Advertising Rates Furnished on Application.

Special 20 per cent commission allowed postmasters, who are authorized to take subscriptions.

A GLIMPSE OF UTAH.

The story of Utah's progress from the time the Mormon emigrants entered the Salt Lake Valley, to the present day, is narrated and beautifully pictured, in a striking publication just issued by the passenger department, Denver & Rio Grande Railroad, called "A Glimpse of Utah."

TARIFF LAW INCONGRUITIES.

When a man buys a dollar's worth of 50-cent cigars he pays an internal revenue tax of six-tenths of one cent to the government, says an exchange. On a dollar's worth of two-for-a-quarter cigars the tax is 2 1/2 cents. If the purchase is a dollar's worth of nickel cigars or smoking tobacco he pays the government from six to eight cents. But when a washer-woman buys eighteen pounds of soap for a dollar she contributes thirty-six cents to the government's support.

Why should an article of universal use by every member of the family pay a tax six times as large as that assessed on a comparative luxury used by a small proportion of the entire population? The present tariff law is full of such incongruities as this.

WINDS WERE HOT.

The nearest to the genuine thing in hot winds that have been experienced in South End circles during this heated period was about noon yesterday. On the railroad crossing at the entrance to the stock yards the wind from the southwest had a long unobstructed sweep and people going to and from lunch could not help noticing that the wind was of the genuine, old-fashioned western plains style and felt as though it had come from a fire somewhere in the southwest. Many of the stock yarders became apprehensive that it meant disaster to the growing crops. Telephone inquiry revealed the fact that while it is but a day or two since there was a cool wave and some rain, the heat and wind was more threatening to crops than at any previous time during the heated term which has been of unusual severity for the season of year.

RECIPROCITY WON'T HURT.

"I saw an editorial the other day to the effect that the farmer in northwestern Missouri does not want any reciprocity with Canada because it would reduce the price of his hogs," remarked a stock yarder yesterday. "This editorial stated that the reduction of 12 per cent in the price of hogs at present compared with a year ago is a sample of what the corn belt farmer might expect from reciprocity with Canada." In fact, the editorial intimated that the drop in the price is in a large manner due to the prospective free trade relations with the Canucks. The argument is absolutely illogical. A year ago hogs in this country were selling on a famine basis; today they are selling on a basis of a normal supply, and are perhaps higher now than they will be six months hence—not because of any possible treaty with Canada, but because of the natural building up of the hog supply in this country, stimulated by the scarcity and high prices of a year ago. Now, as to Canadian pork product and its effect upon the hog market of this country last year the whole of Canada produced and marketed less than one million and a quarter of hogs. Three counties here in northwestern Missouri can produce more hogs than the whole of Canada. Packing houses of this country slaughtered approximately twenty-seven million hogs during last year. What does this little Canadian production

Daddy's Bedtime Story—The Robin Family's Special Freight Car

THE children were grumbling about having to go to bed so soon—8 o'clock when their regular bedtime—but when folks next door were going to have a party they thought they ought to be allowed to stay up until 9. "Not a bit of it!" mother had said, and off to bed they went, and there daddy found them tossing restlessly about in their cots when he came up to say good night. "Why don't you shut your eyes and go to sleep?" he inquired. "Bed's too hard," growled Jack. "I can't go to sleep."

SNOW STORM DELAYS BOATS

Low Temperature at Duluth Brings Out Winter Wraps. Duluth, Minn., June 29.—Steamers down the lake are sending in wireless messages stating that they are late because they have been held up by a snow storm this side of the Canadian Soo. Snow fell in abundance, according to reports all last night. During the storm most of the freighters anchored and rode safe until the fall ceased.

MISSING CASHIER IS BACK

Lon Haynes of Mason Says Mental Strain Caused Him to Leave. Mason, Mo., June 29.—Lon Haynes, cashier of the Citizens' bank, returned home Tuesday afternoon after an absence of two weeks. He arrived on the Burlington from the west and was met by friends and driven at once to his home. He declined to state where he has been, but says he has been in communication with Mrs. Haynes and the bank examiner.

THREE-INCH OKLAHOMA RAIN

Heaviest Downpour in Eighteen Months Soaks Northeast Section. Muskogee, Ok., June 29.—A heavy rain fell in the northeastern part of the state Monday night near Miami and Afton, and streams are swollen and out of their banks. This is the heaviest rain in the state in eighteen months, and will do much to save growing crops that have been suffering from drought.

WHEAT TO BREAD, HALF HOUR

Kansas Sets Time Record From Harvesting to Baking. Beloit, Kan., June 29.—What is thought to be the world's time record in harvesting, threshing, milling and baking into bread was made today with wheat from the W. S. Gable farm, two miles west of town. The time consumed in doing this was exactly thirty minutes. At 3:14 the team started into the field with the header and one minute later the harvested wheat was at the thrasher. At 3:23 Mr. Gable drove his touring car up to the mill door with a grist and at 3:29 flour had been made from the wheat by the regular process employed by the Beloit Milling Company. At 3:30 the flour was delivered at Walker Bros. bakery and their baker, G. H. Mills, made biscuits that were taken from the oven at 3:44, thirty minutes from the time the header went into the field.

