SCHOOL WORK BEGUN MONDAY WITH PROGRAM

Formal Beginning of Demolishing
Job Marked by Talks on
Progress of School

Formal opening of Snyder's new school building program was highlighted Tuesday afternoon at 1:30 o'clock with talks depicting progress of local schools through the years. Actual demolishing of the fire-razed structure was begun several days earlier, but the crew of more than 20 men was just getting underway when the ceremony was held. Tiger Band gave an opening musical number, and Superintendent C. Wedgeworth gave introductory remarks.

Several Local Talkers.
Rev. James E. Spivey gave the invocation. County Judge H. J. Brice used the theme of progress, adopted by Snyder Schools as a motto this year, as his subject.

N. M. Harpole gave a review of school conditions 30 years ago, with D. P. Yoder, who was on the school board more than a decade ago, giving a summary of schools as they were 15 years ago.

J. E. Sentell, member of the school board, spoke on today's school conditions. He gave facts to show that Snyder's new building program will be a foundation for the future.

Symbol of Building.
As Sentell spoke, Board Member Clyde Boren knocked some bricks from the old building, symbolizing demolition of the old structure. Dr. J. G. Hicks, president of the board, moved the first spadeful of dirt to symbolize the new construction program.

John MacAlexander, district PWA representative, attended the formal ceremony which initiated Snyder's new school building program. PWA assistance made it possible for the project to be carried forward without resorting to extraordinary local financial plans.

Open House Set Sunday for First FHA Home Here

Rittenhouse Chimes will greet visitors when open house on Snyder's first completed FHA project is held Sunday afternoon at the Willard Jones home, 2808 Avenue T, from 2:00 until 5:00 o'clock.

Burton-Lingo Lumber Company held the general contract on Snyder's first FHA home, which is of modernistic brick veneer construction throughout.

An interesting feature of the new home, which has five rooms, and a bathroom in orchid fittings, is the indirect lighting system employed. The basement is 30 by 40 feet. A double door garage offers the advantage of stepping directly from a car into the house.

Constructed of plaster walls and ceiling over lathing, the plastering runs to steel window frames. No door and window casing are found, with no wood sills used at all.

Copper screens are used in connection with steel windows. Corner windows in the two bedrooms, with Venetian blinds, is still another feature.

Pennies and Nickels Aid Auxiliary Fund

Those pennies and nickels that are being put in the milk fund jars, which have been placed in stores and cafes around the square, will go a long way this winter toward providing milk for this city's undernourished children.

Mrs. J. E. Shipp is chairman of the milk fund this year, which is being sponsored by the American Legion Auxiliary. Since no overhead charges are made, every nickel collected will go toward helping undernourished school children.

"Dear Santa:"

Dear Santa Claus:
We know you will be glad to hear that The Scurry County Times will print all letters that are written to you by boys and girls whose mothers and dads read The Times.
After we print the letters, we shall send them to you by air mail, for we know you will want to pack your bag of toys and things just as early as possible.
All these letters to Santa Claus will be printed December 8 and December 15, so of course all the boys and girls will be in a hurry to write their letters. We are inviting all the youngsters to mail their letters or bring them to The Times office.
Your friends,
The Times Publishers.

Jim's the Name

In the ramrod's seat when the 19th District American Legion convention opens here Saturday afternoon will be J. M. (Jim) Wilson of Floydada, district commander. Wilson, a frequent Snyder visitor, has so many leadership jobs in a variety of organizations that he hardly has time to manage his chain of West Texas lumber yards.

WILDLIFE MAN TELLS OF PLAN TO SAVE GAME

Regional Game Manager Discusses
Demonstration Practices at
Tuesday's Meeting

A game conservation minded group of farmers and ranchers met with Charles E. Friley Jr. of Abilene, regional game manager for the Texas Game, Fish and Oyster Commission, in the district court room Tuesday afternoon at 2:30 o'clock, when the Scurry County Wildlife Planning Board met in regular session.

A county cooperating board composed of Hugh Taylor, chairman; Emmett Trevey, vice chairman; and Elmer Taylor, secretary, was organized to act as a contact group to make and receive suggestions for wildlife conservation.

Not only were game demonstration practices discussed by Friley, Luke Ballard, and members of the county planning board, but plans were adopted that will lead to better game laws for this section of Texas. Friley, who spent Wednesday at Gail, has a total of 38 counties, with an area of 35,000 square miles, to cover in this section of Texas.

One main objective of the Scurry County Wildlife Planning Board will be to cooperate with sportsmen and landowners in such a way that eventual inclusion of this area in the Federal Wildlife Restoration area may be possible.

Dan Gibson, who lives north of Snyder, signed up approximately 20,000 acres Tuesday in the wildlife game demonstration program, which brings total acreage in Scurry County signed up to almost 130,000 acres.

Subscribe Through Correspondents to Give Yuletide Fund

Times readers are urged by the publishers to subscribe for this newspaper, their favorite dailies, the Semi-Weekly Farm News and the Pathfinder Magazine through the community correspondents.

By giving subscriptions to Times writers, readers not only save money for themselves, but they also give the writers a chance to earn some extra money for Christmas. The Times offers extra commissions, until a few days before Christmas, to writers who get new subscribers and those who get as many as 10 subscribers.

Many readers do not seem to understand, although the Times has offered similar rates for years, that they can save money by taking all papers through a Times representative.

Another FHA Home Started in Snyder

Snyder's second FHA home was begun Monday morning in the 3000 block on Avenue T, South Snyder, by Mrs. Maude DeBold, local agent for Southwestern Life Insurance Company. Farmer & Farmer are the contractors.
The new home will be a five-room frame structure, and will be built along modern lines.
FHA officials at Lubbock, district headquarters, declare that Snyder, because of its good financial condition, and steady building program, is eligible for additional FHA homes. Repayment of FHA loans is on the basis of \$8.50 per \$1,000 per month, this payment to include principal, interest, taxes and insurance.

Hermleigh Plans Giant Jamboree; Babies Featured

A giant "jamboree," with plenty of trimmings, will be offered Wednesday evening and night, December 7, at the Hermleigh School. Announcement of the event was made early this week by Hermleigh school leaders, who give this blanket invitation to folks of Scurry and adjoining counties:

"Come prepared for a full night of fun and frolic. You'll have the time of your life."
Featuring the jamboree will be a baby show, an old fiddler's contest, acrobatics, box and pie supper, and a music hour that will headline violin selections by Professor Hrdlicka of the National Institute of Music.

