One of the highlights of the celebration was a gift and poem from her brother, SP-4 Jerry D. Brackman. The gift was a cultured pearl accompanied by the following poem he had composed for her:

When I left home  
You were a little pest  
Now you're all grown up  
You're looking your best

No longer are you a little girl  
Now you compete with queens  
Your troubles have just started  
You have begun your teens

On your birthday — I send  
To you this Cultured Pearl  
Take lessons from it  
And you'll enjoy this world.

Man irritates the oyster  
But it doesn't rebel  
But makes a rare stone  
For the man to sell

Be like that thru life  
And you'll make out fine  
There'll be no dark days  
The sun, you'll outshine.

Brackman has been in the service for the past five years and is presently stationed at Fort Benning, Ga.

**Letters TO THE EDITOR**

Dear Editor — At the Bailey County Electric Cooperative Meeting on February 22 there seemed to be some criticism of Farm Bureau policy in relation to Rural Electric Cooperatives.

Some seem to think that the delegates at the American Farm Bureau Convention in Atlanta, Ga. in December should have called in the REA representatives and consulted them about REA recommendations. Atlanta, Ga. was the wrong place to expect to have REA recommendations presented. Those recommendations should be presented at the county level, taken from there to state, and then and only then taken to the American convention.

If Bailey County Electric Cooperative is in disagreement with Farm Bureau policy or if they wish a policy of theirs included in American Farm Bureau policy, they should present it to the county policy development meeting where all county Farm Bureau members can consider it. If it is not presented to the county, there is no way for it to be presented to the state. If the state does not have a policy recommendation, it cannot make a policy recommendation at the American Farm Bureau Convention. If our state delegates to the American Farm Bureau could do this, then all our work in taking resolutions to the county, state, and American Farm Bureau Convention would be in vain. If policy

could be made by the American delegates without the recommendation of the individual Farm Bureau member, our Farm Bureau policy would be made at the top and handed down to the individual Farm Bureau member. Instead they are made by the individual and handed up to the American Farm Bureau Convention.

It is Bailey County Electric Cooperative's privilege to oppose the American Farm Bureau policy on REA. However, they seem to misunderstand how Farm Bureau policy is developed. If they wish the cooperation of Farm Bureau they will have to start at the county level with their recommendations. It is too late if an effort is made to present the recommendation to the delegates of The American Farm Bureau convention. —Mrs. Morris McKillip, Chairman, Bailey County Farm Bureau Women's Committee.

Dear Editor: — In October, 1962, Mrs. Morris McKillip of Muleshoe made some interesting calculations and statements on the Cuban crisis, in which she remarked on this wise: "If the United Nations negotiates for Cuba and the United States, this will establish the precedent of UN troops on Western Hemisphere soil. What will happen if the United States is declared the aggressor in later issues? The precedent will be established and we can expect UN troops on our own soil, still under the leadership of the Communist Military Secretariat."

On February 19, 1963 an article appeared in the Berser Herald News to the effect that several sources of information warn against the arrival of foreign troops for maneuvers here. These are reported to be Gurkha, from India, and Congolese. The State Department simply passes this off by saying that they have always trained foreign soldiers in America, and that they have no immediate information regarding the rumor. Senator Tower has put out a report which does indicate that the story will develop in the next few weeks. Let us all be watching for this story. It is of vital significance with sinister possibilities of this being

**IT'S FOR THE BIRDS!**

By MELVIN R. EVANS  
Refuge Manager, Muleshoe National Wildlife Refuge

"Hey, Fred! You hunt arrowheads don't you?"  
"Yes, Tom I do. Why do you ask?"  
"Well, I was out at the Muleshoe Wildlife Refuge the other day hunting for arrowheads and other Indian relics, when the refuge manager approached me and asked if I had found any artifacts. After I told him I hadn't, he asked me if I knew what the 'Antiquities Act' was and why it was written? I told him I hadn't even heard of this 'An' — what ever it was Act, much less knew anything about it."

