Steers Lower For Week But Close Is On Firmer Level.

While trade, locally, has been in pretty bad shape this week, the market has held up well in comparison with other points. Commenting on the market the Chicago Drovers' Journal of Friday had the following to say' of the conditions at that point. Locking back to last Monday's deal, the sellers are stilling nursing a sore apot, grouch or whatever it might be chosen as the proper word to express their sentiments regarding the bitter demoralization, is agreed on all hands. They hammered the market by almost concerted action and when the trade expense that day there was a general within the bulk selling at \$6.49.65.5 (a.1). Frically, a year ago at \$10.65.610.75, two years ago at \$6.60.6.75, a week ago at \$10.65.60.75, two years ago at \$40.65.65.65.5 (blik), which the bulk selling at \$6.65.66.85, three years ago at \$40.65.65.5 (blik), was a falsely put demand, in which the buyers took advantage of a lame situation to force conditions in semi-demoralization, is agreed on all hands. They hammered the market by almost concerted action and when the trade expense that day there was a general with the bulk selling at \$6.40.65.5 (blik). The bulk yesterday sold at \$6.50.6 (blik) and the bulk \$6.80.07.05. Sheep—Receipts, 100. Market stow, the bulk yesterday sold at \$6.50.6 (blik). Hogs—Receipts, 100. Market stow, 226,000, two years ago 326,600, three years ago at \$6.60.6.75, a year ago at \$6.60.6.85, three years ago at \$6.60.6.75, a year ago at \$6.60.6.85, three years ago at \$6.00.00 and the world doesn't lie within the boundaries of your own back yard.

| Ruyers in coming into the market with this obunt declaration, sellers were simply forced to bow to the invertable, and the fact that the decline of Monday has since been regained in no way offsets the losses which consignors had to pocket that day.

| Conditions surrounding the market for female butcher stuff during the week were more favorable to the selling side than in the steer division. | St. 219, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 | 61, 237, -6.55 she cattle was a saving factor in this branch of the trade. TWENTY CARS OF HEN FRUIT

Over Two and a Half Million Fggs Shipped East This Week.

If 2.880,000 eggs were shipped out of St. Joseph in one week what is the approximate poultry population of this immediate territory? This bus-iness represents an outlay of someshipments to hearer points. This has iness represents an outlay of something like \$49,000, as the eggs are valued at \$4.50 a case on an average f. o. b. NE evening when Jack and Evelyn asked daddy for their usual bedtime story daddy said that he did not feel well. His head ached, he sait, and he could not think of any story to tell the children. So he sail that instead of telling a story he would read one. And this is the story which he read. It was called "The Monkey's Story," and it is sup posed to be the story of a monkey's life told by himself. It begins:

"My nam > is Mingo. I had a sister called Chippy. We were born in South America. V. are called spider monkeys, and all of us have beautiful long tails.

"Such fire times as we did have! Awake bright and early, we washed our faces and took a drink of cocoanut milk. It was very nice. Then we hunted for birds' eggs for breakfast or perhaps caught some tender beetles or butterflies or dragon flies. After that we spent our days in playing hide and seek among the branches of the trees or teased the lazy crocodiles basking in the sun by the riverside. But we never strayed far from home, for our parents had warned us that if we did so we might be stolen by hunters. One day when father and mother had gone out to walk we heard strange sounds near Going to an open space, Chippy and I saw several men looking up at us. We started to run away, but it was too late. I felt something like a snake around my neck. I soon found that one of the men had thrown a rope around me, and I was caught.

"What I came of Chippy I do not know. I have never seen her since. I can just remember being placed in a dark box, in which I was kept prisoner for many long days and nights. When I was set free I was upon a big ship, with water all around it, and with no land in sight. When we reached land again I was sold to my present master, who has taught me many tricks,

"My master is good to me and treats me well. My tricks seem to please the boys and girls who come out to listen when my master turns the bandle of his band organ, and I enjoy making them laugh. Of course I would not willingly burt any of the little boys and girls, but sometimes when they come too close to me it makes me nervous, and then I scratch or bite. I do not like this country as well as the one in which I was born, for it is sometimes very Such land should be disced as early cold here, while in my country the sun shines every day and we never have any of that nasty cold stuff which I am told is called snow. RASPING AMERICAN VOICE TRAGEDY OF THE DEEP SEA

Medical Writer Says It Is Worse Than All Other City Noises In Its Effect on Nerves.

