### CATTLE.

Unseasonable Marketing Cause of General Slump in Values.

Local receipts this week totaled 8,500, as compared with 7,011 the preceding week, 7,707 a month ago and 9,973 for the corresponding week a year ago, and the receipts at the five leading points aggregated 145,000, which indicates an unseasonable movement, inasmuch as receipts at the five points the preceding week were 125,400, a month ago 118,400, a year ago 128,800, two years ago 98,000 and three years ago 112,900.

This enlarged marketing was the direct cause of the sharp break in values at all points, and the fact that supplies were not equally distributed throughout the different days of the week, indirectly assisted buyers in forcing values to a low level. This has revived the effort to establish a five day market in Chicago, and if the country could only realize its importance to them, they would, no doubt, heartily co-operate in the reform movement.

While the local trade shows a general decline for the week, the decline here was not as severe as at competitive points, and the closing days noted a much better tone for the better styles of dressed beef and export beef.

As general conditions are not favorable to the country, a larger movement to outside markets would be advisable, and the principle of establishing five day markets could be applied to these points as well as Chicago.

Although local receipts showed some increase over the preceding week, the demand sufficient to have absorbed a great many more than were available.

### COWS, BULLS AND MIXED.

Shippers of butchers' stock to this market during the week, who sold good to choice heavy dry-lot cows about steady, medium dry-lot cows 10c to 15c lower, and grassers 15c to 20c, and in some instances 30c to 50c lower, were lucky as compared with shippers who took the long haul to Chicago, as the papers at that point designate the trade as "open" and show a decline of 40c to 50c and in some instances 75c, as compared with a week ago, and while good Bologna, butcher and export bulls have declined 10c to 15c, with common to fair Bologna and butchers' 15c to 20c lower, the Chicago buyers "wallowed" in the market there to the extent of 60c, and in some instances 80c, as compared with the preceding week. The local market also had the merit of a good demand for all offerings and a much larger volume of business

would have been transacted had supplies been at hand. Veals are off 50c to 75c for the week and the demand is good at the lower range of prices.

### VEAL CALVES.

### STOCKERS AND FEEDERS.

There was a better clearance of stock and feeding cattle this week than for many weeks past, and in view of the better tone to the trade regular dealers are anticipating liberal supplies for next week. The trade in stockers and feeders this week was more settled than for many weeks back, as the country demand was more than sufficient to absorb the holdings of regular dealers, who in turn, were free buyers of everything out of first hands. They could probably have doubled the number at a little sacrifice in price, but as it was there was a good healthy trade at last week's figures. The call is more for the good to choice yearlings and calves and well-bred two's than for feeders, although some inquiry was noted for medium weight feeders of quality. The market on country cows and stock heifers is 10c to 15c lower for the week and rather dull, and stock bulls show little if any change.

### QUARANTINE DIVISION.

Fresh arrivals today were largely in the southern division and consisted of ten loads, eight of fair quality southern Texas steers and two loads of Indian Territories, which included a few cows. The market was active and about steady with yesterday, 897 to 945 pound Texas offerings selling at \$3.30 to \$3.24 and 1,013 pound Indian Territories at \$3.35. Supplies of Texas this week have hardly been sufficient to afford comparisons with the preceding week, while the Indian Territories were about the same class of steers as brought \$3.80 here the first of the week. The demand for this class of stock is strong and the prices being paid should attract an increased number next week.

### HOGS.

#### Active Closing Market for the Week. Prices Shade Higher.

Final market day of the week saw a good active trade in the hog house with prices ruling a point higher than on the previous day and, with the exception of Tuesday, as high as any time of the week with supplies being bought up quickly at the prices, which were generally considered strong to 2 1/2c higher than Friday with extreme top showing 5c over the outside figure of yesterday.

The very large volume of receipts considered, the market has been exceptionally good and seems to indicate that buying and slaughtering interests are satisfied with prices. On the local market the receipts foot up the largest since the week ending January 21st, although for the week of February 11, the total was close to this week's figures. At the five leading markets the total of 387,000 is larger than for any corresponding week in June in the last four years.

Extreme narrow spread in the range of prices has been a marked feature all week, quality running uniform and good and the smooth light bacon and butcher weights selling right up to the well-lashed mediums and heavies.

