'Ritin'**

By RAY MARTIN
 Came a letter this week from one Mrs. J. R. Turner, Birmingham, Ala., which read, in part:
 "Recently my husband and I made a quick automobile trip to New Mexico. After we left Fort Worth, we began to notice when we stopped for coffee that even in the bigger restaurants men ate with their hats on. Why? When we got to Muleshoe we stopped for a meal and I was amazed to discover that out of 15 men who were eating dinner, nine of them had on their hats. Again I ask why? I bought a copy of The Muleshoe Journal and thus got your name. Now perhaps you can explain this strange custom—hat wearing men. I might add that most of the men whom we saw eating with their hats on wore western hats, and some of them looked quite expensive..."

Dear Mrs. Turner:
 You have raised an interesting question—why do western men wear their hats while eating. I put the Ray Martin Private Eye Association to work on the question, since I, too, had been interested in that very custom—hat wearing eaters.

This sleuthing service that I just mentioned came up with the answer.
 It seems, Mrs. Turner, that in the early days, everything west of Fort Worth was cow country. And cows, not crops, were the items grown on these sprawling acres. There are areas where that is still true, and I'm told that there still is some land in West Texas which has never felt the harsh sting of a plow. In those sections grass and cows still live intimately together.
 Now cowhands, then and now, valued their skypieces greatly. The badge of success was the cowboy's hat—big and expensive looking meant that the cowboy was doing right well. Beat-up hat of low quality meant that he was a pretty ornery cowpoke.

Checking around I came across a woman who came from East Texas (a foreign country, I might add) to West Texas more than a quarter of a century ago. She was fascinated by the hat-wearing customs, so she came up with the answer I have just given you.
 "Just as the women wear their prettiest, most expensive looking hats to church on Easter (See RAY'S, Page 7)

THIS IS WEST TEXAS . . . Just to show you, Mrs. Turner, that West Texas men do sometimes take off their hats when they eat, all eight gallons of them, we made this pix just inside the front door of a Muleshoe restaurant. Of course the owners were sitting close enough that they could keep their eyes on their western sombreros. And for your information, the total value of the lids above is probably \$150.

Farmers Seek Sugar Allotments

One hundred thirty-seven Bailey County farmers will grow sugar beets in 1964 if Holly Sugar Corp. will include this county acreage allotments. This was determined when farmers signed "non-binding intentions to plant" forms last September.
 In December, Holly was granted a new 24,730-acre allotment for sugar beets in 1964. Last week Holly announced it had decided to "gamble" on sufficient USDA allotments to support a sugar mill in this area. Holly will build a \$18 million mill two miles west of Hereford on U. S. 60.
 Now farmers here, led by the Bailey County Sugar Beet Growers Association want to know whether this county is to be included in allotments.
 In a meeting at the First National Bank's board room Tuesday, the directors of the county association drafted a telegram to Holly Corp. asking whether or not Bailey County is to be included in the 1964 program.

The telegram, addressed to Dennis O'Rourke in Colorado Springs, president of the Holly Corp., asked point blank whether this county will get acreage allotments.
 "In view of recent developments and the continuing interest of our 80 farmer-members of this organization, we urgently request some statement of intent by Holly Sugar Corp. toward beet acreage in Bailey County."
 "We feel our members are entitled to some idea of what they can expect in acreage for pro-

duction for your Hereford mill. "We would welcome an opportunity to call a meeting here to hear representatives of your company discuss this vital matter."
 "Your agricultural development department has records of test plots and results of sugar beets grown in Bailey County, and we feel Charles Lavis can verify these facts as well as his impression of our capability."
 "We pledge our cooperation in the future as in the past to the success of this new agricultural venture."
 The telegram was signed by Carl Bambert, president of the Bailey County Sugar Beet Growers Association, and by James Glaze, Harmon Elliott, Hobby Airhart, W. T. Millen, and Jack Little, directors of the organiza-

tion.
 In announcing plans to start production of the new Hereford plant, the company said the mill is designed to process 4,000 tons of sugar beets per day initially, but "capacity can readily be increased to 6,000 tons when warranted."
 Contractor for the new plant will be the H. K. Ferguson Co., and construction is due to get under way shortly.
 Last month when USDA granted the 24,730-acre increase in allotments for this area, it was explained that four counties — three in Texas and one in New Mexico — were definitely included in the new allotments, but Don L. Martin, vice-president of the Holly Corp., told the Journal that Bailey County "might be in-

cluded in the final allotments."
 The four counties included in the September allotment announcement were Castro, Deaf Smith and Parker counties in West Texas, and Curry County, N.M.
 The USDA office merely grants the allotments; the actual decision of what areas and what farmers will receive allotments is left up to Holly Corp., it was explained, in much the same manner than Castor Bean program has been handled in the past.
 The September survey of farmers in this area interested in growing sugar beets was taken following a district meeting at Clovis when D. W. Little, district agriculturist for the Holly firm, spoke to farmers in that region. At that time, Holly was shooting for a 95,000-ton sugar allotment for this area.

Holly's decision to construct the plant followed passage of the new national sugar act in 1962. The new law, it was explained, contains provisions designed to encourage expansion of the beet sugar industry as a guarantee of domestic supplies at all times.
 A Holly spokesman said that despite the fact that acreage allotment was lower than had been expected... "Holly is proceeding with construction, confident that the acreage committed will be only a starting point, and that there is an excellent chance the acreage commitment will be enlarged at least by the time the new plant begins operation."
 Holly had asked for 65,000 tons commitment but acreage equivalent of only 50,000 tons was allot-

ted. Said Holly officials of this situation... The Secretary of Agriculture has the power under the law to commit the full 65,000 tons equivalent, we believe there is excellent reason to expect that the present commitment will be enlarged...
 Bamert, at Tuesday's meeting of the board said "farmers are eager to learn whether they are to be included in Holly's new program." He said that many farms in this county "which could produce excellent sugar beets for the new plant, are no farther away from Hereford than are some of the other counties where Holly is expecting to provide allotments."
 Recently the Bailey county group received a letter from (See FARMERS, Page 7)

Lovelady's Attorneys Subpoena 147 Witnesses; State Calls Six

Attorneys for Karl L. Lovelady, scheduled to go on trial next Monday in district court two counties, have subpoenaed 147 witnesses, a check revealed this week. The State District Attorney Jack Young said, has subpoenaed only six witnesses.
 It is assumed many of Lovelady's witnesses are "character witnesses."
 All of which indicates that the cases, if brought to trial, are expected to be long drawn-out affairs. This is the first of four cases slated for trial before the new district Judge Pat Boone, Jr., at his first Bailey County term of criminal court.
 Also slated for trial at next week's district court term is Willie Walker, indicted some weeks ago by a district court grand jury on a charge of forging and passing. He is alleged to have forged the name of James Graves on two checks given Muleshoe firms. Both Walker and Graves are Negroes. Graves has told Young that he did not sign the checks nor authorize Walker to sign his name.
 Meantime, no successor to Lovelady as county attorney of

Bailey County has been named, although the county commissioners met in special meeting last week to receive Lovelady's brief letter of resignation.
 County Judge Glen Williams said Thursday that the board may consider the appointment of a successor when it meets again Friday. Lovelady became ill two weeks ago during a term of county court when some 18 defendants were facing trial necessitating postponement of court. Several of the cases have been rescheduled, but Judge Williams said no date had been set for the next term of county court.
 In addition to the criminal term slated for next week, Judge Boone also has slated a 10-case civil term of court to start March 11.

Sixty prospective jurors have been called for next Monday's term. The list includes: Freddie Harvey, James Jennings, Kenneth Nesbitt, Ray Hardy, W. R. Carter, Rodney Jarvis, Dorothy Humiston, Woods E. Goforth, A. E. Moore, F. W. Watts, J. W. Roberts, Mrs. E.M. Lowe, K. H. Burman, Mrs. David Anderson, Fred Ramm, Mrs.

Fund-Raising Luncheon Set

Muleshoe high school senior class is staging an open-invitation business men's luncheon in Fellowship Hall of the Methodist Church next Tuesday from 11:30 to 1:30 p.m., it was announced Wednesday. Tickets will be \$1.00 for adults and 75 cents for students.
 Menu will include ham, beans, potato salad, hot French bread and butter, cabbage slaw and cherry cobbler.
 Rotary and Lions clubs have voted to suspend their usual meeting dates and members will attend the luncheon, being put on as a money-raising event for the class.

Jaycees Stage Final Drive for Poll Tax

With Muleshoe Junior Chamber of Commerce leading the promotion, a last-minute "Pay your Poll Tax" campaign was on in Muleshoe this week with deadline only hours away.
 The Jaycees sold poll tax receipts at booths in two Muleshoe groceries, Cashway and Piggly-Wiggly all day Wednesday.
 Tonight the Jaycees will take their receipt books to the Chamber of Commerce to stage a 5-to-midnight last-minute drive according to Tommy Gattis Jaycee president. They will issue receipts at the Chamber office, or they will do "outside" poll tax service for those in Muleshoe who can't come to the chamber.
 Jaycees will be on hand to receive calls until midnight, and members of the organization will take receipts to persons who call in.

Meantime, Dess Stafford, county tax collector, said 1,719 receipts had been issued through Wednesday. In 1962, 2,042 poll tax receipts were issued. However, last year was a general election year, and always more receipts are issued during an election year than any other time, it was pointed out. Jaycees at their two stations sold 117.
 She warned again that persons who expect to vote in city or school board elections this year must have paid their poll taxes. Payment of poll tax also will be a prerequisite to any special elections, such as bond issues.
 This probably will be the last year poll tax payments will be necessary in order to vote, since the state legislature already is studying a bill which would eliminate such.

Faculty Game Set for Tonight

With Future Teachers club as the sponsors, a faculty basketball game is slated for Thursday night at 7:30 in the high school gymnasium, it was announced today.
 Junior high faculty will play the senior high faculty.
 Admission is \$1 for adults 50 cents for students, and children under 6 free.
 Money will be used to buy a new scoreboard for the gymnasium.

