

MIDLAND GETS AIR SCHOOL

U. S. Will Protest

Army Officers Will Be Here In Few Days To Arrange For Construction Bombing School

State Department Prepares Objections To Germany For Sinking Of Ship Robin Moor; Berlin Declares Nazis Won't Be Buffaloed

WASHINGTON, June 13—(AP)—Sumner Welles, Undersecretary of State, asserted today that the facts in the sinking of the Robin Moor were beyond dispute and indirectly accused Germany of violating an International Treaty on submarine warfare.

By The Associated Press

German authorities declared bluntly today they would not be "buffaloed" by United States reaction to the sinking of the S. S. Robin Moor—America's first torpedo victim of the war—even as the State Department in Washington prepared a vigorous protest based on evidence that the ship was deliberately sunk by a Nazi U-boat.

"We won't be buffaloed by any American and English discussion concerning the Robin Moor," a Berlin spokesman said.

"Whenever any ship with contraband sails for England we'll shoot at it, whether it is the Robin Moor or anything else."

Acting Secretary of State Sumner Welles yesterday emphasized a statement that the Robin Moor was not carrying war materials. Moreover, the ship was bound for Cape Town, South African—not England.

The German spokesman said that many ships bound for England had already been sunk and that Germany was in no hurry about participating in discussion of the Robin Moor incident.

President Roosevelt was expected to comment on the episode later in the day.

Reports Demands Excessive.

While Germany was thus engaged in grave diplomatic conflict with the United States, Europe vibrated with rumors and reports of a widening breach between the Reich and Soviet Russia.

London heard that Adolf Hitler had made demands of such magnitude on Soviet Premier Joseph V. Stalin that acceptance would virtually end Russia's military hold on both the Baltic and Black Seas.

Dispatches from Helsinki, Finland, under the Russian thumb, quoted well-informed quarters there last night as saying Germany had

WASHINGTON, June 13 (AP)—Demands for stern diplomatic representations to Germany were coupled today with calls for naval protection of American commerce, as a serious Congress studied the official report of the torpedoing of the Robin Moor in the South Atlantic.

Although both friends and foes of the administration's foreign policy took a grave view of the incident, there was no apparent disposition in either camp to consider it in the light of a cause for war. Many said so in as many words.

enlarged "certain" far-reaching demands on the Kremlin.

As this dispatch was being relayed through Germany, from Helsinki to Berne, Switzerland, the telephone connection was suddenly cut—presumably by Nazi censorship.

There were widespread reports, too, that Germany had massed Nazi divisions—roughly 2,000,000 troops—along the Soviet border. Foreign quarters in Ankara, Turkey, said last week a German invasion of Russia was set for mid-June.

The London Times, often officially inspired, commented on the reported turning point in Berlin-Moscow relations with the declaration that the two nations were playing "a dangerous game of bluff and counter bluff."

Will Demand Reparations.

Informed London quarters said discussions between British Ambassador Sir Stafford Cripps, newly returned from Moscow, and the government were "primarily concerned with Russian-German relations."

Some reports said Germany was demanding use of Russia's vast Ukrainian granaries and the passage of German troops through Russia into the Middle East.

On the Middle East war front, fierce Circassian cavalry, trained by the French but now fighting on the side of the British-Free French Allies, were reported to have fought their way into the suburbs of Damascus in the 6-day-old invasion of Syria.

In Washington, informed quarters said the state department's protest over the S.S. Robin Moor would demand not only reparations, but also assurances by the German government that such attacks would not be repeated.

1,107-Barrel Daily Potential Set By Phillips In Abell

By Frank Gardner Oil Editor.

Phillips Petroleum Company No. 2 Sidney Silverman, proving one-quarter mile southwest extension of Simpson sand production in the Abell Ordovician pool of Northern Pecos County, flowed 277.40 barrels of 44.4-gravity oil on six-hour gauge through one-half-inch choke on 2-inch tubing with gas-oil ratio of 831-1. It made 43.26 barrels the first hour, 45.57 the second, 45.58 the third, 45.57 the fourth, 46.92 the fifth and 45.90 the sixth. Production during the last three hours multiplied by eight would reflect a full 24-hour potential of 1,107.12 barrels. The well is bottomed at 5,400 feet in shale and is producing through 60 gun-perforations in 7-inch casing opposite pay sand from 5,367-82 feet.

Magnolia Petroleum Company No. 1 D. P. Gerety, short northwest out-post to the pool which showed only gas in the Simpson and topped the Ellenburger, lower member of the Ordovician, at 6,088 feet, recovered 60 feet of muddy sulphur water cut with oil on 30-minute drillstem test from 6,128-46 feet and is coring ahead below 6,153 feet. Last core, from 6,148-53, returned five feet of dolomite with a sulphur odor.

Farther southeast, Magnolia No. 2 State-Baldwin, on the north end of the pool, ran 30-minute drillstem test from 6,113-47 feet and recovered 270 feet of drilling mud and 990 feet of sulphur water. It had topped the Ellenburger at 6,116 feet. Operators will plug back and test the Sharp sand, found in the lower Simpson.

McKee Coring Ellenburger. Magnolia No. 1 J. F. McKee, in the northeast part of the Abell pool, showed nothing in cores of Ellenburger dolomite from 5,834-55 feet and is coring ahead. It topped the

British Plane Torpedoes German Battleship

LONDON, June 13—(AP)—The Air Ministry announced tonight a German pocket battleship had been hit by a torpedo fired by a British plane off the Norwegian coast early today.

Dallas Expects Crest Of Flood Tonight

DALLAS, June 13—(AP)—Southeast Dallas County braced itself today for what observers felt might prove one of the most severe assaults of the Trinity River, with the crest of the current flood expected to sweep through that area by night.

Free French Complete Encirclement Of Damascus

CAIRO, Egypt, June 13—(AP)—Free French forces have completed the encirclement of Damascus, and apparently are awaiting the outcome of negotiations for peaceful occupation of the city, authoritative sources reported tonight.

Make It A Reality

H. B. Fell Will Address Oil Men At Meeting Here

H. B. Fell, executive vice president of the Independent Petroleum Association of America, will address oil men and business men of West Texas at a dinner at 7:30 p. m., Wednesday, June 25, in the Crystal Ballroom of Hotel Scharbauer.

C. E. Buchner of Tulsa, executive manager of the association, also will speak at the meeting. Midland and Odessa committees of the Association are arranging the session. James Fitzgerald is chairman of the Midland committee.

Fell will discuss affairs of the oil industry from a national viewpoint. He now is in Washington closely observing plans which are being shaped under the new co-ordinator. Oil men believe much interesting information about the set-up for the industry and the part it must play in national defense will be obtained at the session here.

"All Out Defense" Asked By Johnson

Congressman Lyndon Johnson called on citizens of Midland County and the Permian Basin to rally behind President Roosevelt 100 percent for National Defense in an address on the courthouse lawn last night.

Hundreds of citizens heard the address at one of the largest meetings of its kind ever held here. Pleas were made for the purchase of defense bonds and stamps by all citizens and a musical program was enjoyed by the crowd.

"We've gotten underway the greatest navy any nation ever had," the congressman said. "We are uniting rapidly for defense. Wendell Willkie, a patriot and a man before a politician, has come out for united support behind our President. We have a united America behind one leader to do one job—defend America now.

"Your country marches on," he continued. "We've doubled our navy. We are commissioning ships ahead of time. We've all rolled up our sleeves and we are going to do our jobs.

Get Prepared Quickly

"Your Commander-in-Chief has given you leadership that can bring us together in unity. President Roosevelt has the spirit that built America and the spirit that will save America if all will unite and stay together in these crucial times.

"Yes, Mr. President, we're 'yes men' when you take over airplane plants and start strikers back to work. Yes, Mr. President, England must not fall. Get prepared. Get prepared quickly. Be so strong no one can dare touch us.

"The only thing that will keep us out of war is united support behind our chosen leader—President Roosevelt.

"Businessmen, capitalists, industrialists, farmers, laborers and persons from every walk of life must not be concerned with selfish interests in this time of national peril. No tools must be laid down in these dangerous times.

"We'll get the goods to Britain and keep her fighting. No dicta-

Newsboy, Attests Today Is Friday 13th, Loses Entire Sales Earnings

Today is Friday the 13th! You bet it is said the newsboy, who after selling 75 "extra" papers lost all the money he had earned. Other than the luckless newsboy, the citizenry wasn't experiencing bad luck. In fact it received announcement of Midland's biggest news in days—a new bombardment school.

No accidents were reported by hospitals or the police.

Cooperated With Army

Paul McHargue, member of the City Council, vice president of the chamber of commerce and chairman of its national defense committee. He provided much of the information which interested the Army in the Midland airport.

Midland's Efforts To Get Big Bombing School Win Reward

By Bill Collins Manager Midland Chamber of Commerce

And their efforts finally bore fruit. It took countless hours away from their businesses and families, but they never looked back and today's announcement that Midland had been designated as the site for the United States Army Air Corps bombardment and twin-engine flying school was the reward for which city officials, Chamber of Commerce leaders and others had been working for more than a year.

It all started back early in 1940 shortly after plans had been announced by the government to expand its air forces. Patriotic citizens of Midland, ever alert to cooperate to the fullest extent in the Nation's Defense program, immediately offered its fine airport to the Army for full military purposes and offered to cooperate in every way possible in the National Defense program.

Much Data Compiled. Once the offer had been made, Midland leaders left no stone unturned in their effort to have Midland designated as an Air Corps Training Center. Much data has been compiled, several briefs prepared, numerous surveys made, numerous meetings held, and many trips made in the interest of having an Air Corps school located in Midland.

Efforts to have such a school located here were started by the chamber of commerce under the administration of John W. House, immediate past president, who has worked long and hard on the project. House this year has continued to head the project as chairman of the Chamber of Commerce Aeronautics Committee. House has been a top-notch leader in the project and is largely responsible for the success of the venture. He is division superintendent of the Humble Oil & Refining Company.

The City Council, headed by Mayor M. C. Ulmer, has gone the limit in doing everything possible to have the Air Corps school established in Midland. Each and every member of the council has cooperated to the fullest extent. Special council meetings have been held and all cooper-

(See MIDLAND, Page 2)

Congratulations From Odessa

Jim Allisen, President, Midland Chamber of Commerce.

Our sincere and hearty congratulations upon your accomplishment in obtaining Air Corps Training Center for this area.

H. H. Beagle, President Jerry Debenport, Manager Odessa Chamber of Commerce.

WASHINGTON, June 13—(AP)—Congressman R. E. Thomason today announced the War Department had notified him the United States Army Air Corps would establish an advanced bombardment and twin-engine flying school at Midland, Texas.

He said approximately 1,500 officers and men would be stationed in Midland to assist in training 250 aviation cadets at one time.

The congressman from West Texas, who is senior member of the house military affairs committee, said the school would be established upon completion of barracks and other necessary work.

A few minutes later the War Department announced the locations for five new Air Corps schools, including Midland. It said the development is a part of its undertaking to step up training of pilots from 12,000 to 30,000 annually.

The schools will be located at Midland, Victorville, Calif., Sebring, Fla., Lubbock, Texas, and Highley, Ariz.

A site of approximately 860 acres about eight miles west of Midland, including the Midland Municipal Airport, has been acquired for the bombardment and advanced twin-engine training school.

Air Corps officials said an average of about 50 planes would be required for the training of 250 aviation cadets.

In the case of multi-engine training, whether for flight or bombardier instruction, the planes probably will be special multi-engine training ships which the Air Corps already is buying. Some old combat ships, including bombers, might be assigned to the schools as combat units receive new planes from the factories, they said, but because of the extensive training and practice operations of the general headquarters air force it was thought likely the transfer of combat ships to school use would be held to a minimum.

The special multi-engine training planes are slower and lighter than combat ships, they have a lower wing loading, but are more maneuverable. Officers said they served as "transition" ships for aviation cadets who had completed their basic training in operation of single-engine planes, preparing them for a further step in the operation of the faster, heavier and more complicated multi-engine combat planes.

The schools probably will be opened in October or November, when the Air Corps expects to obtain the training rate of 30,000 pilots a year. Plans and specifications have not been completed, and no cost estimates were available. Previously, however, the cost of construction at similar schools has been around \$3,000,000.

TO HEAR TRUSTEE CASE

Seventieth District Court took up a civil case today and was expected to hear a case to remove a school trustee this afternoon.

The trustee case was scheduled yesterday afternoon but was postponed.

GET BOMBARDMENT

A bombardment training squadron would be located at the Midland Air School, said a high ranking officer who asked that his name not be mentioned.

He said actual training of bombardiers would not get underway at Midland before late in the fall. As new bombers come off assembly lines, they will be assigned to combat units over the country and the planes now in use will be sent to Midland, he added.

The officer said as many as 75 bombers might be located at Midland.

Brigadier General G. C. Brant at Randolph field, commander of the Gulf Coast Air Corps Training Center, under whose jurisdiction the new advanced bombardment school will be operated, was delighted with the announcement.

He told enthusiastic Midland friends by long distance telephone that members of his staff would be here in a few days to arrange for starting construction work.

THANKS TO MIDLAND

"Thank the good people of Midland for their splendid cooperation which enables us to build this big advanced twin-engine flying school there," the general said.

In a telegram to The Reporter-

"Yes, Mr. President"

A portion of the large crowd at the all-out patriotic rally held on the courthouse lawn last night is pictured. In the inset, Cong. Lyndon Johnson, major candidate for the U. S. Senate seat, is shown in a characteristic pose during his speech on the south entrance steps.

Johnson Says He Will Attempt To Influence Administration To Let Texas Oil Men Regulate Business

Lyndon Johnson, Texas congressman and candidate for United States Senator, last night told a Midland audience at a political meeting in Hotel Scharbauer Texas needs a senator experienced in defense. His address was broadcast by KRLH and the Texas State Network.

The congressman, who has the backing of President Roosevelt in the race, asserted he would attempt to influence the national administration to let "our Texas commission and our Texas oil industry continue to handle our business."

"Texas needs a senator not because he's a young lawyer or a good showman or the head of a committee and works hard. It needs a senator experienced in defense, who has worked with the President on the army and navy; a senator who can get justice and bring new army and navy camps to Texas and electricity to the farmers of Texas, and old age pensions for our people, and parity for our farmers and influence our administration to let our Texas commission and our Texas oil industry continue to handle our business. Can any one of the other candidates do this?"

At the opening of his political address before a group on the hotel's mezzanine floor, Johnson asked Gerald Mann to correct his recent statement concerning the votes of Johnson and Martin Dies on agriculture parity.

"Johnson and Dies voted 100 per cent for parity payments to farmers," Johnson said. "Everyone should get behind our Commander-in-Chief regardless of his political views," he continued.

"You who voted for Roosevelt are the real yes men of Texas. We yessed Mr. Roosevelt when he sent soldiers to open a California airplane plant. We are Yes Men because we approved parity to farmers. Wendell Wilkie and Frank Knox save President Roosevelt the Yes Sire and 100 per cent support to save America. I'll stand or fall on Roosevelt and unity."

"As Benjamin Franklin said 'If we don't hang together now, we'll hang separately hereafter. I'm proud to say 'Yes, Mr. President, we'll get our tanks and supplies and munitions to Britain. Yes, Mr. President, England must not fall. Yes Mr. President we are working with you."

"In this hour of peril and tragedy, in my country-way of thinking, every man in this nation, as an American citizen, ought to get behind our Commander-in-Chief, regardless of political views."

"We need England as much as England needs us. We need a front line of defense there—among those fighting Britons—the last to survive the onrush of Hitler's legions. Discusses Pensions

"Yes, Mr. President, we are sending an experienced Texas senator to help keep out of war by getting prepared now. All out for Roosevelt. I tell you there is no other way."

"And you can't be all out if you've got to be independent to satisfy some personal following which is financing your campaign. You can't grab a coat-tail when it flashes by, yell me-too, and be an all-out-for-Roosevelt-and-unity man."