RAIN IN SOUTH MISSOURI

Joplin, Mo., June 29.—The temperature was lowered late yesterday afternoon by a soaking rain which was general over this section. The rain followed a day of intense heat, the maximum temperature registered at the government weather station being 98 degrees.

IN WOMAN'S REALM

SUMMER DRINKS. Lemonade—Three lemons to a quart of water. Six tablespoons of sugar. Pare the yellow peel from the lemons, and unless you mean to use the sherbet immediately, leave it out. It gives a bitter taste to the sugar if left long in it. Slice and squeeze the lemons upon the sugar, add a very little water, and let them stand fifteen minutes. Then fill up with water; ice well, stir, and pour out.

SHERRY COBBLER.

Several slices of pineapple cut in quarters, a lemon orange sliced thin, outer shell of powdered sugar, one tumblerful of sherry wine, ice water, nounced. Take a wide-mouthed pitcher and lay the sliced fruit at bottom, sprinkling the whole with powdered sugar. Layer: cover with sugar and ice and let stand together five minutes. Add then two tumblers of water and all the sugar, and stir well to dissolve. This, fill the pitcher nearly full of pounded ice, pour in the wine, and stir up from the bottom until the ingredients are thoroughly mixed. In pouring it out put a slice of each fruit in each goblet before adding the liquid.

GINGER ALE MINT PUNCH.

Crush, but do not mash, one bunch of mint with six lemons sliced thin. Add one cupful and a half of syrup, two or three whole lemons, and strain into a glass pitcher. Fill glasses with scraped ice and a few thin slices of lemon and a sprig of mint to each one. Put in a couple of spoonfuls of mint and lemon mixture and fill each one with ginger ale.

GOOSEBERRIES.

Swiss Pudding.—Stew one pound of gooseberries with sugar. Mix one-half pound of bread crumbs with one-half pound of finely chopped shredded suet; two heaping tablespoonsful might do if not wanted rich. Add two heaping tablespoonsful of fine sugar to the crumbs and a flavoring of lemon or ginger. Put a layer of the mixture in the bottom of a well buttered pudding dish, then a layer of gooseberries, and so on, letting the top layer be the crumbs and a flavoring of lemon or ginger. Bake in a moderate oven for an hour and serve with a custard sauce.

GOOSEBERRIES IN BATTER.

One-half pound of flour, two eggs and a pint of milk into a batter. Use no baking powder, but beat the batter a good deal, and make it two hours before using. Wash and top and tail one pound of gooseberries. Cook very lightly in sugar, so as not to break them. Lay in a well greased pudding dish; mix two tablespoonsful of melted butter with the batter, pour over the berries and bake in a quick oven until golden color. Serve soon as it is ready, with plenty of soft sugar to eat with it. This is a favorite with the children.

INEXPENSIVE PORTIERS.

Purchase a piece of good quality of burip and cut your curtains the proper length. Then, beginning at the top, measure down sufficient space for the pole, plus three inches. Then measure twelve inches across the top and lay on each side for this twelve inches and draw threads crosswise. Now measure another three inches and leave solid. Measure another two inches and draw threads as before. Continue until you reach the bottom of the curtain, which is fringed.

BOYCOTT SPUDS.

Kansas Housewives Using Beans and Potatoes Are a Drug. Topeka, June 29.—Topeka women are boycotting potatoes because of the high prices demanded by commission men, and it is asserted that the commission men have hurriedly shipped out their surplus supplies to save themselves from loss. As it was hundreds of bushels of potatoes spoiled during the hot weather.

FEUDISTS SLAIN.

Planter Shot by Adopted Son of Brother Who Also Is Killed. Dyerburg, Tenn., June 29.—W. E. Hudson, merchant and planter, was shot and instantly killed yesterday by Drew Hudson, adopted son of his brother. In turn, Drew Hudson was killed with his own weapon by Morgan Hudson, a third brother.

A PERIODICAL TRUTS.

Government Brings Suit for Dissolution of Clearing House. New York, June 29.—A civil suit was filed in the United States court Tuesday for the dissolution of the Periodical Clearing House and about a score of other magazine defendants. The petition, filed by District Attorney Wise, alleges unlawful combination and conspiracy to restrain interstate trade and foreign commerce in magazine and other periodical publications.

A CAPITOLLESS CAPITAL.

Missouri, the greatest state in the Union, is the only state that has no capitol building. This fact does not reflect upon the enterprise and loyalty of Missourians, and will not until they vote down a proposition to rebuild the capitol destroyed by lightning, which will be never. Just watch the spirit of progress in this grand old state embrace the first opportunity to build a new capitol.

DENTISTS.

DUTTON WAY Saves Teeth, Pain and Money. It will pay you to learn more about this way which so many praise so highly.

MAKE MONEY MAKING CEMENT.

No existing proposition offers such flattering inducements or such a field of opportunity for the man looking for a vacation or for the man looking for an investment. No other business can net you such profits on the amount of capital involved, and no other business has such an unlimited future.

Just think of a business paying from 30 to 50 per cent on the investment, the very first season, and subsequently from 50 to 150 per cent, then ask yourself the question—Is it worthy of investigation?

Complete details regarding the life business will be sent you free upon request.