Six Cases Filed in County Court

Six cases were filed in county court here this week, the county docket showed, five for alleged worthless checks and one on a charge of driving while intoxicated. Cases included:
 Lewis Lee was charged with giving a worthless check.
 Cleveland Williams, Jr., was charged in two cases with worthless checks.
 Golden Brown, charged with giving a worthless check, pleaded not guilty, and bond was set by Judge Glen Williams at \$250.
 Raymond Deaver was charged with giving a worthless check.
 Robert King was charged with giving a worthless check.
 Elmer Loyal Whitmire was charged with driving while intoxicated.

Deeds 'About Ready,' Selection Of Appraiser Due for Killer 84

Progress is being made on widening of "Killer 84", one of West Texas' most dangerous highways, but it will be "months yet" before the program gets going.
 This was the word brought back to Muleshoe this week by Bailey county commissioners after an all-day meeting with district highway department engineers in Lubbock last week.
 The commissioners and County Judge Glen Williams, were told that deeds are "about ready" and should be completed, and the next move will be up to the county commissioner who are due to name an appraiser for the tracts involved in Bailey county's part of the widening program Judge Williams said.
 The commissioners may interview possible appraisers at their meeting tomorrow when they hold their regular February meeting.
 The appraiser must be an experienced appraiser, familiar with land values in this area, it was pointed out. After he is named, then appraisal of each separate tract must be made. Negotiations

then start with the landowners along the right-of-way.
 If the appraiser's estimates are accepted by the tract owners, then work can be speeded, but if the land-owner thinks his land is worth more than the appraiser sets for it, the process may be a long drawn out affair, it was explained.
 If the county agrees to up the price beyond the appraiser's estimate, the additional cost must be borne by the county. Otherwise the state participates on a 50-50 basis.
 Or it is possible for the state (See DEEDS, Page 7)

Feb. 22 Sales Event Slated by Merchants

Muleshoe merchants will promote a Washington's Birthday sales event with especially attractive prices for the one-day affair, it was announced this week by Truman Lindsey, chairman of the Retail Committee of the Chamber of Commerce.
 This will be the first of several special sales events planned by the committee for 1963, it was explained, and a town-wide whirlwind sales promotion program is planned.
 G.W.B. day is the title to be

given the special affair, and all merchants have been asked to participate.
 An advertising campaign will be put on with stores stressing especially their most attractive items, pricewise, Lindsey said. Although many items will be marked down for the special day, unusually attractive "leaders" will be offered on G.W.B. day.
 The George Washington's Birthday day sales event was decided on at a meeting of the com- (See EVENT, Page 7)

The Journal Goes to an Old-Fashioned Box Supper for New-Fashioned Youth

BOXES FOR EVERYBODY — There was a box for every boy (well, almost) and a girl for every box when Muleshoe Distributive Education club and Future Homemakers club staged an old-fashioned box supper last Monday night. The pictures above tell part of the story. At far left, Gary Harper peers eagerly into the elaborately-decorated box he has just bought.

Watching is Jean Killingsworth who prepared the box. Second picture (from left) shows Robert Pruitt and Jerry Lee bidding on a box — but doing their bidding as quietly as possible to keep another lad from "running up" the price. At least once during the evening, boys pooled their assets and bought a box together. Here Jerry Hutton and Coy Gabbert

pool their resources as Jerry Killingsworth and the box supper's cashier, Corky Green, look on. At far right the supper's auctioneer, Calvin Mason, is shown in action. Additional pictures on Page 1, Section B. (Journal Photos and Engravings)

ENGAGEMENT REVEALED — Mr. and Mrs. Clark Billingsley of Farwell announce the engagement and approaching marriage of their daughter, Toni, to Robert (Bo) Betty of Clovis. Vows will be read April 26 at 8 p.m. at First Baptist Church, Farwell, with Rev. J. L. Bass officiating for the double-ring rites. Parents of the future bridegroom are Mr. and Mrs. Robert Betty, Sr. of Clovis. A reception will follow immediately in the church fellowship hall. Miss Billingsley is a graduate of Muleshoe High School with the class of 1958.

Progress Club Studies Obesity

The Progress Home Demonstration Club met Tuesday in the home of Betty Carpenter with the program highlight being a film show on obesity. Phobe Gray and Lela Mardis made talks on the subject. Refreshments were served to

Lauretta Baker, Delores Gaddy, Marie Maltby, Alice Mitchell, Norma Seymour, Jaurece Smallwood, Phoebe Grey, Lela Mardis, Fern Davis, and Lillis Garner. Next meeting will be February 5 in the home of Fern Davis.

SPEECH PLAYED

Officers Elected For New Year By Muleshoe Study Club Members

Officers for 1963-64 were elected at the Muleshoe Study Club last week when it met in the main studio of radio station KMUL. Those elected were: Mrs. O. N. Jennings, President; Mrs. Gilbert Lamb, First Vice-president; Mrs. S. L. Benefield, Second vice-president; Mrs. Ramon Martin, Recording secretary; Mrs. Cecil Cole, Corresponding secretary; Mrs. R. O. Gregory, Treasurer; Mrs. T. R. White, Parliamentarian; Mrs. Horace Blackburn, Cliffs; Mrs. Rufus Gilbreath, Historian; Mrs. J. G. Arm, Federation counselor; Mrs. Ramon Martin, Press reporter and Mrs. Gilbert Lamb, Radio reporter.

Mrs. Lamb presented the program for the evening. The topic was: "Growth and Good Citizenship Through Vision." The Biblical quotation used was from Isaiah: "Where there is no vision the people perish." The outstanding feature of the program was the presentation of a tape recording made by KMUL "American's Answer to Communism", given by Miss Helen Poe of Dallas at the Freedom Forum in Lubbock last summer. Miss Poe is a noted lecturer and is in great demand for her appearances over the country. Since the group was not privileged to bring her to Muleshoe, this recording was a most stimulating thought provoking talk and was

of great benefit to the members of the recording, led by Mrs. Lamb.

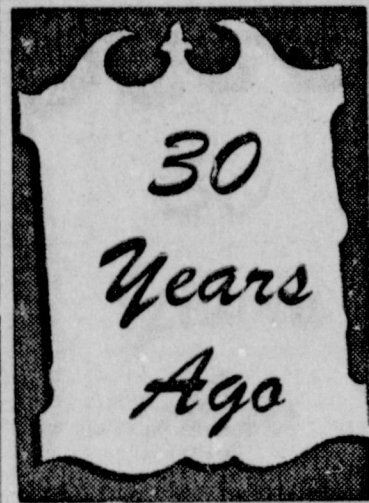

During the business session presided over by Mrs. J. G. Arm, president there were reports from various committees. The library committee's report was given by Mrs. Horace Blackburn. She told of a new rental book shelf that has been placed in the library, charging 35 cents a week for the books, and there is no renewal on these books, but if they are kept over the week the fine would be 25 cents per day. The other regular fines at the library were also raised. Mrs. Blackburn had received a letter from Shelia Cousotte, the student who was helped by the club last year, and she shared this with the club also.

The announcement was made that \$10 would be the amount of the prize to be given to the student in Muleshoe high school whose essay would be judged the best, writing about some pioneer in Bailey County.

Mrs. S. L. Benefield, hostess for the meeting, served refreshments to the following members: Mrs. J. G. Arm, Mrs. Gilbert Lamb, Mrs. Horace Blackburn, Mrs. Carroll Pouncey, Mrs. O. N. Jennings, Mrs. Howard Brown, Mrs. T. R. White, Mrs. Rufus Gilbreath, and Mrs. Ramon Martin.

Guests present were: Mrs. Morris McKillip, representing the Farm Bureau Women's Committee; Mrs. Clarence Mason, Los Planos Club and Mrs. Harold Allison, Pleasant Valley Social Club.

Next meeting will be a Valentine tea, February 14 in the home of Mrs. T. R. White.

Courtesy Honors Mrs. Erwin Gralla

A bridal shower was given at 4:30 p.m. Friday in the home of Mrs. Charles Lenau honoring Mrs. Erwin Gralla, the former Donna Fowler. The couple were married on December 29 at 8 p.m. in the First Methodist Church Chapel. Donna is the daughter of Mr. and Mrs. James Fowler, Muleshoe, and Gralla is the son of Mrs. Rose Gralla, Norwalk, Calif., and the late Edward Gralla. They are making their home in Clovis, N. M.

Forming the receiving line were the honoree, her mother, Mrs. James Fowler, Mrs. Charles Lenau, Pam Lenau and Mrs. Carl Easterwood, Dimmitt. Mrs. Easterwood served as co-hostess. Yellow and white were the predominate colors used in party decorations with a center piece of yellow and white mums centering a four tiered silver candelabra. The table was draped with a white cutwork cloth and appointed with silver.

KINGS AND LAMBERTS TO PADRE ISLAND
Mr. and Mrs. Woodie Lambert and Mr. and Mrs. Harold King spent several days on Padre Island recently.

They made the trip via airline and due to bad weather spent more time there than originally planned. They said the recent cold weather in the Valley had ruined the vegetable crops.

Mrs. King said she and Mr. King spent the previous weekend in El Paso and had snow while there, so they have about given up on the idea of running away from cold weather as it seems to follow close behind.

Deputy Grand Matron Makes Official Visit

Mrs. Mary Farley, Deputy Grand Matron, District 2, Section 3, Grand Chapter of Texas, Order of the Eastern Star, made her official visit to Silverton Chapter, Tuesday evening, January 22. She was accompanied by her daughter, Mrs. Curtis Brasher of Tulia.

They were honored with a dinner and presented lovely gifts. Mrs. Farley has visited 15 Chapters in Section 3, officially, and has been extended many courtesies, including beautiful gifts and Year Books from each Chapter. On many of these visits, she was accompanied by Mrs. Jewell Strong, Worthy Matron of Muleshoe Chapter No. 792.