"The 'Antiquities Act' was enacted in 1906 to protect areas of historic, scientific, and archeologic importance."  
"Whoa, wait a minute, Tom. What is this word archeologic?"  
"It refers to the scientific study of the remains of past human life and activities. This act gives the President the power to proclaim areas, which possess these important factors, as National Monuments."

"The only people who can hunt for such items on government owned or controlled property are reputable museums, universities, colleges, or other recognized scientific or educational institutions, or their duly authorized agents. Such groups or their representatives must obtain permits from the Secretaries (Interior, Army, Agriculture, etc.) having jurisdiction over the land in interest. No permit for the removal of any ancient monument or structure which can be permanently preserved under the control of the United States at the site of origin, and remain an object of interest, shall be granted."

"Well, Tom, how long have they been preventing arrow point looking on Wildlife refuges? We used to hunt on the refuge all the time and nobody said anything."

"As I understand it, the managers of National Wildlife Refuges and other Bureau of Sport Fisheries and Wildlife areas were told to enforce this act (Law) during the month of June, 1962."

"I'm sure glad you told me. Jake and I were planning a trip out to the wildlife refuge to hunt Indian artifacts this afternoon. I guess we better change our plans."

**YOUNG THESPIANS** — Muleshoe's senior class presented its annual play last week, "That's My Cousin," a modern western which had its locale at "Uranium Dude Ranch," at Cross Roads, Colo. Here are members of the

cast at curtain call. Left to right are Belinda Hendon, Gerald White, Gail Kitchens, Smitty Aylesworth, Pam Lenau, R. G. Bennett, Reata Coker, Barbara Sarratt, Jerry Harrison, Barbara Evins, Donald Shanks, Marilyn Green,

Jeannine Coffman, Al Reasoner, Joann Mock, James West, Davy Jean Anderson and Ronnie Locke. The play was directed by Kerry Moore, MHS speech teacher. (Journal Photos and Engravings)

**TOO MANY GUESTS** — Promoter of a down-at-the-heels dude ranch, Kitty Drake, (Gail Kitchens) needed customers, but she got two she hadn't expected, two Indians from a nearby reservation. Playing the Redmen's parts were Jeanine Coffman and Al Reasoner.

**WRONG LINES** — Tempermental actress, Tallina La-Gallimore (Pam Lenau) had a few things, all uncomplimentary, to say to her director, Ronnie Locke, in this scene from "That's My Cousin."

