# Roosevelt Puts Embargo On Japan

## Export of Scrap Iron and Steel From This Country To Be Halted After Order By President Today

Axis Partners Meanwhile Attempt To Bring Japan and Spain Into Fold as Active War Partners in Battle Against Great Britain

By The Associated Press.

The United States injected a sting into its disapproval of Japan's expansionist policies in the Far East today when President Roosevelt ordered Japan's vitally needed supply of scrap iron and steel—the crude sinews of war—cut off from this country.

Without specifically mentioning Japan, the President imposed restrictions effective Oct. 16 which will permit exports only to countries of the Western Hemisphere and to Great Britain.

## Milo J. Warner Elected Commander Of American Legion

BOSTON, Sept. 26 (AP).—Milo J. Warner, Toledo, Ohio, attorney, won election as National Commander of the American Legion today in a landslide on the first ballot.

The five vice commanders chosen today by the legion were: Irving A. Froyd, Torrington, Wyoming; James L. McCrory, Omaha, Neb.; Harold P. Redden, Springfield, Mass.; Edward Stirling, New Kensington, Pa.; P. A. Legender, New Orleans, La.

The action came within 24 hours after the Export-Import bank had announced a new \$25,000,000 loan to China, whose stubborn resistance has been the chief obstacle to Japanese expansions in the Far East.

In the European conflict, German long-range artillery strung along the channel coast hurled an hour-long barrage of shells on the "hell corner" town of Dover this afternoon, killing at least two persons.

Two waves of Nazi bombers struck at London during the afternoon, but the British said the attackers were driven off before they could penetrate to the center of the capital.

London's millions, grimly resigned to spending their nights in the damp gloom of underground shelters, found some consolation in black headlines flared by minister of air production Lord Beaverbrook's evening Standard.

RAF will be over Berlin every night," the headlines declared.

The newspaper's air correspondent said that, as the winter nights grew longer, the RAF's attacks on the German capital would lengthen to "eight to 10 hours."

Events shaped rapidly today toward the entry of Spain into the war on the side of the Rome-Berlin axis—apparently to permit an attack on Britain's great rock citadel at Gibraltar by German troops passing through Spain.

Berlin reported that inclusion of Japan in the globe-grinding axis program also appeared to be in the offing—as a counter to possible closer British-American collaboration—making a 4-1 combination against Britain's lone stand.

In Tokyo, a qualified informant said it was expected that Japan would actively support Germany if the United States entered the European war.

This informant said the Japanese government now was convinced the United States is unalterably opposed to Japan's "legitimate" expansion in the Far East. He also declared that a non-aggression pact (See EMBARGO, page 6)

## Reporter-Telegram Carriers Are Young Businessmen of City

L. C. (Hollis) Hobbs, 15-year-old son of Mr. and Mrs. W. E. Hobbs, delivers The Reporter-Telegram in downtown Midland.

Hobbs, who has lived in Midland all his life, has been a carrier for The Reporter-Telegram for two years. He is a freshman in high school.

So readers of The Reporter-Telegram may know their carriers, each day one of the young men will be introduced. The Reporter-Telegram is anxious to have each subscriber know the young man who delivers and collects for his paper.

The boys are independent merchants, obtaining training and experience which will benefit them for years to come. Each buys his paper at wholesale and must collect from his subscribers. If subscribers pay promptly, he is successful in his business.

## Former Assistant State Secretary Victim of Illness

AUSTIN, Sept. 26 (AP).—W. W. Halcomb, 33, former Assistant Secretary of State, former newspaper publisher and public relations man, died here today after a brief illness.

He is survived by his widow and a young daughter, Phila Jane. Funeral services and burial will be in Austin tomorrow.

For the last two years Halcomb had been in poor health. He was representative for Bown Motor Coaches and had been stationed here.

Previously he had published a newspaper at Dumas and also had lived at Turkey and Longview.

When Attorney General Gerald C. Mann was Secretary of State and James V. Alfred was governor, Halcomb had charge of convict parole matters, and was active in setting up local parole boards.

He was manager of Jerry Sadler's successful campaign for the Railroad Commission in 1937. In 1934 he was a speaker in Alfred's campaign for governor.

A native of Arkansas, Halcomb attended Baylor, and before going into newspaper and public relations work taught school in several places. His parents reside at Little Rock.

First of a series of chamber of commerce sponsored open meetings or smokers for all citizens interested in the continued growth and development of Midland along all lines will be held in the Crystal Ballroom of Hotel Scharbauer next Monday evening at 8 o'clock, it was announced this morning by J. W. House, chamber of commerce president.

Decision to hold the open meetings was made by chamber of commerce directors earlier this month.

The meetings will be open to all residents of Midland County whether members of the chamber of commerce or not, President House said in inviting and urging all citizens of Midland County to attend the open forums.

At the Monday night meeting, reports will be made as to developments of projects now underway by the chamber of commerce and several proposed projects will be discussed.

The session will then be thrown open for questions and suggestions from the floor, each of the suggestions to be discussed. It is hoped, said Mr. House, that each person attending will be prepared to make one or more suggestions as to projects which the chamber of commerce might undertake during the coming months. Each and every suggestion made will receive full consideration by the chamber of commerce, he said.

## Sit-Down High-Steppers

Two little majorettes who strutted the 2 1/2-mile route of the National American Legion parade at Boston got out the corn plaster at the end of the route and do some dozing on their feet. It was tough going for the thousands of marchers over Boston's well-known cobblestone streets.

## Haiphong Falls Without French Offering Fight

HAIPHONG, French Indo-China, Sept. 26 (AP).—Two thousand Japanese troops landed this morning six miles from this port without firing a shot and without meeting French resistance after three Japanese planes had bombed a nearby railroad crossing, killing and wounding 15 natives.

Shortly after noon the Japanese troops, led by a squadron of light tanks, marched to quarters the French had provided.

The Japanese commander also paid respects to the French officers and expressed regrets for the bombing. He said it was a mistake.

The landing was in fulfillment of a Japanese-French agreement being put into effect despite the Japanese army's forcible entry across the Chinese border—which the French say violated the pact.

Informed quarters expressed belief the "peaceful" entry here would open the way to settlement of the northern border issue brought about by Japanese marching in Sunday night from the neighboring Kwangsi province of China.

The French called the overland thrust an act of force—the Japanese called it and ensuing clashes with French border troops, a result of "insufficient arrangements by Indo-China authorities" under the Tokyo-Vichy accord.

## President Orders More Restrictions On Steel Exports

WASHINGTON, Sept. 26 (AP).—President Roosevelt today ordered restriction on exports of scrap iron and steel which will permit them after October 16 to go only to countries of the Western Hemisphere and to Great Britain.

A statement issued by the White House said Mr. Roosevelt had approved additional controls over exportation of iron and steel scrap with a view to conserving the available supply to meet the rapidly expanding requirements of the defense program in this country.

No mention was made of Japan, a big buyer of the scrap, but the action was regarded by some authorities as additional indication of this country's dissatisfaction with Japan's policies in the Far East.

Stephen Early, presidential secretary, told reporters in response to questions that Mr. Roosevelt had been in almost continuous consultation, mostly by telephone, with Secretary Hull, but that he knew of no major conference scheduled by the Chief Executive to consider touchy far-eastern problems.

Well known poet dies

LONDON, Sept. 26 (AP).—William Henry Davies, 70, widely known Welsh poet, died today at his home at Nailsworth, Gloucestershire.

He spent several years in the United States, where he wrote "The Autobiography of a Super-Tramp."

## North Basin Area Gains Another Test As Cascade Stakes Wildcat In Hockley

By Frank Gardner

The far north region of the Permian Basin, scene of intensive drilling activity, today gained another important wildcat test, to be drilled 15 miles east of the Slaughter pool in Hockley County.

It is Cascade Company of Fort Worth, of which C. J. "Red" Davidson is president, No. 1 J. M. Walker of Ropesville, Derrick has been erected at location in section 22, league 22, McCullough County school land. Footage is 440 from the north line of the league and 2-633 from the west line of section 22. The wildcat is scheduled to start drilling Oct. 1 to 5,500 feet unless production or sulphur water in the line is encountered at shallower depth. It is on a seismograph structure reportedly shot high by Standard Oil Company of Texas, which also farmed out the wellsite to Cascade. Honolulu Oil Corporation is said to have donated additional acreage.

Location of Atlantic Refining Company and Ray R. Rhodes of Midland No. 1 Carrie Slaughter Dean, new wildcat staked about three miles west of the Duggan pool in Cochran and reported yesterday in this column, is 879 feet from the north, 4,396 feet from the east line of league 83, Lipscomb County school land.

Loving Wildcat Located

H. C. McCauley, with the West Drilling Company of Pampa, has made location for No. 1 E. Hale in southern Loving County, slightly over four miles southeast of the Wheat pool at Mentone, which produces from the Delaware. No. 1 Hale is 330 feet out of the south corner of section 60, block 1, W. and N. W. survey, McCauley has a block of approximately 4,200 acres surrounding the test.

Kenneth Slack of Pecos No. 1 Pat Wilson, western Ward County Delaware test, is drilling below 310 feet in red rock.

Seeking Ordovician production in northern Pecos county, Taubert, McCauley is drilling below 310 feet in red rock.

## British Smart Under Loss of Dakar Battle

Criticism Is Light As Churchill Keeps Hold on Government

By The Associated Press

LONDON, Sept. 26. — Great Britain smarted with disappointment today over abandonment of the attempt to seize Dakar, key port of French West Africa, after a three-day battle in which the admiralty guardedly acknowledged that British warships had suffered damage and casualties.

To many, the incident recalled memories of British setbacks in Norway, Flanders and Somaliland, but the public was too much concerned with the battle of Britain to voice widespread criticism, and there was no indication the ill-starred venture had weakened Prime Minister Churchill's government.

Diplomatic Defeat

Neutral diplomatic quarters characterized the withdrawal from Dakar as a "resounding diplomatic defeat" and foresaw a lessening of Gen. Charles De Gaulle's chances of winning other parts of the French colonial empire to the side of the "free Frenchmen" still fighting with Britain.

The press, for the most part, contented itself with publishing the government's communique on the withdrawal under such headlines as "fleet withdrawn from Dakar—no wish to fight French."

The News Chronicle alone sounded a note of censure, printing an article by Vernon Bartlett, independent member of Parliament, storming against "delay and hesitation" and declaring "it has been decided" that Germany "must be allowed another success."

Withdrawal Explained

The decision to withdraw the "free French forces and the supporting British fleet from Dakar was made," the British ministry of information said, "when it became evident that only a major operation of war could secure the fall" of the port.

While acknowledging that hits had been scored on British warships by French shore batteries, the communique did not specify the extent of damage or casualties.

The British reported two of three French submarines which took part in the engagement were sunk and indicated hits had been scored on the 35,000-ton French battleship Richelieu.

The British communique placed upon the French forces at Dakar responsibility for opening hostilities, declaring they opened fire on De Gaulle's emissaries and subsequently on the British naval squadron.

VICHY, Sept. 26 (AP).—The Petain government's admiralty announced today the arsenal and certain port buildings were hit when French planes bombed the British fortress of Gibraltar yesterday.

A communique said one French plane was shot down.

Violent resistance in Dakar and reprisals against Gibraltar forced French forces to give up their action against the Senegal port, authorized French sources said today, and so far as the French are concerned the incidents are closed unless reopened by the British.

Testimony of Local Business Men Heard In Comm. Hearing

Nine business men of Midland were heard today in the state railroad commission hearing at which the Sunset Motor Lines continued application for a motor line between San Antonio and Midland, via San Angelo and Garden City.

Five witnesses called during the morning testified that the proposed line would give additional and needed service to Midland. Witnesses who testified during the afternoon said the service now being rendered was satisfactory.

Application for the line is being contested by the T&P Motor Transport company and the West Texas Truck Lines of Midland. The Merchants Fast Motor Lines also has applied for a line over the same route.

The Midland company is contesting the line upon the basis of having previously made application for a line from Ballinger to Kermit.

I. E. Daniel, Eddie Blacher, C. C. Tull, A. E. Cameron and G. A. Lee testified that the new line would add needed service in the handling of shipments.

In the afternoon, M. D. Cox, A. C. Caswell, S. M. Vaughn and C. O. Fredregill testified that they were receiving 24-hour service from Houston at the present time and that it was satisfactory.

Witnesses were heard in San Antonio Monday and Tuesday, in Odessa Wednesday and here today. The hearing is scheduled to be completed this afternoon.

Examiner Leonard King conducted the hearings and will submit the testimony and his findings to the commission, he said.

Five Landings At Airport Today

Three BT13's, led by Lieut. Brett, arrived at Midland Municipal Airport today. They were en route from El Paso to Dallas.

Capt. Winfree, flying an SBD-1, arrived from El Paso on the way to Dallas.

Little Geo. McEntire, who flew to Port Worth last night returned this morning. He was traveling in a Beechcraft.

## Snite Visits His Daughter

In his "iron lung," Fred Snite, Jr., famed infantile paralysis victim, smiles as he visits his new daughter in Lying-In Hospital at Chicago. A nurse holds the child, born to Mrs. Snite Sept. 22. The proud father, 30, has spent most of his time since 1936 in the big mechanical respirator.

## LATEST NEWS FLASHES

Hitler Congratulates Denmark King on Birthday. BERLIN, Sept. 26 (AP).—Adolf Hitler telegraphed King Christian X of Denmark today his best wishes on his 70th birthday. German troops of the army of occupation paid the king homage, reports said.

Expect Ciano in Berlin Today. BERLIN, Sept. 26 (AP).—Italy's foreign minister, Count Galeazzo Ciano, was en route to Germany today as diplomatic activity appeared to foreshadow early developments in the axis war program, perhaps signing new allies against Britain. German officialdom declined to discuss Ciano's purpose.

Survivors Landed After Boat Blows Up. BALTIMORE, Sept. 26 (AP).—Twelve survivors of a Dutch freighter blown up at sea with a loss of 21 lives were landed here today by the British ship White Chest.

