German's Bomb Buckingham Palace

Air-Raid Shelter Protection Is Gained by King and Queen Before Residence Is Struck by Bombs

By The Associated Press. Safely huddled in a palace air-raid shelter, King George VI and Queen Elizabeth escaped uninjured today when a lone Nazi dive-bomber screamed down from the clouds and dropped a salvo of five bombs on Buckingham Palace and its precincts. It was also admitted the House of Lords had been slightly damaged by bombs.

Ask Governor To Greet His Friends Here

Plans were being made today by a number of Midland business and professional leaders to get Governor W. Lee O'Daniel to visit Midland tomorrow afternoon. The governor is scheduled to arrive in Odessa tomorrow evening as guest of Taylor White, state representative-elect from this district, and while there will be given a public reception, a dinner and a guest of honor at the Lubbock-Odessa football game.

Agriculture and Ranching Feature Of Radio Program

Agriculture and ranching in the Midland area will be publicized by the Junior Chamber of Commerce Sunday afternoon, 2:00-2:15, in a radio broadcast over the Texas Quality Network. The program will originate in station KRFL.

Gas Production Decline Listed

AUSTIN, Sept. 13 (AP)—Railroad Commission engineers reported today production of natural gas in Texas averaged 4,662,680 cubic feet daily during July, a decline of 34,779,000 cubic feet from June and 562,062,000 higher than July last year.

Friday the Thirteenth Is Just Another Day in Midland, But Some Citizens Have Superstitions

Friday 13 just doesn't mean anything to many Midland citizens, according to a canvass taken this morning. Most of the people interviewed claimed it was just a "superstition to be superstitious about any particular day." However, many were "leery" of black cats or ladders.

RECOVERS FROM OPERATION

Jas. P. Harrison is able to be up after undergoing an operation recently.

British Given Instructions

U. S. sailors explain secret mechanism of gun on one of over-age American destroyers as it was turned over to Canada for defense of Great Britain. Note the American destroyers in background of photo which was made at Halifax. Censor placed blot over gun-sight in center foreground.

LATEST NEWS FLASHES

"Speed Up" Orders Given Manufacturers. WASHINGTON, Sept. 13 (AP)—The War Department said today it had issued "speed up" letters to manufacturers enabling them to go ahead immediately with \$170,000,000 worth of plant expansion for defense production.

Chicago Crowd Hears Willkie in Speech

CHICAGO, Sept. 13 (AP)—Wendell L. Willkie told a crowd of well-wishers in the Union Station upon his arrival today that in the campaign he was beginning "I am going to give you the truth in plain Indiana language so that no one can misunderstand."

Odessa Arranges Big Entertainment Program For Governor O'Daniel

ODESSA, Sept. 13 — Elaborate plans were made today for the entertainment of Governor W. Lee O'Daniel tomorrow evening when he comes here as the guest of Taylor White, new state Representative from this district.

Women Organize for Presidential Race

SAN ANTONIO, Sept. 13 (AP)—Plans for the Democratic presidential campaign in Texas, and especially plans for winning the active support of the women of the state, were being discussed here today by three leading workers.

SLAYER CONVICTED

BELLEFRONTE, Pa., Sept. 13 (AP)—Richard Millinger, 22 year old WPA highway laborer, was convicted of slaying Faye Gates, 25, on a lonely "spook hollow" road last May. The jury recommended life imprisonment.

Death Toll in Blast Listed At Thirty-Nine

Unestimated Number Of Bodies Remain in Wreckage of Plant

KENVIL, N. J., Sept. 13. (AP)—A scene of blackened desolation, piles of unsightly debris and deep craters resembling areas in warring Europe greeted the eyes of searchers for more bodies today as the death toll in the Hercules Powder Company disaster mounted to 39.

Magnolia 1 Sandidge Logs Oil Stains And Porosity; May Open Dawson Area

By Frank Gardner. Magnolia Petroleum Company No. 1 A Sandidge Heirs, in northwestern Dawson County, gave indication today that it might open a new area or prove a three-mile east by south extension of the Cedar Lake pool in northeastern Gaines as it logged several zones carrying porosity and oil staining.

No Need for AP Reporters in London to Go to Front,—It Is Brought to Them by German Bombers; Experience Related

LONDON, Sept. 13 (AP)—In the kind of "total war" raging over Britain today, the Associated Press employes don't have to go to a distant front. The front comes to them. It's their office and their doorstep, their automobiles or the bus or taxis they're riding in. It's everywhere they move.

Passage of the Conscription Act Expected Today

Only Few Hours Will Be Needed for Action To Start on Measure

WASHINGTON, Sept. 13 (AP)—Congressional leaders confidently predicted today that passage of the conscription legislation would be on its way to the White House by nightfall to become the law of the land. In both Senate and House the plan was to obtain quick action on the compromise version of the Burke-Wadsworth compulsory service bill worked out by a joint conference committee.

Wins Nomination

Eugene Talmadge, sharp spoken New Deal critic smiles happily after winning nomination in Georgia's Democratic primary for a third term as governor. Democratic nomination is tantamount to election in Georgia.

Waddell Failure

Gulf Oil Corporation No. 33 Waddell, one-half mile west of the discovery producer in the Ella Waddell pool of eastern Crane County, was abandoned a failure as a result of encountering hole full of sulphur water from 3,723-37 feet, the total depth.

Swabs Salt Water

Amerasia Petroleum Corporation No. 1 J. S. Todd, half-mile west outpost to the Todd Strawn pool in north central Crockett County, recovered 6,074 feet with packer at 5,963 feet. Tubing is perforated above packer. On 12-hour test the well swabbed 15 barrels of salt water hourly with a slight show of gas. It still is swabbing.

Duggan North Extension

Proving one and one-half mile north extension of the Duggan pool in southeastern Cochran County, Magnolia No. 1 F. L. Woodley is swabbing and flowing 22 barrels of oil hourly, cut six per cent with basic sediment and spent acid, after acidizing with 3,000 gallons. Bottomed at 4,985 feet in lime, the well had swabbed 15 barrels of oil hourly, cut two per cent, after initial acid job of 1,500 gallons.

"Conscription Age" Residents Will Be Guests of Jaycees

Young men of Midland who fall between the age limits of 21 and 35 will be the guests of the Midland Junior Chamber of Commerce at a "conscription outing" to be held at Cloverdale Park here next Wednesday afternoon at six o'clock, plans for the affair having been arranged at a meeting of the Board of Directors of the Jaycee organization yesterday afternoon.

German Invasion Attempts Related

JERSEY CITY, N. J., Sept. 13 (AP)—The Germans already have attempted to invade England several times at different points and each time have failed, an American surgeon reported today on his arrival from Lisbon on the American export liner Excombion.

U. S. Recognition of Camacho Hinted

WASHINGTON, Sept. 13 (AP)—Secretary Hull hinted at United States recognition of General Avila Camacho as the next president of Mexico by asserting today that Camacho would be welcome if he desired to visit this country.

