France Declares Vichy Receives No British Reply

Darlan Makes Visit To Germany While Britain Continues Syrian War

By The Associated Press

VICHY, France—A Vichy proposal of armistice to end the month-old Syrian war between Vichy forces and British imperial troops and their de Gaulist comrades-in-arms ran into puzzling complications Wednesday as Vice Premier Admiral Jean Darlan returned from Paris conferences with German officials...

The war continued and a contradiction in Vichy statements cropped up.

Wednesday the authoritative Tel-emondial news agency announced Vichy was studying allied conditions for an armistice, requested by General Henri Dentz, high commissioner and commander-in-chief in Syria and Lebanon.

Thursday a French statement said: "No reply has yet been made by the British authorities to General Dentz, who, on the contrary, found himself faced with redoubled British attacks on all fronts and who learned with sorrow that pamphlets offensive to his dignity and military honor were being distributed at Beirut by British agents."

Dentz asked for terms on Tuesday. As a prelude (or possibly part of the armistice) the British demanded Wednesday that Beirut, capital of Lebanon, be declared an open city and yielded without bloodshed to the Allied siege forces.

The Allied requirements for cessation of the combined British and Free French drive into Syria presumably are such that if they are agreed to they will give Britain control of this strategic territory which Nazism has tried to secure and would give much to possess.

This French mandated country is the pivot upon which turn vast political and military issues.

"An immediate reply was given, stating our terms," the British source asserted.

Leaders To Conduct USO Midland Drive

Curt Inman, director of the United Service Organization in Midland County, announced Thursday he would appoint four leaders to conduct a campaign in the city.

Inman said the business district would be divided into four sectors with leaders appointing workers for each sector.

A one-day drive for funds will be made.

**Better Relations With Mexico**

Another corner has been knocked off the three-year oil controversy with Mexico. Penn-Mex Fuel, a Sinclair subsidiary, accepted \$300,000 in cash for its expropriated holdings.

That is a small part of the American and British holdings expropriated March 18, 1938. Yet settlement of even a small part is a hopeful sign, and certainly suggests that Mexico is willing to pay for the properties taken over, if and as she can. Prompt payment of a million dollars recently as compensation for certain land expropriation was also made, a further demonstration of responsibility.

Mexico has from the start firmly stood on the ground that the taking over of the oil properties was not confiscation, but expropriation—that is, the intent always was to pay for them. The United States has never seriously disputed the right of a sovereign government like that of Mexico to expropriate natural resources like oil in the ground, always provided that proper and just payment is made to the owners.

Thus the whole long-standing dispute has been a matter of how much shall Mexico pay, and when. That is where repeated negotiations broke down. The American companies whose property was taken over claim a valuation which the Mexican government does not admit, but no appraisal has ever been made by parties not directly interested. Since the principal problem remaining is that of setting a valuation mutually agreeable, and fixing terms of payment, the thing to do would seem to be just that.

The Mexican governmental regime has demonstrated its increasing stability since the expropriation. The change over from the Cardenas to the Avila Camacho regime was accomplished in an orderly manner for the most part, and the new administration has improved the financial condition of the country and its general business stability.

Mexico has aligned its foreign policy more closely than ever before with that of the United States, and has extended co-operation in military and anti-Fifth Column activities. Trade and travel between the two countries are increasing.

Isn't it a good time, in the midst of a world of strife, to demonstrate that reasonable men on both sides of the borders can amicably and fairly adjust a commercial controversy that has been too long a thorn in the side of the relationships between two neighboring peoples?

Buy Defense Bonds

**Get The Defense Bond Habit**

Whether the Treasury is satisfied with the sale of Defense Bonds to date, we don't know. But it seems to us that not enough people have yet realized the obligation.

In May, \$441,752,000 worth of Defense Bonds and Stamps were bought, and in June only \$272,000,000 worth. Thus in two months not quite three quarters of a billion dollars have been directly lent to the government for defense.

It isn't enough. More people must constantly realize the double purpose served by these bonds, and old purchasers must keep coming back, making a weekly or monthly habit of buying them. They are at once the best means of saving against any post-war emergency, and of diverting excess purchasing power from a rush of bidding for a declining amount of goods—which means higher prices in spite of any controls.