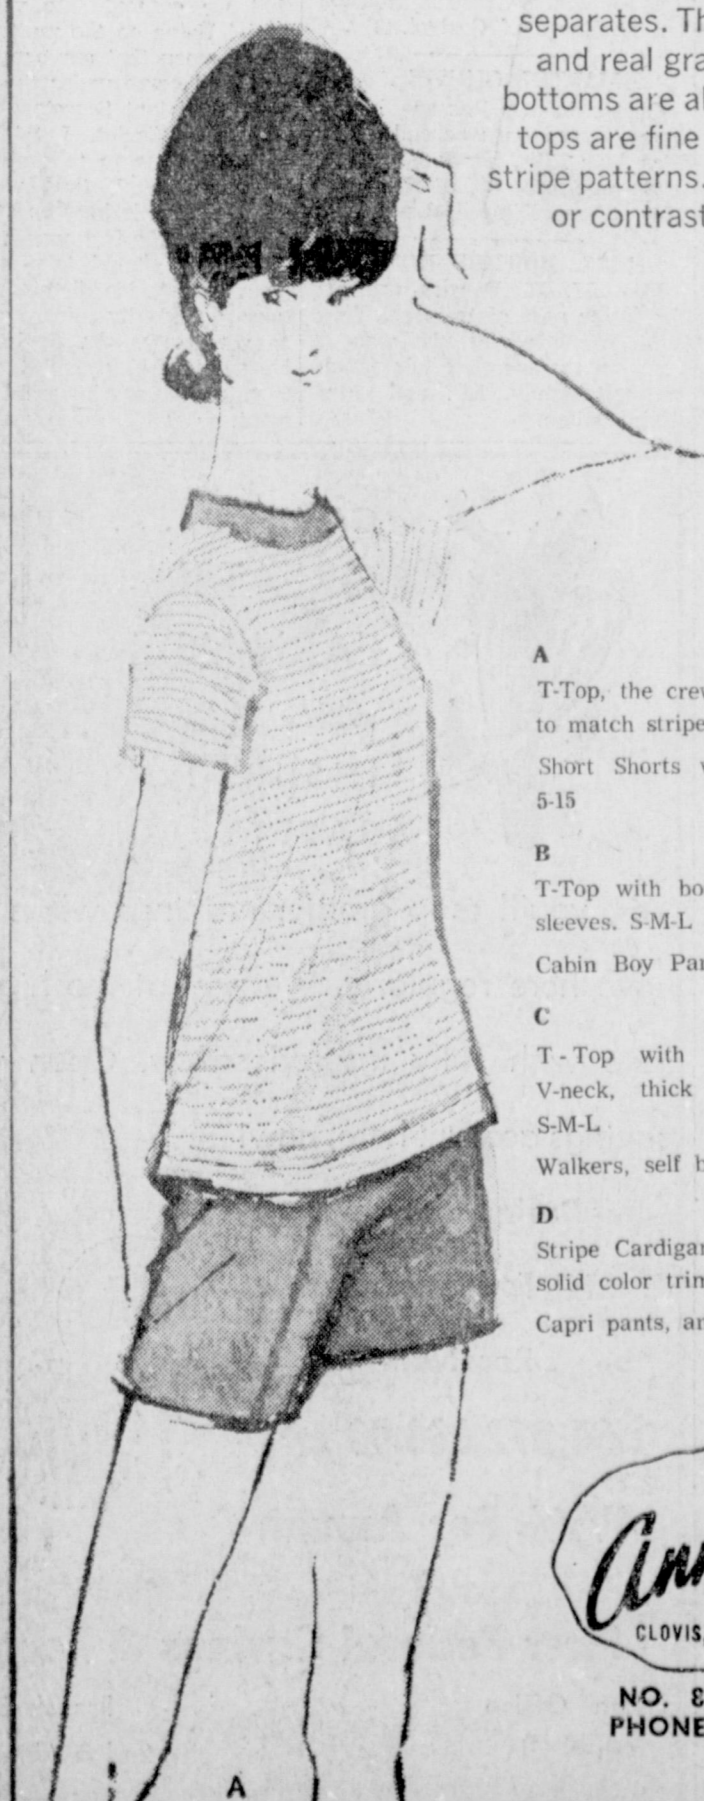

**LOVE ELEMENT** — The banker's son (Smitty Aylesworth) backed Kitty (Gail Kitchens) in her dude ranch adventure, and they provided one of the love elements for the play. Here they've just had a spat.

**SHERIFF AND COOK** — Sheriff Custer Henshaw (Gerald White) was the timid suitor of the ranch's cook (Belinda Hendon), shown here making his shy proposal. All love angles of the play ended happily, fortunately.

## SANDHILLS PHILOSOPHER

### He's Amazed to Find New Yorkers Miss Local News Same as We Do

Editor's note: The Sandhills Philosopher on his Johnson grass farm uncovers a fact about people in his letter this week.

Dear editor:  
I know everybody is supposed to be international-minded these days, that it's only ten hours by jet from this Johnson grass farm to the other side of the world, if you could find a place to take off from, or land when you get there, that it's only 20 minutes by missile and one of those things doesn't need a landing field, and so I try to keep abreast of things and not upset world affairs, in fact, lots of time I have left of important work that should have been done around here until I had studied its effect on DeGaulle's thinking, if you want to call it that — not going to catch me repairing a fence if it's going to keep England out of the Common Market, but last night I ran across an item that makes me doubt if some areas of the nations are keeping up with this advanced notion.

In fact, the area is New York City. Now you'd think New Yorkers, with all their metropolitan advantages, would be in the lead in world thinking. But according to his article, the thing that New Yorkers miss most while the city is without newspapers due to the strike is local news.