French Action at Dakar Guided by Germans. LONDON, Sept. 26 (AP).—The headquarters of the "free French" in London declared today in a communique that the French authorities at Dakar, French West Africa, acted under German pressure when they fired on Gen. Charles de Gaulle's troops.

Tixier Returns From French Army To Urge Americans To Set Aside Politics. Maurice P. Tixier who recently returned to West Texas from service with the French Army today urged Americans to set aside politics and work together for the future of America.

First Town Hall Lecturer for Year Speaks Tonight. Town Hall's initial guest speaker, Hawthorne Daniel, is scheduled to arrive in Midland this afternoon. P. D. Moore, general chairman said. The organization is expecting more than 200 persons to hear Daniel's address at the high school auditorium this evening at 8:15 o'clock.

His subject will be "Britain's Move to Canada And What It Means to American Business." Daniel comes well prepared to speak on the subject. He believes this development is wholesome, that it will tend to stabilize the world in future generations, and will help to improve American business. He is expected to discuss Canada as the center of the Empire's aerial defense training; its role to an increasing degree as manufacturing center for the British Empire; advancement of Canada from its position as the world's sixth nation from a point of trade to fourth place; and its possible continuance as the best customer of the United States.

The effect of the migration of Britain's wealth and power to the North American continent is of great importance to business in the United States.

Membership in Town Hall may be obtained at the high school auditorium before and after the lecture tonight or on the mezzanine of Hotel Scharbauer.

ASCC Names Midland Publisher Director. Appointment of James N. Allison, publisher of the Midland Reporter-Telegram, as the Midland director of the recently organized Associated Southwestern Chambers of Commerce was this morning announced by John W. House, president of the Midland Chamber of Commerce. Mayor M. C. Ulmer of Midland is a vice-president of the regional organization representing West Texas.

Dudley Yard of Pecos is president of the group, organization of which was perfected at a meeting in Ruidoso, N. M., early last month.

## German Capital Gets Longest Air Raid of the War

Targets Repeatedly Hit as Britishers Take the Offensive

By The Associated Press

LONDON, Sept. 26 (AP).—The German-British aerial duel reached new peaks today with Berlin's longest raid alarm of the war, the heaviest bombardment of the German held "invasion coast" and the 19th consecutive night of bombing for London.

The British, in their third successive major night raid on the German capital, reported hits on the great Tempelhof airfield, a munitions factory and a railway yard. Important power stations also were attacked, the air ministry said.

The great naval base of Kiel was another night target.

When daylight again streaked the channel skies fresh British airmen, heavily bundled against the chill, roared off to a new offensive thrust inspired by the constant threat of invasion from the German-held French coast.

New Daylight Raid

Like the rumble of thunder in a channel storm, their bombs burst today in the region of Calais and Cap Gris Nez.

This daylight assault—45 minutes in which the terrific detonations were heard on the English side as virtually on continuous reverberation—followed a three-hour attack in the light of a pale moon from Boulogne to Dunkerque.

Even so there was a slight swell in mid-channel, and a cold north-east wind failed to break the sunrise haze masking the French coast.

In the first attack, observers on the cliffs of the English shore could see the flash of explosive and incendiary bombs, the sweep of searchlights and the glare of flares against the whole stretch of coast nearest England.

Naval Base Bombed

At times parts of the sky were almost as bright as day and the English earth seemed to tremble from the explosions little more than a score of miles distant.

RAF night raiders struck at Germany's Kiel naval base while their foe dumped fresh loads of destruction on rubble-strewn London.

Eye-witnesses said incendiary bombs "fell like rain" in a southern London district, destroying a church and working-class houses.

Authoritative London circles, commenting on today's German high command communique, said:

"With regard to German figures for air losses, 26 German planes were in fact shot down yesterday, against four British planes with three pilots safe. In consequence, German losses in trained pilots and air crews amounted to no less than 70 to one." (The 70-to-1 ratio presumably is based on an estimated average of three men killed or captured for each Nazi raider shot down.)

Texas-New Mexico Pipe Line to Hockley County Progressing Rapidly

Work is progressing rapidly on the new pipe line to Hockley County being built by the Texas-New Mexico Pipe Line Company. Somatic coating is being applied to 22 miles of 10 3/4 inch pipe at Midland by the Industrial Engineering Co.

The line will serve the Slaughter field in Hockley and the Duggan field in Cochran County. Approximately 2 miles of the line will be 10 3/4 inch pipe, the next 82 miles to be 8 5/8 inch with the last mile a 14 inch pipe.

As work progresses northward, the treating and coating plant will be moved to Lamesa and the to Brownfield.

The line will be laid by the Latex Construction Co. and will probably be completed by the latter part of December. Tentative plans call for the carrier to tie in with the Gulf's Midland to Crane lines enroute to the Texas-New Mexico terminus at Crane, but nothing definite has been decided on.

Lions To Attend Meeting At Big Spring Tonight

About 12 Midland Lions Club members will leave at 7 o'clock tonight for Big Spring to attend the regular quarterly meeting of Zone 5, Lions International.

The meeting will be held at the Settles Hotel and the local club will present a number on the evening's program.

### 40-Hour Work Week Will Go in Effect Within One Month

WASHINGTON, Sept. 26 (AP)—A 40 hour work-week with time-and-a-half for overtime becomes the law of the land four weeks from today, supplanting the present 42 hour standard for all employees and employers covered by the wage-hour law. The law applies only to those engaged in interstate commerce.

The change in employment standards on Oct. 24, labor economists said, probably will have little effect on job conditions for most of the nation's workers.

Statistics indicate that most workers are on a 40-hour week or less, the U. S. Bureau of Labor reporting that in July the average work week in manufacturing industries was 37.3 hours.

A year ago when the wage-hour work week standard dropped from 44 to 42 hours a week, wage-hour officials reported that 2,380,000 workers would have their work week shortened by two hours.

Labor economists estimate reduction of the work week to 40 hours will be felt especially by employers in enterprises running close to the margin between profit and loss.

They have expressed concern over the possibility that in some cases the 40 hour week will mean reductions in weekly pay, especially for hourly paid workers who will lose two hours under the new standard unless they continue on the 42-hour plan and are paid time and a half for the extra hour hours.

Flat Feet Sufferers Told There Is Cure

BOSTON (UP) — Worried about flat feet?

Dr. W. H. Johnson of Boston told the delegates to the annual convention of the National Association of Chiropractors that the affliction could be cured if a person rubbed up marbles with his toes for five minutes twice a day.

He added that the cure could be hastened by being fitted with proper shoes.

Girls Outshoot Boys On Championship Team

MUNHALL, Pa. (UP)—The "Anne Oakleys" have made it embarrassing for the male sharpshooters of Munhall high school.

For four years in succession, the munhall school has won the National Rifle Association championship for small-bore arms in competition with other scholastic teams, but the 20 members on these championship teams of Munhall during the past four years, only two were boys.

This year, there is not a boy on the championship team of five members and intra-school eight member teams.

In the hope of bettering their record, the boys have started a male rifle team to practice in private in anticipation of the time when they may be good enough to compete with their sister sharpshooters.

PHINA GETS LOAN

WASHINGTON, Sept. 26 (AP)—The United States has agreed to lend China \$25,000,000 through the Export-Import Bank, the loan to be liquidated through the sale of tungsten to this country.

Jesse H. Jones, Federal Loan Administrator, announced the loan late yesterday.

WRECK VICTIM DISCHARGED.

Bob Swain, who was injured in a car-truck collision early Sunday morning, was discharged from a Midland hospital today. Private Hollis Schoenberger of the Arizona National Guard, who was injured in the same wreck, is still in the hospital.

FROM ODESSA.

Mrs. R. A. Herrington and mother Mrs. Mary V. Baker of Odessa were visitors in Midland today.

### Plane Crash Cause Remains Undecided

MARFA, Texas, Sept. 26 (AP)—An investigation today failed to reveal the cause of a plane crash that took the lives of Corvill Spence, 24, and William H. Smith, 27.

The crash occurred near the Marfa airport late yesterday.

Spence, who had 105 flying hours at Randolph Field, San Antonio, owned the plane. Smith was an enlisted man in the Quartermasters Corps at Fort D. A. Russell.

Spence's step-father, Major G. D. Barnes, is Quartermaster at Ft. D. A. Russell.

Smith, a native of Lewisville, Texas, was the son of Mrs. Bessie Smith of Denton.

### Citizens Urged To Enroll in Classes

Officials of the chamber of commerce which is sponsoring establishment here of extension classes from Texas Technological College at Lubbock urge all citizens interested to sign up for the classes immediately in order to insure success of the project.

A minimum of 21 students in a course is necessary in order to bring teachers from the college to Midland. Two courses have been planned, one in speech and one in economics, but the necessary enrollment has not yet been reached for either course. Enrollment fees should accompany application for membership in the classes.

### Committee Approval Given Speech by FR

WASHINGTON, Sept. 26 (AP)—The Senate campaign committee decided today there was nothing in President Roosevelt's Labor Day speech at Chattanooga, Tenn., which would bring it within the authority of the committee.

Chairman Gillette (D-Iowa) said the committee acted after considering a letter from Rep. Joseph Martin of Massachusetts asking an inquiry into the speech on the ground that it was political. He had requested the Senate group to find out whether the Democratic National Committee or the government paid the expenses of the president's Labor Day trip.

### Maverick Resignation Forecast in Santone

SAN ANTONIO, Sept. 26 (AP)—The Evening News said today Mayor Maury Maverick will resign to accept a Federal appointment in the conscription set-up—probably when he returns from Washington next week.

Maverick, former ardent New Deal congressman, conferred with President Roosevelt yesterday. The News said.

Reports here were that the Federal position would pay Maverick \$10,000 annually.

The News said numerous reports concerning the militant mayor and a Federal appointment had been circulated since his defeat by Paul Kilday in an attempt to return to Congress.

### HURT IN PLANE CRASH

SAN ANTONIO, Sept. 26 (AP)—Lieut. Stacey Standley, Brooks Field flying instructor, and Cadet Edward B. Turner were critically injured today when their plane crashed near Bergs Mill.

Air corps officers said Turner, of Redland, Calif., was at the controls. Stanley is from Fort Wayne, Ind.

### CASH FOR DIES COMMITTEE.

WASHINGTON, Sept. 26 (AP)—The House granted \$35,000 to the Dies committee today to continue its investigations of un-American activities until the end of the year.

The committee previously had received \$200,000 since its creation in 1938.

### SONG WRITER FINED.

NEW YORK, Sept. 26 (AP)—Harry Revel, 37, member of the Hollywood song writing team of Gordon and Revel, and Revel's brother, William, were fined \$500 each today in Federal Court after they pleaded guilty to an indictment charging them with using passports obtained by misrepresentation.

### Record Enlistments To Make First Draft Considerably Lower

WASHINGTON, Sept. 26 (AP)—War department officials predicted today the record influx of recruits would give the army its immediate objective of 375,000 regulars by mid-November, well ahead of schedule.

The flow of enlistments indicated 40,000 or more for September, compared with 31,960 in July and 38,611 in August.

As of September 21, with 324,000 enlisted men in service, the regular army was the largest in American peacetime history.

Newspaper advertising, employed for the first time on a large scale, and specially built mobile recruiting stations have contributed materially to the enlistment drive, officials said.

The imminence of conscription was not given the major credit for enlistments.

Officials cited the fact that the recruits were signing up for the army's regular three-year term.

By Eddie Gilmore

WASHINGTON, Sept. 26 (AP)—Steve Vaslakov, peanut vendor who's closer to the White House than any other business man in America, admitted today he is the happiest man in the nation.

"Right soon next Tuesday," said the man who has peddled peanuts to presidents for more than 20 years, "I am an American 100 per cent—papers and all."

Steve got the good news in a government envelope and celebrated by stuffing the White House squirrels and birds with free handouts of his best merchandise.

"This exam," he said, "was one tough business, but I say to myself he's right because look what a man gets this beautiful, wonderful country!"

Vaslakov came to the United States from Greece in 1910, took a flyer at the dishwashing division of the restaurant business, and then settled down to peanuts and popcorn.

### "Right Soon Next Tuesday" Veteran Peanut Vendor in Capital Will Become U. S. Citizen

He took up his stand on a corner that's actually on the White House property. Six years ago the police sought to move him, pointing out the executive mansion was no place for the peanut business, and besides he was parked beside a fire plug.

Steve took his problem to Mrs. Roosevelt and she appealed to the police to let him stay. They did. Overcome with gratitude, Steve decided to become an American.

"I thought he was easy," he grinned, "but he was not."

He studied in the naturalization school for five years and then confidently took his examination. He flunked it.

Slightly puzzled, he took it again.

### Record Enlistments To Make First Draft Considerably Lower

WASHINGTON, Sept. 26 (AP)—War department officials predicted today the record influx of recruits would give the army its immediate objective of 375,000 regulars by mid-November, well ahead of schedule.

The flow of enlistments indicated 40,000 or more for September, compared with 31,960 in July and 38,611 in August.

### Beautiful? Thank Science

GLASS FIBRES are used to make this thoroughly modern tablecloth in day-after design. It's fire and mildew-proof, is simple to clean with warm, soapy water and may be ironed in the regular manner. The candle holders are smart little crystal balls, and the floral centerpiece is of day lilies to match the tablecloth pattern.

# Youth Forum Opens Program of Senior High PTA

H. S. Fatheree, principal of Abilene high school, conducted a Youth Forum Wednesday evening at the initial meeting of the Senior High PTA for this year. Mrs. Glenn Brunson, president of the PTA, presided at the meeting which was held at the high school with a good attendance, including both students and adults.

"How and What Youth Thinks" was the general topic of the panel discussions which were divided into those on "Allowances," "Privileges and Use of the Family Car," "Home Duties" and "Dates."

Assisting Mr. Fatheree were the following students from the high school: Helen Armstrong, Sue Miles, Frances Ellen Link, Margaret Ann West, Gene Ann Cowden, Geneva Thompson, Colleen Doss, Foster Hedrick, Kenneth Williams, Roger Sidwell, Jack Hart, and Emory Corbett.