Odessa Arranges Big Entertainment Program For Governor O'Daniel

ODESSA, Sept. 13 — Elaborate plans were made today for the entertainment of Governor W. Lee O'Daniel tomorrow evening when he comes here as the guest of Taylor White, new state Representative from this district.

Jones Nominated for Commerce Secretary

WASHINGTON, Sept. 13 (AP)—President Roosevelt nominated Jesse H. Jones today to be Secretary of Commerce.

Save the Skeets!

Nothing is sweeter these warm summer mornings than the song of the skeet. How often, walking across a stubble field, we have heard that rippling call and seen the skeet-flutter anxiously from its nest.

Wait a minute! The good lady was so earnest about it all that for a minute we felt it must be true. She had written to the Ohio Conservation Department, all worried by reports in the papers that they were shooting skeet all over the state.

It's really too bad that skeet is a system of shooting flying clay targets, instead of a songbird, and thus closer to the clay pigeon than the quail. Maybe the lady was spoofing. But we hope not.

The Brains of Europe

Every refugee from war-ravaged Europe who manages to reach the United States is a living story of personal tragedy. Gone the old associations, the skills and connections built up in a lifetime; everything must be built up from the ruins of a life.

Standing out in this welter of tragedy are certain prominent individuals, and latest among them is Sigrid Undset, Norwegian novelist and Nobel prize-winner. At 53, she mourns a son whose life was laid on the altar of freedom; she heard the news of the fall of France while crossing Siberia on her long journey to America.

"France always was the brains of Europe," she said sadly. "If she is smashed permanently, I fear it will be the end of Europe. We had something. England had something. But France had everything."

Europe has recovered from many grievous wounds down through the centuries. But if this final wound should kill the brain—what price survival then?

Roads Must Be Planned

Pennsylvania, notable for its state planning work, is out in front with a \$27,000,000 estimate to the federal government for putting 3000 miles of state highways in shape for military use.

This is another defense problem. How much of the cost of improving state highways is properly chargeable to the federal government under the defense program? Will this federal-state relationship be changed by the new requirements that go with a large and mobile military establishment?

Fortunately, 46 states are already at work on highway Public Roads Administration. The military aspect will have to be considered, for maneuvers this summer have already shown the inadequacy of some roads for heavy trucks, tanks, and military machinery.

OPERA HEROINE

Crossword puzzle grid with clues for words like 'Heroine of Bizet's famous opera', 'Instrument', 'Tiny skin opening', 'Religious worker', etc.

Unshaken

OUR COUNTRY

Fifth of 24 articles on "Our Country," written exclusively for NEA Service and The Reporter-Telegram by the nation's most famous authors.

By Mary Roberts Rinehart
Author of "The Door," "The Circular Staircase," "The Doctor," etc.

THERE are two Americas today. One is vast, powerful, dignified, long-suffering and slow to anger. It has none of the despairs which threatened Europe with revolution and thus brought the dictators to power.

It is more than that. It is still the last stand of the humanities on earth, still the sanctuary toward which the refugees of a tortured world turn longingly.

OUR weakness—those of our forebearance. It is not reactionary to believe in freedom under law, rather than in the type of freedom which becomes license, or which permits the free expression of seditious or treasonable ideas.

SERIAL STORY: THIS COULD BE YOUR STORY BY MARGUERITE GAHAGAN

YESTERDAY: Sue Mary's new friends introduce her to a new world of politics and activity. They are members of a Youth Progress group, have a candidate for election. They preach a strange doctrine. With Joe, in a movie, crusades and politics seem far removed.

AND so Sue Mary went to the office. It was hardly that, in the sense that Sue Mary considered offices. It was a dreary room in an old building that also housed a hall the Youth Progress group used for meetings.

"Well, over here in the grand little old U. S. A., we have a chance to vote and run the country and we're going to have our voice. Fred King is running for governor in the primaries. Maybe that seems unimportant in the whole country, but if every group does its job well, we'll have the right men in the key posts all over the nation.

"Right now our job is to help Fritz get the votes around here. And now, how about typing copies of this letter?"

Bloodhounds Used in Hunting Slayer Of 2 Del Rio Women

DEL RIO, Sept. 13 (AP)—Bloodhounds were being used today by Sheriff A. E. Steinmetz in the search for a slayer of Antonia and Margarita Gomez, whose bullet-ridden bodies were found six miles from here on Highway 85.

Steinmetz, assisted by border patrolmen, was scouring the country southeast of Del Rio for a suspect. Bodies of the two women were found yesterday morning. They were lying in the grass beside the highway. Antonia had been shot three times and her sister twice.

Antonia, a San Felipe high school teacher, attended a parent-teachers association meeting in San Felipe Wednesday night, then went with Margarita, a registered nurse, to take her father Aurelio Gomez, to the railroad station where he left for San Saba, relatives said.

Man must regain his feeling for man here in the United States, declares Sheriff Anderson, in the next article of this series on "Our Country."

Life Magazine Displays Pictures Taken in Midland
In an article entitled "Flight across America" in the current issue of LIFE, three pictures of the Midland area were given prominence.

Two Planes Land
Only two landings were reported in a checkup from Midland Municipal Airport this afternoon. An A-17, flown by Capt. Ofsun, arrived from Biggs Field, El Paso, en route to Hensley Field, Dallas, a Cessna, flown by A. M. Myers, made a roundtrip from Odessa.

Search for Slayers Of Deputy Continued
PARIS, Texas, Sept. 13 (AP)—Deputy Sheriff George Robertson of Lamar County, victim of two young desperadoes who abducted him when he arrested them, will be buried here today while scores of officers search the Red River bottoms for his slayers.

Robertson's body, shot, slashed and beaten, was found in an automobile near Powderly, Texas, north of here, Wednesday night, more than 24 hours after he was kidnapped. Captain M. P. Gonzauillas of the Texas Rangers said "the Rangers are going to stay on the job until the men guilty are apprehended."

INTERPRETING THE WAR

By DeWitt Mackenzie
Associated Press Staff Writer
Her Hitler's proposed invasion of England remained in the mysterious "if" class on this Friday the thirteenth, but overnight developments tended to strengthen indications that should he see a favorable opening he will once more gamble on the opportunist's luck which has served him so well heretofore.

The new writing on the wall this morning involves the Rome report that the Italian offensive against Egypt has started, the widespread dropping of incendiary bombs by the Germans over northern Ireland. All of those might fit into the picture of an impending attempt at invasion.

It's well-nigh a certainty that Mussolini would undertake a major operation in Africa to support Hitler's assault on England. This strategy would be calculated to prevent the British from withdrawing warships and airplanes from the Mediterranean area for defense of the mother country.

Extensive bombings of the British Isles would be an essential preliminary to invasion. The attack on northern Ireland obviously was for the purpose of causing destructive fires, and this might mean either that the Nazis contemplated landings on the Emerald Isle, or intended to land on the west coast of Britain and wanted to forestall interference from Ulster.

This isn't the time for a man to bet his only shirt that an attempt at invasion is a foregone conclusion. We mustn't forget that while Mussolini's move is essential to the success of an invasion of England, a threat of invasion would by the same token aid the Fascist chieftain. Hitler's weakness—and it is a dangerous one—remains his lack of control of the air.