Plans are now being made for the Eastern Star School of Instruction, to be held April 30 in Plainview, under the supervision of Mrs. Farley and Mrs. Flora McNeill, District Deputy Grand Matron of Floydada.

All Eastern Stars in this area are invited to attend this school and it is the desire of the Deputy Grand Matron that this section be well represented.

Beatniks Invade Epsilon Social

Beatniks came to town Tuesday night.

Mrs. John Charles Gilbreath and Mrs. Jim McPherson were hostesses for the monthly social of Epsilon Chi. Theme for the evening was beatniks.

Members came dressed as beatniks, complete with leotards, wigs, black eyebrows—no lipstick! Mrs. H. W. Callan was given the prize for being the most conspicuous beatnik.

Following the initial laughter session, beatniks took their places for an evening of bridge. During this time, the groups were serenaded by outburst from the bongos as Mrs. Callan beat out music from "way out" as she made her bids on the drums.

Attending were: Mrs. Robert Alford, Mrs. Vic Benedict, Mrs. Bo Bryant, Mrs. H. W. Callan, Mrs. Elvon DeVaney, Mrs. James Freeman, Mrs. Karl Freyer, Mrs. L. B. Hall, Mrs. Ernest D. Martin, Mrs. Kenneth Precure, Mrs. Ray Santos, Mrs. J. Pat Wagoner, Mrs. Herman White and the hostesses.

CABALLERO EXHIBIT — Noted Artist Dr. Emilio Caballero, Lubbock, termed his art show here Sunday afternoon "one of the most successful of his career." Caballero said that public interest shown in the continuous showing of art at Paul's Restaurant by the Muleshoe Art Association shows that Muleshoe people are art minded.

The one-man show held at the Southwestern Public Service building was well attended and paintings will remain on display for the next two weeks. Something new in art, glass enamel on copper, was highly praised and was to many, the focal points of the show.

Couple Honored In Housewarming

Mr. and Mrs. W. T. Thomas were honored with a housewarming, Saturday evening Jan. 26, at their new home two miles east and two miles south of Enochs.

The Thomases have recently moved into their new three bedroom, den, living room, and two bath brick home.

Hostesses for the occasion were: Mrs. Guy Sanders, Mrs. A. M. McBe, Mrs. W. R. Adams, Mrs. John Crockett, Mrs. Bradley Robertson, Mrs. Don Grusendorf, Mrs. C. W. Parkman, Mrs. Horace Hutton, and Mrs. Horace Brachers.

The honoree's received many useful and pretty gifts from their many friends, including a set of stainless cookware from the hostesses.

Among the 75 guests that registered were friends from Clovis, Ralls, Friona, Progress, Muleshoe, Littlefield and Lubbock.

Mr. and Mrs. Thomas moved into the Enochs Community in Dec. of 1961, from McCamey, Texas. He is a retired worker for the Shell oil company. They have owned their land here since 1934.

They are the parents of one daughter, Mrs. Leon Kessler, who with her family have lived on her parents' farm for several years. They have four grandchildren, Gary, David, Darron and Lorie Kessler. They are members of the Enochs Church of Christ.

Girl Scouts

"FLY-UP" CEREMONY
Brownies of Troop 42 participated in "fly-up" ceremonies last Friday evening, January 18. The event took place at the Girl Scout Hut with approximately 38 parents and guests present.

Jana Beth Logan greeted the guests to open the night's events. A flag ceremony, giving the Pledge of Allegiance and singing "America" followed with all members participating.

Color guards for the flag ceremony were Vicky Julian, Jan Lemons, Debbie Bruns and Sharon Davis. Maria Servantez was flag bearer.

The "fly-up" ceremony began with the quotations of one of the ten laws, the motto, slogan, and promise, accompanied by lighting candles as each girl presented her part.

On a table covered with a white linen cloth, a centerpiece of 3 tall, yellow candles was placed, flanked on each side by 5 green candles surrounded with greenery. The ten green candles represented the ten Girl Scout Laws and ten girls lighted and gave the law that the candle represented. The three remaining girls lighted the three yellow candles which represent "The Girl Scout Promise," "Motto" and "Slogan."

Following the recitation period Jan Lemons led the girls in singing, "Brownie Smile Song" to signify what they had left behind, and sang "Girl Scouts Together" to represent the things to come in the future.

The leaders, Mrs. A. P. Sutton and Mrs. Jimmy Patton, presented the wings and Girl Scout pins to the girls, concluding the service.

Those receiving pins and wings were Debbie Bruns, Sharon Davis, Glenda James, Vicky Julian, Jan Lemons, Jana Beth Logan, Cathy McCormick, Ann Newsom, Mary Ruth Riddle, Lupe Servantez, Marie Servantez, Randa Sutton and Judy Dodd.

Refreshments of cookies, Kool-Aid and coffee were served by the girls to 38 guests to wind up activities for the night.

Fifty years ago, a "nice" young

lady was expected to faint at the sight of a mouse. Her most strenuous exercise was a sedate walk down Main Street. Her world was bounded, for the most part, by the walls of her home.

Today, a "nice" young lady may stand before a microphone and tell a rapt audience of 8,000 adults about the role of the teenager in our society. She may even, while still in school, earn enough money to buy her own clothes, to help pay her way through college. She may cross oceans and continents and live and work with young people she may never have met before.

A remarkable Southern gentlewoman with a new idea helped to bring about the revolutionary change in the status of the American girl. Her name was Juliette Gordon Low. Her idea was Girl Scouting, which she began in the United States on March 12, 1912, when she organized the first troop of Girl Scouts in her home town, Savannah, Ga.

Fifty years have passed since that day. The movement in this country has grown from one troop of 12 girls in one city to a total of almost three and one-half million members organized into 164,000 troops with 2,646,000 girls in every city and town in each of the 50 states and possessions of the United States, and in 49 foreign countries where American girls live with their families. A devoted army of 773,000 men and women helps to assure that Girl Scouting will be available to girls who are so eager to grow.

In a brief 50 years, some 18 and one-half million Americans have been members of Girl Scouts of the U.S.A. — and have made it a beloved American symbol and tradition.

Mrs. Black Hosts Progressive Club

Zida Mae Black was hostess for the Progressive Home Club on January 24 with seven members present.

Projects for the year were discussed for the ensuing year and the group voted to purchase an outfit for Carol Earhart, their adopted girl at Girlstown of Whiteface for Easter.

Mrs. Black and Vera Englekling were appointed to visit the Rest Home For the Aged in Muleshoe. The hostess gift was drawn by Lois Norwood after which the program was presented under the direction of Vera Englekling.

Current issues on legislature were discussed and the members voted to write their Congressmen opposing the issues they were in disagreement with.

'Longies' Urged For Houses, Too

COLLEGE STATION — Frigid weather always brings out the long underwear, and people should think about putting long underwear, in the form of insulation, in their houses, says W. S. Allen, extension agricultural engineer.

Allen, housing and building specialist, says that such insulation will contribute much to the comfort of their home. Almost all building materials have some insulation properties, but some are better than others, he adds. A good insulation material retards the flow of heat, is resistant to decay, fire proof, and does not harbor insects and rodents.

Metal foil will help retard the flow of certain kinds of heat and act as an insulation barrier. It is commonly used to reduce the effect of heat radiation and as a vapor barrier, according to the specialist. The use of a vapor barrier is very important, especially where extremely cold winters are common or there is a great deal of moisture in the warm air inside a building, he adds. The barrier is normally placed on the warm side of the insulation to reduce the possibility of condensation in or on the insulation material.

The insulation can be helpful in the summer as well as during cold spells, Allen says. It serves to keep warm air out as well as insulation will lower fuel bills for heating and for air conditioning, the specialist notes. These savings should outweigh the cost of insulation, Allen says, not to mention the comfort it will add. He suggests a visit with a building materials dealer for information on the type of insulation best suited for your needs.

Friendship Study Club Organized With Twenty-Three Charter Members

A new social club, The Friendship Study Club, was organized January 1 with 23 charter members.

The club motto is "The Only Way to Have a Friend is to be One" and their aim, "To Promote Friendship and Fellowship."

Officers elected were: Mrs. C. H. Tate, president; Mrs. R. D. Precure, vice-president; Mrs. H. E. Schuster, secretary; Mrs. A. J. Shafer, treasurer; Mrs. Ray Griffiths, program chairman; Mrs. W. E. Young, reporter; and Mrs.

H. E. Mathis, assistant secretary.

The year book committee includes Mrs. C. M. King, Mrs. T. C. Young, Mrs. W. T. Andrews, Mrs. R. D. Precure, and Mrs. Joe Damron.

Meetings scheduled each month with special meetings slated for Valentine, February 14; the Friendship Party on May 10; and a Christmas Party on December 19. Mrs. Joe Damron was hostess for the last meeting, January 10. Mrs. O. D. Ray was co-hostess.

Members of the club are: Mildred Andrews, Adelle Beatty, Frankie Black, Lola Bryant, Mabel Bristow, Mae Busbick, Ida Collum, Rob Damron, Minnie Dunn, Lila Dutton, Hattie Griffiths, Blanche Johnson, Billie Mathis, Sammie Moore, Inez Kennedy, Audie King, Lorie Precure, Erma Ray, Ruth Shafer, Jackie Tate, Mary Young, Maud Young, and Mae Schuster.

The next meeting is to be on February 7 with Mabel Bristow as hostess.

David Shepherd Promoted to SS Staff in Nashville

Wayland Baptist College journalism students are making great strides in the publishing world. Among some of them is David Shepherd, formerly of Muleshoe and son of Rev. E. K. Shepherd who was pastor of the First Baptist Church here, now in Broomfield, Colo.

David will join the editorial staff of the Southern Baptist Sunday School Board in Nashville, Tenn. in February, after having worked in Denver at the Baptist Bookstore since his graduation last summer.

David has had editorial experience with Wayland's weekly newspaper, "The Trailblazer", has written sports news for "The Plainview Daily Herald", and has had the happy experience of selling feature stories to nationally published magazines while still a student.