Jo Ann Proctor sang "In My Garden" by Firestone, as a special number accompanied by Doris Lynn Pemberton.

Mrs. Brunson greeted those present. A. L. Gilbreth principal of Junior High School, offered the opening prayer and Supt. W. W. Lackey introduced Mr. Fatheree.

Other out-of-town visitors were Mrs. Fatheree, Mrs. Holland Holt, and Mrs. W. B. Cogdell, all of Abilene.

# Mrs. J. Howard Hodge Guest Speaker for Home Arts Club

Mrs. J. Howard Hodge, president of the City-County Federation, was guest speaker at the meeting of the Home Arts Club with Mrs. Eula Mahoney, 614 W. Tennessee, Wednesday afternoon. She discussed the "Benefits of Being a Club Woman" and "The Advantages of Federation."

During the business session, presided over by Mrs. John B. Mills, president, Mrs. Guy Brenneman reported on the activities of the calling committee during the summer and Mrs. Mahoney reported on the club institute held recently in Odesa and on the City-County Federation office here.

Time of meeting has been changed from 3 o'clock to 5:30 o'clock.

A party plate was served to four guests, Mrs. Hodge, Mrs. Al Boring, Mrs. I. E. Hood, and Mrs. W. B. Robinson, and the following members: Mmes. N. W. Bigham, John Dunagan, Tom Potter, Paul Filson, B. C. Girdley, B. W. Recer, John B. Mills, Guy Brenneman and the hostess.

Next meeting of the club will be with Mrs. B. C. Girdley, October 9.

# Bluebonnet Club Meets at Home of Mrs. D. W. Brunson

Crocheting and knitting, along with conversation, supplied diversion for the Bluebonnet Club in its meeting at the home of Mrs. D. W. Brunson on the Lamesa Road, Wednesday afternoon.

Mrs. J. N. Berrier was the only guest.

A refreshment plate was served at the tea hour to the guest and the following club members: Mmes. J. H. Barron, W. W. Wimberly, W. Z. Wien, Brooks Pemberton, Cora Graham, and the hostess.

# Woman With Poise Makes Most of Beauty

**By Alicia Hart**  
**NEA Service Staff Writer**

If a woman has poise, she gets the most out of her beauty. If she doesn't, her beauty is often overlooked.

If you sit opposite a woman who is fidgety, who keeps twisting a ring on her finger, smoothing her hair, crossing and uncrossing her feet, putting her face, you think, "What a nervous, jittery woman! No matter what she looks like."

If you are introduced to a woman who is ill-at-ease, who is so uncomfortable that she makes you sorry for her, you aren't likely to consider her a beautiful woman—pretty, maybe, but not beautiful.

Beauty in anyone but a young girl is tied up with poise. It's an inner poise expressed outwardly by controlled, not jittery movements, by the assurance that puts a woman in control of any situation in which she finds herself, by a lack of stiffness that is caused by uncertainty.

# Four Rebel Groups In Mexico Sought

MEXICO CITY, Sept. 26 (AP)—Federal troops are pursuing small bands of rebels in four states, the Mexican ministry of national defense reported today.

In Durango state, troops clashed with a group near San Simon. Three rebels were killed, and one taken prisoner. Others escaped into the mountainous countryside.

Members of various bands were said to have surrendered in Chihuahua, Tamaulipas and Michoacan states.

President Lazaro Cardenas, touring northern Mexico, has offered jobs and pardons to all those surrendering. He was en route today from Saltillo to Torreón, Coahuila state, to inspect a communal farm project, after which he planned to visit Chihuahua state to get a first hand view of the situation there.

# Muhlenbroich Turned Over to the State

REDWOOD City, Calif., Sept. 26 (AP)—The FBI turned Wilhelm Jakob Muhlenbroich over to the state today for speedy prosecution—and probable sentencing to life imprisonment—for the admitted kidnaping of curly-haired, 3-year-old Marc De Trunyan, Jr.

# Saving Sunlight

For a room that does not get much sunlight, sheer, light draperies are important for the windows. Suggested for such a room are white net glass curtains and sheer panel draperies of soft green and pale yellow. These colors would blend nicely in a room in which green, rust, brown and beige are also used.

Approximately 50,000,000 tires are brought annually by the motorists of the United States.

# Society

## Dessert-Bridge Compliments Sans Souci

Dessert tables featured bouquets of miniature zinnias when Mrs. L. A. Tullos feted Sans Souci Club with a dessert-bridge at her home, 911 W. College, Wednesday afternoon.

Three tables of bridge followed the dessert hour with tallies carrying scenes from Honolulu. First prize in the afternoon's games went to Mrs. A. E. Horst and bingo prize to Mrs. W. P. Thurmon.

Mrs. C. A. Jones was the only guest.

Members present were: Mmes. E. W. Cowden, Roy J. Downey, B. L. Hoffer, Horst, A. H. Riley, William J. Russell, Lester Short, B. W. Stevens, Thurmon, Frank Williamson, G. B. Randolph, and the hostess.

Next meeting will be with Mrs. Williamson.

## Enigma Club Opens Season With Party In Patriotic Theme

Opening the new season's activities for Enigma Club, Mrs. Harvey Conger entertained for the organization with a dessert-bridge at the home of her mother, Mrs. B. H. Blakeney, 311 N. Loraine, Tuesday afternoon, at 1:30 o'clock.

Patriotic colors were stressed in appointments, with score pads, tallies, and prize wrappings carrying out the red, white, and blue theme.

Three tables of bridge were played after the dessert hour, with prize for high score going to Mrs. O. B. Holt and for cut to Mrs. Ellis Cowden.

In a business meeting during the afternoon, Mrs. Ellis Cowden was elected president for the year.

Present were: Mmes. Ellis Cowden, Frank Cowden, Guy Cowden, Clyde Cowden, George Glass, Holt, Foy Proctor, Geo. McEntire Jr., Clarence Scharbauer, Allen Tolbert, M. C. Ulmer, the hostess, and a guest, Mrs. Blakeney.

## Mrs. Kimberlin Is Hostess to Delta Dek Club

Entertaining with a dessert-bridge at 2:30 o'clock, Mrs. Zay Kimberlin was hostess to the Delta Dek Club and two guests at her home, 307 N. Big Spring, Wednesday afternoon.

Roses and zinnias were party flowers.

Two tables of bridge occupied the hours after the dessert service. High score in the games went to Mrs. J. H. Bartley, second high to Mrs. Sol Bunnell, and bingo award to Mrs. Kimberlin.

Present were Mrs. Sura Taylor and Mrs. Bernard Spivey, guests, and the following club members: Mmes. Bartley, Charles Wood, Bunnell, Bob Farmer, Roy Leach, and the hostess.

## Girl Scouts Work On Community Scrapbook

Girl Scouts of Troop No. 2 are engaged in the project of making a community scrapbook. Research, talks with oldtimers, and pictures of older buildings in town all have their parts in the work. The girls hope to present the volume to the County Library, after it has been completed and bound.

Troop No. 2, with Mrs. F. B. King as leader, meets each Wednesday afternoon at the Presbyterian Church at 3:15 o'clock.

Next meeting, plans will be laid for cooking supper at Cloverdale soon.

Girls present at yesterday's meeting were: Camilla Jane Crawford, Jane Butler, Edwina Hood, Sallie Jean Secor, Billie Ann Hill, Betty Jo Greene, Betty Chanslor, and Jo Ann Stanley.

Troop No. 1, whose leader is Mrs. Mal Schraub, meets at the Presbyterian Church at 3:30 o'clock on Monday afternoons. This troop will celebrate its first anniversary in October and plans are made for observance of the founding of the troop.

## Girl of 16 Youngest Postwoman in Britain

GLYNDE, Eng. (UP).—Sixteen-year-old Rosemary Smith is Britain's youngest postwoman.

She took the job when the village postman became a constable.

"I think it is great fun going round and seeing everybody," Rosemary said.

Every morning at 7 o'clock, Rosemary wearing a jacket and trousers, trundles out her bicycle and starts her rounds, her mail-bag slung over a shoulder.

"She has only one complaint. 'They haven't given me a uniform yet,' she explained. 'I think I deserve something, even if its only an armet.'

## Auto Horn Ruled Out As Swain's Love Call

SALT LAKE CITY, Utah (UP)—Salt Lake City's mayor Ab Jenkins—who recently banned "juke boxes" in beer parlors—is pushing his campaign against noise in another direction.

The mayor proclaimed the unnecessary blowing of automobile horns a misdemeanor.

"The auto horn should be used as a warning—not a love call," said he, professing a firm belief in the old formalities which provided that a dating swain should at least be willing to climb the stairs to his beloved's door.

Circuses originated in the days of ancient Rome.

## Waiting To Begin Makes It Harder

THAT is why a beautiful young girl who wants to be a beautiful woman must give thought to other things than her look.

She must learn how to appear at ease, how to sit quietly enough so that her beauty can be recognized. Quick, jerky motions are all right for a very young girl, but they spoil the impression a mature woman makes on those about her.

Poise isn't hard to acquire once a girl realizes its importance. But it should be acquired while she is still young, for the longer a woman waits, the more bad habits she will have to overcome.

## Remove Rust

To remove rust from a needle, run the needle several times through a small piece of flannel saturated with machine oil.

## "Native Son" Is Reviewed at Meeting Of Fine Arts Club

"Native Son" by Richard Wright was reviewed by Mrs. Fred H. Wilcox as the program feature at the meeting of Fine Arts Club with Mrs. T. Paul Barron, 405 N. Loraine, on Wednesday afternoon. The novel has roused widespread interest and comment among readers over the nation. It tells the story of a negro and the events in his life which lead up to the final tragic ending of the book, dramatically presented by the reviewer.

During the business session, it was decided to purchase a patron membership in the Civic Theatre.

Vice-president Mrs. Curtis Gilmore presided for the afternoon as Mrs. Wilcox, club president, presented the program.

Mrs. William Penn was a guest.

Members present were: Mmes. L. A. Absher, E. H. Barron, Tom C. Bobo, Charles Brown, L. G. Byerley, Alden Donnelly, E. H. Ellison, F. H. Fuhrman, Curtis Gilmore, W. H. Gilmore, J. Howard Hodge, O. J. Hubbard, George Kidd, A. P. Shirey, Tom Sloan, W. P. Trappnell, R. C. Tucker, Wilcox, E. Hazen Woods, Miss Lydia G. Watson, and the hostess.

## Women's Golf Association Will Meet For Play at the Country Club Friday Morning

Belmont Bible Class will meet at the home of Mrs. W. P. Collins, 710 S. Weatherford, Friday evening at 8:30 o'clock, and go to Cloverdale for the organization's annual picnic and birthday party. All former members of the class are invited to attend.

Women's Golf Association will meet for play at the Country Club Friday morning at 8:30 o'clock. Luncheon will be served at one o'clock at the clubhouse. Mrs. Jimmie Brooks and Mrs. Bill Pitzer will be hostesses.

Escondido Club will meet with Mrs. J. L. Greene, 706 W. Louisiana, Friday afternoon at 2:30 o'clock.

Children's Service League will meet with Mrs. John M. Hills, 904 W. Missouri, Friday afternoon at two o'clock.

Story Hour will be held in the children's library at the courthouse, Saturday morning at 10 o'clock.

Midland County Museum in the courthouse will be open to the public from 2:30 o'clock until 5, Saturday afternoon.

Minnet Club will hold its first dance of the fall season, Saturday night in the Crystal ballroom of Hotel Scharbauer.

## Wallace Declares Ever-Normal Granary Program Is Working

TOPEKA, Kas., Sept. 26 (AP).—The ever normal granary program is working. The nation's farm cash income has risen from \$4,700,000,000 in 1932 to \$9,000,000,000 in 1940.

Henry A. Wallace told a political rally last night.

Wallace, making the major farm address of his western campaign swing, recalled the collapse of World War-boom farm prices and said:

"We remember how discouraged we were when these prices failed to rise again. x x x We remember how farmers organized and appealed for help from Washington, and the cool shoulder they got from the interests that ruled the Republican administrations then in power. For 12 disheartening years you hung on grimly x x x"

"Then in 1932, there was a voice of cheer—the voice of Franklin D. Roosevelt. You found in Roosevelt a man x x x with courage to balance up the scales in your behalf. x x x"

## Versatile Oven

If you like dining in the garden and want to be sure meals are served piping hot, it's possible to cook an entire meal in one of the compact new electric ovens, carry the oven to the outdoor table and serve the food directly from the hot oven.

## Miss Bivens Leads Lesson at Meeting Of Altruists

Miss Marguerite Bivens conducted the study at the meeting of the Altruists at the home of Mrs. John B. Mills, 912 W. Kentucky, Tuesday evening. Basis of the lesson was an article from the Reader's Digest entitled "Why I Don't Go to Church" by Channing Holland. An open discussion followed the leader's talk.

Mrs. E. W. Recer read the devotional from Romans 8:28.

She also presided at the business session in which it was decided to meet henceforth at 8 o'clock and in which plans for helping needy families were discussed.

Miss Maedelee Roberts presented the treasurer's report and Mrs. Olin Fryar read the minutes.

Refreshments were served during the social hour.

Present were: Miss Pauline Schatz, Mrs. Recer, Mrs. Fred Hallman, Mrs. Clint Creech, Mrs. Fryar, Miss Bivens, Mrs. Hugh Walker, Mrs. Sherwood O'Neal, Miss Roberts and the hostess.

Next meeting of the group will be October 9 with Mrs. Creech and Mrs. Fryar as hostesses.

## Coming Events

**FRIDAY**  
Belmont Bible Class will meet at the home of Mrs. W. P. Collins, 710 S. Weatherford, Friday evening at 8:30 o'clock, and go to Cloverdale for the organization's annual picnic and birthday party. All former members of the class are invited to attend.

Women's Golf Association will meet for play at the Country Club Friday morning at 8:30 o'clock. Luncheon will be served at one o'clock at the clubhouse. Mrs. Jimmie Brooks and Mrs. Bill Pitzer will be hostesses.

