RECEIPTS OF STOCK BY CARS.

Table showing receipts of stock by cars for various locations like Chicago, St. Joseph, etc.

CATTLE.

Local Receipts This Week Normal But Heavy at Other Points.

Local receipts this week totaled 8,559, as compared with 8,681 the preceding week, 10,432 a month ago and 6,617 for the corresponding week a year ago.

However, holders of stock that must come to market will find it to their advantage to make their consignments to South St. Joseph, as receipts are hardly up to the requirements of the packers.

nation against the stock in grassy condition but it is now the season of the year when the country can expect sharp breaks on this class of offerings and they should be governed accordingly.

The general conditions were unfavorable to the stocker trade this week, and while regular dealers have purchased quite freely it was at prices which show a net loss for the week of about 25c per hundred weight on about all grades of offerings.

HOGS.

Local Trade Active With Prices Steady to Shade Easier.

With a normal Saturday run of hogs the trade ruled active to the extent of supply, but prices were a little easier compared with the market basis yesterday.

The general demand calls for much lighter supplies next week, and unless there is a very material reduction the first half of next week, the country can logically expect another severe drubbing.

SHEEP.

For the Week Values Decline on Both Sheep and Lambs.

Seven cars of good Colorado Mexican lambs were on sale today, an unusual occurrence for Saturday.

The lamb market for the week is closing firm at the declines noted yesterday of 10c to 15c for woolled lambs, and 15c to 20c for clipped grades.

WORLD'S BREADSTUFFS.

Coleman's Rural World: With present crop prospects it seems reasonable to expect the United States to contribute largely to the world's supply of breadstuffs in 1905-6.

TO MUCH RAIN IN OKLAHOMA.

Charles F. Barrett, of the Shawnee Herald, has this complaint: "This section of Oklahoma is suffering from too much rain, and as a matter of fact immense injury has already been done to growing crops and more damage is imminent from the weeds that are now getting far ahead of the crops."

FREAKS OF THE STORM.

The Marquette, Kansas, tornado surprised one woman in more ways than one. After the blow she found herself in an adjacent field with her husband's arm around her.

CALAMITY NOTE FROM KANSAS.

Commenting on the fact that as soon as Kansas discovered she can produce things the bottom drops out of prices, like oil, for instance, the Lawrence Gazette says: "As a discoverer, Kansas is a hoodoo."

WOOL PRICES SOARING.

REPORTS CONFLICT.

Rojevstevsky May Have Divided Fleet But Report Is Denied.

CHINA WOULD PRESERVE NEUTRALITY

President Roosevelt Said to Have Commended China—St. Petersburg Does Not Credit Report of a Divided Fleet.

Shanghai, May 27.—There are indications that Rear Admiral Rojevstevsky has divided his fleet. Seventeen vessels of the Baltic fleet anchored at Saddle Islands Thursday night. It is believed that they sailed there, and that from that point they will proceed north.

Confirmed by the Lloyds.

London, May 27.—A despatch to Lloyds from Shanghai on Friday's date says it is reported there and generally believed that several Russian war vessels have arrived off the Saddle Islands, a group of 25 small islands situated about 60 miles south-east of Shanghai. The dispatch adds that three vessels of the Russian volunteer fleet, the Vladimir, Voronez and Yaroslav and three colliers, the Livonia, Meteor and Aurora, are anchored off Shanghai.

Chefoo-Shanghai Cable Cut.

London, May 27.—The Great Northern Telegraph company reports that the Chefoo-Shanghai cable is interrupted. The interruption of the Chefoo-Shanghai cable does not necessarily mean that the line has been tampered with by either of the belligerents, nor would the cutting of it interrupt communication between Chefoo and Shanghai since a German cable runs from Chefoo to Tsingtau and from Tsingtau direct to Shanghai.

A St. Petersburg View.

