In Large Maneuvers Extending Into Italy; Sources Say Bulgaria Scorned Axis Effort

Bristol was described as the chief port of entry for

A British communique, without identifying the target, said a section in the west of England was heavly attacked from dusk to midnight "almost continuously," causing damage to buildings with some residents killed and wounded. The Bristol raid climaxed a week-

end of furiously intensified war in the air, with British RAF bombers striking a series of heavy blows ranging from the heart of Berlin to the Royal arsenal and the big Fiat works at Turin, Italy. British airmen brought back re ports of flaming destruction at the vast Krupp armament works at Essen, at three Berlin railway sta-

tions and freight yards, as well as

Britain's big industrial cities and important ports, dropping more than 660,000 pounds of bombs on Birmwork for the defense of this coun- ingham and another 600,000 pounds on Southampton

Indications arose meanwhile that ittle Bulgaria-whose 200-mile-wide kingdom is all that separates Nazi troops from Greece-may have scorned German pressure to join the Axis-ruled "European against Britain." Informed quarters in Berlin made

the surprising disclosure that the signatures of Hungary, Rumania and tiny Slovakia to the Rome-Berlin-Tokyo pact ended the present series of acquisitions to the Axis In this connection, it was recalled that last week a high source in Sofia, capital of Bulgaria, said Sov-iet Russia "advised" Bulgaria not to

oin the totalitarian bloc—although Nazi-Fascist quarters had widely heralded Bulgaria's imminent signanature in the anti-British front. Maybe Others Refused By the same token, Spain, Yugolavia and Turkey may also have

refused to join. All three have been reported under strong Nazi pressure Germany, Italy and Japan.

Slovakia followed Hungary and Rumania into the Rome-Berlin-Tokyo alliance yesterday and Ger-

nan circles in Sofia, Bulgaria's captal, predicted last night that Bulgaria "in a very short time," not only would join the Axis but would seize the golden opportunity to obtain an outlet to the Aegean sea from Greece.' Greek troops were reported to have reached Pogradetz, about 25 niles north of Koritza, in pursuit of

he Italian right arm wing, and to nave started into the city of Agircastro, main Italian base 19 miles nside Southern Albania. The Greek high command said 1, 500 Italian prisoners with guns and other equipment were taken in

leaning up the Koritza area. British troops, it was disclosed, have landed at Greek ports. It was said they were not combat troops but specialists to aid the RAF operating from Greek bases.

Dispatches from the 29-day old Balkan war front said Greek advance troops had entered the outskirts of Argirocastro, Italy's main military base in Southern Albania, and that the city was expected to

fall before evening.

Heavy fighting was reported southwest of Argirocastro, with Greek troops threatening to smash through to the Adriatic coast and solate large numbers of Italians.

Dispatches from Athens said con-siderable forces of British and Greek troops were massed in an "expeditionary" army on the Grecian isle of Crete, awaiting the "zero hour" for a direct assault on the strongly fortified Dodecanese

The attack, it was said, might be launched as soon as the British Mediterranean fleet could weaken the Italian bases on the islands.

They Are a Peculiar Race

The boys in France in 1918 used to have a song whose words asserted that the French, they are a peculiar race. But the British, they are a peculiar race, too. They are supposed to have caved in long ago. But they do not cave. Further, though thousands of civilians have been the Vultee Aircraft factory strike struck down by bombs as they slept, the British still don't was of Communist origin, union like that method of waging war like that method of waging war.

They have over there an institution like the Gallup Poll, which has functioned right through the war without any interference from the government. Recently in the poll, this question was asked: "In view of the indiscriminate bombing of this country, would you approve or disapprove if the R. A. F. adopted a similar policy of bombing the civilian population of Germany?

And 46 per cent of those polled said they wouldn't approve it. The same percentage guessed they would. And eight per cent just couldn't decide.

Our guess is that a poll after the bombing of Coventry would tell another story.

Remember the Shelter Belt?