Escondido Club will meet with Mrs. J. L. Greene, 706 W. Louisiana, Friday afternoon at 2:30 o'clock.

Children's Service League will meet with Mrs. John M. Hills, 904 W. Missouri, Friday afternoon at two o'clock.

**SATURDAY**  
Story Hour will be held in the children's library at the courthouse, Saturday morning at 10 o'clock.

Midland County Museum in the courthouse will be open to the public from 2:30 o'clock until 5, Saturday afternoon.

**Bird Not Yet Named Nominated as Laziest**

SILVER LAKE, N. Y. (UP).—Members of the Audubon Club here believe they have discovered, but not yet classified, the world's laziest bird.

The bird appears over the lake about 5 o'clock in the afternoon, 10 feet above the lake, selects a spot in the bug line, and parks. It has a large mouth similar to a pelican's and a comparatively small wing spread, but observers report it can remain immobile in the air apparently as long as desired.

Once comfortably parked, the bird opens its mouth and waits patiently for bugs to fly in.

**Mr. and Mrs. Claude Houston and Chuck Houston and daughter, Miss Josephine Houston, were visitors from Stanton, Wednesday.**

**Mrs. J. C. Pollard and Mrs. Joe Poindexter of Stanton were visitors in Midland yesterday.**

**It's Still Man's World In Realm of Railroads**

WASHINGTON (UP).—As far as one of the largest employers of labor in the United States is concerned, it's still a man's world.

The railroad industry, with more than 1,000,000 persons on its payrolls, offers opportunities to young men trained in science, engineering, commerce, finance and law, but limits its hiring of women mainly to office workers and telegraph operators, according to a study recently made public by YNA Administrator Aubrey Williams.

An annual personnel turnover of more than 50,000 assures trained men of positions in the industry, the report declares, concluding that "whatever the degree of mechanization, the railroads will always need large numbers of men to insure safe and efficient operation and satisfactory service."

**"Rain Destroyer" Fails And Dies of Exposure**

NEW DELHI, India (UP).—The life duty of Sobhagmal, inherited from his father, was to keep the rain away from the village of Tajjan, near New Delhi.

When the village was threatened with a furious storm, Sobhagmal climbed a neighboring hill and began uttering wild imprecations against the elements and brandishing his sword.

Nothing happened except Sobhagmal got wet and died of exposure.

Now Sobhagmal's son has inherited the job.

British prisons slowly are installing radios in all cells.

## Glamour for the Evening

This truly glamorous dress for important occasions is made of copper-colored silk metal cloth. Notice the rounded décolletage, accented with a band of shirring continued as shoulder straps. Skirt falls in slim lines from waistline that has a star-shaped inset at the front.

## FEMININE FANCIES

By Kathleen Eiland

One of those little novelties that brighten up the kitchen is the silhouette of a teakettle shaped from gay-colored enamel, into the side of which is set a thermometer. Hooks at the lower edge of the kettle provide places for hanging pot holders.

In brilliant, clear red or green these little gadgets are cheerful notes for anybody's meal-getting tasks. They also come in other colors to match varying decorative schemes.

Speaking of specializing, we never realized just how specialized today's kitchen equipment is until we noted that there's even a pan for the popular upside-down cake.

It's a far cry from the days when Great-Grandmother took a Dutch oven and a skillet and cooked an entire meal for a big family.

And sometimes we wonder if all the changes have been for the better.

While we're on the subject of kitchen furnishings, we might also mention that the transparent caps which are favored for covering food containers in the refrigerator or cabinet have blossomed out into colors. Sets of five are now obtainable, each in a different size and color.

It's all very well to be patriotic but when it comes to carrying the tri-colors into the manufacture of milady's lingerie—well, all we can say is that we prefer white and blue or red in our wardrobe of more intimate garments.

## Blame Loss of Job For Deaths of Four

NEW YORK, Sept. 26 (AP)—Four tragic deaths were linked today to dismissal of a young father from his job.

Robert Fletcher Sadler, a sales executive for International Business Machines Corp., leaped to his death from Manhattan bridge yesterday, apparently inconsolable in the belief that a report he had made to a subordinate caused the latter's discharge.

Less than a day before, the former employe, Donald O'Reilly, had shot to death his two young sons and then killed himself after a frantic search for work during which he kept the loss of his job a secret.

Willkie worked on his Omaha farm speech yesterday between rear platform appearances in eastern Montana and North Dakota. He told an audience at Dickinson, N. D.:

"I want to give the farmer something more than just a dolie. I want to give to the farmer markets. I want to give to the farmer an expanding economy instead of a declining economy."

## Willkie Outlines Heavy Campaign

ABOARD WILLKIE TRAIN ENROUTE TO OMAHA, Sept. 26 (AP).—Back in the midwest for a speech at Omaha tonight outlining his views on raising farm income, Wendell L. Willkie formulated today a heavy October campaign schedule calling for 20 major addresses in key states.

As the Republican presidential nominee swung down through South Dakota after a two weeks tour of the west, he arranged to devote the remainder of his drive for votes to the populous eastern half of the country.

He will speak on foreign policy in Cleveland, October 2.

Later in the month he is expected to discuss "political bosses" in a Missouri speech assailing the Pennington Democratic organization. Philadelphia will be among the cities where he will talk, and Republican leaders are assuming he will close his campaign in Madison Square Garden, New York, on Nov. 2.

## Show Motion Pictures Of Seamless Tubing

The Youngstown Sheet and Tube Company and the Continental Supply Co. will show motion pictures at 8 o'clock tonight in the Crystal Ballroom of Hotel Scharbauer on the manufacture of seamless casing, tubing, and drill pipe.

Oil men are invited to attend.

## Italian Bases in Egypt Are Shelled By British Navy

By Larry Allen

ALEXANDRIA, Egypt, Sept. 26 (AP)—British naval forces again have shelled Italian supply bases and troop concentrations in the Sidi Barrani area, inflicting heavy damage and leaving behind a trail of huge fires, British naval authorities announced today.

The warships were said to have moved into the waters a short distance off Sidi Barrani and fired at point-blank range, scoring direct hits on Italian military objectives.

In Rome the Italian high command acknowledged the British naval bombardment of Sidi Barrani and added that the Italian port of Tobruk on the Libyan coast had been bombed by British planes.

A British naval communique said the new attack on Sidi Barrani—the third in 10 days—was made about dawn yesterday. Many shells were said to have fallen in the heart of bases established by Marshal Rodolfo Graziani for his invasion of Egypt.

The opinion was expressed by British authorities that their systematic attacks on concentrations along the coast, coupled with destructive bombings, had ruined Italian hopes of a renewed drive immediately after their 60-mile advance from Libya.

## Willkie Outlines Heavy Campaign

ABOARD WILLKIE TRAIN ENROUTE TO OMAHA, Sept. 26 (AP).—Back in the midwest for a speech at Omaha tonight outlining his views on raising farm income, Wendell L. Willkie formulated today a heavy October campaign schedule calling for 20 major addresses in key states.

As the Republican presidential nominee swung down through South Dakota after a two weeks tour of the west, he arranged to devote the remainder of his drive for votes to the populous eastern half of the country.

He will speak on foreign policy in Cleveland, October 2.

Later in the month he is expected to discuss "political bosses" in a Missouri speech assailing the Pennington Democratic organization. Philadelphia will be among the cities where he will talk, and Republican leaders are assuming he will close his campaign in Madison Square Garden, New York, on Nov. 2.

Willkie worked on his Omaha farm speech yesterday between rear platform appearances in eastern Montana and North Dakota. He told an audience at Dickinson, N. D.:

"I want to give the farmer something more than just a dolie. I want to give to the farmer markets. I want to give to the farmer an expanding economy instead of a declining economy."

ALL KINDS OF STEAKS AND BARBECUE MEATS AT SOUTHERN ICE COMPANY —Open All Day Sunday—

"Look Out for Deer" Timely Highway Sign

SPOKANE, Wash. (UP).—Signs along Washington's highways saying "Look Out for the Deer" mean just exactly that, State Game Commissioner Thomas Lally found out.

Woman Builds Houses As Profitable Hobby

CEDAR RAPIDS, Ia. (UP).—Building houses usually is considered a man's job. To Mrs. Florence Boyd of Cedar Rapids, Ia., however, it is a hobby and a source of income.

Passenger Pigeons In 1813, J. J. Audubon saw one flock of passenger pigeons near Louisville, Ky., estimated at more than 1,000,000,000 birds.

Draft May Get Him A \$10,000 Job

Major General Allen Gullion, above, Judge Advocate General of the Army, is expected to be named by President Roosevelt to head the National Draft Board. The post carries a salary of \$10,000 a year.

Anti-eaters have no teeth.

Veteran Nebraska Team Favored in Big Six As Hard Luck Plagues Missouri Defenders

Jack Jacobs, Oklahoma; Paul Christman, Missouri; Harry Hopp, Nebraska.

Fifth of seven section at college football roundups.

By Jerry Bronfield NEA Service Staff Correspondent

CORN belt critics say this is the year Nebraska returns to the position of eminence it occupied so frequently and more recently in the days of George Sauer and Sam Francis.

The defending Tigers are ranked close behind, however, and might have been installed in the role of favorites if death, injury and withdrawals hadn't cut deep into Don Faurot's plans.

A beefy, rock-ribbed line and a galaxy of backfield stars potent enough to give Nebraska two complete units, is prima facie evidence why the Cornhuskers look like winners.

Only at the ends is there a question of doubt. Forrest Behm and Royal Kahler are great tacklers, and sophomores are pushing them. Major Jones is too deep at the guards, and although Bob Burruss is no Charley Brock, he'll more than do at center.

There's plenty of dynamite in an offensive which contains Herman Rohrig, Harry Hopp, Vike Francis, Bob Kahler and Cowboy Petch.

Paul Christman Again Sparks Missouri Bid

ALL-AMERICA Paul Christman again sparks the Missouri bid, but the Tigers' passing-running ace doesn't have the supporting cast he had a year ago.

An infection resulted in the tragic death of Ronnie King, sophomore backfield star a year ago but the Tigers still have veteran performers in Jim Starmer, Jerry Notowitz and Bill Cunningham.

Most of that crack Missouri line graduated. Faurot must dig up a couple of ends.

A little more strength up front and Missouri might sneak in ahead of Nebraska.

Jack Jacobs, the radiant Red skin who sparked as a sophomore last year, and speedster Orville Matthews give Oklahoma the nucleus of a potent attack, but Tom Stidham needs too much in the forward wall to have serious championship aspirations.

Tackles and ends are particularly in demand.

Adams Takes Over At Kansas State

KANSAS STATE, with Hobbs Adams now at the helm, is seen as a trouble-maker, with 17 letters on hand, but the Wildcats require backfield strength. The line should be as tough as any in the league.

Adams, who succeeded Wes Fry, was Howard Harding Jones' right-hand man at Southern California.

Iowa State will settle for a 50-50 season right now. Kansas, unless it pulls a few rabbits out of the hat, may wind up in the cellar.

In the Missouri Valley Conference, Oklahoma A. & M. has enough talent for two crack teams.

Washington University of St. Louis and Creighton are formidable enough to make it a three-way fight.

Tulsa is studded with juniors who will make a lot of trouble. Drake needs backs desperately.

St. Louis is rebuilding under Dukes Dufford. This is Washburn's final whirl in the circuit.

The Ichabods haven't much, which is why they are chucking it all.

Youth Waiting for Ride Gets Fast One By Plane

BOSTON (UP)—A young fellow here thinks he thumbed the fastest ride on record.

He was standing on the Southern Artery one afternoon when Donald Fitzgerald, a radio announcer, spied him.

"Where are you going?" asked Fitzgerald, stopping his car. "Hyannis," replied the youth. "But it looks as though I won't make it tonight. Been waiting at the corner for almost an hour."

"Hop in," said Fitzgerald. The youth did so.

Fitzgerald sped across Neponset Bridge to nearby Densmore Airport. His private plane was waiting for him, and he told the pop-eyed hitch-hiker:

"Get in and we'll be at the Hyannis Airport before 5 o'clock."

Canadians Go to Iowa For Religious Education

LAMONI, Ia. (UP)—War and not coincidence led all Canadian students who entered Graceland College here this fall to enroll in the religious education department.

They were required to tell customs officials they desired to study certain courses not available in Canada to take money out of their country.

Graceland is maintained by the reorganized church of Jesus Christ of Latter Day Saints, and by enrolling in the religious education classes the students kept the letter of the law.

Alfalfa first was known in central and southwestern Asia, and was introduced in the United States for Chile in 1854.

Spies in Britain Pose As Insurance Agents

LONDON (UP)—A new guise to worm service secrets from unsuspecting housewives and mothers is reported to have been tried in England.

Posing as insurance agents, men offer policies for sons and husbands in the forces, and demand details of regiments, units and stations, stressing that the policy is not valid without these details.

Alert housewives of a London suburb supplied the first clew to this new spy ruse. A young insurance agent who was too pressing in his inquiries aroused their suspicions, and they telephoned Scotland Yard.

Merganser ducks sometimes nest in hollow trees.

To Remove Berry Stain

To remove berry stains from washable fabrics, spread the stained section over the wide mouth of a bowl and pour boiling water directly through the stain from as great a height as possible.

Drastic Change

Faced with the problem of establishing a currency system for his country, Henry Christophe, Haiti's Negro emperor, proclaimed that every green gourd in the country henceforth was the property of the state. These gourds were paid back to the people for their farm products, which, in turn, were sold in European markets for gold. Today Haiti has a silver coin known as a gourd.

Distinction

Pueblo Grande, four miles east of Phoenix, Ariz., is said to be the only municipally-owned archeological project in the United States.

# TIGERS NEED ONLY ONE WIN FOR PENNANT

## Newsom Wins Double Victory Over White Sox

By Judson Bailey  
Associated Press Sports Writer

The American League has reached the showdown stage in its pennant struggle and the Detroit Tigers are holding the ace.

