Two Million Bayonets Will Oppose Thrust Of Aggressors In Balkans

By The Associated Press.

Hungary joined the Berlin-Rome-Tokyo Axis today, giving Adolf Hitler a military corridor stretching 250 miles deeper into southeast Europe — toward Greece, Turkey and the Suez Canal.

Within a few hours after signing of the new pact, sources close to the Turkish government said Turkey would regard passage of German troops through Bulgaria as harmful to Turkish interests. These sources said Turkey will refuse to approve such a movement

of Nazi troops into Southeast Europe, and warned that if Bulgaria herself made any move toward the Mediterranean, Turkey would feel bound to "take measures.

The official Turkish radio has previously announced that "2,000,000 Turkish bayoness' would oppose any Axis thrust in the direction of

A curious sidelight of Hungary's entrance into the so-called "coalition of Europe against Britain" was that it was swiftly and officially announced.

By contrast, previous conversations held either by Hitler or his Axis partner, Benito Mussolini, with leaders of Rumania, Bulgaria, France and Russia—presumably for the same purpose—have been attended by strict official silence.

# The Voices That Shouted 'Peace!'

The tumult and the shouting of the campaign die away, but there is one shout that must echo and re-echo in the President's mind as he sits alone to think of his tremendous third triumph. Yes, presidents sit alone sometimes. In fact, despite the constant impingement of problems and persons, the presidency is a lonely job, and all presidents have felt it keenly.

The shout that cannot die out of the President's mind is the shout of the American people for peace. He cannot forget that the one thing both in his own addresses and those of his opponent that always touched off a roar of spontaneous approval was any passage that gave hope

of keeping our great land at peace. He cannot forget that of around 22,000,000 Americans who voted for the opposing candidate, many, many

WHY OLDS' HYDRA-MATIC DRIVE\* IS SO DIFFERENT AND IN A CLASS BY ITSELF!

Ordinary "new drives" are based on the principle of fluid coupling. Oldsmobile's exclusive Hydra-Matic Drive is a combination of fluid coupling and completely automatic transmission. It eliminates clutch and clutch pedal. It does away with the gear shifter. It provides a special fourth speed for cruising. It gives you a special pick-up gear for passing other cars and climbing steep hills. The "no clutch, no shift" Hydra-Matic Drive is optional at extra cost on all Olds models for 1941. # Mrs. Murray Fasken, Recent Bride And Newcomer To Midland, Is Complimented At Thanksgiving Coffee At Andrew Fasken Home Tuesday Morning

Honoring her daughter-in-law, Mrs. Murray Fasken, the former Miss Celeste Morrison of San Antonio, Mrs. Andrew Fasken entertained with a Thanksgiving coffee at her home, 1511 W. Missouri, Tuesday morning from 9:30 o'clock until 11:30 o'clock. Miss Helen Fasken was cohostess with her mother.

An autumn decor was favored in\* the reception rooms where tall floor baskets of vellow and white chrysanthemums and salmon-hued roses were featured in floral arrange-

Mrs. Addison Wadley greeted the guests at the door. In the receiving line were the honoree and hostesses. In the dining room, the Thanksgiving theme was dominant in appointments. A basket of pyracantha boughs laden with orange-hued berries was the central arrangement on the sideboard where crystal holders bore vellow candles.

The coffee table, with its cloth of Italian cutwork and lace, featured Thanksgiving centerpiece of a bowl of fruit, ringed with wee pumpkins, with the green spears of young beargrass adding a novel western note to the grouping. Figures of turkeys on the napkins furthered seasonal motif. Table appointments were in sil-

# McKENNEY ON BRIDGE

### By Wm. E. McKenney America's Card Authority

Tournament players throughout the nation were shocked recently at the sudden death of C. F. (Friday) Waltman of Reading, Pa. "Friday" was one of my national tournament directors, and was also secretary of the Keystone Bridge Association, the American Contract Bridge League unit of eastern Pennsylvania. Much of the success of the tournaments he directed may be attributed to is genial personality.

Occasionally he had an oppor-tunity to enter into competition himself and when he did, he was on his toes. Just recently at the Eastern Pennsylvania Tournament at Reading everyone was talking about his fine defensive play on today's hand.

