## NO CHANGE IN STEERS

MEAGER SUPPLY OF BEEF CAT-TLE ON SALE TODAY INCLUD-ED NOTHING GOOD.

### PRICES HIGHER FOR WEEK

Cows and Heifers Firm at Recent Advances-Bulls and Calves Good Lambs Are Closing Around 50 Feeder Trade Quiet.

ago a shortage of 74,000 is noted. The decrease at this market was correspondingly large, total marketing of approximately 8,000 head falling 7,300 short of last week and 3,700 under a year ago. A large percentage of the loss noted has been in the western and range classes.

A general advance of 10@15c in beef steer values Monday was follow-ed by another gain of fully a dime on Tuesday. Since Tuesday the market has been slightly irregular, with buyers showing marked preference for the light and medium and low priced western offerings. Compared with the low mean close a week ago the better grades of native corn-fed steers are generally 25c higher. Warmed-up natives have sold to relasteers are generally 25c higher. Warmed-up natives have sold to relatively poorer advantage all week than any other class of cattle and sellers are inclined to limit the raise in these classes to 40 @15c. This applies largely to steers having a selling value around and under the \$7.00 mark. Choice native fed steers have been absent throughout the week, the best in this line being a fairly decent class of three to four months' fed beeves that sold at \$8.15 @8.45. The better grades of short-fel westerns are closing around a quarter higher than a ing around a quarter higher than a week ago, while the medium and low priced classes are finishing 25@35c higher for the week. Quite a few weighty short-fed Kansas steers sold at \$8.00@8.25, with best offered selling at \$8.50@8.60. One bullock sold at \$9.00.

A fair week-end supply of cows and heifers was absorbed in good season at prices pretty much the same as prevalled in the previous session. Any change in the established level of values was in the direction of strength.

Western cows and heifers were in light supply all week. The better light supply all week. The better erally steady basis.

Cows and heifers have made sub-

stantial gains during the week, light-er receipts and a broader demand effecting a complete shift in the trend of values as compared with a week ago. There has been a steady upward movement in prices for useful she stuff and the lower grades have also worked a little higher. Cows with a selling value of \$4.75 or better are closing a flat quarter higher than s week ago, with spots where the choicer grades, which found mean going last week, show even greater appreciation. Medium and cutter cows are generally quotable 10@15c higher, and that advance is also applicable to canner stuff, which has enjoyed con-tinued good demand all week. Good oice heifers have had an esp encouraging outlet during week and are closing 25@40c higher while medium to good grades have been elevated to the extent of 25c as compared to the way such kinds sold here late last week. All useful grades of mixed yearlings indicate 25 40c improvement over a week ago. eccipts have, been light and trade has carried an active tone the greater part of the week, prompt, early clear-ances being the rule.

closing days of the week, strengthening up materially, and at the close today values show little

MARKET CARRIED ACTIVE TONE AT PRICES GENERALLY A NICKEL HIGHER.

## steady as compared with yesterday. Trade in this department throughout the current week has been far

Best Offerings at \$7.95, With Bulk of Crop Selling at \$7.75@7.90 -Pigs on Stronger

General receipts of approximately 500 cattle today carried a very limited number of steers fit for the shambles. Trade was nominally steady at previous quotations.

Sharp contraction in the marketward movement of cattle this week had a decidedly beneficial effect on the trade for beef grades, prices on the trade for beef grades, prices on the trade for beef grades, prices at the close of the week showing a substantial margin over a week ago. Slumpy condition of the market last week, the national election on Tuesday of this week and the advanced season for moving western stuff, all combined to reduce the size of receipts during the current week. The total supply of cattle received at the five leading markets is barely 115,000 head this week, or 87,000 under the total supply of cattle received at the five leading markets is barely 115,000 head this week, or 87,000 under the aggregate figures for the previous week, while in comparison with a year ago a shortage of 74,000 is noted.

The decrease at this market was corrected at the five leading market is barely 115,000 head at all times.

Stockers and Feeders.