"In this critical hour, the voters want a man who can say 'Yes' to President Roosevelt. They want a man to whom President Roosevelt can and will say 'Yes.'"

"Turning to a discussion of old-age pensions, Johnson said: 'Your President and your Congress will give you one dollar for every dollar your governor can raise for you down in Austin. Your governor has a big job at Austin if he does the money.'

"On June 29 in Washington I will sit down with President Roosevelt, at his request, and help him work out a plan to take old-age pensions out of politics."

"Let's elect the most experienced man you can find to help keep Hitler away from America."

4-H Club Has Morning Picnic

A morning picnic was held by Valley View Girls 4-H Club at Cloverdale Thursday.

Games, wading, and play on swings, slides and other Park equipment were recreation for the group.

Midland Firemen Will Attend Permian Basin Convention Tomorrow

Midland's delegation to the state firemen's convention, held in Wichita Falls, returned last night and another group will leave tomorrow for a convention of the Permian Basin Fireman's Association at Fort Stockton.

Midland boosted the candidacy of Newel Beauchamp, Jr. as state mascot but four-year-old James Gilliam of Belton was chosen. Beauchamp is mascot of Midland and the Permian Basin Firemen's association.

Mr. and Mrs. T. A. Cole, Mr. and Mrs. N. B. Beauchamp, and Newel, Mr. and Mrs. Doyle Fitzgerald and son, and Mr. and Mrs. G. D. Fuller attend the state convale.

Defense fighting against incendiary fires was the theme of the meeting. Corpus Christi was chosen as site for the 1942 meeting. Three thousand persons attended.

Midland's pumper team will compete in contests at Fort Stockton. The team is composed of O. E. Reed, Houston Oney, J. T. Walker, Bill Klatt, Bill Stanley, and Marvin Beauchamp.

Fire Chief Luther Tidwell and Fire Inspector Frank Prothro, will go to Fort Stockton.

EASTERN AUTHORITIES ON COTTON PROGRAM

AUSTIN, June 13—(AP)—Agriculture authorities from Maine and Washington, D.C., will appear on the program of the Cotton Research Congress in Waco, June 26-28.

Burriss C. Jackson of Hillsboro, chairman of the Texas statewide cotton committee, announced here yesterday speakers would include Henry C. Knight of the Department of Agriculture and C. C. Farrington of the Commodities Credit Corporation, both of Washington, and B. S. Zalkind of Bideford, Maine.

France Signals Let-Up In Syria

LONDON, June 13—(AP)—The French government has informed Britain it would "avoid taking any action which might aggravate or spread the conflict" in Syria and Lebanon.

The Vichy regime, in a note dated June 8, asserted, however, that the Allied attack on the French-mandated territories "risks producing the gravest consequences" and that "the French government is determined to defend its territory and possessions, wherever they may be attacked, with all means at its disposal."

The British government, expressing pleasure at the French assurance, replied tartly that its action in Syria was based on "facts" and that "his majesty's government can not be expected to enter into argument with Marshal Petain's government on the subject of the meaning of the word 'collaboration.'"

The British government, expressing pleasure at the French assurance, replied tartly that its action in Syria was based on "facts" and that "his majesty's government can not be expected to enter into argument with Marshal Petain's government on the subject of the meaning of the word 'collaboration.'"

Rulers With The Morals Of Kidnapers

The world, during the last 30 years, has grown callous on its conscience.

We are no longer shocked at things which would have horrified our grandfathers. It would take a book (and a good book, too) to explore all the reasons. War, like any cause that makes men believe that the end justifies the means, breaks down morality. So does revolution.

Perhaps a nation has no morals, properly speaking. But its leaders have, or should have, and what they do unfortunately must pass at any given time for the morals of their people. Usually the morals of the people, individually, are better than national morals, or there couldn't be any organized society at all.

Sinking of helpless freight ships, bombing of defenseless civilians, women and little children—all these we have been taught to accept. But there is one phase of current immorality that nobody seems to notice at all. That is the growing practice of making a man's innocent family suffer for what he has done, or using the threat of such reprisals as a club over him. We think of kidnaping as the lowest form of crime because the suffering of a victim is paraded before his loved ones to compel him to bow to the will of the kidnaper. Morality can sink no lower.

Yet it has become established practice in Europe. Russia has the dubious honor of having pioneered the field. No one will ever know how many innocent people have been slain because relatives displeased the regime. How many have been held in line by fear of what might happen to their innocent dear ones? In Germany the same techniques have been applied, with a long arm that reaches across the Atlantic. How many Germans and Italians in America, North and South, have been coerced into support of the axis because the threats and fear of what may happen to their relatives in the old country if they do not fall in line?

Now in Norway it is announced that the property of families of all men who aided the British in their raid on the Lofoten Islands, or who went away with them, will be burned. "Reprisals!" cries the Nazi newspaper in Norway, Fritt Folk. Let the innocent be punished for the "sins" of the "guilty"!

Until leaders arise who have better morals than kidnapers, how shall Europe have peace?

Midland ...

(Continued from page 1)

ration possible has been extended Army officials. Mayor Ulmer, a past president and director of the Chamber of Commerce, has been a leader in the airport program. The Municipal Airport has continued to be improved with the view in mind of some day having a large Army air school located there.

Other members of the city council, all of whom have had an important part in the project, are: R. M. Barron, Paul McHargue, Barney Great-house, Tom Sealy and D. H. Roetter.

McHargue, also a vice-president of the Midland Chamber of Commerce and chairman of the organization's National Defense Committee, worked tirelessly on the project in the face of what sometimes seemed insurmountable odds, but never once did he look back and today he is one of the happiest men in Midland.

Another man who has this year worked hard and tirelessly on the airport project is Jim Allison, president of the Chamber of Commerce, who has kept the committees going and has lent every effort to get the school.

To the late Sam Sloan, founder of Midland's Sloan Field Airport and an early day aviation leader in West Texas, should go much credit for the joy that Midland citizens are today experiencing as a result of the school being located here.

Harvey Sloan of Midland and Evansville, Indiana, who until last year owned and operated the Midland airport, is another who deserves much praise in regard to air corps expansion in Midland. Harvey Sloan laid the groundwork which resulted in today's announcement by air corps officials. A telegram was this morning dispatched to Sloan thanking him for his untiring efforts.

Clarence Scharbauer has of course been a leader in the project—making numerous contacts and cooperating to the fullest extent in all matters pertaining to the airport.

Members of the Aeronautics Committee of the chamber of commerce are: House, chairman; H. J. Kemler, George McEntyre, Jr., George Bennett, Ben Nysewander, Robert W. Patterson, Ralph Cooley, M. T. Smith, William Simpson, E. M. Barron, Tom Sealy, James Fitzgerald, Jr., and M. C. Ulmer.

Dr. W. E. Ryan was chairman of the committee last year when the project was started.

Members of the national defense committee of which McHargue is chairman are: V. E. Cottingham, J. W. Thomas, C. V. Lyman, J. Louis

Hargrave Rites To Be In San Antonio

The body of Mrs. Allan Hargrave, 48, who died at her home here yesterday, was carried overland to San Antonio today for funeral services and burial. Rites are this afternoon.

Mrs. Hargrave died following a long illness. She is survived by the husband, two sons and one daughter.

# Banner Club Has Steak Barbecue At Cloverdale

Banner Club entertained with a steak barbecue at Cloverdale Park, Thursday night.

After the supper had been served, "kid games" were played and contests held.

Present were: Messrs. and Mmes. Paul Cole, John Godwin, C. A. Brown, L. V. Bassham, L. A. Ravan, O. V. Kelley, C. V. Shelton, C. H. Brown, D. E. Tuttle, Mrs. W. C. Ravan, Miss Pauline Robison, Miss Bessie Mae Robison, Miss Patsy Sweatte, Miss Wilene Norman, Vinton Newberry, Wendell La Roque, Gene Smyers, T. J. Robison, and Temple Harris.

# Air School . . .

(Continued from page 1)

Ellenburger high structurally at 5,808 feet.

Sinclair-Prairie Oil Company No. 1 E. E. Grove, east outpost to the Abell pool, is drilling Simpson lime and shale at 6,156 feet.

Magnolia No. 1 Bowman, short southeast extension try, is drilling at 4,810 feet in lime believed to be Simpson.

New location for the Abell pool has been staked by Magnolia as No. 1-A State-Clint Myrick of Midland. It is on the 137.3-acre State-Myrick lease in scrap file 13,974 and location falls 85.3 feet from the north and south lines of lease and 266.9 feet east of the southwest corner of section 24, block 9, H.&G. N. survey. The test, slated to start operations Thursday, is an 818.3-foot north offset to Sinclair-Prairie No. 1 Daley, large Simpson producer, and a south offset to Magnolia-Stanolind No. 3 Tox-Mex-Mo-Kee, now digging cellar and pits.

Stanolind No. 1 Conry-Davis Unit, test several miles east of Abell production, swabbed dry after acidizing with 1,000 gallons in Ellenburger dolomite from 4,830-95 feet and is shut down for orders. Its north offset, Stanolind No. 1 Meyer-Logan unit, showed 1,530 feet of drilling mud and 610 feet of salt water on 30-minute drillstem test from 2,353 to 2,515 feet and is drilling ahead past 2,517 in lime and anhydrite. It is said the be running low to No. 1 Conry-Davis on Permian markers.

Murphy Swabbing. After a 15-hour shutdown period while swab was fished out, fluid rose 600 feet to within 1,400 feet of the surface in the Texas Company No. 1 Murphy, West Central Terry County prospect. Swabbing was resumed at 4 p.m. yesterday and fluid had been lowered to 4,275 feet by 4 a.m. today. A one-hour shutdown from 4 to 5 a.m. showed rise of 250 ft. or one barrel of salt water carrying a rainbow of oil and a little gas. The water is thought to be circulating fluid. Swabbing is again in progress. Total depth of the well is 5,275 feet in dolomite.

Sam G. Dunn No. 1 R. L. Moore, one mile west and one location north of the discovery well in the Owby area of Southeastern Yoakum County, is drilling below 3,900 feet in anhydrite. It is a "tight" well and no formation markers have been released.

In Northwestern Andrews County, Mascho Oil Company of Midland No. 1 M. M. Fisher remains shut down for orders at 4,602 feet, with hole nearly full of sulphur water. The same firm's No. 1 Texaco-University is drilling at 4,030 feet in anhydrite. Magnolia No. 1-20-38 B. B. Ralph is drilling in lime at 4,595 feet.

Mascho No. 1 Gulf-University, Southern Andrews test midway between the Emma and Fuhrman pools, topped solid lime at 4,020 feet, datum of minus 926, and is drilling ahead past 4,130 feet in lime. The deepest test yet drilled in Andrews, Phillips No. 1 University-Andrews, is coring below 8,368 feet in an unreported formation. Deep Wildcats.

Amerada Petroleum Corporation No. 1-RA University, scheduled Ordovician test in Southeastern Reagan County, is drilling at 7,008 feet in lime and shale, probably of Pennsylvanian age.

In Northeastern Upton, Plymouth Oil Company No. 1 D. L. Alford et al, also an Ordovician test, is drilling at 3,318 feet in anhydrite and sand.

Magnolia No. 20 State-Walton, deep Permian prospect in Winkler County, is coring below 1,934 feet in lime. Last coring have borne oil staining and slight porosity.

Redmond, Greene et al No. 1 Iowa Realty Trust, Northern Pecos Ordovician test north of the Heiner area, is drilling lime at 2,520 feet.

Stanolind No. 1 Spencer-Evans, lime reef test west of the north end of the Estes pool in Ward County, is drilling red beds at 1,810 feet.

# Westside Club Elects Delegate And New Member

Mrs. S. L. Alexander was elected delegate to the Short Course at A&M in a meeting of the Westside Home Demonstration Club with Mrs. Herbert King, Thursday.

Mrs. I. O. Sturkie was elected a new member of the club.

Miss Alpha Lynn, county home demonstration agent, presented demonstration on milk dishes and talked on land use planning.

Mrs. King was in charge of recreation for the group and two amusing games were played.

Present were: Mmes. H. L. Albrecht, S. L. Alexander, Jim W. Baker, W. R. Tillman, J. D. Webb, V. L. Pezzell, J. H. Smith, Miss Lynn, her mother, Mrs. Lynn of Denton, Mrs. Sturkie, and the hostesses.

# Miss Virginia Droppelman Becomes Bride Of Fount T. Armstrong In Rites Read At Home Of Parents

Couple Leaves On Trip West After Informal Reception

Moving the date of their wedding forward two days Miss Virginia Droppelman, daughter of Mr. and Mrs. Pete Droppelman, and Fount T. Armstrong, son of Mr. and Mrs. F. B. Armstrong, were married at the home of the bride's parents, 605 N. Marienfeld, Thursday afternoon at 5:30 o'clock.

Only a small group of relatives and friends of the couple was present for the single ring service which was read by the Rev. Matthew S. Schafle of the Odessa Catholic Church.

Mrs. Yates Brown presented the nuptial music, playing "I Love You Truly" before the entrance of the bride party. After the wedding march, vows were repeated to the muted strains of "Oh Promise Me" and "Because" was the selection following the service.

The rites were read before a window flanked with roses as an altar setting. Carnations were used in floral arrangements elsewhere in the room.

Mrs. L. W. Taylor, sister of the bride, was her only attendant, and John O. Nobles Jr. was best man. Bride Dressed In White.

The bride's costume was of white crepe Romaine, designed with bracelet length sleeves, full skirt, and fitted bodice. A white felt picture hat edged with horsehair braid, white accessories, and her mother's pearls worn in keeping with tradition, completed the ensemble. She carried a bouquet of red carnations.

Mrs. Taylor wore a navy blue sheer suit with white trim and white accessories and a rose-gladiola corsage.

The mother of the bride and of the groom also wore gladiola corsages.

An informal reception followed the wedding.

The refreshment table was centered with a miniature wedding scene of a bridal couple and minister within an archway of blue flowers. The white wedding cake was decorated in pink. Mrs. Taylor, Miss Nell Ruth Bedford and Mrs. R. A. Doran presided in the dining room.

After the reception, Mr. and Mrs. Armstrong left by automobile for a three-weeks wedding trip during which they will visit Los Angeles and San Francisco, California, and

# LaVerne Wingo Is Honored With Party On Birthday

Mrs. Walter Wingo honored her daughter, La Verne, on her sixth birthday anniversary with a party at their home, 508 S. Lorahe, Thursday afternoon from 3 o'clock until 5.

Games were played and gifts opened.

In deference to Flag Week, the party was a red, white, and blue one.

The birthday cake had blue candles and blue and red letters spelled out "Happy Birthday" on it. Guests sang "Happy Birthday."

Children present were: The honoree, John Charles Godwin, Charles Crites, Edna May Barron, Don Frazier, Ralph Murphy, Ann Jones, Helen Golladay, David McPherson, Frank Smith, Weldon Smith, Lakie Lester, Eddie Mae Hamlin, Tommie Booth, and Geraldine Smith.

Mrs. L. L. Jones assisted Mrs. Wingo in entertaining.

# COUNTY CLERK ISSUES MARRIAGE LICENSES

The county clerk's office issued two marriage licenses yesterday: Wesley Prine and Ruby Myrle Burris and Fount Thomas Armstrong and Virginia Droppelman.

return by way of Grand Canyon and Boulder Dam.

The bride traveled in a rose-and-blue suit with rose accessories.

The bridegroom is a graduate of Midland High School. He later attended Chillicothe Business College at Chillicothe, Missouri, and Texas Technological College at Lubbock. For the past four years he has been with the Gulf Oil Corporation.

Mrs. Armstrong was graduated from Midland High School with the class of 1941. During her school years, she was active in musical circles, being a member of the choral club. She served on the staff of "Catalco," the school year book.

The couple will live in Odessa.

