

Board Ok's Selling Bonds, Hiring Architect

NEW COUNTY HOSPITAL ON THE WAY..... FINALLY

The Board of Directors of the Fisher County Hospital District made the decision last Monday night to begin the preliminary steps necessary to achieve the ultimate goal of a new hospital in Fisher County. Directors voted unanimously to authorize financial consultants Vinyard and Street to start proceeding with the sale of bonds and interviewing architects to design the new Fisher County Hospital.

Although there are several major problems facing the committee, two of the largest are (1) securing the certificate of need in order that the new hospital will be authorized to collect payment for the treatment of Medicare patients, and (2) solving the problem of the closing of Callan Hospital. Each problem was talked about in general terms at Monday's meeting.

Board member, Allan Houston, asked Gene Vinyard, financial consultant, if the new hospital could expect to receive as much Medicare reimbursement for Medicare patients when the

new hospital is built as is presently being received by Callan Hospital. Surprisingly, Vinyard's answer was yes. Vinyard was of the opinion that we would receive full reimbursement for the treatment of the patients but not for depreciation of the new facility. Medicare uses a complicated formula to ascertain exactly how much is paid back to the hospital and doctors for treating a Medicare patient. If Houston's understanding is correct the District would get 100% reimbursement on the treatment portion of the formula and no financial reimbursement on depreciating the new hospital under the Medicare formula. Most board members were amazed at Houston's question and Vinyard's answer. It was the general feeling or understanding of the board that until the certificate of need was approved the new hospital would not receive any money for the treatment of Medicare patients. If in fact Houston and Vinyard are correct in their understanding of the reimburse-

ment, what was thought to be a gigantic stumbling block has turned into a small pebble in the road to eventual success.

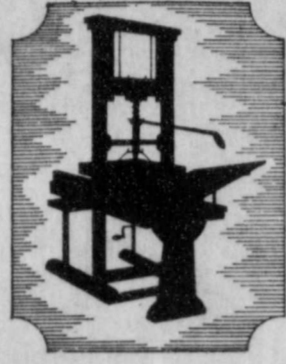

The board authorized Gene Vinyard to contract several Medicare auditors to get a true reading to clarify the reimbursement formula.

The second large problem facing the committee is the closing of Callan Hospital on January 1, 1974. "They have convinced me that they are going to close", said Board President, Ralph Ammons referring to the

Callan Hospital doctor's statement at the last meeting. Several board members were of the opinion that the people voted for the construction of a new hospital facility and that they would oppose the use of funds to be used to operate the old hospital. However, everyone seemed in agreement that they (the board) must work out something with the Callan Hospital to keep it open. Ralph Ammons stated, "We can't let this one close".

The board authorized Gene Vinyard to contact Hugenin, Boothman, Dumas and Morrow, Bonding Attorneys in Dallas, in an effort to see how they could legally assist with the operation, lease or subsidy, of the Callan Hospital.

Four visitors were present at the Monday meeting. Mildred Parker, Mrs. Carlton Burrow, Mrs. Clay Coggins and Mrs. Blair Berry. All four participated in an open discussion concerning the destiny of the operation of the Callan Hospital in the near future.

Eight Days Remain To Register For P, P & K

There are just 8 days remaining for youngsters in Rotan and Roby to register for the local Punt, Pass & Kick Competition.

Ray Brown, owner of Rotan Motor Co., Ford Dealer sponsoring the popular youth activity in this area, said that registrations would be taken through Friday, September 28. The Rotan-Roby PP&K Competition is scheduled for September 28 at Rotan Football Field.

"Although time is growing short, any youngster 8 through 13 years of age can still compete," said Ray Brown. "All a contestant need do is come into our showroom, accompanied by a parent or guardian, and fill out the PP&K registration form. There's no entry fee or charge of any kind, and that goes for all six levels of competition, up to and including the National Finals."

The Ford Dealer pointed out

that trophies will be awarded for 1st, 2nd and 3rd place in the local competition in each of the six age groups. Increasing the youngster's chances of winning one of the 18 trophies is the fact that each contestant competes only against others of the same age. And since there is no body contact, an entrant's size is not as important as his ability to punt, pass and placekick for distance with accuracy.

