. home demonstration work being that the wives of Norway, instead of the state, pay the cost of all work. Organized in 1916, the Husmorforbund has 400 as-sociations, with an average membership of 100 each. A charming work is this, continues Mrs. Mich-elet, showing the 450,000 "housemothers" of Norway the advantage of family budgets, balanced diets (few serve minus meals where fats are concerned), all based on the efficacy of American methods. The Scandinavian women attend meetings spruced up in beautiful hand-stitched national gowns, (bun-ader), decide upon local presidents and club leaders, from which is organized the province groups, called Fylkeskredse (and what words!). Mrs. Michelet is world famed for her work with country women, visited the U. S. in 1934 to obtain new ideas con-cerning home demonstration work, sees in American colleges and universities the key ideals by which the women of Norway, Sweden, Finland and Denmark may keep abreast with the world where the home is concerned. The housewife's organization is affiliated with the Associated Country Women of the World (A. C. W. W.), founded in Stockholm in 1933. With delegates from 32 countries, the A. C. W. W. is invited to the U. S. in 1936 for conference. And American women are proud the housewives of fjord jeweled Norway care to look here for leadership. A college boy recently established a record by eat-ing forty-eight eggs in forty-eight minutes. And yet some folks wonder if a college education is worth while.

The Times Creed: For the cause that needs assistance; For the wrongs that need resistance; For the future in the distance, And the good that we can do.

ACOLD caused this! "Colds" are dangerous! Leading doctors tell us that fifty per cent of all disabling diseases START with a "common cold." Thus the cold germ becomes America's Public Health Enemy Number One. Any sudden change in temperature as you go from a warm room into a cold one disturbs the heat-regulating apparatus of the body and makes it susceptible to cold germ attacks. Even the brief time that it takes to answer the telephone in an unheated hall is sufficient. Fight against "colds." They create a condition of depressed physical vitality which is favorable to infection and aid the progress of serious organic diseases that frequently result in death. If your home is inadequately heated... if you "huddle" in one room during winter, sudden temperature changes are unavoidable. Your family goes from an over-heated room where the temperature has climbed as much as ten degrees past the point necessary for comfort, into a cold hall or adjoining room; then shivering and chilled, they return to the heated room. This happens many times a day. Each time it happens they have made themselves susceptible to highly communicable winter diseases. Fight colds this winter with proper ventilation and adequate heat in every room in the home. Agent Gets Forms On Adjustment Plan For Cotton Buyers

"Forms for the cotton buyer to fill out in the cotton price adjustment program have been sent to the county agents, and application forms for cotton adjustment payments will be available immediately," according to F. E. Lichte, College Station, assistant chairman of the state allotment board. Applications will be filled out in the office of the county agent and will be forwarded to the office of the state allotment board, where they will be checked and audited.

On the 1935 crop of cotton, a maximum payment of two cents per pound will be made up to the amount of the Bankhead allotment, provided the producer has a record of sale dated prior to August 1, 1936, and makes his claim prior to August 15, 1936.

Application forms to permit ginning tax free up to 110 pounds of cotton for home use, in accordance with a recent amendment to the Bankhead Act, are also available from the office of the county agent, according to Lichte. Home grown cotton is being utilized at present on many farms in making mattresses at home.

BRUTON FIRES FIRST SHOT IN CITY ELECTION

Rumor Says Plenty of Snyder and County Politics in Store for Voters During 1936.

Sid Bruton, deputy sheriff, fired the first shot in the oncoming political campaign Monday, when he announced as a candidate for city marshal. His entrance into the Snyder race was the first definite move by a city, precinct, county or district office seeker.

Rumor has it, however, that many more candidates will throw their hats into the various races before the customary January announcement period has passed.

This will be the "on" year for city candidates. Advance indications point to interesting, well-populated races such as the town experienced in 1932, when more voters went to the city polls than at any other time in Snyder's history. The city election will be held Tuesday, April 7.