The American voice is not what it ought to be, according to the interstate Medical Journal. Here is what the writer says on the subject:

We are now speaking of the American voice, which has a chromatic scale no other voice possesses, and so many irritating qualities that, were a nerve removed from the healthiest body and subjected to the pricking of its many stridencies, we are sure it would wriggle at once with an activity that could not be interpreted as anything except a mild protest.

"Surely, the American voice as it falls upon our ears must make so tight a clutch on our nerves that the combined effect of all other noises dwindles into comparative insignifi-

Ling Sung of Omaha Obeys Imperial Decree but Carefully Preserves His Precious Pigtail.

After forty years of the closest companionship Ling Sung has parted with his queue in obedience to the imperial decree of the Emperor of

The queue, which is tied at one end with yellow ribbon, reposes in a silk lined casket under his cot and will be his companion to the grave when he is called to join his ancestors. Mr. Sung is one of the few Chinamen of Omaha who have clung to the Chinese custom of centuries and continued to keep the adornment carefully protected from the dismantling customs of the modern west.

Immediately after the formality of snipping off his queue Mr. Sung was barbered by one of his countrymen, and on Monday he gave an ante-queue chop chop sucy dinner to a few of his friends. There will be another chop suey dinner to celebrate the event. When asked if the emperor's decree caused him to cut off his queue Mr. Sung said:

Ancient Suffragettes. The suffragette is not new in Eng-

land. As far back as 1641 "several gentlewomen and tradesmen's wives from the city" wanted to present a "no popery" petition. The commander of the guard, in obedience to the commons' command, "spoke them fair" and advised them to go home. They replied that they would return next day, and that "where there was one there would be 500." They proved as good as their word. Pym, the leader of the house in those days, did not prove so unyielding as Mr. Asquith, for it is related that he came to the door, thanked the women for the petition, and promised that it would have attention.

Old Aaron Bentsen, Sailmaker of Bark Friedig, Fell Dead as He Talked of Christmas in Port.

Two barks flying the flag of Norway sailed into the offing of Stapleton, dropped anchor and shook out their top-gallant sails to dry. One was the little Freidig, coffee carrier from Java and Sumatra, and the other the Fortuna from Madagascar.

In the last days of November the Freidig found herself 250 miles to the northwestward of Bermuda, with the pleasant prospect of celebrating Christmas in New York. This was especially pleasing to old Aaron Bentsen, the sailmaker, who said: "At New York I shall have letters from the wife and my two boys." The sailmaker's home was in Grimstad, Nor

At this point in her trip the Freidig had to lie head to the winds, which came stronger and stronger. They grew into heavy gales, which rolled over the deeply laden coffee carrier day after day.

On the third day of the gale old Aaron, at mess with his shipmates in the forecastle, was smoking his pipe, and said: "Yes, before Christmas we shall be in New York, and then I shall get my mail from Grimstad, and there will be some gifts from the wife and

SIGNBOARDS ON THE SHOPS

Rich Display of Painted and Sculptured Emblems Relieved Mean Appearance of Old Boston's Streets.

The mean appearance of the houses of old Boston (1784) was, to some extent, relieved by the rich display of painted and so lptured signs which adorned the front of the taverns and stores. The numbering of shops and houses had not come into fashion, and every business street was an endless succession of golden balls, of blue gloves, of crowns and scepters, dogs and rainbows, elephants and horseshoes. They served sometimes as advertisements of the business, sometimes merely as designations of the shops which were indicated popularly and in the newspapers by their signs. The custom still lingers among the glovemakers, bootmakers, opticians, furriers and barbers.