Present for the wedding were: Mr. and Mrs. F. B. Armstrong, Mr. and Mrs. Droppelman, Mr. and Mrs. H. G. Bedford, Miss Nell Ruth Bedford, Mrs. Mary Lou Snodgrass, Mrs. Barbara Wall, and Mrs. R. A. Doran.

# Goebbels Says England Will Be Another Crete

BERLIN, June 13—(AP)—Propaganda Minister Paul Joseph Goebbels, in an article appearing in an editorial of the Voelkischer Beobachter which later was confiscated, discussed today the possibilities of invasion of England and indicated the island of Crete was an example of what might happen to the island of Britain.

"If today Crete events are hotly debated in England, one need merely to substitute the word England for Crete to understand what is meant," Goebbels wrote.

There was a veiled suggestion that surprising developments might be in store for England within two months.

# TEACHERS HEAR FORECAST ON MODERN EDUCATION

AUSTIN, June 13—(AP)—A forecast that motion pictures and radio education would drastically change classroom methods or possibly eliminate the classroom was heard today by 500 teachers attending the first Texas conference on radio and visual education.

The city-county health unit today issued a statement that Midland's packing plant maintained the highest of sanitary regulations.

The plant is inspected regularly by health officials.

# O'Daniel Signs Bill For Bigger Pensions

AUSTIN, June 13—(AP)—The 47th legislature, which has made the old folks happy by averting pension cuts and boosting payments, today appeared to be threatening the record-smashing endurance performance of its predecessor.

If the lawmakers remain in session but 13 days longer, they will crack the 163-day record of the 46th general assembly which broke the previous session's mark by 20 days.

Governor W. Lee O'Daniel last night signed a bill making available \$1,750,000 monthly June, July and August for old age pensions to avert a slash due to lack of funds.

The money will supplement revenues from the recently-enacted \$22,000,000 multi-leveled tax bill with \$600,000 in accumulated insurance company taxes held in a suspense account. The average June pension payment thereby will be increased, it was estimated from \$9.60 to \$18.60.

# OPM Urges Production Facilities Be Expanded

WASHINGTON, June 13—(AP)—The Office of Production Management recommended today that facilities for producing magnesium be expanded to a capacity of 400,000,000 pounds annually. The present rate is 300,000,000 pounds.

8:00 p.m. Friday—Young People's service.

"School will be established as soon as quarters can be built which will probably consume about 90 days. Am greatly pleased with this outcome of our efforts."

Complete plans for the school have been worked out by Major L. H. Hewitt, district Army engineer at Galveston. Soil surveys and topography work have been completed. Test water wells have been drilled by the city at the airport to be sure water is adequate.

The school will need a minimum of 1700 gallons of water a minute and plans were drawn on that scale. The school will be complete with its hangars, water system, utilities and even its own sewage disposal plant.

The air corps sought for weeks to determine the best possible location for the school. Deals have been made with land owners in this area to lease large tracts for bombing targets to give fliers adequate training.

General Brant recently explained to Midland citizens the air corps program and asserted it soon hopes to turn out 30,000 pilots a year, compared with 800 pilots annually two years ago.

A man must not only be able to fly, the general explained, but he must be able to shoot and bomb accurately.

Plans for construction work on the school are well underway. Arrangements have been made with the Texas and Pacific railway for construction of a spur to the site of the big air corps unit on the western side of the airport. Utility companies have made plans to extend their facilities to the site and are ready to go ahead with the development. A large portion of the engineering has been worked out and Army officers will be able in a few days to announce locations of buildings and start work.

Funds for the school have been appropriated by Congress and there should be no delay in the work. The announcement was received here with great enthusiasm. An extra edition was published by The Reporter-Telegram and soon Midland was talking of the Army Air Corps development here. Business men gathered in groups to discuss the plans and many telephone calls of congratulation were received by city officials and chamber of commerce leaders for their untiring efforts to aid the Army in its task.

# McKENNEY ON BRIDGE

Answers to yesterday's Flag Week questions follow:

- The official name for the American flag is "The Flag of the United States of America."
- The present American flag was born June 14, 1777.
- The star in the flag which stands for Texas, is the fourth star in the fourth row, Texas being the 28th state to enter the union.
- The eight special days for officially flying the flag are:
  - Lincoln's birthday, Feb. 12.
  - Washington's birthday, Feb. 22.
  - Mother's day, 2nd Sunday May.
  - Memorial Day, May 30.
  - Flag Day, June 14.
  - Independence Day, July 4.
  - Labor Day, 1st. Monday Sept.

8. Armistice Day, Nov. 11.  
 5. The "church pennant" is the only flag ever flown above the American flag. Flown during religious service aboard a Navy ship on Sunday morning.  
 6. The only three buildings that may officially fly, day and night, year in and year out, the American flag are the Senate office building, the House of Representatives office building and the Capitol.  
 7. A passing flag should be saluted by a woman placing her right hand over her heart; by a man placing hat over head; by military personnel and Boy Scouts saluting.  
 8. The American flag is never flown upside down, except as a signal of distress, usually by ships at sea.  
 9. The flag is flown over the White House only when the President is in Washington.  
 10. A soiled or worn-out flag should be buried or burned. The flag should never touch the ground.  
 The Scouts and Mustangs have

By William E. McKenney  
 America's Card Authority.

One of the most brilliant hands I have seen this year was played by Edward Marcus of Boston. And old-time whist player Marcus sometimes gives the impression of seeing through the backs of the cards, for he has executed many extraordinary coups like that in today's hand.

South trumped the opening lead, cashed the ace of spades and led a small spade to ruff with the seven of hearts. The fall of West's king indicated the spade split.

Declarer's problem at this point is certainly puzzling. He can win five trump tricks plus the spade ruff, also two top spades, but that still leaves him two tricks short. A complete cross-ruff of spades and clubs would yield eight trump tricks plus the spade ace, but he could then never cash the queen of spades.

From the bidding Marcus guessed that West held a singleton diamond and that it was an honor. He hoped it was the blank ace, and that West held all the top clubs.

On this assumption he found an extraordinary way to make his contract. He cashed the king of hearts, then the queen, overtaking with the ace, and pulled all of West's trumps, leaving himself also void. Dummy discarded two diamonds. Then South led the three of diamonds.

It must have been a thrill to see West play the ace! Now West was left nothing but clubs. He could cash two tops and then let dummy make the jack, or he could lead low and force the jack at once. But in either event the jack of clubs would make the tenth trick, together with two top spades, the spade ruff, five hearts, and the king of diamonds.

## Names Brunette For Optometrist's Death

COMMERCE, June 13—(AP)—A murder charge was filed yesterday against Mrs. Upton G. Sayle, pretty brunette in connection with the death of her husband, Dr. Upton G. Sayle, 31, optometrist, who succumbed to gunshot wounds suffered in a garage apartment back of his office Wednesday night.

Mrs. Sayle was released under \$3,500 bond. The complaint was filed by the dead man's uncle, Major Frank R. Campbell, commanding officer of the 42nd Battalion of the Texas Defense Guard.

Sayle's brother, Dr. Frank Sayle, said he found his mortally wounded brother after Mrs. Sayle ran down stairs screaming, "Upton has shot himself."

## MUSTANG BOYS' CLUB COLUMN

Answers to yesterday's Flag Week questions follow:

- The official name for the American flag is "The Flag of the United States of America."
- The present American flag was born June 14, 1777.
- The star in the flag which stands for Texas, is the fourth star in the fourth row, Texas being the 28th state to enter the union.
- The eight special days for officially flying the flag are:
  - Lincoln's birthday, Feb. 12.
  - Washington's birthday, Feb. 22.
  - Mother's day, 2nd Sunday May.
  - Memorial Day, May 30.
  - Flag Day, June 14.
  - Independence Day, July 4.
  - Labor Day, 1st. Monday Sept.

8. Armistice Day, Nov. 11.  
 5. The "church pennant" is the only flag ever flown above the American flag. Flown during religious service aboard a Navy ship on Sunday morning.  
 6. The only three buildings that may officially fly, day and night, year in and year out, the American flag are the Senate office building, the House of Representatives office building and the Capitol.  
 7. A passing flag should be saluted by a woman placing her right hand over her heart; by a man placing hat over head; by military personnel and Boy Scouts saluting.  
 8. The American flag is never flown upside down, except as a signal of distress, usually by ships at sea.  
 9. The flag is flown over the White House only when the President is in Washington.  
 10. A soiled or worn-out flag should be buried or burned. The flag should never touch the ground.  
 The Scouts and Mustangs have

### FAMOUS LINDBERGH DRIVE CHANGED TO AVON AVENUE

CHARLOTTE, N. C., June 13—(AP)—It was Avon Avenue today instead of Lindbergh Drive.

Mrs. Sidney Astor, property owner of the street, wrote to the city manager, requesting the change. She said in her letter that "judging from the man's (Charles A. Lindbergh) stand in regard to his country he does not deserve to have a street in Charlotte named for him."

She is spending this week cleaning and repairing their club rooms, replacing broken glass and tidying storage spaces.

The Mustangs enjoyed lively water sports this morning and will have a soft ball game with The Texas Company at 6 today. Hope to have a game with the Latin-Americans tomorrow morning. Remember Tuesday June 17, 10 a.m., Yucca Theatre.

—NUFF SED

## German Seaman Prevented SOS

RECIFE, Brazil, June 13—(AP)—A survivor of the sunken United States freighter Robin Moor declared today that armed German seaman occupied the 4,999-ton ship and seized her radio to prevent her from flashing an SOS before a torpedo from a German submarine sent her to the bottom.

The Robin Moor dipped under the waves of the South Atlantic 23 minutes after the captain had ordered passengers and crew to the lifeboats in the early morning of May 21, the survivors related.

He said there was no trace of panic as the ship's company, men, women and one child, took to the lifeboats. He expressed special ad-

## Holcomb Takes Job With Farm Security

Calvin Holcomb, DHIA inspector for Midland and surrounding counties, has accepted a position with the Farm Security Administration and was sent to Anson.

He served as inspector for the Dairy Herd Improvement Association in Midland for more than a year.

Holcomb is an agriculture graduate of Texas Technological College.

He is a devoted father and a devoted admirer for the child, a fearless four-year-old boy in the same lifeboat with the women.

## TYLER OIL MAN DIES FROM CAR INJURIES

TAYLOR, June 13—(AP)—W. S. Musselwhite, Tyler oil man, died in a hospital here last night of injuries suffered in an automobile accident and his body was taken to Tyler for burial.

C. A. Prather, also of Tyler, was injured in the same accident.

## RAINS AND HAIL DESTROY LARGE COTTON ACREAGE

MEXICO CITY, June 13—(AP)—The Ministry of Agriculture reports that more than 12,000 acres of cotton in the Lower California and Chihuahua and Tamaulipas states have been destroyed or damaged seriously by heavy rains and hail.

## Crane To Borrow \$40,000 For Park

CRANE, June 13—(Special)—The Crane county commissioner's court levied a tax of 50 on \$100 property valuation and signed notes to borrow \$40,000 from the Gulf Oil Corporation for the purpose of building a park. Commissioner T. C. Barnsley announced.

Negotiations are under way to purchase property owned by Mrs. U. P. Pearson for the park site. It is five blocks from the main street and one block west of the football field.

Work on the park will be started as soon as arrangements can be made, Barnsley said. A part of the work will be done by WPA.

## Capitol Predicts Arnold Or Biddle For Jackson Job

WASHINGTON, June 13—(AP)—Capitol Hill heard today that President Roosevelt's choice of a successor to Attorney General Robert H. Jackson might lie between Solicitor General Francis Biddle and Thurman W. Arnold, in charge of the justice department's anti-trust division.

Jackson was nominated to the Supreme Court yesterday when the President also elevated Associate Justice Harlan F. Stone to be Chief Justice succeeding Charles Evans Hughes, and named Senator James Francis Byers (D-SC) to succeed James Clark McReynolds.

The Senate, which confirmed Byrnes' appointment in 11 minutes, arranged to hear any protests that might develop against the Stone and Jackson nominations. Indications were that they would win final approval within 10 days.

Meanwhile, reports circulated that the comparatively youthful Biddle had the "inside track" for the attorney generalship, with Charles Fahy, his assistant, regarded as likely to step into his present chief's job.

There was strong support in Congress, however, for Arnold, whose "trust-busting" activities as assistant attorney general have attracted the attention of such administration backers as Senator Norris (Ind-Neb).

A complaint charging murder was filed in justice court today against Dobbie, who was later released on \$1500 bond.

## British Cause Great Damage In Air Raids

LONDON, June 13—(AP)—Many an industrial building was blown into the sky and numerous fires were started last night in Germany's great manufacturing region, the Ruhr Valley, by a large force of British bombers in the heaviest raid of the war on that region, it was claimed officially today.

The blasting, fiery success cost the RAF six planes, for Arnold, whose "trust-busting" activities as assistant attorney general have attracted the attention of such administration backers as Senator Norris (Ind-Neb).

Within a 50-mile radius in the Ruhr area about three-fourths of Germany's whole coal output is mined and about the same proportion of her iron and steel industry is there.

## FOOTSTEPS IN THE FOG

BY ELINORE COWAN STONE

YESTERDAY: Stephan is injured. Deborah's family physician asks to bring him to her home. Stephan is unconscious. A sharp-edged man, whom the doctor identifies as a Federal agent, Hilton, accompanies the party. After long hours of waiting, Deborah hears Hilton talking to reporters. "He was trapped with information that was fatally wounded," Deborah faints.

### THE FOG LIFTS

CHAPTER XII  
 WHEN Deborah struggled back to consciousness, Bridgie, haggard from her long vigil, was sitting beside her bed.

"Sure, that's right!" Bridgie applauded as Deborah tried to sit up. "Brace up now, darling, like the brave girl you are."

Yes, Deborah remembered wretchedly, she would need all her courage. . . . Strange that Bridgie could smile like that!

"Here's Mr. Hilton wantin' a word wid ye," Bridgie was going on cheerfully. "Whist! he's here, I'll fetch a cup o' tea to bring the doctor intil yer chokes against the doctor laves ye in to see himself." She went out as Mr. Hilton entered.

"Now that's more like it!" He smiled at Deborah. "You gave me quite a jolt, Miss Lovett. It was a minute or two before it occurred to me that maybe my last few words had given you an unnecessary shock."

"Why—but you're smiling!" Deborah faltered. "Bridgie was smiling. . . . Do you mean that he's not—that he's all right?"

"Well, hardly that yet. I have an idea that the room is still traveling around his bed at a hand's-compass clip. But in a few days he'll be ready to whip his weight in wildcats again."

"But I—still don't understand," Deborah said helplessly. "Mr. Hilton, what did happen last night?"

"Plenty, Miss Lovett." He pulled a newspaper from his pocket, began to read.

"A SMALL Cape Cod fishing town was the scene last night of an incident which wrote 'Finis' to one of the most fantastic careers of a decade of international plot and counterplot. It was the career of a man identified only as 'Mr. X,' because out of the dozens of names he used, it is impossible to select his real one."

"When trapped last night by intelligence agents with documents involving important United States defense secrets in his possession, he committed suicide rather than—"

"But," Deborah asked, still helplessly, "what has all that to do with Stephan?"

## Personals

Mrs. Marvin Hedges underwent a tonsillectomy today at Ryan Hospital.

Mrs. Clifford Lockhart and son were able to go home today from Ryan Hospital.

The conditions of Joe Roberts, who underwent an appendectomy at Ryan Hospital, is reported "satisfactory" today.

Mr. and Mrs. Edward Spence of Los Angeles, Calif., were overnight guests of Mr. and Mrs. Speck Hurley last night. The couple was returning from a two-weeks vacation in Texas. Spence is with Lockheed Aircraft.

Mr. and Mrs. Jack Thames are leaving today for San Angelo for the weekend.

Mr. and Mrs. C. A. Shoemaker and daughter of Austin have left Midland after a visit with her mother, Mrs. J. A. Mascho and family.

