CATTLE.

Usual Friday Dullness Prevailed in All Departments of Trade. The usual Friday dullness prevailed, there not being enough showing of stock cattle to create any competition. The few light and medium kinds of common to fair quality on sale met only a nominal demand and bids were generally weak to lower and it was late before a clearance was effected.

Owing to the glut in Chicago last Monday, the week's trade has been a disastrous one to the country, as even the moderate marketing later in the week failed to relieve the situation. Following the declines at other points, the trade here indicated a decline of 20¢ to 25¢, and in extreme cases 30¢ to 35¢ on good to choice heavy dressed beef steers, as compared with the close of last week. These kinds suffered more than the good medium grades of export and dressed beef steers, which are generally 15¢ lower, with extreme sales 20¢ to 25¢ lower than a week ago, and this also about measures the decline on the good light butcher and dressed beef styles. Common to fair light and medium weight grassy steers have been mean sellers, and it would take 25¢ to 30¢ to measure the decline on the kinds that did not meet very strong competition. A little better feeling developed Wednesday and Thursday on some fair to good medium grades, yet at the same time some of the lowest sales of the week were recorded on these days.

The great depreciation in values has forced values below a profitable basis for feeders, and the logical effect will be increased marketing to stop the feeding of high priced corn and should this prove to be the case the country should see to it that supplies are reduced in Chicago, especially on Monday and Tuesday, and increased at all outside points, as this procedure will tend to help the general situation.

DRESSED BEEF AND SHIPPING STEERS. No. 1, 114¢; No. 2, 110¢; No. 3, 106¢. Cows, Bulls and Mixed. There was moderate offerings of cows and heifers today and trading was very quiet and about steady with yesterday. A general summary for the week shows that good to choice fat heavy dry lot cows are only steady to a shade lower than last week, while best grassers and fair to good medium weight dry lot cows and heifers are only off 10¢ to 15¢, while common to fair grassers and canners are 15¢ to 25¢ lower, and in some cases more. Good to choice bulls are 10¢ to 15¢ lower,

while common to fair bologna and butcher varieties are 15¢ to 25¢ lower. Veals have met a very good demand throughout the week and as supplies were not sufficient to meet the wants of packers prices show an advance of 2¢ to 3¢ for the week, common to choice now being quotable at \$2.75 to \$3.00.

STOCKERS AND FEEDERS. There was practically nothing doing in the stocker and feeder trade today as there were no fresh offerings. This branch of the trade has not suffered to any extent from the unfavorable conditions prevailing in other lines. There has been a steady consistent demand for all offerings and prices have held right around steady with a week ago, the exception, probably being a slightly lower range for the heavy fleshy leaders of quality. Country demand has been of fair volume and very few are being carried over in regular dealers' hands. The principal inquiry was for good qualified yearlings and calves and high grade 1½ and 2, and a great many more than were on sale could have been sold to advantage had they been available. This country cows and stock heifers were of rather dull sale and prices are 10¢ to 15¢ lower than a week ago, and stock bulls indicate about the same decline.

QUARANTINE DIVISION. The supply of cattle on the southern side this week has been very limited, much to the disappointment of packers who especially want this class of stock. As a result of the moderate marketing in this division competition was very keen for both steers and butchers' stock and prices are 15¢ lower than at the close of last week.

HOGS. Bulk Sold Higher But Finish Was Lower Than Opening. As a whole the hog trade was not as satisfactory as yesterday although prices at which the bulk of the crop was moved were higher than on the previous day. Local receipts were around 2,000 larger than on the corresponding day last week but five leading markets totaled out a showing about the same as last Friday. Outside markets were reported as opening strong and higher and the local trade was not long in getting a start at prices strong to 5¢ higher and on a basis of this advance a large share of the receipts was quickly moved out of first hands. But second reports from outside markets indicated weaker turn and late arrivals on the local yards could not be moved at the early price basis, sales after 11 o'clock being not better than steady to strong on the Thursday level and a point under best prices of the morning. Quality was quite good but range in prices shows a slight widening out due to the market losing most of its early strength, common heavy mixed packlots were quotable around \$5.17 to \$5.20 with strictly good heavy around \$5.25 while prime light and medium butchers went at \$5.27 to \$5.32. Not enough pigs coming to establish quotations. Stags are selling at \$4.00 to \$4.25. Clearance slow.