Probably the feature attraction will be the baby show. This, like the fiddler's contest, will offer special prizes. The prettiest and the cutest baby will be selected in each of these three divisions: Babies under one year; babies one to two; babies two to four.

Basketball equipment for girls' and boys' teams will be purchased with proceeds from the jamboree next Wednesday.

BUSINESS LOW IN AREA COURT

District court convened Monday morning, with Rev. James E. Spivey pinch hitting as district clerk for Jimmie Billingsley, who underwent an appendicitis operation in a local hospital recently.

The grand jury, which has been in session this week, was expected to turn in a report this morning (Thursday).
More business is slated on docket next week, when the fall term of district court is started with trial week. District Judge A. S. Mauzey expects an unusually light session.

Show Officials See Times Free School

Jim Reynolds of Dallas, Honer Mulkey of Clarendon, and "Red" Bowlin of Lubbock composed a trio of out-of-county theatre men who attended the final showing of "Star in My Kitchen," last Wednesday afternoon, at the Palace Theatre.
The trio, who wanted to "get a look into the free motion picture cooking school sponsored by The Times," were well pleased with their trip.

Homer Mulkey owns the Cozy and Pastime Theatres at Clarendon. "Red" Bowlin the Broadway and Lyric at Lubbock, while Jim Reynolds is an official of the Allied Theatre Owners Association of Dallas.

Pre-Convention Vet Meeting Set Tonight

A meeting will be held tonight (Thursday), at the Legion Hut, when members of the Will Layne Post will make final plans for entertaining the 19th Congressional District convention here Saturday and Sunday.
All buddies and Auxiliary members are requested by post officials to attend tonight's meeting, which will be pointing forward success of the convention.

Snyder Ready To Entertain Hundreds Of Legion Visitors

Bill McCraw

When Bill McCraw, attorney general, was defeated for the governor's job in July, he humorously declared that the people of Texas evidently think he should retire to the private practice of law. This and other typical McCrawisms has made him a popular speaker in Texas. He is especially popular among Legionnaires. Thus, he was invited to be principal speaker during the 19th District convention here this week-end. He will speak at a joint convention-community service at the First Methodist Church Sunday morning at 11:00 o'clock.

CEMENT SET IN CALLAHAN TEST

Cement was set Tuesday night on the W. L. Callahan No. 1 First National Bank, at 2150 feet, with plug drilling slated for the last of this week.

Local operators said Wednesday that the pocket of "free air" struck around 1,200 feet will be used for finishing the Callahan well at the cement plug is drilled.

Interest is increasing in the Callahan test, since the pay sand found in Coffield & Guthrie No. 1 Spears & Brownfield is expected to be reached in the Callahan well at around 2,200 feet Wednesday or Thursday of next week.

Plainview to Stage Benefit Box Supper

Plainview will be host Friday night, when a box supper will be staged for the benefit of the Plainview School athletic fund. W. F. Cox, superintendent, states everyone will be made welcome at the supper festival.

The school lighting system will also be improved, and Plainview's semi-monthly singings will be "pepped up," Cox reports. Everyone is invited to bring not only their best boxes, girls, and supper appetites, but a few nickels as well.

BTU ZONE MEET.

Miss Effie McLeod of Snyder chairman, announced that Hermleigh will be host Sunday afternoon, 2:30 o'clock, to a zone meeting of the Mitchell-Scurry Baptist Training Union. A number of attendants from Snyder and other county churches are expected to be on hand to hear reports of the state convention at Wichita Falls during the Thanksgiving holidays.

SAMARITAN BECOMES VICTIM

Fluvanna's Home Burned As He Aids Burned-Out Neighbor

Will Johnson, who farms five miles southwest of Fluvanna, is a good neighbor.
He went to town Monday afternoon to sell a heifer, and he planned to use part of the proceeds to help H. D. Sneed, who lives just a half a mile away.
The Sneed's four-room home burned to the ground Thursday night from fire of undetermined origin, and practically none of the contents were saved. Johnson was one of a number of neighbors who were helping the Sneed out of a disastrous spot.
But the money brought by the

PUBLIC URGED TO HEAR CHILD WELFARE IDEA

State Worker, Invited by Local Unit,
To Speak at Presbyterian
Church Friday, 7:30

Suggestions for a permanent organization to help the county's unfortunate children will be made Friday night, 7:30 o'clock, by Miss Lydia Cagle, trained worker, at a public meeting in the First Presbyterian Church.

Everyone interested in giving unfortunates children a chance in life is urged to attend the meeting, according to Mrs. Wraymond Sims, 1938 president of the local Child Welfare Association.

Mrs. Sims points out that Miss Cagle came to Snyder at the invitation of the local unit, and that her suggestions will be entirely up to the local unit.

Many Child Needs.

Mrs. King Sides, who will become president of the local unit after this month, joins the visiting president in urging full public attention. "We are especially anxious that each civic, service and study organization be represented at the meeting," she said.
"The needs of the children of our community are so many and our efforts to help them are so small that we certainly need the assistance of a trained worker to help us carry on," Mrs. Sides continued.

Miss Cagle is state consultant for the Division of Child Welfare of the State Board of Control. Also at the meeting will be Miss Mildred Hoskins of Lubbock, regional supervisor of case work, who makes frequent calls here.

Christmas Cheer Will Be Provided For Needy Kids

"We will, as in the past, distribute again this year Christmas cheer packages to Snyder's needy families," N. W. Autry, fire chief, stated Monday morning, as plans were being perfected this week to raise money for the firemen's Christmas Cheer Fund.

The Lions Club, together with other organizations, will cooperate with members of the Volunteer Fire Department in seeing that Santa Claus visits homes that otherwise would face a barren Yuletide.

Although the Christmas Cheer drive is just now getting underway, the donation of old toys and gifts for remodeling or contributions of any nature will be gladly received at the fire station.

Snyder's Chief Autry is given honorable mention in the December issue of the Volunteer Fireman, just released, for the letter he submitted in the Pyrene prize letter contest, which was conducted by the firemen's official house organ.