Miss Katherine Barrett has gone to Lubbock on her vacation. She is visiting her sister, Mrs. J. T. Pryor.

Mrs. Leo Booker, employe of Western Clinic Hospital, is ill today.

Mrs. M. C. Carlisle and son, Don, of Waco, are visiting with Mrs. Charles Brown. They went to the McDonald Observatory and the Davis Mountains today.

Mr. and Mrs. Stanton Brunson of Lubbock were guests here yesterday of Mr. and Mrs. Henry Butler.

Mrs. Jimmy Lott was able to go home today from Western Clinic Hospital.

Mrs. Theodore Jones was dismissed yesterday from Western Clinic Hospital.

John David Williams, son of Mr. and Mrs. G. W. Williams, underwent surgery today at Western Clinic Hospital.

Mrs. A. E. Collins, who has been visiting her son, Bill Collins, and family here returned this afternoon to her home at San Angelo. She accompanied Mr. and Mrs. Ralph Hickman and Mrs. J. E. Daniel. Mrs. Hickman and Mrs. Daniel will go on to Austin to attend a family reunion.

Dealings Fairly Lively But Market Trend Wanes  
 NEW YORK, June 13—(AP)—Rallying vitality waned in the stock market today as customers with comforting profits on the lengthy bulge took home a little cash as insurance against week-end happenings.

Dealings were fairly lively at times but sluggish intervals were plentiful. Transfers for the full proceedings were around 450,000 shares.

"Nothing—except that he was the lad who recognized 'Mr. X,' and with the help of Wilhelm and others, ran his operations to earth. Last night, he learned, 'Mr. X' was to meet another European agent here and turn certain papers over to him. Stephan planned to anticipate the meeting, impersonate the second agent himself, and intercept the papers."

"But Stephan was taking a boat out of the Harbor last night. He was—"

"Exactly. If for any reason the first plan seemed impracticable, he intended leaving the Harbor on a fishing boat which was to take Agent Number Two and the papers out to a small freighter which was waiting to pick him up, and disguised as a member of the crew—he had changed clothes in his car—to get the papers by any device he could."

"But why weren't those men simply arrested?"

"Because the situation had developed so rapidly that von Thalmann was not sure we should have time to get here after he sent word to us; and he lacked the proper authority, himself, to make the arrest."

"Then he got the papers?"

"He got them, very neatly, before the boat left the dock. But then the complications arose. A third agent, who had shadowed Stephan here, jumped him and roughed him up pretty badly before we turned up, and stole the papers back again."

"He was warned of that. But why," Deborah demanded indignantly, "didn't this Jose Pastia who warned him do something—and where was Wilhelm?"

"Frankly," said Mr. Hilton, "there does seem to have been something sketchy about the blocking of the home team—largely, I gather, because Mr. von Thalmann got too far ahead of his interference. However, except for his head, which fortunately is hard, it worked out for the best. We got Mr. X, with the evidence on his person. Number Two got away, but was picked up later by the Coast Guard. Number Three, the most dangerous, because he was the only one who knew who von Thalmann was, is in a hospital, and will not live."

"Where was Wilhelm?"

"It was Wilhelm who finally took care of Number Three. He's on his way to Washington with my partner, to report."

"I'm frightened," Deborah shivered. "This man who followed Stephan here—how much did he know? And how many more are there in the country who know and hate him?"

"Then Dr. Bingham came in and said, 'All right, Deborah. But don't let him talk too much.' And she went in to Stephan."

"Stephan's face, under the ice-cap, was white, and one eye was completely black and blue; but he managed to grin as Deborah came over to the bed."

"How do you like my shiner?" he demanded, cocking the brow over the good eye to make sure his mastery of the American idiom had registered.

"I like everything about you," Deborah said unsteadily. "Oh, darling!" She leaned her cheek against his, to hide the quivering of her lips.

In a moment he said, "I shall never forgive myself for dragging you into this."

"But I was already in, Stephan. We both knew that from the beginning. . . . Look!" Deborah pointed toward the window. "The fog has gone. Just as it has been with us. . . . It was the fog that mattered, Stephan."

(THE END)

## Flashes Of Life

By The Associated Press.  
 PHILADELPHIA. — American war fliers won't get shot in the pants, if military authorities can help it.

A major product of a new armor factory here is a thick plate to go under the seats of military airplanes to prevent what might be called "unlucky hits" from below.

TOPEKA, Kas. — Kansas floods produced a fish story with an irony touch.

ALBUQUERQUE — The pickings must be good in Julian Chavez' icebox.

"It's getting darned monotonous," he said in complaining to police about the sixth theft from his refrigerator in two weeks.

### Feller Going For 30 Victories

Bob Feller, Cleveland Indian pitching star, will be seeking his 14th victory of the season his next time out. At the present rate, Feller will win more than 30 games this year.

### Big Red Pitcher Returns To Form, Blanking Braves

By The Associated Press A lot of years have been shed this season over the failure of big Paul Derringer to dominate the National League pitching scene as he did in leading the Cincinnati Reds to two pennants and a world championship.

The duke, at 33, is a little fatter and a little slower than he was last year. He was hurt during spring training and had some trouble getting started.

But 10 years in the big time have made this right-hander one of the craftiest hurlers in the business. Game in and game out, even now, he can do as much with his curves, knucklers, changes of pace and control as most of the rubber-armed speedballers.

He showed how tough he can be yesterday by pitching four-hit ball to beat the Boston Braves, 1-9.

The day's only other National League game also was an air-tight pitching spectacle—between Carl Hubbell and Bill Lee, with the New York Giants stopping the Chicago Cubs, 2-0.

Mack's Best Debut In the American League the Boston Red Sox divided a doubleheader with the St. Louis Browns in odd affairs. The Sox scored four runs in the first inning of the first game and then were shut out for the next eight frames by the impressive relief hurling of Bob Mumfry.

The Red Sox were held to six hits in the second game while the Browns made seven, but Boston triumphed, 3-2.

The Philadelphia Athletics copped a nip-and-tuck struggle from the Detroit Tigers, 5-3.

What with John Duncan Rigney withdrawing his request for draft deferment, Joe DiMaggio hitting his 12th homer of the season and running his hitting streak to 26 straight games, and Manager Jimmy Dykes of the Sox filing a protest, the New York Yankees and Chicago White Sox had a high old time of it in their night game.

The Yankees finally won in the 10th, 3-2, on DiMaggio's four-bagger.

### Sports Roundup

By Eddie Brietz NEW YORK, June 13.—(AP)—The oft-twisted grapevine says Greyhound, fastest trotter of all time, is lame and may never race again.

Petey Sarron, former featherweight champ, writes from Camp Blanding, Fla., that Tommy Gomez, the Tampa heavy we have been hearing so much about, looks like the next champion to him.

Left Grove, with only three games to go, will be the next member of baseball's exclusive "300 club"—that is, if he wins three more.

Chris Dundee, who manages Ken Overlin and is one of the smartest guys in the fight racket, picks Conn to lick Louis—says speed will do it.

Confidentially, we're leaning that way, too, but we'll withhold an official prediction for a few days.

William Brann, owner of Challeon, says his big horse is coming along nicely and probably will tangle with Whirlaway before the year's over. And that, ladies and gents, should be a race!

New Players Report For Payne Semi-Pros New players are reporting daily to Jim Payne as candidates for Midland's semi-pro football team. Another workout is planned after 6 p. m. today.

### Mackey's Shut Out Wilson Club, 8-0

#### Expert Predicts Louis Will Kayo Conn In 3 Heats

By Gayle Talbot NEW YORK, June 13.—(AP)—Joe Louis will knock out Billy Conn in about three rounds next Wednesday night at the Polo Grounds. If it goes longer than that, Billy will be just plain lucky.

This is said after a personal tour of inspection of the champion's training camp at Greenwood Lake, just up the Hudson, where the large negro is getting ready to defend his championship.

There has been considerable talk about Louis being worn out by his strenuous campaign of the last spring, during which he has fought more often than necessary. It has been said and believed that Joe has turned into an old man.

There is nothing to it, folks. This Joe Louis still is the greatest fighting man you or I will see in a lifetime. He has taken them all on, one after the other, and it is your argument against mine when you say Jack Dempsey or Gene Tunney could have whipped him.

There is nothing Joe Louis lacks to make him a great fighter. Yesterday I saw that he was a much finer boxer than Billy Conn. Against four sparring partners, who were doing their poor best to emulate Conn, he picked off their punches with his right glove, a flick at a time, and then tore them to shreds.

Joe's trainer, old Jack Blackburn, twice had to call time permanently to keep him from knocking a couple of sparring partners silly.

#### "Bear Tracks" Greer Shuts Out Missions 4 To 0 On Four Hits

By The Associated Press It's well enough to sing the praises of the swift young ballplayer, but something warming about the sight of old Ed Greer out there pitching game after game—and winning 'em, too.

The veteran hurler—who admits to forty summers, half of them or more devoted to his beloved baseball—must rely on craft rather than the strength of youth, but he gets there.

The Fort Worth Cats, on whose roster Old Ed is listed, would be delighted to have more hurlers like him. For instance, the veteran chucked a four-hitter for a 4-0 victory over the Missions at San Antonio last night.

In other Texas League contests, Dallas split a doubleheader with the Buffs at Houston, losing the first 2-1 and taking the second 3-0; Tulsa posted a 6-3 defeat on the Sports at Shreveport, and Oklahoma City lost 7-3 to the Exporters at Beaumont in the only afternoon game.

COOPERSTOWN, N. Y., June 13.—(AP)—Celebration of baseball's 102nd anniversary here today is an all-Ohio event.

The Cleveland Indians, current American League leaders, oppose the World Champion Cincinnati Reds of the National League in an exhibition, expected to draw about 10,000 fans to this birthplace of the sport.

Minus club expenses, game receipts go to support the baseball museum and hall of fame dedicated two years ago in honor of the centennial anniversary of Gen. Abner Doubleday's invention of the diamond sport.

General Manager Warren C. Giles of the Reds said today's game established the Cooperstown classic on a permanent basis for the first time.

Weather Postpones Conference On Oil WASHINGTON, June 13.—(AP)—Bad weather forced an airplane from Texas to fly on to New York this morning, resulting in the temporary postponement of a conference scheduled by Secretary Ickes, the Petroleum Co-ordinator with two Texas oil officials.

Aboard the plane was Olin Culberson, a member of the Texas Railroad commission, oil regulatory body of that state. He and Jerry Sadler, another member of the commission who already is here, were to meet Ickes at 11 a. m.

Sadler said that Culberson probably would take a train down from New York and that the conference might take place this afternoon. He declined to discuss the purpose of the meeting other than to say it was on petroleum problems generally as they affected national defense.

Mexican Baseball Team Will Play Pecos Sunday LOS CHAROS, Mexican baseball team, will engage Pecos here at 4 p. m. Sunday at the baseball park.

The Midland team has won several games to date.

Congratulations to: Mr. and Mrs. R. W. Handy on the birth of a son, weighing six pounds, 10 ounces, at 7:24 p. m. yesterday at Western Clinic Hospital.

#### Adamson Gives Two Bingles And Team Fields Brilliantly

By Tanner Laine Mackey Motors, kingpins of the city softball league, shut out Wilson Dry Goods, 8-0, last night, limiting the airport gang to two hits and fielding brilliantly.

The chattering and capable Mackeys, except for a couple of errors by outfielders, performed flawlessly.

Mackey's got three runs in the first. Cox led off with a three-bagger. Brady flew out to short. Cox scored. Hageman hit and Willis got on, on Crump's error.

Hardin hit a two-bagger scoring Hageman and Willis. Hensley flew out. Addington hit, but was caught at second.

In the third the Motorists accounted for two more. Hageman flew out. Willis hit and scored on Hensley's bingle. Hardin flew out. Addington walked. Truelove hit and Hensley scored. Adamson struck out.

Threatens In Seventh A last stanza rally brought Mackey's three counters. Brady flew out. Hageman hit but was caught at second. Willis got on first by fielder's choice. He scored on Hardin's two-base wallop which could have been a home run. Hardin scored on Hensley's double. Hensley scored when Addington hit but the batter was tagged out at second.

Wilson's only threat came in the seventh. O'Shea, first up, got two bases on Briscoe's error. Warren flew out. Price grounded out but advanced O'Shea to third. Crump struck out.

Mackey's set Wilson's down in one-two-three order for the first three frames with not a man getting on base. Carter got the first hit off Adamson in the first of the fourth.

Score by Innings: Mackey Motors . . . 302 000 3-8 Wilson Dry Goods . . . 000 000 0-0 The box score:

### Everything Is All Right—Women's Meet Has Upset

HOUSTON, June 13.—(AP)—Everything is all right now—the Texas Women's Public Links Golf Tourney has had its orthodox upset.

For the first few days of the tourney favorites won with mounting regularity, but yesterday Mrs. Donald F. Haines of Houston showed Mrs. Bud Laroe of Terrell, defending champion, out of play to enter the semifinals.

Others who stroked their way in to the semifinals were Mrs. E. H. Wohlfaht, 1940 runnerup and former champion; 18-year-old Betty Jane Mims of Dallas, and Mrs. C. W. (Chick) Roberson of Terrell.

### Rigney Decides To Serve When Called

CHICAGO, June 13.—(AP)—Pitcher Johnny Rigney has decided to take his regular turn in the army draft after all.

The 26-year-old Chicago White Sox hurler said last night he had been ill advised in asking a stay, that he had withdrawn his request (granted by his local board but appealed to Washington by the Illinois selective service directors) and that he would report for induction June 20 as originally scheduled.

## Roosevelt Nominates Stone For Chief Justice Of Supreme Court

### President Names Jackson, Byrnes To Other Places

South Carolinian Gets Senate's Confirmation Soon After Selection

By The Associated Press  
WASHINGTON, June 12.—President Roosevelt today nominated Harlan F. Stone of New York to succeed Charles Evans Hughes as chief justice of the United States.

The place vacated by the elevation of Stone will be filled by Attorney General Robert H. Jackson. And, to fill the vacancy created by the retirement of James Clark McReynolds last February 1, the Chief Executive nominated Senator James Francis Byrnes of South Carolina.

On the motion of Senator Glass (D-Va.), Byrnes' nomination was confirmed 11 minutes after it had reached the Senate. This is a courtesy customarily extended sitting members of the Senate when they are nominated to the judiciary.

The nominations of Stone and Jackson were referred to the judiciary committee for consideration in the usual course of procedure.

Hughes Asks Retirement.  
Although no immediate announcement was made as to who would succeed Jackson as Attorney General, there have been reports that Francis Biddle, solicitor general since January, 1940, probably would be moved up to the highest justice department post.

Chief Justice Hughes submitted to the President ten days ago a request that he be permitted to retire as of next July 1 and Mr. Roosevelt accepted it with regret.

While there had been reports that Jackson might become Chief Justice, the President chose instead to elevate Associate Justice Stone, a Republican, to the highest judicial post in the nation. Stone will be 69 next October. Jackson is 49 and Byrnes is 62.

With confirmation of the nominations by the Senate, Mr. Roosevelt will have named seven of the nine members of the Supreme Court which he once wanted to increase in size to inject new blood.

Stone Was Supporter  
Both Jackson and Byrnes are known as strong administration supporters.

Jackson moved up to be attorney general after the President had named his predecessor, Frank Murphy, to the Supreme Court.  
Although a Republican, Justice Stone, was one of the leading supporters on the tribunal of Roosevelt administration legislation.  
He was appointed to the court by President Coolidge in 1925 after serving nine months as attorney general.

### New Appointments

Harlan F. Stone

James Francis Byrnes

Harlan F. Stone (above), a Republican from New York, was nominated Chief Justice of the Supreme Court today to succeed Charles Evans Hughes. President Roosevelt appointed Attorney General Robert H. Jackson to Stone's associate justiceship. Senator James Francis Byrnes of South Carolina (below) was nominated to the place which James Clark McReynolds formerly held.