Prices ranged from \$5.22 to \$5.32, with the bulk selling at \$5.25 to \$5.30. Bulk yesterday sold at \$5.30 to \$5.37, a week ago at \$5.30 to \$5.37, a month ago at \$5.25 to \$5.30, a year ago at \$5.12 to \$5.22, two years ago at \$5.05 to \$5.15, three

years ago at \$7.55 to \$7.75, and four years ago at \$6.00 to \$6.10.

The average cost was \$5.27, as compared with \$5.23; yesterday, \$5.30; a week ago, \$5.28; a month ago, \$5.17; a year ago, \$5.70; two years ago, \$7.65; three years ago and \$6.01 on the same day four years ago.

SHEEP.

Nothing Offered For Sale. Demand Good. Market Closing Strong. There is a good demand prevailing for all classes of sheep and lambs, but the supply arriving is not sufficient to fill buying orders, and packers, the past week, have been forced to purchase on other markets and ship here to fill orders. The only arrivals at the yards today was a double deck, direct to packer from a competitive market, so consequently a market was not established. Values for the week are closing firm, with the demand urgent for all desirable fat stock.

The aggregate receipts at the five principal points totaled around 15,300 head, with prices unchanged all around. 187 west lambs, feeders..... 60..... 4 10

STANDARD TO QUIT

Big Nebraska Cattle Company to Go Out of Business at Early Date.

INVOLVED IN FENCE CASES

In Which United States Court Recently Held That Land Was Illegally Used By Cattlemen.

Omaha, Neb., June 23.—The Standard Cattle company, one of the largest land and cattle owners in Nebraska, is about to quit business.

R. M. Allen, one of the officers and the main promoter of the company, which is backed by Boston financiers, was indicted by the last federal grand jury on the charge of illegally fencing 500,000 acres of government land in Sheridan county. It is believed by some federal court officials that the indictment against Allen had much to do with the action of the company suspending business.

For some time the company has been busily engaged in disposing of its huge herd of cattle. The case against the company was not pushed to trial for the reason that it was understood that the fences would be taken down.

R. M. Allen states that the reason for the action of the company was that it was not making any money and the Boston backers thought it best to quit.

HESSIAN FLY AT WORK.

Investigation Shows Much Damage in Parts of Nebraska. Kearney, Neb., June 23.—The report having been circulated for some time past that the Hessian fly, the most dreaded and destructive of the wheat pests, had crossed the Platte river and invaded the wheat fields of Buffalo county, the Hub has been busy for the last week making an exhaustive investigation.

The result of these investigations is the establishment of the fact that there is some fly in the county, but not sufficient to do a great deal of damage this year. If the pest is not exterminated however, and climatic conditions are as favorable for its propagation this year as last, there is no telling what the next season may develop.

The Hub has interviewed large numbers of farmers, and the invariable reply to inquiries was that there were no indications of the presence or work of the Hessian invader. In fact the greater portion of the farmers declared that their wheat was looking fine, and except where (hail had done damage a very satisfactory crop was looked for. These inquiries, however, developed another fact, and that was that very few of the farmers were at all familiar with the fly and its habits. They did not know how to detect the pest for its mischief nor how to combat it.

The state agricultural department sent out circulars on this subject last year, but as there had never been any trouble here, Buffalo county farmers paid little attention to the matter. The enemy is without doubt upon them now, and it is essential that they post themselves in order to avoid future trouble.

TROUT FOR IOWA STREAMS.

Manchester, Ia., June 23.—A shipment of 20,000 rainbow trout were sent from the Spring Branch hatchery yesterday to Waukon, this being the second shipment of trout to that place within the past few weeks. The fish are to be distributed in the streams near Waukon. A shipment of fish was recently sent from the Spring Branch hatchery to the Portland exposition for use in the fishery exhibit.