Very few pigs or underweight-lights have been coming, a smooth quality is worth about \$4.50 to \$5.00. Stags sell mostly at \$4.25.

### SHEEP.

#### The Demand Active All Week and the Close Firm.

Receipts on the local market were light this week, only 16,455 head arriving, and of this number between four and five thousand were direct from the Arizona range to a local packer.

Arrivals were pretty evenly divided between sheep and lamb grades. Woolled lambs from Colorado constituted the receipts for that class, and were of only fair to good quality, generally clipped lambs were in small supply, and the quality ruled only fair for the most part. Quite a few spring lambs were on sale.

Monday the lamb market ruled weak and 10c to 15c lower, but since that day a better feeling in trade has developed and the close is firm at prices quotable at the close of last week, for both woolled and shorn grades. Spring lambs have not met a very active demand, and prices are unevenly lower, best here this week going at \$7.00.

Sheep grades have met a good demand at all times this week, and prices now ruling are about 15c higher than a week ago. Texas grassers were the principal holdings and were in good flesh. Top sold at \$4.70. Native sheep, ewes and wethers, were more popular with buyers than last week. Yearlings made \$5.25 and wethers \$4.85 for top. Ewes, went at \$4.00 to \$4.25 with the top \$4.40.

Quotations for good to choice clipped stock: Lambs \$8.00 to \$8.15; yearling wethers \$5.25 to \$5.50; Heavy wethers \$4.85 to \$4.85; ewes \$4.25 to \$4.50.

Quotations for good to choice woolled stock: Lambs \$7.00 to \$7.15; spring lambs \$6.75 to \$7.25; yearling wethers \$6.25 to \$6.50. Good Texas and Arizona grass sheep \$4.50 to \$4.75.

Traders state that the feed lot stock is almost gone, and that the supply from now on will consist principally of grass stock.

### EAST ST. LOUIS.

EAST ST. LOUIS, National Stock Yards, Ill., June 10.—Special: The National Live Stock Reporter reports: Cattle—Receipts, 400. Market steady. Hogs—Receipts, 10,000. Market shade higher; top \$5.42 1/2, bulk \$5.32 to \$5.37 1/2. Sheep—Receipts, 2,000. Market steady.

## RANGE STOCK SHOW

Being Arranged For Next Meeting of National Live Stock Association.

### TO SHOW WESTERN WONDERS

Attractive Premiums Hung up to Encourage Improvement in Range Breeding.

Denver, Colo., June 10.—J. H. Gwinn, secretary of the National Live Stock association, has started the movement for holding a range bred stock show in Denver at the time of the next meeting of the association.

At the last meeting held in Denver a great many of the stockmen spoke of and were in favor of such a plan, since which time there have been numerous inquiries from all over the stock growing states asking if such a plan was to be carried out, and in consultation with a number of leading spirits it has been decided to hold the show, and the preliminaries will be outlined as soon as possible.

It is the desire to make the premium list as attractive as possible. One of the objects of the show will be to see the results of range bred stock. Along these lines for the last ten years range men have spent thousands of dollars in the introduction of new blood into their herds and flocks, and everyone is anxious to see what has been accomplished.

In this respect the exhibit will be different from pure bred stock shows and

it should attract the attention of every stock grower and receive the support of all. Observation and the study of each grower's results will give to the stockmen knowledge that years of experience would be required to find out. All branches of the industry will take part in this exhibit.

### ITEMS IN BRIEF.

Sheep market closed firm at a 15c advance.

Lamb prices about steady with one week ago.

Wm. Martin, of Gower, Mo., contributed one load of hogs to the market today.

S. L. Thompson, extensive shipper of Grayson, Mo., was in today with two loads of hogs.

There has been a noticeable increase in quarantine cattle receipts on the local market this week.

Fed lambs and sheep are almost all marketed, and will not cut much figure in prices from now on.

Warm, sunny weather this week has been generally beneficial to growing corn in many parts of the country.

J. E. Hickey, regular patron to this market, had in two loads of hogs on today's market billed from Plattburg, Mo.

Among the prominent shippers of northern Kansas on the market today was R. A. Gordon of Hanover, who consigned one load of hogs.