### Air Mail Schedules Will Change June 15

Air mail schedules out of Midland will be changed, Postmaster Allen Tolbert announced today.

Effective June 15, air mail on day schedules will leave 15 minutes earlier than the previous 2:10 p.m. deadline for posting.

Air mail must be posted before 1:55 p.m.

### Sadler Declares Control Depends On Oil Operators

AUSTIN, June 12.—(AP)—Prevention of federal control of the oil industry rests largely with Texas oil men and the state Senate in the opinion of Railroad Commissioner Jerry Sadler now in Washington.

Sadler asserted yesterday, in a statement to his Austin office, that Texas, California and Illinois had better "get their houses in order" if they expect to avert federal control.

Naturally, Texas should lead the way since it is the most vitally affected state when it comes to oil regulation," he declared. "I believe authorities here in Washington had rather see states get their own business straight than be forced to take over."

Interest which Texas oil men once manifested in trying to keep federal control out has sadly waned," he continued. "These men, whose industry affects over 1,000,000 Texans, have gone to sleep at the wheel, and it is now high time that they get ready to cooperate or the state will have the most stringent form of federal regulation. These statements are not threats. They are not imaginative. They constitute first-hand information and are true facts."

"Now pending in the Senate are House bills (designed to eliminate selective crude purchasing and) making oil proration permanent. It is imperative that both of these bills receive approval or we will have Washington regulating and controlling our own Texas oil business. This fact cannot be too strongly emphasized. After talking to administration leaders and conferring with Federal Oil Coordinator Harold L. Ickes it is my sincere and honest opinion that the bills are compulsory in preventing unwanted federal regulation."

### Strickland Oil Case Will Pass To Jurors

CONROE, June 12.—(AP)—The famous Wilson Strickland oil case in which some several hundred heirs to Strickland and Colonel Allen Vince, Texas Revolutionary soldiers, are seeking title to 500 acres of oil land near here worth from \$10,000,000 to \$20,000,000 is expected to go to the jury next week.

The case, which began last August, is a three way affair. Several major oil companies, which developed the tract from a pine forest, and the state of Texas, which claims title to the land, also are parties.

### U. S. Service Reports Good Range Conditions

AUSTIN, June 12.—(AP)—Excellent range conditions over most of the state were reported today by the United States Department of Agriculture marketing service.

Rainfall was excessive in South-eastern Texas, where range feeds were "sappy," the survey showed. In the Edwards Plateau sheep area, needle grass made rank growth and was expected to result in some damage to animals as seeds appeared. Winter weeds and grass were maturing and moisture conditions were favorable for the growth of summer ranges, the service declared.

### Behind The Headlines

By Fred Vanderschmidt

The Reich is hubandung its air might and regrouping its armies for the climatic offensive of the summer. The British appear to be fairly sure that this offensive will be directed with the greatest ferocity against the valley of the Nile and Suez, against the armies of Egypt's western desert and delta; behind the backs of the Imperial troops in Syria, Palestine, Iraq.

No one can predict this with certainty. Winston Churchill this week pointed out to the British people that the Germans, controlling Europe's whole chain of permanent airports and the entire continental railway system, can put a vast number of aircraft and armies into reverse in very little time.

Right now there is a new rash of London reports that Germany is concentrating tremendous armies on the Soviet border and, perhaps, threatening a movement through the Russian Ukraine and Caucasus in order to seize Iran and pinch off the whole British position East of Suez.

### Great Battle In Store

This may be fact, it may be fancy and it may be merely wishful of a German-Russian conflict, which certainly looks doubtful at this point.

But things are in shape for the assault in North Africa and, again to quote Mr. Churchill, the formidable threat of the Axis armies at the Western Egyptian border must remain, above all, Britain's chief preoccupation in the Middle East.

The fight there is bound to be on a much greater scale than any yet contested on either shore of the Mediterranean. With the Imperial conquerors of Italian East Africa flowing northward to bulwark the defense of the Nile, the British may be a match in manpower for the Germans and Italians, who unquestionably have reinforced with men and tanks by every sea-borne means. From the standpoint of planes and machines the battle is almost bound to be unequal, however.

### Senate Approves Seizure Proposal

WASHINGTON, June 12.—(AP)—The Senate approved legislation today to give President Roosevelt specific statutory authority to take over defense plants where there is an existing or threatened failure of production and management or labor have failed to utilize existing mediation agencies.

Approval of the measure came after administration forces lost a fight against an amendment by Senator Ball (R-Mich) which provided in effect that the president could not exercise such powers until mediation attempts were exhausted.

The vote of approval was 67 to 7. Senator Connally (D-Texas) offered the plant seizure bill as an amendment to legislation authorizing the president to defer army training for men who reach their 28th birthday by July 1 of this and subsequent years without having been drafted.

### Testimony In Brown Slaying Trial Starts

SPEARMAN, June 12.—(AP)—Testimony was started today in the trial of Orrin J. Brown, charged with slaying Leota Frances Murphy of Marion, Indiana.

Mrs. Murphy's body was found bludgeoned on a lonely road 25 miles west of here last March 20. Brown pleaded innocent on arraignment.

### Two More In Abell Pool Of Pecos Log Ellenburger Tops

By Frank Gardner Oil Editor

Two more tests in the Abell pool or Northern Pecos County have drilled through the Simpson, middle Ordovician, producing horizon into the Ellenburger, lower Ordovician. This brings the total to five.

Magnolia Petroleum Company No. 2 State-Baldwin, in the north part of the pool, entered the Ellenburger at 6,116 feet, datum of minus 3,722 feet. A steel line measurement at 6,110 feet, corrected depth to 6,112 feet. This morning the well was coring ahead at 6,135 feet in Ellenburger dolomite, with no showings yet reported.

In the northeast part of the pool, Magnolia No. 1 J. F. McKee topped the Ellenburger high structurally at 5,808 feet, datum of minus 3,418. A core from 5,809-18 returned five feet of hard gray dolomite. Sixteen feet were recovered of core from 5,818-24 feet. The top 14 feet were hard brown dolomite and the bottom two feet light gray dolomite carrying slight staining and a trace of porosity. The test is coring ahead past 5,834.

Magnolia No. 1 D. P. Gerety, northwest outpost which topped the Ellenburger at 6,088 feet, is coring below 6,132 feet in dolomite. Bottom four and one-half feet of core from 6,120-31 carried sulphur odor.

Stanford Oil & Gas Company No. 1 Conroy-Davis Unit, east extension test which missed the Simpson entirely, is acidizing Ellenburger formation from 4,830-95 feet, plugged-back depth, with 1,000 gallons in first stage. Last swabbing tests through 2-inch tubing set at 4,893 showed water to have exhausted.

Winkler Deep Prospect.  
Magnolia No. 20 State-Walton, indicating possible opening of a deep Permian area between Kermit sand and Keystone lime production in Winkler County, is pulling core from 4,889 to 4,916 feet. Of core from 4,871-81 feet eight-foot recovery was obtained, with top three feet showing slight staining and the bottom five feet dense gray lime. Eighteen feet of lime recovered by coring from 4,881-99 showed slight staining and fair porosity in the top 17 1/2 feet, while the bottom six inches carried good staining and good porosity. The well had shown for production in an horizon comparable to the Tubb when it recovered 120 quarts in pay zone between 3,178 and total depth of 3,357 feet.

In the Colby sand area of the Keystone pool, Standard Oil Company of Texas No. 16-19 W. E. Baird flowed 325 barrels of 38.2-gravity oil per day, with gas-oil ratio of 800-1, after shooting with 340 quarts in pay zone between 3,178 and total depth of 3,357 feet.

In the Hendrick pool of Winkler, C. V. (Cap) Lyman of Midland No. 1 E. W. Cowden, also of Midland, flowed 432.94 barrels of 29.9-gravity oil per day, plus two per cent water. Gas-oil ratio was 580-1. The well topped pay at 2,740 feet, reached total depth of 2,993 feet and was shot with 400 quarts.

Terry Wildcat Strike.  
The Texas Company No. 1 S. T. Murphy, showing for a new pool opener in West Central Terry County, showed a rainbow of oil on wash water in swabbing down 2,000 feet from the surface. Total depth is 5,275 feet, corrected by steel line measurement from 5,272, and 2-inch tubing is set at 5,272, with perforations at 5,266. Swab has been lost in tubing and operators have temporarily shut down the well.

"Midlands" wildcat test, Wiggins & Hyde No. 1 Stimson & Burley, in Southwestern Martin County, five and one-half miles northeast of the City of Midland, still is standing after cementing 233 feet of 13-inch casing at 245 feet with 200 sacks.

## Congressman Thomason States U.S. Army Twin-Engined Flying School Will Be Built Quickly

### Fifteen Hundred Officers And Men Will Be Stationed At Port To Provide Training For 250

WASHINGTON, June 13.—(Special)—Congressman R. E. Thomason announced today the United States Army Air Corps will establish an advanced twin engine flying school at Midland, Texas.

"Quarters for officers and men will be rushed to completion," Thomason, who is senior member of the house military affairs committee, asserted.

"Fifteen hundred officers and men will be placed at the school and training will be provided for 250 students.

"I am greatly pleased that Midland, which is ideally located for this school, should have received this national defense project and the people of that community deserve great credit for their cooperation in obtaining it.

### British Bombard Industrial Areas

LONDON, June 12.—(AP)—Strong British bombing squadrons set large fires in the German industrial centers of Duisburg and Dusseldorf, blasted at docks in Rotterdam and attacked ports along the Nazi-occupied French coast last night, the air ministry said today.

The raids cost the British eight planes, a communique said today.

German night raiders meanwhile pounced on a number of places in England, inflicting substantial damage and some casualties, and scattered thousands of propaganda pamphlets over the English countryside.

The Germans were reported over London, the Midlands, the North-west and the North of England in the heaviest attacks in recent weeks, and a communique said "in one district it is feared a large number of casualties may have been caused."

### Joint Committee To Study Proration Bill

AUSTIN, June 12.—(AP)—The Senate extended a hand of conciliation to the House today, granting the latter's request for a conference committee to adjust differences on a bill extending Texas' general oil proration statute.

It was an important move toward breaking a deadlock on this and other legislation vital to the oil industry.

The request previously had been refused by the Senate, which had voted to extend the proration law two years, as had been done for some years past. The House had declared for indefinite extension.

### Ladybird Goes Down "Burning Like Hell" And Terror Sinks In Fierce Stuka Diving Attacks Near Libya

#### Week's Disaster Toll Increased To Twenty

By The Associated Press.

The week's death toll in Texas floods and storms reached 20 today as the Trinity River in the Dallas area drove hundreds of persons from their homes, damaged crops, cut off main highways, and surged upward toward a record crest.

Water crept into portions of South Dallas, automobiles were marooned on northwest highway between Dallas and Grapevine, U. S. Highway 77 was blocked, and city and county officers and firemen evacuated lowland residents.

At Albany, where 12 were drowned in Tuesday's flash flood, attention turned to immunization against disease and to rehabilitation. Workers still searched debris for possible additional victims.

### Captain And Consul Question Survivors

RECIFE, Brazil, June 12.—(AP)—United States representatives considered the stories of eleven survivors of the 5,000-ton American freighter Robin Moor today to formulate a report as to whether her sinking in the South Atlantic May 21 was the deed of a German submarine.

\* ALEXANDRIA, Egypt, June 12.—

(AP)—Britain's famous gunboat, Ladybird, 625 tons, and the Monitor Terror whose 15-inch guns shattered Italy's shore defense in Libya, have been sunk by Stuka dive bombers, the British navy announced today.

The 8,000-ton Terror was caught at dusk recently off the Libyan coast and made the target for 500-pound bombs. Her big and small guns put up a terrific barrage, causing the Germans to miss, but a near miss crumpled the monitor amidships.

The Ladybird went down in Tobruk harbor, Libya, "burning like hell" and firing against the screeching Stukas until her last dry gun slipped under the water, it was said.

Kept Feeding Shells.  
The Ladybird, famous as part of Britain's Yangtze River patrol, was fired on Dec. 12, 1937, by Japanese shore batteries.

The little boat was hit aft by the first bomb in the Tobruk attack which occurred May 12 and started her downward plunge with her pom-pom and six-inch guns blasting at her attackers.

Six out of a total of 47 German bombers attacking Tobruk shipping dived out of the glaring sun about 3 p.m. to dump their bombs at the gunboat.  
Besides the hit aft, another bomb missed in the boiler room and near misses shook the Ladybird like a hound shaking a rabbit. Severely wounded men kept handing shells up to the gunners who continued to fire until ordered to abandon ship.

## "All Of Us" Ahead Of "Any Of Us"

The North American Aviation plant at Inglewood, Calif., is building planes for the American people, building them for the people in a cause which the people have decided is vital to their safety—the cause of national defense.

A certain number of the employees of that plant struck. They refused mediation by a national board headed by a man known for his just and liberal man. They refused pleas from the head of their national labor organization (the C. I. O.), and by the head of the U. A. W., who has amply proved his devotion to the cause of organization. They refused the pleas of national leaders right up to the President of the United States. All that was asked of them was that they stay on the job while their grievances were adjusted. This they refused to do.

The army has taken over the plant. It is specific evidence that we are in deadly earnest about the defense drive.

When the President said "the American people expect that impartial recommendations of our government services will be followed by both capital and labor," he meant just what he said, and he spoke for the American people.

The taking over of the North American plant is not an act of the government in favor of the employer and against labor. Employers have been vehement in their opposition to any such taking over of plants. Nobody wants this. The government was literally forced to act, since every effort to conciliate had been rebuffed.

It must be borne in mind that this act is no solution of the difficulty. Planes cannot be built with bayonets. But neither can planes be built by men shuffling around in a picket line.

Neither organized labor nor industry wants to see this North American precedent extended. It is to the advantage of neither to have the government step into strike situations in his drastic manner.

There is only one way to avoid it. That is for both to realize that production comes first; that neither is wise in trying to insist on the last letter of their rights at the risk of the safety of the whole people.

We believe 95 per cent of labor and 95 per cent of management are opposed to the uncompromising attitude that led to the North American crisis. We believe the action taken there will prove the exception, and that it will be used most sparingly as a precedent. This is because we have faith that 95 per cent of both labor and management believe, deep down, in "all of us" ahead "of any of us."

### Buy Defense Bonds

## Intelligent Tariffs

Tariffs are one thing that ought to be decided upon without emotion, almost mathematically. A tariff should be imposed in order to produce certain results and no others.

A committee of the Federal Council of Churches which has been studying bases of a just and durable peace, has come forward with an interesting suggestion. It is that a new governmental unit be established to study economic relations with other countries, and to report to Congress just what effect on other nations would be produced by any proposed tariff, trade, immigration or money law.

It is always possible that a tariff or other trade discrimination may produce a small local gain of some kind, yet so prejudice a whole country against the United States that the net loss not only in good will (precious these days) but in actual trade itself is greater than the small local gain.

Congress might not followed the recommendations of such a commission, but it wouldn't hurt to have the facts.

### Buy Defense Bonds

## Defense Bonds Gain Momentum

The first month's sale of Defense Bonds and Stamps rolled up a total of \$441,752,000.

That half billion is not impressive in terms of the great high-pressure government loans of the World War period. But the significant thing is that sales consistently held around \$100,000,000 a week.

The buying of Defense Bonds and Stamps ought to be a systematic obligation of every citizen who has a good job or a regular income beyond the needs of plain living.

That first month's purchases were equal to 1000 long-range bombers. Why say more?

### Buy Defense Bonds

## Another Man Dies

A great many men, and women, are dying sudden and violent deaths these days. The fact that one more is to die in Berlin is perhaps not very interesting. Yet it is interesting, too. He is going to die because he listened to the radio, and liked what he heard enough to make copies of it and pass it along to others he thought would be interested.

He is a German, you see, and the program to which he listened came from outside Germany's border. So because he listened, and wrote it down, and passed it along, he is to die. That is official, from the official news agency in Berlin. Some 1500 others of his compatriots got off easier, with fines and jail sentences, because they just listened and did not copy out the forbidden words.