Along the English shores attacking forces would encounter shallow waters strewn with mines. On land will be 3,000,000 troops ready to fight with the desperation of men battling for their homes and families. It is a grim chance which Hitler will take.

But loss of life won't stop the Germans. If and when the Hitlerian barges put out to sea, they will carry what will amount to suicide squads.

It is Friday, the 13th, and the grid is likely to be in full force out at Lackey Field tonight, starting at 8 o'clock, when the Midland Bulldogs and the Ysleta Indians inaugurate the 1940 football season in Midland. Tickets are only 75 cents each.

There is no favorite for the game. Squads of both schools were riddled by graduation and other causes and Coach Taylor of Midland and Wafer of Ysleta will be depending mainly upon rookies.

Lamesa to Meet Slaton Eleven in Season's Opener

LAMESA, Sept. 13. — Coach F. T. McCollum's Golden Tornadoes of Lamesa High school will be invaded tonight, by the Tigers of Slaton high school in both teams' first play of the season. Coach Christy "Stumpy" Hamilton and his assistants, Jack Miller of Slaton say the Tigers are coming in spite of the event's being scheduled on a Black Friday, at 8 o'clock on McCollum field, in Lamesa.

Methodists Favored By Sports Writers In SW Flag Chase

FORT WORTH, Sept. 13.—The Southern Methodist Mustangs have been awarded the job of beating out the Texas Aggies for the 1940 Southwest Conference grid championship and the upholding of the old tradition that "Champion don't repeat."

Mackeys Capture Second Victory

Mackey Motors took the third game of the Shaughnessy playoff series in the city softball pennant race from Jeff's Sporting Goods last night by a score of 16-13. This

TCU picked for fifth place in the season's standings, received votes from every position but the top, Arkansas, placed sixth, got no votes higher than fourth place. The Rice Owls, placed last, were named sixth or seventh by most of the men polled.

Several sports editors volunteered the comment that whoever the champion of '40 may turn out to be, there will be no undefeated teams.

"It will be a cut-throat season," one commented. "Any eleven may fall any week. A team may even drop two games and win the conference flag."

Although the Aggies were placed second in the consensus compilation, several voters offered comment to the effect that A&M has the best chance to repeat for the flag that any team has ever had, at least in recent years.

The predicted standings, compared with the final standings of 1939:

Table comparing 1940 Predictions and 1939 Standings for S. M. U., A. & M., Baylor, Texas, T. C. U., Arkansas, and Rice.

He's Got 'Em

Charlie Brown, caddie master of the Del Monte course in California, bosses the strangest assortment of bag toters in history. His "boys" include an ex-member of the French constabulary in Indo-China; an ex-jeweler and other business men caught in the 1929 crash; a tattoo expert, a retired railroad bridge construction superintendent, a former chiropractor and descendant of the family which once owned the Spanish land grant on which the course is located.

was the second win for Mackeys to one for Jeff's. The losing team used Bill Davidson and Curt Inman on the mound, while Lee Hageman lusted the game for the Motors.

With the score tied in the sixth inning, 11-11, Mackey's staged a five run rally to sew up the game.

EXHIBITION GAME

Abilene Christian vs. North Texas Teachers

SATURDAY, SEPTEMBER 21

Midland's Bulldogs have been playing football ever since the early 1920's. Since the organization of the team, everyone in Midland has become conscious of the Grand old Game and has followed enthusiastically throughout the years as the team built its reputation.

For a long time the Bulldogs played in the 7-B Conference with San Angelo, Sweetwater, Big Spring, Odessa, Lamesa, and Abilene. The first year of their entry, the Bulldogs went through the season with only one defeat and easily captured the second position at the end of the season. Sweetwater took first place.

This year, with four regulars from last year returning and seven other lettermen, it is hard to predict what the Bulldogs will do. Midland fans say they will top the list when the last game has been played. They have looked good in practice, and hopes are high that this will be the first of a long series of conference titles for Midland.

In 1936, Midland won its first regional conference championship. The next two seasons they finished second in the region losing one game each year.

Coach Bud Taylor has been with the Bulldogs since 1936 when he came here, as assistant, from North Texas State Teachers College. He formerly lived in McGregor. In 1937 he became head coach and has held that position since.

Earl Clark, the assistant coach, is a product of T. C. U.'s backfield, having played halfback with the Horned Frogs for three years before his graduation last June. This is his first coaching job.

Julius Johnson, Taylor's other assistant, is from North Texas Teachers in Denton. His home was McGregor before he came to Midland.

Everyone in Midland loves football and all are always interested in the Bulldogs. Let's get out to that game tonight and show the team we're behind it 100%. The boys will be fighting to bring the conference title to Midland, and we owe them all the backing we can give. Let's fill the stadium tonight—HOORAY FOR FOOTBALL.

Banner Sewing Club Plans for Monthly Party

Plans for the monthly party of the Banner Sewing Club were made at the meeting of the organization at the home of Mrs. H. C. Reynolds, 1114 E. Washington, Thursday afternoon from 3 o'clock until 5.

Mrs. R. L. Parker was a visitor and Mrs. John Godwin was a new member.

Refreshments were served. Members present were: Mmes. W. L. Gains, Paul Cole, C. H. Brown, Leroy Huckabay, J. L. Dale, and the hostess.

The club will meet next Wednesday with Mrs. J. Wymer Smith, 408 S. Lorraine.

Mrs. Jay Francis Is Complimented With Linen Shower

BIG SPRING, Sept. 13. — To compliment Mrs. Jay Francis, Decorative Roden entertained in her home Wednesday night with a surprise linen shower. Mrs. Francis is the former Loraine Crenshaw, daughter of Mr. and Mrs. Gene Crenshaw, whose marriage took place recently.

Snappers and perennial phlox decorated the rooms and refreshments of punch, cookies and candy were served.

Mrs. Francis will be at home in Big Spring and Lubbock where Francis is attending Tech and playing football.

Attending were Mickey Gordon, Sara Reddy, Beverly Wilson, Margie Hudson, Mary Reddy, Kawana Smith, Mrs. Earl Wilson, Mrs. Gene Crenshaw, Mrs. C. L. Roden.

WCS TO MEET

Charter meeting of the Woman's Society for Christian Service, new organization for women in the unified Methodist Church, will be held at the First Christian Church, Monday afternoon at 3:30 o'clock. All Methodist women are urged to attend.

Episcopal Bishop, Out-of-Town Guests To Attend Wedding

The Rev. E. Cecil Seaman of Amarillo, Episcopal bishop, will arrive here this evening to officiate at the wedding of Miss Georgia Goss and Dan Harston in Trinity Church, Saturday morning at 10 o'clock. He will also conduct service at the church Sunday morning at 11 o'clock.

Out-of-town guests expected for the wedding, one of the highlights of social activity for early autumn, include: Mrs. D. G. Harston of Dallas, mother of the bridegroom; Mr. and Mrs. Louis Price of Lubbock, sister and brother-in-law of Mr. Harston; Mrs. Lena Smiley of Fort Worth; Mr. and Mrs. E. V. Smith and daughter, Rosalie, of Sapulpa, Oklahoma.