ITEMS IN BRIEF.

Wells & Wright had stock on sale today from Diller, Neb.

Oscar Tregar, of Loomis, Neb., was in today with two cars of cattle.

John Rosco, of Barnard, Mo., was on the market today with two load of hogs.

P. W. Lawson, regular shipper, was on the market with swine from Stickley, Neb.

W. R. Linville, of Skidmore, Mo., contributed a load of swine to the market today.

Martin Ducey and A. D. McGlothlin were Chester, Neb., shippers here today with stock.

J. E. Taylor increased the hog receipts today with two cars shipped from Forbes, Mo.

Geo. Cato, the well known shipper of Northboro, Ia., was in today with one load of hogs.

J. H. Townsend, of Rosendale, Mo., was on the stocker market yesterday buying cattle.

Victor Kinman, of Holdrege, Neb., was on the local market with a car each of cattle and hogs.

G. M. Newcomb and Joseph Walkington had stock on today's market shipped from Cambridge, Neb.

Pat Phelan, old time patron to this market, had in a load of hogs of his own breeding, billed from Conway, Iowa. Mr. Phelan reports a few heavy rains, which have damaged the corn considerably.

H. Ford, of Florence, Kan., was here yesterday with a car of cows and while at the yards remarked to a Journal man: "Prospects are good for a good corn crop. Wheat looks fine, and the harvest has begun. The wheat acreage this year is not as large as last, as more corn was planted in proportion."

BRIEF CITY NEWS.

The usual morning reports of visits from burglars were in circulation.

Charles Cullens, a barber on Illinois avenue, left for Memphis, Tenn., yesterday.

H. P. Barnum of Chicago is the guest of his uncle, George Mell, of East Colorado avenue.

L. W. Clark had his right middle finger badly hurt yesterday by having it struck by a baseball.

Archie Hartley of Hannibal is the guest at the home of his sister, Mrs. M. W. Smith, on King Hill avenue.

The Altar Society of the St. James Catholic church gave a very enjoyable social on the church lawn last night.

Clyde Peterson of East Colorado avenue has returned from Kansas City, where he has been visiting relatives.

Joseph Mohr has secured a position as manager of the smoked meat department at the Hammond packing plant.

An ice cream social will be given this evening in Sells' Hall in Hyde Valley by the mission of the Latter Day Saints.

R. P. Jackson, a mail carrier, was arrested at 4 o'clock yesterday afternoon on a city warrant sworn out by Frank Smith of 1510 South Seventeenth street, charging him with harboring a vicious dog.

Accused of having robbed J. F. Pfeiffer of valuables worth \$15 on South Sixth street recently, William Horne yesterday waived his preliminary hearing in Justice Walker's court. His bond was fixed at \$500 and he was taken back to jail.

Work erecting scaffolding for tearing down the old court house dome began yesterday. Contractor J. H. Sparks must begin operation July 1, and it is expected that he will have everything in readiness by that time. The new dome is to be a steel affair.

Judge Mosman of circuit court yesterday granted a pro forma degree of incorporation to the Independent association of the Independent order of Good Samaritans and Daughters of Samaria. The order, which is composed of negroes and is benevolent in character, has its headquarters in St. Joseph.

BOY BADLY SHOCKED.

Dwight Dean, the son of Mr. and Mrs. H. G. Dean, 1023 Henry street, had a bad shock on a street car yesterday. He was on his way to the Sunday school picnic given at Hyde Park, and just for fun, to see if he could get a shock, put his hand on the fuse box at the top of the car, forgetting that his other hand was on the controller, thus forming a circuit.

The strong current held him fast, and it took the combined efforts of the other boys on the platform to pull him loose. His left hand was badly burned, but no physician was called.

SOUTH END TENNIS COURTS.

Harcold and Allen took two games from Johnson and Cooper last night on the south end courts by scores of 7-5 and 6-3.