No. Ave. Price No. Ave. Price Prices ranged from \$7.45@7.95. The decrease at this market was corrected to the season of the previous week, while in comparison with a year ago a shortage of 74,000 is noted.

The decrease at this market was corrected at the five leading market is being 1250 cattle on hand at present, an accumulation of purchases have around 2500 cattle on hand at present, an accumulation of purchases have around 2500 cattle on hand at present, an accumulation of purchases with least week which are priced at the low level of the season.

\$\$\frac{1}{2}\text{0.00} \text{0.00} \te with good orders and sellers had little difficulty in lifting the price limit. Estimates placed the local run at 3,000 head and the five point total at 33,400. A week ago the five markets had 25,000. Trade here opened in good season and was practically over by 11 o'colck. Quality was fairly good. A top of \$7.95 was realized on best of the offerings, with bulk of the crop finding outlet at \$7.75@7.90. There was a little better inquiry for pigs. The good classes were strong to 10c higher and the common light weights moved more freely.

TAFT ISSUES PROCLAMATION

TAFT ISSUES PROCLAMATION

Sets Aside Nov. 28 as Day for Thanksgiving.

Washington, Nov. 8.—President Taft yesterday issued a proclamation, setting aside Nov. 28 as Thanksgiving day. The proclamation, in part, follows:

"A God-fearing mation, like ours, owes it to its inborn and sincere sense of moral duty to testify its devout the station of the part of the setting lambs.

"A God-fearing mation, like ours, owes it to its inborn and sincere sense of moral duty to testify its devout the station of the part of the setting lambs.

Solvestern lambs.

"A God-fearing mation, like ours, owes it to its inborn and sincere sense of moral duty to testify its devout the station of the plain natives down to \$3.75.

The following quotations are current on the local market:

Good to choice western lambs at \$7.00@7.50; fair to good western lambs, \$6.75@7.25; western ewes, \$3.55@4.00; western welthers, \$4.25@4.75; light yearlings, \$5.50@5.50 and city.

To the week's sales in a spread of \$7.00@7.40. Sheep have been more in evidence than at any time of late. Increase in evidence than at any time of late. Increase in evidence than at any time of late. Increase in evidence than at any time of late. Increase in evidence than at any time of late. Increase in evidence than at any time of late. owes it to its inborn and sincere sense of moral duty to testify its devout gratitude to the All-Giver for the sense coustless benefits it has enjoyed. For many years it has been customary at the close of the year for the national executive to call upon his fellow countrymen to offer praise and thanks to God for the manifold blessings vouchsafed to them in the past and to unite in earnest suppliance for their continuance.

"The year now drawing to a colse of the country in the past and to unite in earnest suppliance for their continuance."

"The year now drawing to a colse of the country in the past and to unite in earnest suppliance for their continuance."

"The year now drawing to a colse of the country in the past and to unite in earnest suppliance for their continuance."

"The year now drawing to a colse of the country in the past and to unite in the past and to unite in earnest suppliance for their continuance."

"The year now drawing to a colse has been notably favorable to our fortunate land. At peace within and without, free from the perturbations and calamities that have afflicted other peoples, rich in harvests so abundant and in industries so productive that the overflow of our porsperity has advantaged the whole world, strong in the steadfast conservation of the heritage of self-government bequeathed to us by the wisdom of our fathers, and firm in the resolver solve to transmit that heritage, un-impaired but rather improved by good use, to our children and our children's children for all time to come, the people of this country have abounding cause for contented gratitude."

Chicago Journal: There are places

in Europe, the Schloss-Johannisberlast square meter. This meter is combs and brushes we carry with us." worth so much; the grapes from that little patch are reserved for "cabinet" patch are less valuable. There are

places in China where the same exact on the porch." knowledge of every foot of soil is found. In China, the knowledge came by tradition rather than by labatory analysis, but it works. In this country, soil-platting has just begun and the unit of measurement is more likely to be an acre, or a ten-acre field, than a square yard. This is one are so much better than the crops of the United States. Their land is no better than ours, but they know it

### FALL PLOWING.

The fall of 1912 has been an un usually wet one so that the land in most localities in irrigated or unirr gated distrets, is soaked

puddling the soil, it would be highly advisable and desirable to plow as bed for crops to be planted in 1913.