Pre-nuptial courtesies for the engaged couple will culminate tonight with an after-rehearsal party for which Mrs. Maud Leonard, Miss Frances Gillett, and Miss Jesse Scott Price will be hostesses.

Mrs. Phil Yeckel Is Hostess to Ace High Club

Roses and ageratum were featured in floral arrangements when Mrs. Phil Yeckel entertained for the Ace High club at her home, 612 W. Storey, Thursday afternoon at 2 o'clock.

Mrs. John Kenyon and Mrs. Jas. H. Chapple were club guests.

In the two tables of bridge played, Mrs. Kenyon held high score and Mrs. Paul Davis second high.

A tea plate was served.

Present were: Mmes. Davis, Kenyon, Chapple, P. A. Nelson, J. M. Haygood, W. G. Henderson, S. P. Hazlip, the hostess, and a tea guest, Mrs. Pat Ruckman.

Two Are Club Guests at Meeting Of Twelve-ite

Two club guests, Mrs. H. G. Heavenhill of Ruidoso, New Mexico and Mrs. Don Davis, were present when Mrs. Frank Fuik was acting hostess for Mrs. L. G. Mackey at a one o'clock luncheon Thursday at the Mackey home, 1510 W. Indiana, in courtesy to the Twelve-ite club.

Asters were used on the dining room tables and zinnias were employed in other rooms.

Two tables of bridge were played. Club members present were: Mesdames R. C. Crabb, R. I. Dickey, J. D. Dillard, W. P. Knight, Harry Prickett, W. G. Whitehouse, and the hostess.

Coming Events

SATURDAY
Story Hour will be held in the children's library at the courthouse, Saturday morning at 10 o'clock.

Midland County museum in the courthouse will be open to the public Saturday afternoon from 2:30 o'clock until 5.

Members of a goodwill tour of Business and Professional Women of the district will be entertained with a coke party at the home of Miss Maria Spencer, 502 W. Storey, Saturday afternoon from 4:30 o'clock until 6. All Midland B-PW members are invited to attend.

B&PW Goodwill Tour to Visit Midland Saturday

Members of a goodwill tour of Business and Professional Women from the San Angelo club and others in the district will be entertained with a coke party at the home of Miss Maria Spencer, past director of the district, at 502 W. Storey, Saturday afternoon from 4:30 o'clock until 6. The tour is planned by Miss Gladys Ripley.

All members of the Business and Professional Women's Club of Midland are urged to meet with the visitors at Miss Spencer's home tomorrow.

Milk Must Be Washed Out in Making Butter

Milk must be washed out of butter because it cannot be worked out, Miss Alpha Lynn, home demonstration agent, told the Westside Home Demonstration Club in a meeting at the home of Mrs. H. L. Albrecht, Friday afternoon.

The stage of buttermaking at which to wash the milk out is when the butter is in globules the size of wheat grains, she explained. The butter should be washed until the water is clear. The statement that washing butter causes it to get stale is a mistake for it is the milk left in the butter which causes it to become stale.

A roundtable discussion was held on mattress making, date for which is to be announced soon.

Mrs. J. L. Hurdle led a recreation hour.

A refreshment plate was served to the following members: Mmes. Hurdle, J. H. Smith, J. A. Mead, C. C. Garden, C. R. Fryar, Jim W. Baker, W. R. Tillman, and the hostess.

Next meeting of the group will be with Mrs. S. L. Alexander, 202 South A street, September 26.

IN MEETING

The Rev. H. D. Bruce, pastor of the First Baptist Church, is in Coahoma, conducting a meeting. He will return here to preach at his church Sunday.

HOWARD RETURNS

Buster Howard has returned to Midland after a stay of several weeks in Denver City.

FEMININE FANCIES

By Kathleen Eiland

A Midland man says that the very-new plastic shoes (transparent ones) should give the corn doctors new business. Perhaps there will be a rush to the chiropodist's office if these new see-through footwear styles become popular.

It's getting to where, what with the present styles, a person must be well-groomed and physically in pretty good condition, whether or no. There's not much hiding of defects through coming modern styles. So milady must perforce do away with whatever physical faults hamper her glamour rating.

Maybe the old days were not so hard on women after all. Long, full skirts long full sleeves, numerous petticoats, corsets, et cetera—most any woman could look like a fashion plate merely by judicious addition or subtraction of a few bulky garments. But today's styles alter the problem.

Wonder why otherwise sensible people are willing to sit and shiver while they consume quantities of ice cream? Or sweater while they devour hot fried chicken? Or wear shoes that hurt their feet but have a look of elegance? Just another example of human "quariness," probably.

The other day we heard a hint on giving bread, just plain old bread a different flavor, and we pass it on for the benefit of Midland housewives. A Midland woman confided to us that if one takes a loaf of sliced bread, puts a bit of garlic between slices, and heats the loaf for a few minutes in the oven (securely folded in the waxed wrapper, of course), it will have an unusual flavor. Sounds to us as if it would be a good accompaniment for meats and such.

Pershing Observes His 80th Birthday

WASHINGTON, Sept. 13 AP)—Twenty-two years and 3,000 miles from his greatest military triumphs, General John J. Pershing today observed his 80th birthday in the quiet seclusion of his hotel apartment.

Over 800 congratulatory messages piled up in his ornate, old-fashioned office in the state department building, which is labelled with the title that he alone bears among American military men, "General of the Armies."

There, General Pershing arranged to grant a press interview this afternoon before making a brief birthday speech by radio 3:30 p. m. CST, and after receiving the distinguished service cross from President Roosevelt.

VISIT SISTER

Mr. and Mrs. H. G. Heavenhill of Ruidoso, N. M., are guests of his sister, Mrs. W. G. Whitehouse, and Dr. Whitehouse, here.

BACK TO SCHOOL

Jack Carroll left today for Austin where he will re-enter the University of Texas.

Local Topics

Mrs. Fred Fromhold is leaving today for San Angelo and Brownwood on a weekend trip. Mr. Fromhold plans to join her at Brownwood and the couple will return here Monday.

Rev. John E. Pickering left Thursday for Fort Worth where he is taking his sons, Johnny and Jimmy, to enter Texas Christian University. The boys won scholarships through ability to play in the TCU band. Mr. Pickering will return today.

Mrs. Ernest Sidwell and Mrs. L. G. Byerley went to Sweetwater Thursday to attend a PTA dinner at Phillip Nolan school. They will attend a school of instruction in San Angelo today.

Bitter Fight for Senate Seat Due In New Mexico

By B. L. Livingstone
ALBUQUERQUE, N. M., Sept. 13 (AP)—White-haired, florid John J. Dempsey, who sponsored the Hatch Act through a recalcitrant House of Representatives, faced the fight of his short public career today in his effort to wrest the Democratic Senatorial nomination from native-born Senator Dennis Chavez.

The fight, waged with a bitterness sharp even in the catch-as-catch-can politics of New Mexico, tops interest in the state's first direct primary elections tomorrow at which nominees for all state offices, Congress, and the State Legislature will be chosen at the polls instead of convention.