The old order changeth, yielding place to new!

## The Road Ahead

## Seizure Of Crete Costs 5800 Nazis

BERLIN, June 12—(AP)—The German army and air force seizure of Crete on Adolf Hitler's personal orders cost 5,893 officers and men in dead, wounded and missing, the high command announced today, and proved that "nothing is impossible to the German soldier."

The announcement also claimed that, between Jan. 1 and May 30 thirty Allied warships were sunk in the Mediterranean, including 23 at Crete, and that "a great number of other units, including several battleships and plane carriers" were damaged.

In the same five-month period, according to this announcement, 103 merchant ships, totaling more than 520,000 tons were sunk in the Mediterranean.

## Young People Go To Conference

Presbyterian young people's conferences this week and last are occupying the attention of a number of boys and girls from here.

Lynn Stephens and Raymond Mann are in the senior conference at Kerrville this week, expecting to return home next Tuesday or Wednesday. Raymond is attending in his capacity as president of the Midland district of Presbyterian young people's societies.

Attending the Pioneer conference at Mire Park in the Davis Mountains last week were Leora Mann and Tony Howard Leora, daughter of the Rev. and Mrs. W. R. Mann, was elected president of the student body of the conference for the ensuing year.

The latter part of last week, a group of delegates including Billie Frances Franklin, Oneita Tidwell, Clarissa Mann, and Eugenia Holmes attended the senior and young people's conference at the same place. The Rev. Mann was general manager for this convale, which was attended by about 45.

## Preserves Apples By Controlling Storage

LOCKPORT, N. Y. (UP).—By scientifically controlling the environment in a storage room, John A. Hall, Niagara County farmer, can pick apples one year, put them to "sleep" and wake them up the next year—as fresh as the day they were picked.

He does it by "modified atmosphere storage," a process developed in England, although originated at Cornell University.

The process is a result of attempts to keep fresh fruit fresh despite the ravages of time. Primarily, it is accomplished by control of the chemical elements in the atmosphere surrounding the fruit.

## Technicians Work On Plastics Production

ALBANY, Cal. (UP).—In the new \$2,000,000 Western Regional Research Laboratory, approximately 50 technicians are conducting experiments from which it is hoped a new method of producing plastics and artificial fiber from agricultural surplus products will be developed.

The scientists even expect to produce waterproof glue and concentrated food from such products as chicken feathers, alfalfa, wheat and potatoes.

## Girl Scouts Will Open Workroom At Old Wes-Tex Store

Rooms on the second floor of the former Wes-Tex Food Store at the corner of Wall and Main streets will be opened Monday, June 16, as official headquarters and workroom for Girl Scouts. Entrance will be from Wall Street. Those working for the Girl Scout movement express their appreciation to Jack Wilkinson for donating this space for the workshop.

Sponsors for the six troops now organized have been obtained by Mrs. L. C. Link. They are: Presbyterian Auxiliary, Business and Professional Women's Club, Modern Study Club, Rotary Club, Lion's Club, and North Ward P.T.A. Each sponsor donated ten dollars, of which five goes to national headquarters for registration of the troop and five is retained here for supplies and troop expenses. Each girl pays 50 cents individual registration fee.

Rules of the national Girl Scouts are being followed by the Midland workers. One adult is in charge of each ten children. Girls of different ages meet on different days: Seven-year-old Brownie groups on Tuesday, eight-year-olds on Monday, and nine-year-olds on Wednesday. Of the two groups of Intermediate Scouts (from ten to 14 years of age), one meets at 9 o'clock on Monday and one at 9 o'clock on Friday.

Several high school girls have offered their services as assistant instructors and Scout leaders hope to organize a senior troop of girls from 14 to 18 years old.

Contributions of old tables, chairs or benches to furnish the workshop will be appreciated. Scout officials have announced. Any Midland citizen who has such furniture he will donate, is requested to call Mrs. Don Johnson, 1649-J, or Mrs. J. L. Greene at 658.

## Oil Trade Sources See Hope In Ickes Proposed Program

NEW YORK, June 12—(AP)—Authoritative oil trade sources said today they were convinced a program under preparation by Secretary Ickes, petroleum industry coordinator, would avert the threatened gasoline shortage in the Eastern states this winter and would permit the continuation of oil shipments to Japan.

These authorities estimated Japan was receiving about 1,000,000 barrels a month of United States petroleum, gasoline and lubricating oil. No aviation gasoline is included in these shipments, that having been banned to Japan last year by President Roosevelt.

Continuation of these shipments, made from California, was said by the oil men to have the approval of the state department.

As for the Ickes program it was said to revolve around the construction of three gigantic pipelines to feed gasoline, petroleum and fuel oil into the heart of the industrial Eastern Seaboard and more efficient operation of other pipelines already in service in the East.

At least one of these lines, to be run from Galveston to New Jersey, is planned for a capacity of 250,000 barrels of gasoline and fuel oil a day.

Another line, of equal size, may supply the East with crude oil from the fields of Illinois.

The third line, the Plantation line, already under construction, will carry gasoline from Louisiana refineries to southern industrial centers and probably to Norfolk.

## Laughs In The Legislature

AUSTIN, June 12—(AP)—Speaker of the House Homer Leonard of McAllen chose a subtle way of announcing the birth of a son to Rep. and Mrs. Price Daniel of Liberty. Said Leonard to the entire House: "The chair acknowledges with gratitude a 10-cent cigar, which is twice as good as the ones I am used to, from Representative Price Daniel."

"Representative Daniel is only one-fourth the man the speaker is because he has one son while the speaker has two girls."

Daniel and Leonard are the only candidates for speaker of the next legislature.

The Daniel baby, a nine-pounder, was born in Austin, and the House was prompt in adopting a congratulatory resolution for the parents.

The talk of new babies and hospitals mingled with that on appropriations to apparently cause a curious slip of the tongue.

One member, moving that a colleague be excused for the balance of the day, explained the wife of the member had undergone an 'emergency appropriation.' He meant 'operation.'

## Schedules Inspection For Course, June 19

Chamber of Commerce officials were notified today that an inspection will be made June 19 of the plans for a civilian ground school flying course in Midland.

At the time of inspection prospective students must have completed physical examinations and have certificates of eligibility.

If sufficient students are eligible the course will begin June 23.

A meeting with Geisess Flying School instructors will be held at 8:30 p. m. Monday night at Hotel Scharbauer to make final plans for the school.

Physical examinations and certificates of eligibility will be discussed at the meeting.

## To Consult Cripps On Troops Reports

LONDON, June 12—(AP)—Coincident with the arrival of Sir Stafford Cripps, British ambassador to Moscow, usually reliable sources said they had received reports Germany was massing troops, guns and planes in Poland and Rumania for a "war of nerves" designed to squeeze important concessions from Soviet Russia.

Russians in London said they knew nothing of these reports but opinion was expressed in other quarters that Sir Stafford, who arrived yesterday, would be consulted about them.

No one in the British capital specified what Germany hoped to get from Russia by the reported show of strength at Krakow, in occupied Poland, and in Rumania, but speculation centered around oil and the great Ukrainian wheat fields.

## Miss Linebery Goes To Carnival Friday

Miss Edna Earl Linebery will go to Fort Stockton tomorrow as Midland's entry in that city's annual water carnival bathing beauty revue Friday and Saturday.

## Organizes Army Defense Command

WASHINGTON, June 12—(AP)—The creation of army defense commands to map actual war strategy for defense of the United States against military invasion was disclosed today with the assignment of first staff officer to such duty.

Lt. Col. William F. Lee, of Amherst, Mass., was ordered to Governors Island, N. Y., effective June 20 for general staff duty with the Northeast Defense Command. He is now assigned to the office of the chief of infantry here.

In addition to the Northeast command, charged with defense strategy in the vital New England and Middle Atlantic industrial states, it was learned there would be three others responsible for similar war plans for the Southern Coastal area, the West Coast, and the Central states.

The plans developed would become the master strategy should any of the defense command areas become an actual theater of war. In formulating this strategy the commands will work in close touch with the navy.

## Rev. W. B. Swim Addresses Rotarians

The Rev. W. B. Swim of Post told Midland Rotarians at their meeting today "It takes a real man to build a character."

"How big are you and what are we going to stand for?" he asked the Rotarians.

"It is easy to drift and criticize. It is easy to be a knocker."

Mr. Swim is here in connection with the revival at the First Methodist Church. He was introduced by the Rev. W. C. Hinds, pastor of the church.

Rotarians elected Tom Sealy, club president-elect, as official delegate to the Rotary International convention in Denver.

Delbert Downing talked briefly on the Midland Bicycle Club, organized by the Midland Safety Council, and explained its purposes.

# Miscellaneous Shower Is Courtesy Complimenting Miss Droppleman

Mrs. H. G. Bedford, Nell Ruth Bedford Fete Bride-Elect

In courtesy to Miss Virginia Droppleman who is being complimented at a series of parties preceding her marriage to Fount Armstrong on Saturday, Mrs. H. G. Bedford and her daughter, Miss Nell Ruth Bedford, were hostesses for a miscellaneous shower at their home, 611 N. Marienfeld, Wednesday afternoon from 4 o'clock until 6.

Roses and verbenas decorated the house.

In the receiving line were: Mrs. Bedford, Miss Bedford, Miss Droppleman, Mrs. Pete Droppleman, mother of the bride-elect, and Mrs. F. B. Armstrong, mother of the bridegroom-elect. All wore corsages of gladioli.

Miss Geraldine Griffith and Mrs. Yates Brown presented musical numbers during the party hours.

Gifts were on display throughout the afternoon.

Wee figures of a bride, groom, and minister formed a wedding scene beneath a vine-covered trellis as centerpiece for the tea table. A blue-and-white color scheme was carried out in refreshments, the heart-shaped mints were in the same colors, and the blue napkins bore the imprint "Virginia and Fount" in silver.

Mrs. Jack Bedford and Mrs. Yates Brown poured.

Miss Montez Downey was at the bride's book.

Others in the houseparty were: Miss Donna Downey, Miss Jeanne Davis, Mrs. Charles Gibbs, Miss Freddie Pae Turner, Mrs. L. W. Taylor, Miss Dorothy Sue Miles, and Miss Mary Sue Cowden.

The invitation list included: The honoree, Mmes. Otis Ligon, Addison Wadley, Harry Adams, James Harper, M. C. Ulmer, R. L. York, J. M. Prothro, J. O. Nobles, Dona Dunagan, C. Schurr, J. B. Hoskins, Ellis Conner, Bill Conner, Lenton Brunson, E. W. Cowden, Miss Freddie Pae Turner, Miss Jean Lewis, Mmes. E. N. Snodgrass, Ed Watts, F. B. Fromhold, D. H. Griffith, R. D. Scruggs, Terry Elkin, Miss Geraldine Griffith, Miss Louise Elkin, Mmes. R. C. Tucker, Jess Simmons, Newbie Ellis, Claude Duffy, Miss Kitty Gene Ellis, Mmes. H. L. Haag, Geo. Ratliff, Louis Thomas, W. M. Blevins, Frank Williamson, Tolbert Bell of El Paso, Leonard Proctor, J. E. Hill, D. B. Greene, Miss Jeanne Davis, Jo Ann Proctor,

## Mrs. R. M. Barron Reads At Closing Session Of Club

Closing session of Play Readers Club for this year was held at the home of Mrs. Wallace Irwin, 1911 W. Missouri, Wednesday afternoon.

Mrs. R. M. Barron read "The Tally Method" by S. N. Behrman, a play now running on Broadway with Ina Claire starring the cast.

Mrs. Chas. L. Klapproth presided in the absence of the president, Mrs. E. H. Barron.

Guests present were Mrs. Owen Ingram of Stanton, Mrs. R. D. Scruggs, and Mrs. Geo. Phillips.

If members of Play Readers Club this summer are planning to cut their plays for reading next winter, they are requested to communicate with Mrs. Klapproth.

Members present were: Mmes. R. M. Barron, B. K. Buffington, De Lo Douglas, Fred Fuhrman, W. L. Haselstine, Jack Hawkins, J. Howard Hodge, Klapproth, Earl Powell, W. T. Schneider, W. B. Stowe, Fred Wilcox, and the hostess.

## Mrs. Watts Honoree At Two-Hostess Shower And Tea

Mrs. W. A. Yeager and Mrs. John M. Speed Jr. entertained at the home of the former, 1704 W. Missouri, Tuesday afternoon with a pink-and-blue shower honoring Mrs. Ed Watts.

The courtesy was informal, in the form of a tea at 4 o'clock.

Pink snapdragons and blue delphinium emphasized the chosen color scheme in floral arrangements in the party rooms, with roses as the auxiliary flower.

Snapdragons and delphinium formed the centerpiece for the tea table and miniature pink-and-blue corsages were favors.

Shower gifts were presented to Mrs. Watts in a bassinet presided over by the traditional stork.

The invitation list included: the honoree, Mmes. Harold Smith, R. Geisler, Charles West, Ish McKnight, C. C. Thomas, W. B. Robinson, W. L. Crothers, H. L. Straughan Jr., Herbert Moore, W. P. Z. German Jr., Thomas Lee Speed, Frank Midkiff, Frank Wolcott, and Miss Elizabeth Wolcott.

## Mrs. Felix Foster Honored At Shower At De Mars Home

Honoring Mrs. Felix Foster, the former Miss Mary Faye Snider, whose marriage took place at Spring Saturday, Mrs. Joe De Mars and Mrs. Dennis Murphy were hostesses for a wedding shower at the home of Mrs. De Mars, 411 S. Colorado, Wednesday afternoon.

Foster is the daughter of Mr. and Mrs. J. B. Snider and the bridegroom is the son of Mr. and Mrs. J. C. Foster, all of Midland.

Refreshments were served to the honoree, Mmes. J. B. DeArman, Russell Cox, J. C. Foster, G. W. Burt, Morris Snider, G. W. Williams, J. B. Snider, O. L. O'Donnell, W. C. Snider, S. R. Snider, and the hostesses.

Sending gifts were Mrs. J. A. Ravan, Miss Christine Johnson, Miss Anna Bell Gunner, and Miss Dorothy Mae Snider.

## District Eight Clubs Will Hold Seminar At Alpine

Eighth District Federated Women's Clubs will hold a two-day seminar at Sul Ross College at Alpine, June 26-27, with college professors teaching courses in Pan-American subjects.

The two-day session is open to all clubwomen and they may stay in the college dormitory at very small cost, club officials here have been informed.

The state chairman of international relations has planned the seminars and will be present at them.

The two-day seminar is open to all clubwomen and they may stay in the college dormitory at very small cost, club officials here have been informed.

Any Midland women planning to attend the seminar or go on the trip are requested to notify Mrs. J. C. Cunningham, Fort Stockton, president of the Eighth District.

## CARTERS TO FORT STOCKTON

Mr. and Mrs. D. R. Carter and family and Mr. and Mrs. Fred Girdley plan to leave tomorrow for Fort Stockton for the weekend.

## Don't Wait Until Pyorrhea Strikes

Gums that itch or burn can become mighty trying. Druggists will return your money if the first bottle of "LETO'S" fails to satisfy. City Drug Store. (Adv.)

## Bluebonnet Club Meets At Home Of Mrs. Wren

Mrs. V. Z. Wren, 400 W. Kansas, was hostess to the Bluebonnet Club in its regular bi-weekly meeting, Wednesday afternoon.

The group held a roundtable discussion of needlepoint and other types of handwork.

Mrs. M. D. Cox, daughter of the hostess, was a guest and assisted the hostess.

A party plate was served to the guest and the following members: Mmes. Frank Ingham, J. H. Barron, Lena Wimberly, Mary S. Ray,

## INTANGIBLE ASSETS SHOW INCREASE OF \$1,600,000

AUSTIN, June 12—(AP.)—On a basis of preliminary estimates by the state tax board, intangible assets of oil and gas pipe lines, railroads and toll bridges in Texas totaled \$80,494,000 for 1941, and increase of \$1,631,100 over 1940.