Christian Science Announces Topic

The divine answer to humanity's most perplexing problems will be stressed in a Lesson-Sermon on "Love," to be heard this Sunday at Christian Science services.

Highlighting the Bible readings will be this passage from 1 John (4:7): "Beloved, let us love one another: for love is of God; and every one that loveth is born of God, and knoweth God."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this citation will be read (p. 340): "One infinite God, God, unifies men and nations; constitutes the brotherhood of man; ends wars; fulfills the Scripture, 'Love thy neighbor as thyself; annihilates pagan and Christian idolatry, — whatever is wrong in social, civil, criminal political, and religious codes; equalizes the sexes; annuls the curse on man, and leaves nothing that can sin, suffer, be punished or destroyed."

Plentiful Foods For February

COLLEGE STATION — Though short in days, February will be packed with a full measure of plentiful foods, as designated by the U. S. Department of Agriculture for local markets.

It's a pleasant assortment of nine highly malleable items, says the Texas Agricultural Extension Service.

Logically enough, red tart cherries head the list. They're a "must" for Washington's birthday and Valentine's Day cherry pies. They're convenient to use and always economical. Supplies are sweet.

Sweet potatoes are a special feature plentiful in this area. Colorful sweet-potato dishes, from main fare to dessert, make this an ideal food for grey February days. Growers in some production areas, including East Texas, find themselves with almost twice as many sweet potatoes on hand as normal. Consumers will do well to take advantage of the abundance.

Other February plentiful foods include eggs, winter pears, carrots, potatoes, canned corn, peanuts and peanut products, and dry peas and beans of several varieties.

USDA's Agricultural Marketing Service selected these nine foods for the February list because supplies of each are expected to exceed normal trade needs. Consumers will find it profitable to buy and serve these items often because abundance usually means better quality and lower prices.

Comedy Highlights Fat Stock Shows

FORT WORTH — A hilariously comic horse and a side-saddle precision riding performance judged "the best act on horseback in 40 years" will join five top trick riders as specialty attractions at the 1963 Fort Worth Stock Show Rodeo, January 25 through February 3.

"Grand Ole Opry" star Minnie Pearl will headline the rodeo's 20 performances, and approximately 400 cowboys — including world's champion all-around cowboy Tom Nesmith — will challenge bucking broncs and bulls they have voted roughest in rodeo. The animals are the cream of the bucking crop from the strings of three veteran producers.

Colorado's 24 brilliantly costumed, fast-moving Side-Saddle Susans, who have been featured at the nation's major fairs and rodeos, will be making their first appearance in the Southwest. All high school youngsters, they've won praise at such shows as Denver's National Western and the American Royal at Kansas City.

A comic horse is a pretty funny idea to begin with, and "hilarious" is the only word to describe Ken Boen and the New Gray Mare. A rollicking hit for years with the "Old Gray Mare," Boen and his new four-footed comedienne are one of rodeo's leading comedy acts.

The five Flying Cimarrons, at the top of their dangerous field

in trick riding, were quickly signed to entertain Fort Worth Rodeo audiences after the show management spotted them in a sensational performance on TV's "Wide World of Sports."

The 1963 Fort Worth Rodeo will start at 8 p.m. Friday, January 25. After performances at 10 a.m., 2 and 8 p.m. the next day, the show will continue at 2 and 8 p.m. Sunday through the closing Sunday, February 3. Tickets may be ordered from P. O. Box 150, Fort Worth.

Everything piles up handsomely in a Chevy II including savings

Imagine a low-loading wagon roomy enough to handle most anything you can lift—and still trim enough to slip into cramped parking spots. We imagined it, built it and called it Chevy II. Made it as dependable as a wagon can get. And made it so it'll keep piling up savings over the years. Those show up in the way this one goes and goes on a gallon. They grow with brakes that adjust themselves. An exhaust system that lasts longer. And a Delco-Ronon generator that keeps battery reserve power up. Want to hear more? Wayland Schedules Homecoming Events

PLAINVIEW — Theme song of the astronauts, "Around the World", will also be the theme of Homecoming activities at Wayland Baptist College, Plainview, on Feb. 22-23, according to Howard Jones, Amarillo, general chairman of the festivities sponsored by the Student Government Association.

The collegians plan to remain close to the earth, however, with floats for the traditional Saturday morning parade in downtown Plainview designed to represent different countries, reports Tommy Lyons, Amarillo, parade chairman.

Among other activities carrying out the global theme will be a banquet, a play, a barbecue, concerts, a bonfire, a beard growing contest, and one of the highlights of festivities, double-header basketball games Saturday night.

Coronation of a Coming Home Queen, chosen from a Wayland student in 1948 in honor of the college's 15 years as a senior col-

lege, is on schedule for chapel on Friday along with an address by Chaplain (Col.) Henry C. Pennington, 1931 Wayland graduate now serving as Commandant of the U. S. Air Force Chaplain's school, Lackland Air Force Base.

The Homecoming Banquet on Friday evening will feature coronation of the Queen and runners-up elected from a field of 10 nominees. In charge of the Queen election is Judy McCuiston, Morton.

Queen nominees, their hometowns and their sponsors are: Arlene Watkins, Boyd, Okla. senior class; Sharon Clark, Wichita, Kan., sophomore class; Betty Sue Thompson, Premont, freshman class; Beth McDougal, Rocky Ford, Colo., Texas Student Education Association; Janis Souleman, Plainview, International Choir; Yoshiko Shiga, Kyoto, Japan, Cosmopolitan Club; Delores Shelton, Hobbs, N.M., Speech Club; Elaine Singleton, Spur, Mission Band; and Jerry Ann Williams Kelly, Lubbock, Philokian Club.

Following the banquet, the royal court will have places of honor at the Homecoming play, which carries out the theme with a setting in West Germany. Entitled "Break Down the Wall", it is the third joint work of Wayland professors, Dr. Eugene W. Jones, chairman of the Division of Social Sciences, and Dr. Henry Eason, head of the speech and drama department.

Following the Saturday parade will be a noon barbecue and a concert by the Amarillo Air Force Base Band, which will also play in the parade. Homecoming basketball games will match the Pioneers of Wayland with the McMurry Indians from Abilene and Wayland's Hutcherson Flying Queens with Ouachita Baptist College Tigerettes from Arkadelphia, Ark. Between-games activities will be awards to young men with the best beards and presentation of gifts to the Queen.

Among events planned especially for exes are reunions of the classes of '23, '33, '43, and '53, an alumni dinner and a baby parade, according to Walter Lassiter, executive secretary of the Association of Former Students.

REV. BOYCE EVANS

Trinity Baptist To Begin Revival

Revival services will begin Sunday, February 3, at Trinity Baptist Church and according to the pastor, Rev. Troy Walker, Rev. Boyce Evans will preach for the services.

Rev. Walker says, "Brother Evans is a well known, and outstanding evangelist. He has been in fulltime evangelism for a number of years, and is now pastor of the First Baptist Church of Abilene, Texas."

Wayne Lee, minister of music at the Mackenzie Terrace Baptist Church of Lubbock will lead the church in music during the revival week, ending Feb. 10th. "Brother Lee is an excellent singer and loves to work with young people and children," says Rev. Walker.

The pastor also states that he "believes that Brother Evans and Brother Lee are the greatest evangelistic team that Muleshoe has ever had." "The church extends a hearty welcome to the public to hear this dynamic speaker." "He is a God called man and preaches God's message."

The evening services will begin at 7:30 p.m. and the morning services at 10:00 a.m.

Animal Care Know-How Pays Off With Honors for Bryan 4-H'ers

When Gary Vance of Bryan times bird dog field trials he uses a wrist watch that has a special meaning. He received it as an award for placing first in Texas in the 4-H dog care and training program.

Vance

Vance, 16, is one of two Bryan 4-H'ers winning top awards in 1962. The other is Dick Britten, 18, who took an all-expense trip to Chicago awarded by E. I. du Pont de Nemours & Co.

Britten attended the National 4-H Club Congress in Chicago, held the week after Thanksgiving and considered the top 4-H event of the year. He was

following in the footsteps of his father, Col. Walter Britten, who attended the congress many years ago.

The youth, treasurer of the Texas Junior Hereford Association, was awarded the trip after being named best in the Texas 4-H beef program. He plans to become a rancher.

Britten began his beef project nine years ago with two calves and has built a herd of 35 prize-winning animals. One of his Shorthorn steers was named breed champion at the San Antonio Show and sold for \$1,000.

Vance was enrolled in the dog care project three of his five years as a 4-H'er, training two pointers, Mike and Tony.

He is a member of the Brazos County 4-H rifle team, an activity that fits in well with the training of bird dogs.

The wrist watch was a gift of Ralston Purina Company, sponsor of the relatively new dog care program for 4-H'ers.

AUSTIN TRIP

Flying to Austin recently to attend the Legislative Conference of Farm Bureau were Lester Howard, Jack Little, Jack Schuster and Bill Millen. The flight was made in the Comanche with Little piloting. The party left Muleshoe late Monday afternoon to be there for the session on Tuesday.

John C. Lynn, Legislative Director for American Farm Bureau Federation, Washington, delivered the keynote address. Charles Huff, Texas Farm Bureau Legislative Chairman spoke on policy execution with some 230 chairmen of the policy committees attending from various counties.

A banquet followed the meeting Tuesday evening with Gov. John Connally, Lt. Gov. Preston Smith, and members of the House and Senate, as guests. The Muleshoe group served as hosts for Representative Bill Clayton, who was seated at their table.

With a cold front hitting Austin Wednesday morning, their flight home was delayed several hours. While waiting, they visited

the House, Senate and with Gov. Connally.

They left Austin late that afternoon for their flight home.

BAPTIST CONFERENCE
Attending the Baptist Evangelistic Conference in Dallas via air were Jack and Ed Little.

Some 20 representatives of the Muleshoe Baptist church attended the meeting held in the First Baptist Church and City Auditorium where Billy Graham spoke to a crowd of 11,000.

