

KILLING FROST IN COUNTY AT REGULAR TIME

Clear Weather Returns After Siege Of Wetness, Murky Skies and Low Temperatures.

The first killing frost of the year hit Scurry County Sunday, November 10. Although most folks are of the opinion that the average frost comes later in the year, recent records reveal November 10 to be about the average date.

Over a long period of years, November 8 is the date of the average killing frost. October 8 is the date of the earliest killing frost on record.

Clear weather late Tuesday took the place of wet, cold weather that had prevailed for several days. Gains started purring regularly again, after a week's irregular running due to bad weather.

Snyder gins had turned out 4,500 bales this morning, and the county total is estimated to be 8,200 bales. Sleet, drizzles, rain, heavy dew and frost have come at varying times during the past week. Monday night's frost, which painted the county almost white, was even harder than Sunday night's, and left practically all vegetation drooping.

Total precipitation during the past week has been about one inch. The temperature dropped Sunday night to 28 degrees, eight degrees lower than the bottom point previously this year. It went two degrees lower Monday night, and just about repeated the performance Tuesday night.

Farmers are generally agreed that the heavy frost and low temperatures cut down the prospective cotton crop, but there is a wide difference of opinion about extent of the setback. On an average, the guess seems to be that the county will gin 20,000 to 21,000 bales, which is about 2,000 bales lower than the average guess two weeks ago.

Green Jailed to Await Plea for Sentence Appeal

C. W. (Chicken) Green, local dance hall operator, was jailed in Snyder late last week after a Mitchell County jury convicted him of murder and assessed a three-year term in the state penitentiary.

Green is awaiting results of an appeal which was made by his attorneys to District Judge A. S. Maudsey as soon as the verdict was read Friday. The appeal is slated to be heard today (Thursday). If Green is denied a new trial in district court, he may be released on bond to await appeal to a higher court. The district judge said while here Tuesday that such an appeal would probably not be heard for several months.

The local man was convicted in connection with the fatal shooting of Erwin Woelbert at the dance hall in Southeast Snyder the night of last May 30.

Testimony in the case, started Tuesday of last week, was completed Thursday with the defendant taking the stand for three hours.

The jury received the case at 8:30 p. m. Thursday and returned the verdict at 11:30 a. m. Friday.

Pointing out that personal contact is the main thing in Roll Call solicitation, the chairman urges workers to make a house-to-house or store-to-store canvass in order that everyone may be given an opportunity to join.

County Teachers Make Plans for Abilene Meeting

A number of Scurry County teachers, headed by C. Wedgeworth, local superintendent, who is head of the curriculum revision mission in this county, will go to Abilene Saturday for an all-day conference on production in curriculum development, to be held at Abilene High School.

Most Snyder teachers are planning to go. County Superintendent Frank Farmer urges as many other county teachers as possible to make the trip, since it will be a gathering of vital interest to every school. Scurry County is in state district No. 8, along with Callahan, Fisher, Jones, Mitchell, Nolan, Taylor and Shackelford Counties. R. D. Green of Abilene is district chairman. An hour's opening program, beginning at 9:30 o'clock, will be followed at Abilene by a series of classroom demonstrations.

Tigers Hold Plowboys to 12 to 0 Count as They Play Year's Best Tilt

A band of Snyder Tigers that had been pretty well tossed about this season arose last Friday afternoon to hold a vaunted Roscoe Plowboy outfit to two touchdowns. The score was 12 to 0.

The Plowboys, by beating Snyder, extended an unmarred march toward the championship of the western half of District 6. This traditionally topped game for both teams was the first victory the Nolan County boys have scored over Snyder since 1929. In that year the farmers garnered a bi-district championship. Three times since then the locals have won similar honors.

The Roscoe field was fairly wet, but playing was not difficult because of the heavy turf. Several hundred folks watched the melee, many of them driving from Snyder. The band did not make the trip because of threatening weather.

COUNTY SEEKS IMPROVEMENT HIGHWAY 101

Division Engineer Says Plans for Work on Dunn Road Will Be Submitted Soon.