Their double victory over the Chicago White Sox yesterday was all they needed. They can eliminate the Cleveland Indians by winning any one of the three games the two teams have with each other this week-end. And they either can brush off the New York Yankees by winning two of them, or they can wait for the world champions to wear themselves out.

The standings today are:  
Club, won, lost, pct., games behind, to play—

|           |    |    |      |       |
|-----------|----|----|------|-------|
| Detroit   | 89 | 62 | .589 | 3     |
| Cleveland | 81 | 64 | .576 | 2     |
| New York  | 84 | 64 | .567 | 3 1/2 |

It is apparent neither Cleveland nor New York can win except through Detroit losing two games to come down to their level in the last column. As far as Cleveland is concerned the Tigers must lose three, because whatever they don't lose the Indians will.

The Yankees could get a tie by winning their remaining games if Cleveland knocked off the Tigers in two or all three games. In the first case it would be a deadlock with Detroit and in the second with Cleveland. The champions have won six in a row and to expect them to win six more in four days is stretching the imagination even against Philadelphia and Washington.

They have a doubleheader today with the A's while Detroit and Cleveland grid for their final series opener tomorrow in Cleveland.

The Indians kept in the pennant fight yesterday by beating the St. Louis Browns 4-3 as Al Milnar, bested Vernon Kennedy in a hurling duel.

The Tigers took two thrillers from the White Sox who had won 13 of their 20 previous engagements. Buck Newsom got credit for both, bringing his victory total to 21 for the year. The scores were 10-9 in 10 innings, and 3-2. Newsom went in as relief hurler in the opener and went the route in the second.

The Cincinnati Reds divided a doubleheader with the St. Louis Cardinals, taking the first game 5-0 with Junior Thompson pitching magnificent two-hit ball. Johnny Mize notched his 42nd home run to lead the Redbirds to a 4-3 decision over Bucky Walters in the second game.

The Chicago Cubs captured both ends of a twin bill from the Pittsburgh Pirates, 2-1 and 6-4, and moved within one game of fourth place in the National League.

# BULLDOGS LEAVE FOR EL PASO GAME TODAY

New Ford Larger, More Beautiful

1941 Ford Super DeLuxe Fordor sedan. Like the rest of the new Ford line, it is larger, easier riding, and more beautiful outside and in.

The Midland Bulldogs, winners of their first two games, left at noon today for their toughest assignment of the year to date—a Friday night game against the Austin Panthers of El Paso.

The Bulldogs will work out on the Austin field tonight, tapering off after the hardest three days of drill since the season started.

The Panthers also boast an undefeated record after two games and go into the game favored to make it three in a row over the Midland boys. The El Paso team, with only six returning lettermen from the strong 1939 team, has been picked as a winner of district four this year, rating stronger on paper than other teams of the district.

The Midland coaches aren't conceding defeat to the Panthers but readily admit that the Bulldogs will have to do better than in either of their previous games to come through with a win.

The game will be the third ever played between the two clubs. Back in 1932 the Bulldogs journeyed to El Paso and came through with an easy 56-13 victory. The next year they also scored a win, eking out a 14-13 victory on Lackey field. Relations were then broken off until this year when a home-and-home agreement for 1940-1941 was signed.

The Bulldogs opened this season with a 19-0 win over the Ysleta Indians and followed up with a 24-6 win over the Wink Wildcats. Meanwhile, the Panthers were opening up with a 36-0 win over Cathedral high and following up with a well-earned 13-7 win over the strong Big Spring Steers. The Steers are generally rated as one of the strongest clubs in district 3.

All the Midland boys were in top shape when they left today and the coaches nominated all 26 boys on the squad to make the trip.

The Panthers boast a pass offensive comparable to any in the state, most of their scores having been made through the air. To counter this, the Bulldogs will depend upon Wendell Williams, 175-pound pile driving back. Williams has scored 25 points in the two games played to date and is likely to be more than a little bit of trouble to the Panthers.

The Midland team has looked rather impotent against passes in their games to date but the coaches have been working the boys hard this week on pass defense and believe they have set up a defense that should stop the Panther aerials a large part of the time.

A large number of Midland fans are expected to drive to El Paso tomorrow to see the game since plans for a special train fell through. The game will start at nine o'clock (CST) and will not be broadcast.

## Sports Roundup

**By Eddie Brietz**  
NEW YORK, Sept. 26 (AP)—Since coming into the American League, Bobby Feller has whiffed nearly 1,000 batters, but Birdie Tebbetts of the Tigers isn't one of 'em. . . . The rumor foundry has it that Babe Ruth has made up his mind that managing in the minors is better than not managing at all and is definitely out for the job at St. Paul. . . . Red Barber, the sportscaster, may take a fling at vaudeville this fall.

**Today's Guest Star**  
Art Cohn, Oakland (Cal) Tri-bune: "Ernie Lombardi of the Reds has just been made an honorary member of the Cincinnati fire department. . . . I guess old Schnozz is just about at the break of his career, huh?"

Hope we're wrong, but we'll have to string along with Maxie Baer against Comiskey tonight. . . . By the way, the fisticuffing will not be aired. . . . Your well-dressed football player this year will wear equipment costing \$55.50.

**O. K. By Us**  
Dick Parker of Bridgeport, Conn., comes up with this one: "It is only fair the West Coast should have the Farr-Louis fight. . . . After all, New York has had its share of nickle series, so why shouldn't Los Angeles have a five-cent prize fight?"

It's that old sentimental stuff again dang it. . . . Bill Guthrie, hardest of the hard-boiled American Association umpires, give a pair of shoes to the baby of Catcher Otto Denning of the Minneapolis club. . . . How those boys have grown! . . . Forty members of the Marquette grid squad are one inch taller and 15 pounds heavier than they were as high school seniors.

**Overhauling Job**  
Ed Head, the Dodger flinger, began as a southpaw. . . . He broke his pitching arm in an auto accident several years ago. . . . His career was curtailed until Carlos Moore, who managed the Houma (La.) club this season, took him in tow and made a right-hander out of him.

**Bandolier Brings Discovery**  
A curious skin bandolier worn by African natives led to the discovery of the animal known as the skapi. For a long time, such bandoliers were the only bits of evidence pointing to the existence of such an animal. . . . At one time, Cincinnati was known as Losantiville.

## All Texas High School Football Clubs Swing Into Action Friday

By Harold V. Ratliff  
Associated Press Staff

The spotlight of Texas schoolboy football falls on Dallas tonight with the Sherman Bearcats, ranked by many as the No. 1 team of the state, meeting Sunset's upsetting Blsons.

Sherman, with crushing victories over Greenland and Highland Park to its credit and with a team the critics say is the best since the days of Pest Welch, was generally picked to beat Sunset in the interdistrict clash.

The Dallas team leaped into prominence last week with a surprising 7-0 victory over the highly-regarded Corsicana Tigers.

The Sherman-Sunset tilt takes precedence over even four conference games that bring the championship battle to three districts.

There are 61 games on the schedule, 35 of them interdistrict affairs, with Waco playing at Corpus Christi in the South Texas feature.

Waco showed little last week in beating North Dallas—that is little as expected of the highly-ranked Tigers. Corpus Christi was impressive with a 14-0 decision over Jefferson (San Antonio).

Playing Corpus Christi on their own field will be a real test for the Tigers.

The conference schedule has one game tonight with Fort Worth Tech meeting Arlington Heights in district 7. District 10 has Corsicana at Bryan and Cleburne at Hillsboro tomorrow night while district 11 has Athens at Tyler.

There are three inter-sectional games with Bowie (El Paso) going to Clovis, N. M., and El Paso High playing at Roswell, N. M., and Orange entertaining Vinton, La.

Amarillo's Golden Sandies, ranking team of the Plains-Panhandle district, journeys to Fort Worth to tackle the tough Poly Parrots. It will be the first major test for Amarillo's favored squad.

This week's schedule in district 3-AA:

Friday: Brownwood at San Angelo, Ranger at Odessa, Cisco at Sweetwater, Tahoka at Lamesa, Midland at Austin (El Paso), Big Spring at Lubbock.

## Betty Jameson Is Favored to Repeat For Amateur Title

DEL MONTE, Calif., Sept. 26 (AP)—Defending champion Betty Jameson remained the favorite of most observers to retain the National Women's Amateur Golf crown as play moved into the quarter-finals over the Pebble Beach course today.

The sturdy, deliberate San Antonio, Texas, Miss dominated the surviving eight after a day that brought the downfall of several strong challengers.

Blonde Betty met Mrs. Gregg Lufur of Los Angeles, former California state champion and a veteran tournament player, Miss Lufur continued to hobble around with her ankle taped after a sprain.

The young Texan reached today's test after edging out Mary Agnes Wall, Menominee, Mich., one up, and polishing off Mary Moezel Wagner, Portland, Ore., 5 and 4. Mrs. Wagner had eliminated Elizabeth Hicks of Long Beach, Calif., in a 3 and 1 upset.

Here's the battle register for today's quarter-final round:

Upper half—Georgia Tainter, Fargo, N. D., vs Jane Sothran, Greenville, S. C. and Mrs. James Ferris, Pasadena, Calif., vs Mary Morse, Pebble Beach.

Lower half—Clara Callender, Long Beach, Calif. vs Mrs. Willard Shepherd, Los Angeles, and Miss Jameson vs Mrs. Lufur.

**TEXAS COLLEGE CLUBS**  
Open Play This Week

By The Associated Press

Texas colleges have a full schedule this week, two of them trying to crack top-ranking Southwest Conference teams and others playing over an area of seven states.

Texas A. and I. of the Alamo conference tackles Texas A.&M. and North Texas State of the Lone Star loop plays Baylor.

Texas Mines of the Border conference plays an inter-sectional game with the University of North Dakota.

The schedule:

Thursday night: Daniel Baker vs. St. Mary's at San Antonio.

Friday night: Howard Payne vs. New Mexico A. and M. at Las Cruces, N. M. Texas Tech vs. Oklahoma A. and M. at Oklahoma City, Schreiner vs. Southwest Texas Teachers at San Marcos, Southwest Louisiana Institute vs. Stephen F. Austin at Nacogdoches, West Texas State vs. Arizona State at Amarillo, Arkansas State Teachers vs. Trinity at Waxahachie.

Saturday: Texas A. and I. vs. Texas A. and M. at College Station, University of North Dakota vs. Texas Mines at El Paso.

Saturday night: North Texas State vs. Baylor at Waco, East Texas State vs. Abilene Christian College at Abilene, Southwestern vs. Texas Lutheran at Georgetown, Texas Wesleyan vs. Sam Houston at Huntsville, McMurry vs. Southeastern Oklahoma Teachers at Durant, Okla.

**Blind Girl, 18, Writes Prize Winning Fantasy**

SEATTLE, Wash. (UP)—In Marion Anderson's world of darkness there is no room for butterflies. She is blind.

Yet the 18-year-old girl won a short-story contest sponsored by the Braille Searchlight Magazine. Her story was a fairy tale, entitled: "How the Butterfly Got Its Name," a gentle fantasy on nature which she has never seen.

With her prize money, Miss Anderson contemplates purchase of a cello, for her interests also extend to music.

## America's "Big Stick"

To the world at large, America's insistence that it be left to pursue its own democratic way of life is no longer empty chatter, broadcast only to bring courage to the faltering hearts of United States citizens.

Appropriation of 15 billion dollars for defense and conscription of our manpower is at last beginning to convince some people that we mean business when we declare that the United States will not succumb to the kind of political policy that has already been imposed on weaker nations, less prepared than the United States intends to be. The conscript army has not yet been mustered. The military contracts authorized by Congress have scarcely been let. But other nations are already aware of the implications.

We shall have more than a wooden gun and a prayer in our hearts when the test comes.

Indicative of the high regard the outer world places on American military precautions is the warning expressed in Tokio recently by the authoritative newspaper Asahi. The United States, this organ proclaims, has finally passed the stage of paper plans and has embarked on a program of working reality.

Part of the recent activity on the American continent, the paper concedes, must be laid to the growing tension in the Pacific.

"We must be concerned because the words and actions of the American government and the American intelligentsia are growing more and more anti-Japanese and they are made against the background of huge armaments," the journal comments.

"It would be premature to conclude that American intervention in Pacific questions will be immediate. The proviso that America's conscript army is not to be sent outside the American continent is not merely meant for home consumption. But the distance between the possession of such enormous strength and its actual use is only a hair's breadth."

Japan knows, as every other nation and every American citizen knows, that America's military machine will not be brought into use against any foreign power unless there is adequate reason for doing so. Preparedness in the United States means exactly that. The American people have a genuine horror of aggression. They will never permit their armed forces to engage in that kind of war. It is enough that Americans' desire to live an honest, free and peaceful life should be sufficiently supported by arms and power to guarantee that kind of existence.

In a world where guns and cannon have suddenly become the supreme test, the United States has shown it is ready to compete.

## A Bright Side of the News

There has been so much suffering and killing in the first year of the European war that it's something of a surprise to find one lone indication of a trend in the direction of human progress.

Six diseases which in the past have claimed more lives than bullets and bombs have so far been checked. The germs of influenza, smallpox, typhoid, typhus and cerebrospinal meningitis have all appeared, but they've been conquered.

Better housing, better food, new drugs and new treatments, and—most important of all—watchful medical examiners have combined to prevent a recurrence of the great epidemics of former wars.

Science, which has repeatedly increased the effectiveness of tools of destruction, also has done much to alleviate the horrors of war.

## Return to the Fifteenth Century

Every once in a while, science catches up with itself, shrugs its shoulders and decides that maybe there's something to the simple way of life.

For years aeronautical engineers have been designing complicated instruments to help a pilot get safely to the place he's going. One thing had them stumped: there didn't seem to be any safe way of getting a transcontinental pilot safely through a storm. Usually, pilots just had to land and wait until things cleared up.

This week, airline pilots are going back to a system of reckoning that worked pretty well for the Portuguese navigators of the fifteenth century. They'll simply climb above the storm clouds and "shoot" the stars or the sun with a sextant. It won't matter if they get off their radio beam because they'll still know where they're going.

