Ray's 'Ritin'

By RAY MARTIN

The man on TV came storming into the room wagging a white shirt which had a dirty collar. He was most unhappy, as he stormed out, "Mable, you're 'flipping.' And then he showed her the awful, awful thing that she had done - she had actually failed to get the collar of his white shirt clean! Tsk! Tsk! Can you imagine anything much worse? She should have been placed in a dungeon somewhere and forced to live on bread and water - it was that awful.

The mousy little wife, instead of shoving the shirt straight down his big fat mouth as she should have done, merely admitted that she had used brand X bleach instead of the one that was paying for the commercial on the TV. And finally she promised to be good in the future and use only the right brand of bleach and he magnanimously forgave her.

No wonder kids of today don't have any manners. That was a perfect example of the sort of lousy manners that TV parades these days. Gripy husbands with lousy manners!

And then there's the woman who has a headache. She "takes it out" on a poor little kid who has come to her to show the headachy lady a drawing she has made and the headachy woman storms out at her that she is busy.

Then this very wise man who represents the right headache pill comes on and says, "sure you have a headache, but don't take it out on her," or words to that effect.

So the headachy lady takes one of his pills and then she is all kindness to the poor little girl. Sometimes it's several children she makes them a plate of cookies - after she has taken the right brand of headache remedy - and she is kind and gentle and sweet, thanks to this right brand of headache medicine.

But again it's a case of poor manners. Headache or not she shouldn't storm out at people. And then not once have I ever seen one of these flare-off women actually apologize for her nasty temper.

As I said, how could kids learn manners under such circumstances when TV now spends more time with the children than the schools, Sunday Schools and the parents all put together?

Or there's the big shot who sits at his glass-topped desk in a snooty office building and screams at his secretary, "Miss Jones, get me the file on Simpkins." No please. No nothing. My wife and I have been married for 30 years and neither of us has ever asked a favor without a please.

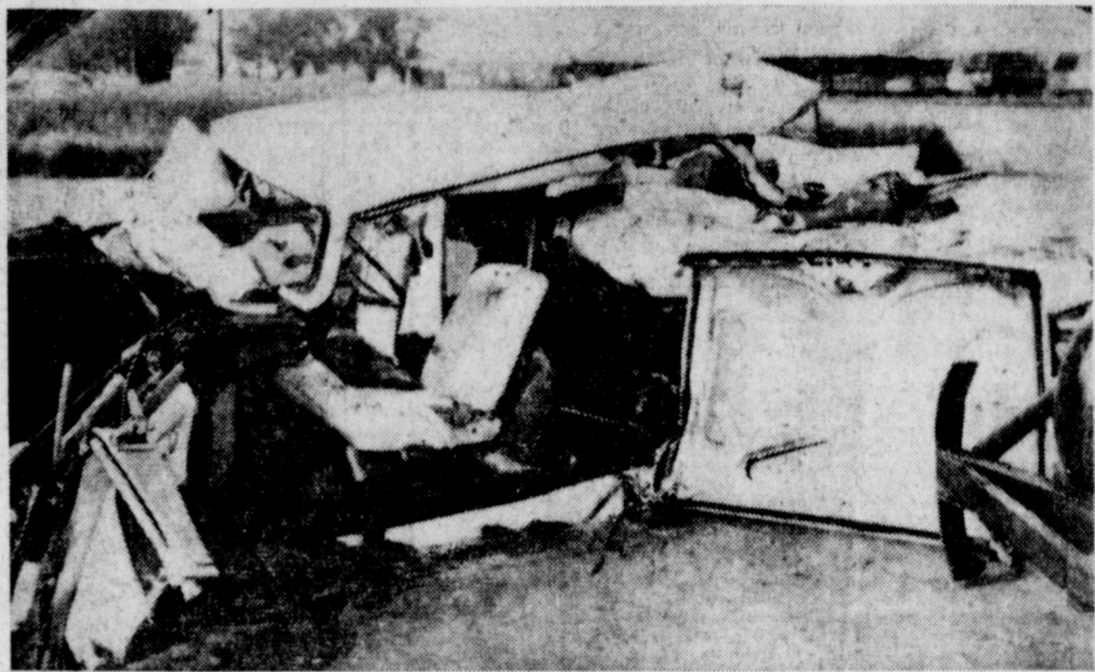

Personally I do not think there is a single executive in the world who is so busy or so important that he can't say please to his secretary. Or is there something sissy or weak about the word "please"? I honestly believe that thousands of people, including TV writers, have never even heard of the word "please."

Or there's this guy who is the winner of a particular round in one of the give-away quiz shows. (See RAY'S, page 5)

Cotton Acreage Cut For 1963

FATAL TO THREE—Three persons died as a result of a two-car crash in the rain nine miles northwest of here Friday night on "Killer 84." Here is what is left of the two automobiles. At left is the car in which Mrs. Margie Marie Gober, 31, was fatally

injured, and at right is the car in which Mr. and Mrs. Frank Strand, each 51, were fatally injured. Mrs. Strand, who was driving, was killed instantly. Strand died in West Plains Hospital here Monday morning. (Journal Photo & Engraving)

94,855 Acres Set In County

Bailey county will have a cotton allotment in 1963 of 94,855 acres as compared with 105,568 acres in 1962, Charles A. Daniel, office manager of the Bailey County Agricultural Stabilization and Conservation Service, announced this week.

This is 90.1 percent of the 1962 allotment, or equal to a 9.9 percent cut, he explained.

This downward trend in allotments is in keeping with the general cotton picture for 1963.

Texas' allotment for next year was set at 6,824,096 bales as compared with 7,698,169 bales for 1962, a cut of 12 percent.

Daniel said farmers will vote Tuesday, December 11, on marketing quotas for the 1963 upland cotton. At the same time farmers also will vote to decide whether marketing quotas shall apply on the 1963, 1964 and 1965 peanuts.