Rev. Don Murray, pastor of the First Baptist Church here, and Bob Watts, educational director, accompanied the Little brothers on the flight back to Muleshoe.

LOCAL FLIGHTS

Bob Kelly, a Flying Service student pilot, took friends on a local flight Sunday. On the flight with Kelly were Alvin Clark and daughter, Lynda and Gail Turentine, all of Amarillo and Freddie Featherston, Littlefield. The flight was made in the Cherokee with Morgan Locker piloting.

Others making local flight were Bob Pittman, Donna Bruns and Sandy Warner in the Cherokee with Freida Locker piloting.

Hugh Yeates, private pilot, was accompanied by his wife and children in the Cherokee, Sunday over the Muleshoe area.

DAMRON FAMILY

Mr. and Mrs. Sam Damron and daughters flew to Friona recently.

The girls were delighted with

this new experience and quite proud of their pilot father.

BUSINESS FLIGHTS

Bill Wimberly, John Gunter and Jack Little made a business flight to Amarillo. Also in Amarillo on business was Ray Daniel who flew the Cherokee.

NATIONAL GUARD

Howard Watson flew to San Antonio for a National Guard meeting last Sunday. Watson, who recently completed a phase of National Guard training, has one of the Guard's planes an L-19, hangered at the Muleshoe Flying Service and flies to meetings that are held over the country.

West Texas Aviation. Lubbock, called for an Aztec and pilot to assist them on a flight.

Locker flew to Lubbock where he picked up a plane load of Southwestern Public Service officials and flew with other loaded planes to Carlsbad and Artesia, N.M. where they attended business.

CLOVER FLYING CLUB

The Clover Flying Club was organized here in December. Members are Jacques Baker, Leon Wilson, Kenneth George, and Kenneth Nesbitt.

The four are owners of a Cessna 170 and are all private pilots. The plane is used for both business and pleasure. Baker and George make a night flight each month to a meeting in Amarillo and George, the only active member of the original Muleshoe unit of Civil Air Patrol, flies to Plains.

They returned Monday afternoon. Yeates was pilot of the Cherokee.

Radio, Television, Film Commission Of Methodist Church To Meet

DALLAS — The Television, Radio and Film Commission of the Methodist Church will have its annual meeting January 31 - February 1 at the Sheraton Dallas Hotel.

The 300 member commission will consider recommendations from its executive committee concerning the location of a new building for TRAFCO headquarters.

Dr. S. Franklin Mack, New York City, will address the commission. He is creative director of the Broadcasting and Film Commission of the National Council

The most recent pleasure flight was made to Midland by the Kenneth Nesbitt family Sunday.

INSTRUMENT STUDENTS

Those enrolled in the Instrument Training School at Muleshoe Flying Service are: Kenneth George, Kenneth Nesbitt, Jacques Baker, H. H. Neuschwander, Don Bryant, Herb Griffiths, Sam Damron, Stanley Williams, Jack Little, Marshall Cook, Delbert Watson and Virgil Robbins.

Hugh Yeates, Duane Dunbar and Bob Forbis, Dickens, left Sunday afternoon and flew to Carlsbad, N.M.

They returned Monday afternoon. Yeates was pilot of the Cherokee.

of Churches. Reports will be made by Dr. Harry C. Spencer, TRAFCO General Secretary, and Dr. Howard E. Tower, Associate Secretary. Both are from Nashville, TRAFCO headquarters.

Bishop Donald H. Tippett, San Francisco, TRAFCO President, will preside.

The commission also will consider reports from its annual meeting committees. These include the Committee on Radio and Television, chairman, Dr. Carl T. Wethers, Baton Rouge, La., superintendent of the Baton Rouge Methodist District; Committee on Audio-Visual Resources, chairman, Lyle Ashby, Washington D. C., deputy executive secretary, National Education Association; and the Committee on General Services and Production, chairman, James S. Miles, director of the radio-T.V. department of Purdue University, West Lafayette, Ind.

Among other leaders participating in the meeting will be the Rev. James C. Campbell, Nashville, director of TRAFCO's Department of Audio-Visual Resources; and Nelson Price, also of Nashville, director of the Department of General Services and Production.

The TRAFCO Executive Committee will meet at the Sheraton-Dallas January 30.

MULESHOE BOY HONORED — Four young people representing the major rural youth organization in the nation were honored for their outstanding work at the Sixteenth Annual Luncheon sponsored by The Cattleman magazine in Fort Worth, Jan. 28. The awards, presented by the Texas and Southwestern Cattle Raisers Association, were made to, left to right, Jerry Clark of Buna, president of the Texas Future Farmers of America; Judy Miller of Gunter, secretary-treasurer of the Texas 4-H Council; Richard Chitwood of Muleshoe, vice-chairman of the Texas 4-H Council; and Diane McKnight of Commerce, Area 6 president of the Future Homemakers of America. With them is Col. Homer Garrison, director of the Texas Department of Public Safety, who was the principal luncheon speaker.

Future Farmers' Week Proclaimed Feb. 16-23, Observances Planned

Governor John Connally has proclaimed the week of February 16-23 as FFA Week in Texas. In presenting the proclamation to Jerry Clark, President, Texas FFA Association from Bona, the Governor pointed out that the importance of agriculture in the state increases as Texas progresses, and it is vital to well-being that train skilled farmers and ranchers provide a plentiful supply of food in years to come.

Jerry Clark received the proclamation on behalf of the 39,000 active FFA members in 937 chapters and more than a quarter of a million former students.

The FFA is composed of boys who are studying vocational agriculture in the public schools in preparation for careers in farming, ranching and related fields.

In studying the science of agriculture, these Future Farmers are striving to improve this great industry for the welfare of all citizens.

Farm Home Burns, Family Extends Thanks for Help

By MRS. C. A. WATSON

LAZBUDDIE — We wish to take this opportunity to thank the fire departments from Muleshoe and Fritona, the lectricians and all who have helped us in any way when our home burned Friday afternoon. We know the out-buildings could have burned had we not had help. Kind words and deeds have helped us to bear the loss.

The Lazbuddie birthday calendar was destroyed in the fire. Since so many have said they liked the birthday paragraph. So if you will please send me a card, Route 3, Muleshoe, with your family's names, birth date. I will certainly appreciate it.

Mr. and Mrs. Andy Fuguey were in Fort Worth over the weekend attending the Fat Stock Show.

Don Schumann is in California visiting his mother and other relatives.

AVOID LEGAL TROUBLES

Thinking of buying or building a new home this year? Whether you buy a completed house or simply a lot to build on, how will you know whether you are receiving a good title to the property you purchase? The safest method is to have a title examination made — that is, a careful study of the abstract and other title evidence.

Here are a few of the common sources of trouble in real estate transactions to show why the minor expense of a title examination is justified.

Many persons sign "earnest money contracts" believing that they are mere receipts with no serious implications. In reality

they may specify, among other things, the kind of title you must accept.

A "warranty deed" from a responsible seller is comforting to have but it is a poor substitute for a careful title examination. A warranty deed does not guarantee a marketable title.

Moreover, serious title defects may not come to light until long after the seller on a warranty deed is dead, has moved to an unknown address, or is bankrupt. Even if he is available a good title is much better than a lawsuit.

The fact that the seller has possession of an "abstract" does not mean that he owns the property. An abstract is only a history of a title. Possession of an abstract no more indicates ownership of land than possession of the history of Texas means that you own the state.

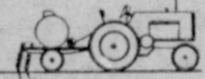

Some purchasers of land feel safe because the title is being

The Sandhills Philosopher

African TV Situation Worries Our Philosopher; He Offers Suggestions

Editor's note: The Sandhills Philosopher on his Johnson grass farm apparently is trying to get his mind off the weather, his letter this week indicates. Dear editor:

With one Canadian blast of cold air after another coming down on us during recent weeks, you'd think we'd be sending foreign aid up there and had suddenly stopped, but I've heard so much about the weather lately I don't intend to discuss it.

What I have in mind this week is the television situation in Africa.

According to an article I read in a newspaper last night which I had planned to wrap a water pipe with but never did get around to and it's too late now, televi-

sion is now showing up in darkest Africa and the people like it, especially Westerns. But the trouble is there aren't many sets in the country. As the article explained, "the reason is simple — with an average income of less than \$100 a year, it is difficult for an African to purchase a TV set, even with time payments."

I don't understand this. I've never seen a budget yet so small a television set couldn't be squeezed out of it, although I'll admit a hundred dollars a year is a mighty small budget.

The trouble with the Africans is that they don't understand high finance. Take the United States. We understand it. Washington expects an income of around 90 billion dollars this year, but it intends to spend a hundred billion.

If Washington can spend 10 billion dollars it doesn't have, why can't an African spend \$10 he doesn't have and buy a television set? Although, I'll admit it might be hard to buy a TV set for \$10 a year.

To tell you the truth, I don't see how Washington can spend ten billion it doesn't have, but on the other hand I don't see how an African can live on \$100 a year. It must not cost much to operate a car in that country.

'62 Bond Sales Total \$54,300

December Savings Bonds sales in Bailey County were \$2,872 according to M. C. Gunstream, Chairman of the Bailey County Savings Bonds Committee. During 1962 the citizens of this county purchased \$54,300, which represents 45.3 percent of the 1962 sales goal of \$120,000.

Sales in Texas during 1962 totaled \$143,146,965 which is 86.7 percent of the state goal of \$165,100,000.

U. S. Treasury records disclose that the number of individual bonds issued during 1962 set a five-year record with over 73 million individual bonds issued during the year. The number of \$50 bonds purchased was the highest amount since the war years, and the sale of \$25 bonds was at a five-year record.

The increased sales of the smaller denomination bonds are a direct result of the Freedom Bond Drive, when over one million American workers enrolled in the Payroll Savings Plan for bond buying. This was a 15 percent increase over 1961" Chairman Gunstream reported.