Opposed by leaders of the Democratic state organization who accused him of ingratitude to the party for opposing Senator Chavez, Dempsey has kept the fires blazing during the campaign with attacks on "party bossism" and "political racketeers."

Backing up charges that the Hatch Act was being ignored, Dempsey has called the Department of Justice into New Mexico to investigate alleged violations.

Senator Chavez, claiming the solid support of New Mexico's large native Spanish-American element, has shaped his campaign around his New Mexico birth in contrast to Dempsey's New York City origin. "Eastern carpet-baggers" has been a phrase flashing frequently across the campaign issue.

In a companion fight to the Senatorial contest, former Governor Clyde Tinsley seeks to win the Democratic nomination for Governor from Governor John E. Miles.

As in the Dempsey-Chavez race, bitter factional strife has resulted, with Tinsley flaying Miles for extravagance, "payroll padding," and hiring of "political deadheads" and "relatives." Miles has made his campaign on his record.

Miss Clea Dee Tate of Seminole underwent a tonsillectomy in a Midland hospital Thursday.

Increased horsepower and torque...new transmission, new axle ratio—it's a "powerhouse"!
- Six is Not a Crowd**
Room—Plymouth has it! Six can ride all day in a Plymouth Sedan—no "rider's cramp."
- And Plymouth Saves You Money!**
This big traffic master is also an economy leader—saving you money on gas and oil.

Nature of Creator Awe-Inspiring to Human Thought

By R. A. Weaver

Such knowledge is too wonderful for me; It is high, I cannot attain unto it. Whither shall I go from thy Spirit? Or whither shall I flee from thy presence? If I ascend up into heaven, thou art there. If I make my bed in Sheol, behold, thou art there. . . Psalms 139:6-8.

The Transcendental Creator

To write a discourse on the above subject is a task beyond the ken of man. One is filled with a dreadful feeling of insignificance when confronted with the problem of describing Infinity, and presenting the Absolute to the view of mankind.

The finite mind cannot conceive the Infinite Being, nor ascribe metes and bounds to His boundless prerogatives. Man's errancy in creating God in his own image has worked untold misery to the soul's search for Reality. Should one be able to speak with the tongues of men and of angels, and withal be moved with the spirit of deep humility and meekness, the likeness of God might be touched ever so slightly, and the experience conveyed to others with great limitations. Hence the task first presents the unutterable depths of thoughts that tend toward the nature of the Omnipotent Father. One can only confess with Paul, in these words: "O the depths of the riches both of the wisdom and knowledge of God! How unsearchable are his judgments, and his ways past finding out." These are the thoughts of those whose lives have felt from within the upward surge of the Divine impact, and they all with David must confess that "Such knowledge is too wonderful for me." It is well that the full understanding and comprehension of the Creator remain a possibility that stands far beyond our present enlightenment and development; for to make these things common-place is fatal to the out-reaching of the soul, and the onward march toward perfection which is the goal of all beings created in the image and likeness of God. This idea has an appeal to me, for it presents a grand and glorious conception of transcending ideas in connection with those things that appertain to the Spiritual Realms. In my Father's house are many mansions, and ever hath I seen, nor ears heard, neither hath it entered into the heart of man the things prepared for those who love him.

God's Omnipotence
All religions teach the ever-presence of God, but the main task involved is to become conscious of this fact—this all-inclusive reality of our Holy religion. Many methods and many processes of attitudes and thinking have been offered by various teachers. Most of them agree with the method given by Christ when he said: "Seek and ye shall find; knock and it shall be opened unto you; ask and ye shall receive." But the point to be given much consideration is, where shall we seek, of whom shall we ask, and upon what door shall we rap for admittance. There is within each individual a secret place of the Most High, a mercy seat where the Father lets glean the Shekinah of His presence. "The Kingdom of Heaven is within you." "His word was in my heart as a burning fire." There is a self within capable of the reception of Truth and the recognition of an all-pervading Spirit, who works in mysterious ways his wonders to perform. Becoming conscious of the Great Within depends upon the individual, and the Reality of God is real to those only who have followed the path of realization and none can reveal this sacred birth right to others who refuse to seek, and ask and knock of his own volition. Spirituality is not something that one can absorb from the preachings of others. Every person under the sun must work out his own salvation in fear and trembling, and no one can ever find God as he forever established in the immovable truth without willingness to pay the price and walk the path called strait.

God's Omnipotence
Those who have the intense desire; who are willing to turn toward the hills of God; who have the courage and determination to win the victory of self-illumination, can and do find that state of being in past understanding. They come in contact with all-power, all light and all knowledge. Such is the omnipotence of God. It is as real today as it was when the uplifted rod of Moses parted the waters of the Red Sea, or when the walls of Jericho fell before the blast of trumpets in the hands of the priests of God. The day of miracles is this very day, and the hand of God is outstretched to manifest His omnipotence for those who are willing to come into the secret place of the Most High and abide in the shadow of the Almighty. One gets out of God what he deserves, and what one puts into the service and effort in His kingdom. Nations may pass into oblivion; friends may fail; love may vanish; fortune may perish, but God is the same yesterday, today and forever. Your best Friend is Always Near.

Shower Fixtures
The shower head, if placed on the wall, should be located so that the lowest part of the head is approximately 5 feet 4 inches from the floor. If an overhead shower is used, the lowest part of the head should be at least 6 feet 6 inches from the floor. Mixing faucets are usually placed so that the faucets are about 4 feet 6 inches from the floor. Combined or separate soap tray and hand grip may be placed about 5 feet above the floor. If the shower enclosure is not to be equipped with a door, locate the rod for the shower curtain at a height of about 6 feet 6 inches.

250,000 Men Massed By Italy to Start Libyan Offensive

By The Associated Press

CAIRO, Egypt, Sept. 13.—Italy massed troops reported 250,000 strong—along the Libyan-Egyptian frontier today and border artillery roared as British and Egyptians prepared to meet the long-heralded Italian thrust to the east.

(In Rome, unofficial reports said an Italian offensive against Egypt already was under way. The daily high command communiqué, however, mentioned no major land operations although it reported heavy day and night air bombardments of British positions such as might be the prelude of a drive. London official quarters said there was no confirmation of the beginning of an offensive.)

Military observers in Cairo predicted the Fascist drive would come within a week and coincide with Adolf Hitler's projected attempt to invade England, just as Italy's entrance into the war was timed with Germany's full-scale offensive into France and as Soviet Russia's advance from the east squeezed Poland at the critical moment during the Nazi invasion a year ago.

Fighting between British and Italian advance units echoed ominously last night as British reconnaissance fliers reported movements of fresh troops from the interior of Libya to the port of Bardia, only 30 miles from the Egyptian border.

Some observers hold that Italy's key hole in the war is to tackle the British in the Mediterranean at the right moment, striking probably as such strategic points as the Suez Canal, which would be the ultimate goal of a drive eastward through Egypt.

While British forces facing the Italians along the frontier are acknowledged to be much smaller than the Fascist army, they are said to comprise experienced desert fighters.