**Was It Or Wasn't It?**

The American Peace Mobilization, one of the most vociferous organizations working against the national policy of aid to Britain, and which has opposed most of the steps taken to aid the democracies, has suddenly plunked for all-out aid to all countries fighting the Axis.

This is the organization which for 40 days kept an annoying picket in front of the White House in protest against national foreign policy. The picket was withdrawn just before Hitler moved against Russia.

This is the organization that was against Lend-Lease, and which lauded the Stalin regime as a "great neutral" in the conflict because as such it might exercise a great influence for peace. But now it suddenly believes that the United States should no longer preserve any such Olympic impartiality, but should get in and pitch against the Axis (which is certainly the same Axis it was before it attacked Russia).

It was frequently said that the American Peace Mobilization was Communist-dominated. In view of the record both before and after the invasion of Russia, what do you think?

**Soldier Attempts To Speed Up Train But Draws Confinement**

BRIDGEWATER, Mass. (AP.)—The train was going so slowly to please a husky soldier sitting in one of the ten passenger cars. So he took the most direct action possible.

Railroad officials related that Wednesday night he climbed over the coal tender and into the locomotive cab and there attempted to take over the controls to speed things up.

The engineer and the fireman tussled with the man along a five-mile stretch. The conductor and other members of the crew came to their aid and they halted the train as it pulled into Brockton station. One Charge Dropped.

Jumping from the cab then, the soldier fled but was captured after a short chase. A resident of Bridgewater, where he boarded the train, said he was on furlough from Camp Hulen, Tex.

In district court today, the soldier, Private Walter Pastuski, 19, pleaded guilty to interference with the operation of a public railroad and was sentenced to six months in the house of correction. A drunkenness charge was dropped.

After Pastuski left to begin serving his sentence, his parents announced they would have him file an appeal, provide bail and see to it that he got back to Camp Hulen by Tuesday when his furlough is over.

**British Daylight Raid Damages Sicilian Port**

CAIRO, Egypt. (AP.)—Three Italian seaplanes were destroyed by fire, several others were damaged and "numerous" casualties were inflicted by machinegun fire in a daylight British air raid on the Sicilian port of Syracuse Wednesday, the RAF Middle East communique reported Thursday.

The assault on the Italian island just off the toe of the Italian homeland was mentioned among widespread RAF assaults on North Africa and Syria.

**Wheat Farmers May Put Grain In Fields**

KANSAS CITY, (AP.)—Halfway through harvesting, Kansas wheat farmers face for the second time this year a threat of having to pile part of their big 1941 crop in open fields.

The first threat passed when railroads rushed a sizeable quantity of box cars from eastern defense jobs to relieve an impending shortage that had endangered the movement of grain to market.

The second developed as the Kansas City board of trade told farmers Wednesday this city's elevators—forming the largest primary hard winter wheat terminal in the nation—could accept no more grain for storage or loan purposes except by prearrangement.

Members of the Banner Club, meeting with Mrs. John Godwin, 315 W. Texas, Wednesday afternoon, planned a watermelon feast for members, families, and guests at Cloverdale Park, Thursday night.

Sewing of various types engaged the group during the afternoon and a refreshment course was served.

Present were: Mmes. C. V. Shelton, C. A. Brown, O. V. Kelley, W. C. Ravan, Paul Cole, C. V. Bassham, C. H. Brown, and the hostess.

The club will meet with Mrs. C. H. Brown, 407 S. Baird, next Wednesday afternoon.

**Shaughnessy Relates Story Of Improving Famous T Formation**

LOGAN, Utah (UP)—The remarkable "rags to riches" story of Stanford's Coach Clark Shaughnessy was told here by the man who should know best about such things—Shaughnessy.

Speaking before a crowd of 125 coaches and followers at the Utah "Aggies" field house, the 50-year-old mentor told of his one-season rise from the forgotten man to the No. 1 coach of the nation, and he credited it all on the frilling up of the old "T" formation.

Shaughnessy says that for years coaches have been schooling their men in the art of blocking, tackling, and passing.