"Winners can continue on up through the Zone, District, Area and Division contests to the National Finals," the Ford Dealer said. "It's possible that one or more of our local winners could wind up in the Finals, which will be held at the Super Bowl Game in Houston on January 13. Registering for PP&K right now in our dealership could mean all that for some youngster or youngsters here in Rotan or Roby, but they should

Roby Runs Over Jim Ned

The Roby Lions defeated the Jim Ned Indians Friday night 21-13 to get their first victory of the season.

In the first quarter, the Roby quarterback, Dale Evers, ran 20 yards after a busted play for the first score and the extra point

pick was blocked. About 20 minutes later Jim Ned end Jeff McClure ran in from 3 yards to tie the score, then halfback Johnny Quinney kicked the extra point to give the Indians a 7-6 lead at the end of the first quarter.

With 30 seconds remaining in the first half Dale Evers fumbled in the end zone after a short run and tackle Jessie Castor recovered. Evers kicked the extra point to make the score 13-7 at halftime.

Roby end Frank Castor scored on a 34-yard pass in the third quarter and Dale Evers ran in

the extra point. The Indians scored again with a 41-yard run by Leland Hastings. They attempted to run in the extra point but were stopped. The fourth quarter remained scoreless so the final score was 21-13.

Jim Ned led in rushing 270 yards to 132 but Roby led in passing yardage 177 to 22. The Lion defense allowed the Indians to complete only 3 of 12 passes, and three were intercepted, two by Gilbert Brown

and one by Dale Evers. Donnie Stephens, Frank Castor, Dale Evers, Shad Holcomb, and James Park were leading tacklers for Roby. The Lions recovered three Jim Ned fumbles while Jim Ned recovered only one Roby fumble.

Donnie Stephens lead Roby rushing with 67 yards in 22 carries. Frank Castor caught 13 passes for 94 yards, and Gilbert Brown caught 5 for 70 yards.

The Lions play Wylie Friday night on their home field.

Jones, Gentry Score

Rotan Marches Past Anson

The Rotan Yellowhammers played well enough to win against Anson, but far from their potential.

Rotan's speedy halfback Jerry Gentry electrified the crowd with his second-effort running and crucial blocks as Rotan posted their first win of the season by downing Anson 26-12.

Head Coach Charlie Russell singled out several players on offense and defense that had extremely good performances against the Anson Tigers. Bruce Jones, Jerry Gentry, Bub Allen, and Eramos Garcia received verbal praise from Russell for their offensive performances.

Defensively Reid Cave, Gary Wester, James Goodwin and Bub Allen did outstanding jobs according to Russell.

On the subject of defense, Russell indicated in an interview following the game, "If Rotan is to be a contender in District Play, the defensive unit is going to have to do the job."

Rotan spotted Anson 6 points early in the first period in a drive that covered 68 yards. James Goodwin picked up a fumbled ball by Anson on their third play of the game, but the Yellowhammers quickly returned the favor as Rodgers and ball parted ways on a dive play over right tackle.

Rotan scored on their next possession. The drive began with Joey Vann taking the kick off at the 30-yard line and re-

turning it to the Rotan 41. Bruce Jones kept on the quarterback option sweeping right behind blocks by Gentry and Bobby

next TD was an interference penalty called against Anson as Reid Cave went deep for a pass. Cave was 19 yards past the line of scrimmage when the Anson player interfered with his ability to catch the ball.

Mike Cade blocked two Anson defensive players as Jerry Gentry slashed over right end giving Rotan a 1-goal from the 8 yard line. Jones was credited with the second score as he hit paydirt over left tackle from one yard out. Goodwin's kick upped the score to 14-6.

Tim Allen led the Yellowhammer kicking team with a fierce tackle on Larry Sprberry. With 1-10 on their own 30 yard line Anson's Benji Adkins was hit by Clay Helms after a 5 yard gain. Reid Cave stopped a sweep around left end and on 3-5 from their own 35 Bruce Jones intercepted a pass. Clay Helms threw a bruising block as he led Jones downfield to the Rotan 42 yard line.