Voting places in Bailey county will be at the Bailey County ASCS office in Muleshoe and the Beck Gin at West Camp for community "A"; at Maple Co-op gin and the Bailey county gin at Baileyboro for community "B"; and at the Claunch Gin at Bula and Gage Gin at Circleback, for community "C". Polls will be open from 8 a.m. until 6 p.m. at all these places.

Daniel explained that marketing quotas and acreage allotments will be in effect if quotas are approved at the December 1 referendums. Also a farmer who exceeds his farm allotments will be subject to a quota penalty on his "excess" cotton and price support at a level within the range of 65 to 90 percent of parity will be available to growers who comply with their allotments.

On the other hand, if marketing quotas are rejected, "No marketing quotas and no marketing quota penalties will apply to the 1963 upland cotton crop; farm acreage allotments will continue in effect; Price support at 50 percent of parity will be available to growers who comply with their farm allotments."

Nationally, the cotton acreage was set at 14,360,000 bales.

Allotments for area counties are as follows:

Lamb county - 184,894 bales as compared with 205,846 in 1962.

Parmer county - 42,427 for 1963 as compared with 47,024 in 1962.

Gastro county - 52,670 for 1963 as compared with 57,683 bales for the current year.

Cochran county - 71,649 as compared with 86,149 bales this year.

Bobo's Mother Dies in Rhome

Mr. and Mrs. Pat Bobo left Thursday, for Rhome, Texas, to attend the funeral of his mother, Mrs. Zach Bobo, 95, who died at 4:30 Thursday morning. Arrangements are incomplete.

Surviving are 12 children.

Easement Begins For Widening U.S. 84

While the antiquated highway continues to pile up a gruesome accident record, including three deaths during the past week, advance work, preliminary to starting construction on U.S. 84 northwest of here is still a long way from completed.

That's the word of County Judge Glen Williams, who made a trip to Lubbock last week to the district highway department office to see if he could learn the status of the road program, which would four-lane the double highway from Muleshoe to the county line.

However some progress is being made on the road for which Bailey county citizens voted their share of the cost - \$250,000 - a year and a half ago.

This tedious preliminary work includes preparing of easements. An official of the highway department has been working in the courthouse for several days preparing these easements and checking ownership of land along the proposed route.

Meantime, the bond-provided money continues to draw a small amount of interest but as great as that which is being paid the bond buyers, Judge Williams

Early Birds Get The Worm-Fines

Two caver hunter hunters wound up by paying fines this week in Justice Joe D. Vaughn's court in Muleshoe.

They started too early - before sun-up. Law permits hunting between sun-up and sun-down, he explained.

Another hunter was fined for county without a license. A hunting outside his own county without a license. A license is required if a hunter strays beyond the border of his own county or his own land.

In addition, Judge Vaughn handed out fines to two speeders and three drunks in a relatively quiet weekend.

"Of course it is impossible to put the money out for interest," Judge Williams explained, "since it must be available on a moment's notice when actual right-of-way buying gets under way. For this reason we cannot put this money on time deposit."

Chamber Board Reviews Year, Studies 1963

The final meeting of 1962 for the Board of Directors of the Muleshoe Chamber of Commerce was held Monday evening, followed by an informal coffee hour for directors and their wives.

At the business session of the meeting, the directors reviewed current projects and spent considerable time going over the proposed program of work for 1963.

The 1963 program of work approved by the directors contains fifteen points and is designed to further the progress of the entire Muleshoe area. The approved program is as follows:

The Chamber will work with the County Commissioners Court to secure adequate and humane jail facilities for the County.

The Chamber will continue its program toward the eventual building of a new park.

The Chamber will cooperate with the city council in the adoption of a zoning ordinance.

One of the objectives of the Chamber in 1963 will be the securing of a vegetable cannery.

The Chamber will encourage the formation of an industrial development corporation.

The Chamber will sponsor the organization of a single fund drive for charitable and welfare contributions in order to conserve

3rd Polio Series Is Delayed

Type III polio vaccine will not be given next Sunday as scheduled, pending "action by the state and federal medical bureaus," it was announced Wednesday by Dr. H. N. Hinckley, Littlefield, secretary of the four-county medical society.

"We are going along with the Lubbock Medical Society in postponing Type III immunization for the time being," Dr. Hinckley said. "I feel certain the final phase of the immunization program will be carried out later, but we prefer to wait for approval of the program by the state and federal organizations."

Dr. Hinckley said Dr. R. E. Maurer had talked with the Lubbock society and decided that the Lamb - Bailey - Hockley-Cochran Counties Medical Society will follow the Lubbock society's pattern and wait for further approval. Dr. Maurer is the new president of the four-county medical society.

In Muleshoe, Dr. B. P. McDaniel was to have been chairman of the program here.

Announcement of the December 9 date for the type III immunization program had been announced a week ago by Dr. D. J. Stafford, Littlefield, retiring president of the four-county organization, following a meeting of the society in Lubbock a week ago.

At that time Dr. Stafford said the decision to administer Type III had been reached by the doctors after Canada had lifted restrictions on this phase of the immunization program. It was in Canada that the final type of vaccine had been banned following a few adverse after effects from the vaccine. However, Dr. Stafford said the odds were "a million to one" against undesirable after effects.

Groups Plan Yule Music

Muleshoe High School band and choir will perform tonight (Thursday) from 7 to 7:30 p.m. on the courthouse lawn as the first of three such programs is presented as part of Muleshoe's Christmas observance.

They will be presented again on December 13 and December 20. Kathy Phillips directs the band, and the choir is led by Paul Durham.

Vast Watershed Control Plan Is Under Study

A huge water shed project which would extend all the way from Clovis to Plainview, covering the "Running Water Draw" is being boosted by soil conservation enthusiasts all along the route. Provided would be a number of lakes which would serve the dual purpose of conserving soil and water and providing water for irrigation purposes for the owners of the land.