Brewster and Kora also took two from Carpenter and Irwin by scores of 6-2 and 6-2. The latter team took the second by a score of 6-4. Both games were fast and hotly contested. The grounds were fast and unusual interest is being taken in the play.

Ross and Gardner play Wyatt and starting tonight on the Missouri avenue courts. McKin and Irwin play Smith and Maxwell on the south end courts.

SAYS ROAD WILL BE BUILT.

F. S. Mordaunt, president of the proposed St. Joseph, Albany & Des Moines railroad, said yesterday that there is no question but that the proposed road will be built.

"All of the important contracts have been let," Mr. Mordaunt said, "and the only thing which is delaying progress is the fact that a few farmers between St. Joseph and Des Moines will not give rights-of-way at a reasonable figure."

Mr. Mordaunt expects to be in St. Joseph several days.

TOGO DEFEATED.

Togo's colors were trailed in the swimming, swashing waters of Lake Manawa yesterday. The local boat was defeated by a margin two minutes and twenty-two seconds.

A ROUND THE BANQUET BOARD

Fa and Frolic of Alpha Nu Pi at Mete. pole Last Night.

There was a climax in the halls of the Hotel Metropole last night. There were no dire results from this climax and the only devastation wrought was upon the viands and things that were stacked up on the banquet board. The occasion was the annual banquet of the Alpha Nu Pi debating society of the high school. Several colleges were represented in the banquet hall by young men who are graduates of the local high school.

After the elaborate menu had been sufficiently discussed, ex tempore addresses were made by a number of the young men, who did not know upon what subject they were to speak until a card was handed them as they came to the table.

P. C. K. Bartlett, just returned from Yale, spoke upon "A Yale Freshman," relating many of the humorous episodes in the life of the college "freshie," and describing the class scraps at the institution.

Ulysses S. Weary, a junior at Michigan university, spoke upon "Clothes," to the accompaniment of much laughter.

"Men" was the subject, well treated, of Alfred C. Priebe, who has completed his first year at the state university. Bartlett Boder had "Our History." He told of the records made by the society in the ten years of its existence, of the good it has done the members and of the men it has put forth.

DALLIED WITH BOOZE.

And Got In Trouble. Expert Engineer Run In For Vagrancy.

Confined at Central police station is P. H. Manion, expert engineer at the Davenport Locomotive works, who holds a responsible position, charged with vagrancy, for asking for 10 cents with which to buy liquor.

Manion brought a new engine to St. Joseph a week ago for the Terminal company. It was his duty to give the engine a test trial and to put it into working order after its run from Davenport. This he partly neglected to do, it is said.

He was arrested at the Union depot at 5:05 o'clock last evening by Patrolmen Watson and Clayborne because he had begged 10 cents for a drink.

"Vagrancy," the engineer muttered to himself in his cell last night. "I've worked pretty hard. I am now forty-five years of age and only an engineer knows the hard knocks it took to get to my position.

"So help me God, I'll never touch another drop of whiskey as long as I live.

The engine will be accepted by the local terminal company. It is customary for the engineer, who is a messenger for the company, to get a receipt for the new engine when it is accepted. This Manion has failed to do.

A new engine in Davenport was waiting his return a few days ago, to be taken by him to the northwest.

WANT LOCATABLE ENTITY.

Sentiment of "Prominent Citizen" Don't Reach Municipal Mogus.

"Prominent citizen," whoever that may be has begun to agitate and "root" for better sidewalks in the southern part of the city, notably in that populous and growing part of the south and known as South St. Joseph. If there is any portion of the corporate bailiwick of Mayor Spratt where life, liberty and pursuit of the seductive but elusive porkchop call eloquently and sometimes sulphurously for better sidewalks, it is in South St. Joseph. But, it has been demonstrated in times gone by that "prominent citizen," in print, has mighty little effect with such things as mayors, councils, police forces and such other components as go to make up the official machinery of a municipal corporation.

The published interview with a "Prominent Citizen" don't reach the vitals of official beings. A real, tangible, locatable entity is what is needed to give force to sentiment expressed through the medium of a newspaper interview.