The asset estimates, made public yesterday, were computed as the difference between the physical and going concern values of companies and will be supplemented later by similar assets of bus and truck companies.

Brooks Pemberton, D. W. Brunson, and the hostess.

Next meeting of the club will be with Mrs. Wimberly.

## Banner Sewing Club Meets At Home Of Mrs. W. A. Ravan

The monthly entertainment for husbands and members of the Banner Sewing Club will be combined with the Banner picnic tonight, it was planned at the meeting of the club with Mrs. W. A. Ravan, 304 W. Florida, Wednesday afternoon.

Mrs. Effie Harris and Mrs. J. Wymer Smith were visitors.

Mrs. Paul Cole was presented with a gift from the club and Mrs. Vinton Newberry was sent flowers.

Present were: Mmes. Cole, C. V.

## PROMINENT RANCHER DIES AT LAREDO

LAREDO, June 12—(AP.)—Robert F. Alexander, 56, prominent Webb County ranch owner, died here today of heart disease. Funeral arrangements had not been completed.

Shelton, Albert Ravan, John Godwin, C. A. Brown, O. V. Kelley, C. H. Brown, and the hostess.

Next Wednesday at 3 o'clock, Mrs. Shelton, 505 N. Marienfeld, will be hostess.

Tonight members and husbands will meet at the home of Mr. and Mrs. C. H. Brown, 407 S. Baird, and go to Cloverdale.

## Selective Buying Bill Meets Defeat In Senate

AUSTIN, June 12—(AP.)—Boosted more than \$5,000,000 over current appropriations, a bill authorizing expenditure of \$22,602,069 on higher education institutions in Texas the next two years today awaited state Senate action.

The Senate concluded its day's stint without acting on House amendments to an appropriation of \$1,750,000 monthly in June, July and August for old age pensions to avert a cut in payments.

Another attempt to consider a House-approved bill designed to eliminate asserted selective buying of crude oil met defeat in the upper legislative branch.

### Colorado Rodeo Will Be Sunday

COLORADO CITY, June 12—(Special)—Offering such loop-tossing cowboys as Toots Manfield of Bandera, Leo Huff of Merkel, Sonny Edwards of Big Spring, and Lawrence Davis of Head, N. M., Colorado City Frontier Roundup will present its first matching roping contest, at 2 p.m. Sunday.

Arrangements for the roping contests were made by Jenks Powell, Pete Ainsworth, and other members of the rodeo committee. Manfield, holder of the world's championship for straight calf roping, will be matched against Huff. Edwards will rope against Davis. Each will rope 10 calves.

### Flow Of Philippines Materials To Japan Continues Unhindered

MANILA.—(UP).—Although the United States has clamped down export licensing controls on strategic materials, the Philippines continue to export such materials to countries other than the United States, notably to Japan.

It was revealed that in some cases, exports of strategic materials were being made on a greater scale than ever before, although the prevailing shipping shortage presumably precluded unusually large increases in the volume of shipments.

While Washington reports indicated the Commonwealth government had signified readiness to prevent certain export commodities from falling into potentially hostile hands, no specific embargo or control on any material has been imposed thus far.

#### No Proof Available

Commenting on the possibility of export controls on strategic materials, some local business circles, however, have not signified any opposition to export controls, and indications were that the Commonwealth government would impose them if and as soon as the United States wanted them imposed.

Japan remains the heaviest importer of Philippine goods in the Far East. In recent months Japan has made heavy purchases of Philippine ores, principally copper and copper concentrate, iron, chromite and manganese. In January and February Japan became the heaviest importer of Philippine base materials, and bought much more of these products than the United States.

### Small Wisconsin Town Turns Out For Author

BATAVIA, Wis.—(UP).—A crowd of 500 persons creates a conspicuous bulge in Batavia, Wis. (population 15).

Such overflows occur periodically and Batavia citizens credit them to the talent of Ralph Welles, 24-year-old farm youth whom they call the "Barnyard Orson Welles." They say he will make Batavia just as famous as her sister Wisconsin community, Kenosha that produced the real Orson Welles.

When Ralph isn't busy on his father's farm, he writes, produces, acts and directs his own plays. And Batavians argue that they must be good. Otherwise why would they receive more notice in Wisconsin newspapers than a Helen Hayes-Maurice Evans production and attract crowds three times the population of Batavia?

### MUSTANG BOYS' CLUB COLUMN

This being "Flag Week", can you answer the following questions about our flag?—See tomorrow's column.

1. What is the official name of the American flag?
2. When was the birthday of our flag?
3. Which star on the flag stands for Texas?
4. On what eight special days during the year may the flag be officially flown?
5. What is the only flag ever allowed to be flown above the American flag?
6. What are the only three buildings in the U. S. A. that may fly officially, day and night, year in and year out, the American flag?
7. How should the following sa-

lute a passing flag—a woman, a man, military personnel?

8. What is the only occasion for which the flag may be flown upside down?
9. When is the flag flown over the "White House?"
10. What should be done with a soiled or worn-out flag?

Luther Tidwell and the Midland fire department boys have been giving some of the Mustang kids lots of fun these evenings, by letting them enjoy water polo with the fire hose. Also the boys have staged some rare water fights. Cecil Smith and Maurice Bird won the events last night. Maybe another sousing match tonight at 6:30. We hope the fire department boys will have lots of success in the competition at the firemen's convention at Fort Stockton this week. Broom Hockey afforded a rousing good time at the Mustang club last night. Action, comedy and hilarity marked every moment of this lively

### ANTHRAX RESPONSIBLE FOR NINE DEATHS

Anthrax, a disease contracted from animals, was responsible for nine human deaths in the U. S. in 1939, according to Census figures.

### MORE DEPARTURES

One-fifth of the population increase between 1920 and 1930 was from foreign immigration, according to the census. But, during the last decade, there were 46,000 more departures than arrivals.

Sportball game with one of the league teams, Friday at 6. Water sports at Pagoda Friday morning. Remember the numbers 17 and 10. —NUFF SED.

### MIND Your MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Is it good manners to mention the cost of things, if you do it in a complaining rather than a bragging way?
  2. Is it important that a hostess make her guests feel they are no trouble at all?
  3. Would a person of good breeding ever write an anonymous letter in order to let someone know something he wants him to hear?
  4. Does it show lack of breeding to repeat malicious gossip?
  5. Is it good manners to tell a person who isn't well how bad he looks?
- What would you do if—  
A person you know only slightly tells you he has been ill—  
(a) Ask him what was wrong with him?  
(b) Say you are sorry?
- Answers
1. No. It's always bragging and never fools anyone.
  2. Yes.
  3. No. If he hasn't the courage to sign his name, he shouldn't write.
  4. Yes.
  5. No. Best "What Would You Do" solution—(b).

### Flashes Of Life

By The Associated Press. BRIDGEPORT, Conn.—Six-year-old Joseph Arlio, Jr., kept his wits in the excitement of a fire that destroyed his chicken coop. He not only rescued his two pet hens, but also removed a freshly laid egg.

DENVER—State employees took it as a bad sign when Farrington R. Carpenter, director of Colorado's new state department of revenue, walked in his office carrying an axe.

But Carpenter who will have charge of extensive reorganization of the state government, assured the worried workers that the axe was not symbolic of any impending payroll chopping. "I just bought it to chop wood

### WRONG HALL DECORATED

NEW BRITAIN, Conn.—(UP).—Add life's embarrassing moments: The crestfallen feeling of the Irish-American clubs' arrangements committee when it discovered, a few hours before the annual party, it had decorated the wrong hall for the occasion.

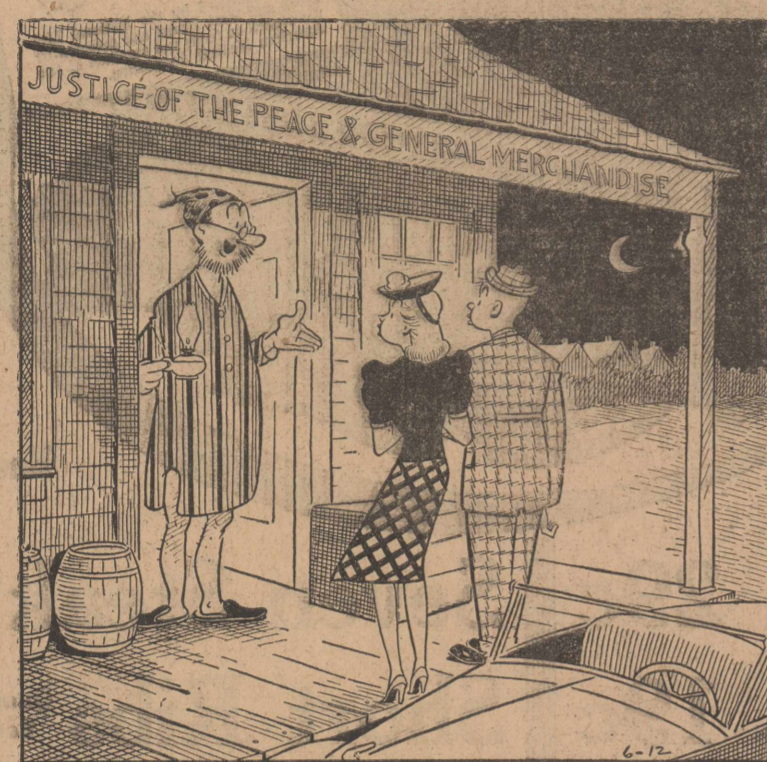

with on the farm I've rented outside Denver," he explained.

MANSON, Wash.—Eight-year-old Bobby Ocheltree took his young sister, Joan, for a ride in an old automobile and impressed her with the dangers of driving through fog.

The motor began to boil after the children and driven two miles. Bobby, unable to see through the steam, drove off the road and into a tree. Joan's face was cut.

Today's Markets

LIVESTOCK

FORT WORTH, June 12—(AP)—(U. S. Dept. Agr.)—Cattle, 2,100; calves 800. All classes cattle and calves generally steady; good to choice matured steers 10.00-10.50; beef cows 6.00-7.75; fat calves 7.25-10.75; good stocker steer calves 9.25-13.00.

Hogs 1800; mostly 15-25 cents higher than Wednesday; top 9.25; packing sows steady to strong, mostly 8.75.

Sheep 8,500; spring lambs and wethers 25 cents lower; clipped lambs 25-50 cents lower; medium to good spring lambs 8.75-10.00; top 10.25; medium and good clipped lambs 7.50-8.50.

Wool

BOSTON, June 12—(AP)—(U. S. Dept. Agr.)—Occasional sales were being closed today in territory wools on the Boston market, but the aggregate volume of business was very light. Fine territory wools of short to good French combing length in original bags were sold at prices within the range \$1-\$1.03, scoured basis. Sales of the coarser grades of territory wools included combing three-eighths the blood at 90-93 cents, scoured basis, and combing quarter bloods at 84-87 cents, scoured basis. Only a few sales were closed on bright fleece wools at 46-47 cents, in the grease, for combing three-eighths and quarter blood grades.

Stocks

NEW YORK, June 12—(AP)—Closing prices of the fifteen most active stocks today:

Table with 2 columns: Stock Name and Price. Includes Left (21 7/8), South Pac (12 1/8), Gar Wood Ind (4 3/4), etc.

Cotton

NEW YORK, June 12—(AP)—Cotton futures closed 6 to 10 lower.

Specialties Bidding Keeps Market Upswing

NEW YORK, June 12—(AP)—Bidding for specialties, including an assortment of senior issues, kept the stock market on the upgrade today despite lagging tendencies shown by some leaders.

There were occasional lively flurries but slowdowns were plentiful. Transfers were around 600,000 shares.

U. S. Navy Counts On Air Force For Big Part In Maintaining Defense Of Two Seas

By Tom Wolf NEA Service Staff Correspondent. NEW YORK.—One of the most effective and terrifying new weapons to come from Hitler's blitzkrieg arsenal has been the dive bomber. Yet the dive bomber is neither new nor Hitler's. It made its appearance in America's navy as early as 1924.

It is no accident that dive bombing is the U. S. Navy's brain child. America's admirals have long been alert to the possibilities—advantages and dangers—of a naval air arm. Planes have three distinct uses in naval warfare: as offensive weapons, bombing and torpedoing enemy concentrations; as defensive weapons against enemy planes; as scouts and eyes of the fleet, finding the enemy and then directing the fire of battleships beyond the horizon.

To carry out these various jobs, the navy employs many kinds of planes, based on both land and sea. In addition to carriers, planes are based on battleships (three-plus each), from which they can be launched by catapults, and on special smaller plane tenders. Many types of U. S. Navy planes are universally considered the world's finest.

Huge patrol bombers, like the Consolidated "Catalina," which sighted the Bismarck for Britain's top-bound naval forces, have a tremendous range, exceeding 5000 miles. One of these bombers can watch many thousand square miles of sea in one day.

Short-ranged, but very deadly, are the scout bombers which perform the double duties implied in their name. Many of these are also convertible into dive bombers. The navy still believes that dive bombers are most effective in the role for which it created them—to attack ships.

Dive bombing calls for the peak of physical perfection in both pilot and plane. Both must be able to withstand the terrific strain of an almost vertical power dive, hurtling towards the up-rushing sea at a speed approaching eight miles a minute. Screaming down from perhaps 20,000 feet to within a couple of thousand feet of his target, the pilot drops his bomb and "pulls out."

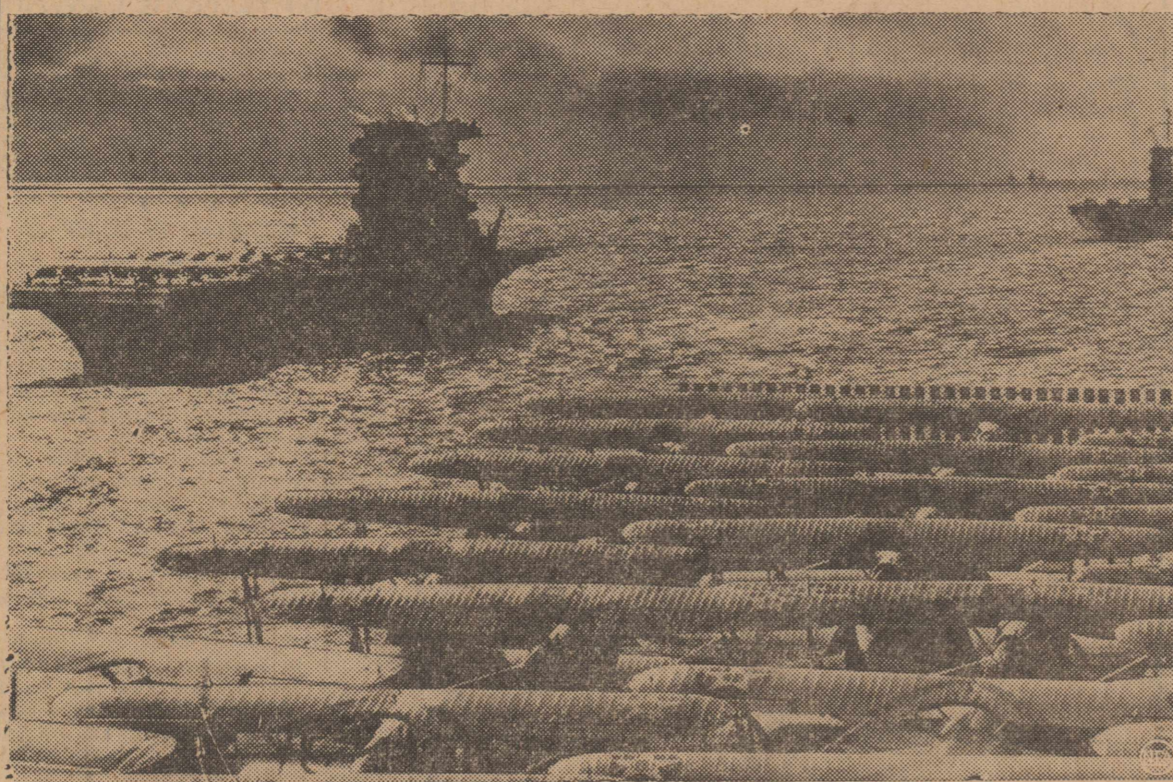

This is the crucial moment for both pilot and plane, for gravity pulls them with tremendous force back towards the sea. As it does so, the pilot momentarily loses consciousness.

