Ray's 'Ritin'

By RAY MARTIN
Now we know exactly why grandparents look so tired. We've been "grandparents" over the weekend — not actually, but grandparents by proxy. We still have hopes of becoming the real McCoy, even though our only daughter has been married these four years with nothing to show for it but an ancient Cocker Spaniel that scratches and a Siamese cat that mews all the time. But this proxy grandparent routine came about when our "adopted" children came to see us from the village of Logan, N. M. It was wonderful having them, but business picked up considerably when they arrived, bringing their 6-month old daughter and their 2-year old son, both of whom are of the extremely active variety.

Just getting unloaded was a considerable chore. There was the foldout playpen which also doubled as a crib at night. And then there was the baby's walker, a contraption which, when not in use, you stumbled over frequently. And there was the electric bottle sterilizer, and suitcases full of clothes, mostly for the two children who had a way of making brand fresh clothes look as if they had just been run through a pig pen in a remarkably short time.

Even then, there were not enough clothes, and the washing machine out at Alfalfa Flats ran overtime just to keep production ahead of usage. There's nothing like reaching for a dry towel in the bathroom and finding instead a still damp diaper, hung up to dry. We don't have a clothes drier, so those drying articles hanging in convenient spots throughout the house raised the humidity to the level of a beach house.

And then there were cases of food, bottled and canned, that went into the refrigerator and came out as needed and were put back half consumed. Seems the different concoctions those bottles and cans contained were of a different flavor and were brought out in sequence to lend spice to the wee one's diet. Frankly I couldn't tell the difference in any of them, except for color. The ones marked green beans, for instance, looked exactly like the ones marked chicken livers except for the color. And they probably tasted about the same way. All put together they had the appetite appeal (to me at least) of fried grasshoppers, but she seemed to enjoy them immensely, so thoroughly, in fact, that she stashed away a few choice bites in her hair and behind her ears for future use in case she became hungry between meals.

And there were toys of every shape and description, many of which gave off weird noises when dragged along the floor or when stepped on in the dark. Our dog Cindy nearly had a nervous breakdown over a realistic dog that walked and emitted sounds resembling a cross between a dying calf and a bulldog that had got stuck in the mud.

In fact Cindy, who is very much (See RAY'S, Page 5)

Picked by coaches of the district as top team of the 3-AA district, Muleshoe Mules are going through rugged workouts these days, hoping to live up to their top-level rank.

Late Invasion Of Grain Midge Possible Here

The expected heavy invasion of Grain sorghum midge in early August which failed to materialize, may come instead in late August, J. K. Adams, county agent, said Wednesday after a telephone conversation with the Extension Service's area entomologist, Don Rummel.

He said midge are "fairly thin" throughout the 22-county district. Rummel is to be here Friday for an inspection in the southern part of the county, primarily to check infestation of cotton bollworms.

Rummel told Adams that spraying, if done, should be carried out three or four days after the grain heads have emerged. Otherwise spraying would not be effective.

Meantime, bollworm infestation is on the increase in counties to the south of this one, and several cases of heavy infestation have been reported in Cochran county.

Rummel will visit Maple and Enoch districts to check on the possible bollworm damage and determine whether damage has been sufficient to warrant spraying.

Adams offered this method of checking for bollworms, as recommended by the Texas Extension Service:

Examine the terminal buds (upper 3-4 in. of the plant) of 100 cotton plants and 100 consecutive squares and bolls at each (See MIDGE, Page 5)

when they blast the lid off their 1963 season at Littlefield September 6.

Around 14 lettermen, Coach Bill Taylor and his assistants are building their team, and Kenny Heathington is expected to mastermind the team again this season, his third in the tough quarterback spot.

Other backfield spots probably will be held down by Ronnie Johnson, David Jones and Clifford Gray.

In addition to the 14 lettermen returning to Taylor's squad this year are five juniors who have seen duty in mainline spots in seasons past.

The 14 lettermen returning are Heathington, Johnson, Mike Miller, D. Jones, Gray, Dick Pylant, Larry Allison, Gary Ratliff, Bill Harbin, Darrell Benton, Stanley Black, Barry Lewis, Dan Smith, and Scott Oliver, while last year's juniors who are moving into top spot this year are Dwight Burkhead, Charles Elrod, Greg Blackwood, Grady Casey and Bill Coltrane.

The Mules will try their metal Friday night, August 30, when they meet Canyon here at 7 p.m. for a scrimmage.

The team again this year will be light, ranging from 127 pounds to 207 with majority in the 140-150-pound class.

Six of the men on this year's squad won district honors last year. They include Heathington, Johnson, Larry Allison, Scott Oliver and Mike Miller.

Included on this year's team are three Negro youths as senior high integrates this fall for the first time.

In addition to the boys named, the team is composed of Don Murray, Ronnie Swint, John Thompson, Joe Adams, Mike Bryant, Don Douglas, Butch Green, Gary Edwards, Bill Hart, Charles Jones, Joe Vela, Charles Murray, Don Williams, Walter Denry, Zane Henderson, Jarry Carpenter, Jimmy Hicks and Willie Washington.

Practices are being held each day from 8:45 to 10:45 a.m. and from 6:30 until 8:30 each evening. In addition, skull sessions are held each afternoon at 2 o'clock.

This probably will be the last year Muleshoe will play in the AA class; increased enrollment will push Muleshoe into Class AAA, it is expected.

Meantime, Littlefield Wildcats, 65 strong, are hard at work preparing for the Mule invasion September 6. Coach John Howle is starting his second year as Littlefield head coach.

Coach Howle will welcome back 11 lettermen from last season's squad which wound up with a 6-4 mark in District 1-AAA competition. (See MULES, Page 5)

District Rotary Chief Due Here

Muleshoe Rotary Club is to be visited next Monday and Tuesday by J. M. (Jimmy) Wilson, Jr., Floydada, governor of District 573 of Rotary International, Harold Elliott, president of the local club, announced this week.

In addition to addressing Muleshoe Rotarians at their luncheon meeting Tuesday, he will confer with Elliott and other club officers Monday at a special meeting to be held at the First National Bank Community Room on Rotary administrative matters and service activities.

Muleshoe is one of 45 clubs included in Wilson's district.

Wilson is a building materials merchant in Floydada, and is a member and past president of the Rotary club of Floydada. He was elected a district governor for 1963-64 at Rotary's 54th annual convention in St. Louis, Missouri, last June. He is one of 272 district governors responsible for supervising the activities of more than 11,500 Rotary clubs with a total membership of 535,500 Rotarians in 129 countries around the globe.