They can find out from out-of-town newspapers shipped in what the Cuban situation is, or what it isn't, depending on who's saying it; what the situation is in Europe; what Khrushchev has pledged this morning but not necessarily what he has done this afternoon; what Congress has done, or thinks it's done, and things like that, but this doesn't satisfy them. What they want to know is what's happening in New York.

This bowled me over, or would have if I hadn't been stretched out at the time. You mean to say New Yorkers are just like people in Muleshoe? That New York women are interested in New York weddings first and the national budget second? That what happens to people they know is more interesting than the situation in the Congo? That plans for repairing a worn-out street on your way to work is more fascinating than building a foreign-aid dam on the Nile?

Understand, this doesn't mean the people in New York or Muleshoe aren't interested in the national budget and maybe even in the Congo, but a steady diet of the budget and the Congo leaves out a lot of flavor. As long as people are people, the New York Times and The Journal will never be replaced by distant papers without any home-town news. This may not be international-minded, but you and me and them New Yorkers just can't help it.

Yours faithfully,  
J. A.

## STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

By VERN SANFORD  
Texas Press Association  
AUSTIN — Hospitals have been playing an important part in State government.

While Gov. John B. Connally was recuperating from a hernia operation, the state senate turned thumbs down on his choice of former Supreme Court Justice W. St. John Garwood as a University of Texas regent.

The man who sponsored Garwood — Sen. Charles Herring of Austin — also was recuperating from an operation: an appendectomy.

Attempts at bedside maneuvers by both to get a senatorial confirmation for the prominent Texan failed and the appointment was turned down by an estimated minority of 12-16.

It takes a two-thirds majority to approve an appointment. Governor Connally issued a statement, saying he was "bitterly disappointed that a minority group of the Senate prevented confirmation of Judge Garwood."

He added, "To me, it seems inconceivable that the people of Texas could be denied the services of a man of exceptional intellect, a man of great capacities, and a man of deep devotion to the University and his State."

The governor said he had hoped the senate might choose to reconsider its action but had no further comment at this time.

**GAME - PARKS MERGER**  
Senate spent most of the week spinning its wheels. But over in the House of Representatives one of Governor Connally's major reorganizations — the House of Reorganization's major reorganizations — merging the Game and Fish Commission and the State Parks Board into a single three-member "Parks and Wildlife Commission" — was pushed through by a two to one majority.

Rep. James Cotten of Weatherford, long a foe of the Game and Fish Commission, carried the measure through the house, and committed himself to vote to provide general tax revenues to support the parks system once they are merged.

**County School Superintendents**  
A heavy majority in the House favors ousting county school superintendents in 86 counties. They voted to cut off state aid to them. Aim is to force the voters to say "yes" or "no" on whether they want to keep them at county tax expense, after their present terms run out in 1966.

If this proposal gets through as it now stands in the House, the state saving will be more than \$1,000,000.

Counties affected are those with no more than two rural school districts under the county official's supervision.

**County Building Hike Okayed**

WASHINGTON NEWSLETTER FROM SENATOR JOHN TOWER  
Committee Banking and Currency Labor and Public Welfare

Last week, I joined with Senator Carl T. Curtis, of Nebraska, in introducing a resolution to insure Senate approval of all moves to limit or reduce America's armed forces or America's armed might.

In 1961, the Arms Control and Disarmament Act, sometimes known as Public Law 87 - 297, which created an agency to be known as the United States Arms Control and Disarmament Agency. The agency is headed by a director who serves as principal adviser to the Secretary of State and the President on Arms Control and Disarmament matters.

Section 33 of the act authorizes the Director to prepare for the President, Secretary of State, "and heads of such other Governmental agencies, as the President may determine" recommendations concerning U. S. arms control and disarmament policy. This section continues, however, with a proviso: that "no action shall be taken under this or any other law that will obligate the United States to disarm or to reduce or to limit the Armed Forces or armaments of the United States, except pursuant to

provisions of the state's responsibility law.