To take care of these critical seconds, the Nazis reportedly equipped their dive bombers with a device to freeze the stick as the plane pulled out, until the pilot could regain consciousness and take control.

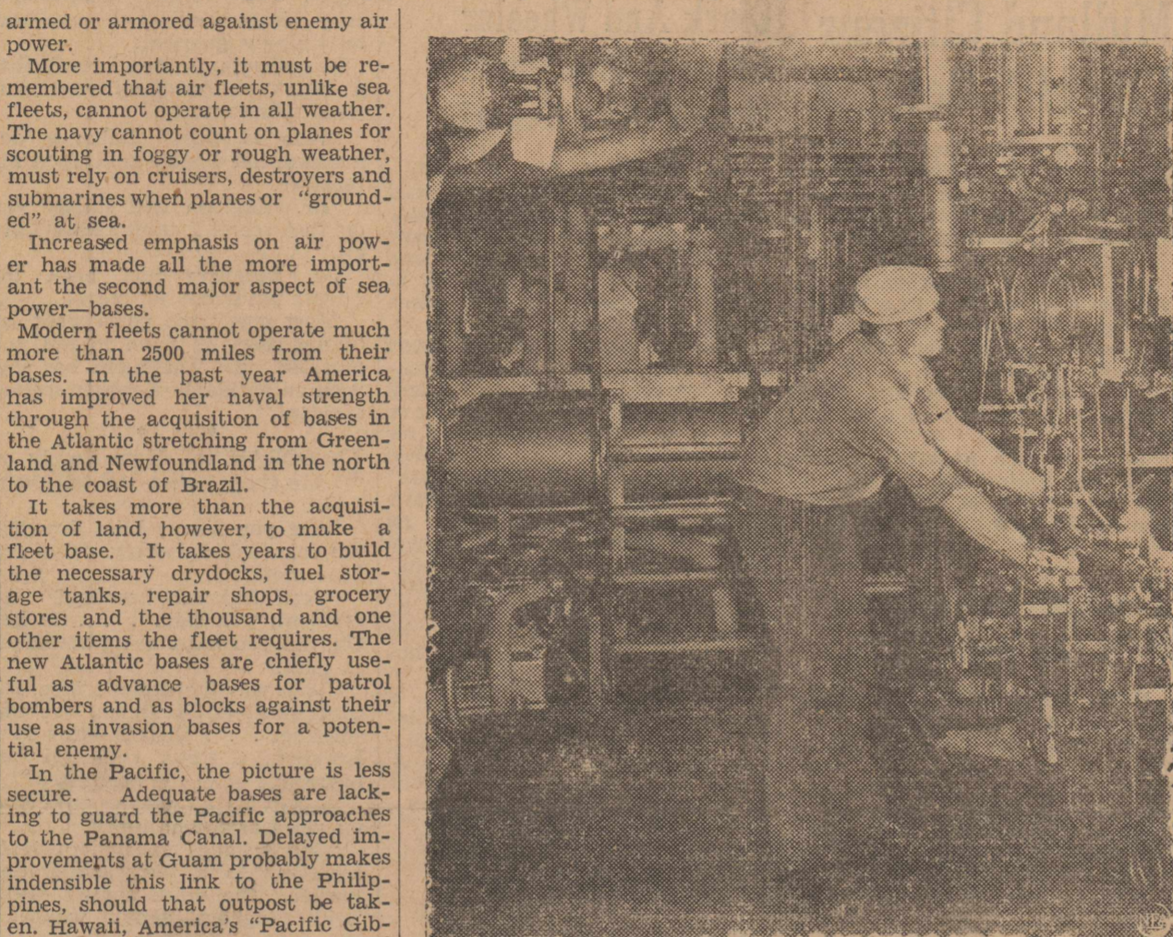

Dive bombers are the most spectacular, but by no means the most important, of the navy's air arm. The value of torpedo planes was proven by the British air attack on Italian ships at Taranto and again against the Bismarck.

One criterion of any navy's strength is the capacity of her aircraft carriers and the speed with which they can get their warbirds aloft. The U. S. Navy's carriers hold nearly twice as many (up to 120) planes as foreign carriers, can launch them almost three times as fast.

If air power is the navy's strength, it is also its weakness. On land, there are less than half of its 10,000-plane goal. And America's ships, though speedily preparing, are not yet fully armed or armored against enemy air power.

"One criterion of any navy's air strength is the capacity of her aircraft carriers. The U. S. Navy's carriers hold nearly twice as many planes as foreign carriers." Here, decks, covered with planes, the Ranger, Saratoga, and Lexington steam through the Pacific on maneuvers.

"The navy is a vastly complex machine which can be run only by highly skilled technicians."

ships and bases. The third aspect of sea power is men. Without its men, the navy's ships and bases are just so many derelicts and so much real estate. Fortunately, the U. S. Navy's strongest point is its living men-o'-war.

Soldiers and sailors both, the Marines are trained to fight ashore and ashore. Called the navy's army, they are it most highly selected human material. Only one volunteer in seven is accepted to make up the 50,000 "devil dogs" whose bravery and risks are fabled Americana. In the last war, every third Marine who fought was decorated for bravery.

What the U. S. Navy at present lacks in bases is partially offset by the recent promise of President Roosevelt, the navy's Commander-in-Chief, that the Navy will resist all attempts of any potential enemy to seize bases that might be used against America.

Such is the navy's position in the Pacific, the picture is less secure. Adequate bases are lacking to guard the Pacific approaches to the Panama Canal. Delayed improvements at Guam probably makes indelible this link to the Philippines, should that outpost be taken. Hawaii, America's "Pacific Gibraltar," is fairly well ready and will soon be supported from air and submarine bases in Alaska. These are the northernmost of America's 25 coastal bases.

Governor Cites Record In Talk For Senate Seat

By The Associated Press Each of the four Texas senatorial candidates padded his own canoe today among sudden shoals and confusing cross-currents represented by voting opinion in a campaign distinguished by the absence of disagreement on issues.

The four major aspirants have said they agree on the two most prominent issues. All of them have endorsed the national defense program and pensions for the aged, although they may not see eye-to-eye on how results can best be obtained.

Gov. W. Lee O'Daniel continued his campaign by proxy last night with a transcribed speech at Yoakum in which he asked that his record as governor be considered as the basis for his election to the Senate.

Asserts Mann Erred At San Angelo Attorney General Gerald C. Mann declared in a talk that the senatorial race had narrowed down to himself and the governor.

Congressman Lyndon Johnson asserted at Lubbock that Mann erred in saying that "the Congressmen in the Senate race voted against parity for the farmers."

He told an audience that both he and Martin Dies had voted no on a motion by Representative Cannon of Missouri to reduce the amount contained in a Senate amendment to the farm bill from \$85,000,000 to \$72,678,812. Dies in an address at Mexia warned that seven million members of foreign-controlled organizations are pledged to overthrow the United States government and that if immediate steps are not taken the defense program would be sabotaged.

Keep Appetites Interested With Summer Dishes

By Mrs. Gaynor Maddox NEA Service Staff Writer.

The family appetite gets a little weary with the first hot weather. Surprise the family with a few different recipes.

Frankfurters De Luxe Parboil frankfurters and split them in halves lengthwise. Spread the cut side with mustard and put together again. Wrap each frankfurter with a strip of bacon and skewer in place with toothpick. Cook in a frying pan until the bacon is crisp and brown.

Fried Tomatoes With Cream Gravy Cut firm tomatoes in thick slices, season them with salt and pepper and dredge with flour. Fry in salt pork fat until well browned on both sides. Remove the tomatoes from the pan and keep them hot. If there is a large amount of fat left in the pan, pour off all but about 2 tablespoonsful. Add 1 1/2 tablespoons of flour and pour in a cup of milk gradually. Cook until thickened, stirring constantly.

Season with salt and pepper and pour over the tomatoes.

Preserve Dessert (Serves 4 to 6) One cup preserves, 2/3 cup water, juice of 1 lemon, 2 tablespoons butter, 1/8 teaspoon salt, 1 1/2 cups dry sifted bread crumbs.

Put preserves, water, lemon juice, butter, and salt in saucepan. Heat to boiling. Mix with crumbs. Pack into mold and chill thoroughly. Serve with top milk and thin cream.

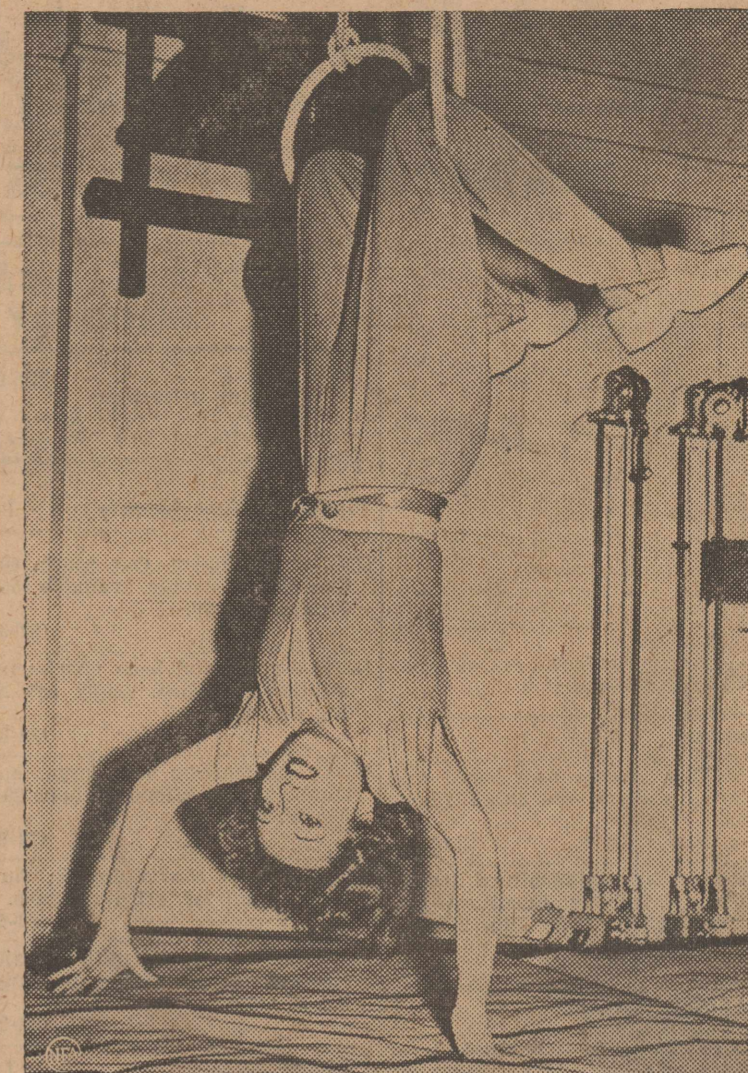

Plum Tapioca (Serves 4 to 6) Two cups plums, 1 cup boiling water, 1/2 to 3/4 cup sugar, pinch salt, 3 tablespoons quickly-cooking tapioca.

Put the plums and cut them in pieces before measuring. Add the water and sugar and cook until the plums are soft. Add the tapioca and salt and cook in a double boiler for about 20 minutes or until the tapioca is clear. Stir occasionally.

MENU BREAKFAST: Orange juice, fried eggs, bacon, rolls, coffee, milk. LUNCHEON: Peanut butter sandwiches, apple sauce, cookies.

DINNER: Fried ham, mustard gravy, mashed potatoes, green beans with parsley, celery hearts, plum tapioca, iced coffee, milk.

No Swan Song for Swanson

Gloria Swanson, super siren of the silents and for seven years just a movie memory, gets a topsy-turvy start at making a film comeback. You'll see her swinging on these rings in gymnasium scene of her picture, "Father Takes a Wife."

Will Close Sermon Series Tomorrow

Dr. W. Angie Smith of Dallas will preach his concluding sermons in the Methodist revival here tomorrow morning and evening. The public is invited to hear him in his last addresses here. Increasing attendance daily has marked Dr. Smith's services here through this week. Last night's sermon was on "The Everlasting Sameness."

ROCKY MOUNTAIN RAILROAD WILL ADD STREAMLINERS

DENVER (UP)—A stainless steel Diesel-electric passenger train will glide out of the Denver & Rio Grande railroad station here on Aug. 1, toward Salt Lake City, to inaugurate the first exclusive Rocky Mountain streamliner service.

Two of the gleaming speedsters, appropriately named the "Prospectors," will be placed in service on that date to extend light-weight, high-speed passenger service over the mineral-rich, 550-mile mountain route to the Utah capital.

Blond hair contracts and expands in reaction to humidity, but the reaction of brown and red hair is scarcely noticeable.

She Also Carols

Presenting Miss Carol Bruce of Great Neck, L. I., lately of "Louisiana Purchase," and still later of the movies. In her first picture, not yet titled, she sings, wears sailor pants, acts and looks pretty.

ENGLISH BLITZ FAMILY TAKES NAME OF BLISS

LONDON (UP)—Charlie Blitz, of Clapton, has had enough of his name, and has decided to get rid of it. Neighbors, office friends, colleagues in the A. R. P. organization twitted him, asked about "Adolf" and "Hermann." They talked about things not going quite to plan. Mrs. Blitz, too, had a lot of chaff to stand from the grocer and the butcher. And the little Blitzes at school were asked what it was like at the other end of the blitzkrieg.

FRENCH GUARD TAKES OFFENSIVE NEAR DAMASCUS

DAMASCUS, Syria, June 12—(AP)—French advance guards in the Kissove sector of Damascus' outlying defenses were reported officially tonight to have taken the offensive against the British.

Grooming Tricks Are Aids For Busy Career Woman

By Alicia Hart NEA Service Staff Writer

It never is exactly simple for the career girl to go directly from office to cocktail or dinner date looking as fresh, rested and clean as the girl who has been at home all afternoon, bathing, doing her face, pressing her clothes and what not.

During summer months the problem is even more difficult. However, it's not a problem which can't be solved. Thousands do solve it—every day—but only because they are far-sighted and have learned a few tricks and short cuts to good grooming.

Among the grooming tricks many a career woman employs are: Keeping a pair of clean stockings, a pair of clean white gloves and a clean handkerchief in the drawer of her desk.

Having a handy makeup kit which contains cooling skin lotion, a bottle of eye-wash, a deodorant and a small bottle of lightly-scented cologne as well as cleansing cream, foundation, powder, rouge and hand lotion.

GROOMING TIPS FOR WHITE COLLAR GIRL

The ability to remove chipped or cracked nail polish and replace it with a fresh coat in record time. The ability to close her eyes, put her head on her arms and relax completely for five minutes before putting on fresh makeup.

In addition, she knows how to brush her hair in such a way that excess oil is removed but the wave isn't. She can hurry through face and neck cleaning, hair brushing and making up without getting jittery and just about tearful.

She can turn sleeves inside out and finger press the wrinkles out of them. What she can't do, however, is have a dress cleaned or a coat pressed between five and the dinner hour. This is where her far-sightedness comes in handy. She keeps her wardrobe in order all of the time—she has to—and so never goes to the office in a dress that isn't clean enough to wear out to dinner or a coat that is badly wrinkled.

Large advertisement for Grand Prize Beer featuring a man in a suit sitting in a chair, and text about having a well-baked boss for dinner. Includes the slogan 'GRAND PRIZE IS GRAND-TASTIN' BEER!' and images of beer bottles.