"The visit of the governor," the president of the local club said, "is a time for examining the effectiveness of what we are doing to achieve Rotary goals in community improvement, in youth work, in raising the standards (See ROTARY, Page 5)

FOOTBALL TIME AGAIN — Muleshoe Mules began their 1963 workouts this week, and here is a typical training session for potential centers and quarterbacks being put

FHA Offering New Type Loans

Farmers Home Administration is offering several new types of loans, two of them for senior citizens, John C. Kennedy, county FHA supervisor, said this week in reviewing the fiscal year ending June 30.

During the year, he said, Farmers Home Administration loaned a total of \$580,920 in Bailey county, and of this amount \$71,900 was advanced to make long-term real estate loans. The remainder was used for operating expenses by the borrowers.

Kennedy said the new type loans include one for soil and water association loans, which make possible central waterworks for small communities; senior citizen housing loans, and Labor Housing loans, and recreation loans. These new type loans are in addition to the regular loan services that FHA has had for many years, he pointed out.

The FHA in Bailey county has a county committee made up of three farmers who certify the eligibility of each loan applicant. Kennedy and the committee met this past week to go over loan applications. (See picture below).

Troy Atkinson, Muleshoe, is the newest member of the committee, succeeding B. H. Black who had served on the committee for the past three years. The other two members are W. B. Kittrell, Need- (See LOANS, Page 5)

Buses to Operate For Enrolment

Muleshoe school buses will roll for the first time this school year Friday, Aug. 30, school officials announced this week when the elementary and junior high school pupils will enrol.

Senior high school pupils started enrolling Wednesday and will conclude the process Friday afternoon. Sophomores are to enrol today and freshmen Friday.

Elementary and Junior High registration will start at 8:30 and conclude at noon.

In a statement this week, the schools said:

It is a policy of the Board of Education that a child entering the first grade for the first time must present a birth certificate and also a signed statement from your doctor that the child has had a smallpox vaccination and has been inoculated for polio, diphtheria, tetanus, and whooping cough. In the Muleshoe schools we will temporarily accept the Baptismal certificate so that you may enrol your child while you are getting his birth certificate. Also if your child is in the process of taking his shots, bring this evidence and we will enrol him provided you complete the series of inoculations in a reasonable time. (If you are financially unable to do so, we will provide the shots.) (See BUSES, Page 5)

Area is 'Fly-Bombed' To Halt Screwworms

There are literally thousands of flies buzzing around this area of West Texas this week, but they probably will do little or no damage. They are screwworm flies, made sterile by radiation techniques such as the old-time rancher never dreamed would be possible.

The flies are part of a 100,000 "shipment" of sterile male flies deliberately dropped over Parmer and Bailey counties from an airplane buzzing around at 4,500 feet. In this area, 200,000 more flies will be dropped.

The sterile fly program has been so successful that only 13 cases of screwworm infestation were reported in all of Texas last week. One of these 13 cases, however, came from Parmer county, and this week Bailey county reported a case of screwworms.

Accordingly the Texas Animal Health Commission got busy and hustled off 100,000 of the little male pests to this area to mate with female screwworm flies. The flies were stashed away in small boxes 6 by 6 by 2 inches, 1,300 to the box. As the boxes — 1,500 of them altogether — slipped down a chute under the aircraft, the tiny boxes opened and the flies buzzed out, explained Rueben Birkelbach, Littlefield, inspector for TAHC. The little boxes were scattered by air all the way from Plainview to Portales, the present "hot" area for the flies. The flies were bred in Sweetwater TAHC plant.

Birkelbach explained that the entire operation is timed with such precision that the sterile flies are released within hours of the time that the flies in the area mature. When a case is reported and samples are certified as screwworms, the age of the worm is fitted into the life cycle of the fly, and the time of maturity is fixed. The airplane drop is then planned to coincide with the emergence of the flies in the area.

Additional fly drops are planned in the same area every eight days until three drops have been made, totaling 300,000 sterile male flies. Since the female will mate only once during her lifetime, mating with a sterile fly serves to put the pest of existence to rest. (See AREA, Page 5)

10 Are Charged In Check Cases

Ten persons were charged over the weekend in 11 cases of giving worthless checks. All cases were filed in county court by County Attorney Roger Gorrell.

Charged were: Hartley Riddle, Roman Aleman, Mrs. Elva Preece, (two cases), Mervil I. King, Maria L. Lumbroza, Mrs. William Hammond, O. C. Hall, Claudie C. Ortega, Arthur Wilkins and Lester Anderson.

The new and much stiffer check law goes into effect this weekend which make it possible to send a person to jail for giving even a \$1 worthless check. The law still requires, however, that the receiver of a worthless check must give notice to the check giver via a certified letter, and then wait 10 days before filing charges. The charge must be accompanied by a receipt of the certified letter.

Quickie Raid Reveals 199 Quarts of Beer

Quart bottles of beer, 199 of them intended for consumption by Spanish Americans, wound up early Sunday instead in the overflowing vaults of Sheriff Dee Clements. It was the second such raid on Spanish-American areas in 40 days.

The Sunday morning raid was instigated by City Patrolman Pete Hatfield who got word of a full-sized bar was in operation on East American Boulevard.

He called for help from the county officers, and when it was all over it took a pickup truck to haul the beer to the courthouse.

