

STEERS HOLD STEADY

TOP OF \$10.50 SCORED ON CHOICE FED STEERS SETS NEW HIGH RECORD.

A FAIR RUN OF WESTERNS

Cows and Heifers Active, Fully Steady—Veals Strong, Top \$9.50—Stockers and Feeders Steady

A new record price for the year decorated the local steer trade today, a drove of 45 well-finished Herefords...

The sale of the Neff cattle at \$10.50 was the one outstanding feature of the day's trade.

Westerns opened slow and bidding indicated disposition on the part of packers to still further weaken prices.

The following prices are quotable on the St. Joseph market today:

Choice to prime steers, \$9.75 to \$10.50; good to choice, \$9.00 to \$9.75; fair to good, \$8.25 to \$9.00.

Westerns opened slow and bidding indicated disposition on the part of packers to still further weaken prices.

The following quotations are current on the local market:

Choice to prime steers, \$9.75 to \$10.50; good to choice, \$9.00 to \$9.75; fair to good, \$8.25 to \$9.00.

Choice to prime steers, \$9.75 to \$10.50; good to choice, \$9.00 to \$9.75; fair to good, \$8.25 to \$9.00.

Choice to prime steers, \$9.75 to \$10.50; good to choice, \$9.00 to \$9.75; fair to good, \$8.25 to \$9.00.

Choice to prime steers, \$9.75 to \$10.50; good to choice, \$9.00 to \$9.75; fair to good, \$8.25 to \$9.00.

Choice to prime steers, \$9.75 to \$10.50; good to choice, \$9.00 to \$9.75; fair to good, \$8.25 to \$9.00.

Choice to prime steers, \$9.75 to \$10.50; good to choice, \$9.00 to \$9.75; fair to good, \$8.25 to \$9.00.

Choice to prime steers, \$9.75 to \$10.50; good to choice, \$9.00 to \$9.75; fair to good, \$8.25 to \$9.00.

Choice to prime steers, \$9.75 to \$10.50; good to choice, \$9.00 to \$9.75; fair to good, \$8.25 to \$9.00.

LOWER TURN IN HOGS

BUYERS FORCE A NICKEL REDUCTION ON BULK, DESPITE MODERATE RECEIPTS.

EXTREME CLOSE WAS DULL

TOPS DROP TO \$8.70, WITH BULK OF SALES COVERING SPREAD OF \$8.45

Weaker tone developed in the live pork trade today, bulk of the local sales showing about a nickel cut from yesterday.

The following shows the estimated receipts at the five principal western markets today and comparisons:

Chicago, 6,500; Kansas City, 12,000; St. Louis, 12,000; Omaha, 12,000; St. Joseph, 12,000.

FOR COURSING MEET

JACKRABBITS BEING TRAINED FOR CUP RACES HERE NEXT MONTH

FIVE HUNDRED GREYHOUNDS

Blooded Dogs Will Compete For Cash Prizes and Cups—Event a Part of Big Fall Festival Program

One thousand dollars' worth of jackrabbits, secured in western Kansas and Nebraska, are now quarantined at the race track at Lake Country.

Those in charge of the meet declare that it will be the biggest ever held in the middle west.

From now until the meet opens October 8, two experts will train the jackrabbits.

STOCK YARDS DAILY JOURNAL

The St. Joseph Journal Publishing Co., Publishers.

W. E. WARRICK, Editor and Manager. Largest Outside Circulation of Any Paper Published in Buchanan County, Mo.

Entered at the Postoffice in St. Joseph, Mo., as Second Class Matter, September 3, 1897.

Subscription Rates: Daily, per year, \$4.00; Daily, six months, \$2.00; Daily, three months, \$1.00; Daily, one month, .40; Tri-Weekly, per year, \$2.50; Semi-Weekly, per year, \$1.50; Weekly, per year, \$1.00.

In asking change of address, please state former postoffice. State whether your paper is Daily, Tri-Weekly, Semi-Weekly or Weekly.

Do not send checks on country banks. Remit with postal order or draft, payable to St. Joseph Journal Publishing Company.

If you do not receive your paper regularly, notify this office or your commission firm, at once, so the matter may be regulated without delay.

Advertising Rates Furnished on Application.