World Rule Is Goal

Control of armaments was being talked 40 years ago; but never in history has any nation proposed such a drastic program of alien military rule as offered by our State Department.

From the end of World War I to 1943, arms limitation talks, launched by the League of Nations, were held spasmodically. Some general declarations emerged, but the whole thing foundered on Hitler's rearmament of Germany.

In 1921 a Naval Limitation Conference was held in Washington, with the U.S., Britain, Japan, France, and Italy participating. From it came the "5-5-3" formula — five battle ships each for the U. S. and Britain, three for Japan; others to be scrapped.

Twenty years later Japan bombed Pearl Harbor.

The Atlantic Charter and the Moscow Declaration of War II years both spoke on arms limitations in general terms. The Charter of the United Nations in 1946 also recommended disarmament discussions.

In 1948, a Soviet delegate proposed that everybody cut their armies one-third — Which, of course, would have left Russia the most powerful nation on earth.

But never in history — until September, 1961 — did any country propose a plan to strip all nations of all arms, except enough to keep domestic order, and set up an armed force under international authority to police disputes among nations.

The international planners had taken over.

Should the U. S. disarmament plan go through, the government of the world would be vested in the United Nations.

Kenneth DeCourcy's newsletter, Intelligence Digest, published in London, has a long record of calling the shots on the international scene.

The latest issue describes Secretary-General U. Thant as an ambitious international politician whose goal is world government under the UN Secretariat. The Congo operation backed so strongly by Washington, was a move in this direction.

Power politics still rules the world. Transferring power from national government to the United Nations will not bring peace. (Amarillo News-Globe)

Tax Allowance On Underground Water is Upheld

AMARILLO (AP) — Under a new federal court decision, farmers could claim a tax depletion allowance for irreplaceable ground water used to grow crops.

Unless the ruling is set aside, it upholds a West Texas farmer's argument he should be able to claim an income tax deduction. He contended the water was a mineral and should be subject to the allowance granted oil and gas producers.

The case is considered of prime importance to the economy of the Panhandle - Plains area where underground water is used extensively for irrigation.

Lawyers for the High Plains Underground Water District were informed at weekend by U. S. Dist. Judge Joseph B. Dooley that he was ruling for the farmer, Marvin Shurbet of Petersburg.

Shurbet filed his case in conjunction with the High Plains Underground Water Conservation District No. 1. He asked specifically for a \$300 refund on his 1959 income taxes, on the grounds that the water he used to irrigate his crops would not be replaced in his lifetime, and was therefore susceptible to mineral depletion allowances.

Yarbrough In Washington

On January 14, the first day for the introduction of bills in the U. S. Senate in this 88th Session, I introduced the GI Bill for veterans of the so-called Cold War. But, fellow Texans, this is no Cold War to the many American servicemen who risk injury and death around the clock. Some never come back from the sacrifices they make to contain Communism around the world.

This is the third session of Congress in which I have introduced the Cold War GI Bill. Although the legislative barricades have been hard to pass, the popularity and the justice of this bill are greater than ever, and knowledge of it grows at home and in the Congress.

The Cold War GI Bill would allow one and one half days of education to veterans for each day of military service for the time between January 31, 1955, and July 1, 1963. This is the period between the end of the Korean Conflict GI Bill and the termination of the present draft law.

The bill would provide a single veteran up to \$11 a month... a married veteran with two children \$165 a month... to get a start on his education. Each veteran of the Cold War period would be entitled to a maximum of 36 months of readjustment assistance.

My Cold War GI Bill was first introduced in the 86th Congress, where it passed the Senate 57 to 31 but failed to get out of Committee in the House. In the 87th Congress, I re-introduced the bill with 36 other Senators co-sponsoring it and succeeded in getting it reported out of the Senate Labor and Public Welfare Committee, but the legislative snarl-up was so bad last year that we were not able to get it passed.

Each year, thousands of our finest young Americans enter military service for two, three or four years. They make up 46 per cent of their age group. Meanwhile, 54 per cent stay behind and get a head start in civilian life — in on-the-job training, in education, in all ways. The veteran who returns finds his civilian counterpart with a distinct advantage in the battle of life. A GI Bill would help to offset what is an outright injustice to our veterans.

Today's serviceman can find himself under threat of gunfire in many different areas of the world — trouble spots like South Vietnam, Berlin, Cuba. The risk is great but what is the reward? The reward is a penalty to the veteran when he returns to civilian life — a penalty for his service. We need to remove this penalty and give the veteran who served his country a chance to advance himself, to become a better, more valuable American citizen.

The veterans of World War II and the Korean Conflict have shown they can make good when given a chance. They are more than repaying their country for the comparatively small cost of a GI Bill, by paying back more money in taxes to their country — taxes from higher earnings made possible by a better education.

I intend to work harder than ever before to get this bill for GI justice passed. I intend to attack the forces of indifference, of greed, of selfishness and of

avarice — the Four Horsemen who for four long years have trampled underfoot the opportunities to these guardians of our nation's freedom.

Fellow Texans, it took four years and four months to pass the Padre Island National Seashore Bill under forces of opposition. I've just begun to fight for these veterans of the Cold War, these guardians of the hopes of free men everywhere.

San Angelo College Plans Homecoming

SAN ANGELO — San Angelo College Ex-Students Association is planning its annual San Angelo College Homecoming celebration for Saturday, February 9, at the college with the SAC Rams versus Frank Phillips College basketball game as a climax to the activities, according to Walter Thomson, San Angelo, president of the association.

Leonard King and his orchestra will play for the Exes dance at the Elks Club following the basketball game.

Homecoming queen and her four duchesses, elected by the students, will be presented at half-time at the game which will begin at 7:30 p.m. in the college gym.

STUDENTS IN RECITAL
Piano students of Mrs. E. H. Kennedy were presented in a recital Sunday afternoon in the Presbyterian Church.

Selections were presented by thirty-five students.

The Churches of Muleshoe

Welcome You

GOD IS NOT UNREASONABLE

The church of God is made up of large and small glasses. The Lord doesn't ask for anything that is unreasonable. He doesn't wait for the smaller glasses to have the same capacity as the larger ones.

God waits for recompense according to what the man has, and not according to what he does not have. Do the best you can, and God will accept our efforts. Undertake the compliment of the duty that you have more handy and take it to the end of your life with loyalty, and our work will be completely to the Master.

Don't let the smaller jobs that await you, pass you by. Don't overlook the secret prayer and our study of the word of God. These are our weapons against the ones that try to obstruct our progress to reach heaven. The first negligence of our prayers makes the second one easier. . . . The first resistance of the prayer of the spirit prepares the road to the second one. In this manner of the heart turns hard and makes the conscience insensible.

For another part, every resistance to temptation makes the resistance easier. Each refusal of thy self makes our devotion much easier. Each victory gained prepares the road to another new victory. Each resistance to temptation, each act of abnegation, each triumph over sin, constitutes a planted seed for eternal life. Each act of prayer gives new strength to the Christian life. No one can try to be like Jesus Christ without being noble and faithful.

Watch therefore, for ye know neither the day nor the hour wherein the Son of man cometh. — St. Math. 25:13.

Farm Facts

An analysis of components included in the cost of living shows that the cost of food and clothing has risen only about 8% in the past 10 years.

Consumer durable goods—refrigerators, washers, TVs, etc.—cost less than they did 10 years ago. The big increase—over 30%—has been in the broad category of "services." This includes such items as housing, transportation, medical care, personal care, etc.

There has been an increase in the quantity and in the character of such services as well as a steady upward trend in wages and fringe benefits. Over the past decade, taxes have risen 121%. Taxes take a larger proportion of our income than food, clothing, and medical care combined.

The rising cost of government is paid for primarily by taxes on personal income. Taxes are not included in the federal government's "cost of living index."

Food and clothing costs have risen only 5% in the past ten years.

The real rise in living costs is illustrated by the fact that a worker who earned \$5,000 in 1949 would have to earn \$7,870 today just to stay even with the toll taken by taxes and inflation.

New 'Pre-Need' Burial Program Offered Here

Mr. G. N. Phillip, manager of Memorial Management Association, Inc., reports that a new organization known as Memorial Management Association, is currently introducing a new program to the families and individuals in the Muleshoe area, to help them in planning their memorial estate. The memorial planning organization has its central headquarters in El Paso, Texas with district office serving this area located in Clovis, N.M.

The new program is designed to provide a totally new concept in the planning of funerals and burials in advance of need. Memorial Management claims to have made a radical break-through in solving memorial problems for families and individuals.

They serve the people by conducting personal interviews in the home by a staff of memorial counselors assigned from their Clovis District office. Information in this regard may be obtained by contacting local Chamber of Commerce office.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford
TEXAS PRESS ASSOCIATION

By VERN SANFORD
Texas Press Association
AUSTIN — Rep. James Cotton of Weatherford — one of the most militant members of the 58th Legislature — is examining the flight records of state-owned planes.

Cotton is concerned about what he considers frivolous use of state property. . . namely, three airplanes which the Department of Public Safety is supposed to use for transporting officers to distant scenes of crimes, or to attend law enforcement meetings without missing too many duty hours.

Cotton wants to know "How much did these junkets cost?"

State pilots haven't answered, but Austin airport authorities guess the cost at \$26 to \$75 an hour — depending on which plane is used — plus pilot's time.

Now the representative from Weatherford is talking about grounding all passengers except those who are entitled to use state planes for necessary, official business.

He plans to introduce a bill that would forbid legislators from hitch-hiking rides aboard the planes unless they were on official business.

PARENTAL SUPPORT BILL
A bill which would make relatives responsible for the welfare of the needy old people has been introduced by Rep. J. Collier Adams of Lubbock.

Patterned after the "Montana Method," the bill calls for contributions to the support of citizens on Old Age Assistance rolls and disabled persons receiving state aid.

The "responsible" relatives could be the assistance recipient's parent, aunt, uncle, niece, nephew, spouse, brother, sister, son, daughter or grandparent.