This vast project, which is to be tried under Public Law 566, was explained to Muleshoe Rotarians this week by F. A. (Flip) Calhoun, Plainview, chairman of the Hale county soil conservation district.

Actually the project would be a two-phase program, one covering the lower watershed and the other the upper watershed.

Under Public Law 566, the local area makes application for such projects, through their local soil conservation set-ups. Then the federal government supplies money for the construction if the project is approved. Local area workers secure the easements and the right-of-ways and pro-

'Killer 84' Takes 3 Lives in 2-Car Crash

"Killer 84" took three more lives over the weekend to bring its bloody record for the year to 5 and 7-year slaughter ter mark to 33 for a 10-mile strip northwest of Muleshoe.

The accident occurred in rain-drenched nighttime last Friday, nine miles northwest of Muleshoe when one automobile skidded and slammed broadside into another automobile. One person died in the crash, another a few hours later and the third victim succumbed Monday morning.

Mrs. Ruth Marie Strand, 51, Tucumcari, N.M., was pronounced dead at the scene by Justice of the Peace Joe D. Vaughn.

Mrs. Margie Marie Gober, 31, Breckenridge, died in Muleshoe's West Plains Hospital at 1:50 a.m. Saturday.

Frank Strand, 51, died at 8:45 Monday morning in West Plains Hospital without regaining consciousness.

Thomas E. Gober, 36, was still a patient at West Plains Hospital, suffering from broken ribs, cuts, abrasions and a dislocated hip. His condition was reported as satisfactory.

The Gobers were enroute to Clovis, N.M., to make their home where they were to help Dr. M. F. Green open a new clinic. Gober is a laboratory technician and Mrs. Gober is a registered nurse. She formerly lived in Clovis. She graduated from Rosedale High School and was also a graduate of Northwest Texas Hospital School of Nursing, Amarillo. She had worked from 1954 to 1960 as evening supervisor in Moore County Memorial Hospital, Dumas.

She is survived by her husband, her mother, Mrs. Iva Trower, Clovis; three sisters, Mrs. David Barrows, Clovis; Mrs. J. W. Robbs, Ridgecrest, Calif., and Mrs. R. T. Devall, San Bernardino, Calif., and by a brother, Billy Ray Trower, Albuquerque.

Funeral services for Mrs. Gober were held Tuesday in the First Church of the Nazarene in Clovis with the Rev. J. Paul

Santa Came to Town in the Rain. Junior Came to Town in the Rain to See Santa

POPULAR VISITOR — That was Santa Claus, the old gentleman from the North Pole who shows up only in December. He came to Muleshoe last Saturday in a fire truck and went immediately to his workshop on the

courthouse lawn to greet literally hundreds of small fry who braved a steady rain to visit the old fellow and make their wants known. He had candy for every caller. At left is a part of the block-long line that waited for a

chance to see Santa, and in the center picture is shown a part of the line outside his workshop. At far right is an inside shot, showing Santa in an earnest conversation with Mickey Rush who admitted to Santa that maybe he

had had a fight or two this year, but he was still a "pretty good boy." He returns for the next three Saturdays. (Journal Photo & Engraving)

Double Ring Vows Read For Miss Joy Vinson and Melvin Campbell

Double ring vows were exchanged by Miss Joy Elizabeth Vinson, Sudan, and Melvin Leon Campbell, Littlefield, at 7:30 Saturday evening in the Sudan First Baptist Church. Lighted cathedral tapers and artistic arrangements of white mums flanking an archway of greenery and white flowers formed the altar setting for the ceremony read by the Rev. Willie Hazel, pastor of the church.

Parents of the newlyweds are Mr. and Mrs. Oscar Vinson, Sudan, and Mr. and Mrs. L. M. Campbell, Littlefield.

Singing traditional wedding selections was Carol Ann Watkins accompanied at the organ by Tommy Cate.

The bride, escorted by her father, wore a self-designed gown fashioned by her mother, made of deluster satin and featuring long tapered sleeves. Alencon lace appliques accented the scoop neckline and center panel of the skirt. The skirt extended into a chapel train.

Her fingertip veil of silk illusion depended from a headpiece of artificial rose buds and leaves enhanced with dainty organza petals and seed pearls. She carried a bouquet of Frenched carnations and button mums atop a white Bible.

Bridesmaids, Madein Turner, Jane Meeks and bridesmatron, Mrs. Charles Heffington, Spade, wore identical costumes to the Matron of Honor. They carried single long stemmed white roses.

Lighting the candles were Kay Baker, Sudan, and David Campbell brother of the groom.

The flower girl was Sharla Birkelbach of Littlefield, niece of the bride.

Serving his brother as best man was Mack Campbell, Littlefield. Groomsmen included Dale Ward, Emil Birkelbach, Gaylon Burns, all of Littlefield.

Ushers were Floyce Pierce and Jimmy Owens, Littlefield.

For her daughter's wedding Mrs. Vinson wore a two-piece pink wool suit with matching accessories. The groom's mother wore a two piece royal blue dress with matching accessories.

Registering the wedding guests was Mrs. Gaylon Burns.

At the reception held in the church parlour the bride's table was covered with a lace cloth over red and was decorated with white mums and pom pom mums. Presiding at the serving table

Double knit wool suit of Saphi blue with matching shoes at white gloves.

The couple will make the home in Sudan. She is a 19 graduate of Sudan high sch and is employed with Southwestern Public Service. The groom is a 1956 graduate of Littlefield High School and is presently engaged in farming.

Special Invitation Extended By Bureau

The Bailey County Farm Bureau Women's Committee has received a special invitation from Mrs. Haven Smith, Chairman of American Farm Bureau Women to attend the Delegates dinner at the Dinkler-Plaza in Atlanta, Ga. on Sunday evening, December 9. The Texas Farm Bureau President, C.H. DeVaney has also been invited to be present.