Usual 20 per cent commission allowed postmasters, who are authorized to take subscriptions.

THE WESTERN BEEF CROP.

Those posted on the western situation assert that 50 per cent of the grass beef to come from the north-west this season has already been gathered. If this is the case, packers will have no opportunity to accumulate reserve stocks.

FEEDLOTS FILLING UP.

Eastern feeders are buying stock cattle very sparingly. They are afraid of prices and waiting for opportunities to get in at less money, which are not likely to present themselves.

One extensive Nebraska operator has just contracted for 1100 head of 1000-1100-pound steers in Greenwood county, Kansas, to stock his feedlots for the winter feeding season.

WARNING TO HOG RAISERS.

There seems to be considerable sickness among hogs at the present time throughout the country, especially pigs. This is the season when cholera frequently plays havoc with a drove of hogs and it would be well for all owners of hogs to take a little better care of their pigs than usual.

On account of the scarcity and high price of old corn and the bumper new crop in sight, it is tempting to the farmer to begin feeding new corn before it is fully matured.

This is a period of scarcity in live stock production, and any agency which lends encouragement to expansion should be cheerfully welcomed.

FARM EXPERT IN COLORADO

United States Will Aid School in Logan County.

Sterling, Colo., Sept. 24.—Principal J. A. Sexton of the Logan County Industrial Arts High school has received information that the United States department of agriculture will pay half of the salary of the agriculturist of the school after October 1.

This is the outcome of a movement started a month or more ago asking that the department of agriculture co-operate with the Logan county agriculturist in promoting agricultural education in the county.

A meeting was called of the county commissioners, the county high school committee and the principal and agriculturist of the Industrial Arts High school. A preliminary agreement was made with Professor Working to the effect that the county would appropriate for the traveling and other expenses of the agriculturist as much as the department would contribute; that the high school committee would pay half of the salary and furnish an office and stenographer for the agriculturist; the department of agriculture to pay the other half of the salary.

CATTLE, SHEEP AND FEED.

Chicago Drovers' Journal: Barring a few sections of the corn belt where rain came down in too great volume early this season, and washed out the early planted corn, there is going to be a gigantic crop of ears, and likewise a tremendous crop of stalks.

Daddy's Bedtime Story—When Daisy's Little Friend Moved Away

Daisy Wrote to All the Girls.

THE best of friends must some day part. daddy had said when Jack told him that his friends at the corner were going to move away.

"Yes, and we s'pose we'll never see them any more," wailed Evely.

"Oh, it may not be so bad as all that," daddy answered cheerfully. "Where are they going to move?"

It turned out to be only to the next town, and daddy laughed. "Dear! dear! that's just no move at all," he said. "There were Daisy and her friend Hattie. They had been friends for ever so many years. Then Hattie's father found out that it was best for them to live in the city."

"Daisy cried when she heard she was to lose Hattie. And Hattie cried when she learned that she must move away from Daisy and all her nice friends in the country."

"Grandpa talked to Daisy and told her what a jolly place the city was, with candy shops on every corner and interesting sights on every hand."

"Daisy said that would be very nice for Hattie, but, oh, what would she do?"

"Then mother spoke up—some way mothers seem to know just how to say the right thing at the right time."

"We must have a farewell party before she moves." Daisy began to get ready for the party.

"After the invitations had been sent Daisy was kept busy thinking about the pretty new dress she was to wear, the nice things they were to have to eat and the jolly games they were to play."

"When the day of the party came Daisy was ready to welcome her friends with a smiling face."

"The party was to be a surprise for Hattie, so she had not been told anything about it until her mother sent her into Daisy's house wearing her nice white dress and pink hair ribbons."

"One by one the little girl friends came in, each carrying a little farewell present for Hattie."

"It was a beautiful party and every one enjoyed it greatly. When Hattie kissed Daisy goodby she said, 'Mother says for you to be sure to visit me in the city soon.'"

"And my mother says you must come often to see me here in the country," said Daisy.

"Why, if it's going to be like that," Hattie said, "moving isn't so bad."

average farmer who has raised a good crop of corn will make good use of his stalks.