Garrison said that a recent ruling by the Waco Court of Civil Appeals confirmed the fact that the law must be complied with by drivers of publicly-owned vehicles. The safety responsibility law requires everyone involved in an accident to show his ability to pay for damages caused to others.

This can be done by purchasing a liability insurance policy; by obtaining written releases from damaged persons; or by depositing cash in the amount of damages with the Department of Public Safety.

House Committee on Insurance has approved a bill by Rep. Robert Fairchild of Center which would strengthen and stiffen the safety responsibility law. Under this bill, if anyone failed to prove financial responsibility, the DPS could take his driver's license, as well as his car license plates.

**GOVERNOR'S APPOINTMENTS**  
Governor Connally has made these new appointments: Everett Fulgham of Lubbock has been named to the State Securities Board.

Appointed to the Board of Regents of State Teachers Colleges are Clayton Heare, Amarillo; Otis Lock, Lufkin; and Dr. Jose San Martin, San Antonio.

W. S. Bellows Jr. of Houston will fill the unexpired term of Joe Ed Winfree, also of Houston, on the Board of Control.

**MARTIN GUESTS**  
Guests in the Ramon Martin home over the weekend were Mrs. Dan Ellis, her father, G. C. Thompson, both of Littlefield, and Mrs. Oliver Dietzell, Levelland.

**MRS. BOWERS HOME**  
Mrs. W. R. Bowers returned the latter part of the week from Fort Worth where she was a guest in the home of her daughter and family, Mr. and Mrs. Alvin Dalton.

Too, we should take a lesson from history. No dictatorship has ever voluntarily disarmed. We cannot expect the Soviet Union bent on world conquest as it is to enter into any honorable agreement.

**ARIZONA VACATION**  
Mr. and Mrs. T. R. White are vacationing in Arizona and are expected to return around March 1.

They are staying at colorful Velda Rose Motor Motel near Mesa, Arizona and will be sight-seeing in Tucson, Phoenix, and other points of interest before returning.

**WHITE HOME**  
Clifford White was in Muleshoe over the weekend as a guest of his sister and family, the J. Pat Wagons.

White was scheduled to go with Tech ROTC Rifle team to Lored, but the match was called off due to weather.

He returned to Lubbock Sunday. He is a Tech freshman.

■ Unique touch in the Goode home is this master bedroom featuring decorative lighting and a sitting room separated by attractive wire divider. Mrs. Goode saw idea in magazine and adapted it.

This is the Goode home, as it is today. Exciting remodeling project started with original home, built in 1944. Original kitchen was converted to master bedroom. The Goodes planned their fully electric remodeling, right from the start, and so got an excellent job.

### Methodist Pastor Among 60 Studying Possible Changes in Church Policies

The Rev. J. Frank Peery of Muleshoe Methodist Church, was one of the 60 persons who met to explore ways to prepare Methodist annual conferences and jurisdictions for possible changes in Methodist jurisdictional structure to create a truly inclusive church.

The meeting was initiated by General Conference through the offices of the Woman's Division of Christian Service and the Division of Human Relations and Economic Affairs of Methodism's General Board of Christian Concerns. The sponsoring agencies set the pattern for the 39 regional study sessions as the result of an Orientation Conference held March 20-24, 1961 in Louisville, Kentucky.

Presiding at the sessions held at Laurel Heights Methodist Church, San Antonio, was Rev. Frank Peery, pastor of the Methodist Church at Muleshoe, Texas. Rev. W. F. Hathaway, Jr., Methodist pastor at Columbus, Texas served as secretary and co-ordinator of arrangements.

Dr. Floyd Carl told the group that 1960-64 will give the Methodist Church a new perspective in trying to solve the problem of relationships between Negroes and other groups in the church. He pointed out that previous efforts had tied the racial problem to the abolition of the jurisdictional system, but since the 1960 General Conference discussions have tended to emphasize the need for retaining the geographical jurisdictions while absorbing the racial Central Jurisdiction into the geographical jurisdictions.