They have been asked to send the Bailey County Farm Bureau Women's Committee chairman, Mrs. Morris McKillip, or another representative to represent Texas Farm Bureau Women at the Delegates dinner and to give a report of what Texas Farm Bureau Women have done in the past year.

Each State chairman will be recognized and will give a report. The Bailey County Farm Bureau Women have been given complete recognition and status as the official leaders of Texas Farm Bureau Women by the American Farm Bureau. This is a great honor and a great responsibility. Bailey County Farm Bureau Women will continue to work to deserve this recognition. They feel that this is a very good start toward making Texas another state that has an active, organized, Women's Committee. They hope that at least one of their members can attend this meeting in Atlanta. It is an opportunity to put Bailey County on the map, in Farm Bureau, at least, a spokesman for the organization said.

Christian Science Topic Announced

"God the Only Cause and Creator" will be the subject of the Lesson-sermon at Christian Science church services Sunday. Scriptural readings will include these verses from Romans: "O the depth of the riches both of the wisdom and knowledge of God! how unsearchable are his judgments, and his ways past finding out!...For of him, and through him, and to him, are all things: to whom be glory for ever."

This correlative citation will be among those read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy "All substance, intelligence, wisdom, being, immortality, cause, and effect belong to God. These are His attributes, the eternal manifestations of the infinite divine Principle. Love."

COTTON PRODUCERS

A NEW MARKETING CONCEPT FOR BETTER PROFITS

At Last, A New Form G Loan Association to give Farmers a Choice of putting their cotton into a marketing association or putting their cotton into a loan where they can keep and sell their own equities. You be the judge as to the number of bales you wish to put in this loan.

If the Farmer Wants Us To Merchandise His Cotton for Him, he will receive the regular government loan price immediately, then he will receive the additional profit after we have sold his cotton. The cotton will be pooled, both on green cards and actual samples, to get a better volume, but the profits will not be pooled. Each farmer will receive in cash the profits from his individual cotton.

If The Farmer Wants to Keep His Own Equity, he will have an equity easy to sell and he will not have to go through the ASC office to sell it, as you do with Form A. The Green Cards and Compress Tickets will be kept locally in Lubbock so that buyers can get quick service in redeeming the cotton from the loan and they will buy these Form G equities in preference to Form A Equities.

We have over 60 ginners writing this loan now and we have more signing up daily.

See **Walt Colbart** for further details and information concerning this Form G loan at Muleshoe Cotton Company office, 321 American Blvd. (Next to Lang Transit Co.)

Mules Launch Cage Season With Wins

Muleshoe basketball teams, which launched their 1962-63 season last week, are off to a good start, and through Thursday had managed to maintain a perfect record in games played so far—with the exception of two tourney losses.

Coaches are Louis Powers for the boys, Willie McAlpin for the girls.

Latest victories were scored Tuesday night when Cotton Center brought their boys' B team and girls A and B teams to Muleshoe for a triple-header.

Muleshoe won the boys' game by a score of 45 to 41 with Don Finn scoring 12 points, Don Shanks 10 and Jerry Hutton 8.

Muleshoe's A girls nosed Cotton Center 38 to 35, and the B lassies won 36 to 29. Peggy Lewis scored 14 points and Lola Harrell rang up 11 points to lead scoring for A lassies, while Diane Wilson with 15 points was high-scoring player for the B squad. For the Cotton Center girls' A team, Patsy Nutt led with 23 points.

Boys' A squad started off with a victory last Friday night when they downed Tatum, N.M. 44 to 39 and the B team defeated Tatum's outfit 38 to 34.

Taylor said the team "looked pretty good considering the amount of practice they had and their lack of experience."

Scoring in that game for the A team were Dick Allison, 12 points; Jerry Gilbreath, 8 points; Jerry Harrison, 8 points and Robert Seagraves, 4 points.

A busy schedule faces the squads for this weekend when Springlake comes here Friday for A boys and girls settos, preceded at 5:30 by a boys' B team scramble with Clovis' B squad.

Then on Saturday, boys' A and B teams go to Tatum for return matches. Dimmitt is seen by the coach as the chief conference contender this year with Michael Cavert as a threat. He scored 32 points Tuesday night in a game with Phillips.

Next Thursday at 4 p.m. Muleshoe blasts off its series in the Tullia tourney when A boys play Phillips, followed by the girls' opener at 5:15, the Mulettes meeting White Deer.

Powers said pairings already have been made for the Ft. Sumner N.M. tournament to be held Dec. 20, 21 and 22. The Mules open at 2 p.m., December 20 meeting Ft. Sumner.

Girls finished second in the Kress girls' tournament last week, nosing out Nazareth 36 to 34 in their first game Thursday, and losing to Quitaque 41-19 in the second round. Dianne Chappel with 11 points, led scoring in the first game while Lola Harrell with 13 points, topped the Muleshoe scoring in the second game.

The third game, played on Saturday, was also in the losing ranks when the locals were defeated 41-19 by Silverton. Lola Harrell again was high-pointer with 17 points, according to Jennie Bayless, Muleshoe's manager.

Easement--

(Continued from page 1)

Average interest rate being paid bond-holders is 3.60 percent.

He said District highway engineer Oscar L. Crain, Lubbock, was here last week. With him was Ray Bradley, resident engineer, Littlefield, who will be in charge of designing and constructing the road.

Crane and Bradley told the judge that easements should be ready "pretty quick" now, and Williams added: "We will be ready as soon as highway officials get this phase of the program completed."

After this part of the program is completed, the next step will be for the area highway department to ask the state department for construction funds. Little delay is seen likely in that part of the project.

After that the county employs an appraiser, who reports to the commissioners' court after he has appraised the land along the route.