"Phokey to that idea," admonished the man who brought Stanford from the bottom of last year to win a title this season. "I don't care whether a man can block or not in the backfield. I want players who can run fast, handle the ball, catch, pass, and fake. And most of all, I want a man who can fake."

No "Spirit of Sacrifice" Shaughnessy says most blocking backs believe they are making a sacrifice for the team every time they take another man out, while all the time they are dying to get a chance at carrying the ball. The coach called this "bum" psychology, and that every man in the "T" formation backfield can carry the ball anytime he is in a position to do so.

"The boys like to play this style," he said. "There's more monkeying around, and they get a lot of fun out of it. This makes them work harder and builds team morale. Not to mention the fact that it gives the grandstand something to pay to see."

Shaughnessy admitted the key to the entire Stanford successful offense was deception. He pointed out that in every play, all players do the same thing when the ball is snapped, thus throwing the other team off balance when it tries to figure out the play.

In the brief moment or two while the opposition is stymied as to where the ball is and who has it, the ball carrier "is off and away for another touchdown."

**British Resume Attacks On Italy**

ROME, (AP.)—Renewal of British air attacks on Italy proper after a lapse of many weeks was reported Thursday by the Italian high command—a low-level daylight thrust at Syracuse and a blow by night at Naples which resulted in 14 civilians killed and 30 injured.

(Whether these were to be isolated operations or the opening of a sustained offensive similar to the RAF operation against Germany now more than a month old, remained to be seen. So far as the Italian communique indicated, the two places were attacked without challenge from the Italian air force.)

## Mrs. Chancellor Is Complimented At Morning Coffee

In courtesy to Mrs. Wm. Chancellor who has recently moved here from Oklahoma City, Mrs. Walter Jarrett, 906 W. Storey, was hostess for an informal coffee, Wednesday morning at 10 o'clock.

Quantities of garden flowers were used in the reception rooms and on the coffee table.

Mrs. Wm. Y. Penn and Mrs. W. E. Ryan poured and Mrs. Glenn Lewis assisted in serving.

Approximately thirty to forty guests called.

## Midland Girls Make Visit To White Sands

Midland girls took part, with other campers, in Fourth of July festivities at Camp Carrizo at Ruidoso, New Mexico.

Most of the campers attended the rodeo in Ruidoso on the afternoon of the Fourth and afterward families and friends of the campers and counsellors attended a huge barbecue at the camp. Square-dancing in the dormitory living room followed the meal.

Ellana Eastham was queen in her class skit, Saturday night. Alma Faye Cowden and Dorothy Holt were also on the program. Florence Larsh appeared in a dual role.

Elaine Hedrick gave a selection at the Sunday vespers program.

Ann Ulmer has been working on Burro Brays, the camp newspaper.

All the Midland girls except Elaine Hedrick made the bus trip to White Sands National Park, Sunday afternoon. The trip is an annual affair at camp. Elaine's mother was visiting her, so Elaine did not go.

## Coming Events

### FRIDAY.

Belmont Bible Class will meet with Mrs. W. M. Craft at the home of Mrs. J. M. Hughes, 501 N. Weatherford, Friday afternoon at four o'clock.

Westside Home Demonstration Club will have its annual picnic at Cloverdale Park, Friday evening. Supper will be served at 8 o'clock.

Red Cross workroom at the old Baptist annex on N. Main street will be open Friday morning from 9 o'clock until 12. Midland women are urged to assist in the sewing and knitting.

Children's Service League will meet with Mrs. Walter Collins, 1207 W. Texas, Friday afternoon at 2:00 o'clock.

Women's Golf Association will have its weekly luncheon at the Country Club Friday at one o'clock. Hostesses will be Mrs. J. A. Mascho, Mrs. Leland Davison, and Mrs. H. S. Forgeron.

### SATURDAY.

Story Hour will be held in the children's library at the courthouse, Saturday morning at 10 o'clock.

Midland County Museum in the courthouse will be open Saturday from 10:30 o'clock in the morning to 1 in the afternoon. The public is invited.

## Cattle Imports Total 316,000

LAREDO. (AP).—Imports of cattle through the Laredo and El Paso customs districts totaled 316,984 head during the fiscal year ending June 30, according to a report by Harry P. Hornby, collector of customs.

