

DAILY MARKETS

Official Receipts, 102 Cars, 2737 Cattle; 69 Cars, 4482 Hogs; 30 Cars, 6463 Sheep.

NATIVE STEERS INCREASE

Demand Not Lively, But Prices Are Holding Steady, Best Here Made \$7.25.

WESTERNS ARRIVE LATE

Sold at Steady Prices For Fat Grades, Slow and Weak For Feeders—Native She Stock Steady—Stock and Feeder Trade Slow, Supply In Stocker Division Large—Hogs Off 15 to 20 Cents On Bulk—Sheep Steady.

Receipts from January 1, 1910.

Table with 5 columns: 1910, 1909, Dec., Inc. for Cattle, Hogs, Sheep, and Horses.

Live Stock in Sight.

The following shows the estimated receipts of cattle, hogs and sheep at the five principal western markets.

Table with 4 columns: Market, Cattle, Hogs, Sheep.

Receipts by Cars.

Table with 4 columns: Market, Cattle, Hogs, Sheep.

CATTLE.

Fair Show of Fed Steers But Nothing Prime, Prices About Steady.

The first half of the week has not brought around much change in condition of the cattle trade so far as prices are concerned. But there has been some change noted in the cattle coming there are not quite so many western rangers arriving and the number of cattle from corn belt feed lots is showing some increase.

Bulls and Steers.

Table with 5 columns: Item, Price, Item, Price, Item, Price.

Veal Calves.

Table with 5 columns: Item, Price, Item, Price, Item, Price.

STOCKERS AND FEEDERS.

There was not much doing on the early market in the line of stockers and feeders. The bulk of the stock sold is in a range of \$5.75 to \$6.50.

Dressed Beef and Shipping Steers.

Table with 5 columns: Item, Price, Item, Price, Item, Price.

Professor Shaw Places Conservation of Moisture Ahead of Irrigation.

LARGE CROPS ARE POSSIBLE

Rotation, Fallowing and Scientific Cultivation Production of Results.

BENCH LANDS ARE THE BEST

Experience Shows That Good Crops of All Kinds of Grain and Certain Vegetables May Be Obtained From Summer Followed Ground—Winter Wheat Most Profitable Money Crop For Dry Farmer in Northern Counties.

Portland, Ore., Oct. 26.—"Dry farming is the greatest problem that confronts the people of the west today," recently declared Prof. Thomas Shaw, who is now in central Oregon investigating conditions relating to that particular branch of agriculture.

The value of the rain that falls during the winter is not so much in the quantity as it is in the quality. It is the quality of the water that is the important factor. It is the water that is the most valuable of any crop, and it is the water that is the most difficult to obtain.

Best place to eat and drink.

Hadley's Cafe, 112 South Seventh St.

SHIPMENT OF GOOD STEERS

Wm Stewart of Fairfax, Mo., was on today's market with one car of mixed stock.

Change of management at Transit House.

R. Frazer, a regular shipper and feeder of Cummings, Ia., marketed one car of mixed stock.

Following were noted among the Missouri and Kansas shippers.

W. T. Holland of King City, Mo., was here yesterday feeding his corn to a number of his own herd.

Method to be tested.

"Next year," he said, "this method will be tested on more than thirty of the Great Northern demonstration farms. These small stations are scattered so widely that they will furnish an excellent demonstration of what may be done in this line."

AMUSEMENTS

At the Tootle-Saturday matinee and night, Oct. 23.

STRIKE A FAILURE.

New Orleans, Oct. 26.—Five hundred members of the brotherhood of railway clerks, employed on the Orleans and Shreveport, La., and at Vicksburg, Jackson and Meridian, Miss., who have been on a strike for the last month in an effort to obtain increased salaries and better working conditions, last night announced the failure of their movement.

AT THE TOOTLE—SATURDAY MATINEE

At the Tootle—Saturday matinee and night, Oct. 23.

ITEMS IN BRIEF.

Bedford, Ia., was represented here yesterday by E. A. Cobb, who marketed one load of hogs.

Mrs. Para Rowe, who hails from Dalhart, Texas, swelled yesterday's receipts with a ten-car shipment of cattle.

Frank McCredy, a big shipper with shipping points through Kansas, arrived here yesterday with four cars of cattle from Vine Creek.

Frank Dunning, an old reliable shipper of Bedford, Ia., was noticed at the local market yesterday with one car of porkers.

Ernest & Pilmore, well known among the local stockmen, were here today with a shipment of good butcher stuff from Tecumseh, Kan.

Power Bros., big farmers situated at Humboldt, Neb., arrived today with one load of cattle.

George and Ed. McPherson, wealthy farmers and feeders of Mayville, Mo., swelled their receipts with two cars of cattle.

Grant Harmon, also of Mayville, Mo., and noted as quite an extensive feeder, sent down one car of hogs to today's market.

J. W. Reynolds, a regular shipper of Kellerton, Ia., had one mixed load of cattle and hogs on today's market.

Charles Triplett of Troy, Kan., had one car of butcher stuff here today.

M. V. Williamson, the big shipper of Haddam, Kan., represented the southern state yesterday with one car of butcher stuff.

R. L. Saunders, one of the largest feeders of Maryville, Mo., came in today with one car of sheep.

Parker & Flora, warm friends of the St. Joseph market, were here today from Davis City, Ia., disposing of a consignment of both cattle and hogs.

The following were noted among the Missouri patrons who were here today disposing of stock: J. G. Taylor, Clearmont, one car of cattle; Hugh McAlarney, Hempie, one car of cattle; H. W. Lammar, Westboro, one car of hogs; A. O. Linn, Ridgeway, one car of hogs; and Potts & Fisher, Bolckow, one car of hogs.