Warren Y. Kimball, who is associate editor of the Boston magazine, compliments Autry highly on getting this honorable mention, whereas many fire chiefs in larger cities did not "get to second base in the contest."

Among other things, Autry mentioned in his contest letter accepted fire practices and safety measures that are a part and parcel of Snyder volunteer fire department practice sessions each week.

STOKES INJURED.

Sam Stokes, who is employed on the Snyder School project, was injured about 2:00 o'clock Wednesday afternoon, when a falling brick badly skinned one side of his face. Although Stokes was not "knocked out," he is well bandaged up.

Among Those to Be Present...

Two top American Legionnaires will be among those present for the 19th District convention here Saturday and Sunday. In the above picture, at Governor Allred's side, is Fred E. Young, state adjutant. Inset,

above the governor, is a picture of Vincent Chiodo of Houston, state commander. Governor Allred is shown signing a proclamation that officially designated "American Legion Week" in Texas.

SILO CONTEST AWARD OF \$25 GOES TOWARD

Increasing Interest Final Week Gives
Most Tonnage to Precinct 1
In Save-Feed Event

Dr. W. H. Ward of Hermleigh was awarded the \$25 grand prize Saturday afternoon at 3:00 o'clock in front of The Times Building, as Scurry County's 10-week trench silo contest came to a close. Dr. Ward's farm is in Precinct 1.

Precinct 1 and Precinct 4 were running neck and neck, until Saturday morning registrations gave the highest tonnage to Precinct 1. The fifth name called, Dr. Ward's was called after the names of O. O. Faulkenberry, M. W. Bavouset, Roy Stewart and Edgar Shuler were called, none of whom were present.

Winner Was Present.
The winner, as E. H. Lilly secretary of the Chamber of Commerce, reminded last week, had to be present to receive the award when his name was called.

During the contest 75 silos, with a tonnage of 22,000, were reported. At a conservative estimate of \$10 a ton, this means \$220,000 worth of feed stored in the "earth's safest barns."
Tonnage was indicated week by week on a huge theonometer, size four by 20 feet, which was mounted in front of The Times Building.

The trench silo contest began on Saturday, September 10, with a merchandise order for \$5 having been given away each Saturday since by the Scurry County Chamber of Commerce. The county agent's office has cooperated 100 per cent in pushing the trench silo contest together with the sponsoring Chamber of Commerce.

Many Registered.
The names of those who have registered in the four precincts since the trench silo contest started are:

Dr. W. H. Ward, Edgar Shuler, Ben Brooks, Forest Sears, W. V. Jones, O. O. Faulkenberry, J. E. Bryant, M. W. Bavouset, Afe Huddall, Roy Stewart and John Akers Grady Williams, Guy Moore, Clarence Wade, Mrs. A. C. Preullt, C. W. Flippin, W. J. Deaver, Pat Jones, Brud Boren, J. B. Lilly, H. B. Greenfield, Welch Scribner and Billy Boren.

Deputy School Man In County Schools

R. N. Sandlin of Abilene, deputy state superintendent, was a Snyder visitor Tuesday. Sandlin, who checked with Frank Farmer on school business, stated Scurry County schools are making good progress at this time.
He success Miss Madge Stanford, who had been deputy state superintendent out of Abilene for several years.

LIGHTS READY TO GREET OLD SANTA DEC. 12

Children of Territory to Be Given
Bags of Candy by Grand Old
Man of North Pole

Installation of Christmas lights on the courthouse yesterday has caused the square to assume all the earmarks of a city at Yuletide, as preparations are going forward to decorate most store fronts in the business district.

Santa Claus will arrive by airplane in Snyder Monday afternoon, December 12, at 3:00 o'clock, with Christmas greeting for all the children who come to town. Santa's trip is being sponsored by Snyder merchants through the Chamber of Commerce.

Free candy will be given for the small children, as in the past, but there will be no candy throwing. Children assembled on the courthouse lawn will all be given a free sack of goodies by the grand old man of North Pole fame.

WARMER DAYS COME TO AREA

The weatherman gave Scurry County one of its coldest Thanksgiving spells on record, as temperatures dropped from 26 degrees last Monday to as low as 12 above zero Wednesday night.

Sunday's lowest temperature, according to Mrs. B. G. Johnson, official government gauger, was 18 degrees above zero.
Warmer weather has been on tap this week, as temperatures rose from 21 degrees Monday night to 32 degrees Tuesday night.

Big Building Work Not New to Bosses

The two bosses on the demolishing work at the local school are accustomed to big jobs.
Frank Lossing, general superintendent, comes from superintendency of a new dormitory at the tuberculosis sanitarium near San Angelo, and he has bossed several other large West Texas jobs in recent years.

Buck Snider, foreman, has also seen extensive construction experience. Will O'Connell of San Angelo is general contractor for the job.

TWO HONORED.

Two Snyder girls, both honor graduates of the local high school, are listed on the mid-semester scholastic honor roll at Abilene Christian College. They are Jeet- ta Beauchamp, daughter of Mr. and Mrs. W. S. Beauchamp, and Dorothy Pinkerton, daughter of Mrs. Mollie Pinkerton. To receive this high honor rating, the two girls made an average of 90 or above on all work done in the school.

REGISTRATION OF DELEGATES SET SATURDAY

Parade First Afternoon; Dance at
Hut Saturday Night; Main
Program Set Sunday

Flags and bunting will drape Snyder's square in a spirit of welcome when registration for the 19th Congressional District American Legion convention, which is composed of 25 counties, gets underway at the Legion Hut Saturday afternoon at 3:00 o'clock.

Approximately 1,500 buddies and their wives are expected to be present when the main address of the two-day Legion conclave is given by Attorney General William McCraw Sunday morning at 11:00 o'clock at the First Methodist Church. The public is invited.

Saturday Parade.

Legionnaires and citizens alike are interested in the parade that will be staged through the business district at 4:30 o'clock Saturday afternoon, weather permitting.

Buddies from the 25-county area promise to fill the Legion Hut Saturday night, when a Legion dance will be given, starting at 8:30 o'clock. The American Legion Auxiliary, with Mrs. J. E. Shipp in charge, will give a breakfast for auxiliary members at 8:00 o'clock Sunday morning in the Willford Tea Room. Mrs. H. A. Lattimore is local Auxiliary president.