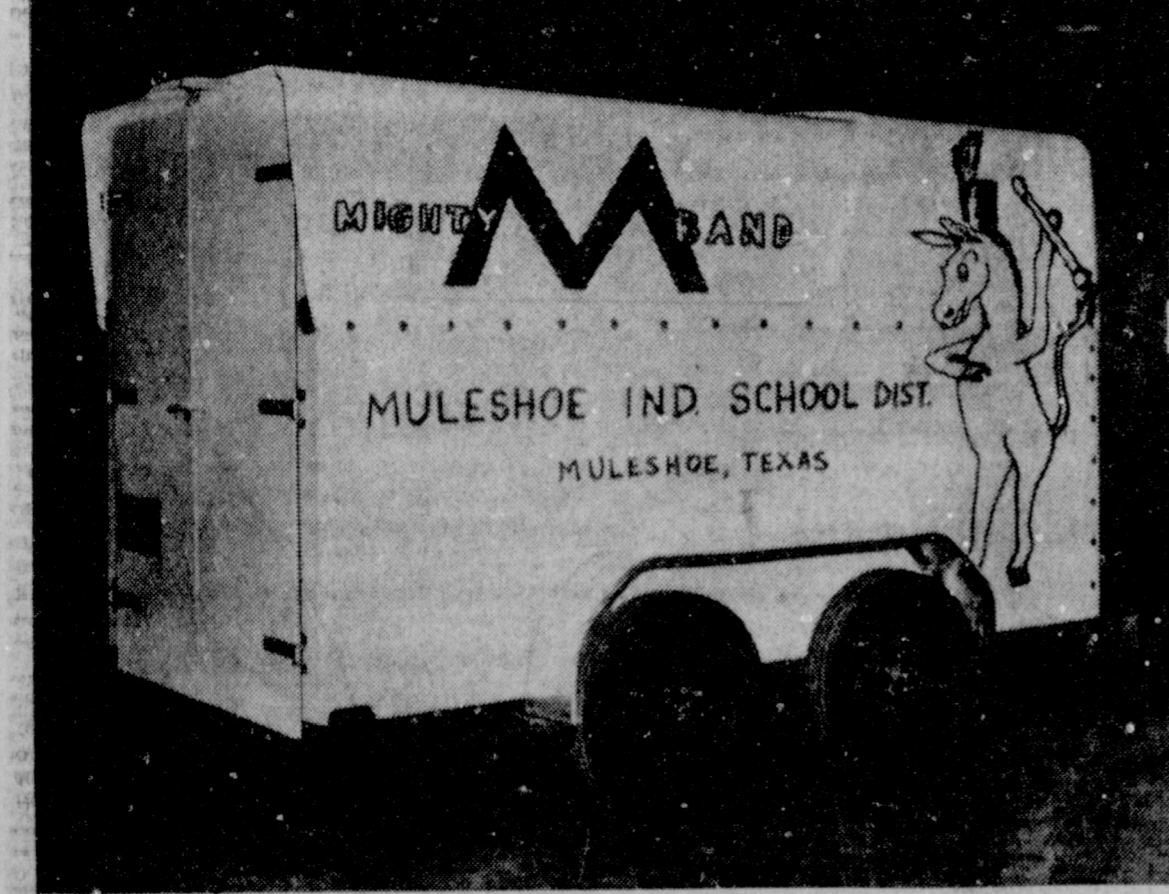

One person was arrested and charged in county court with possession of liquor for sale in a dry territory, and three others were charged in county court was

Silverio Arellano, a resident of Mexico who does not speak English. He was arraigned before Justice Joe Vaughn, sitting in for County Judge Glen Williams who was on vacation. Arellano pleaded guilty and was fined \$200 and costs, which is approximately the same amount the 199 bottles of beer would have brought on the bootleg market.

Arellano was still in jail at mid-week. Upon his release he will be turned over to U. S. Border Patrol for deportation to Mexico, county officials said.

Only a week before, city and county officers raided four places in southeast Muleshoe and found beer at three of the residences.

Officers said the beer taken in Sunday's raid had been hauled by taxi from Clovis.

BAND TRAILER — Muleshoe senior high school's Mighty M band has a brand-new band instrument trailer, made in Denver by Nationwide Trailers, and paid for by Irvin St. Clair, Ernest Kerr, president of the Band Boosters, brought the trailer to Muleshoe last week, and now the Boosters are studying lettering which should go on the side of the trailer. The Journal's artist, Joella Lovvorn, came up with the lettering and design shown here, just to see how folks like her idea. (Journal Photo & Engraving)

County Growing, Tag And Tax Lists Show

Bailey county is growing as indicated in a number of ways such as increase in meter service.

But still another measuring stick was pointed out this week when records of Dess Stafford, county assessor-tax collector, were examined.

These are the two ways that the tax office reflects population growth:

1. Tax lists are increasing.
2. Automobile and truck tag registrations are running considerably ahead of the same time last year.

Mrs. John Moore, assistant in Mrs. Stafford's office, said tax lists are increased "by one page per letter every month."

Lists of taxpayers are recorded alphabetically, and each month an additional page must be added for each additional letter.

In automobile and license tags, the record to date shows 479 more vehicles have been registered this year than at the same time last year, which was pointed to as another measuring stick for population trends. For the county this probably would mean a gain of at least 400 persons since last year. Up to August 10 last year, 5,841 vehicles had been registered at Mrs. Stafford's office. At this same time this year, the number was 6,320.

FEMININE PULCHRITUDE??? — These are the models who brought round after round of laughter as their antics matched their role as stylish ladies in the all-male style show "Fads Too Gay For Pares" during the program following the Farm Bureau Queen contest held at Muleshoe High School audi-

torium Friday night. Pictured left to right are: Harmon "Harmony" Elliott, narrator, Bill "Willemena" Millen, Morris "Morica" McKillip, Lester "Legs" Howard, Ed "Edwina" Little, John "Joan" Gregg, James "Janie" Warren and Jack "Jacqueline" Schuster. The

models wore colors and styles which would be "envied" by the most fashionable woman, mixing such colors as deep purple, reds and yellows in one ensemble, not to mention the accessories with each. Striking bathing beauty, too? (Journal Photo & Engraving)

Outdoor Party Given For Club

The back yard of the A. R. McGuire home was the scene of an outdoor party and salad supper for the Llano Estacado Civic Club members. The yard was decorated with colorful lanterns and the supper was served from tables decorated in the outdoor theme.

Two guests, Joy Tibbets and Kay Kimbrough, were welcomed. A report on the coming style show was given by the co-chairmen, Joaddine Mayhugh and Pat Prater and a treasurer report was given by Sandra Mason.

Yearbooks for the coming club year were distributed. Theme for the year is "With A Song In My Heart".

Attending were: Nancy Coleman, Bobby Fischgrabe, Kris Ford, Jackie McAlpine, Pat Gunter, Joan McGuire, Sandra Mason.

Three Area Art Students Are District Winners In Exhibit

The 30th senatorial district elimination for the state Citation Art Exhibition sponsored by the Democratic Women of Texas, was held in Tulsa Friday, August 16. Four pictures for the scholarship award and two for the merit award were chosen. These pictures are being forwarded to the Jal Ranch, Alvarado, to be judged in the state contest.