Recently Britain has landed thousands of soldiers in Egypt to reinforce the 60,000 British troops reported on Egyptian soil last May. Egypt herself has a British-trained army of about 20,000.

The Egyptian government, linked to Britain by a military pact, has refrained from declaring war on Italy pending any direct Italian attack.

Emotional Disturbances Of Child Seen Growing
PHILADELPHIA (UP)—Irritable or excitable parents or teachers may cause emotional havoc in a sensitive child, according to Dr. Carl W. Aretz, District Superintendent of Philadelphia schools.

Speaking before the Child Research Clinic of the Woods Schools at nearby Langhorne, Dr. Aretz said that divorce, crowded conditions in large cities, and women in commerce, industry and politics had made "today's home different from the home of our childhood."

McDonald's Name To Be Certified For the Ballot
DALLAS, Sept. 13 (AP)—High officials of the State Democratic party said today that Texas election laws make mandatory certification of the name of J. E. McDonald as the Democratic nominee for State Commissioner of Agriculture regardless of McDonald's views of the presidential election.

John Lee Smith of Throckmorton, permanent chairman of the State Democratic convention held in Mineral Wells this week, declared he would be required by law to sign the certification.

State Democratic Committee Chairman E. B. Germany also said he believed the statutes compelled the convention and its officers to certify McDonald's name.

Smith added he received a reply yesterday to a telegram he sent McDonald demanding that the latter state whether he intended to vote for Franklin D. Roosevelt or Wendell Willkie for President as ordered by the convention.

McDonald replied he would support the State Democratic nominee and after due deliberation decide which Presidential candidate offered the soundest agricultural program, Smith said.

At Amarillo, where Willkie will speak next Tuesday, it was announced a telegram of acceptance to meet with Willkie had been sent by McDonald to Joe Bailey of Dallas, president of the Texas farmers clubs. A copy of the telegram received here said McDonald was not interested "in discussing politics with Mr. Willkie or anyone else."

McDonald had been invited to join a group of farmers and stockmen who will board the Willkie Special on its way to Amarillo and discuss agricultural problems with the Republican candidate.

Heavier Taxes for British Foreseen
LONDON, Sept. 13 (AP)—The prospect of heavier taxes was seen today in a declaration by Sir Kingsley Wood, Chancellor of the Exchequer, that it is undesirable for the country to try to finance itself through the war mainly by treasury bills and other forms of unfounded debt.

FASCIST OFFICIAL DIES
ROME, Sept. 13 (AP via Radio)—The Italian wireless today announced the death of Tonin Chiodi, member of the Fascist Grand Council, in an aerial battle "sometime ago" over Malta.

Chiodi, an airplane builder and flier flew to Chicago with the late Marshal Italo Balbo in 1933.

TO RETURN SUNDAY.
Billy Noyes, who underwent an appendectomy in a Dallas hospital late last week, was reported today to be doing well. He is expected to return home Sunday.

Markets Remain Steady During Day

By Victor Eubank

NEW YORK, Sept. 13. (AP)—Baffled by the inconclusive status of the war for England, traders generally stood aside in today's stock market, permitting leaders to drift either way by fractions.

Only about 250,000 shares changed hands during the entire session. The day opened, as has been customary of late, with a bit of a buying flurry, but the earliest advances soon faded to a humdrum state of affairs in which anything could happen—and didn't.

The lack of activity depressed early gainers, and long before the close was reached, plus and minus signs were about equal.

On the stronger side were U. S. Steel and Youngstown, Douglas and United Aircraft, Allied Chemical and Dow Chemical, American Smelting and Anaconda, Standard Oil of N. J., and Texas Corp., New York Central and Santa Fe.

Balancing on the offside were Bethlehem, Chrysler, Harvester, Union Carbide, Martin, Sperry, International Nickel, Phelps Dodge and Consolidated Edison.

Stocks
NEW YORK, Sept. 13 (AP)—Sales, closing price and net change of the fifteen most active stocks today:

Warren Bros 8.500 1 7/8 up 3/8
Am Rad Std San 7.900 7 1/4 up 1/4

Three Midland Rotarians Attend Big Lubbock Meet
Three Midland Rotarians last night attended the Lubbock Rotary Club's inter-city meeting for Rotarians of West Texas and Eastern New Mexico.

Fred Wemple, Roy McKee and Clint Lackey represented the Midland Club at the big meeting. The principal address was made by Jeff Williams of Chickasha, Okla., a director of Rotary International.

Today's Markets

Wool

BOSTON, Sept. 13 (AP). (U. S. Dept. Agr.)—Renewed interest has resulted in a larger volume of business in wool on the Boston market today.

Prices of active wools were showing a firming tendency. Good French coming length fine territory wools in original bags were bringing 86-87 cents scoured basis. Twelve-month Texas wools were bringing 85-88 cents, scoured basis. Dealers reported an increase in wool buying in some of the western states at strong prices. Quotations on graded wools in Boston were firm as a result of increased interest.

Cotton
NEW YORK, Sept. 13 (AP).—Cotton futures closed 1 lower to 1 higher.

Livestock
FORT WORTH, Sept. 13 (AP). (U. S. Dept. Agr.)—Cattle salable and total 900; calves salable 800; total 900; market: most classes cattle steady, calves strong; few lots low grade slaughter steers and yearlings 5.00-6.00; part-load steers 8.75; killing calves 5.50-8.00; few to 8.75; culs 5.00, and below; stockers in light supply.

Hogs salable 1,000; total 1,200; fully steady with Thursday's average; top 6.90; good and choice 1.75-2.80 lbs. 6.75-6.90; good and choice 150-170 lbs. 6.15-6.75; packing sows strong, 5.75-6.00; stocker pigs steady, 4.00 down.

Sheep salable 1,000; total 1,300; feeder lambs steady to 25c higher; killing classes steady; medium grade spring lambs 7.00-7.50; yearlings scarce; medium grade aged wethers 3.50; ewes 1.75-3.00; spring feeder lambs 5.5-6.50.

WEEKLY CATTLE AUCTION
The Texas Cattle Sales, Inc. held their weekly auction in their cattle barn on the south side yesterday. About 250 people attended. M. G. McConal was the auctioneer.

Thirty-four calves sold at between 4 to 8 1/2 cents per pound and cows brought 3 1/2 to 6 cents per pound. Nine hogs brought around 6 1/2 cents.

A STEP IN THE RIGHT DIRECTION FOR SCHOOL

More and more, personal cleanliness is being taught in our schools. Every child must be immaculate, to be healthy.

The return to school does not mean mother must slave over a washtub to keep her children fresh and clean.

As we've served the families of this community with laundry service for many years—we serve you again, this new school term.

Record Orders for New Studebaker Are Listed by Factory

SOUTH BEND, Ind., Sept. 13. — Paul G. Hoffman, president of the Studebaker Corporation, today announced that the corporation has received more than 20,000 orders for its new 1941 models and that September production of passenger cars will be 43 per cent higher than last year. Several hundred additional plant employees were hired by the corporation to obtain the needed increase in production.