The arrangements committee is composed of Lee T. Stinson, chairman; A. C. Preullt and Walla D. Fish, all former commanders of the local Will Layne Post.

Homes Wanted

Snyder people who will accommodate American Legion visitors in their homes Saturday night are requested by local veterans to phone The Times office not later than 6:00 o'clock Friday evening. The Times number is 47.

Legion officials point out that the visitors will want bedrooms for Saturday night only, and that no meals are to be furnished by the host homes.

Citizens are urged to call The Times office at once, in order to provide ample quarters for the visitors. "Only in this way," declares local Commander Sam O. Nations, "can we truly live up to Snyder's reputation as one of the most hospitable towns in Texas."

Plans are being perfected to make this one of the most successful Legion conventions held at Snyder. It will be recalled this will be the first Legion meet held here since December, 1934, when Scurry was in the old 18th District. Rainy weather marred an otherwise fine convention in 1934.

Sam O. Nations is the new Will Layne post commander, and H. A. Lattimore is adjutant.

Son-of-a-Gun Feed.
Luncheon, featured by "son-of-a-gun," with all the trimmings, will be served at the city tabernacle.

The business session will be held Sunday afternoon at 2:00 o'clock. Attending Legion and auxiliary officials will include Vincent Chiodo, Houston, state department commander; Fred E. Young of Austin, state adjutant; Mrs. W. A. Wych of San Marcos, state president of the American Legion Auxiliary; Jim Wilson of Floydada, 19th District commander.

Gay Informal Parties for Collegians Features of Thanksgiving Holidays

Gay informal parties predominated on the social calendar during the Thanksgiving holidays for college students here for several days from their studies. The group will return for the Christmas holidays with guests in three weeks.

Holiday entertainment for the home coming students besides the informal gatherings included the Colorado-Snyder football game on Thursday, dinner parties and the Friday evening dance at the Manhattan Hotel. About 40 students attended the dance.

First to arrive for the holidays were the boys from Lon Morris Junior College, who arrived last weekend. They were J. R. Watkins, Johnny Boren, Wallace Smith and Delbert Johnston, Snyder boys, and their guest, Jack Whitley of Houston. By taking several cuts, the boys spent all last week in Snyder.

Other students arrived last Wednesday and a few later because of attending football games in other towns.

From Georgetown came Jonnie Cordell and her guest, Alice Peiper of Georgetown, both students in Southwestern University. The two girls returned to school Sunday with Estine Dorward, a Texas University journalism student, who drove the family car back to Austin.

Fred Wolcott, Rice Institute track star, and his guest, Dorothy Burnham, were guests of Wolcott's mother, Mrs. F. W. Wolcott, for the holidays.

Late last week several Hardin-Simmons University students were here—Royce C. Eiland and Frances Largent of Merkel were guests of Mrs. Ethel Eiland; Helen Day of Clovis, New Mexico, who spent the week-end with Mrs. Sam Joyce.

Others down from Tech for the holidays were: Juanita Sentell, Milton Joyce, Ruth Lane and William Miller. Another of the crowd, Irene Taylor, student this year in Lubbock High School, was among the holiday visitors here.

Prizes will be given at the close of the club year in two groups, most beautiful yard or garden and the most improved ones. For the latter group initial inspection will be made in December and final inspections in both groups will come in May.

Should any interested persons not receive an entry blank within the next few weeks, they are requested to call Mrs. Darby or Mrs. Herman E. Doak, club president, and the blanks will be brought to them at once. The club is anxious that the entire town keep the contest in mind.

Discussion of plans for the contest were heard at last week's meeting of Altrurian Daughters at the home of Mrs. R. E. Boyer Jr. For the program each member named a current best seller in literature, and later heard Mrs. Paul Cates in a review of "My Son, My Son," by Howard Spring. A salad plate was passed by the hostess to 13 members.

Georgia Nell Sharp of Cleburne and Frances Stinson left Sunday afternoon by train returning to Howard Payne College, Brownwood, after a holiday visit with Miss Stinson's parents, Mr. and Mrs. Joe Stinson.

Evelyn Erwin, Snyder beauty in Baylor University, Waco, spent the holidays with her parents, the A. D. Erwins, other relatives and friends here.

Ben Stevenson Is Thanksgiving Bride

Ben Stevenson, daughter of Mr. and Mrs. Will Stevenson of Hermleigh, became the bride of Frank Nachlinger, also of Hermleigh, in a simple marriage service held on Thanksgiving morning at the Presbyterian manse in Snyder. Rev. James E. Spivey, Presbyterian pastor, read the ring ceremony at 9:00 o'clock in the presence of several wedding guests.

The bride's sister, Ferris Stevenson of Clayton, New Mexico, served as maid of honor, and Cecil Wade of Hermleigh was best man. Others present were: Pete and Willie Nachlinger, brothers of the bridegroom, of Hermleigh, his sister, Mrs. A. B. Castevens of Snyder, and Mr. Castevens; Edith Sponka of Clayton, New Mexico; Victor Drinkard of Odessa.

Mrs. Nachlinger, a graduate of the Hermleigh High School, wore a tailored suit of wine wool with wine accessories and a black chinchilla coat. Her only attendant was also dressed in wine and black.

Nachlinger is the son of Mr. and Mrs. Joe Nachlinger of Hermleigh, and he, also, received his education in Hermleigh Schools. He is an employee of the Texas Company in a station at Hermleigh, and the couple will make their home there.

Wedding guests were invited to a reception following the ceremony given by Mr. and Mrs. Castevens at their home here. A white tiered bride's cake was cut and served with coffee.

Leaving immediately after the informal affair, Mr. and Mrs. Nachlinger were guests of Victor Drinkard in Odessa until afternoon, when they viewed the new Red Bluff Plant on their way to Carlsbad, New Mexico. The two visited with the bride's aunt, Mrs. Harvey Smith, and husband in Artesia, New Mexico, before returning to Hermleigh later Sunday.

NEW INTEREST IN FARM VOTE ON 1939 QUOTA

Southern Cotton Farmers to Decide December 10 Whether They Want Present Plan

Reports this week indicate cotton producers are showing an increased interest in the proposition marketing quota referendum December 10, as the series of educational meetings sponsored by the county agent's office gets underway.