Especially on heavy soils it would be advisable to plow deeply, 8 to 12 inches, if the plowman has the necessary power to do so. The plow might be followed with the disk which would compact the soil and still leave heated machines, holding 2,000 to 20, would compact the soil and still leave heated machines, holding 2,000 to 20, would exhibit on large extent by gas or hot-water heated machines, holding 2,000 to 20, would compact the soil and still leave heated machines, holding 2,000 to 20, would compact the soil and still leave heated machines, holding 2,000 to 20, would compact the soil and still leave heated machines, holding 2,000 to 20, would compact the soil and still leave heated machines are very delicate and expensive in the year. The establishment runs day and night, and a new chick sees light off ay every six seconds. It is a busy factory.

Within the last ten years the lampheated incubator has been repiaced the dates of the show will be from Jan.

1 to 16, the dates of the show will be made educational in character and there will be no fees.

inches deep, then in the spring of 1913 if it is possible to give a light coating of manure and plow 12 to 14 inches deep, greatly increased violds and cost and greatly increased violds.

In inches deep, deep, deep, deep, deep land insulated.

It already has been demonstrated that an incubator in which could be placed layers of eggs, one above the other, would be economical of space.

Durange Mexico. inches deep, greatly increased yields and cost and greatly increase the of sugar beets will result, if proper production.

Hundreds experimented with such forests that

Some experiments that bear light on this practice were carried out on the experiment station farm in 1910 and 1911. In 1910 all of the sugar beet land was spring plowed. None of it was plowed over eight inches deep, that being as deep as the plows could be forced into the ground. A deep tillage plow would have ployed deep tillage plow would have ployed to the bottom, making the temperature so uneven the process failed. The eggs in the center would become overheated and ruined. This unevenness of temperature furnished poultry men and inventors a big problem, with which they wrestled night and day. Finally the idea was conceived that blowing our of a known temperature and humidity into the hatching chamber would prevent wariation in temperature, when

inches deep after manuring. Although the year of 1911 was drier than 1910 and we had to put up with one less irrigation, our yield of beets was over fancy prices before the bulk of the twenty tons in 1911 while in 1910 it was just over seven tons. The only essential difference in the treatment of the seed bed under the two conditions was the double playing as ditions was the double playing as

Ant Said,

## Daddy's Bedtime

Untidy Jimmy Visits the

ACK and Evelyn had each had their bath and, wrapped in gay dressing gowns, waited for daddy to begin his story. "I'm glad you like to be nice and clean," he began, "and are not like Jimmy Juniper, who hated to get washed and was more often seen with

a dirty face than with a clean one. 'His mother urged him to be more tidy, and his father scolded; but, after all, it was a little ant that made a better boy of Jimmy.

"He was sitting on the porch one evening feeling very sleepy and wishing he could get out of taking the bath that his mother always insisted upon before he crawled into his soft white bed.

'Jimmy had been nodding several times when he felt his head go around, and before he knew what to think he had slipped down to the ground in front of the porch steps and was looking right into the eyes of a little black ant. 'Hello, Jimmy!' the ant said. 'Going to pay us a visit, are you?'

"Jimmy didn't say a word, but the ant took hold of one arm and began to hurry him along through a forest of grass. Jimmy, looking up, saw the clover blossoms nodding like tall palms over his head.

"The ant whisked Jimmy over to the ant hill near the gate. On top of it sat an ant combing its hair.