This is followed by appointment by the commissioners of a man to deal directly with the land owners. He can offer only as much as the appraiser has set as the actual value of each particular tract. If this price is agreeable to the land-owner, then the state pays half of the cost and the county pays half. But if the owner holds out for more than the appraised value, the county must pay the additional cost. Generally speaking, the county's share of the cost is for buying right-of-way and clearing it of obstructions.

The judge said several problems are likely to arise, dealing with what he termed "obstructions" along the highway. These must be dealt with separately. One such hurdle which has been solved is the Progress Baptist Church. Deacons have agreed to a plan to move the church far-

The Chamber will promote greater participation in local, state and national elections by people in our area.

The Governmental affairs committee will work closely with all elected bodies in the area in a program to keep the public better informed as to the activity of elected groups.

Continue the Chamber's farm dinners, Fourth of July program, and the agri-business portion of the 1962 program of work.

A well-planned and executed membership drive to make the chamber really represent the Muleshoe area, with emphasis on farmer members.

The retail committee will promote several community wide retail promotions during 1963. Stricter control will be exercised over solicitations, itinerant vendors and other questionable sales schemes and promotions.

Directors present included: Frank Ellis, Retiring president; Bobby Airhart, Bill Wimberly, W. F. Birdsong, Harold Allison, James Jennings, Irvin St. Clair, Roger Albertson, Earl Harris and Harmon Elliot. Also present were Mrs. Airhart, Mrs. Wimberly, Mrs. Jennings, Mrs. St. Clair, Mrs. Albertson, Mrs. Harris and Mrs. Ellis.

Industry replaces, on the average, 60 per cent of its profits in to development and upkeep compared with 30 per cent 40 years ago.

They back on land which must be procured for this purpose. "We believe that some progress is being made by the highway department, and soon we will ask for Lawrence McGee to meet with the county commissions and see if we can't get the project rolling." Judge Williams summed up. McGee is the state highway department engineer in charge of right-of-ways.

He said the road is recognized as one of the most heavily travelled in west Texas since from here to Farwell the road serves both U. S. 84 and U.S. 70. He said the traffic count shows that more than 5,000 vehicles a day pass over the road.

He's sitting in chair marked "X" and cannot move because camera No. 2 already has him in focus. His next opponent comes in - a woman - and she sits down beside him in chair "Z" and they shake hands -

WHILE THE MAN IS SEATED! Emily Post must revolve in her grave every time she "sees" one of these uncouth gentlemen shaking hands with a woman while he sits. Of course it's done, as I explained, so the camera won't lose focus.

But there's one show where everybody on it is a gentleman. It's "What's My Line," the only show on television that has any manners, so far as I am concerned. Every man gets up out of his chair every time a woman comes into the scene, and somehow the cameramen there manage to do all right by their focusing jobs.

But, as I said, since children do most of their learning these days from watching TV, what possible manners could they learn? There's no other show like "What's My Line," and besides it comes on so late that Junior probably already has gone to bed.

Anyway, this is plea for the return to the English vocabulary of the little five - letter word "please." Not only is it good manners but it's just good business, good morals and good sense to use it. Maybe I'm a square, an old-foggy or silly, but it does seem to me that manners are slipping all down the line, and because of this abrupt, cold unmanly world in which we live people are having heart attacks, ulcers and frequent sessions with their psychiatrists.

I wonder is it because of the decline of manners (which after all are only kindness and consideration for the other fellow)

vide for operation and maintenance. Although the program would be an area-wide one, each land owner would retain ownership of the project involving his individual land, and he would have complete control over the land covered by the program.

The project, Calhoun said, has been under study for some time. County Soil conservation districts along the area have been asked to co-sponsor the move, and municipalities involved also are asked to co-sponsor the plan. Only two municipalities, however, are involved - Plainview and Clovis.

Calhoun says that each program would involve approximately 165,000 acres for a grand total considerably more than 300,000 acres.

Briefly the program would include a series of detention structures (dams) starting in Curry county and coming down "Running Water Draw" southeasterly to Plainview. These dams would be built at intervals of 10 to 12 miles and would provide a maximum water capacity of 5,600 acre feet. The water would be automatically released through permanent spillways under the dams, released at a rate to prevent erosion. However, the lakes created would not be drained entirely at any time since sediment basins would be necessary and thus large amounts of water would be retained in each lake. He says there is need for at least one large lake in this area, and doubtless this will be included in the final plan.

Ode to Friday's Gridiron Hero

"Between the innocence of boyhood and the dignity of men, we find a sturdy creature called the football player. Football players come in assorted weights, heights, jersey colors, and numbers, but all have the same creed: To play every second of every game to the best of their ability.

"When your team is behind, a football player is incompetent, careless, indecisive, uncoordinated, lazy, and stupid. Just when your team threatens to turn the tids of battle, he misses a block, fumbles the ball, drops a pass, jumps off side, falls down, runs the wrong way or completely forgets his assignment.

"To his own coach he has, for purposes, the stability of a mule, the fleetness of a snail, the mentality of a mule, is held together by adhesive tape, bailing wire, sponge rubber, and has about as much chance of playing next Saturday as would his own grandfather.

To an alumnus, a football player is someone who will never kick as well, run as far, block as viciously, tackle as hard, fight as fiercely, give as little ground, score as many points, or generate nearly as much spirit as did the player of yesterday.

"A football player is a wonderful creature—you can criticize him but you can't discourage him. You can defeat his team but never his spirit. Might as well admit — by you alumnus, coach or fan — he is your personal representative on the field, your symbol of fair and hard play.

THE SANDHILLS PHILOSOPHER

Philosopher Thinks Farm Income Should Be Tied to Index Plan

Editor's note: The Sandhills Philosopher, on his Johnson Grass farm looks at the economic index, his letter this week reveals.