First of all, Southern cotton farmers are to decide December 10 whether present cotton marketing quotas shall be in force for the 1939 crop year. Abolishing marketing quotas will not do away with the AAA, but affect only this phase of the program.

M. L. Wilson, undersecretary of agriculture, who spoke at Plainview last week before the Texas Farm Council, stated "The 1938 AAA program contains about 75 per cent of the objectives domestic allotment advocates are fighting for."

"In addition," Wilson continued, "to principal allotment provisions the present act has, most farmers are depending on subsidy payments, which could not be continued under a domestic allotment plan."

George Slaughter, state chairman of the Texas Agricultural Conservation Committee, says "every farmer should receive his acreage allotments for 1939 before December 10. Marketing quotas, plus the three-cent a pound penalty, offer the only legal devices we have to check overproduction."

But whether farmers vote for or against the domestic allotment plan, all county agents and department of agriculture officials are anxious that each farmer vote December 10.

Yves Fertman, teacher in the local high school, was joined by her sister, Mrs. Ott Nance of Justiceburg, Saturday to attend the Texas Tech-Marquette football game in Lubbock.

County Sends 18 To BTU Session During Holidays

A group of 18 Scurry County BTU delegates attended a three-day State BTU meeting at Wichita Falls Thursday, Friday and Saturday, when 7,500 BTU members and leaders met to hear outstanding speakers from the South.

Some of the outstanding speakers heard during the three-day program included Dr. R. G. Lee of Memphis, Tennessee; Dr. W. R. White, pastor of the First Baptist Church in Oklahoma City; and Dr. T. L. Holcomb of Nashville, Tennessee.

The Scurry County delegates, who returned Saturday night, were: Rev. and Mrs. Ira Harrison, Mrs. D. V. Merritt, Miss Effie McLeod, Misses Doris Worley, Marvanel Curtis, Evelyn Clark, Nell Verna LeMond, Elsie Murphy, Payden Norred, Thelma Thorpe and Jesse Huey.

In the boys group were Jimmie Merritt, Billy Alexander, Truman Barrett, J. T. Patrick, Arlin Moffett and Vernon Moffett.

The State BTU meeting will be held next year at Austin, and at Fort Worth in 1940.

Brownwood Reunion Attended by Locals

A Stinson family reunion was held Thanksgiving Day at the home of Dr. and Mrs. Z. T. Huff in Brownwood. Mrs. Huff is the daughter of Judge Jim Stinson and Mrs. Stinson of Abilene.

The following Snyder people attended the reunion affair: Mr. and Mrs. Lee T. Stinson and son, Billy Joe, Mrs. Guy E. Casey and daughter, Marie, Mr. and Mrs. Joe Stinson, Mr. and Mrs. J. D. Scott and son, Joe Dave, and Dr. and Mrs. T. M. Howle.

NAZARENE CHURCH
Services at the Nazarene Church will be held Sunday under direction of Rev. J. O. Hux, who has returned from San Antonio. Sunday school will be held at 10:00 o'clock, preaching service at 11:00 o'clock. "Old and new friends are invited," says the former local pastor.

Mr. and Mrs. Baxter Tollett and daughters, Florence and Frankie, of Abilene, spent Thanksgiving Day with Mrs. Ida Hudnall, a Northeast Snyder resident.

Inadle Farmers Hear Several at Watershed Meet

Luke Ballard, Edward S. Hyman, Miss Estella Rabel, E. H. Lilly, and Leon Guinn composed a group of Snyder people who attended the Lone Wolf watershed meeting at Inadale Monday night.

A fairly small, but interested, group of farmers in the Inadale and Pylon communities gathered for the water facilities meeting, over which Luke Ballard, county agent, presided as chairman.

Speakers besides Ballard included Don C. Lerner of the Soil Conservation Service, Colorado; and Barney S. Wise, also of Colorado, Farm Security Administration supervisor of Mitchell County.

Besides the Lone Wolf watershed area, other areas in this territory approved by the Soil Conservation Service are located at Stamford and Midland.

Applications for water facilities loans are being taken at the Farm Security Administration and county agent's offices in Snyder; the Soil Conservation and FSA offices at Colorado.

Under the new setup the Soil Service furnishes technical advice; FSA the money, and county agents the cooperating agencies for loans to improve ditches, pipe water into the house, construct tile gardens, and otherwise conserve all available water supplies—both underground and surface—in the Lone Wolf area.

Average loans are expected to run from \$150 to \$200 in most instances. If enough applications are received from Lone Wolf residents, the Soil Service will plan correct terracing and contour practices for the entire area, without cost to farmers or ranchers.

First Methodist Church
I first want to show my appreciation for the fine welcome given me not only by the Methodist people, but by the pastors and members of the other churches of the town. And it did not stop there. We have been welcomed by the press, the Chamber of Commerce, the school. Every organization has extended the hand of welcome that Snyder has long been noted for. We appreciate it and already feel very much at home.

We appreciate the splendid attendance at Sunday School and preaching hour. We appreciated the other churches dismissing their night services and coming over to visit us.

Sunday school, 9:45; preaching, 11:00; leagues, 6:15; preaching, 7:00. —I. A. Smith, pastor.

STOP Coughing and Stop It NOW
Enjoy A Good Night's Rest
BUCKLEY'S MIXTURE certainly makes short work of relieving those stubborn coughs and colds that other cough remedies fail to budge, according to Mr. H. A. Allen.

Mr. Allen says: "For years I suffered very winter with a terrible cough. I have had many sleepless nights and coughed until tears ran, and my stomach ached. I started again with the same old cough this year—but after a few doses of BUCKLEY'S MIXTURE my cough was gone."

You can't go wrong on BUCKLEY'S—by far the largest-selling cough medicine in all cold Canada. One or two doses and stubborn, tough hard-on coughs are often on their way. And it's only a few cents at drugstores everywhere. Money back if not delighted.

With His Innerds In Bad Condition, Jimmie Grimaces

Jimmie Billingsley, whose filmy framework, pulchritudinous pate and hilarious humor were put to bed a few days ago with an appendicitis operation, was so far recovered yesterday that he threw a bouquet of stistles into The Times manger.

In the rush of printing the paper before Thanksgiving last week, The Times gave less prominence to district court opening than it did to weather, school, church and football. His district courtorial dignity injured, even on a bed of affliction, Jimmie voiced his resentment between quarts of mineral oil.