It is going to be a great fall and winter for cheap carrying of live stock, and the only unfortunate circumstance in this connection is the shortage of feeder cattle and sheep which will run in the stalk fields.

Cheap growth of cattle and sheep this fall and winter will help in a measure to offset the high cost of the stuff in the feeder market.

Many farmers are not yet viewing the situation in this light, but next spring, when doubtless they will find feeding stuff still high in price, they will look back upon the grand opportunity they had to get cheap growth on high-costing feeding stuff which they might have bought a few months previous.

There is such a tremendous crop of fall cheap feed available this season that farmers can hardly figure much on the cost of wintering stock. Their labor will be the chief item charged against the business.

The eastern farmers are as yet doing little in the way of cattle and sheep trading. They look upon prices as too high to warrant safe investment, but when it is considered that the east will be long on roughage for months ahead the availability of thousands of tons of cheap feed should be given due consideration in figuring the future of meat producing prospects; also, the east should reflect upon the inevitable scarcity of fat stock months ahead and not worry over the possibility of prices suffering great decline from the level of values which has been in force in recent months.

This is a period of scarcity in live stock production, and any agency which lends encouragement to expansion should be cheerfully welcomed.

With hogs bringing such high prices as they now command and are likely to command for a good many months yet at least, the farmer can well afford to spend a little money for protection, the same as he would for fire insurance. Many people seem to think that a hog can live on almost anything and in almost any place and it is true that they frequently do, but they will do much better and sickness is not near so apt among them if they are fed good, clean food and have nice clean quarters to eat in.

Fifth among hogs has the same injurious effect as among people. The cleaner the pens and yards are kept and the better the food is given, the healthier the hogs will be, and then just think how much faster they will grow, and this alone will more than repay for the expense and trouble one is put in taking care of them in the proper manner.

Washington authorities, and the co-operative work will begin October 1. This arrangement is the first of the kind to be made in Colorado. Under it the department of agriculture will begin a new work in this state, to be known as field study and farm demonstration work. This will be similar to the farm demonstration work in the south, which was organized and brought to great success by the late Dr. S. A. Knapp. Professor Bascom of the Industrial Arts High school will give half of his time during the school year to teaching and half of it to work with the farmers of the

INDIAN SHOWS DEVOTION.

Goes to Jail for Friend Found in Possession of Whisky.

Pender, Neb., Sept. 23.—The ancient drama of Damon and Pythias is being staged on the Omaha Indian reservation, near Pender. Not long ago a government inspector found in the tent of Edward Lincoln, an Indian, a quart bottle that contained a small amount of whisky, remnants of a once full receptacle. He placed Lincoln under arrest.

When Albert Thomas, a bosom friend of Lincoln, heard of the latter's arrest, he presented himself to the inspector and declared that Lincoln was innocent of any offense against the law, and that he himself had placed the bottle where it had been found. The inspector asked Thomas if he was aware that he was incriminating himself. He replied that he knew what he was doing and that he did not propose to see his friend suffer for an offense of which he was not guilty. Thomas said he had not been off the reservation for a year, but has steadily declined to state from whom he procured the liquor. Lincoln was released and Thomas occupies his place in prison.

IOWA FARMER SWINDLED.

Old Trick Nets Slick Trio Sum of Three Thousand Dollars.

Eagle Grove, Ia., Sept. 23.—Severt Quinsland, farmer living a few miles northeast of this city, was swindled out of \$3,000 a few days ago. Two men came to his place and wanted to buy land. Mr. Quinsland did not care to sell his farm, but he finally consented to go with them to look at some land, and he was to use his judgment in selecting a piece. On the way they met what appeared to be a tramp who had a grip containing a large sum of bills. Of course, the cards were next used and the man accompanying Quinsland was swindled out of a thousand dollars. Then Quinsland was induced to try his hand. Checks would not go with this tramp and Mr. Quinsland went to town and obtained the money, and this he was induced to deposit in the box.

The tramp soon discovered that he had forgotten the key to the box, and left it with Quinsland, promising to send the key by return mail. He did so, but when the box was opened it was filled with old papers.

Mr. Quinsland is a wealthy farmer and a native of England, and does not read the English language.

EVER SEE IT IN A DREAM

Fisherman Captures One of Queerest Deep Sea Creatures Ever Seen.