Dear editor:

I don't know where they get the figures, I know they don't use any of mine, but some government experts come out once a month with a report on what the cost of living index was the previous month.

Under this system, if the cost of living goes up so many points, as it has for the past several years, certain wage earners get an automatic increase in pay.

I was reading figures for the past month, noticed that among people getting an automatic increase were farm equipment workers. What I would like to know is why don't these experts figure out a way to give us farmers an automatic pay increase

ations have been coordinated since 1954.

It is part of a long range program designed to increase the effectiveness of the civil defense effort which includes modernizing the DPS communications facilities over the state.

"Our experience in Hurricane Carla last year proved that our present facilities were inadequate to handle major disasters at peak efficiency, and pointed up the need for a much larger, more modern and better equipped center with the capability of meeting the requirements of the state government in almost any situation," Garrison said.

The center is designed to provide safe facilities for the Governor's Council of Defense and Disaster Relief which is charged with the implementation and direction of the Texas Operational Survival Plan and for such elements of federal and state governments having emergency responsibility in a local or national emergency or disaster situation.

It is designed to provide maximum safety and protection to its occupants and equipment against the effects of air blast, thermal radiation, initial and residual radiation, including fallout and of chemical and biological agents of warfare. The necessary will be provided to maintain efficient operation and prolonged occupancy during periods of intense fallout.

that's tied in with the economic index? It's the only way to meet the increased cost of farm equipment resulting from the increased pay for the farm equipment workers. It would be too hard to do. Since we don't get paid by the hour, it would have to be figured on a yearly basis but I'd agree to wait till the end of the year for my check.

As I understand it, the value of a dollar fluctuates, it's not the same today as it was last month or last year, and this program is designed to see that workers get a living wage.

When a dollar buys more, they get a little less, although this latter situation hasn't come up so far in the last 25 years. The experts say this program makes sense.

Well, I'll tell you, it's good enough as far as it goes, but it doesn't go far enough.

A living wage is not enough to get by on these days. It takes more than that. At least, there aren't very many people left willing to try it.

Excuse me, I've got to end this letter and get out and try to make some money farming. I need \$400. The picture tube on my television set has just busted.

Yours faithfully,
J.A.