The four pictures chosen from the 30th senatorial district to compete in the state scholarship contest were submitted by the following: Pam Lennau, daughter of Mr. and Mrs. Charles Lennau; Patricia Lewis, daughter of Mr. and Mrs. Leon Lewis; Toni Smith, daughter of Mr. and Mrs. Leon Smith; Lazbuddie, and Billy Stanforth III, Floydada.

Two pictures in the state contest on the merit award level are being entered by Mrs. Beverly Edgett, Clarendon, and Mrs. Fred Pendergrass, Olton.

Judges were Olive Vandruff Bugbee, art instructor, Clarendon; Mary Lee Garrett, art instructor, Clovis, N. M.; and Dr. Emilio Caballero, head of the Art Department, West Texas University, Canyon.

The following area art students entered the district competition: Stanley Black, son of Mr. and Mrs. Eugene Black; Beverly Kay Crawford, daughter of Mr. and Mrs. V. O. Crawford; Don Douglass, son of Mr. and Mrs. Ralph Douglas; Jimmy Francis, son of Mr. and Mrs. Holly Francis; Donna Latimer, daughter of Mr. and Mrs. Clyde Latimer; Pam Lennau, daughter of Mr. and Mrs. Charles Lennau; Patricia Lewis, daughter of Mr. and Mrs. Leon Lewis.

Lazbuddie Girl Wins Bake Prize

By MRS. C. A. WATSON
 LAZBUDDIE—Cheryl Ramage Lazbuddie was judged second in the Parmer County Bake Show held recently in Friona. Cheryl will represent the county in the strict bake show in September. The rules prohibit the first place winner, Janis Billingsley, from entering the district show. Janis won the first place award at district last year. Scores were based on baked projects and the 4-H record books. Other girls from Lazbuddie receiving ribbons were Shelia Vaughn, Ann Blackstone, Kathy Vaughn, Janice Miller and Katie Blackstone.

Mr. and Mrs. J. B. Young, Cooper and Steve, Lazbuddie, and Mr. and Mrs. George Washington, Anna and Mark, spent several days last week in the mountains in Colorado.

Mrs. Charlie Gustin had minor surgery in Green Memorial Hospital in Muleshoe Monday.

The Lazbuddie Longhorns had their physicals last week, then set Monday evening to pick up their football equipment and to have a workout from 6 to 8 at their field.

Mr. and Mrs. Rufus Carter were visitors in the Eugene Moran home Wednesday evening. Anna Bradshaw and Jane Ann, Arwell, were Thursday visitors in the Rufus Carter home.

Mr. and Mrs. Charlie Watson and Benny attended the Primitive Baptist Association in Lovington N. M., over the weekend.

Birthday greetings to: Marsha

Three Way School Ready for Opening; Several New Rooms Added to Building

Three Way School will open its 1963-64 school year Sept. 2. Superintendent Archie Sims said Wednesday.

High students are to register Friday, Aug. 29 from 8 a.m. until 11 a.m., and grade pupils will enroll on opening day of school. Buses will operate on the opening day for the first time, and lunch also will be served Sept. 2 for the first time this school year. Price will be 30 cents.

Additions to the school include a library, two additional classrooms, concession room, storage room, music room and a tax office, all of which will be ready for the opening of school. First general assembly is slated for 10 a.m. September 2 and parents are urged by Sims to attend. First home football game will be with Union Friday, Sept. 6.

Faculty is complete, Sims said. Teachers returning are Mae Williams, Fannie Walker, Lorena Carter, Richard Belcher, Darrell Corkery, James Courtney, Coach Sam Mayo, Rosemary Corkery, Iven Prewett, Jack Tharp and Sims.

New teachers in the system will be LaJean Williams, Eloise Prewett, Tommy Winters and Eleanor Dunn. All teachers have bachelor's degrees and three have master's degrees.

Freeman Moore is bus foreman and drivers will be James Courtney, Arvel Hunter, Sam Mayo, Milton Kresse, Darrell Corkery, and Mrs. Freeman Moore. Mrs. Geraldine Courtney is tax assessor. Lunchroom supervisor is Mrs. Florence Fine, assisted by Viola Batteas and Bertha DeHoyas. Custodians will be Arvel and Lavonia Hunter.

Board members are C. J. Feagley, president; Doyle Davis, secretary; Rayford Masten, Leon Duppeler, Chester Petree, Joe Sowder and Jack Furguson.

Before returning to Muleshoe next week, they plan to visit in Madill.

DAUGHTER VISITING
 Mrs. Willie Green and children, Fort Worth, are visiting here in the home of her mother, Mrs. Hertha Walker.

Green is attending a training school in Wichita Falls and will come to Muleshoe during the coming Labor Day holidays. The family will return to Fort Worth with him.

WEEKEND GUESTS
 Guests in the Ramon Martin home over the weekend were Mr. and Mrs. Tommy Smith, Tommy Joe and Tammy Ann, Logan, N.M. and Mr. and Mrs. Edward L. White, Big Spring.

According to the researchers of The Encyclopedia Americana, the expression "toe the mark" stems from the early days of our country when few school children wore shoes and they literally did "toe" along the crack in the flooring.

Give ready-prepared butter-scutch sauce (it comes in small jars) that home touch; add finely diced candied ginger. This is for the oldsters; small fry will prefer the sauce without the ginger.

Home Accidents More Prevalent

Where's the most likely place for a bicycle accident? Are rural children safer than city children, or are boys safer on a bicycle than girls? At what age is a child most likely to have an accident?

National Safety Council studies show surprising aspects in the answers to these questions. Children in rural areas have as many, or more, accidents as city children. A child is more likely to be injured or killed after he's home from school than he is while riding to or from school.

Accidents are most likely to happen on a Saturday and least likely to happen on a Sunday, the NSC says. Boys are far more liable to have accidents; a 42 state survey showed that 86 per cent of the children hurt were males. Most accidents involve children in the 5 to 14 age bracket. Intersections in cities are the most dangerous areas.

Night riding is the most dangerous. While 70 per cent of accidents occur during daylight hours, four out of five deaths occur in the late afternoon or evening. It's children ride bikes at dusk or after dark, even if the bike has a headlight, taillight or reflector. If night riding must be done, for whatever reason, the bike should have proper lighting equipment, the rider should wear light-colored clothing and the bike should have reflective tape showing to the rear.