Honest, Jimmie, we miss you tremendously, we folks around the Snyder square. But take our word for it that Rev. Spivey is doing a fine job of pinch hitting for you, even Judge Mauzey admits that this term of court will be almost a wash-out... and, well, we hope your innerds will soon be healed.

Needy Families May Get Supervisor Aid

"The training period for our housekeeping aid workers is over," Mrs. Nell Walser, local supervisor reported Tuesday, "and we are ready now to receive calls from any needy family in the county."

In all 16 women will be available for services in any part of the county, provided transportation is furnished by the family needing help.

Physicians, Red Cross workers, WPA case workers, or any charity organization may certify needy families for housekeeping aid help.

No discarded furniture has been received by Mrs. Walser at the old Post Office Building, but several have expressed a desire to donate old furniture to help the housekeeping aid project workers.

FACE to FACE, Your Mileage Merchant can frankly give you these same straight reasons for positive winter starting and big oil savings with your engine OIL-PLATED... more than an oil-change!

SEE how refreshing it is, the way Your Mileage Merchant—here in the paper and at his Conoco station—backs up his statements about Germ Processed Oil. It brings you more than an oil-change, because right after it is pumped up from the crankcase like any oil, it does something any oil cannot do. Energized by the Germ Process—patented—it bonds to every working part and stays up lastingly in the form of OIL-PLATING. Even grindstones can scarcely remove OIL-PLATING, so it certainly cannot drain down while your car stands cold—no matter how long. Therefore the instant you want to start up, every engine part swiftly and safely slides into action on its ready OIL-PLATING—the lubricant that plainly can't be held back by any cold; that can't hold back your battery. The quick starts tell you there's no grinding wear in your OIL-PLATED engine. It won't get hoggish with your Conoco Germ Processed Oil, another good straight reason for you to change to Your Mileage Merchant today.

Court Completes County Property Insurance Setup

A session of county-wide interest was held by the commissioners court Monday, November 14, when the commissioners approved a total of \$110,000 in new insurance policies for county property.

Total insurance was divided into three divisions, with the courthouse being insured for \$30,000; records and contents, \$10,000; and jail property, \$20,000.

H. J. Bries, county judge, was authorized to execute a contract with the Panhandle & Santa Fe Railway Company for the further lease of a portion of the railroad's property near Hermleigh which is being used by Scurry County as a public road.

November 25 commissioners court authorized the payment of \$5,590.94 in county road and bridge time script.

Monday of this week the court met in special session, and approved provisions whereby Scurry County will supplement federal funds to carry on the PWA sewing room project through the winter.

Scurry County will supply such sums as may be needed to continue the sewing room, since many feel this is one of the more beneficial WPA projects in operation at this time.

Over \$100 was realized by the annual fund in the penny-a-vote contest, which continued for one week. Powell Shytles managed the winner's campaign, and Vernon Moffett was the freshman-junior campaign manager.

Fluvanna Shows New Power With 13-6 Dunn Game

The Fluvanna Buffaloes walloped the Dunn Owls, 13 to 6, Wednesday afternoon at 3:00 o'clock on Tiger Field, in one of the season's snappiest Class C games.

Fluvanna made 13 first downs to Dunn's seven. Both times touchdown for Fluvanna were made, the squad drove from the 30-yard line to pay dirt.

J. R. Brown, playing the best game of his career, intercepted two Dunn passes, with Taylor passing to Turner for the extra point. Bobby Johnston was Dunn's feature player, scoring Dunn's touchdown through a line play.

Dunn's punting was superior to Fluvanna's, which probably held the scoring down considerably. On passes Dunn threw seven, with one completion for an eight-yard gain.

Fluvanna threw two, with no completions, but intercepted two Dunn passes. Severe cold held the crowd down considerably.

The Mail Waits 27 Hours

Take your choice. If you have first class mail that needs to go east, south or west, you can either mail it in Snyder before 9:00 p. m.; or you can meet the train just after midnight; or, if you can't get your mail ready by 9:00 o'clock or can't stay up to meet the train, your mail must wait 27 hours or slightly less.

Yes, the mail waits 27 hours. We have city delivery, which is not the lot of many towns this size. We have a good location and a good building for our post office now, with new equipment to be installed soon. We have an excellent postmaster and postal force.

But... the mail waits 27 hours. It has been proven time and again that Uncle Sam wants to give the mail service that his people need and demand. But so far most of our demands has been in small street-corner voices—voices that can't be heard 'way up at Washington.

We need some kind of night mail service, and need it badly. Ask the night watchmen or postal employees if you have a doubt about it. They'll tell you of the numerous gripes that reach them by day and by night.

Chamber of Commerce or Lions Club would render a real service if one of the organizations would "start a movement" with this slogan:
"No more 27-hour mail service!"

Tech Marches On

This is one of a number of editorials that will congratulate Texas Tech on her choice of a president. A West Texan for a West Texas school is not a choice that will please many of the pedagogical type of lame-duck educators, but it is a selection of great moment to the school and to all West Texans.

Clifford B. Jones of Spur has often been referred to as West Texas' No. 1 citizen. Certainly he occupies that position, now that he has become head of this area's greatest school. He is not inconceivable that under his direction the Lubbock school will become second rather than third in enrollment among Texas institutions of higher learning.

Mr. Jones takes to Tech a remarkable record of service in a number of fields of activity. While he has no college degree attached to his name, he has a wealth of cultural and practical knowledge that is not in the head of most Ph. D.'s.

The new president of Texas Tech, under whose guidance many Scurry County students will receive their college training, has been studiously described as:
A most gracious host.
Chesterfieldian in his polish.
A forceful speaker.
Scholarly: Keen student of the English language. Physically vigorous.
West Texas' No. 1 citizen.
A fine American gentleman.

Editorial of the Week

GARNER HAS BIRTHDAY

Red River County's most distinguished son, John Nance Garner, celebrated a birthday one day last week by going hunting with a Uvalde crony.

Fate was unkind to Mr. Garner; it is a great pity he could not have delayed his appearance on the scene by ten years. No president past 68 has ever taken office. There is a prejudice against nominating older men for the job. At this moment Mr. GARNER is the most available man for the presidency, but his age is a handicap. Only five men past sixty have held the job; the oldest, William Henry Harrison, died at 68, one month after taking the oath. But one of the greatest of them all, Old Hickory Jackson, was 61 when he took office and lived to be 78. The first Adams was 61, and lived to be 90. Zachary Taylor was 64 when he took office and died a year later. James Buchanan was 65 and lived to be 77.