Venice, Cal., Sept. 23.—One of the queerest deep sea creatures ever seen here was brought in by a fisherman. It was a long, thin, and green mottled, with a tail like that of a shark. It has a dorsal fin and four feet shaped like those of a porpoise. It's mouth resembles that of a shark, while its head is a replica on a large scale of that of a California horned toad.

MADE A NEW MAN IN THREE WEEKS

Westboro, Mo., Man Cannot Speak Too Highly of St. Joseph Specialists.

United Doctors Are Making Wonderful Cures Throughout the Country.

When Mr. Nocton, of Westboro, Mo., came in a few weeks ago to be examined by the United Doctors, the widely known specialists whose St. Joseph offices are located at 729 Felix street, second floor, he was in so deplorable a condition that the specialists were doubtful about taking his case for treatment, as they never accept a case unless good results can be promised. However, after a careful examination the specialists concluded that if he could secure the earnest co-operation of the patient and the careful following of directions, the United treatment would bring a great and favorable change to the suffering man.

Mr. Nocton proved an earnest patient, determined to do everything in his power to regain his health, and so his faith and obedience was rewarded, and the doctors' opinion justified. And incidentally another great triumph was scored for the United treatment—the new road to health, which is giving back life and physical soundness to so many hundreds of sick and suffering people.

Mr. Nocton's statement will be of interest to all who are seeking the right means of really getting rid of disease. Through the maze of men and methods, doctors, doubts, discouragement and despair, it is pleasant to hear the joyful note of returning health as expressed in the letter of a man who fought against disease and weakness for many years and is now winning his fight with the help of the right treatment:

I came to the United Doctors on August 31 so near a wreck from heart and nervous trouble that the Doctors had some doubt about taking my entire case. But I certainly am glad I obtained their treatment, for in only three weeks I feel like a new man entirely. The pains have practically all disappeared from my chest, my heart beats better, I have a good appetite and can sit down to the dinner table with the same enjoyment that I did years ago. I never expected to get such wonderful relief in so short a time, and I know now that after years of search and suffering I have at last found Doctors who really get at the cause of disease and cure it, curing a man at once. I cannot speak in too high terms of praise of the United Doctors and I feel grateful for the great relief they are giving me.

W. E. D. NOCTON.

The United Doctors' success is remarkable in diseases of the stomach, kidneys, liver, blood and nerves, rheumatism, indigestion, gallstones, constipation, bloating, pain in back, headaches, neuralgia, catarrh, falling strength, gout, epilepsy, nervousness, asthma, diseases of women and diseases of men.

COBURN SPURNS JOB.

Loves Kansas More Than a Bigger Salary.

Topeka, Kan., Sept. 24.—F. D. Coburn, secretary of the Kansas state board of agriculture, has again refused an offer of a place carrying a salary much greater than he now receives. Such offers don't flatter Mr. Coburn—they annoy him. There isn't any flattery in it, to his way of thinking—it's just another bribe to get him away from Kansas. There is only one thing that Mr. Coburn loves more than Kansas and that is his wife and family. He is a Kansas premier press agent, and he likes the job.

So, for the hundredth time or so, Coburn has turned down a better financial than the one he holds. Kansas pays Mr. Coburn \$300 a month, and there hasn't been one of the hundred-odd jobs that have been offered him that hasn't run all the way from half as much again to pretty close to the five-figure mark.

Not only has Coburn turned down flattering financial propositions, but he also turned down a chance to succeed United States Senator Burton, although his popularity probably would have kept him in that place for life.

But Coburn hasn't any taste for politics. He'd rather write the eulogy of the helpful hen, or the allegory of alfalfa. He doesn't care who writes the tariff bills, just so he can write the stories of Kansas fields and farms. So, when a big Texas agricultural syndicate came along with an offer that ran close to five figures a year he turned it down.

FARMING IN THE SCHOOLS

Pennsylvania Takes First Steps to Comply With Code.

Harrisburg, Pa., Sept. 24.—The first general outline for a uniform course of agricultural education in the public schools of Pennsylvania, as required by the school code of 1911, has been issued by the state department of public instruction. It is the result of weeks of study of the subject by Dr. Nathan C. Schaeffer, state superintendent, and L. H. Dennis, the agricultural educational expert of the department.