St. Petersburg, May 27.—While a flying raid of one or two commerce destroyers in the eastern sea is admitted as a possibility by the naval authorities here, these authorities are loath to believe that any division of Rojevstevsky's squadrons in an important sense has taken place, as reported from Shanghai. They prefer to assume that unspecified Russian ships reported to be outside Shanghai, like the six which entered the port of Woosung, are units of the transport fleet without special fighting value and that perhaps they have been sent thither to confuse the scent for Togo.

A prominent naval strategist said to the Associated Press: "I don't know where Admiral Rojevstevsky is at present, but wherever he is you may be sure that he has his entire fighting force well bunched and is not weakening his main squadrons in the face of the enemy. While it is possible, of course, that he may have chosen to double sharply to the westward north of Formosa and to seek Togo in the eastern sea with the purpose of forcing him to accept battle, I am inclined to believe that he is pursuing a course northward outside Japan.

The ships, the arrival of which near Shanghai, has been reported are not even classed as so-called converted cruisers, but vessels which, flying the commercial flag, were usable for transport purposes when passing Singapore, and the mystic 17 vessels reported as being outside Shanghai are probably colliers with perhaps a guard vessel or two.

"I should not be surprised, however if Rojevstevsky detached several speedy liners now converted cruisers for a raid to the northward inside the Luchu Islands in order to paralyze Japanese commerce and embarrass Togo, while the Russian fighting squadron is pursuing its main objective.

China Gets Active.

London, May 27.—The Shanghai correspondent of the Daily Express says: "All the Chinese cruisers in these waters cleared for action Friday and the Taotai went to the Russian consulate and demanded that the Russian ships leave within 24 hours." Calling from Shanghai, the correspondent of the Daily Mail says he believes the vessels of the Russian Baltic squadron off Saddle Islands have proceeded on their voyage and gives a rumor that the main Russian fleet is in the neighborhood of Puchan (province of Shantung). The correspondent says that President Roosevelt has wired the viceroys and Taotai commending their steps to preserve Chinese neutrality.

Russia Ignores China's Order.

Shanghai, May 27.—The Russian war vessels that were off the Saddle Islands left Friday night. The Chinese authorities ordered the vessels of the Russian volunteer fleet, which were anchored off Woosung, to leave within 24 hours. The Russians thus far have entirely ignored the order.

THE PRESBYTERIAN ASSEMBLY

Consumed a Day Discussing the Adoption of a Form of Worship—Much Opposition Developed.

Winona Lake, Ind., May 27.—Whether the Presbyterian general assembly should depart from the laws and traditions of the church in America and adopt a form of worship, even to the extent of saying the churches might use this form or not as they liked, was the principal question which came before the general assembly Friday.

That many speakers would take the floor both for and against the proposition was indicated when the time for the report of the special committee on forms of service arrived and the stated clerk cleared the way so that the speakers could use most of the day. The report of the committee on forms of service was read. The form of worship which the committee offered was regarded as mild in tone, and the opposition to it made its objection on the general ground that the Presbyterian church is not a denomination for rituals, printed prayers and fixed forms. Many of the commissioners objected to the Van Dyke effort for the reason that if it were approved by the general assembly it might prove in later years to be a stepping stone to some form of worship more radical and obligatory. The report of the committee on forms of service, was recommended and the question will come up before the next general assembly.

TAFT EXPLAINS RULE

Congress Failed to Lay Down Law As Guide.

MUST BUILD AS BUSINESSMEN WOULD

Not Question of Protection or Free Trade—Railroad Rate Question Is Merely as to What Legislation Is Needed.

Cincinnati, May 27.—The celebration of the 25th anniversary of the Cincinnati commercial club closed Friday with a banquet at which the speakers discussed questions of the day. The cities represented at the banquet were Boston, Chicago, St. Louis and Cincinnati. Secretary of War Taft made the principal speech of the evening.

President Voorhees of the local commercial club was toastmaster.