There is little doubt that John Garner is the most powerful political figure in the country today. It may be that by 1940, in spite of his age, the country will call him to the colors. And, in spite of his age, few doubt that he would handle the affairs of the office with the vigor and efficiency of a much younger man.

For Old John Garner is really young in mind, body and spirit. He has taken care of himself. He knows the ropes. He has political savvy. And the country trusts him.—Abilene Reporter-News.

A Railroad Crossing

So many dozens of people have complained about two R. S. & P. crossings in Snyder for so many years that the question naturally arises: "Why doesn't the fine little railroad, one of Scurry County's greatest assets, build crossings of a permanent nature?" The local section men, headed by the capable Mr. Banks, do the best they possibly can do with the materials and budget they have. Surely, steel or concrete crossing material would be more economical in the long run than the up-ending boards that have decorated the crossings for, lo, these many years.

Everyone is bound to bear patiently the results of his own example.—Phoedrus.

Men are disturbed not by things themselves, but by their opinions or thoughts concerning those things.—Epictetus.

Current Comment

By LEON GUINN

Although it seemed a bit difficult at times to find "takers" for the weekly awards that were made during the county-wide trench silo contest that closed Saturday afternoon, the contest achieved an objective not previously attained in county agricultural history—an estimate of the feed saved by county farmers and ranchers a good feed year.

The surprising thing about the entire 10-week contest, commendable as it was from any angle, is that all the silage in Scurry County was not reported, which makes figures on reported tonnage far below the actual feed saved via the trench silo route. Just in case a lean crop year comes along, this unreported reserve, like an almost forgo-ton \$20 bill, may come in mighty handy, if and when county farmers and ranchers get to talking in terms of importing feed from other counties.

Last week turned out to be ideal "long handle" weather, as one of the coldest November blizzards on record swooped down from the Northern and Eastern states across the northern half of Texas. Besides temporary suffering, which was due to the sudden temperature change, our Thanksgiving cold snap probably did more to clear the air of germs than anything that has happened here recently. In fact King Winter has already sent his advance guard, and made himself quite at home in West Texas.

When bearded travelers enter Sweden, they must wash their faces with a strong disinfectant to rid themselves of any hoof-and-mouth disease germs that might be hiding behind a coffee-stained facial forest. Here in America, we seem to be above any such harsh treatment of inter-boundary visitors. For instance, the only thing we make the increasing cavalcade of Mexicans, who make the West Texas cotton picking season each fall, do when they cross the border is wash their hands of any microbes they might have on their hands from handling American money.

A pamphlet issued by the United States Forest Service, entitled "Trees That Temper the Western Winds," gives some very interesting facts on the 7,000 miles of shelterbelt in Texas, Oklahoma and Kansas. In Texas, for example, 10,000,000 trees have been set out on 1,488 farms, with a survival record that goes as high as 85 per cent. The Panhandle, of course, has been the center of most tree planting activities in Texas, with the Vernon area sharing in the federally sponsored "plant-a-tree" program.

Types of trees planted include cottonwood, honey locust, mulberry, and osage orange, with most trees having attained a height of 20 to 35 feet since planting in 1935. Say what one may about the shelterbelt project, facts and figures in this forest service pamphlet prove that windbreak trees on the prairie will work in certain sectors. After all it was man who uprooted the trees on the Great Plains area, and let loose the shifting soils in Texas, Oklahoma and Kansas, and it will be man who eventually must replace them, unless nature helps him out a lot.

Professor Ray L. Chappelle, department of agriculture education, Texas Tech, is conducting experiments with a group of NYA youths that will doubtless prove of interest to farmers and ranchers. Chappelle and "his boys" are using carbon bisulphide (high-life) to poison red ant beds, 1,200 of which are found on the 160-acre Texas Tech campus.

Red ants, as Chappelle points out, are a menace to farm and home in almost any section of West Texas, since the nimble footed little critters not only destroy lawns, flowers and crops, but are rather unpleasant bed fellows when one gets his stinger in action. In this sector we just take the ornery critters for granted, since our widely-famous supply of horned frogs are ant eaters de luxe.

While most home owners will want more information on how to kill red ant beds with bisulphide, we could well heed, first, the Biblical admonition to consider the ant's ways and be wise, "who, without guide or overseer stoweth away food in the summer" for the winter months ahead. Besides, how blank childhood's album book of memories would be were it not for red ant stings and wallows, which called for blueing and soda poultices, Watkins Liniment and swollen kernels under the arm!

Fingerprinting cattle may sound like a half-cracked idea, but cattle rustling has been so bad in Canada recently, the Royal Mounted Police are considering noseprinting of cattle, just as fingerprinting of humans is done. All cattle noseprints, the Mounties state, differ just like human fingerprints. Printed records of cow noses would enable police to identify a stolen animal readily. The plan sounds logical, except for rustlers who would "acidize" cow noses, and find a neat way of getting around brand marks when disposing of stolen stock.

A central cotton committee in India is experimenting extensively along the line of making artificial silk from cotton linters via the acetate process. Approximately 10,000 tons of cotton linters are wasted at present each year in ginning and spinning. The idea of making silk from cotton is catching on with British textile owners, who see in the acetate process a way to convert low-grade cotton into one of the earth's most sought after clothing fabrics outside the realm of woolsens. Chemistry and brains may get King Cotton patched up yet.

PYRON BEGINS NEW BUILDING WORK MONDAY

Speakers at Ground Breaking Rite See Rosy Future for Four-County School Zone

A rosy future for the Pyron school district was outlined by speakers at the ground breaking ceremony Monday afternoon.

The new school plant, to be erected at a total cost of more than \$40,000, was officially started that morning under direction of Harve Alston of Alston & Alston, Sweetwater contractors. PWA is assisting with financing of the project.

Board President Walter Miller dug a new pick into the first sod that was turned on the new structure, and PTA President Mrs. Joe Clifton threw the first shovelful of dirt into the biting wind.

The new school district, located in Scurry County but drawing students also from Fisher, Nolan and Mitchell Counties, has been "getting by" for several years, as its enrollment increased due to consolidations, with its old wooden structure and two smaller buildings that have been moved in from consolidated areas.