Mr. Dennis visited practically every county in the state, examining into the conditions in the rural schools and ascertaining needs in regard to education in cultivation of the soil, it being recognized that conditions are so different in various parts of the state that a flexible course was essential.

The course as outlined provides for two years' work, and is arranged as far as possible according to sequence of seasons, being designed for seventh and eighth grade schools, which it is suggested should be combined in one class in rural schools.

Provision is made of the industrial conditions in various sections, especially in mining regions, where it is recommended that more attention be given to vegetable gardening and improvement of school grounds as well as sanitation at home. In districts where tobacco is a large crop care is taken to emphasize that branch.

One of the means to secure the interest of the class in the corn club, which is recommended very strongly for boys. The outline includes nature of plants, farm crops, vegetable gardening, crop rotation, plant food, co-operation, roads, chestnut blight, poultry, farm management and book-keeping.

COOKING IN RURAL SCHOOLS

Reno County, Kan., Girls Start Movement That May Spread Over State.

Hutchinson, Kan., Sept. 24.—Reno county schools are leading in a movement this year that will spread throughout the state, is the belief of County Superintendent Rowland. Farmers' daughters, through the guidance of their district school teachers, will organize cooking and sewing clubs all over Reno county.

The Obee school, in Clay Township, was the first to teach the girls how to cook and sew along with the studies in the schoolroom.

The girls do sewing, cooking, study scientific methods of housekeeping, sanitation and generally fit themselves to be Queens of the home.

Women's Autumn Apparel. Come and Learn About the New Styles, New Weaves and New Shades Now Being Shown in. We have the pleasure of inviting you to come see the very largest and best showing of Women's New Fall Apparel ever made in St. Joseph. The showing is complete and authoritative. Every smart new idea, every effective new cut, every handsome new material, every new shade that Fashion has smiled upon will be found included. The new Directoire and Robespierre effects are shown at their best in the models we are now displaying. Particular dressers have long favored Hirsch Apparel for its very distinctive features—features not to be found in other garments—points that mean exclusive styles, better fit, more graceful hang, better wear. And these new garments of ours more than ever attest Hirsch superiority. As usual, we have priced our Fall Apparel at a very close profit margin, thus presenting the very best values in St. Joseph. Assortments are now complete and at their best. Come and see them the very first time you are in town. Women's Suits, \$10 to \$75. Women's Coats, \$5.98 to \$60. Women's Dresses, \$4.98 to \$80. Children's Coats, \$2.98 to \$20. We Rebate Railroad Fares. Hirsch Bros. P. G. Co. Eighth and Felix Sts., St. Joseph, Mo.

EXPERT ON FALLING SAFELY
 Motorcycle Racer Explains Why He Isn't Killed When He Tumbles on Saucer Track.
 "People who know nothing about it think that falling from a motorcycle going at high speed is sure death," remarked Joe Walters, the famous racer, who was recently spilled from his machine while it was moving at the rate of 90 miles an hour, and escaped with a few scratches. "As a matter of fact it is safer to fall from a machine moving at 100 miles an hour than it is to fall from one going at half that rate of speed. If the speed is great enough to throw the rider free of his machine he slides along the track and escapes with a few scratches, or, possibly, some broken bones. The development of the motorcycle saucer track greatly lessens the danger. If the rider is at the bottom of the track he runs small danger of being injured, provided he has presence of mind to keep from under the motor in case of an upset. The few riders that have been killed were either caught under the machines or were riding near the top of the track and brought up against one of the posts. In my fall at Los Angeles the law of gravitation brought into play by the third of a mile circumference of the track kept my weight and the weight of the machine off the boards until the momentum had slackened and there was practically no danger. The marks I made on the track will bear out my statement. There is a scratch about fifty feet in length almost immediately in front of the pad-dock, 200 feet from where I started to fall. The mark shows the comparatively short distance the machine and I slipped before coming to a standstill. The only damage I sustained was a bent pedal and some minor scratches."