W. A. French, division engineer of the State Highway Department, assured the county Commissioners Court Wednesday that plans for improvement of Highway No. 101 from near Snyder to the Mitchell County line will be completed and submitted to the proper authorities for approval at a very early date.

The court was favorably impressed with prospect for early improvement of the road, after its Wednesday discussion with the Abilene engineer. The Times was told yesterday by County Judge H. J. Brice.

The improved road would directly south from Dunn instead of turning to the east a mile and then veering south. It would intersect Highway No. 7 about one mile southeast of Snyder.

Present indications, according to Mr. French, are that application will be made very soon for funds to improve the important road to connect with the strip in Mitchell County on which improvements were authorized last week.

The court has been working toward improvement of the segment on No. 101 for several months.

Ely and Shipp say they received a new insight into Boy Scout work. All parts on the program pointed to an enlarged boy training plan in this area year after year, they say.

Rural scouting plans are being expanded in every council, it was reported by attending delegates and leading parts on the two-day program were taken by Dr. George J. Fisher, deputy chief Boy Scout executive, and J. P. Fitch, regional executive.

Christmas Plans Made by Snyder

Tigers Ready for Game Here Friday

Despite the absence of Otha Lee Clark, captain, from the lineup, Coach Red Hill's Tigers are having snappy workouts in preparation for Lorraine's invasion Friday afternoon at 3:15 o'clock. Clark received a broken thumb bone in the Roscoe game last week. Pickas left will probably fill his shoes at left tackle.

This Tiger-Lorraine scrap will be the fourth conference affair for the locals, who have previously won from Roby, and lost to Rotan and Roscoe. Lorraine has tied Roby, and lost to Colorado and Roscoe.

Bands and pep squads from both towns will enliven the tilt. Gradually improving since the season opened, the Tigers are expected to take Lorraine to the mat by at least two or three touchdowns.

ROSCOE TAKES CLASS B TITLE

Roscoe Plowboys, pre-season favorites, clinched championship honors in the west half of District 6 Monday when Roby Lions won a surprise victory from Rotan Yellow Hammers. The score was 4 to 0, Roby scoring on two blocked punts.

Haskell evidently has a clear field to the east half title, advancing last week by way of a Hamlin forfeiture, to a five-win, no-loss record. Fans are predicting that the Roscoe-Haskell melee for district honors will be one of these affairs that one can write home about.

Here are standings of the eastern teams, as compiled by the Abilene Morning News: Roscoe 1000, Roby 500, Rotan 500, Snyder 333, Colorado 333, Lorraine 167.

This good news from the North Pole came to the Chamber of Commerce Tuesday, much to the delight of hundreds of kiddies in all parts of this trade territory.

When the jolly old fellow gets to town, he will be greeted by the most dazzling array of Christmas lights ever seen in Snyder.

In addition to dozens and dozens of brilliant colored lights that descended from the four corners of the courthouse and encircled the dome last year, representing an expenditure of almost \$400 on the part of local business men, there will be many more lights to kindle the Yuletide spirit.

The lights will be turned on during the first week in December, and merchants will unveil their Christmas window displays at the same time.

Old Santa will come in a manner yet to be determined, but it is certain that he will be greeted by hundreds of youngsters, as in the past. He will distribute hundreds of pounds of candy, it was indicated to Chamber of Commerce officials.

All schools of the county will be requested to dismiss the afternoon of December 18, in order that all kiddies may get a good peek at Santa.

E2M Sisterhood Has Education Program

Members of the E2M Sisterhood, girls' club of the local high school, heard an interesting program on education Wednesday morning, November 13. Each member answered roll call with the name of a college in the United States.

The influence of education on the nation, the citizen and the state was explained by Mildred Norred, Paye Best and Frances Head, respectively. Ruth Letcher gave the history of education. A novel, "The Singing Woman," was told by Katie Marie Louder. After a song by Jolietta Beauchamp, Thaba Benberck and Florentz Winston, a few pointers on everyday English were given by Geneva Allen.

Miss Effie McLeod, high school English teacher, is sponsor of the girls' organization.