Alston & Alston was awarded the contract, out of a field of eight bidders, 10 days ago. First contract figure is \$27,179.

Speakers for the brief ceremony included: Harve Alston of Sweetwater; Fred Buford, Abilene; President Miller of the school board; Secretary J. Stevens of the school board; Vern Gilmore, Carl Voss and E. N. Cummings, board members; J. C. Smyth, Snyder.

Two board members, Charley Ence and W. E. Williams, were not present. Superintendent M. H. Greenwood was in charge of the program. Mrs. N. E. Simmons directed a rhythm band and a group of singing students in playing and singing "Battle Hymn of the Republic."

Former Local Boy Killed When Struck By Fast Ralls Car

Funeral services for 10-year-old Clinton Graham, son of Mr. and Mrs. Robert Graham of Ralls, killed Saturday afternoon when struck by a car at Ralls, were held at Abilene Sunday afternoon at 3:30 o'clock.

The Grahams are former Snyder residents. Mr. Graham was until recently stationed here with a semio-graph crew.

Young Clinton had just left a picture show, and started across a Ralls street, when a car struck him. Eye witnesses stated the car was driving unusually fast.

Snyder residents who attended funeral rites at Abilene were: Mr. and Mrs. A. E. Walton, Ruby Thomas, Richard Crenshaw, and Mrs. Stella Clark.

Interment was in an Abilene cemetery.

Mrs. G. B. Hamilton of Chickasha, Oklahoma, was a Thanksgiving holiday guest of her mother, Mrs. J. C. Maxwell, and the W. W. Hamilton family.

Mmes. H. J. Brice, Guy Stoker, Lora Miller and G. H. Leath and Richard Brice spent Tuesday in Abilene. Other Snyder women there for the day were Mmes. H. P. Redwine, Lee T. Stinson and Earl H. Louder.

Snyder Eleven Plays Best Game of Season, Outplaying Colorado Except for Minute

Tiger fans by the carload went to Colorado Thanksgiving afternoon, along with the Tiger Band, girls' drum corps and pep squad, to see the locals lose to Colorado, 7 to 0.

It was a heart-breaking loss for Coach Red Hill's crew, for they roundly outplayed Colorado most of the afternoon.

Only touchdown of the game came on the first play after Colorado received the opening kickoff Tommy Chadwick skirted end on a 75-yard run. Many Tiger fans say Chadwick stepped over the side-line on his jaunt, but officials did not see the alleged infraction. Curtis Wood kicked the extra point.

The ball soon moved into Colorado territory, and it stayed there most of the game. The Tigers were stopped once on the four-yard line, once at seven and once on the 15.

Shields, Keller and Popejoy were potent in the local backfield, with Clark, substituting in the last half, starting on defense. The entire line, led by Captain Red Hargrove, held the powerful Colorado backs in their own end of the field most of the melee. Snyder made 11 first downs, Colorado eight.

Officers for Lodge To Be Named Soon

Although no Woodman field men attended, 20 members of the Snyder WOW Lodge gathered at the National Guard armory Tuesday night for the regular weekly meeting.

Plans were perfected for the election of lodge officers at the meeting next Tuesday night. P. M. Bollin, financial secretary, requests that all old members of the W. O. W. lodge make it a point to attend next week's meeting.

Yule Turkey Market To Open Next Week

The Christmas turkey market is due to open by December 5, Snyder produce houses stated Wednesday. While no prices have been received yet, poultry dealers feel the Christmas market will open near the Thanksgiving market levels.

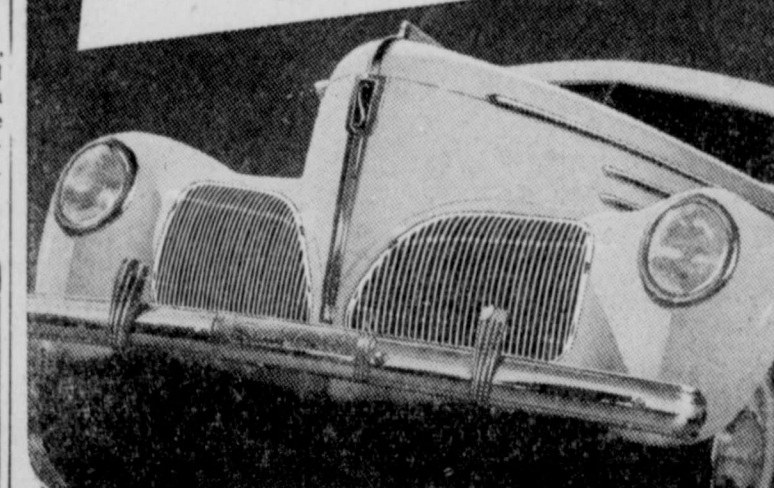

Market reports by the U. S. Department of Agriculture indicate the quality of West Texas turkeys is above that of last year, although still falling below quality of birds raised in turkey growing centers.

Snyder Will Hear Famed Musicians At School Dec. 9

Snyder people and those from the surrounding area will be afforded a rare privilege Friday, December 9, when world-famed musicians will appear here in concert, sponsored by the junior high school glee club and Mary Evelyn Pickle, school music instructor.

Julien Paul Blitz, cellist, head of the music department of Texas Technological College, will be presented in concert with accompaniment by his wife, an accomplished pianist and experienced accompanist. An added feature of the program will be a motion picture brought by the Lubbock musician on some phase of music education.

The cellist and his wife will appear at the school gymnasium December 9 at 2:00 o'clock in the afternoon. Should enough interest be shown, Miss Pickle says that the junior club will also sponsor a night performance the same day.

Admission will be 10 cents for all students and 25 cents for adults. Advance tickets are on sale with the junior glee club members.

New Subsidy Money Expected Any Day

The county agent's office had received no more subsidy checks on the 1937 cotton crop up to noon Wednesday but another batch of checks is expected almost any day now.

Approximately \$29,000 more in benefit payments are still outstanding, the county agent's office points out, "which will mean added dividends when received."

Scurry County has obtained to date \$188,897.31 in benefit payments on the 1937 cotton crop, with the approximate amount of \$29,000 more totalling around \$215,000 that will be received by county producers in the near future.