The Veterans of Foreign Wars has been carrying out a national program of applying reflective tape, which is visible at night from as far as 1,500 feet, to bicycles. The VFW also has been inspecting bikes to check their operating condition and to see that the rider has knowledge of proper riding habits.

Today's Meditation

Read John 19:23-30
When Jesus therefore had received the vinegar, he said, It is finished; and he bowed his head, and gave up the ghost. (John 19:30.)

What was finished? We could mention many things: God's promise of a Savior, the prophecies of the prophets, Jesus' own words, the evil purpose of His enemies, His own physical life on earth.

But Jesus' word, "It is finished," has still deeper meaning. All that is needed for our salvation, all that is needed for our coming to eternal life — that is finished. Christ has done it.

Our right, too, is to live and rejoice because the work has been finished, though it is not something we have done ourselves, but something Christ has finished. Blessed be His name — today and forever!

PRAYER: O Lord, we feel our inability to thank Thee for Thy love expressed to us in Thy Son and in His sacrifice for us. In the silence, help us to ponder the meaning for us of His words "It is finished." In His name we ask. Amen.

THOUGHT FOR THE DAY — Christ does the redeeming; our part is to believe in Him and live our lives for Him. Toivo Rajamaa (Finland) THE UPPER ROOM

TIPS...

FROM THE OFFICE OF HOME DEMONSTRATION AGENT

By JEAN MARTIN BEEF BUYING

If beef is your meat choice, remember that quality and thickness are important for tender eating satisfaction.

Select U. S. choice grade or a comparable quality, and have steak cut at least one inch thick. If the crowd is large, a thick sirloin is one of the better choices. Sirloin yields more meat in relation to bone than other steaks and it's easy to carve into serv-

ing size pieces. Rib steaks are a popular barbecue choice. These cost less than tenderloin, T-bone and club steaks. They're cut from the rib section of the animal.

Blade steaks, cut from the same area of the shoulder as blade chick roast, are less tender than other beef steaks, but are even lower in cost. You may wish to tenderize blade steaks before cooking them.

Don't forget that you can broil a whole chuck roast if you wish, and if you choose a top quality cut as U. S. choice grade or a comparable quality, the arm chick roast is best for the grill because there is less bone and waste.

No witchery is needed to cook at a grill. Experienced cooks

know that heat from coals—not flame — is the right heat for perfect results. Hardwood briquettes are the best choice for long-lasting, even cooking temperatures. Your pile of briquettes is "cooking ready" when briquettes are two-thirds covered with white ash.

VACATIONERS RETURN

Mr. and Mrs. John Black, Vance Lance and Kevin Tucker are home after vacationing at Ruidoso.

While there, they enjoyed a trip to Rainbow Trout Lake and sight-seeing tours to Indian Missions and other points of interest in that part of New Mexico.

 Lost via graduation from that fine squad are such standouts as Gary Schovajsa, Tony Estrada and Johnny Basden — three all-district performers. Schovajsa was the district and area scoring champion and accounted for 1,245 yards rushing in the potent Cat offense.

Others to graduate were Billy Thompson, Gary Fitzgerald, William Bankston, Jim Melton, Robert Conley, Pete Estrada, Richard Eddings and Roger Morris. The 11 returning lettermen include center Tim Chambers, guard Steve Lowe, tackles Robert Bolton and Ricky Phillips, quarterback Ray McKinney and Larry Wood, halfbacks Grover Pilgrum, Quinton Hodge and Larry Coffman, and fullbacks Ronald Sitton and John Dick Carl.

Asked for a pre-season evaluation of prospects, Howle said "depth looks like a big problem with us this year." He added the team was shy on experience in some spots, especially at the end positions. The squad appears well staffed in the backfield, where 7 lettermen return.

Some of the backs gained most of their experience at defense last season, while Carl is switching from a guard post to the full back slot. Sitton was a defensive end starter.

Pilgrum started some games last season and the fleet halfback is expected to be the Wildcats' best break-away threat this season. He played some defensive end last year.

Ray McKinney is back at the quarterback post, and Larry Wood is a possible candidate. Wood, a honorable mention all-district defensive safety last year, might

start as an offensive wingback or end.

Wood, McKinney and tackle Robert Bolton are captains for the 1963 crew.

Bolton and Ricky Phillips give the Cats good strength and experience at the tackle slots, while Lowe should be one of the district's outstanding guards.

Quinton Hodge was a starter at defensive half last year and gained experience as an offensive wingback. Larry Coffman played end on offense last season and halfback on defense.

Some of the top prospects expected from last year's junior varsity include center Bob Ross, guards Charlie Robinson and David Dusek, tackle Haynes Melton and Dywain Houk, ends Richard Funk (who traveled with the varsity some), Jerry Cox and Keith Kiser, quarterback Roy Dale Pierce, and halfback Ricky Miller.

Standout sophomore prospects include center Kenneth Rowland, guards Randy Timson and Dale Thompson, end Jimmy Burk and Carl Odom, full back Charlie Powell, halfbacks Steve Lewis and Larry Schovajsa.

Also shooting for berths will be senior guard Troy Jones, who missed the 1962 season due to injuries, and senior tackle Richard Reese who did not play last year.

terally, Birkelbach explained. The inspector urged farmers and ranchers to report quickly when a screwworm-infested animal is discovered so sterile male flies can be dropped immediately.

The animal found to be harboring screwworms is sprayed by the TAHC to prevent the insects from doing further damage. This, however, is done by a truck-powered spraying unit, also operated by Birkelbach.

He urged cooperation of all farmers and ranchers. "If you are to receive any return for your dollars contributed to the screwworm eradication program, your help is most important," he said. He said the program sponsors depend on the individual farmer and rancher to report location of worm outbreaks and supply the organization with a sample of worms from the wound for certification of screwworms.

an old maid and used to the quietude of just a couple of people around the place, took to her bed under our bed and refused to come out except in cases of extreme emergency. The cats, too, lost five pounds. Hugh took to the open overhead garage door and stayed there until things were once more quiet, and Hobby, who returned only recently from a four-weeks tour somewhere, (he has refused to say where) considered leaving home again. He found peace in the far corner of a closet.

Once I tried to feed them, but got hold of some canned baby food chicken instead. They prefer that their chicken not be pre-chewed.

The pink snackbar where the missus and I usually eat atop high stools went into the garage; we needed the space it occupied. Besides of what possible use would a two-place snackbar be? Instead we stretched the table out to its full capacity and even then we bumped knees.