"'Just show this lad how to comb that mop of his,' said the ant who was

"They hustled Jimmy down on the ant hill, and then the ant raised its foot. Jimmy saw a coarse comb on it. It went through his hair very gently. Then it used a finer comb also on the foot. "The ants' bodies were covered with short hair, and when an ant came out

of the hill there were sometimes specks of earth on its coat, although the hallways in the ant hill are lined with earth packed down very hard. "When the ant got out into the air it would hurriedly comb off the earth

or sponge its body with its tongue. "'If you lived in this ant hill, young man,' one of the ants said, 'we'd teach ger vineyards, for example, where the you to keep clean. You have soap and brushes and sponges and fresh cloths soil is platted and analyzed to the and towels and a nice tub of water, while we have only our tongues and the

> "Just then a half dozen ants came hurrying out of the hill. They hung themselves up in the funniest way by their hind feet to a blade of grass while two of their companions combed and brushed and curried them very much as a horse is curried. Then they dropped off to sleep. As Jimmy began to feel sleepy, he fell asleep, too, and when he awoke he found himself in the chair

## A MISSOURI DEER FARM.

Demand for Animals from Parks, Makes Venture Pay Well.

In a half developed hill country a few agricultural side lines may mean the difference between farming at a loss or a profit, Chamler Roseberry of Stella, Mo., has half a dozen of these side lines, and the most unusual these side lines, and the most unusual of them, deer farming, has in recent years proved the most remunerative. There was no demand at all for deer in the Ozark Hills when a little over 20 years a as a boy of 16 Roseberry penned off one and a half acres for a fawn which a neighbor gave him for a pet. The first fawns that the young deer farmer sold a few years later were \$20 a pair, and grown deer \$30 a pair.

## **ABOUT HORSE BREEDING**

EXPERT EXPLAINS SYSTEM FOR GETTING GOOD "RE-MOUNTS."

### Dainty Ants BELMONT HELPS SCHEME

Army Experts Finally Gets Congres to Appropriate \$50,000-More Money Needed to Further the Project.

Washington, D. C., Nov. 8 .- When the last congress passed the agricul-ure appropriation bill it made avail-able \$50,000 with which to start the work of breeding horses for the army under the supervision of the animal husbandry division of the bureau of animal industry. This sum, while not sufficient to carry out the entire plan, will enable the work to be started.

The project as outlined in a circular by the bureau of animal husbandry contemplates eventually the

pandry contemplates eventually the ourcabse of 100 stallions, consisting thoroughbreds, twenty-five tandard breds, fifteen saddlers, and en Morgans. These will be stationd in four districts composed of states a New England, the central, the

outhwestern, and the northwestern ections of the country. As outlined, no mare shall be bred As outlined, no mare shall be bred to a government stallion until she has been approved by the proper officer as of the type suited to produce remounts. The common unsoundness, the tendency to which may be transmitted from one generation to another, should naturally disqualify a mare but even more important would mare, but even more important would be the necessity to refuse a mare on account of manifest faults of con-

ormation, action or quality.

The terms of service shall be free providing the owner of the mare enters into a contract to give the war department an option on the resultng foal during the year it is 3 years ld (estimating a horse to be 1 year ld on the first of January after it is foaled) at a price to be fixed before the mare is bred. In case the foal is sold before the war department has exercised its option no service fee shall be exacted provided the purchaser assumes the option.

The amount of the service fee has

not been decided upon, but in all probability it will be \$25 for the ser-vice of mature stallions. In Vermont, where the bureau has several stallions, \$15 for 3-year-old stallions, \$20 for 4-year-old stallions, and \$25 for matured stallions has been charged. This scale is in harmony with the one contemplated in the army horse breeding plan.

has been established at onnor, Tex. The largest farm parks and circuses and country places ment's plan. About fifty mares were on horses promising to mature ver sixteen hands. Halfbreds over xteen hands in Virginia furnish ost of the high class hunters from

The girths, to which the siding is tacked, are 2x6s, 10 feet long, and are securely spiked to the posts. The siding is 1x4 stuff and is put on vertically, with one-quarter inch spaces left for ventilation.

The accompanying diagrams show of shingles, iron or tar paper. There danger of spoiling. Narrower than is room for a track and sliding doors, so that the driveway can be utilized holding the same amount of grain, so for storing machinery. However, no machinery should be allowed to touch the crib, which will give the rats a chance to gnaw their way in.

### CHEAPEST OF ALL PAINTS

Whitewash of Especial Value and Economy for the Farmer.