The sidewalks in South St. Joseph are bad, infernally bad, but they will get worse before the wisdom and sentiment of "Prominent Citizen" will ever reach the municipal machinery that collects and disburses taxes.

MOTION OVERRULED.

Troutrman Refused a New Trial. Will Appeal Case.

Judge A. D. Burnes yesterday overruled the motion of the attorneys for James Troutman, convicted of highway robbery, for a new trial, and gave the prisoner the formal sentence of five years in the penitentiary. A motion in arrest, stating that the information against Troutman did not bear the words "upon his oath" over the signature of the prosecuting attorney, was overruled also, as the court held that this point was good only in murder cases. The point recently caused the sustaining of the motion in arrest of the counsel for Cassius W. Brown.

Troutrman, who was convicted of complicity in the robbery of Emmet Johnson, a horse trader, last fall, then filed an affidavit in appeal, which was allowed.

It was ordered by Judge Burnes that attachments be issued for three witnesses in the case of Robert Kearny, charged with the same offense as Troutman, who failed to appear Wednesday. The men, who, it is said, can prove an alibi for Kearny, are E. C. Meyer, B. L. Lanier and W. D. Foley, understood to be bill posters, now on the road. The attachments are returnable August 21, when the case against the alleged robber will be called.

BASE BALL NOTES.

Omaha and St. Joseph played good ball on the local grounds yesterday afternoon. Score at the finish, 1 to 0 in favor of Omaha.

There is gossip in the wind that the Jobberwicks are to be turned loose to hunt some other grazing ground. The kind of ball they have been playing has ceased to draw and, for this reason, it is reported that a ball team is for sale at bargain rates.

The Journal boys went up to League park last night and handed the Brewers a bunch of defeat. The boys of The Journal are gradually swalling up and reaching out for more pretentious game. Score, Journals 4, Brewers 2.

Western league scores yesterday, Omaha 1, St. Joseph 0; Des Moines 5, Colorado Springs 2; Denver 12, Sioux City 1.

AMUSEMENTS.

Robert Burgess arrived in St. Joseph last night with the announcement that the Woodward Stock company, which played a ten weeks' engagement at the Orpheum early in the year, would return to that house next Sunday and remain until the expiration of the Woodward-Burgess lease, which will be August 1.

Announcement has been made that the company would return to St. Joseph on July 1, but the closing of the Auditorium theatre at Kansas City for repairs occasioned its being sent here a week earlier.

The theatre is to be opened, cleaned and cooled today.

"The Banker's Daughter" will be the first bill presented.

TO HAVE QUARTERS HERE.

The Chariton and Grant City branches of the Chicago, Burlington & Quincy will be under the jurisdiction of St. Joseph officials of the Burlington after July 1.

This change will benefit St. Joseph inasmuch as the office force of Superintendent Perkins and Chief Dispatcher Foy will be increased and more railroad men will make St. Joseph their headquarters.

OUTING A BIG SUCCESS.

Probably the largest crowd seen at the Lake Contrary grounds this season was that of yesterday and last night when the Retail Grocers, Butchers and Bakers association held their annual outing. Early in the day, extra street car service was called out to accommodate the crowd of picnickers and three-car trains running a few minutes apart were crowded until a late hour. Estimates place the number of people visiting the grounds during the day and evening at not less than 10,000. And the whole crowd was as happy as a boy at a June picnic.

PEOPLE BORN ANEW

Men and Women Made Over by the Transfusion of Vital Magnetism as Possessed by the Boy Phenomenon.

The Wonderful Cure of Mrs. J. Woods Is Almost Past Belief—The Last Two Years a Large Goitre on the Neck Was Slowly but Surely Choking Her to Death, Being Unable to Eat, Drink, Swallow, Sleep or Talk.

Can Now Eat, Drink, and Swallow, Sleeps Like a Babe, Has Gained 7 Pounds, Regained the Use of Her Paralyzed Limbs and Feels Like a Young Woman Again.