Today's Meditation
UNTO YOU IS BORN A SAVIOUR

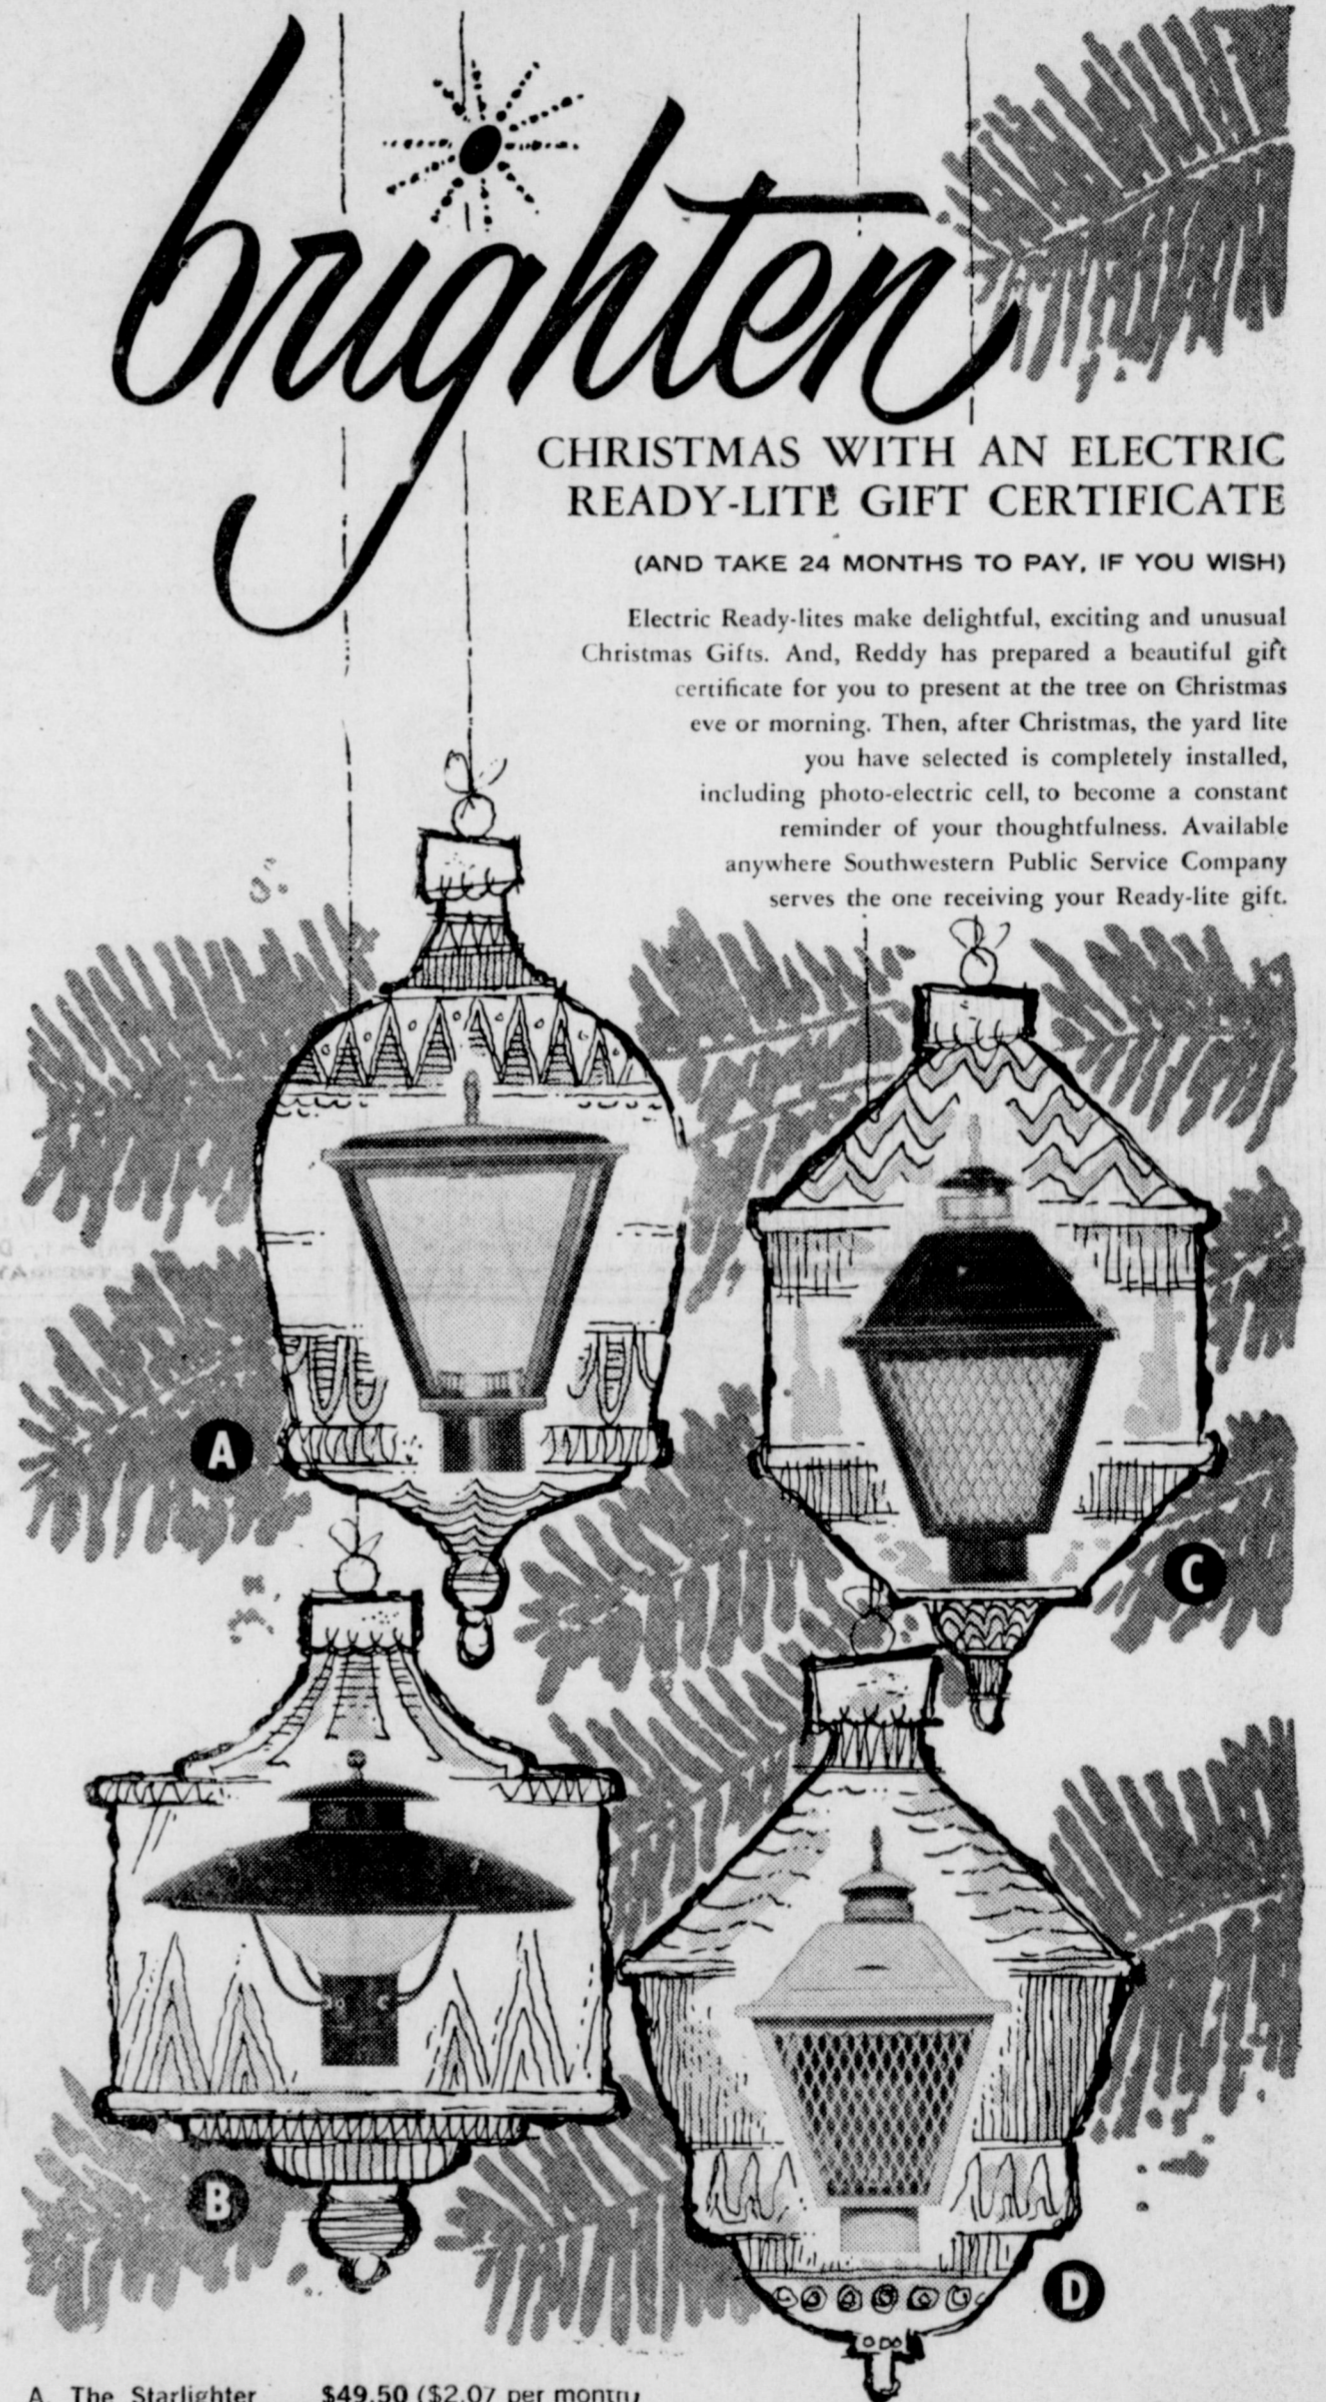

Surely, surely, we will not take Christ out of Christmas with the letter X or in any other way. Rather, we will celebrate Christmas as the birthday of Christ by giving gifts and offering gratitude and praise to God, who gave his only begotten Son, and to Christ, who gave himself a ransom for all (I-Tim. 2:6) O God, help us to remember that the dear Lord Jesus came to earth and dwelled among us. He is indeed Emanuel, (God with us.) Then if thou art more than all that can come against us. Fill our hearts with great confidence and hope. For the Redeemer's sake. Amen.

Tech's 16,000 Lights Go On

LUBBOCK — Texas Tech hailed the Advent of the Christmas season with the turning on of 16,000 Christmas lights on the campus and a festival of holiday songs at 7 p.m. Tuesday.

This year's event, called the "Carol of Lights," is being sponsored for the second year by the Tech Women's Residence Council. The program is free to the public.

The lights outline nine buildings this year. The main activity is centered at the "Science Quadrangles," which includes the chemistry and science buildings and the former Tech library.

A brass choir began playing at 6:45 p.m. Tuesday.

Additional decorations included thousands of luminarias around the circle in front of the administration building and a huge Christmas wreath, forming the background for the choirs.

Refreshments were served in the Tech Union following the ceremony, which was directed by general chairman Sunny Palmore, Lamesa senior.

FACILITATES FILING

COLUMBUS, Ohio (AP)—Ohio State University's popular nursery school for 3 and 4 year-olds, which has a waiting list of 200, used to accept applications before the child was born.

But it doesn't any more, says Dr. Helene Heye, chairman of the division of family and child development in the School of Home Economics.

She says: "Now we insist that he or she has arrived before we fill out a registration card... so we know whether to use a pink or blue one, for one thing."

THE BRIGHT SIDE

LOUISVILLE, Ky. (AP) — While waiting for a bus, John Lukemeier spotted a neighbor whose daughter had just married.

GENERAL EXPERIMENTING

Indiana Town is Phone Company's Guinea Pig for New Type Service

An electronic telephone exchange, which will provide many unique customer services, will be field-tested next year by Automatic Electric Company, subsidiary of General Telephone and Electronics Corporation. YOUR HEALTH
90 'Packaged' Hospitals Set Up In State