Secretary of War Taft spoke on "Policy and Practice," saying: "If the Panama canal were inside the territory of the United States of course all materials used on the canal could pay duty or be brought in the United States, but as the construction of the canal is a number of days' journey from the tariff wall of the United States it presents exactly the same case as is presented in the case of the Philippine Islands. Now if congress wants to pay more than France was willing to pay then they are welcome to do so, but in the absence of a rule we feel we must carry out the rule that applies. That law requires that prices and quality being the same we must buy American goods. In the absence of a rule we feel bound by our trust to build as cheaply as possible. We submitted the question to congress on this line asking congress to lay down a rule. If there is no rule we must build as a business man would build. Now there is no question of protection or free trade it is merely our duty under the law as it stands. If the rule or law is changed therefore we must change.

He spoke of the work of the commissioners on the canal and praised highly the men who have been put at the head of the work. He then spoke of the relation of the government to the railroads. "I can not but think," he said, "the discussion which is now going on has had a much wider scope than is necessary. The question is the passage of certain legislation and the discussion is properly narrowed by consideration of what that legislation is."

He explained the present statute on the interstate commission calling attention to its references to unreasonable rates, and the position of the interstate commission on the matter. He insisted that the measure proposed was a very moderate measure and that it was unfair to denounce it so severely as had been done. He believed the changes proposed by the Esch-Townsend bill would result in good.

President Lucius Tuttle, of the Boston and Maine railway, spoke of "the Relation of the National Government to the Railways."

He said in part: "In attempting to speak from the railroads' side of this controversy it may be said: As to irregular practices on the present railroads and their customers in the matter of special favors, private car contracts, secret tariffs, rebates, etc., doubtless there were in the past too many instances. They were largely matters of usage growing out of, and inseparable from, the marvelous commercial activity and expansion of the latter half of the last century, and were a natural outcome of the competition that followed the rapid construction and extension of new lines of railroad and they have had their exact counterpart in every branch of commercial and business life. But from careful and extended inquiry I believe that whatever of these abuses there were have been so disposed of through the natural workings of economic conditions, that their volume is no longer great enough to make them an important factor, but if they are, the so-called Elkins amendment of the interstate commerce law, passed in 1903 provides an adequate remedy; and there seems to be reasonable ground for the prevalent belief that the interstate commerce commission has, for reasons best known to itself, failed to use the added power it has for two years possessed under the law to suppress these irregularities, but has been willing to befoke the problem by confining the separate and distinct rate-making power with that of prescribing maximum rates."

Charged with Paying Rebates. Topeka, Kan., May 27.—Cases against the Santa Fe and Rock Island, charging rate discrimination in grain, were argued before Judge Pollock in the federal court. It is alleged by Wichita parties that the Santa Fe formed a combine with the Richardson Grain company and paid them rebates. The charge against the Rock Island is similar.

ROTHSCHILD IS DEAD

Head of the Noted Family Expired in Paris.

WAS GOVERNOR OF BANK OF FRANCE.

Carried on Financial Relations with Nearly All Principal Governments—Successfully Managed Many Notable Transactions.

Paris, May 27.—Baron Alphonse de Rothschild, head of the French branch of the banking house bearing the name of Rothschild and governor of the Bank of France, died at 4:20 Friday morning from acute bronchitis aggravated by gout. The eminent financier had been sinking slowly for many days but there was no apprehension that his death was imminent. He first took to his bed two weeks ago. Several rallies gave promise of his recovery. Two days ago the baron began to fall rapidly and his condition assumed a disquieting form. Although he kept up an animated conversation with members of his family and the old servants, the patient became weak and last night entered on a comatose state and passed away Friday morning peacefully passed away, surrounded by his family. The announcement of the baron's death caused widespread regret for besides his position in the financial world Baron Alphonse was known for his lavish charities, one of the latest being the gift of \$20,000 for the erection of workmen's homes.