The play that set up Rotan's next score came when Jones pitched to Jerry Gentry who threw to Joey Vann. This came on a 1-10 from Rotan's 20 yard line. Gentry went in for the score from the 1 yard line over left tackle. Goodwin missed the extra point which left the score 20-6.

Rotan's final score came in the opening minutes of the final period when Gentry drove over left tackle. The only in-

juries in the game were to Johnny Hardin (two bruised shoulders) and Mike Cade with a sprained ankle.

FANCY THAT!

mination-by birth, miscarriage or abortion-and the risk of her next baby suffering a blood disease is much less, even if she and the father have different blood types.

One of the most bouncing babies on record is Elias Daou, born in Sumiani, Ghana, on October 12, 1969. At the age of 22 months, Elias weighed 6 1/4 pounds and his circumference was 35 1/4 inches!

The longest pregnancy for a live-born baby was one of 381 days attributed to Mrs. Christine Houghton, 28, of Walberton, Sussex, England, on May 22, 1971. The baby, Tina, weighed 7 lbs. 7 oz.

If a woman's blood is Rh-negative and the father's Rh-positive, they can have one baby safely, but there's a 50-50 chance of the next baby suffering a blood disease even before being born. Now a simple injection helps to make the second and subsequent pregnancies safe. Called Rho-immune, it is given to a woman within 72 hours after her first pregnancy ter-

Constitutional Amendments Reviewed

The protection of a person's home is a much cherished Texas tradition. Homestead laws date back to the days when the state was a republic.

In 1839, Texas passed a law which prohibited the forced sale of a family's homestead for the payment of debts. This principle was reasserted in the five state constitutions which have been adopted since then.

A major shortcoming of the homestead provisions, is that this protection was not afforded to the real property of single adults.

This November Texans will have the chance to right this inequity. Amendment 2 on the ballot would extend the same homestead protection to single adults, which is presently available only to families.

Increasingly, there are single adults in our society who have invested their earnings in a home. In my opinion, it is patently unfair that they could lose their home under circumstances in which a family would retain ownership.

Amendment 2 also provides that abandonment of a family homestead will require the consent of both husband and wife. The present Constitution does not provide for this, and it has been held that the consent of both parties is not required to give up a homestead exemption

of their homestead. Last year, Texas voters approved an amendment to the Constitution which extended a further property tax break to persons 65 or older.

This amendment was interpreted to mean that a family relationship must exist. Consequently, many tax collectors refused to grant this exemption to home-owning widows and other qualified single persons.

Amendment 3 would clear up this confusion, providing that the extended exemption could be granted regardless of family status of the elderly person.

In addition, Amendment 3 would extend the \$3,000 homestead exemption to all single adults. Single citizens are entitled to the same protections and rights as married home owners.

The logic of equalizing these laws and ending discrimination against the single citizens of the state will be apparent to everyone. Adoption of Amendments 2 and 3 will do much to correct these inequities.

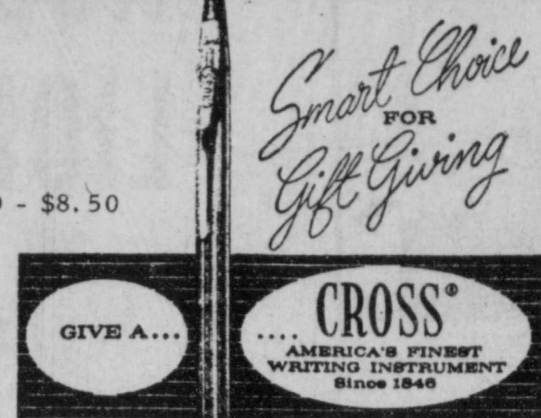

A Word Of Caution About . . . Auto Insurance

Has your auto insurance gone up this year? Most policy rates have been increased. Don't change policies because of increased costs until you really investigate and compare auto insurance. You may be sorry!