Texas has 90 'packaged' hospitals on hand, ready for almost instant use following enemy action or a major natural disaster. Most of them are located at least 15 miles from assumed strategic target areas. The hospitals costing \$21,000 apiece, were provided by the federal Office of Civil and Defense Mobilization as part of a nationwide stockpile program. They are administered in Texas by the state Office of Defense and Disaster Relief, with technical cooperation from the Texas State Department of Health. Nearest such hospitals to Muleshoe are at Canyon, Odessa and Snyder.

Outgrowths of the mobile army hospitals developed and tested during the Korean War, they can be completely installed by 40 or 50 people in four or five hours. In one test exercise an installation was made in 70 minutes by experienced personnel.

Local civil defense organizations in designated locations store and otherwise manage the hospitals and equipment. Em-

Land Bank Cuts Interest Charge

The Federal Land Bank of Houston has announced that effective on Jan. 1 1963, it will reduce temporarily to 5 per cent the interest rate on all outstanding loans which presently bear a rate in excess of 5 percent. The contract rate on new loans will continue to be 5 1/2 percent but interest on loans closed on and after December 1, 1962, will be billed temporarily at 5 percent until further notice by the bank.

In making the announcement, Hal Weatherford, President of the bank, said that of its \$260 million of loans outstanding more than \$100 million bear contract rates in excess of 5 percent and that the savings to Texas farmers and ranchers by this action will be more than a half million dollars in the year 1963 alone. Weatherford said this is the fourth time the bank has voluntarily reduced interest on its outstanding loans.

The Houston bank makes long-term farm and ranch loans through 73 Federal Land Bank Associations located throughout Texas. The one serving this area is the Federal Land Bank Association of Muleshoe. Ernest Kerr is the manager and the other officers and directors are Gordon Duncan, president, Muleshoe; H. E. Schuster, vice-president, Muleshoe; Morris Douglass, Muleshoe; A. L. Hartzog, of Bovina; and Jim Claunch, Bula. Miss Mildred Davis is the office assistant.

CONFUSED CANINES
 GLENDO, Wyo. (AP) — If Glendo dogs are a little confused, there may be a reason. The Dog House Cafe has this sign in the window: "No Dogs Allowed."

Ever combine very strong coffee with scalded milk, using half coffee and half milk? This is delightful served with a puff of whipped cream sprinkled with a little cinnamon.

GRANDPA CAN'T ADD
 PADUCAH, Ky. (AP) — A 7-year-old boy was trying to persuade his grandfather to help him with an arithmetic problem. "I could add it up for you but it wouldn't be right," the grandfather said. "Well," said the youngster, "go ahead and try anyway."

Dick Donovan, a 20-gauge winner for the Cleveland Indians last season, turned in five shutouts.