Three Hostesses Entertain Class

Mmes. Willard Jones, E. E. Spears and Lyman Wade were hostesses to the Esperanza Class of the First Baptist Church at the home of Mrs. Jones last Thursday afternoon.

A delightful Thanksgiving program was heard, and refreshments consisted of pumpkin pie topped with whipped cream and coffee. Mrs. Jesse V. Jones gave the Thanksgiving devotional, and Mrs. John E. Sentell gave a group of Thanksgiving poems. During the social hour, class members worked on their quilt.

The following were present at the enjoyable meeting: Mmes. John E. Sentell, Wraymond Sims, H. J. Agee, J. C. Smyth, A. A. Bailey, Noa B. Sisk, Leonard Daugherty, W. W. Hill, Waters, Joe Graham, Gaither Bell, Fred P. Rattan, Wayne Williams, Jesse V. Jones and Amos Joyce, and the hostesses.

Lady Took Carouai When Weak, Nervous

"I can't say enough for Cardui if I talked all day," enthusiastically writes Mrs. L. H. Caldwell, of Statesville, N. C. "I have used Cardui at intervals for twenty-five years," she adds. "My trouble in the beginning was weakness and nervousness. I read of Cardui in a newspaper and decided right then to try it. It seemed before I had taken half a bottle of Cardui I was stronger and was soon up and around."

Thousands of women testify Cardui benefits them. If it does not benefit YOU, consult a physician.

Christian Endeavor Is Staging Contest

The young people's Christian Endeavor Society of the First Presbyterian Church is in the midst of a contest to increase attendance and membership. The contest is in the nature of a football contest with the "Owl" team competing against the "Pigs." In the accounting last Sunday evening the "Owl" team had a slight edge.

Many activities are being planned by the young people's group. Programs are under supervision of Miss Irene Wolcott, program committee chairman. Social activities of a varied nature are being planned for the approaching Thanksgiving and Christmas seasons. Miss Frances Chenaunt is president of the society.

Harley Sadler's Company Will Be Here Next Week

Harley Sadler and his company of entertainers will open a week's engagement here Monday night, November 18. The West Texas showman will pitch his big tent on the city lot, just northwest of the Snyder business section.

The Jeffries Sisters, juvenile artists, are headlining this season's show. Music by Duke Arthur and his 12-piece band, plus an entirely new set of shows, are other features.

Among improvements made by Harley this year is a new modern sound system. The showman announces that he is with the show for the seventeenth year, and that he is not traveling with his circus, which appeared here last month.

The opening play will be "The Auction Block," a "Toby" comedy. Special reserved seat tickets will be sold every day at the Stinson drug store No. 1. The show appears this year under auspices of the American Legion.

Contest at Stinson's. Both Stinson drug stores are beginning a contest next Tuesday that will be open to any boy or girl. Eight prizes will be awarded to boys and eight to girls. Awarding will be on the basis of children who receive the most votes. Each penny's purchase permits any purchaser to vote for the boy or girl of his choice.

MAHON'S TRIP HELPS HIM TO STUDY ORIENT

Congressman Particularly Interested in Cotton Industries of Far Eastern Countries.

According to word received in his Washington office, Congressman George Mahon feels that he is having an unusually profitable trip to the Far East. He arrived in Manila on November 8, with the official United States delegation attending the celebration of the opening of independence for the Philippine Islands. Mr. Mahon is making the trip at the request of President Roosevelt because of his membership on the Insular Affairs Committee of the House.

The trip is giving him a first-hand picture of industrial conditions in the Orient. He is particularly interested in studying and observing conditions in the cotton and textile industries and the relationship of these industries to trade between the United States and the countries of the Far East. He feels that the future of the cotton industry, and correspondingly the economic welfare of West Texas and the entire South, depends to a large extent upon world trade and foreign markets.

Developments in the Far East will be focal points of interest in this problem in the next decade. The trade relations and tariff agreements between the United States and the Philippine Islands will have a different aspect after their independence actually begins and this alone constitutes an important problem that must be worked out by Congress.