## Ready to Come Home

Every American citizen on the British Isles had a chance to clear out long before Nazi bombers began their destructive excursions over England. Most of them took the advice of the U. S. State Department and left. But 3500 Americans decided to stay on and see the show.

They've had enough now. Embassy officials in London report constant and feverish appeals from stranded Americans for safe passage to the United States. About all the Embassy can say is, "We're sorry, we told you so, but there aren't any boats headed for home just now."

They have learned, these Americans, that it isn't a Fourth of July fireworks display. They're not using dummies over there to represent dead civilians as they did in earlier practice days. The stranded Americans know a little about this new kind of war. Ask them about it when and if they get home.

## Modern Cotton Drying Increases Planters' Cash

TIFFON, Ga. (UP) — Agricultural experts pointed out today that by use of modern drying methods farmers can save nearly \$5 a bale on their damp or wet cotton.

The cost for drying—previous to ginning—costs only 28 cents per bale and increases the gin capacity 23 per cent. Improvement of dry cotton by means of the drier increases the value \$1.23 a bale.

## SERIAL STORY

# This Could Be Your Story

BY MARGUERITE GAHAGAN

COPYRIGHT, 1940, NEA SERVICE, INC.

YESTERDAY: Office gossip has it that young Clark is trying to sell some of his own property for an airport site. Nick's party could make capital of that to elect their own candidate. Nick predicts trouble at the Smithson factory, where Joe works. "And if there is a strike," he tells Sue Mary, "you'll see how smart operators work."

## JOE MAKES PLANS

Chapter XVII  
SUE MARY couldn't sleep. The hot August night wind merely moved the bedroom curtains and she tossed and wondered, puzzled, and could find no answer.

A strike: picket lines, fights, and police squads. She thought of the women she had met when she went to parties with Joe, wives of the plant workers. What would they do when the departments closed down and the pay checks ceased to come? How would they manage to run their homes, feed their families when their too-meager savings ran out?

And what would happen when the material needed by the plane factory ceased to be produced? What would happen, then, to that part of the national defense plan? She wanted to ask all those questions and more, too, when she saw Joe later in the week. They had gone to a movie and then, coming from the air-cooled theater into the city heat, had turned the car out toward the lake for a few last moments of air.

"What would happen if your factory went on strike?" she asked finally.

Joe slowed down and looked at her, astonished.

"What would happen? Well, plenty, I suppose. We're really speeding up production now, with all these plane orders. But why should we go on strike?"

"Oh, I don't know. I guess I read something about a new union contract being negotiated at the factory," she explained lamely.

"Sure, but that doesn't mean we're going to strike. A new contract comes up every year, but we don't strike about it. Our representatives and the management get together and work things out."

"She breathed deeply and settled back against the car seat. 'I'm glad. I just wondered if there could be a strike. With picket lines and trouble—like there used to be.'"

"Well, it's possible, I suppose," Joe agreed.

"But certainly not probable. That part of unionism is about over. I mean the battles and sit-downs."

"Of course, there's always a certain element in every plant that would cause trouble. You get some of these smart guys and let them talk wild and a few dopes who can't think for themselves might follow along. But most of the mean realize they are necessary in the work. Soldiers, sort of."

"And I hope the management won't take advantage of it. The work in the plants in this town ties together pretty much: making different parts for planes and cars and both of those are necessary if we're going to keep our country safe."

JOE drew up along the beach and stopped the car. A hot, yellow moon bathed the waves in gold, and off in the distance a radio played softly. He took her in his arms and kissed her.

"You never used to worry about such things. I wish you wouldn't now. What you should be thinking about is us; about getting married. I haven't mentioned it lately because you—well, you didn't seem to want me to. I guess you were so interested in that crowd you work and play with that you saw me as a pretty dull fellow. His voice was low, filled with emotion."

"She Mary, I love you now, and I always will, and I do have a future. My boss told me yesterday that I'm to be in the research department from now on. I'll get a raise and there'll be more money in the future. And that's the work I want; the work I prepared for in college. And if you were only mine, well—I guess I could know real happiness."

"You do love me," he said, finally looking down at her. "I can tell it when you kiss me. That's all that matters. So let's set the date. We'll find an apartment, start buying furniture and get married before you find something else to worry about."

She rubbed her cheek against his and tried not to let him sense her worry. She wished she could settle things that simply, but first she meant to discover what Vera and Nick and Natalie were working for, and why they had used her. If she were to tell Joe he would be furious. He would probably start out now and with swinging fists settle Nick with his own satisfaction.

It's not that I'm being melodramatic, she argued to herself. It's just that I feel responsible. I did get taken in. I did get Vera that job at the office, and I was a fool. But now I'm awake, and maybe they are dangerous. If their loyalty to their cause can make them go to such lengths, certainly I can do my duty."

A year ago politics was just a word to me. "Un-American activities" was a scare-phrase. Fifth Columnists hadn't even appeared in print. Maybe I'm hysterical; maybe there isn't anything to fear, but I have to satisfy my curiosity."

JOE'S voice brought her back to the present. "Well, darling, say something. Shouldn't we get married?"

"Yes," she said. "I want to. Joe, we will, but we can't do it in such a short time."

"If you really love me there is something you can do right away," he told her. "You can break away from the Youth Progress crowd. You won't be lonely from now on. We'll see each other every night if you want, and you can keep busy shopping for our home. Girls always have plenty to buy at a time like this."

"Give up that crowd and move some place else. Make a clean break. They aren't our kind of people."

"I will, Joe," Sue Mary promised. "Give me time. They are my friends. I—I can't just drop them. When I was lonely they helped me. They've taught me to think and to see a whole new world. I can't just walk out on them simply because you don't like them."

She wanted time. If only a miracle could happen within a week and she could convince herself there was no danger, that they weren't a menace. But back in her mind hovered that horrible doubt.

## Forming American "Eagle Squadron"

Colonel Charles Sweeney, above, American veteran of the World War's famed Lafayette Escadrille, who recently was reported from London to be organizing an "Eagle Squadron" of American volunteer fliers to fight for Britain.

"You're dodging the issue, Sue Mary." Joe took his arms away and turned to look at her. "One moment you say you love me and then the next you seemingly try to block our hopes and plans for marriage. That crowd of crackpots means nothing to you, I do. Now stop stalling and make the break."

"Joe, we mustn't quarrel. Not now." She had to make him understand. "You know I love you and I want to marry you. Let me take a little time to settle my own affairs."

"All right, Sue Mary. I'm not trying to be unfair. Take a week. It's not unusual for a girl to want to get married. Tell them that and then move, and you won't have to see them any more."

"I'll try, darling."

A week. She wondered just what she could do in a week. (To Be Continued)

## OUR COUNTRY

Sixteenth of 24 articles on "Our Country," written exclusively for NEA Service and The Midland Reporter-Telegram by the nation's most famous authors.

By Margaret Cuklin Banning, Author of "Letters to Susan," "The Case for Chastity," "She Teaches Your Children," etc.

WE have begun to realize in this country that if we are not actively for democracy we are against it, for every unconvincing mind is a breeding place for the doctrine of totalitarianism. It will be impossible to fight fanaticism in action with anything less than complete conviction on the other side. And as this fact comes clearer, we see that we must be fully prepared mentally as well as physically to meet the enemy. The mental enemy may get here first. We know that too.

Margaret Cuklin Banning

So we can feel the country humbling for a new declaration of political philosophy, for a slogan that is sufficiently inspiring, and fine words fly right and left without doing the trick of assembling the American philosophy of life. In hundreds of books and magazines are published careful, thorough and inspiring definitions of democracy and to any one of dozens one could pin entire faith, if we are merely after words. But obviously words alone are not enough.

I THINK we are straining too hard after a definition. We can not line up under a definition. We are already lined up under the Declaration of Independence, the Preamble to the Constitution, and the hope that "government of the people, by the people and for the people shall not perish from the earth."

And those are words enough, beautiful, popular statements which most of us believe and credit. Beyond that I think we should

realize that we are only trying to preserve our individual free wills, and to increase the scope of their operation. To me it is as simple as that. We have been in great measure successful in developing a government in which the free wills of men drawn from many countries could exist, even if in operation the free will of many of them was often thwarted by circumstances. But it has never been denied in this country.

The strength of democracy lies in the fact that it does not formulate the exact liberties of the individual. It ensures that there are limits beyond which these liberties must not be tampered with, but within these limits a man may define his own freedom and set his own disciplines or refuse them. Under our democracy the basis agreement is never to relinquish to government the free will of the individual in matters which concern the mind and soul, and never to circumscribe public or private habits to such an extent that the freedom of mind or soul is endangered.

WITHIN this area of habit there must be controls for the public safety and benefit. Those are agreed upon as may be necessary. There is also much blundering, because imperfect, badly educated people can make the operation of democracy faulty. There is cruel pressure, bullying, exploitation of the individual, and we hope to better these things. But in spite of such failures, if a man lives in this country there are many points at which he can say, "You can't do that to me," and be stating his rights. Sometimes he can not maintain his rights. Sometimes he gives some away, to his church, to his employer, to other individuals. But he is the only one who can give them away. They are his until he does.

To me this is the sense of democracy. I want to sense it rather

than to find words for it. It is enough for me to know—and to fight for—that I can think as I please, worship as I please, and that even if economic forces weigh me down, I am still fundamentally free. Under our government, in our democracy, we never hand over to the state the free will of any man. We are right. Even God has never asked for that.

A nation which has faith in itself and in its chosen way of life cannot be corrupted or conquered, writes Faith Baldwin in the next article of this series on "Our Country."

### Japan and Spain Are New Worries To British Empire

By DeWitt MacKenzie  
Associated Press Staff Writer.

There have been few such anxious moments in the war for England to learn whether powerful Japan and strategically placed Spain will add their weight to that of the Berlin-Doma axis.

Adherence of either Japan or Spain to the axis would shake Britain to its foundations. Both of them meet in the bill it would create a situation of extreme gravity.

However, should this position of four-against-one materialize, the question of how will arise as to whether England will have to face this storm alone or whether she may expect aid. West aff says she'll want to know what Britain will do for this vast union would be a mighty factor.

The Moslems may be credited with expecting that sooner or later (probably sooner) they must fight both Germany and Japan.

Then there will Turkey stand? This most powerful of the Balkan states, leader not only in the Balkans but among near eastern countries and guardian of the vastly important Dardanelles, is England's good friend, but has been sitting tight thus far—in large part because of Russian pressure. They told me in Ankara not long before the war that the Turks placed their trust in Britain as in no other nation, and there is no indication of change of heart.

Another big "if" is the great Moslem world which might follow the lead of Egypt—thus far England's ally. A Holy War would raise hob with the nations against which it was directed, for there are few things more terrible.

It certainly will seem an ironic circumstance to British Premier Churchill and his fighting flock if they have to take on this added burden now, just as they have demonstrated that they may have chances of beating Germany and Italy. It is, of course, the strength of the British resistance and counter attack which has driven Hitler to try to draw Spain and Japan into the conflict to help finish the job.

Of the two eventualities—the entrance of Spain or of Japan into Gibraltar.

### Extra Roominess in New Mercury

The Mercury-8 for 1941 adds extra roominess and easier, softer ride and beauty to a power that has already made Mercury cars famous.

the war—the Spanish possibility seems to me to present the greater immediate danger to Britain. The hostility of Spain would threaten the security of mother England herself.

Hitler's chief purpose in bringing in Spain would be to secure bases for operations against Gibraltar with the idea of smashing British control over the western Mediterranean and the gateway to the Atlantic.

This threat would be doubly strong in view of Britain's astonishing abandonment of the siege of Dakar, French West Africa, in support of General De Gaulle, leader of the Frenchmen still fighting the axis.

Lacking this strategically vital port—naval and air base capable of controlling the south Atlantic—it would be a catastrophe to Britain to lose entrance of Spain or of Japan into Gibraltar.

### Automatic Speed Meters Installed in Des Moines

DES MOINES, Ia. (UP). — From now on when Des Moines police bring in a motorist for speeding, he will have to dig hard for an alibi.

He no longer can protest that the officer made a mistake in "clocking" his speed, as the city is installing an electric "speedmeter." The device consists of two electric contact tapes, 10 feet apart, and an electric meter.

Four municipal court judges have agreed to accept in court charges based on evidence of the detector.

### Flashes of Life

LEPANTO, Ark., Sept. 26 (AP). — Politics had nothing to do with the outcome of the annual American Legion terrapin derby.

"Terrapins named 'Roosevelt' and 'Wilkie' never moved from the starting line, the winner was 'Shanghai Lil.'"

### KIWANIS SALUTE TO REMAIN

SIoux CITY, Iowa, Sept. 26 (AP). — Answering complaints that the traditional greeting of Kiwanis club members resembles the Nazi salute, Bernard Caine, president of the Sioux City club, told objectors:

"Hitler will have to change his salute; we invented it long before Hitler was ever heard of and it's ours."

### CHURCHILL UNDAUNTED

LONDON, Sept. 26 — Prime Minister Winston Churchill's conduct during air raids is drawing complaints.

The press association said his friends are worried over his habit of donning a tin hat and sauntering out into the streets to watch the nightly German attacks and the anti-aircraft barrages.

### TOUGH ON YOUNGSTERS

BERLIN, Sept. 26 — To prevent waste of rubber tires, children owning bicycles may use their vehicles only for riding to and from school.

The restriction was imposed by the ministry of education.

### CONSCRIPTION AN AID

WASHINGTON, Sept. 26 — A lot of women are looking to the new draft program to solve some domestic problems.

Officials of the selective service committee are getting numerous letters daily from wives who want erring spouses conscripted to keep them from "running around with other women" and mothers-in-law who think a year in the army would be just the thing for their sons-in-law.

"I have a husband that is a mechanic," wrote a South Carolina woman. "I hope that you can use him in the draft as he is so mean at home that I think a year's training might help him."

### South Carolina Forests To Be Improved

COLUMBIA, S. C. (UP). — The U. S. Forest Service is expected to follow an expanded four-point program in South Carolina national forests this fiscal year.