Mr and Mrs G.A. Hudnall Will Celebrate 50th Anniversary

Mr. and Mrs. G. A. (Afe) Hudnall will celebrate their 50th wedding anniversary with a reception from 2 to 5 p. m. Saturday, September 22, in the Scurry County Northeast Community Center, located on farm road 1616 between Camp Springs and Snyder.

Hosting the celebration will be their children and their families. Children are Mr. and Mrs. Eugene Hudnall of Rotan, Har-

old Hudnall of Pico Rivera, Cal. Rev. and Mrs. Billy Hudnall of Mt. Pleasant, Mr. and Mrs. Dave Hudnall of Abilene and Mrs. Anelle Hardy of Ft. Stockton. Mr. Hudnall was born April 9, 1907 in Scurry County. He is a retired farmer.

Mrs. Hudnall was born Annabel Parker, daughter of the late Mr. and Mrs. James B. Parker, April 15, 1902 in Tenaha, Texas, in Shelby County. She en-

joys quilt making and church activities.

The couple met in the Cottonwood Flat community in 1922. They were married September 29, 1923 in Roby in the home of

Bro. Ben Harrison. They are members of the Bethel Baptist Church in Snyder. They have four grandsons and two granddaughters. Friends and relatives are invited.

Through September 10, some 500 persons had filed SSI applications with the Abilene social security staff, either in Abilene or in Rotan. A current schedule for visits to Rotan is at the local post office. It is estimated that between 2 and 3 thousand more claims will be filed in the Abilene district before December 31, 1973.

Supplemental Security Income Coming Soon

Social Security offices are now accepting applications for January 1974 payments under the Federal program to replace the state old-age assistance, aid to needy blind, and aid to the permanently and totally disabled.

The new program, Supplemental Security Income (SSI)--- is being administered to social security offices, but the money comes from general revenues, not from any of social security's trust funds.

Persons who will get checks in December 1973 from the State Department of Public Welfare will automatically get the Federal check in January 1974. Anyone whose state grant is stopped before January should immediately see a social security representative to see about qualifying for SSI.

less than \$150 per month net income, who are past 65, blind or severely disabled, and who have few or no excess resources can qualify for SSI; the comparable figure for a couple would be about \$215. Excess resources could be a second or

third automobile, real estate other than the residence, life insurance policies with cash value of more than \$1500, cash or other liquid assets.

More detailed information on SSI will appear in the newspaper in the future; in the mean-

time questions and inquiries in person, by mail, or telephone, are welcomed by the social security staff.

Write SSI, Box 3258, Abilene Texas 79604 or meet with a staff member when he or she is in your community.

THE FAMILY LAWYER

Do-Nothing-ism

In some modern minds, the legendary Confucian advice to "see no evil, hear no evil, speak no evil" has been translated into one simple rule: "Don't get involved." Do nothing, says this rule, and you won't get into trouble.

To a considerable degree, do-nothing-ism has been sanctioned by the common law. Traditionally we have been reluctant to impose any legal penalty for the mere failure to be helpful.

For example, courts have turned down damage claims against the following individuals:
1) a man who watched impassively while a young woman drowned, even though he could easily have gone to her aid;

2) a man who called no warning to a neighbor's child whom he saw hammering on a tube of gunpowder;
3) a man who failed to remove a rock from the roadway, even though he knew it was a menace to traffic.

In each case the moral duty was plain enough. But the courts all agreed that moral duties were a matter of conscience, not law.

In recent years, however, the law has been requiring people to lend a hand in an increasing number of situations—notably, when there is a special relationship between the parties.

Thus, courts have imposed an affirmative duty on a host toward his guest, on a store toward its customer, on a hotel toward its patron, on a railroad toward its passengers.

Legislators, too, may create a duty to act in specific circumstances. Under hit-and-run statutes, for instance, a motorist may be required to give aid to accident victims regardless of whether he was legally to blame for the accident.

This kind of responsibility is based neither on fault nor on any special relationship. Rather, it is based on a humanitarian feeling that when the moral duty is so clear, the law ought to put muscle behind it.

F & M Chevrolet-Buick Show New 1974 Models Today

The friendly personnel at F&M Chevrolet-Buick Company invited the public to come by on September 20th and look over the 1974 cars which are now on display there.