The little boy decided that I should play ball with him, outside. Didn't seem to remember that a 2-year-old boy can get about so fast or go so many places in so short a time in a mere front yard, but he did so, with the insistent request that I join him for each and every step. (I'll be walking again without a limp in a few weeks.)

And there was the problem of sleeping. The little girl took to her bed frequently, but the boy had apparently decided that sleep was unnecessary, especially in the middle of the night. Water he craved by the gallons, especially between the hours of midnight and 8 a.m. No, I'm exaggerating; they slept well, and at night their poor, exhausted mother toppled into bed behind them, glad that another day was over, I feel certain.

To say the least I realize now why the Good Lord gives children only to the young people who are able to take the washing, ironing, burping, diaper-changing, hand-feeding and noise in stride. In fact, Tommy and Jennie, the young parents, seem to be bearing up remarkably well. Power to them, and to their kind! They make wonderful parents, these young people, and they are going to turn out two very fine citizens for tomorrow's world. We enjoyed their visit a great deal, and then on Sunday our own daughter and her husband came for a visit, so the two-member Martin family expanded it its full capacity for the day, and it was good!

And after everybody had gone home and there were no more toys to step on and no more diapers in the bathroom and no more cans of baby food in the refrigerator, it got pretty dull around Martin Manor in Alfalfa Flats. It was all pretty wonderful while it lasted.

Last year, more than 300 new Rotary clubs were organized in 45 countries, with clubs being formed for the first time in the West African country of Sierra Leone. Before assuming his duties as district governor, Willson attended an eight-day meeting at Lake Placid, N. Y., held to assist Rotary governors to meet the duties of their office.

Elliott is urging all members of the Muleshoe Rotary club to be on hand next Tuesday when Willson speaks to the club.

Make additional applications as needed. Tobacco budworms may occur in damaging numbers late in the season. The maximum recommended dosage should be used to control this pest. DDT resistance to the bollworm and tobacco budworm occurs in several areas of the State. DDT alone may be used to control these pests where resistance does not occur.

The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm discovers a new idea on increasing farm income, his letter this week indicates.

Dear editor:

With so many grave problems facing the thinkers of the nation the farm problem generally has been ignored lately and it was therefore a pleasure to find an article in a newspaper last night getting back to the subject.

According to it, one way for a farmer to increase his dwindling income is to sell farm vacations to over-worked, wound-up city people. Instead of going to the beach or the mountains, a city family relaxes on a farm. The way it works is, a wound-

up city man comes out and spends a week or two in your home, away from the noise of the metropolis, where he can get close to nature, study your folkways, view the scenery, enjoy a simple life, help with the fascinating chores, watch the sun go down, eat three solid meals a day, walk through the countryside, sleep soundly, and awake to the sweet lowing of cows, which generally takes place around daybreak.

Then he pays you for all this, and you take the money and light out on a vacation of your own.

Now I don't know whether this will work or not, but I can testify that I have tried it on a limited basis and my advice to any farmer planning on making money off

of his visitors is to watch his prospective clientele pretty close. I mean, the first thing you want to do is to steer clear of relatives and in-laws. You can do lots of business with them, but the financial gains are awfully meager. It's sort of like the foreign aid business, all you get is goodwill and that stops when the aid does.

If there are any city people who want to vacation on this Johnson grass farm, I want it understood it's cash in advance. I wouldn't be interested in a swap where I'd have to spend a week in the city. I don't need to be wind. I never have wound up.

IT'S THE LAW in Texas

A public service feature of the State Bar of Texas

COURTROOM DRAMA

We've all seen a great many courtroom dramas in the movies, on the stage or on television. Too many, some may say, but there's no denying the drama to be found in the courtroom.

A theater seat or a comfortable chair in front of the TV screen is the closest many of us ever get to a courtroom. It's from such a vantage point that most of our ideas come today about court procedures and how a trial is carried on.

Stage and screen trials normally present only the highlights and take many shortcuts in the interest of brevity and audience appeal. Often an attorney is pictured making objection after objection to the questions and answers as witnesses testify. He makes these objections vehemently, pompously, or sarcastically and often in a voice louder than necessary—according to the demands of his role, and depending upon whether he's on the side of the villain or the hero. The judge then raps for order, and pooms out, "sustained," or "overruled," and those of us in the audience usually are at a loss over why he made his decision.

In a real courtroom it's true that attorneys protest against what's being done or said, as a means of assuring a fair trial, and the judge must allow or disallow each objection.

The principals in the real courtroom are just practicing common sense when they follow the "rules of evidence" in placing facts before the judge and jury. If there's to be a fair trial and a just verdict, there must be true facts.

Evidence in the courtroom may take several forms, but two are most common. Answers to questions from a witness under oath are the best-known type of evidence. Exhibits—written records, letters, "the murder weapon," and other physical objects having to do with the case—are the next most common. "Depositions," or written statements from a witness who for some reason is unable to appear personally in court, are sometimes admitted as evidence in certain cases.

Perhaps you've heard: "A trial is not a contest of learning, skill, or tact between lawyers, but a proceeding to find out the truth according to the law as explained by the judge."

That's about the size of it, and that's the way each of us wants it to be if ever we are placed on trial or taken to court forever so much as a speeding ticket.

WASHINGTON NEWSLETTER FROM SENATOR JOHN TOWER

Committee Banking and Currency Labor and Public Welfare

The special directive issued by Defense Secretary McNamara and based on the so-called "Gesell Report" is completely destructive of the traditional role of the military in our country.

I urged the Defense Department to hold the order in abeyance until the matter is thoroughly investigated by responsible committees of Congress.

The Military establishment of this country was created for the purpose of defense against foreign enemies. It was not created to be used as a tool or device by which domestic political goals might be achieved.

Text of my statement follows: I regard the special directive issued by Defense Secretary McNamara, in which he puts into practice some of the recommendations of the so-called "Gesell Report," as being completely destructive of the traditional role of the military in our country.

The order by Mr. McNamara seeks to use the weight of the military establishment in this country as a vehicle by which the customs and mores of our people are changed to fit the pattern sought by the present Administration.

The military establishment of this country was created for the purpose of defense against foreign enemies. It was not created to be used as a tool or device by which domestic political goals might be achieved.

LETTERS TO THE EDITOR

EDITOR—The Logan Board of Trustees would like to thank you for the excellent coverage you gave our new Ute Dam recently (Bailey County Journal, August 4). We, too, believe that this will soon become one of the favorite vacation spots in New Mexico. We are looking forward to seeing you Texans in our community.