The program will include erosion control, further construction of recreation areas, fire fighting and setting out of new trees.

Tree planting, ground cover planting, gully work, and terracing will come under the erosion control feature, according to plans outlined to state foresters by regional officials.

Two new recreation centers with extensive lakes and picnic areas are to be constructed in Abbeville County and in Pickens County.

### Nickel Coinage

A total of 33 governments have issued pure nickel coins in 89 denominations and 105 designs since Switzerland first adopted nickel for coinage in 1881.

### HAPPY RELIEF FROM PAINFUL BACKACHE

Many of these gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated the right way.

### Starvation Specter in Europe Fails to Move Canada's Record Breaking Crop of Wheat

By Wade Werner  
OTTAWA, Sept. 26 (Correspondence of the Associated Press). — The specter of starvation over Europe has by no means ruined the career of that notorious international nuisance, the curse of plenty, Not here in Canada, anyway.

Canada's big headache is bumper wheat crop, coming on top of a record carry-over and in the midst of a war which is restricting rather than expanding the foreign wheat market.

The latest official estimate shows a Canadian wheat crop for this year of 561,000,000 bushels, a crop exceeded only once before in Canada's history. That was in 1923, when 566,000,000 bushels were produced.

The carry-over from last year's crop on Aug. 1 was 301,000,000 bushels. That makes a total of 862,000,000 bushels clamoring to be converted into bread and eaten.

But Canada herself consumes no more than 130,000,000 bushels annually, and even optimists do not expect she will be able to export more than 200,000,000 bushels.

That would leave 532,000,000 bushels still unsold when next year's crop is harvested.

Even the problem of storing such a gigantic surplus is a headache, for the country's total elevator capacity is only 420,000,000 bushels.

Wheat-growers are up against storing a large part of their crop on the farm. But farmers hesitate to build the necessary granaries until they know someone will advance them money on such farm-stored wheat. Commercial banks have declined to take the risk; growers accordingly are demanding that the dominion government advance cash against farm-stored wheat.

That makes wheat a political question—nothing new, of course, in wheat-growing countries. But behind it all is the glaring economic fact that Canada's wheat production is completely out of line with her export possibilities.

Even if room enough can be found to store all of the unsold surplus, and farmers are tied over the winter with government subsidies, the problem of disposing of those 532,000,000 surplus bushels will remain.

For each quart of milk she produces, a cow must have three quarts of water.

### New Mercury Said Easier Driving, With More Room

DEARBORN, Mich., Sept. 26 — A longer, bigger, easier-riding, faster-accelerating Mercury with new sweeping speed lines, rolls into public view tomorrow.

The car which made tenth place in its first year and strengthened it last year, looks as though it should go even further in 1941.

The smart new exteriors with their bright metal fender speed-lines, new chrome radiator grilles, doors that practically enclose the running boards, hidden gasoline filler cap, new chrome fender-top parking lights, and heavier bumpers, with center mounted front license plate are a few of the exterior points which will be immediately observed as new on the 1941 Mercury-8.

The Mercury has a two-inch longer wheelbase with spring base increased in proportion to 129 inches. The sedan body is roomier than ever before, the front seat measuring 57 1/2-inches in width from door to door and the rear 51 inches. The easier riding of these bodies is not all due to the increased roominess, but is enhanced by the new full luxury type individual cushion springs used. Over these is a heavy pad of foam rubber which contributes to the unusual softness found in the cushions this year.

The interiors of the cars are more beautiful than before. The instrument panel is redesigned placing all the gauges and speedometer under a single glass in front of the driver, where they may be clearly seen through the "clearvision" two-spoke steering wheel.

Robert Iselle is a trombone soloist with the United States Marine Band, to appear as the first fall season artist concert attraction at Hardin-Simmons University, in Abilene, Tuesday afternoon and night.

To play to a capacity audience of West Texas music lovers, the band, under the director of Capt. William F. Santelmann, will play a program of selections composed entirely by Americans, in line with the current interest in national defense.

During the early 1800s in England, sugar cutters were used by table guests to cut their own lumps from a large piece.

### Garner Refuses To Break His Silence About Future Plans

WASHINGTON, Sept. 26 (AP). — Vice President Garner returned to the capital today after a two-month stay in Texas, still silent about his future plan.

Colonel Edwin A. Halsey, secretary of the Senate, was the only official to meet the train.

"I have no statement," was Garner's reply to all questions about his return here, his departure for Texas two months ago, or his possible part in the coming political campaign.

When the Vice President left here July 22 he said he was going home to vote and intended to say whether he would return.

"I'll reserve my decision on that," Garner told reporters then. "I have a leader who waits until the last minute to make up his mind."

This apparently was a shot at President Roosevelt's last minute announcement that he would accept the third-term nomination of the Democratic convention.

Garner, who twice won overwhelming victories with Roosevelt, unsuccessfully sought the presidential nomination in his own right and was supplanted as the Democratic Vice Presidential entry by Henry A. Wallace, the Secretary of Agriculture.

Announcing the New  
**MERCURY 8 FOR 1941**

**BEHIND** the broad, masterful lines of the new Mercury 8 is written the most amazing success story in modern motor car history.

Introduced just two years ago, in a field crowded with well-established cars, the Mercury dared to challenge the recognized standards of value and performance with new ideas! And to date, it has won over 150,000 owner-friends!

The story of the Mercury's meteoric rise is its owners' story, written in the warmth of their enthusiasm. When they found the Mercury a big car in all the good things the word implies—and an economical car, they spread its praise far and wide. And so contagious was their enthusiasm that they made the new Mercury one of the most popular cars in its field!

The 1941 Mercury adds to the new ideas that have made this car a name for comfort, for easy handling that is a revelation. It is a new and livelier car, a thrillingly big car—inside and out. Body and doors sweep out over the running boards. Windshield and windows are wider and deeper. A new long wheelbase adds still more spaciousness.

You'll find the 1941 Mercury on display tomorrow. Give it the judgment of your experience—any Mercury, Lincoln or Ford dealer will arrange a demonstration for you on short notice.

**ON DISPLAY TOMORROW**

**THE BIG CAR THAT STANDS ALONE IN ECONOMY**

**YOU'LL LIKE THESE ADVANTAGES!**

- New Exterior Beauty. A long, low car. Wide body, superb streamlining. New bright colors.
- Big Powerful Engine. Only V-8 in its field. Brilliant get-away and performance. Economical.
- Luxurious Interiors. Beautifully decorated in harmonizing colors. Wide seats. Resilient cushion pads of foam rubber.
- Ease of Control. Finger-Tip Gearshift. Velvet-action clutch and hydraulic brakes. Newly-designed, perfected stabilizer.
- New Riding Comfort. Long, easy-action springs. Improved shock absorbers. Center-poise balance. It rides like a dream.

### The National Guard Answers "Here!"

This scene could be witnessed in armories all over the country—and in Puerto Rico and Hawaii, too—as National Guard units answered the President's call. Photo shows roll-call in New York's 71st Regiment Army as the 27th Division prepared for induction into federal service. Defense program will put 242,000 Guardsmen on active duty by the end of the year.

### Heroic "Rescue" of London Bomb "Casualties"

(NEA Cablephoto)

The brave laddies in the photo above are shown carrying to a place of safety "casualties" in the German bombing raids on London's smart shopping streets. But the "victims" are merely lifelike window dummies, blown into the street by the force of the explosions.

### War Goes to Church

One of the most unusual war pictures to reach America is this scene in a London church after a German bomb had blasted out one entire wall and part of the roof. Note undamaged crucifix.

### Hubby Told Her: "I Love Another"

"Who is the hubby?" demanded Elsa Lanchester, actress-wife of screen star Charles Laughton, when he broke the upsetting news that he "loved someone else." He showed her a photo of his new flame. It was a picture of Elsie, a dairy company's famous cow. Miss Lanchester is pictured as she told the yarn on her arrival in New York. Her "rival" is below.

### The Staggs Start Another Season

Dr. and Mrs. Amos Alonzo Stagg spend their 46th wedding anniversary planning the Grand Old Man's 51st football season. His little College of the Pacific team opens the campaign at Notre Dame, Oct. 5.

### They Mean Business

The call has come. They are answering it—these National Guardsmen—like thousands of their comrades all over the country. They are members of the 104th New Jersey Engineers, arriving at Camp Dix, N. J., for active service. Those in civilian clothes are new recruits. But "old-timers" and rookies alike, their stern faces tell you that they mean business.

### Business as Usual in London Cafe

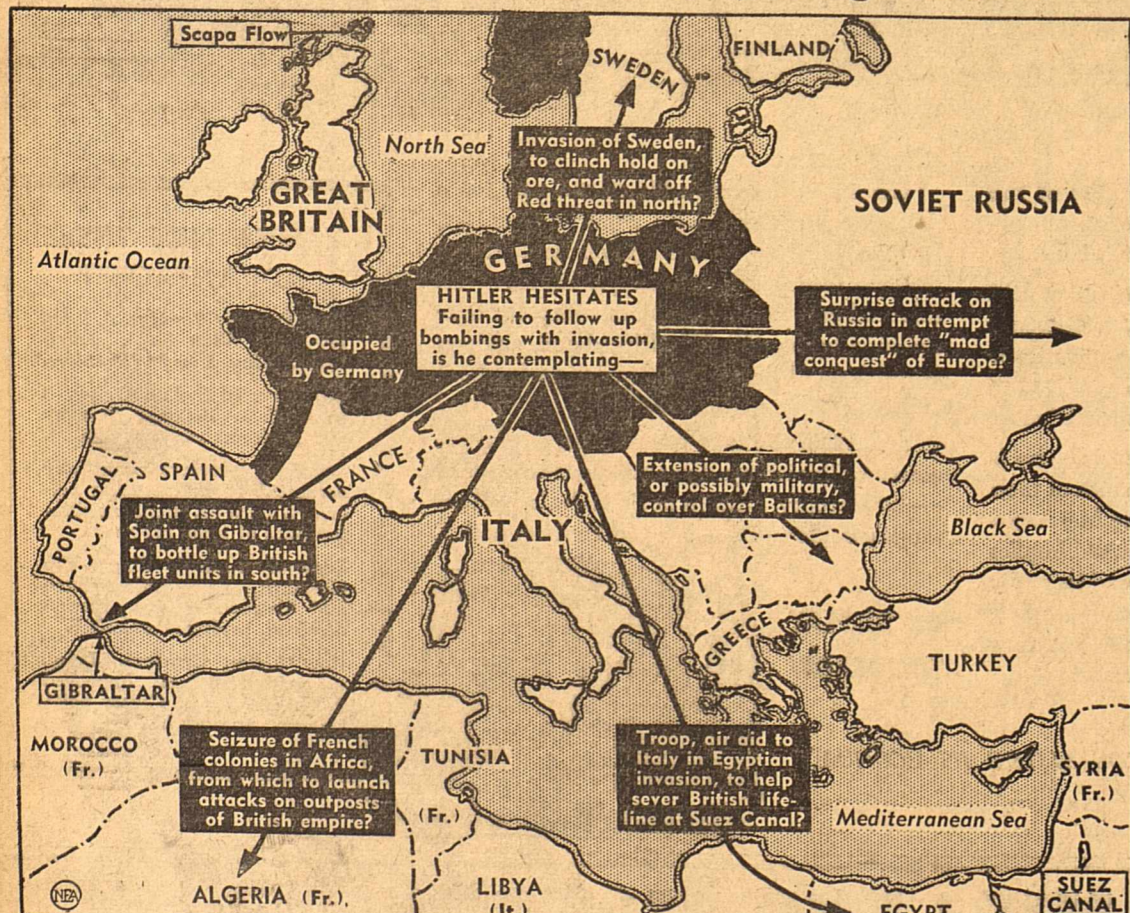

"London enjoys itself in blitzkrieg" British censor captioned this photo of officers dancing in a London night club. Photo released to refute Nazi claims that Piccadilly was in ruins.

### Tennis Ace in Change of Pace

Joe Hunt, 1939 Davis Cup player and a semi-finalist in this year's National Singles tennis tournament, transfers his talents to the gridiron at Annapolis where he seeks a backfield position on the Navy eleven.

### Where Hitler May Strike if Postponing Invasion

From Scapa Flow to Suez, the old world is wondering where Adolf Hitler will strike his next sensational blow. Map shows possible moves the Nazi feuchrer may choose if he decides against an immediate troop invasion of Great Britain.

### He Can't Afford to Miss

His body is a "dive bomb." His target is that circle below—and he can't afford to miss. Photo shows Capt. Sol Solomon in full flight as he thrills New York World's Fair crowds daily by diving 122 feet into a 6-foot-deep tank of water.

### "Working Garb"

Pictured as his colleagues in the House of Representatives so often saw him, working in shirt sleeves, is Rep. Sam Rayburn of Texas, majority leader elected Speaker of the House to succeed the late William B. Bankhead. Fifty-eight years old, the new Speaker is serving his 28th consecutive year in the House.

### Portsmouth Under Deadly Hail

Portsmouth, great British shipping center and naval base on Britain's south coast, is a prime objective of German bombers. According to Nazi censor's caption, the photo above was taken during one of the many raids on Portsmouth harbor and shows pillars of smoke rising as bombs explode.

### More Beautiful and Larger Fords Are Offered for 1941

DEARBORN, Mich., Sept. 26. — The new Ford line is released for public inspection today.

There has been a lot of advance discussion of changes. And changes there are, starting off with a considerable increase in size for the Ford V-8's, DeLuxe and Super DeLuxe.

Designers have taken full advantage of increased wheelbase and overall lengths to give added spaciousness, and Ford engineers have worked right up from bigger tires through to luxury seat cushions and new softer springs for the solid enhancement of riding comfort.

A new four-cylinder truck and commercial car engine is part of the economy features included in the Ford working line.

The wheelbase of these big new DeLuxe and Super DeLuxe Ford V-8's is longer and the overall length greater. The designers have taken advantage of this extra overall to increase the inside body length both in foot room and seating width. In fact, the front seat of the sedan is seven inches wider than last year. The head room is greater and the window area, already large in previous Ford cars, is even larger this year.