SYSTEM IS NEEDED IN THIS
 Operation of Spring House Cleaning Seems to Cry for Reform, Says Mere Man.
 We have no desire to pose as one criticizing another's method of work. Our notion is that a man who has spent his life running a hotel knows how to do it better than we do, who patronize hotels only for toothpicks, matches and writing paper. Our motto is: "Shoemaker, mind your own business!" and we adhere strictly to it. Ordinarily we let the lady who runs our house alone. If we think she is making a bed backwards, or putting too much baking powder in the biscuits, we say nothing. Bedmaking and cooking are her profession; ours is paying the bills.
 But with housecleaning time approaching we pause a moment here to suggest that there is no overwhelming anxiety on the part of mere man to have a house cleaned from cellar to dome in a single day. Admitting that we know very little about housecleaning as an art, we declare that it seems unnecessary to rip up every room in the house as a starter. We cannot see why it is necessary to take the rug off the back bedroom floor in order to get all the dust off the parlor pictures. We may be wrong, but it strikes us as curious that she cannot clean behind the sofa in the den unless the downstairs hall is barricaded with the dining room furniture. Why it is necessary to dump everything out of the front bedroom in order to clean the kitchen windows has never been made clear to us.
 We realize that we are treading on dangerous ground. But surely if there ever was anything in need of a little system it is spring housecleaning.—Detroit Free Press.

Oldest Metal.
 A recent paper presented to the Royal Institution at London, in discussing the question of the metals used by the great nations of antiquity, pointed out that gold was probably the first metal known to man because it is generally found native.
 The oldest metallic objects to which we can assign a probable date are thought to be those found in a royal tomb at Nagada in Egypt, supposed to have been that of King Menes. In one of the chambers were some bits of gold and a bead, a button and a fine wire of nearly pure copper. If the tomb had been properly identified these objects are at least 6,300 years old. Nearly all the ancient gold that has been examined contains silver enough to give it a light color. It was gathered by the ancients in the bed of the Pactolus and other streams of Asia Minor.—Harper's Weekly.

Scriptures in Esperanto.
 Dr. L. L. Zamenhof, the inventor of Esperanto, the language which he calls a "world's help," began last year the translation of the Bible into Esperanto and published the book of Genesis under the name, "La Genezo." The book received the attention of many people who had previously shown no interest in the "universal language." It was believed that the work would stop with the initial book of the Bible, but Exodus—"Elliro"—has appeared, and the assurance has been given by Zamenhof that the whole of the sacred book will be translated.

When Bravery is Easy.
 General Marion Maus, apropos of bravery, uttered at a dinner at Vancouver Barracks an opinion that was quoted with approval in Portland. "It is very easy," said General Maus, "for a man to be as brave as David when Goliath is going to tackle some one else."

Sale of Women's Tailored Garments

Suits, Coats **Dresses, Waists**

Every garment presenting the acme of style, quality and workmanship at the price

Stylish Fall Dresses for Street Wear

Trustworthy figures show that in the five years from 1906 to 1910 the consumption of ice cream in the United States advanced from 53,000,000 gallons to 100,000,000 gallons. Every 100 gallons of ice cream requires a ton and a half of ice and \$600 worth of salt, and the salt is not recovered and the ice melts very rapidly. Electricity is now conserving these materials by producing artificial refrigeration and applying it to the manufacture of ice cream. Electric motor drive is used to turn the freezers.
 Uncle Sam's annual market bill is estimated at \$8,000,000,000

ROADS NEED \$8,500,000,000

Winchell Estimates of 5-Year Financial Requirements for Improving.

Chicago, Sept. 23.—According to R. L. Winchell, president of the Frisco System \$8,500,000,000 will be needed within the next five years for transportation facilities to meet the needs of the country.

President Winchell points out that the present enormous crops will show the inadequacy of the railroads and create a sentiment in favor of a more liberal policy toward them.

"The transportation facilities of the Southwest are already taxed to their capacity and there is bound to be embarrassment later on," says Mr. Winchell.

"The only way a railroad can make improvements is by borrowing money or earning it. Present rates, in connection with the advanced wage scale will not permit the railroads to earn the \$8,500,000,000 that is required to provide adequate facilities and maintenance in the next five years, nor can the money be obtained by the sale of securities or by borrowing unless the railroads can be reasonably assured that freight rates will not be further reduced.

FOR SEED CORN WEEK.