The company, owned and operated by Willie Fleming and Murl McKinney, marked its 5th anniversary on July 1, 1973. It is the continuation of a pioneer automotive dealership which began as Hogsett-Dowell in 1928. In 1938 Mr. Hogsett purchased Mr. Dowell's interest and the name was changed to Hogsett Chevrolet Company.

Willie Fleming has been connected with the firm since 1936 when he became an employee of Hogsett-Dowell Co. In 1960 he acquired an interest in the company. Murl McKinney became an employee of Hogsett-Fleming in 1961. On July 1, 1968 Charles Hogsett sold his interest to Fleming and McKinney and the name was changed to F&M Chevrolet-Buick Company.

Mr. Fleming recalls the first car he sold after starting in the business in 1936. It was a new 2-door Standard Chevrolet, and the retail price was \$696.00. The 1974 Chevrolet differs from the 1936 Model in more than selling price. The wide choice of Models, sizes and types of cars and trucks, together with a lot of value for the money, is indicative of the reason Chevrolet continues to be the Number One selling car in the U. S.

The friendly people at F&M Chevrolet-Buick Co. never forget the responsibility implicit in that honor. They are equally proud of the fine quality of the Buicks they handle.

In addition to a full line of Chevrolets and Buicks, F&M also sell and service used cars and trucks. They offer complete automotive services, parts and accessories.

Service Manager at F&M Chevrolet-Buick is Roy Cummings. Three competent me-

chanics are on hand to take care of the needs of the motoring public. The mechanics are Isaias Rodriguez, Lloyd Messick, and Willie Ramirez. Elwood Mize is in charge of washing and lubrication. Fred Hawkins is head of the parts department, and Mrs. William Cleveland is bookkeeper.

Willie Fleming and Murl McKinney agree, "We are concerned about the needs and interests of the people in this area. Your good will is important to us. Our policy is to carry on this business in a way that warrants your continued patronage. We cordially invited you to come in and see the 1974 Chevrolets and Buicks now on display".

Mrs Bill Hardy Led Texas HD Waco Convention

Waco Convention Center was the site of the Texas Home Demonstration Association's 74th annual state meeting September 18-20. More than 700 members of

Home Demonstration Clubs in Texas attended the meeting. The meeting featured three keynote speakers during general assemblies along with two days of workshops for THDA mem-

bers. Workshops concerned citizenship, family life, 4-H, health, cultural arts, recreation, safety and publicity.

Also, THDA county chairmen and THDA official delegates attended workshops dealing with their primary areas of responsibility.

Addressing the public assemblies in keynote addresses were U.S. Rep. Omar Burleson (D-Tex) of Anson, the Rev. Peter McLeod of the First Baptist Church in Waco, and Mrs. Florence W. Low, assistant director for home economics with the Texas Agricultural Extension Service.

Frederick McClure of San Augustine, Tex., immediate past president of the Texas Future Farmers of America, was featured in a special program during the concluding banquet, according to Mrs. Bill Hardy of Rotan, THDA president.

Home demonstration clubs, numbering 1,397 in Texas with more than 20,000 members, are sponsored by the Texas Agricultural Extension Service, The Texas A&M University System and the U.S. Department of Agriculture.

Cotton Market News

Spot cotton prices in Western Region cotton markets dropped sharply this week, according to the USDA's Agricultural Marketing Service. In earlier producing sections of Texas, merchants actively bid on lots of uncontracted cotton. Volume of uncontracted cotton being currently ginned was short, however, growers with available cotton appeared to be in no hurry to sell. Elsewhere in the west, lower offering prices and a shortage of uncontracted cotton acreage brought contracting activities to a low level. Offering prices for contracting of the 1973 crop dropped 6.00 to 10.00 cents per pound during the week. Demand was good, however, and most merchants were in the market for 1973 and 1974 crop contracts.