The trip has afforded Mr. Mahon an opportunity to become more intimately acquainted with such outstanding leaders of Congress as Vice President Garner and Senator Connally of Texas, and Representative Joseph R. Byrnes of Tennessee, who is speaker of the House.

The congressman will return to his home in Colorado on December 20. He will spend the time before Congress convenes again on January 3 making contacts throughout the district. His office in Washington is being kept open by Lloyd Croplin, his secretary, who invites the people of the district to contact him when they feel there is any opportunity for the office to cooperate with them.

M. E. Gathering At Plainview Is Attracting Locals

Several Scurry County representatives are in Plainview today for opening sessions of the Northwest Texas Methodist Conference, which continues through Sunday. Other Scurryites will be in attendance during part of the 26th annual gathering.

The county delegation is headed by these pastors: Rev. H. C. Gordon, Snyder; Rev. Frank Story, Hemphill and Camp Springs; Rev. Grady Anderson, Dunn and Ira; Rev. O. D. McDonald, Fluvanna, Dermott, Gail and Polar. Pastoral appointments will be announced Sunday night.

"Full reports reflecting a highly satisfactory year will be made at conference for all our activities," Rev. Gordon said before he left Snyder Wednesday. "I am grateful for the fine spirit of cooperation I have found during my year in Snyder, not only from my own people but from all other churches. About 100 members have been added during the year."

The conference proper will be presided over by Bishop Hiram A. Boaz of Fort Worth. Dr. G. L. Morelock of Nashville, Tennessee, president of the board of lay activities of the church, is a featured speaker during the conference.

THE IMPORTANCE OF . . . VENTILATION

The warm air throughout the home during winter should be just as pure and contain just as much oxygen as the fresh, pure air of summer. Rooms that are poorly ventilated, even though sufficiently warm for comfort, can be injurious to health. Stale or stagnant air is depressing, and fails to produce the pleasant and stimulating effect of pure air in motion. . . . No matter what kind of fuel you use to heat your home during winter, it is important to have proper ventilation and circulation of pure air. This is especially important if the flame from the fuel comes in contact with the air you breathe. The reason is simple.

Fuel does not burn unless mixed with oxygen. Prove this to yourself by the simple test of dropping a lighted

match into a bottle. Place your hand on top of the bottle and you will note that the match stick will NOT continue to burn after the oxygen inside the bottle has been used up by the burning fuel. Likewise, the oxygen content of the air inside your home is gradually reduced by the occupants of the household through the processes of breathing and by the fuel burning in your heating equipment.

Without proper ventilation the air becomes stale. Sooner or later the tender air passages of the body become inflamed, leaving them an easy prey to vicious attacks of "colds" and serious respiratory diseases. Guard your health this winter with proper ventilation as well as adequate heat in every room in your home.

Tune in each Thursday night at 6:30, WFAA-WBAP, for vital facts to help you guard your family against the Common Cold Germ.

PYRON SCHOOL IS AFFILIATED

The following units of affiliation were affiliated in the Pyron school last year: English 2, algebra 2, geometry 1, history 2, civics 1/2, Spanish 2, economics 1/2, shop 1, home economics 2.

This is a total of 13 units. Sixteen units, or completion of 16 subjects studied one year, makes a fully accredited school. We teach 18 units, and so need to finally secure five additional subjects accredited.

This is a fine start. It means that by the end of next year a graduate of our school may enter any standard college without taking any entrance examinations. Fifteen units only are required for college entrance.

Can we lose our affiliation? In a good many ways. If school does not run nine months, if salaries are not standard, if equipment is not adequate, if teachers are not qualified, if work is not properly done, then the state department may cancel our classification, which automatically cancels our affiliation.

Our school is now a first class, standard, affiliated school.

My Baby Needs Shoes.
"We've wondered what baby needs when those barefooted Ethiopians reach for the bones."—Vernon Record.

Forty Days Until Christmas.
Would you believe it? The calendar reveals that only 40 days remain until Christmas. The H. G. Towle Jewelry Company has set the pace for Snyder stores that realize what early shopping means. If you are a wise shopper, you will follow that age-old slogan—"Do Your Christmas Shopping Early."