—Florene Fresier, Clerk, Village of Logan, N. M.

The State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

The order, particularly that section allowing economic sanctions to be decreed against off-base business establishments, could well place base commanders in the midst of swirling controversy. It can do nothing but damage military morale and change the traditional friendly attitude of local citizens toward military bases in their community.

I wholeheartedly endorse the call that has been made on the Senate floor for a complete investigation into Mr. McNamara's directive. I would further urge the Defense Department to hold the order in abeyance until completion of the investigation by responsible committees of the Congress.

HEART DEFECTS CORRECTED — Two daughters and a son of Mrs. Myrtle LeRoy of Atlanta, Tex., do a lot of things alike—even to the extent of sharing heart surgery. Peggy, 10, left, and Newman, 14, have a good idea of what life will be like now that their heart defects have been corrected. Sister Mary Jo, 15, center, had the same defect repaired in 1958. All of the operations were performed at the Children's Medical Center in Dallas.

The Senate has approved an additional \$455 million for the Area Redevelopment Administration. This is an agency set up to aid local enterprise in revitalizing communities, counties, areas of high unemployment and low income.

I am co-author of the original Area Redevelopment Act, S. 1, of the 87th Congress which created the Area Redevelopment program.

100 Men Sought For Patrol Duty

AUSTIN — The Texas Department of Public Safety announced today there are approximately 100 vacancies available in the Highway Patrol force for which men between the ages of 21 and 35 may apply by September 14.

Col. Homer Garrison, Jr., DPS director, said applications will be accepted from qualified men for a training school which begins November 19 at the DPS Law Enforcement Academy in Austin. He urged them to submit applications early to insure time for processing.

Three things about the November 19 school will be different than in the past: The school will be the Highway Patrol personnel exclusively; all graduates will be assigned to the Patrol. Every effort will be made to assign them to stations within 150 miles of their present homes. Upon graduation, the new Highway Patrolmen will benefit by a pay increase from the present \$412 per month to \$453.

Garrison listed the following benefits: Two weeks vacation, 12 or more holidays each year as provided by the Legislature, 12 days per year sick leave which may accumulate to a maximum of 36 days, \$10 per month added to salary at the end of each five years to a maximum of 25 years, retirement system based on age and — or years of service, social security benefits, travel expenses when away from stations as prescribed by law, group hospitalization and life insurance plan available, uniforms and the necessary equipment to perform duties furnished.

Earlier this year the House of Representatives defeated the bill authorizing additional funds for the Area Redevelopment Administration. But now the Senate has passed that bill for \$455 million.

The House Banking and Currency Committee has now reported out a bill cutting \$100 million from the amount authorized by the Senate. I am hopeful this bill will be passed in the House and that we can restore as much of that \$100 million as possible.

The Area Redevelopment program has been especially helpful to Texas under plans initiated locally, backed by private capital, the Area Redevelopment Administration is responsible for bringing many projects to Texas; one of the finest brick and tile plants in the world to Malakoff in Henderson County; expansion of a pottery company at Athens in Henderson County; a mineral survey in East Texas; a synthetic marble plant and office furniture plant in Jacksonville, Cherokee County; an industrial park at Clarksville in Red River County; a pickle plant in Detroit, Red River County; an \$11 million tire

Family campers during 1962 in-
 creased so rapidly many of them
 gave up in disgust because they
 could find no place to pitch their
 tents.

This was true not only in Texas
 but across the nation. Also in
 Mexico and Canada.

According to figures recently
 released by the director of national
 parks, camp-use days in 1962
 were recorded at 6,106,030. This
 is an increase of 14 percent over
 the previous year.

This year the peak will go high-
 er.

To date, very few landowners
 have found a way to take advan-
 tage of this new economy. Some
 don't even want to fool with camp-
 ers.

Most of the state parks, national
 forest areas and other public
 lands have provided camp
 grounds and camp sites. These
 places usually provide adequate wa-
 ter, cook-out spots and sanitary
 facilities to make camping easier.

While there is a craze for primi-
 tive camping, most of the campers
 demand some degree of com-
 fort and convenience. They want to
 get back to nature, but they want
 to do it the comfortable way.

They sleep in their station wag-
 ons, or on soft rubber mattresses
 on goo quality cots. They want
 plenty of wood and water handy.
 Some even cook with electricity
 from outlets provided in the pub-
 lic camping areas.

More leisure hours and additional
 facilities, plus a desire to
 "rough it", are responsible for
 this camp-out craze. Summer va-
 cation periods with camp-out
 trips by the Boy Scouts and other
 organizations also help the cause.

Most of the time it's just that
 mom and dad have a desire to
 give their youngsters some of the
 camping thrills they enjoyed as
 children before things got as
 crowded as they now are.

In Texas it would be a good
 project for some civic organiza-
 tion to try to develop camp sites.
 Landowners could be contacted
 and sold on the idea of adding
 a program to their own econ-
 omy. A landowner with a good
 water hole, accessible lake or
 stream and a wooded area might

find it profitable to furnish camp-
 ing facilities.

Garner State Park is a typical
 example of the manner in which
 people will use available facilities.
 It is practically impossible to get
 into this park now unless you've
 made your reservation well in
 advance. Hundreds of persons pitch
 camp there every summer to en-
 joy the park facilities.

Landowners soon discover they
 can make more money than just
 the per day camping fee. With a
 concession they can sell food and
 drinks—also at a profit. The con-
 cession business in most of the
 public areas is a paying propo-
 sition. It can be profitable to the
 landowner, too.

In many instances the campers
 themselves can be blamed for lack
 of interest on the part of land-
 owners. Too many campers are
 willing to leave their litter for
 the landowner.

This is noticeable even in road-
 side parks, where tables, benches,
 fireplaces and trash cans are
 carelessly provided. Too many
 users walk away from their tables
 and leave all the old scraps, sacks
 and cans around to attract flies
 and varmints. And to mar the
 landscape.

Watermelon eaters especially
 are bad about this. They buy a
 cold melon along the way, then
 stop at the first roadside campsite
 and eat the melon. When through
 they'll leave the rind and seeds,
 and an extremely sticky table for
 the next fellow who comes along.

If you love the great outdoors,
 help preserve it in all its finery.

Textbook Fad: Gift-Wrapping!