With the bulk of their 1973 crop committed, growers in some locations became interested in contracting their 1974 crop. Volume contracted was light, however as most growers asked for prices near last weeks level. Merchants on the Texas Plains were reluctant to book acreage as far in advance as the 1974 crop. Defoliation was taking place in some of the earlier planted fields in California. Cloudy, wet weather caused some concern in the Pecos Val-

ley of New Mexico. The Arizona and Far West Texas crops made good progress. Harvesting in the Harlingen area of South Texas was estimated at 75 to 80 percent complete. Rains delayed the harvest in the Corpus Christi and Austin territories during the week. Elsewhere in Texas and Oklahoma the crop made generally good progress. First bales were ginned in Lubbock and El Paso territories during the week. A limited amount of harvesting was done around Yuma, Arizona during the week.

Our Health

By C. H. Tracy, M. D.

What is the difference between hypoglycemia and diabetes?

Both hypoglycemia and diabetes are chemical disorders of the body. Hypoglycemia is characterized by low blood sugar, while diabetes mellitus is characterized by an elevation in the amount of sugar in the blood and also by the appearance of sugar in the urine. Diabetes is caused primarily by the inability of the islet cells in the pancreas to secrete sufficient amounts of insulin, and occurs more frequently in persons who have a family history of diabetes and who are overweight. Since diabetes is a glandular imbalance, it may also occur in those who have an abnormally functioning liver, or adrenal or pituitary glands. Don't attempt to diagnose either disorder yourself. Your physician can determine the presence of diabetes from a blood sugar analysis, urine analysis and/or a glucose tolerance test; and hypoglycemia from a simple blood sugar analysis. Both disorders may be controlled by diet, but most patients with diabetes will also need medication. While there can be other causes, hypoglycemia occurs most often in persons who are taking insulin to control diabetes, when the insulin dosage causes the blood sugar to drop to an unusually low level. In these cases, the hypoglycemia is known as "insulin shock."

Card Of Thanks

To all of those who visited, wrote to me and thought of me during my recent stay at Callan Hospital, and especially to the doctors and nurses, may I take this means of sincerely thanking you.

AVOID THESE COMMON PLANNING BLUNDERS

Many men and women who wouldn't dream of burning a ten-dollar bill commit money blunders which are amazingly more expensive. Certain costly errors are especially prevalent, according to financial experts. Unless you really do have money to burn, better watch out for these mistakes.

1. *Not knowing how much credit costs.* To pay the lowest possible charges, shop around carefully before you sign on the dotted line. Insist on knowing the total—not just the monthly amount you'll pay for the item before you're through. Be very wary of characters who try to talk you out of paying up quickly and urge you to take the full 36 months to pay. The less you pay each month, the more you'll pay in the end. Be equally careful when you are shopping for a loan. Remember that a tiny-sounding 1/8 percent per month adds up to 18 percent over a year's time.

2. *Failure to budget the "buggy."* A major expense that trips up many families is the family car. Many people fail to realize that they should "depreciate" their cars the way businesses depreciate equipment. In that way, they can budget for a car replacement fund. If your new car cost say \$2,400, and you figure to get \$800 on the trade-in in four years, that means you will need \$1,600. You should

save \$400 a year, or almost \$35 a month. Put this in a special account—don't lump it with family savings.

3. *Failure to draw up a will.* If you fail to make a will while alive, you may be sure that it will be done anyway by the courts. But the distribution will rarely be the one you would have chosen yourself. The law makes no allowances for the ages, states of health or financial situations of your heirs. Write today for your copy of *The Personal Record Booklet*, as well as the informative brochure *How To Make Your Will*. These are free of charge and may be obtained by writing to the United Presbyterian Foundation, 475 Riverside Drive, New York, N.Y. 10027.

4. *Being an impulse shopper.* Nothing wrecks a budget faster than impulse buying. In the supermarket, they add up...and up. They can choke your closets with ill-chosen "bargains," turn a charge account into Frankenstein's monster. Heed these hints and you'll really cash in on your financial planning.

Texas Prison Rodeo To Open With Goree Girls

There's no current law on the Texas Penal Code books forbidding "stealing the show at the Texas Prison Rodeo." If such a law did exist, though, the Goree Cowgirls would be in trouble.