↑ ↑ ↑
Will Rogers, His Memorial.
In an adjoining column will be found a tribute to Will Rogers by Walter Trumbull. You will read it with profit. Scurry County is joining the nation in helping provide a living memorial to this lovable American among Americans. Remember that your contribution, small or large, can be made at the Times office.

Protection for Merchants.
The City Council took a wise step last month when it assessed a heavy occupation tax against itinerant second-hand automobile dealers. It has become an annual custom for traveling merchants of all kinds to set up for business in prosperous towns, take out many a dollar, and then fold up before a penny of taxes is paid.

Pyron's Fair and Carnival.
Pyron community staged one of the biggest rural fairs and carnivals last year that has ever been seen in this part of the world. Plans are being worked out for a similar affair this year, with every feature imaginable to give visitors a good time. Merchants and others will do well to make plans right now to spend some time and a few dimes at the unique show and exhibit.

"Sky High" Is Sky High.
Talkative Tillie says "Sky High," which will be presented by the Business Women's Club Thursday and Friday nights at the school auditorium, is an honest-to-gosh feast of entertainment. Besides, Tillie reminds the male of the species, the business women have put much more into the business life of the town than they have taken out. A ticket to "Sky High" will be a ticket to a sky-high organization's sky-high show.

Snyder's Dressing Plant.
Snyder seldom stops to consider how much her turkey dressing plant means in actual dollars and cents every season. If you want to get an inkling of what the plant means to the town, step down to the rear of Snyder Produce Company while picking in its full swing . . . do some quick figuring . . . remember that the turkey price is about two cents a pound better here than at points where there are no dressing plants.

Guy Stark Jr., Gentleman.
The Times has been deeply touched by the passing of Guy Stark Jr., superintendent of Dunn schools. Guy was unassuming yet forceful in his work. He was painstaking yet he lost no time. He was a friend yet he did not speak of friendship. In short, Guy Stark Jr. was a gentleman—a real school man and citizen, a man whose unpretentious life spoke more elegantly than any editorial could possibly muster. Scurry County is missing Guy Stark Jr., gentleman.

It Doesn't Make Sense.
Football scores never did make sense, anyway. A much beaten Snyder team arose from somewhere last Friday to lose to Rosecoe's high-stepping Plovoys by a count of only 12-0. Colorado and Rotan have beaten Snyder, 6-0, and those two teams lost to Rosecoe, 40 and 42 points, respectively. Again, Slaton whipped Snyder 8-0; Lamesa, 40-0; and Snyder 40-0. It doesn't make sense, but it proves that Snyder has a hard-fighting bunch of football players. And they deserve plenty of support from fans who are real fans.

↑ ↑ ↑
"Political Sagacity."
Says The Brady Standard: "For political sagacity and fore-sightedness we commend the publishers of The Scurry County Times, published at Snyder, who last week dusted off and trotted forth their political announcement column head—that is, if the heading had been allowed to accumulate dust since the last political fracas. And candidate No. 1 offers his ability, services and zeal in behalf of the dear public, for the office of city marshal, subject to the election to be held Tuesday, April 7, 1936—just five months hence. Even a politician ought to be able to run a 'war place' in that length of time."

Because— He was known by thousands and mourned by millions; the cherished neighbor of the people of a nation;

Because he was a friend to the mighty and the weak; a friend of friends for friendship's sake;

Because he could stand success; the hardest thing for anyone to bear;

Because no soiled word crossed his lips or mind; his page of life was clean for all to read;

Because to sympathy he added aid; his charity was large, but never loud;

Because he brought the precious gift of laughter to a somewhat somber world; his wit was keen and pointed, but not barbed;

Because he was faithful and loyal to his friends, his family and his country; he lived his patriotism and lived up to his ideals;

Because his philosophy was based on truth and common sense; within the shell of humor was the kernel of wisdom;

Because his generosity and capacity for understanding helped many a weary and discouraged traveler over a rough spot in the road, some whose names he never knew owe him debts of gratitude;

Because he never wished to hurt or kill any living thing; because he had the highest type of physical, mental and moral courage; because he lived and died with his faith unbroken and his honor unstained;

Because his faith in man was but an echo of his faith in God;

Because his character and personality were such that he gained the affection and admiration not alone of those who knew him well, but also of those who knew him slightly, or not at all;

Because he ever was gentle with the weak and bold with the strong; fair and brave and fine;

Because he rode straight and hard; playing the game like a sportsman and a gentleman;

Because, when he left us for a far country, a man went West.