No one could tell Tom Sawyer how o get white washing applied to the ence, but the art of mixing whitewash has advanced a long way since his time. Whitewash is the cheapest of all paints, and for certain purposes the best, says the editor of the Farm and Home. Lime, which is the basis of whitewash, makes a very sanitary coating and is probably to be pre-ferred for cellars and the interior of stables and other outbuildings. For ordinary whitewash place

pounds quicklime in a pail and cover over in two gallons water. Cover the pail with a piece of cloth and allow it to stand for an hour. Then dilut with sufficient water so it will work easily. This wash may be strained to remove sand and lumps, and then applied with a pump. A "bordeaux" ozzle is commonly used for the pur-

For interior use, where a wash is needed that will not rub off, use one bushel quicklime and 15 gallons water. Put the lime in a barrel pour in the water, and keep the barof feed, and this raw material is manufactured into milk. The same rule holds as in the running of any other manufacturing plant—it is run most drawing on the reserve material of economically near its full caracity. gallons boiling water. Dissolve 21/2 bounds common rock salt in 21/2 gallong hot water and mix with the rye flour, then pour this into the waterwash and stir it well. This whitewash is used in large factories and is recommended by insurance compan-

This group inmade by slacking a bushel of lime with 12 gallons water, then adding to pacity, which are liable to be overfed. it 12 pounds rock salt dissolved in si especially when they are in the herds gallons boiling water and finally mix-ing in six pounds Portland cement. of dairymen who realize the necessity If an ounce of alum is added to the allon of whitewash it will prevent rubbing off. Flour paste answers the The proper feeding of this group of animals can be made clearer by the zinc as a preservative. A pound of clean bar soap dissolved in a gallon of water and added to five gallons thick

> COLONEL HOLDS ILLINOIS. election returns received up to clock this morning are that C Roosevelt probably has carried Illi-nois by 10,000 votes over Governor Wilson. Wilson gradually gained strength throughout the day in the downstate reports, but the colonel's lead of 38,000 in Cook county proved be large enough to carry

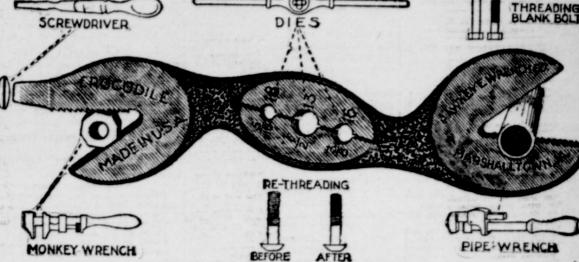

whitewash will give it a gloss like of

Based on the returns received from fifty-four of the 102 counties in the state, the final result probably will be: Roosevelt 359,000; Wilson 340,000; Taft 215,000; Debs 70,000, and Chafin 15,000.

in excess of that required to maintain the body. The amount which the cow T. R. WINS PENNSYLVANIA. om more than five-sixths of all the lection districts in Pennsylvania give heodore Roosevelt 28,073 plurality ver Woodrow Wilson. The missing districts are expected slightly to increase his plurality. The vote of the three leading candidates as computed from the returns received was:

Roosevelt 384,384, Wilson 356,311, Taft 255,331.

# The Crocodile Wrench

## An Ideal Farm Wrench

Drop forged from the finest tool steel, scientifically tempered. Every wrench guaranteed against breakage.

## Six Handy Farm Tools in One

A pipe wrench, a nut wrench, a screw driver, and three dies for cleaning up and re-threading rusted and battered threads. Dies fit all standard bolts used on standard farm machinery.

Requires no adjustments; never slips; simple and always ready for use. Will work in closer quarters than any other wrench.

Has handsome, blued finish.

Every farmer should carry one of these handy little wrenches on a binder, reaper, mower, etc. They are light, strong, compact and easily carried in the hip pocket.

The Crocodile is also a handy household tool.

Enclose \$2.00 for six months' subscription to Stock Yards Daily Journal and wrench will be sent you free of charge.