Dr. John T. King, dean of Huston-Tillotson College, Austin, reported that leaders of the Negro Central Jurisdiction had released a study document recommending the Central Jurisdiction re-arrange the boundaries of their annual conferences so that every annual conference will fit entirely within the bounds of the geographical jurisdictions in order to make transfer of annual conferences easier. Dr. King also pointed out that the central jurisdiction had moved forward the date of its Jurisdictional Conference session to facilitate the actions recommended by the study document.

Other participants on the program were Dr. Marvin Boyd, Supt. of the Lubbock District, Rev. Robt. Breihan, director of the Wesley Foundation, Austin, Mrs. Thomas A. Caldwell, Austin, Dr. Ted I. Richardson, D. S. San Antonio, Rev. Raul Salazar, San Antonio, Executive Secretary of the Rio Grande Conference Council, Dr. J. J. Seabrook, President, Huston Tillotson, Austin.

**McGUIRES VACATION**  
Mr. and Mrs. A. R. McGuire are vacationing this week in Phoenix, Ariz. They are expected to return this weekend.

—1933—  
Franklin D. Roosevelt, his vice-president, John N. Garner, and all his selected cabinet members were duly sworn in at Washington, D. C. Saturday of last week as pre-arranged and customary scheduled.

The president, on lifting his eyes, looked out upon more than 100,000 Americans who hung onto his every expression cheering for an instant now and then, but more often in a mood of restraint, or perhaps quite hopefulness.

Behind him rose the majestic capitol, with flags fluttering in the breeze on its ramparts, and with hundreds more watching him from the stands on its peaks.

—1933—  
PAVEMENT PICKUPS—As F.C. Moeller sees it, this depression has been a low blow to men who never did anything except stand around and watch other men work.

R. L. Brown says he has always moaned that when a man gets rich enough to take two hours off for lunch, the doctor invariably puts him on a diet of crackers and milk, and that's Brown's reason for not getting out of the mediocre class of people into the plutocrats.

It doesn't take long for the average Muleshoe property owner to find out that one difference between death and taxes is that death doesn't get worse every time legislature meets.

—1933—

# The Churches of Muleshoe

## Welcome You

"DO IT YOURSELF KITS"

"For the sons of the world are wiser in their own generation than the sons of life."

The tragedy of the day, our own day, any day, is the sad truth that the concern and zeal of man is so largely spent in the world and spiritual growth must depend upon what is left of time, strength, mind, and money. We are told over and over again that we are made in the likeness of God, that we cannot be our own saviors, that we cannot have the good life save as we let God come into our lives. But yet we go on and on, depending upon our own abilities, using our time and talents for our own self-determined purposes.

We today are first sons of this world and then children of the light. Our week day work is so important that only an emergency can take us away but there are hundreds of things to keep us away from church on Sunday. Our children's absence from secular school have to be accounted for but absence from church school is dismissed without a thought. A golfer who bungles a shot in a tournament will go out and practice the shot for hours, but when a mistake is made in moral conduct the matter is treated at best with a swift prayer before jumping in bed. A housewife makes the wrong play in a bridge game and goes berserk, while her children roam the streets without parental guidance.

God can save to the uttermost and He has given himself fully to help us. But God forces himself on no one. We do not automatically grow in the good life. Even God does not feed us with the good things of life unless we go to him with hungry appetites and open mouths. Spiritual saints are not turned out in vending machines, and we will not be a better world in which to live until we give adequate attention to the things which make possible a better world. We cannot live by bread alone, we do not live by bread alone.

### Future Teachers Of America Recaps First Semester Work

By DAVY JEAN ANDERSON

As the first semester has come to a close, let us review the activities of the Future Teachers. The recruitment week was held the third week of September. Monday we passed out the agenda for the year. Tuesday we gave a Coke party for the teachers. Wednesday, name tags were passed out. Thursday, we had our first meeting during activity period. Some 125 attended the meeting. Officers were elected as follows: Stanley Black, vice-president; Sue Willman, secretary; Kathy Moore, treasurer; Jerry Gilbreath, chaplin; Davy Jean Anderson, reporter. Officers elected last year were: Karen Jones, president; Beverly Crawford, historian. It was decided that dues would be \$1.00. Plans for the year were then discussed.