E. C. Bales, a prosperous farmer and shipper of Morrowville, Kan., had one car of mixed stock on sale at the local yards today.

T. Tanner of Superior, Neb., a staunch friend of this market, contributed one car each of hogs to yesterday's receipt.

Chas. Guntzshausen, a big farmer, with headquarters at Humboldt, Neb., was represented here yesterday with one car of cattle.

Charles Leslie, a warm friend among the local stockmen, arrived today from Bolivar, Kan., with a shipment of mixed stock.

Wm Stewart of Fairfax, Mo., was on today's market with one car of mixed stock.

Hilgers' Cafe, "The Stag," 207 S. 6th St., Bests them all. Try it.

Henry Vickers & Son, large shippers of Ong, Neb., contributed one car of hogs to today's receipts.

Resort for men only. Hadley's Cafe and Bar, 112 South Seventh street.

J. H. Shryock of Upland, Neb., was among those who had stock here today.

Change of management at Transit House.

R. Frazer, a regular shipper and feeder of Cummings, Ia., marketed one car of mixed stock.

IS SHOWN HOW BRINGS ANT PLAGUE

Missouri Agricultural College Experiments Increasing Yield of Corn.

A BETTER WHEAT CROP

Teachers of Rural Schools Encouraged to Give Instruction in Farming.

Jefferson City, Oct. 25.—Experiments in corn growing at the agricultural college of the Missouri State University...

Experiments at the station have shown an average increase of nine bushels to an acre where improved seed is used.

That an average increase of much more than a bushel an acre is possible would appear from the fact that on certain farms in southwestern Missouri...

In Barton county the methods of soil treatment applied by the college of agriculture increased the yield of corn on thin land from 19 to 45 bushels an acre.

Peach trees pruned according to methods recommended by the college of agriculture have been made to produce two additional crops in eight years.

Josephine, the world's champion egg layer, owned by the agricultural college, shows what can be done to improve the milk and butter supply.

Eighty-five per cent of 40,000 hogs inoculated with hog cholera have been saved by the college.

The agricultural college has recently established a department of farm management and appointed a man in charge who will devote his time exclusively to instruction in the best systems of farm management...

The United States department of agriculture is co-operating with the University of Missouri in this work. The college is encouraging teachers of rural schools to give instruction in agriculture.

A NOVEL GOOD SAMARITAN He Carries on a Great Work Among Criminal Classes Under Cover of Silence.

Somewhere in this broad country of ours there is a man quietly and silently working among the fallen and degraded ones of earth and accomplishing wonderful results.

For years he has been moving among criminals of all descriptions, raising them to a respectable position and starting them again along the path of virtue.

GARDENS DEVELOP NEW RACE Children Brought Up in English Country Towns Much Healthier Than Those in Cities.

Plymouth.—A glowing account of the physical regeneration brought by life in garden cities and a depressing account of the moral deterioration arising from an unwise sentimentality...

It was Henry Vivian, M. P., who gave an address on town planning and architecture, who was responsible for the first.

He contrasted the overcrowded London slums and tenements with the garden cities at Letchworth, Ealing, Hampstead and elsewhere.

Practically, a new type of individual—a superchild—was, he said, born in these healthily laid out estates.

To Give Radium Baths. London.—The first radium bath in this country has been opened at the Buxton Hydro, wherein installation for the production of radium drinking water also has been fixed.

Dry Summer Causes Little Insects to Thrive.

Especially Active in Attacking Flowers, and in Some Localities Invading Homes—Moisture Is Chief Foe.

Chicago.—Following in the wake of the plague of tussock moths, though not as serious in comparison to the amount of destruction wrought but more of nuisance, the plague of ants has settled upon the city to an extent that has created a widespread inquiry for means to get rid of the pest.

Experts say that the oversupply of ants is due to the unusually dry weather which has prevailed this summer, their favorite breeding places being in dry, sandy soil.

The men found some gold and in their eagerness to renew their fortunes they worked almost night and day. The short summer wore away their grub pie dwindled.

James Wright volunteered to run the boat southward to the first settlement for food. He left September 30 and was never seen again.

Storm followed storm until November, and through December there were many days they could not travel.

New Year's day, 1910, the party reached the first cabin and civilization, a trading station just below the headwaters of the Saskatchewan river.

From Edmonton they traveled by rail to Vancouver, and thence south to Seattle. None will ever attempt another prospecting tour in the far north.

Householders have resorted to numerous expedients to exterminate the colonies of ants, but in most instances without much success.

Yes, we have had an unusual number of calls for advice with regard to ants this summer, said the manager of a big seed house.

Keep the ground as well soaked as possible, sprinkle the lawns plentifully and use some good ant exterminator with persistence.

When the Allegheny was in Port de Paix, the bees settled on the forward boat davits.

When she stopped off shore at that port the bees circled about, and out of the center of the swarm came the queen bee.

When she stepped off shore at that port the bees circled about, and out of the center of the swarm came the queen bee.

When she stepped off shore at that port the bees circled about, and out of the center of the swarm came the queen bee.

FORTUNE SEEKERS ARE BACK

Prospectors Are Nearly Lured to Death in Tiny Garden of Eden in Northern Canada.

Seattle, Wash.—After losing one of the party and suffering terrible hardships, a half dozen gaunt, bewhiskered men arrived here from northern Canada.

Hundreds of miles from civilization and near the headwaters of the Crooked river, they were trapped by the pretty flowers, green grass and myriads of song and water birds.

The men found some gold and in their eagerness to renew their fortunes they worked almost night and day.

Storm followed storm until November, and through December there were many days they could not travel.

New Year's day, 1910, the party reached the first cabin and civilization, a trading station just below the headwaters of the Saskatchewan river.