GO EASY ON HEALTH FADS

Trouble is That They Cannot Be Made to Sult the Physical Make-Up of All People.

Cleveland is the home of the newest fad. The Ohio city has a "Keep Well" club composed of persons who believe in restricting indulgence in food. They fast now and then from a week to a month. One apostle of Republicans failing to elect a single the cult declares he has found abound. man ing health in a diet of eight quarts of milk daily for eight months.

beneficial to some Clevelanders. It is Alfalfa—Choice, \$16@16.50; No. 1, beneficial to some Clevelanders. It is \$14.50@15.50; No. 2, \$13@14; No. 3, probably also true that many people in other cities-perhaps even some in Detroit-eat too much, particularly in the summer time. But it is equally the endurance point of weak hearts stock yards:

Commission Firms. and so commit virtual suicide.

> It is just at this point that so many health, beauty, and nostrum fads become so deadly and so damaging. Every well-informed person knows that a wise medical practitioner when called to attend a sufferer, must try to adjust his remedies to the physical powers and idiosyncrasies of the patient. The remedy which acted like la grippe may prove useless and actually dangerous to Smith owing to come 210-13. ally dangerous to Smith, owing to some disturbance of Smith's digestion, 201-203. weakness of his heart, or what not. So with health fads. Hence, before 333-40.

Alfalfa—Choice, \$18,50@17; No. 1, quant. It was launched and worn. It \$15@16; No. 2, \$12@14; No. 3, \$8.50 became the subject of platform oraever masqueraded in man's dress or donned it for climbing will ever forget the freedom of it. Yet the only woman in the Christian world who ever wore it at once naturally and with that touch of coquetry which is necessary to carry it off, as far as this writer's personal observation goes, was Mme. Dieulafoy, and Mme. Dieulafoy was protected by the French government and an exclusive circle.

"Bloomers proved too much for even the courage of dear Miss Anthony. For two years she wore them, turns served only to increase Gove and then with tears and lamentations resigned them. In that resignation resigned them. In that resignation Miss Anthony paid tribute, unconsciously no doubt, to something deeper than she ever grasped in the woman question. Her valiant soul met its master in her own nature, but she its master in her own nature, but she City give us a trial. Liberal advance: and Miss Anthony paid tribute, unconits master in her own nature, but she state give:
Taft 153,376, Wilson 231,855, Roose Taft 153,376, Wilson 231,855, Roose her convenient and becoming costume KANSAS CITY HAY CO. because of prejudice, she said. What other prejudice ever dismayed her! She thrived on fighting them; she met

> First Picture Postal Cards in 1870. In Nuremberg they have been making arrangements to celebrate the thirtieth anniversary of the picture postal card with a congress and exosition this year. Unfortunately for their plans, however, it has been discovered that the first picture postal card was not made in Germany or sent from Nuremberg, nor was it born in 1882, as they had supposed. The distinction of making and mailing an deau, a book selier of Sille-le-Guil-laume, near Conlie, department of Patee Park, St. Joseph, Mo. laume, near Conlie, department of Sarthe, France, in 1870, during the war with Prussia, he printed pictures on postal cards he was mailing to clients. M. Besnardeau is still alive and there are many of his old customers in France who have the cards he mailed them. The Germans adopted the idea for the Nuremberg exposition

Obedience to Moral Law. "Obedience to moral law will not cess- bring prosperity, necessarily, but it will enable a man to do without it: it will ennoble poverty. Goodness is its DR. G. W. ALLAMAN, Atchison, Kansas own paymaster. There is no need to make goodness attractive by artificial rewards; no need to make vice forbidding by arbitrary punishments. The fearful punishment of lying is to be a liar; the fearful punishment of vice is to be a victous man; the horrible punishment of beastliness is to be a beast. The splendid reward of being good is to be a good man. You love your husband and wife and children and friends. Do you ask for more than the joy and privilege of loving?"-A

Modern Preacher. Priend of the People. Mr. Pompus (to butler)-I'm expect ing a deputation at 12 o'clock to ask me to stand for the borough.