Although generally regarded as an "off" year in county politics, the fact that 1936 is a presidential election year, and thus decidedly a political year in the voter's eye, means that the ranks will probably be pretty full before announcement time is past.

The Times will maintain its usual close touch with the political situation, and will give its readers as

When Transfer Employees Picnicked

You may never see a picture like this again. It was taken a couple of weeks ago at Wolf Park, just after the Snyder Transfer Company had played host to almost 100 employees and friends. Mr. and Mrs. Pete Bridgeman, owners of the concern that now covers 400 miles of West Texas, are shown atop Pete's favorite riding pony. The trucks and the men in front of them are just a portion of the company's rolling stock and employees. Central offices for the company are here.

Duncan Pioneers In Making Direct Dealer Delivery

The Duncan Coffee Company of Houston is a pioneer. It is one of the first manufacturing concerns in the country to realize that merchandise can flow directly from the producer to the retailer and thence directly to the consumer, saving the consumer the profit that had long gone to the middleman or jobber.

This pioneering is of particular interest to Scurry County folks, for Duncan Coffee Company has delivered thousands of pounds of Admiration and Bright & Early coffee to their local grocersmen.

The Texas company began, a number of years ago, to distribute its first product, Admiration coffee, by its own trucks, direct from the roasting ovens to the retail grocers' shelves. This made it possible for the consumer to get "fresh roasted" coffee while it was actually fresh.

The company now operates truck routes out of 40 distributing centers in Texas. Coffee, both Admiration and its sister blend, Bright & Early, roasted at the main plant in Houston, today reaches all of these centers by fast trucks, over night, and

is distributed to grocers' shelves, tomorrow. That is as true of West Texas and the Panhandle as it is of East and South Texas.

The number of employees in the Duncan plant at Houston has increased steadily until now it has passed the 200 mark.

When the codes under NRA were scrapped by the decision of the Supreme Court, the Duncan Coffee Company decided to continue to observe the hours and pay the wage scale of the former code. That scale and those hours are still being adhered to.

NEWSPAPER MAN GIVES TIP-OFF ON '36 CAR STYLES

Betty Goodwin (National Broadcasting Company fashion reporter): "I suppose, Mr. Noé, you have all the advance news on the 1936 motor cars. What seems to be the new style trend? I've been hearing a lot of things about the new Dodge."

Floyd A. Noé (Automobile Manager, New York News): "There is no doubt in my mind that the 1936 Dodge is the finest looking and most stunningly styled car that Dodge has ever produced. I have been associated with the automobile business for ten years and have been intimately familiar during that time with each new Dodge. I suppose you realize yourself that to Dodge owners the very name of the car is synonymous with ruggedness and dependability, but I repeat that never have I seen such a beautiful Dodge as this new 1936 model." See the big, new, money-saving Dodge—"Beauty Winner" of 1936—now on display at your local dealer.

TURKEYS WANTED

The Turkey Market will open within the next 10 days, and we look for a good market.

Be Sure and Do Not Sell Your Turkeys or Promise Them to Anyone Until You See Us!

We will have a system of buying that we think will HELP YOU to get more out of your turkeys. We will not have any trucks picking up turkeys in the country. We will pay you top prices delivered to our houses, thereby giving you two cents per pound that the TRUCKER WOULD GET. Because, if we used truckers to pick up your turkeys, we would have to lower OUR PRICES two cents to take care of their expense, and we think you should get the top price, as you spend about nine months in the year raising the turkeys.

For your information, we saved the producers in Taylor County about \$40,000.00 the past three years by buying their turkeys on this plan—and we will save the producers of Scurry County several thousand dollars if they will cooperate with us by delivering their turkeys to us. You deliver your cotton and other farm products to town—why not deliver your turkeys and save the two cents that the trucker will receive for hauling them to town?

We Are Your Friends, and Want to Help You When We Can. We Guarantee You Honest Weight and Grades.

We welcome you to our places of business, and will treat you as best we know how. Make our houses your headquarters when in town.

Yours truly,

BOB TERRY Produce Co. **M. P. WHITE Produce Co.**