Six years have passed, and most of us have completely recovered from the gasp or the deprecatory chuckle with which we looked at the plans for a great shelter belt of trees which should redeem miles of dust bowl from the encroaching desert.

Absurd! Too visionary! Trees won't grow! Magnificent! Crack-pot!

So we spoke, looking at that drawing of a continentwide tree belt where no trees grew before.

Six growing seasons have passed. In eastern South Dakota 32,000,000 trees are growing and thriving on 4,

229 farms. About 70 per cent of the trees in this area survived, despite farmers' skepticism. Similar reports come from North Dakota, Nebraska,

Kansas, Oklahoma and Texas. It is too early to claim that the trees have redeemed every promise made for them to change the very climate and turn desert into Eden. But their very survival gives hope that we can do more than some believed to change the face of the country and make it bloom according to our own desires.

J. B. French, Maryville, Mo., found a skunk with its head stuck in a glass of jelly. It's still there!

A red flannel festival in Cedar Springs, Mich., was a big success. Likely because everybody was just itching to attend.

Mckenney ON BRIDGE

By Wm. E. McKenney America's Card Authority

Bridge, like all sports, has a dark horse winner occasionally. The Metropolitan Open Pair championship in New York was won this year by William O. Warren and James Greenwood of New York, the first major tournament in which they had participated. Warren and Greenwood took the lead at the end of the first session, were still leadnig at the end of the second session, and at the end of the finals the score showed them four points in front of the field. A correction in the score put Ed Hymes, Jr., and Robert McPherran in front by 1.2 points, but the final and official score showed Warren and Green-wood the winners by .8 of one point, which might well be termed a photo finish.

The boys took their time and played a steady game, as shown in today's hand. Four hearts was the common contract on the hand. At other tables where the hand was played at hearts, declarer made five-odd, but the young champions held the declarer to four-odd.

North went up with the ace of spades on the opening lead. After careful consideration, Greenwood (East) made the daring Descha-Coup play, throwing his king of spades on declarer's ace. When a heart was returned, Greenwood went up with the ace and led the jack of spades.

His partner, Warren, made an equally nice play by overtaking the jack with the queen, and returning a spade for East to ruff. Thus the contract was held to four-odd, and even though the opponents made a game, they bottom score on the board.

Wemple, Mims Attend Sweetwater Luncheon

Fred Wemple, a vice-president and member of the Texas Good Roads Association executive committee, today is in Sweetwater to attend a luncheon given by the board of city development there honoring members of the committee and state

Percy Mims accompanied Wemple to the luncheon. Both are members of a committee planning observance of Texas Good Roads Week in Midland.

Bill Collyns, chairman of the association here, said today Midland will observe the week, Dec. 1-7.

Collyns named a committee to direct the program in Midland. They are: Wemple, Mims, E. H. Barron and M. C. Ulmer. They will meet tomorrow in Collyn's office to make plans. Tentative plans call for programs

at the schools, and Lions, Rotary, and Junior Chamber of Commerce meetings during the week.

Six teams-all tested by the hardest of schedules—stood out along trouble. the last lap in the Texas schoolboy Quart

gridiron trail today. Amarillo's Sandies, Paris' Wildcats, Masonic Home's Mighty Mites Port Arthur's Yellow Jackets, Jeff Davis' Panthers and Corpus Christi's Buccaneers were looked upon as carrying the balance of power in the championship campaign unsurpassed in sterling play—or upsets.

All were undefeated except Port
Arthur, which made a magnificent

comeback from an early season beating to become the year's high-scor-

ing machine.

Jeff Davis was the state's only Class AA team with goal line uncrossed, but the Panthers were not untied, being held to a scoreless deadlock in the mud last week by Austin (Houston) Two Already In

Strangely, only two of these six op-ranked teams held a district championship, they being Masonic Home and Jeff Davis. But the others were looked upon as only needing to play out the schedule to attain that honor.