Never before in the history of St. Joseph has there been such favorable comment and universal praise as have been accorded the Boy Phenomenon since his advent here. The past four weeks he has accomplished the most remarkably astonishing cures of some of our oldest and best known citizens, who had been pronounced incurable by every other means.

There has been a continual ovation to this young magnetist, who has accomplished such phenomenal results and made the sick well, lame walk, blind see, deaf hear, voiceless speak, always nervousness, restores paralyzed limbs to permanent life and activity again.

Vital Magnetism is the greatest curative agent the world has ever known. It is so simple, yet so scientific in its application, inducing great floods of magnetism into the system so silently and mildly that there is no disturbance of the organization; daily increasing the amount of vitality in the system and creating an affinity for more, so that the weak, shattered, overwrought nerves absorb more and more of it, thereby increasing and equalizing the circulation, not only of the blood, but of the chyle, lymph and other juices of the body, thus invigorating, strengthening and restoring the nerve energy of the entire system, increasing the vitality, purifying the blood, destroying disease germs, inducing refreshing sleep, improving the appetite, eliminating uric acid and other poisons from the system.

Another remarkable cure of a well known St. Joseph lady is here given for the skeptics to investigate, and then think and ponder over. This case is the more remarkable, because of the startling rapidity in which the change wrought, but her happy story, as related to the reporter, is best told in her own words. She says:

"I reside at 917 South Tenth street. Nineteen years ago a goitre appeared on my neck and gradually got larger, until two years ago it became so large that I could not eat anything solid, even when I drank liquids it would strangle me and come up through my nose. I smothered and choked when lying down and have not spoken aloud in two years. Being unable to sleep, eat or drink of course reduced me to a skeleton, and the knowledge that my case was incurable and the goitre would soon choke me to death brought on nervous prostration and made me a physical and mental wreck. This condition soon developed symptoms of paralysis and my legs, arms, hands, arms and limbs jerked, became numb, dead and lifeless. I could not comb my hair or raise my arms. I was so weak, exhausted and discouraged that I did not care to live, as the constant dread and fear of being paralyzed or choked to death was all I had to look forward to.

"But since the Boy Phenomenon first treated me, I have felt as if I had been born anew. The goitre which was larger than a big baseball is hardly noticeable now; I can eat and drink anything I want, without distress. My vitality is wonderful, my nerves are under control, the numbness and paralysis have entirely disappeared. I sleep like a babe and get up rested and refreshed in the mornings. I weighed only 36 pounds when I took my first treatment four weeks ago, now I weigh 103 and am gaining every day. From a hopeless, helpless invalid four weeks ago with two incurable diseases, I am transformed to what you now see, I am the happiest and most grateful woman in this whole world. Respectfully,

MRS. J. WOODS. The office of the Boy Phenomenon is at 265 North Eighth street and his office hours are from 10 a. m. to 5 p. m., and Wednesday evenings from 7 to 8 o'clock.

HORSE MARKET

There was more than the usual stir in horse market circles this morning, the occasion being the auction sale that began at 10 o'clock.

Consignments to the sale were not as large as at the previous auction but included a very good class of stock—a liberal proportion of good big well broken drafters being specially noted. Some extra effort had been made in this line, as it was known that Mr. Coover, the Baltimore buyer for the Ice Trust, as well as some other buyers of heavy drafters would be on hand looking for their kind of horses.

Mr. Coover made his first appearance on the St. Joseph market at the big auction of May 12 and 13 and was so well pleased with results that he said at the time that St. Joseph would be on his list permanently from that time.

Conspicuous in consignments of today was the number of local horses that were brought to the barns this morning.

There were buyers enough at hand to afford good healthy competition and prices were sustained close up to the level of the last auction, where offerings were not of objectionable quality, green stock however not meeting with any favor and selling only at low prices.

The following quotations are those current and quotable for horses and mules at private sale.

THURSDAY'S BUSINESS

CATTLE.