Iowa was represented on the hog market today by the well known shippers, L. C. Shay, of Maloy; A. McCandlish & Sons, J. F. Hundley, B. L. Thrift, of Lorimer; Stitt & Co., of Coln, each marketing several loads.

Bob McDaniel's Cafe, 504 Edmond st. New tel. 588. Game, fish, oysters.

## FIGURES THAT TALK.

In all the many pages of the Gardfield report on the beef industry, through all that maze of tabulated prices etc., there are none that appeal more forcibly, or more directly to the producers of cattle in Missouri, Iowa, Kansas, Nebraska and all the west and southwest than does the table of comparative prices found on page 128 of that report. It has been a constant claim of the Journal based on close study and comparison of prices for live stock on the hoof, that the South St. Joseph market not only offers the best facilities for handling stock, but that taking this market from day to day the through, the producer and feeder gets better returns by marketing his stock here.

Whatever may be said by sensation hunters, the Gardfield report on average cost of cattle at the several markets is unbiased, tallies well with newspaper reports of sales from day to day and the following table, taken from that report offers the strongest possible argument in support to claims of superiority for this market. It should be kept handy for reference when making shipments:

MAY BE NO KING.

If No Royal Prince Accepts the Norwegian Throne.

A REPUBLIC WILL BE ESTABLISHED.

Russia and Germany May Refuse to Recognize Norway Until King Oscar Consents to Dis-entailment.

Christiania, June 10.—The Norwegian tri-color was hoisted Friday over Akershus fort and throughout the country in place of the union flag.

As the clock in the tower of the fort chimed ten the union flag which had floated there since 1814 was hauled down, the troops presented arms, the band played the patriotic air "Sons of Norway."

First one and then another took up the words of the song until the whole crowd joined after which round after round of cheering again greeted the flag.

The government of Norway and the storting continue to receive from all parts of the country expressions of gratitude for their action and the communal authorities are voting addresses approving of the new regime.

All hope that King Oscar or Crown Prince Gustave will yield to the request of the Norwegian storting to leave a prince of the house of Bernadotte on the throne of Norway has now disappeared.

It is understood that arrangements are actually being made for a national convention in Norway, and this, it is believed, will inevitably result in the declaration of a republic.

According to well-informed persons here Russia and Germany will refuse to recognize the Norwegian government until King Oscar consents to the disruption of the union.

HER LAST HOPE GONE.

Judge Peckham, of the United States Supreme Court Denies the Vermont Woman a Writ of Error.

Albany, N. Y., June 10.—Judge Rufus W. Peckham, of the United States supreme court, Friday declined to grant a writ of error which would allow the case of Mrs. Mary Rogers of Vermont, now under sentence for the murder of her husband, to go to the United States court.

Montpelier, Vt., June 10.—The decision of Judge Peckham, of the supreme court, in the Mary Rogers murder case is taken here as meaning that the last hope of saving the woman's life has been exhausted.

WHITE ON REFORM.

William Allen White Entertains the National Editorial Association.

Guthrie, Ok., June 10.—William Allen White, of Emporia, Kan., discussed briefly and humorously "Newspapers and Reform" before the National Editors' association Friday.

This is a day of reform. Everybody is engaged in reforming someone else. The preachers are reforming the newspapers, the newspapers are reforming the politicians, the politicians are reforming the railroads, the railroads are reforming the tariff magnates, the tariff magnates are reforming the Standard Oil and Standard Oil is reforming the preachers.

good deal of top of column next to reading matter space out of it that they would hardly get if they devoted themselves to the perseverance of the saints and higher criticism.

"It does not cost the politicians anything to reform the railroads—not that any one knows of. The politicians keep right on riding on transportation from the law department of the railroads, while whooping it up for railroad reform, and it does not cost the railroad presidents anything to be for tariff reform, and what's more, it does not seem to hurt the tariff. If the railroad magnates were as serious about tariff reform as they are to see the trusts get their rebates, there would be some tariff reforms. And the beneficiaries of the tariff are not losing much by reforming the Standard Oil.