Monday night, October 1, the first night meeting for the year was held. The installation service for the new officers was held, with Mrs. Horace Blackburn acting as installing officer. Kerry Moore, FTA sponsor, presented a short program on "What is FTA?" Thursday night of that week, the FTA sponsored the Powder Puff Football game. Committees made "beat tags" for both teams. The "Football girls" bought their dates mums. The Band and Cheerleaders were boys from the band and the football team. The FTA made approximately \$350 from the game. The FTA sponsored two booths at the Halloween Carnival. One was a Horror House and the other was a Fortune Teller booth. You really missed something if Madame Pilda didn't tell your fortune!

In November, we had our regular meeting on Monday night since November is National Book Month. The program was in books. Two books, "Horace Mann" and "The Peabody Sisters of Salem," were presented to the library.

November 12-17 was National Education Week. The FTA served as hosts and hostesses at an open house. We had an information booth to help the parents and name tags were worn by all members. Members prepared a window downtown to encourage everyone to attend open house. We also helped the PTA in both grade schools and junior high.

November 15 the annual banquet for FTA members and theme was "Thanksgiving around the World." A panel discussion was given on "Do Students Have Too Many Extracurricular Activities?" Sandra Scott and Sharon Millen sang a duet and Sue Willman gave a Thanksgiving reading.

Before Thanksgiving, members brought food and prepared a basket which was taken to a needy family. A panel discussion was presented to the Lions club at one of their November meetings.

December brought the District Convention. We ran Stanley Black for President of District won against stiff competition. Muleshoe also presented a program workshop called "I've Got a Secret", starring Kerry Moore. During registration, entertainment was provided. Sue Willman did a twirling routine, Tonny Welch played a piano solo, and Rhonda Wagon gave a dramatic reading. Karen Jones was elected Miss FTA from our chapter and Dick Allison, Mr. FTA.

Karen placed first and will go on to the State Convention in Dallas to compete for Texas FTA. Dick placed third in competition with ten boys.

Some of the FTA members gave an entertaining program for the Lions Club. Sue Willman, Kathy Moore, Charlene Lindsey, and Donna Phipps did a twirling routine. Karen Jones gave her Miss FTA speech, and Rhonda Wagon gave a dramatic reading. Sandra Scott sang a solo. The regular meeting of the month was held December 17. We met at the junior high study hall and decorated a Christmas tree. Each member brought a gift and a tree ornament. The tree and gifts were then taken to a needy family. Gifts were also given to the Goodfellows to distribute. The group then went caroling, after which, they returned to the school for a religious program and refreshments.

About fifty members taught school during December. Each member received a criticism sheet from the teacher he taught for. This was to help him improve his weak points.

Also, during this month, we purchased our gift to the school, a new scoreboard for the gymnasium, the proceeds from our used to pay for the scoreboard. The Student Council worked with the FTA in sponsoring a door decorating contest and a party for the winning room.

The FTA bought ivy plants, decorated them, and took them to the Home for our aging City. We also helped the Goodfellows fill sacks of candy for children of the community. Christmas cards were mailed to all teachers and district clubs.

In January, members made posters and put them up downtown to remind everyone to pay their poll taxes. At the monthly meeting, a birthday party for Horace Mann, Father of Education, was held. Sandra Scott gave the history of Mann. Apples were given to all teachers in high school in appreciation for their work. Newsletters tell us of our activities were mailed to all members and clubs in the state. A committee gave a research report on past FTA members, telling where they are and what they are doing.

The Faculty Basketball Game was one of our largest money raising projects. The faculty

In the car were Mr. and Mrs. O. C. Crume, Farwell. The car rolled over twice and came to rest on its wheels beside the highway. The truck, driven by Kenworth William Matison, Lubbock, careened into a freshly plowed field and the trailer flipped over, crushing the sleeping quarters of the tractor. Matison escaped injury.