Receipts of cattle at the five points for the first four days of the week aggregate 115,800, which is only 2,100 more than were in sight for the corresponding period last week, yet the reduced marketing of the past three days has not offset the damage done by the glut in Chicago on Monday. The number in sight today was less than on last Thursday and the selling interests naturally anticipated a strengthening of values but buyers were indifferent purchasers unless they could buy steady with yesterday, and the greater proportion of the supply sold on this basis. There was nothing choice on sale and the few offerings having weight were rather plain. On the decent grades of medium dressed beef and export steers selling from \$4.00 to \$5.00, there were spots showing strong to 10c higher while common to fair medium shorted grassy steers that were sold around \$4.20, were considered a little lower. Trading throughout was very quiet and it was late before a clearance of the small supply was effected.

DRESSED BEEF AND SHIPPING STEERS.

Table with columns for beef types (No. 1, No. 2, etc.) and their corresponding prices.

COWS, BULLS AND MIXED.

A little better feeling pervaded the trade in cows and heifers today. The supply was rather small and buyers acted more as though they had decent buying orders, and when anything suited the fancy of buyers, sellers had little difficulty in obtaining strong to 10c higher prices than yesterday. This applied to the better grades of fed cows and weighty heifers and for good fat grassers. Common to fair grassers and canners were in a little better demand than yesterday, but prices indicated no change for the better. The supply of bulls was small as compared with the number on sale yesterday and the demand was only fair at prices about steady with the decline noted yesterday. Veals were in fairly good supply, but no choice offerings were at hand, and prices ruled about steady, although the top was not as high as yesterday.

HEIFERS.

VEAL CALVES.

STOCKERS AND FEEDERS.

There was little doing in the stocker and feeder trade today, as fresh offerings were made up of a few loads of fair yearlings and odds and ends of calves and stock steers. There was some country inquiry for good light steers in addition to the strong demand prevailing from regular dealers, hence there was a fairly active trade and values held fully steady. The country demand this week has been sufficient to keep the stocker and feeder division well cleared of all desirable yearlings and calves and good two, as well as all fleshy feeders of good quality that regular dealers could pick up. The adverse conditions prevailing in the fat cattle trade has not materially affected prices of stock steers, and dealers could have used more than arrived. This country cows and stock heifers and stock bulls were again in quiet demand and prices were unchanged.

HOGS.

Better condition developed promptly on more moderate supplies compared with former days of the week, although the aggregate total at live leading points was larger by 7,000 head than number recorded at same points one week ago. Outside River markets were reported as opening weak and lower but Chicago was higher and on the local pinks the trade showed lively demand that resulted in a 5c to 7c raise over the market basis of yesterday for the general run of business with sales here and there that looked 10c above prices realized on same quality of offerings Wednesday. Quality of hogs was quite good and, while buyers preferred the smooth light and medium weights, the spread in prices between light and heavy was not as marked as on former days of the week. Smooth, hard finished heavy weight sold around \$5.20 with rough, heavy mixed packing quotable around \$5.15, light and medium weight of attractive quality went at \$5.25 to \$5.27 with up and down weights running from little light light to big heavy but carrying a good top going around \$5.20 to \$5.22. Trade held active tone at the market strength and a good early clearance was made.

Prices ranged from \$5.17 to \$5.27, with the bulk selling at \$5.20 to \$5.25. Bulk yesterday sold at \$5.15 to \$5.20, a week ago \$5.22 to \$5.25, month ago at \$5.30 to \$5.35, one year ago at \$5.05 to \$5.12, two years ago at \$5.50 to \$5.60, three years ago at \$7.55 to \$7.82, four years ago at \$5.97 to \$6.02.

The average cost was \$5.23, as compared with \$5.17, yesterday, \$5.24, a week ago, \$5.34, a month ago, \$5.08, a year ago, \$5.53, two years ago, \$7.08, three years ago and \$6.00 on the same day four years ago.

SHEEP.

Receipts were light here today, only about 800 arriving, and over half were direct to a packer. The principal markets had about 20,000 head in sight. Local supply consisted largely of spring lambs, the quality averaged good. The good strong demand prevailing soon cleared the yards at prices strong to 10c higher, although a few of the sellers claimed values but steadily strong. Top spring lambs sold at \$6.00 to \$6.75.