The company's monthly report of sales showed the effect of the shutdown in August for model change-over. Factory sales for that month of 3,670 compared with 6,952 in August, 1939 when the newly-introduced Champion was materially offsetting effects of last year's change-over period. For the first eight months of 1940, factory sales of 67,031 compared with 66,844 in the corresponding period last year.

More than 16 years after H. A. Nicholson, Robstown farmer, put feet in a pit silo he emptied it and his cattle readily ate the silage. So far as known it was the oldest silage in Texas, and farm experts believe it demonstrated silage has almost unlimited keeping qualities.

A theatre in Madrid lends um-to rain while they are attending brillas to its patrons if it starts the show.

As Midland Drug Was Opened

Above is shown a small portion of the crowd that thronged the new Midland Drug store when it was opened for business this morning in the new location at the corner of Wall and Loraine. Proprietor Barney Greathouse declared today's business was the largest in months for his store.

Speed on Defense Program Urged By FDR in Message to Congress

WASHINGTON, Sept. 13 (AP) — President Roosevelt sent Congress today, with his endorsement, a defense commission declaration of policy which had for its basic theme that "speed of delivery on all items of the defense program is essential."

"This means," the commission said, "that orders should be placed to insure the most efficient use of each particular facility from the point of view of the program as a whole," that proper consideration should be given to contributor industries, such as the machine tool industry, to "avoid creating underlying bottlenecks," and that once delivery dates are fixed "assurance be given that they will be met by the supplier."

Requirements Cited

Accompanying the list of general principles was a statement of labor requirements adopted Aug. 31 as a guide for contractors.

"I consider these two documents to be of such importance," the President said, "as to justify my sending them to the members of the Senate and the House of Representatives as a matter of information. The values of these policies and principles to the government, to industry, agriculture, labor and to the country, sectionally and as a whole, will be seen at once."

The commission's declaration made these other two points on the letting of contracts:

"Proper quality is also of prime importance.

"Price while not the sole consideration, is of outstanding significance, and every effort must be made to secure a fair price.

"Due regard to the necessity of protecting civilian needs and morale," is needed as is also "consideration to possible off-season production in order to avert the military program into production for civilian requirements."

"Adequate consideration must be given to labor.

"Undue geographic concentration of orders should be avoided.

"Financial responsibility of the supplier should be examined.

"The avoidance of congestion of transportation facilities should be sought. The same applies to warehousing facilities.

"Due consideration should be given to adequacy of power facilities.

Competitive Bidding Okayed

"A general preference should be given to firms having experience with so-called educational orders.

"The moral responsibility of the supplier is important, and in some respects, fundamental.

"The commission recognizes that competitive bidding is the better procedure in certain types of industry and circumstances but "recommends that the use of the negotiated contract be authorized where necessary."

After reading the entire message to reporters, the President said in response to questions that the first point in the report covering speed of delivery was to take care of the important problems of priorities.

Explaining the point regarding off season production, he said the garment industry was an illustration. He said this industry had two slack periods each year and that an effort would be made to dovetail its orders so they would fill in the slack seasons and bring less dislocation.

The labor policy statement declared that in order to absorb the unemployment "all reasonable efforts" should be made to keep the work week to 40 hours, exceeding that figure only when necessary, and paying extra for overtime work.

It also stated a brief that all work carried on under the defense

program should comply with federal, state and local labor laws.

Indians, Missions Remain in Chase

By The Associated Press

San Antonio and Oklahoma City remained in the running for the Texas League championship today but one misstep will spell oblivion for each.

The Missions tied Beaumont 8-8 yesterday to stave off elimination while Oklahoma City bettered their chances with a 3-2 decision over Houston last night.

Beaumont has a two-up advantage and Houston has Oklahoma City down two games to one.

San Antonio and Beaumont clash again at Beaumont today with Boyd Sorelle due to toe the mound for the Missions and Virgil (Fire) Trucks working for Beaumont.

Dewey Atkins was Manager Rogers Hornsby's choice for twirling duty against Houston tonight at Oklahoma City. Sam Nahem, who pitched the Buffs to victory in the opener, or Hank Nowak will go to the hill for Houston.

Darkness halted play in the Beaumont - San Antonio stalemate yesterday after the two teams had required two hours and forty-five minutes to get in nine innings.

Southern Pine to Aid Defense Housing Program

NEW ORLEANS (UP) — The South's vast reservoirs of pine are going to be tapped for the national defense program.

H. C. Berckes, secretary-manager of the Southern Pine Association, says 40 army and navy projects already approved by Congress will require 400,000,000 feet of pine lumber. Two-thirds of these projects are situated in the south, according to Berckes.

The S. P. A. has made surveys to determine the potentialities of the Southern lumber regions, stocks on hand at the mills, and mill capacities.

Troop housing, barracks, mess halls and cantonments are some of the uses for which new lumber will soon be in demand, Berckes says.

A white-spotted javelina has been reported captured by a cowboy on the Crane ranch, nine miles from Pearsall. The Texas Game Department says there have been few previous instances of the capture of albino peccary.

Production and sale of carbon black, a product of natural gas used to make tires stronger, and in ink, paint and other products, set an all-time record in 1939. Of the 525,166,000 pounds produced, more than 86 per cent came from Texas.

SADDLES and PLOWS

Fatalities from farm accidents still number about 4,400 a year. The country's total cash loss from accidents, including death, injury, loss of time, etc., has been estimated at 2 1/2 billion dollars annually, with from 27 per cent to 35 per cent of this loss on farms.

R. C. Vest Jr. and O. C. Collins Jr., both south Midland 4-H Club boys, have received a registered Jersey bull calf piece from the I. B. Buck-Jersey Farm 12 miles south of Abilene. These calves are out of 400 pound butter fat cows and by a Noble Fern Design bull. Mr. O. C. Collins and Mr. R. C. Vest, parents of the two club boys, together with Mr. L. A. Brunson, W. M. Long and the County Agent, went to Abilene Tuesday to select the registered Jersey bull calves for these boys and also to inspect several Jersey herds in that territory.

Conscription . . .

(Continued From Page One)

language of a provision authorizing the president to take over on a rental basis such essential industries as fail to cooperate with the defense program.

Originally, the provision limited the presidential power to times when both "immediate emergency" and "danger" existed.

Chairman Sheppard (D-Tex) of the Senate group said the amendment was modified because "the committee felt it was too extreme, requiring too much of an emergency to enable the president to take over plants."

Once action has been completed and President Roosevelt signs the legislation, only the appropriation of the necessary funds—probably \$1,250,000,000—would be necessary to put the now-ready conscription machinery into operation. The tentative timetable lists the nationwide registration for 15 days after funds are voted, with the first contingent of trainees joining the army a month later.

Conscription . . .

(Continued From Page One)

language of a provision authorizing the president to take over on a rental basis such essential industries as fail to cooperate with the defense program.

Originally, the provision limited the presidential power to times when both "immediate emergency" and "danger" existed.

Chairman Sheppard (D-Tex) of the Senate group said the amendment was modified because "the committee felt it was too extreme, requiring too much of an emergency to enable the president to take over plants."