Brown paper covers for school
 books are as out-of-date as last
 year's lessons.

The latest trend, according to
 stylists of The Papercraft Cor-
 poration, is to cover books with
 colorful giftwrap papers — one
 color for each subject. Some young
 scholars, displaying grown-up
 fashion awareness, are even
 covering their textbooks to match
 their favorite school outfits. Occa-
 sionally, too, it is possible to de-
 termine out-of-school interests by
 a glance at in-school books. Horse
 lovers are going in for horse pa-
 pers, circus-admirers use scenes
 under the big top, while new-to-
 schoolers show an unsurprising
 preference for nursery themes.

Covering books is an admirable
 practice that parents would do
 well to encourage. If not only acts
 as a buffer against the slings and
 arrows of outrageous wear, but
 inspires the owner with a valuable
 sense of property protection.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford
TEXAS PRESS ASSOCIATION

AUSTIN.—Some 700 state employees scattered throughout Texas are getting a new set of bosses. Reason is the creation of the Texas Parks and Wildlife Commission on August 23.

James M. Dellinger, Corpus Christi contractor; A. W. Moursund, Johnson City rancher-attorney; and Chairman Will Odom, Austin geologist and engineer, make up the new three-man Parks and Wildlife Commission. They replace nine commissioners on the old Game and Fish Commission and six on the old Parks Board.

Many state employees, who wondered whom Gov. John Connally would select to head the infant agency, now are worrying whether they themselves will remain on the payroll.

About 72 of the employees are in the Parks Department; some are managers of the state's 50-plus parks system. Another 625 or so are in the field of game and fish. About 100 of these are in the Austin office—the rest out in the field.

Connally says the consolidation will eliminate some duplication of services and effort.

One thing the state is sure to save on is per diems and expenses for the commissioners. The \$25 per diem plus travel, hotel and meals should come to about one-fifth the amount spent in past years on 15 commissioners.

Highway Patrolmen Needed—Colonel Homer Garrison Jr., head of the Department of Public Safety, is looking for 100 additional highway patrolmen.

He asks applicants, aged 31 to 35, to contact him no later than September 14. Recruits will start to school November 19. Pay is \$412 a month while in training, \$453 on graduation.

Department will endeavor to assign the men to stations within 100 miles of their present homes **HOPE TO CUT TRAFFIC DEATHS—COL.** Garrison cast a gloomy eye at his crystal ball, and predicted a possible 31 traffic deaths in Texas over the three-day Labor Day weekend. But he hopes he is wrong!

"There is always a chance that the estimate can be proved too high," Garrison said, "if motorists will put forth a concerted effort to hold the line by driving within safe and legal limits, and remaining especially alert to the added dangers of holiday travel."

DPS has enlisted the aid of the Texas Safety Association, Texas Association of Broadcasters, junior chambers of commerce, Texas Council of Safety Supervisors and the Texas Motor Transportation Association for a Labor Day "Operation Motorcide"—a concerted campaign to call attention to highway dangers.

BOARD MEMBER NAMED—A Taylor attorney-Wilson H. Fox—has been appointed by Attorney General Waggoner Carr to take Carr's place on the School Land Board. Law specifying the change was passed at the attorney general's request.

Governor Connally and Land Commissioner Jerry Sadler will remain on the three-member board, which does a big, and complicated, business, leasing many thousands of acres of state-owned land each year.

Fox is a former district attorney and state representative for Burnet and Williamson counties.

HAWAII CALLS—Many of Texas' state officials now are in Hawaii attending the National Legislative Conference in Honolulu.

Lt. Gov. Preston Smith of Lubbock heads the list.

Others attending are House Speaker Byron Tunnell of Tyler,

Rep. Ben Jarvis of Tyler, Sen. George Parkhouse of Dallas, Rep. Wayne Gibbens of Breckenridge, and Rep. Dick Slack of Pecos.

Also in the group are Bob Johnson, former representative from Dallas and now executive director of the Legislative Council, and his assistant, John T. Potter of Austin.

POPULATION VS ORGANIZATION—Theory that a large population produces a greater volume of business activity than a small population is not 100 per cent true.

This is revealed by the University of Texas' Population Research Center. It surveyed 30 Texas cities for the 20 year period 1940 to 1960.

Cities surveyed were Alpine, Angleton, Aspermont, Boerne, Borger, Bracketville, Burnet, Cotulla, Del Rio, Denton, Eastland, Italy, Killeen, McKinney, Menard, Merkel, Olney, Paris, Port Lavaca, Runge, Rusk, Seagraves, Somerville, Van Alstyne and Willsboro.

Nine of these—Bracketville, Eastland, Hillsboro, Italy, Menard, Rusk, Seagraves, Somerville and Van Alstyne—had a population decline.

Runge, Italy and McKinney all saw a decrease in the number of business organizations. Bracketville and Hillsboro were the only ones that had a decrease in the number of governmental organizations.

Only city that had a decrease in the number of organizations, but grew in population, was Runge. San Diego was the only place that failed to produce additional volunteer associations.

In general, the survey proved that businesses and other organizations multiply even when population growth does not occur. Smaller cities usually support a greater number of organizations per 1,000 population than do the big cities.

HIGH SCHOOL DROPOUT—The growing problem of high school dropouts will be the topic of the annual meeting of the Texas State Committee on Public Education in Austin on September 22.

President of the committee, Mrs. Helen J. Bechtel of Corpus Christi, is inviting all interested persons to attend the one-day session. No registration fee will be charged. Governor Connally has estimated the state rate of dropouts for the next five years as 32.5,000.

OIL ALLOWABLE CUT—Producing ability of Texas oil wells was cut by some 28,617 barrels a day when the Railroad Commission reduced the daily oil allowable from 28.5 per cent in August to 28 per cent for September.

Most of the major oil companies wanted more of a cut. But independent producers succeeded in getting the commission to hold production near the August allowable.

Commissioner Ernest Thompson of Amarillo returned to his office after a long illness and attended the hearing.

SHORT SNORTS—Governor Connally reappointed Dr. John Stockton of Austin, John McKee of Dallas and Hugo H. Loewenstern of Amarillo to the Commission on State and Local Tax Policy. . . Former secretary of state P. Frank Lake has been appointed legal counsel for the State Board of Insurance.

Texas Tech and Texas A & M freshman football teams meet for the first time this season, clashing in a night game at San Angelo Oct. 26.