It, therefore, seems fitting that a memorial should be dedicated to Will Rogers; a memorial dedicated in his name to some service of which he would approve; a memorial offered by this whole nation of his neighbors and friends; a memorial by which his name shall live and help others live through countless years to come.

All who have known or seen or heard or read him, all who wish that he had spoken or written to him, all who have laughed with him or gained a bit of wisdom from his homespun philosophy can pay their tribute to him now.—Walter Trumbull in Fort Worth Star-Telegram.

200 STUDENTS RIDING BUSESSES

Approximately 200 students ride the four buses into Pyron school. Mr. Blackwell drives bus No. 1 from the Lone Wolf section of the district. Mr. Taylor drives bus No. 2 from Lone Star and Claytonville. Mr. Clark drives bus No. 3 from the southeast section and through Inadale. Mr. Whisenant will drive the new bus, serving the west section of the district.

When the service is not good or complaints need to be made, do not hesitate to see and talk to these drivers. They will appreciate it and make any correction possible. I do not think we could find four better drivers, or better men for the job.

Get Rid of Poisons Produced by Constipation

A cleansing laxative—purely vegetable Black-Draught—is the first thought of thousands of men and women who have found that by restoring the downward movement of the bowels many disagreeable symptoms of constipation promptly can be relieved.

Mr. J. P. Mahaffey, of Clinton, S. C. writes: "I have found that Black-Draught is very effective in the cleansing of the system. When affected by the dull headache, the drowsiness and lassitude caused by constipation, I take Black-Draught." A natural, purely vegetable laxative.

War Takes No Holiday.

Scurry County accepted and lived through Armistice Day with hardly a tremor, except in hearts where World War anguish yet resides.

But the battle front of Ethiopia, clanking with the sound of many instruments of war, lined with hundreds of sons whose fathers helped repulse the Hun more than 17 years ago, had many a tremor.

War takes no holiday. So it is that Rev. H. C. Gordon, pastor of the Snyder Methodist Church, preached a sermon Sunday morning that was food and drink for thought.

We can honor best the men who did not return from European war zones, he said, by living in upright, peaceful manner—by worshipping at the shrine of the holy Nazarene—by joining hands in an effort to ward off the dogs of war.

But, said the preacher, it is neither American nor patriotic to declare, as some are declaring, that one will not fight physically for one's country if circumstances demand fighting.

Admitting that wars are usually maliciously aggravated by munition makers and fame-seeking politicians, Rev. Gordon declared this fact is not sufficient reason for us to refuse to serve our country.

"The propaganda of war," he declared, "will not bear fruit unless the mass of the people is receptive. If war comes, it will be as much on our shoulders as on the shoulders of the professional war makers."

As we pay tribute this Armistice Week to those who died on Flanders Field, let us be peace-seeking yet patriotic, whether there be peace, wars or rumors of wars.

SHE'S THE GIRL WHO HANDLES YOUR TELEPHONE CALLS

This is the girl who handles your telephone calls. Every part of the far-flung Bell System organization exists largely to help her do the best possible job of connecting you with the people to whom you want to talk. Linemen cling to icy poles to keep the voice-paths open to her touch. Staff experts of American Telephone & Telegraph Company, parent company of the System, hunt better methods for her to use. Scientists of Bell Telephone Laboratories seek new inventions to place at her finger-tips. And the factories and shops of Western Electric, supply unit of the Bell System, are busy making the insulators, the wires and the equipment she needs to flash your voice around the block, across the state, or across the nation. It is largely because this group of specialized organizations stands behind her...and has done its job so well for her...that she is able to give you the good, economical telephone service you receive today.