Once action has been completed and President Roosevelt signs the legislation, only the appropriation of the necessary funds—probably \$1,250,000,000—would be necessary to put the now-ready conscription machinery into operation. The tentative timetable lists the nationwide registration for 15 days after funds are voted, with the first contingent of trainees joining the army a month later.

Big 4-H Circle

If all the boys and girls who were members of 4-H Clubs in 1939 were to unite in one of the all-join-hands games and form a circle it would be a diameter of about 500 miles. There were 1,381,595 members enrolled last year and such a circle would pass through Detroit, Indianapolis, Knoxville, and Washington, D. C. A motorist, driving 40 miles an hour and 10 hours a day would need nearly four days to view the whole line.

In general, the states with the largest numbers of farm boys and girls, have the largest enrollments. In 1939, however, Alabama—which is fourth on the list of states arranged by the number of rural children—was the leader in 4-H enrollment with 1,000,658 members, taking the lead from Texas, North Carolina and Georgia.

Strengthening Human Defenses

Cooperation of governmental agencies and civic organizations toward strengthening human defenses was pledged by the Texas committee on nutrition in relation to national defense at its first meeting in Dallas last week.

Agencies, institutions, and organizations represented in the 16-member committee are the WPA, NYA, PSA, State Health Department, Gal 2—County agents news . . . home economics departments of Texas State College for Women, Texas Technological College, and North Texas State Teachers College; the home economics department and the extension division of the University of Texas, State Department of Child Welfare, vocational homemaking department of the State Department of Education, Texas Congress of Parents and Teachers, Texas Federation of Women's Clubs, Texas Home Demonstration Association, Texas Dietetics Association and the Agricultural Experiment Station and Extension Service of A. & M. College.

Blast Toll . . .

(Continued from page 1)

area was a scene of burned, blackened and smoking desolation.

Hunt said the company was at a loss to explain either the fire or explosions.

"We thought all safeguards possible to prevent such an occurrence had been taken," he declared, "we have no suspicion of any sabotage."

C of C Broadcast Changed to 5:45

Time of the regular weekly broadcast of the chamber of commerce over station KRLH has been changed from 6 o'clock to 5:45 o'clock each Friday afternoon, Bill Collins, chamber of commerce manager, announced today.

Curt Inman, president of the junior chamber of commerce, will be the chief speaker for this afternoon's broadcast. He will discuss "Paying for National Defense."

The American Petroleum Institute estimated that the welfare of one-half of Texas' six million-odd citizens is bound up in the petroleum industry.

Appropriations in Present Session of Congress 13 Billion

WASHINGTON, Sept. 13 (AP) — Congress has appropriated \$13,127,427,195 so far this session and may be asked to approve \$1,500,000,000 in additional funds before adjournment.

In addition it has authorized another \$8,256,082,009 for expenditure in future years—the actual cash to be voted in subsequent sessions—for a grand total of \$21,383,509,204.

Appropriations and commitments for defense account for more than \$15,000,000,000 of that total.

Congressional records show that the \$13,127,427,195, in direct appropriations already exceed those of any full peace-time year in the nation's history. Last year's total was \$9,719,258,467.

Only the World War outlays were greater—\$18,881,940,243 in the fiscal year of 1918, and \$27,065,148,993 in 1919.

The World War totals, however, include the so-called "permanent and indefinite" expenditures, for fixed charges such as interest on the public debt.

If this year's fixed charges—\$3,975,524,448—are added to the current sessions' appropriations, the government's contemplated cold-cash expenditures are boosted close to the 1918 level.

The estimated \$1,500,000,000 in additional appropriations Congress may be asked to approve before adjournment include roughly \$1,250,000,000 for training army conscripts, \$150,000,000 for defense housing, and \$138,000,000, for various civil functions, some related to defense.

The province of New Brunswick, Canada, has 805 manufacturing plants, with 15,612 employees, within its borders.

Dr. H. C. Wright, Foot Specialist of Lubbock, Texas, will be at the Scharbauer Hotel, Sept. 15-16-17-18. (Adv.)

Guy Blanton of the La Moca ranch in Webb county has stored 2,000 tons of cane and hegrira in a trench silo 390 feet long, 20 feet wide and 18 feet deep. It is one of the largest ground silos in south-west Texas.

Mr. and Mrs. C. J. Cox who ranch in the southwest part of Glasscock County were in town Wednesday and report their range in good condition due to rains received at their ranch the first of the month. Mr. and Mrs. Cox's daughter, Carylyn, was a sponsor at the recent Big Spring Rodeo.

Often They Don't Fit

Letters from farmers directed to M. R. Bentley, agricultural engineer of the Texas A&M Extension Service, indicate that often machinery repair parts do not fit.

Bentley says this is because manufacturers of farm implements sometimes change parts of a machine without changing the model number. For instance, the crankshaft for a well-known mower made in 1919 and designated as the No. 6 will not fit the same company's No. 6 mower made in 1926.

If the owner of a No. 6 mower ordered a crankshaft for his mower without knowing the part number of the year purchased, therefore, he would stand a 50-50 chance of getting the wrong part.

In making up an order for parts that are needed in repairing a piece of farm equipment, the following information should be given if possible:

Name of the manufacturer; the trade name, year bought and the model number of the machine; and the number of the part wanted. If the part number is worn off or cannot be distinguished, use the numbers of one or more parts with which it connects.

Mr. J. D. Prewitt, District Extension Agent, Miss Ruth Thompson, District Home Demonstration Agent, and Mr. Joe Mathews, all of College Station, were visitors here Thursday. Mr. Mathews is the

Strengthening Human Defenses

Cooperation of governmental agencies and civic organizations toward strengthening human defenses was pledged by the Texas committee on nutrition in relation to national defense at its first meeting in Dallas last week.

Agencies, institutions, and organizations represented in the 16-member committee are the WPA, NYA, PSA, State Health Department, Gal 2—County agents news . . . home economics departments of Texas State College for Women, Texas Technological College, and North Texas State Teachers College; the home economics department and the extension division of the University of Texas, State Department of Child Welfare, vocational homemaking department of the State Department of Education, Texas Congress of Parents and Teachers, Texas Federation of Women's Clubs, Texas Home Demonstration Association, Texas Dietetics Association and the Agricultural Experiment Station and Extension Service of A. & M. College.

The committee will give special consideration toward aiding low-income groups in Texas to obtain better diets through wider distribution, operation of community gardens and canning centers, school lunch programs, and mass education in nutrition and food preparation.

Dr. T. O. Walton, president of A. & M. College recently appointed the committee upon the request of Dr. Louise Stanley, chief of the Bureau of Home Economics, U. S. Department of Agriculture. The committee chairman, Mildred Horton, vice director and state home demonstration agent of the Extension Service, has tentatively called the committee's second meeting in Austin on October 5.

Mr. W. B. Franklin and Mr. B. E. O'Neil have finished digging their trench silos and will start filling them in the next few days. Mr. O'Neil and Mr. Franklin live in the Cotton Flat community and are in the dairy business.

It has been reported that there is a shortage of cotton pickers at this time.