PRESIDENT AT WILLIAMSTOWN

Williams College Confers Degree of L. H. D. on the Chief Executive. Williamstown, Mass., June 23.—The zigzag journey of President Roosevelt among the colleges of western Massachusetts ended Thursday with his departure from Williamstown after he had received from Williams college the honorary degree of L.H.D. His stay in this state, which was of scarcely 32 hours duration, was a busy one. He attended three college commencements, at two of which he received high honorary degrees; traveled several hundred miles and besides delivering significant addresses at each commencement, made a number of speeches from the platform of his car, to citizens who had gathered at the stations along the route.

The president rose early Thursday and leaned from a window enjoying the superb view of the Berkshire country. After breakfast the president devoted a few minutes to meeting the classmates of Federal Commissioner James R. Garfield, who is a trustee of Williams, and then made a quick inspection of the new memorial chapel dedicated Wednesday. After a short walk the president accepted the invitation of his host for a drive, which ended just before the commencement exercises began. He spoke twice here, once upon receiving the degree and again from the steps of the church where the commencement exercises were held, to the people who could not get into the auditorium. Then came luncheon and before 2 o'clock the president was on his way back to Washington.

THE SANTA FE REBATE CASE

Secretary Moody's Position Regarding the Matter Satisfactory to the President.

SECRETARY MORTON COMPLIMENTED

Correspondence Regarding the Government's Disagreement With Special Counsel Given to the Public—Counsel Recommended Contempt Proceedings and Attorney General Objected.

Washington, June 22.—President Roosevelt has taken occasion to express himself in most positive terms complimentary of the integrity and ability of Paul Morton, former vice president of the Atchison, Topeka & Santa Fe Railway company, and now confiding his duties as secretary of the navy that he may assume the chairmanship of the board of directors of the Equitable Life Assurance Society of New York. These expressions are contained in two letters, one addressed to the attorney general and the other to Mr. Morton. The letters were made public Wednesday by the administration together with a number of others which, taken together, show the precise point of difference between the department of justice and Messrs. Harmon and Judson, who recently resigned as special counsel for the government in the rebate case involving the Santa Fe road and the Colorado Fuel and Iron company.

The special counsel wished to bring contempt proceedings against the officers of the road, which would have included Mr. Morton. Their position was that the testimony adduced before the interstate commerce commission established a violation of the court order of March 25, 1902, restraining the company from executing any agreement to transport interstate traffic at rates lower than the published tariff of the road.

This testimony they contended contained a prima facie case against the officers of the road and the only way to ascertain their guilt or innocence was through contempt proceedings.

Attorney General Moody opposed bringing the contempt proceedings on the ground that, while the evidence before the commission might show a violation of the injunction by the road, it contained nothing connecting any officer of the company with such violation. President Roosevelt took the same view. Both the president and the attorney general agreed that contempt proceedings should be instituted impersonally against the corporation in both the Colorado Fuel and the International Harvester case. The latter case, the president says, stands exactly on the same footing and involves practically all of the western roads.

Arbitration Treaties.

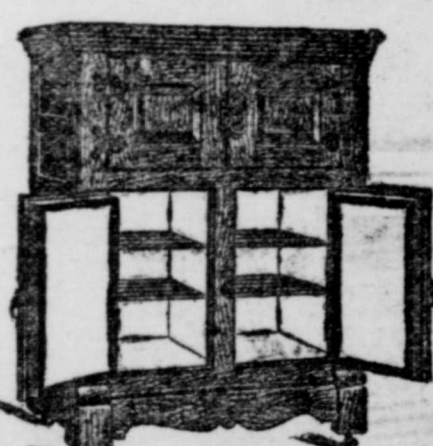

Brussels, June 23.—The chamber of deputies Thursday approved the compulsory arbitration treaties entered into with the governments of Russia, Denmark, Sweden, Spain, Switzerland and Greece, and the arbitration treaty with the government of Romania.