Why? Well, these prison pretties purloined the hearts of rodeo fans last year in their debut season as active participants in a one-of-a-kind rodeo. And the girls are just as likely to repeat that feat this year, too.

The Goree Cowgirls—10 two-women teams—made their initial appearance last October competing in the calf roping, greased pig sack contest, and a donkey barrel race.

No, they didn't wear the striped uniforms associated with prisons—they wore colorful gym

type suits. Chartruse, lavender, pink—yes, the Texas Prison Rodeo, billed as the wildest and toughest of its kind, took on a new dimension last year.

Arena action gets underway at 2:00 p. m. with the traditional grand entry parade—with the Goree Cowgirls set for their first event just a short time later.

Ticket information concerning each Sunday performance is available by writing to the Rodeo Ticket Office, Box 99, Huhtsville, Tex. 77340.

Snyder's Billionth Barrell Of Oil Week Celebration Set Soon

Snyder and Scurry County will celebrate two significant milestones in oil production simultaneously in Scurry County the week of October 8-13, and they will be saluted by a festive week in Snyder.

It was in the fall of 1948 that the rich Canyon Reef formation was first tapped and began to release its petroleum for use by mankind. So that means the 25th anniversary of the Canyon Reef discovery in Scurry County is coming up.

Some months ago a few notes and figures were jotted down from production figures and they revealed news that Scurry County would produce its billionth barrel of oil almost at the same time of the 25th anniversary of the Canyon Reef discovery.

That revelation stimulated considerable interest among the local business and oil community, and Snyder has made plans for one of the biggest weeks in its history. The Billionth Barrel of Oil Celebration Week.

Co-chairmen of the celebration are C. T. McLaughlin, a well known independent oilman, rancher and banker; E. W. Schrader, President of Snyder National Bank; H. W. Cargile, President of West Texas State Bank; and Roger B. Mize, a banker and rancher. Mr. Pete A. Nikias, Chevron's SACROC district superintendent, is co-chairman of oil exhibits.

Looking to the climaxing feature of the special week is the annual Chamber of Commerce and Oil Banquet, Murphy Martin, the popular newsman for WFAA-TV in Dallas, will be the master of ceremonies. Martin,

well known to millions as a news anchorman on network television as well as the Dallas station, will add to this climaxing event with his ability as veteran newscaster and producer of award winning documentaries.

Also, booked for the Oil Banquet on October 13, is Television Star Ken Curtis (Gunsmoke's Festus), along with Hi Busse and the Frontiersmen Quartet.

But this will merely be part of the frosting on the cake. The spotlight is going to be focused on the petroleum industry for a full week.

The schedule of activities included:

Monday, Oct. 8; will be the opening ceremonies, removal of one-billionth barrel, opening of the carnival, presentation of the oil theatre, and the crowning of the oil queen. The oil theatre which will be held October 8 and 9 will be under the direction

of Mr. Jerry Worsham, drama director at Snyder High School, and Mr. Bill Lyon, choir director at Snyder High School.

Tuesday, Oct. 9, they have scheduled public tours of oil facilities and the presentation of oil theatre.

Wednesday, Oct. 10, is set to have a parade and public tours of oil facilities.

Thursday, Oct. 11, is the day set for a free barbeque and the opening of the oil show. The oil show, celebrity golf tournament and opening of the oil show.

The oil show, celebrity golf tournament, and a square dance festival are scheduled to be on Friday, October 12.

Saturday, October 13, will be the oil banquet in the Scurry County Coliseum.

Things aren't going TOO well

Adults see the intensity of a child's emotion—but seldom understand. Our natural tendency is to assume a child is small and his feelings are just "miniatures" of our own.

To the contrary, many childhood emotions are more intense than anything we feel . . . stronger because the child hasn't yet learned to understand and curb his feelings.

This is the ideal time to begin religious education. Then a child's understanding of himself grows with his perception of spiritual values.

Sunday morning in church is the high point in thousands of "little lives." Things that aren't going too well have a way of straightening out when you're grasping the central truth of Christianity:

JESUS LOVES ME!
This I know!