Waltman sat West. His partners opening lead was won in dummy with the king of diamonds, and declarer cashed the ace and king of hearts and ruffed a heart. The led from dummy man played low and declarer also played low, hoping to drop one of the three honors from the East hand; but East won with the ninespot and returned the jack of diamonds

Walman ruffed the ace of diamonds with the queen of spades, and at this point made his smart defensive play

He returned a heart and you can see what happened. Although declarer was out of hearts in both his own hand and dummy, so was East. So East made his king of spades and Waltman made his ace; thus defeating the contract.

LOGAN-WALTER BILL MAY GET CHANCE

WASHINGTON, Nov. 20 (AP). — The decisive House defeat of an attempt at adjournment gave the controversial Logan-Walter bill today its long-deferred chance for prompt Senate consideration.

# Stock Leaders Tumble With Late News Of War

NEW YORK, Nov. 20 (AP).—Stock market leaders tumbled 1 to 4 points or so in today's session as a some-what more bearish tinge to the war news inspired traders to lighten commitments pending tomorrow's holiday when principal financial exchanges will recess.

Steels, motors, aircrafts and piv-otal industrials slipped their moorings at the start and sporadic recovery attempts were too feeble to get anywhere in particular.

Transfers for the full proceedings were around 850,000 shares.

# The War Today

The "new order" which Hitler is painstakingly constructing in Southeastern Europe opens up an entirely new phase in the science of subjection.

Hungary, induced today with a thunder of drums into the Berlin-Rome-Tokyo allance, becomes he model. The other stepping stones in Germany's pathway to the near East: Rumania, Bulgaria—and, most important, Turkey-are expected to get successively in step. Greece, because she resisted Italy, may simply

be crushed. The alliance itself and its "one for all and all for one" terms are largely window dressing, in so far as Hitler's real design is concerned. German Method

The real importance of the method is this: Germany believes she has found a way to get these small nations to pull together their own weight in the Nazi war to annihilate England by making into pro-tectorates, and avoiding altogether the expense, ruin and drain of invasion, military occupation and maintenance.

Vast Nazi armies eat their heads off from Norway's rocky northern tip to the ebaches of Brittany. Ger-man boots stamp on the cobblestones from Warsaw to Breast. There are beaten, desperate people to be watched, fed, imprisoned.

But in the southeast, on his way to Syria, Palestine and Suez, Hitler means to avoid all that. The states that join his alliance not only will pledge their loyalty politically and economic and military cooperation with the Axis in return for military protection; they will provide mon-ey, food, supplies and even men, and keep themselves in strict order. They will have little chance to conceal anything from their overlords, for the terms of the Berlin-Rome-Tokyo alliance provide for "joint" technical commissions to

implement the treaty. **Hungary A Model**Hungary is important, of course, largely as a model. However, there has been indications that something like this was really needed. from the German standpoint, in Hungary—for example, the recent troublesome coal strikes and their internal political repercussions, something that scarcely could occur in a truly totalitarian state.

Now it is up to Rumania, Bul-

garia and Turkey, probably in that order. Rumania has no choice at all.

Bulgaria has very little.

Turkey is the real nut to crack; with her British alliance her possession of the land bridge to the near East, her clutch on the Dar-danelles. But the Nazis are counting on the passive influence of Russia and the overwhelming weight of the "new order" to the north to bring Turkey smartly into parade

formation. Yugoslavia, for the moment, is left for Italy to handle.

In Western Europe, Spain may be expected to join the alliance when Hitler gives the signal, and thereupon to pay part of the price of a German assault on Gibraltar.
As for the other original alli-

ance partners, Italy and Japan, what do they get?

Mussolini, it would seem, gets rescued from Greece, and little else.

Japan wins the psychological effect of the alliance on the United States-for what it is worth.

# Now Is Turkey Talking Time, But Chicken Tale Wins Share Of Interest

Thanksgiving is the time to talk urkey, but here's a good chicken Mr. and Mrs. Fred Mitchell, who live three miles from Midland, de-cided to drive here and eat sand-

wiches last night.

Now the Mitchells are proud of their game chickens.

Imagine their feelings when at the drive-in cafe, a car-hop informed them that they were carrying a chicken, and therefore might not need the chicken salad sandwiches

ordered. One of the prize game flock, very much alive was wedged between the cars' light and grill.

The chicken went squawking into the night and Mitchell, fearful of conclusions, did not follow.

BARRONS TO OKLAHOMA

Mr. and Mrs. T. Paul Barron and son Charles left today for Oklahoma City to spend Thanksgiving Day.