Running boards have practically disappeared from sight, due to the width of the new bodies. But they are there to step off when the doors are opened.

The 85 horsepower V-8 engine is still unique as it is in the only eight cylinder car in the low priced field. These new Fords have lower transmission gear ratios thus hiking up the "get-away."

### We, the Women

By Ruth Millett

It takes time to be nice. That is a simple fact that the woman who fills her life with clubs and committee meetings is inclined to overlook.

It takes time to arrange a party for the house-guest of a friend, to go by the hospital every few days to cheer up the old lady who is taking a long time to recover from an injury.

It takes time to prepare a husband's favorite dish, the one he swears the cook has never learned to make the way he likes it.

It takes time to make or buy just the right gift for the friend who has a new baby, to take care of the children of a neighbor who is called away by illness in her family.

All the little thoughtful things that only women think of doing take a lot of time.

The woman who fills her life

so full of superficial duties that she hasn't time to be nice is making a big mistake. For the woman who is admired and respected and loved by her friends, and neighbors isn't the woman who rushes here and there, dismissing every impulse to do something for a friend with, "But I simply haven't the time."

### CLOSER TO ALL WHO KNOW HER

NO, the woman who makes a real place for herself in life is the one who has time for friendship, time for kindness, time for helping those who can use her help.

Not only is she closer to her family, but she is closer to all who know her, than is the woman who never has time for anything but her own interests.

With the world the sad place it is today, more women are needed, who can find time to be nice.

There are about 200 million million molecules in a drop of water.

### Injured "Adam's Apple" Constant Death Threat

ST. THOMAS, Ont. (UP) — A floating "Adam's apple" daily threatens the life of Constable Hugh Sharpe, 43, of Vienna. Sharpe had his "Adam's apple" severed from its support in his throat as the result of an automobile accident.

Described by doctors as a most unusual case, the injury has left Sharpe a victim of fear that at any moment of the day or night his breathing might be stopped.

The constable was told that there was no cure for the trouble.

Rubber—None vul.

South West North East  
3 N. T. Pass Pass Pass  
Opening—♦ K. 26

By Wm. E. McKenney  
America's Card Authority  
I WAS a kibitzer recently at a rubber bridge game in which M. A. Lightman of Memphis, Tenn., participated. Lightman is inclined, once in a while, to cut out what he terms "a lot of foolish bidding"—so when he picked up the South hand, he simply bid three no trump.

He received a rather unfavorable opening when West led the king of diamonds, but he went right up with the ace, then cashed four rounds of spades. On the fourth spade East let go a small heart.

Now Lightman very cleverly discarded one of his clubs, trying to convince West that as East had discarded a heart, he was saving clubs. West decided not to give up any of his diamond tricks, so he threw away the eight of clubs.

Declarer then played a small club from dummy. East's queen fell, the king won and the ace picked up West's jack. Thus four-odd was made.

Watching that little detail, the discard of the three of hearts by East, paid Lightman big dividends on this rubber.

The United States imports 2,000,000,000 pounds of coffee from Latin America each year.

### Comiskey Favored To Defeat Baer in Tonight's Battle

By Sid Feder  
JERSEY CITY, N. J., Sept. 25 (AP)—Accompanied by a tidal wave of rumors, a flood of money on Pat Comiskey hit the betting fronts here and across the Hudson in New York today, less than 12 hours before the Paterson Irishman tangles with Max Baer.

One betting commissioner estimated \$100,000 of Comiskey money already had appeared. As a result, the odds on the tussle in the local ball park jumped in favor of the Irish kid with the solid right hand, establishing him as choice at 5 to 7 or 8.

Most of the folks in the know, however, guffawed at the talk of "something doing". Confronted with reports of "business" on the bout, they pointed out (1) Baer and his manager, Ancil Hoffman, are reported to have bet more than \$10,000 themselves, on Maxie to win; (2) Baer has a contract to appear in a Broadway show, hanging on his victory in this 15-round brawl, and (3) although the ex-playboy champion is, as always, the question mark of fistiana, and that not even he knows how he'll feel when he climbs into the ring about 8 p. m. (CST), he still regards pouncing Pat as a "fresh young punk" to be flattened.

The Australian koala bear never drinks, but obtains moisture from the eucalyptus leaves which are its diet.

### Hank Greenberg Is Far Above Them All As An Outfielder

By Gayle Talbot  
NEW YORK, Sept. 26 (AP)—The heroic figure of Big Hank Greenberg overshadows all rivals so completely that it is difficult to start to compare the outfielders of the teams that will clash in the world series next week.

The great Detroit left fielder, though playing a position he had only seen at a distance up to last March, has pounded the ball at such a terrific pace this season that he hasn't even a remote rival on the Cincinnati Reds, who will represent the National League for the second straight year.

The converted first baseman leads the American League in home runs, runs batted in and runs scored, and he is a mortal clinch to be acclaimed the year's most valuable player. In the world series (provided of course, that he gets there), he will be perhaps the most serious single menace to face a set of worried pitchers since Babe Ruth hung up his wagon-tongue. As long as Hank is in there swinging, Detroit has a more potent outfield than either Cincinnati or Cleveland, the Tigers' rival for the American League title.

To make the Tigers outfield superiority even more pronounced, they also possess the second-best gardener among the three clubs concerned. He is Barney McCosky, their sophomore center fielder, who at last official averages was banging the ball at 338 and generally crowding Greenberg as run-producer. This pair, hitting in conjunction with Rudy York and Charlie Gehringer, give the Tigers a close approach to the Yankees' old murderers' row.

Days of Play Are Over, Boy Is Turning to Stone

FORT WORTH, Tex., (UP)—A year ago he was a husky young 10-year-old boy active in baseball, football, and all the neighborhood games.

Today Edwin Hatch, Jr., stays in the house most of the day. For sports and childhood play he has substituted cards tricks, mastery of the mouth organ, and racing a pet turtle.

Bone specialists have said that young Hatch suffers myositis ossificans progressive. Those are the scientific terms. The boy is turning to stone.

Geologists Find Traces Of Vast World Uplift

DENVER, (UP)—A great sea once rolled over that part of America where the majestic Rocky Mountains now tower thousands of feet above sea level.

Then came a mighty volcanic action that literally turned the earth inside out.

This happened one and one-half billion years ago. University of Denver geologists decided after an extensive study of the rocks and formations in the Rocky Mountain region along the Continental Divide.

Penetration Needed

A small hole is bored in an egg before boiling it, by the natives of Honduras, who explain their action by saying there is no other way for the hot water to get in to cook the egg.

First Window Glass

William Clark made the first window glass in America in 1817. His process was not entirely practical, but was the basis of the big industry to follow.

### Horrell Confident Despite Schedule For the Uclans

By Robert Myers  
LOS ANGELES, Sept. 26 (AP)—The boys come in large sizes at the University of California at Los Angeles, and that's the type it'll take to stand up to the U.C.L.A. grid schedule this fall.

The two big teams of the strong southwestern conference, Southern Methodist and Texas A. and M., the always potent Santa Clara University, and seven Pacific Coast conference rivals make up the enemy list, leading off Friday with the terrific Mustangs of S.M.U.

Ordinarily, a college coach loves to dwell on the hazards of such an array, cushioning himself for what may happen, but not so with Edwin C. Horrell.

"Sure," admitted Horrell, "it's a tough schedule, but you can't get tough playing pushovers. Let's take on the big ones and get tough, too."

Letting the chips—and the university publicity men—fall where they would, the quiet, confident talking Babe continued:

"I think we're going to have a better team than our unbeaten outfit was last year. We're deeper and stronger in the line, and while we're going to miss Kenny Washington—"

Miss Kenny Washington? What an under-statement! Dusky Washington was half, well, a third, of the U.C.L.A. team for three years.

In Jack Robinson U.C.L.A. has one of the most dangerous running backs in the country. He's been moved to Washington's left halfback spot, and while few believe he'll ever be as valuable a 60-minute man as Kenny, he's a touchdown threat from any part of the field.

Speedy Ray Bartlett, another negro, goes at right half, Ned Mathews returns at quarter and seasoned Bill Overlin and Leo Cantor undersudy each other at fullback.

Bulwark of the line is Jack Sommers, a 235-pound All-America prospect who goes from guard to tackle to accommodate a trick knee. One end needs plugging, but the remainder of the line looks strong.

Dartmouth Students See Dots, Millions of Them

HANOVER, N. H. (UP)—Dartmouth students have spots before their eyes, but now they know just how much a million is.

The mathematics department wanted the students to have more than a theoretical notion of what a million is, so it had a printer set up 10,000 periods on his press and run them off 100 times.

In neat little blocks of 100, the dots cover about 100 square feet of Dartmouth's wall space.

Faster-Action Brake For Autos Designed

MINNEAPOLIS, Minn., (UP)—A device which enables a driver to start braking his car in one-eighth of a second may reduce traffic hazards, according to Stanley E. Anderson, Superior, Wis.

His "gadget," as he calls it, combines an accelerator and brake pedal.

At 30 miles an hour the average driver travels 33 feet before he can jam on the brakes, but with Anderson's invention the time is cut to only five and one-half feet, a demonstration in the Twin Cities disclosed.

The accelerator is mounted directly below the brake; both are operated by one master pedal which fits the driver's shoe.

### Ten Apartments Gouged by Bomb

This is what happened when a German bomb hit a London apartment house. Bomb went through 10 stories.

### Wage-Hour Administration, Citrus Growers Reach Agreement on Cooperative Program

WASHINGTON, Sept. 26 (AP)—The wage-hour administration announced today citrus fruit packers and canners from Florida, Texas and California had reached an agreement with the agency on a cooperative program to obtain compliance by the industry with wage-hour law standards.

The two sides which have had prolonged disputes over the law and regulations issued under it will now work together, the announcement said, on the joint enforcement program.

Details of the agreement and enforcement measures to be taken by each side were not disclosed.

Since the early days of the wage-hour law, the citrus industry has attacked agency regulations which defined a redefined the area of production within which citrus packing and processing were exempt from the law.

Growers and packers outside the exempted area frequently charged that the narrow scope of the exempted area gave those within its boundaries an unfair competitive advantage in the marketing of citrus fruit.

The current area of population definition exempts citrus operators in the open country or towns of less than 2,500 population which draw their raw materials within a radius of 10 miles. This definition will be supplanted October 1 by a new rule which discards the mileage and population limitation and grants the exemption to plants which have 10 or less employees.

At the same time, the industry has been granted an administrative rule giving it a 14-week seasonal exemption for peak operations in addition to the 14-week exemption

period already part of the statute. Officials said the net result would be that the large plants unable to meet the 10 employees or less rule would have to pay the wage-hour law 30-cent minimum wage, but would escape overtime costs by being exempt from the maximum work week for an aggregate of 28 weeks.

The industry representatives reached the agreement in a conference which Baird Snyder, acting administrator, whose announcement said the agreement on joint enforcement work was "a very significant example of full cooperation by employers' representatives."

The citrus industry was represented at the conference by Ivan G. McDaniel, spokesman for California and Arizona packers; A. L. Cramer, Edinburg, Tex., president of the Engelman Gardens Association; Glenn G. White, Weslaco, Tex., director of the South Texas Citrus Shippers Association; C. E. Lindsey and Ralph Polk, Jr., of the Florida Canners Association; Marvin H. Walker, Florida Citrus Producers Trade Association, Lakeland, Fla.; M. E. Pace, United Growers and Shippers Association, Orlando, Fla.; C. C. Commander, Florida Citrus Exchange, Tampa, Fla.

Taxi Driver in 25 Years Counts Single Accident

CEDAR RAPIDS, Ia. (UP)—Frank Smrcek, veteran taxi driver here, has rounded out his 25th year of driving with a record of one accident in 500,000 miles.

Smrcek said the accident was not his fault. It occurred four years ago when another car skidded into his taxi on an icy street.

### Vols Take Opener; Krist Chosen To Hurl for Houston

NASHVILLE, Tenn., Sept. 26 (AP)—Manager Eddie Dyer of the Texas League Houston Buffs named his ace moundsman, Howard Krist, to face Nashville's George Jeffcoat tonight in the second game of the Dixie series.

The Vols' power asserted itself in last night's opener, the Southern Association champs pounding three Buff hurlers for 11 hits and a 7 to 5 victory before a chilled crowd of 2,700 spectators.

Krist, a right-hander, turned in 22 wins against 9 losses for Houston in the Texas loop campaign. Jeffcoat's season record was 14 triumphs and 6 setbacks.

After tonight's game, the clubs move to Houston to resume the series Saturday and Sunday.

Animal Dictionary

A new zoological dictionary being prepared in England will contain the names of 225,000 animals of all kinds, covering the whole animal world.

How To Hold FALSE TEETH

More Firmly In Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug store. (Adv.)

### Record in Enlistments Set in 2nd Corps Area

PLATTSBURGH, N. Y., (UP)—The 2d Corps Area, is believed to have established a new record for enlistments—a record not approached since World War days.

Recruiting posts in the area comprising New York, New Jersey and Delaware handled 1,504 enlistments from Aug. 1 to Aug. 16, according to Col. L. B. Magruder, corps area recruiting officer.

Magruder termed the voluntary enlistment the best half-monthly record since the war of 1914-1918.

# Announcing the big NEW FORD 1941 FORD

In some years, some cars take a big jump ahead. The Ford does that for 1941.

It has jumped ahead in size. It's the biggest Ford we've ever built, inside and out. It's wider. It has a longer wheelbase. Its seating room is wider by as much as 7 inches. It has new wide doors and semi-concealed running boards.

You'll notice also a new beauty, achieved by a skillful blending of mass with longer flowing lines. Larger windshield and windows give better vision all around.

One of its biggest advantages is the new soft ride.

These are only a few of this new car's outstanding features. It represents all the rich experience gained in building more than 28 million motor cars.

Any Ford dealer can give you many good reasons for making this your 1941 car.

Get the Facts and You'll Get a Ford!