Proposed law would make a person earning \$201 a month and supporting only himself pay \$5 a month toward a relative's care. If he made \$376 a month and was supporting two people, he'd have to pay \$20.

"I just believe," Representative Adams said, "that the commandment 'Honor thy mother and father' should be upheld." He said he also figures that the most needy people could get larger benefit checks if others received semi-support from their families.

BRUCELLOSIS TESTS
Dr. John L. Wilbur Jr., U. S. Department of Agriculture's animal disease eradication division, reported that public stockyards brucellosis infection ratios of 1 to 11 per cent.

High ratio was revealed at the Port City Stockyards in Houston. An infection ratio of only one per cent was found at San Antonio's Stockyards' ratio was 3.7 per cent.

NO EMERGENCY
The man who holds the state purse strings for the House of Representatives said he sees no urgency requiring fast legislative action to bolster the screwworm eradication program by \$1,400,000.

Chairman Bill Healy of the House Appropriations Committee said his conclusion of a recent hearing is that livestock producers have raised enough money to keep the program going until March 1.

Meanwhile, an interim study committee headed by Sen. Culp Krueger of El Campo strongly recommended that the \$1,400,000 be appropriated now, and another \$1,600,000 be appropriated for the year beginning September 1.

This would make up the \$3,000,000, members of the Southwest Animal Health Research Foundation have been seeking from the state.

FIRST APPOINTMENT
Gov. John Connally's first appointment act was to name Judge Louis T. Holland Jr. of Montague as Presiding Judge of the 8th Administrative Judicial District.

Judge Holland will succeed Judge Jack M. Langdon of Fort Worth.

As an alternate to sending "the cream of business profits to out-of-state trading stamp companies," Rep. Jim Segrest of San Antonio proposed a 10 per cent gross receipts tax on trading stamps.

"Trading stamps are the most hated of all competitive weapons by even those who use them so why not tax such an unhealthy item?" Segrest asked.

He said his bill would bring millions to the state treasury as a balance to "some fifty million dollars" taken out of Texas annually by trading stamp com-

determined to make this state a leader in securing new industry, was greatly pleased with the announcement that the Holly Sugar Corporation of Colorado Springs, Colorado, will establish an \$18,000,000 sugar beet processing plant in Hereford.

Construction will begin soon, and the 1,700 acre plant is expected to be in operation by September 1, 1964.

"Establishment of this refinery is a big step toward providing new job opportunities for the citizens of Texas," Governor Connally wired the sugar firm.

COLLEGE HEARINGS SET
House State Affairs Committee — which has been the referral point of about one-third of 260 bills already introduced by the 58th Legislature — put college upgrading requests first on its agenda.

Bills being heard first are those designed to lend senior status and full state support to San Angelo Junior College and Odessa Junior College, and give full state support to Pan American College at Edinburg.

FUND-RAISING RESTRICTIONS
Sen. Criss Cole of Houston believes the state should keep tabs on all people who raise money for charity.

Many charitable organizations use professional money-raisers to conduct fund campaigns, and Cole proposes that the charities tell Secretary of State Crawford Martin:

1. What sort of deals they've made with their professional money-raisers;

2. What commissions the fund-raisers would get;

3. When solicitations will be held, and what will be done with the money solicited.

Annual reports of licensed organizations would be checked by a certified public accountant. Attorney general would halt the activities of organizations which try to raise cash without registering, unless they are exempt from the act.

FREE FISHING
An easing of fishing license requirements — aimed at helping unemployed persons on the Gulf Coast — has been introduced by Rep. Ed J. Harris of Galveston.

Harris proposed that citizens be allowed to fish with rod and reel in their home counties without paying \$2.15 for a license. He described fishing in one's own county or from one's own property as a "basic, human right."

PURCHASE RAISE PROPOSED
A bill to raise from \$150 to \$500 the amount of "emergency purchases" a county can make without advertising for competitive bids has been drafted by Rep. Vernon Beckham of Denison.

Beckham said a county official can't buy a truckload of gasoline or a typewriter without exceeding the \$150 limitation enacted in 1921.

Beckham introduced another bill which would raise the maximum to be spent by county commissioners on office buildings or jails in cities other than the county seat from \$150,000 to \$200,000.

OIL ALLOWABLE UPPED
Texas Railroad Commission has given oilmen their biggest production raise in many months. Commission has set the February allowable at 29 per cent of potential.

MEDICAL PRACTICE
Senator Jim Bates of Edinburg has introduced legislation (SB 64) aimed at licensing and regulating non-physician owned and operated clinical laboratories.

"This bill would strengthen the Texas Medical Practice Act," Bates says, "by establishing educational and experience standards as a requirement for licensing by the State Department of Health."

Bill also requires that all tests be performed only upon the request of a doctor.

TOO BIG
Rep. V. E. "Red" Berry of San Antonio wants to divide Texas into two states.

A constitutional amendment proposed by the colorful retired gambler would create the "State of South Texas." Berry envisions it as a tax-free paradise in which horse racing, liquor by the drink and tourist trade would flourish. Speakers from throughout the nation have been invited to take part in the annual event.

When Carry Back won the Metropolitan Handicap at Aqueduct this spring, he replaced Swoon's Son as the fourth leading money earner in thoroughbred history. The win made Carry Back the fourth equine millionaire in history with \$1,009,153.

In 11 seasons, Don Hutson of the Green Bay Packers stored 825 points, third best figure in the history of the National Football League.

Rural Electrification Administration loans, made to help rural people build their own electric lines, are turning out to be one of the best investments our Nation ever made.

Since 1935, REA has advanced more than \$3 1/2 billion to nearly 1,000 locally-owned and operated rural electric systems. Rural people—by-passed by stockholder power companies as too small or too unprofitable to serve—have used these loans to build 1 1/2 million miles of line serving 20 million people.

Rural electric loans are good investments. Already, America's Rural Electric Systems have

An unweighted mullet sank gently into the azure Gulf of Mexico. Raymond Muchowich was holding his light, two-handed rod intently and watching the bait vanish into the depths.

Suddenly, the monofilament snapped taut.

Almost simultaneously Muchowich yanked back on the rod. The tip heeled over and throbbed. The small star-drag reel whined in protest as a speedy king mackerel (kingfish, if you prefer) ripped off monofilament.

Muchowich yelled gleefully as the streamlined fish bored deep. It paused somewhere out in the desolate vastness of the gulf and Muchowich gained back some line only to lose it again, as the king made another frantic run.

After several maddening rushes the king settled down to a tenacious battle of give-and-take. Finally, Muchowich worked the king to a spot alongside the boat and we could see its outline in the clear water.

The boat captain stood poised with the gaff.

Suddenly the fish made one last feeble rush for freedom. Muchowich snubbed the line up tight and brought the fish twisting to the surface.

Then it was that the captain struck swiftly with the gaff and brought 15 pounds of flouncing kingfish aboard.

Muchowich looked around and grinned. "What did I tell you?" he chortled. "Great sport, no?"

I didn't have time to answer because I was busy battling one of the sporty fish with my freshwater spinning outfit. On the light tackle it was cutting all sorts of capers.

Muchowich had brought me out in the gulf to demonstrate the popular new concept of king-fishing.

Most kings are caught by trolling, using derrick-like tackle that will quickly sap the strength of even the largest of them.

Muchowich, who operates a fleet of charter fishing boats out of Freeport, prefers to anchor on an offshore reef and cast for the kings with light tackle. It's immaterial to him whether he fishes with artificial bait such as a large wobbling spoon, or with natural baits like frozen mullet or live shrimp.

When using the natural baits he fishes without any weight on the line so the bait will sink slowly toward the bottom.

"The kingfish makes his best showing on that first, fast run," Muchowich explained. "When the boat is moving and you're using heavy tackle, the fish hasn't got a chance. You kill its spirit before it has an opportunity to show what it's made of."

"But on light tackle... well that's something a fisherman really must try in order to appreciate it."

And appreciating it, I was. As the javelin-shaped fish came up grudgingly from the depth, I realized that this mode of king fishing was indeed sporting.

It used to be that guides along the Texas coast tried to fix things so that their clients could catch the greatest amount of fish in the shortest time possible. But after awhile some guides got

to thinking that such wholesale slaughtering of fish, most of which were left to rot on the docks, was only depleting the available supply.

Now many fishermen are changing their technique. They are going to light tackle. Most such tackle is not much larger than that used to catch bass on inland lakes and streams. True, this type of sport fishing decreases the size of the catch. But it increases the fun. And it definitely is more sporting.

Ideal rig for this type fishing is a medium to stiff fresh-water or light salt-water outfit, either conventional or spinning, equipped with about fifteen-pound test line.

A reel with built-in drag is preferred since it is almost impossible to stop the mad rush of a king by biting down on the reel arbor with your thumb without losing several inches of skin.

Kingfish are found in tremendous numbers along the Texas coast. Usually they put in an appearance in May (Memorial Day normally signals the beginning of the peak kingfish run). And they stick around until early fall.

They are caught near offshore reefs or alongside offshore oil rigs, or in similar spots where their favorite food is abundant.

It is well to remember that kings run in large schools and where one is caught, usually you'll take several.

Many anglers troll until they pinpoint a school, then they anchor and start casting.

That's when the fun begins. And it's even greater fun using light tackle where the fish really has a sporting chance.

COMMUNITY LEAGUE STANDINGS

Table with columns W, L and rows for various bowling teams like First National Bank, KMUL, Figgly Wiggly, Earth, etc.

The high individual games were bowled by Ada Murrah when she rolled a 213 game; Ruby Faubus by downing 199 pins and Elsie Patterson when she racked up a score of 193.

Ada Murrah also led the high individual series with a grand total of 557 pins. Following closely behind with a 550 is Elsie Patterson and next by Helen Moore with 540 pins.