Schools, Banks and Railroads Aid in Iowa Propaganda.

Des Moines, Ia., Sept. 23.—The Iowa Agricultural association is making extensive preparations for seed corn week in Iowa, which will open with seed corn day, officially set by Governor Carroll for Monday, Sept. 23. The association is receiving the co-operation of the schools of Iowa, the railroads, the farmers and the bankers of the state in securing a timely and wide selection of seed corn in Iowa this fall.

Through the schools of the state it is expected that the best results will be achieved. J. M. Deane, state superintendent of public instruction, has issued a circular to all county superintendents, informing them of seed corn week and urging them to take up the work in the schools. The Greater Des Moines committee is sending out copies of this letter to all county superintendents in Iowa. With the letter is being sent copies of circular letters to each teacher in the state and folders giving instructions in the selection and storage of seed corn. The plan is to bring home to the farmers through the school children the necessity of timely and scientific selection of seed.

GIBSON IS PROMOTED.

Diplomat, Attacked by Cuban, Transferred to Brussels.

Washington, D. C., Sept. 23.—Hugh S. Gibson, secretary of the American legation at Havana, who was assaulted by a journalist named Maza because of his efforts to collect the Rully claim, has been transferred to Brussels. The American legation at Brussels. The State Department officials regard Mr. Gibson's transfer a promotion. The change will relieve him of the embarrassment and also relieve the strained relations, the result of his conduct of the Rully claim.

J. Butler Wright, of Wyoming, former secretary of legation at Tegucigalpa, Honduras, now on special duty at the State Department, has been appointed to Havana.

Fred W. Carpenter, formerly secretary to President Taft and at present American minister to Morocco, has been transferred to be minister to Siam in place of Hamilton King, who died at Bangkok on Sept. 2.

Irvin B. Laughlin of Pennsylvania, secretary of the embassy at Berlin, has been transferred to be secretary of embassy at London.

Joseph C. Grow of Massachusetts, secretary of the embassy at Vienna, has been transferred to be secretary of the embassy at Berlin.

EVEN ALIMONY HIGHER.

High Cost of Living Makes Divorce More Costly Luxury.

Chicago, Sept. 23.—Prices of food and clothing are making divorce a more costly luxury.

Cook county courts have recognized the problem of the higher cost of living and assessed it as a part of the higher cost of high living. Alimony is up, and husbands whose matrimonial difficulties get them into the courts must find means of lengthening their purses.

Women who got their decrees before the courts presented the problem are responsible for the situation.

These wards of the divorce courts are having their troubles. The high cost of living eats into the patrimony their erstwhile husbands dole out to them. Their plaints are daily poured into the sympathetic ears of the courts. And keeping pace with soaring beefsteak prices the alimony scale is "going up."

HORSE DISEASE IS MYSTERY

New York Veterinarian Not Ready to Make Diagnosis of Malady.

Lincoln, Neb., Sept. 23.—"In an experience of many years including the United States and Europe I have never run across a disease of this nature. It is entirely new to me."

This was the statement made by Dr. G. H. Undall, head of the veterinary and bacteriological departments of the New York state veterinary college, after examining some diseased horses near Lincoln. He said he was not prepared to make any statement until after further investigation. Dr. Undall left yesterday for Manhattan, Kan., where he will confer with experts of that state. Later he will return to Nebraska to pursue his inquiry.

PACKERS IN LAST HEARING

Missouri Ouster Suit Up for Final Pleas October 1.

Jefferson City, Mo., Sept. 23.—The final hearing of the ouster suit of Missouri against the beef packers will be held in St. Louis October 1 before Special Commissioner Dillon. Both sides will close their case then. The supreme court Thursday set the lumber-ouster case for hearing before the court on October 24 on the report of the special commissioner, who found for the state and held the companies had violated the anti-trust law.

The ancient Egyptians used parasols.

RED RIVER VALLEY
Rich alluvial soil, ideal for alfalfa and corn. Nothing better anywhere. We can recommend this land to well-to-do farmers, who want something really good. Write for information to the Immigration Agent, Kansas City Southern Railway, 406 West 9th St., Kansas City, Mo.

Publicity Pays. Try The Stock Yards Journal