Several Schools of County Still Leave Students in Fields

Slow movement of cotton has caused most schools of the county to keep their doors closed, leaving students in the fields.

Dunn started back to work Monday morning of this week, after a closedown since mid-October. Only three or four other schools of the county, outside of Snyder, are in session.

Hermleigh plans to go back to work Monday, November 25. Ira has postponed her opening until later in the month, possibly early in December. The other major schools, Fluvanna and Pyron, plan to be back on the job in a week or two.

None of the schools plan to be dismissed long enough to endanger their state grants for full-term work.

County Superintendent Frank Farmer said early this week that county schools as a whole are in the best shape, financially and from a standpoint of accomplishment, that they have been in several years.

Attention to Times Community Writers

You correspondents have given a wonderful response to our contest announcement in last week's paper. The publishers are ready and anxious to help you in any way possible. Here are two or three more suggestions for the benefit of all:

Send in your subscriptions the day you get them if the subscriber is in a hurry. This applies especially to daily and Semi-Weekly subscriptions.

The publishers request that correspondents make no regular solicitation of subscriptions in Snyder. While we are glad for you to get subscriptions from three or four of your friends or relatives in Snyder, it is a bit unfair to writers who cannot work in town for you to get a number of subscriptions here.

Most of the writers have been mighty faithful with their news letters during the summer and fall. Thank you again!

Farming Is Much Easier and Cheaper When a Farmall Does the Work

McCormick-Deering

SPEED and flexibility are brought to the row-crop farm by the Farmall Tractor. It is so far ahead of horses when it comes to planting, cultivating, and doing other row-crop and general farming work that there is no comparison. And most important of all, Farmall farming means lower-cost farming.

Until you own and operate a Farmall you cannot appreciate the benefits and advantages of it. But just ask any Farmall owner about it. He is the man who is enthusiastic about the Farmall. He knows. He has farmed with horses and with the Farmall and you can bet that he isn't going back to horses.

If you want a real demonstration of the Farmall, call us up and we will arrange one for you. We'll show you how much easier it is to farm with a Farmall and why you cannot afford to be without one. There are three sizes—to fit the needs of any farm.

Health News

From Dr. John W. Brown, State Health Officer

Beware of patent medicines that make too extravagant claims as to their ability to cure diseases, as the warning issued by the bureau of food and drugs of the State Department of Health. When purchasing such remedies be sure and read the label in order that you may know what you are getting.
During the past year the inspectors of the department have condemned and destroyed many thousands of packages of patent medicines, totaling more than 30,000 pounds in weight. These drugs were condemned for a variety of reasons; chiefly due to untrue claims as to their value, old, worthless, and in some cases dangerous ingredients.
Some of the claims for remedies destroyed were so impossible that it is wondered that anyone would believe them. One medicine claimed that it would positively cure 37 different diseases, including beriberi, worms in humans and screw worms in stock. Many people do believe these claims as it is estimated that many millions of dollars are spent each year in Texas for drugs that cannot do all that is claimed for them.
One dangerous drug that is being sold for reducing weight is dinitrophenol. The fact is that many who are using this drug may be endangering their health and even their lives. The human machine is too complex to risk self medication. When something goes wrong with the human body and one does not feel well, he should see his family physician and then follow the advice he gives.

School-Community News Published by Teachers at Pyron

Members of the Pyron consolidated school faculty, headed by Superintendent T. B. Bownds, Tuesday issued an eight-page paper from the Times plant. It was called the Pyron School-Community News. The superintendent was largely assisted by Robert Taylor and Mrs. Hazel Hanback.
The paper includes an architect's drawing of the proposed school building for the district that will be erected if voters say "yes" at an election called for today (Thursday).
Initial issue of the paper is largely supported by merchants of Snyder, Roscoe, Hermleigh, Wastella, Inadale, Pyron and Claytonville.
The superintendent is planning to publish, with student assistance, several other issues during the school year.
Headlining the news matter is interesting material concerning the Pyron fair and carnival that is to be held morning until midnight, Tuesday, November 26.