"Anyone can reform Standard Oil. It is the punching bar in the national reformatory that we all try our muscle on. Standard Oil and its associates form a whole carnival of pleasure—bore round of joy for the reformers. In one booth are the Rockefeller and Henry Rogers and their friends, and it costs nothing to throw at the babies, and every time you hit a baby in the Standard Oil booth you get a fine cigar, two babies, two cigars, and three babies, you get a subscription to Everybody's Magazine."

MORTON IS CHAIRMAN

Secretary of the Navy Will Direct Equitable Affairs.

HYDE AND ALEXANDER BOTH RESIGN

Mutualization of the Society is Now Assured in Accordance with the Wishes of Insurance Commissioner.

New York, June 10.—Paul Morton, who retires from the secretaryship of the navy on July 1, was Friday elected chairman of the Equitable Life Assurance Society. His election marks the first and most important step in the reorganization of the society and was followed by the resignation of President James W. Alexander, Vice President James H. Hyde, Second Vice President J. G. Tarbell, Third Vice President George T. Wilson, and Fourth Vice President William H. McIntyre.

It is known that Clayton Ives and Charles Stewart Smith, who were from the outset of the controversy on the side of the conservative element, protested against some of the proceedings of the meeting and are believed to have voted against Mr. Morton's election.

The new chairman, to further quote Senator Depey, did not consent to take office until he had received positive assurance that he would have a "free hand as to measures and men."

Mr. Hyde "divested" himself of the majority control, but, as made clear in his letter to the board, retains a substantial interest in the society.

All of the negotiations submitted to the meeting are subject to the pleasure of Chairman Morton, and none has yet been accepted. Just what action Mr. Morton will take as to these resignations was not disclosed, but it was strongly intimated that President Alexander and Vice Presidents Tarbell,

Wilson and McIntyre retired with the belief that their executive relations with the Equitable had ended.

The interests to which Hyde disposed of his stock number some forty individuals, led by Thomas F. Ryan, vice president of the Morton Trust company, which has close relations with the Mutual Life Insurance company, one of the Equitable society's principal rivals. Mr. Ryan is said to be heavily insured in the Equitable, as are, according to report, many of the others who acted with him in the purchase of the Hyde holdings. The price paid for the Hyde estate stock, which is to be trusted practically in perpetuity, was not disclosed, but estimates vary from \$3,500,000 to \$5,000,000.

In addition to the 502 shares held by the Hyde estate, which include the widow of Henry B. Hyde, founder of the society, and his daughter, Vice President Hyde is said to hold between 160 and 170 shares, and it is these holdings which Mr. Undermyer refers to as the "substantial interests" which his client retains. Mr. Undermyer makes this statement relative to the Hyde interests in a statement noted below. He has since the beginning of the Equitable controversy acted as Mr. Hyde's counsel.

The men requested to hold the majority stock by Mr. Ryan are former President Grover Cleveland, George Westinghouse, of Pittsburgh, and Morgan J. O'Brien, recently elevated to the chief justiceship of the appellate division of the supreme court of this district.

Mr. Ryan is the acknowledged head of the Metropolitan Traction companies and only a fortnight ago induced Mr. Morton to ally himself with this interest as the operating chief of the New York City Railway company, by which title the Metropolitan surface lines and their affiliated companies in Manhattan and the Bronx are corporately known.

Concerning the purchase of the Equitable stock and the disposition of it Thomas F. Ryan said:

"In connection with some other policy holders who, like myself, have never had any relations with the Equitable except as policy holders, I have purchased from Mr. Hyde a majority of the stock of the society. We have made this purchase for the purpose of putting an end to the present unfortunate condition of the company's affairs, not only in the interest of the policy holders, but for the general business interests of the entire country. We purpose, upon receiving the stock, to immediately divest ourselves of all voting power and accomplish in substance and effect the plan of mutualization already approved by the superintendent of insurance. We propose to do this by conveying the stock to a board of trustees composed of men of such character as to command universal confidence and having no connection with Wall street, with power to vote the stock for the election of directors—as to 23 directors in accordance with the instructions of the policy holders of the society, and as to the remaining 24 directors in accordance with the uncontrolled judgment of the trustees."

Mr. Morton's election is believed to mean the solution of the controversy, which began between the Hyde and Alexander forces, and the establishment of the reforms demanded.