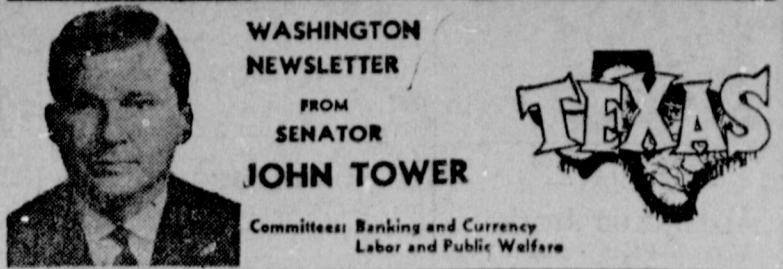

First National Bank monopolized the top three spots for the high team games with games of 878, 855 and 838.

Therefore, First National Bank won first place in the high team series with a total of 2571, followed by North Lazbuddie Gin with 2217 and Earth Piggly Wiggly with 2204.

STATE OF THE UNION President Kennedy's State of Union message has pointed up the main issue confronting the 88th Congress. In the main, there were no surprises. It was chiefly the continuing New Deal, Fair Deal, and New Frontier approach to national ills, real and imagined. The same old story of more power for the central government, with more and more unbalancing of the budget, for more programs. Much of this philosophy, and its specific accompanying proposals, as a responsible United States Senator, I must oppose. We are spending much too much money. Every year we are going more and more in the hole. Our national debt has passed the \$300 billion mark, and is still soaring. My position is that it is economically unsound and too immoral for us to impose great debts on generations yet unborn, to afford ourselves some public welfare benefits, some public works, and so on. There are many non-defense areas in which spending can, and must be cut. As submitted, the President's budget of virtually \$100 billion, is a record figure. It exceeds, in peace time, the recorded \$98.3 billion, of the costliest fiscal year of World War II.

TAXES The President asks for an across-the-board cut in individual and corporate income taxes, to total \$13.5 billion in three years. You are familiar with my own legislative program, which includes measures to reform and reduce personal and corporate income taxes, and for a balanced budget, except in wartime. The President's proposal is one that most legislators can support in principle as a stimulus to business, investment and economic growth, but, unless it is accompanied by a corresponding reduction in federal spending, it will lead to economic chaos. The federal budget should be balanced in periods of peace and general prosperity and I am opposed to the tax cut unless federal spending is cut, and the budget is balanced. The President asks for the closing of some existing tax loopholes, but spending should be cut first, so the government will not go deeply in the red.

MEDICARE The President has again called for passage of the Medicare under social security legislation. This was defeated in the last session of the Congress. It is my fervent hope it will be defeated again. It is my conviction that medical care for the indigent elderly, or medical care for anyone who cannot afford it, is the responsibility of the State and the local community, and private individuals and organizations. It is not the responsibility of the federal government. I am sure, if we instituted medicare under social security, it will be the first step toward socialized medicine.

RULE 22 Rules of the Senate, one of the few remaining forums with virtual unlimited rights of speech and debate, permit Senators to hold the floor for very long periods of time. It is difficult, under present Rule 22 of the Senate, to cut off debate. In order to close debate, a petition must be entered by 16 or more members. After two days, the petition must be voted on and must be adopted by two-thirds of those present and voting, or the debate continues. The Senate is presently considering proposals to modify Rule 22 to permit a simple majority of the Senate to cut off debate at any time. I disagree with this proposition, have already spoken against the modification of the rule, both on and off the Senate floor, and shall continue to do so. I believe Rule 22, as presently constituted, is a good rule. Unlimited debate in the Senate protects the minority against what could be

the "emotional tyranny" of the rights, and while unlimited debate has, on occasion, slowed down or prevented the passage of good legislation, it has many times prevented passage of bad legislation, which could have been enacted in an emotional situation, or hurriedly considered. For these reasons, I support the continuance of Rule 22, as it is.

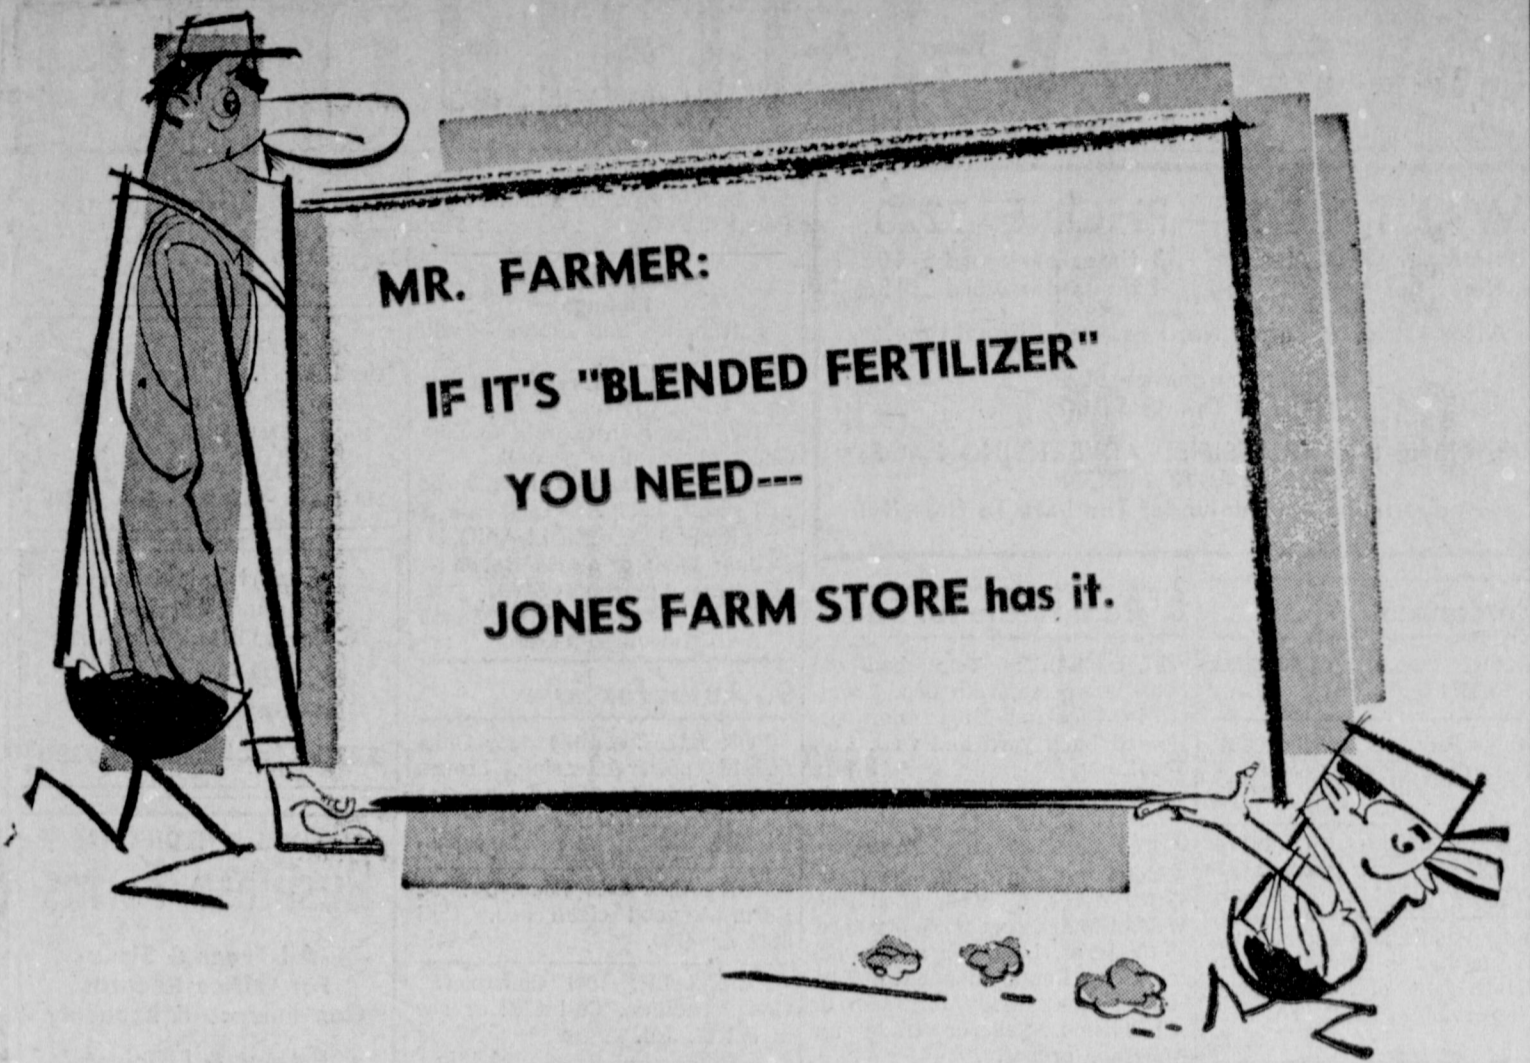

DOMESTIC PEACE CORPS This domestic peace corps proposal calls to mind the old CCC of depression days. It is amusing to consider it could send graduates of eastern finishing schools to Texas, to teach Texans how to raise peanuts, or cotton, or something. This socialistic scheme is just one more step, in preparing our young people for collectivism.

CONGO President Kennedy, in his State of the Union message, put his stamp of approval on the State department's reprehensible conduct in the Congo, in support of United Nations aggression there. Our conduct in the Congo is a national shame. It marks the first time in our Nation's history we have deliberately undertaken to destroy the liberty and independence of another people. The support by our government for this calculated campaign of force and pillage, waged by Secretary General U Thant's 18,000-man army, is convincing the American people, more and more each day, of the futility of the United Nations as an effective instrument of peace. Abroad, the U. S.-backed war against Tshombe has dismayed many of our traditional allies and friends among the Western governments, and well it should. A united Congo, achieved with persuasion and diplomacy, is certainly proper, but there is no justification for the UN to intervene with military might and sanctions to force unification. I am in favor of a thorough investigation by the Congress, and will propose this to the appropriate Senate investigative committee.