A total of 86,242 head was imported into the Laredo customs district during the past year. Eagle Pass led with 43,097 head, Laredo was second with 13,120 head and Del Rio was third with 5,662 head. The ports of Brownsville, Hidalgo and Roma made up the balance.

In the El Paso district, of which Adrain Pool is collector, 230,742 head were imported.

Mexican cattle are reported in fairly good condition at this time.

MONTANAN SAYS U. S. INVASION NOT NEEDED

LOS ANGELES. (AP).—Senator James E. Murray of Montana, says he sees "no need for any (United States) invasion of Europe to beat the Germans."

"I think there is a very considerable opinion in Washington along that line. The war will be settled by air and sea power. This country can make the planes and ships, out of reach of the Nazis."

## Flame Red—But Cool

This summer suit of red and white washable plaid seersucker is indeed an all-purpose outfit. The conservative tailoring tempers the red background enough to make the suit practical for office wear, yet leaves it gay enough for weekends in the country or at the seashore. The jacket has rounded shoulders. The dress has a top of handkerchief gingham.

## FEMININE FANCIES

By Kathleen Eiland

That darling of former years, the tiered skirt, is beginning to be featured in fashion news again. After all these years the first views of tiers seem odd, but we predict that as the months go on, the double-or-triple-flounced skirt will again be received with favor.

By the way, a clever adaptation of the style is seen in the afternoon dress which boasts two tiers but is transformed into a delightful evening dress by the simple process of adding a third tier (on a petticoat top) to give a skirt floor-length glamor for dusk-and-after engagements.

Not such a bad idea, we think, for the budget-bound career girl.

It's like an echo of "Backward, turn backward, Oh Time in thy flight" to read of the new outdoor furniture of hide. Yes, h-i-d-e.

We can understand the use of hide as covering for chair seats and backs but we find it a bit difficult to grasp the use of hide-topped tables. Apart from their not-altogether-delightful oddity, it strikes us that hide tops on tables meant for real use might sacrifice utility for the doubtful gain of being "different." That's just our idea, of course. But we'll take wood or glass-topped tables in our dream house, thank you.

Now that the United States has decided to be big brotherly and "protective" to little Iceland, we prophesy that we'll soon be seeing the Icelandic note in costumes. As a matter of fact, we could appreciate a considerable addition of iciness to our wardrobe on some of these hot days—especially on the afternoons when the clock hands seem to be stalled at two hours till closing time.

## Happy Relief From Painful Backache

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with quivering and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

## Sam Prestons Are Hosts For Barbecue At Ranch Home

Mr. and Mrs. Sam Preston entertained at their ranch home, twenty-five miles south of town, with a barbecue Wednesday evening for members of the Greasewood Home Demonstration Club, their husbands and families, and a group of invited guests.

After the barbecue meal old-fashioned modern dancing on an outdoor platform supplied the amusement for the evening.

About 100 guests were present including the following from out-of-town: Mr. and Mrs. Leslie Douglas of Houston, Mrs. Willie Babb and son of Amarillo, Mr. and Mrs. Basil Kesthly of Garden City, and Mr. and Mrs. Carr of Portales, N. M.

## Mrs. Martis Miller Elected President At Club Meeting

Officers for the new year were elected by members of the Miriam Club meeting at the I.O.O.F. Hall, Wednesday afternoon.

Mrs. Martis Miller was named president; Mrs. Margaret Fuller vice president; Mrs. Lucile Klatt secretary-treasurer; Mrs. Grace Delaney chaplain; and Mrs. Leota Johnson reporter.

The electees will take office on the next meeting night, July 16.

Mrs. Johnson and Mrs. Annabel Carden were hostesses for the meeting. A refreshment course was served.

Present were: Meses. Miller, Fuller, Klatt, Delaney, Dora Friday, Emma Hall, Florence Floyd, and the hostesses.

Mrs. Klatt and Mrs. Friday will be hostesses to the meeting of the club next Wednesday afternoon at 2:30 o'clock.

## Find One Special As A Treat For Sunday Breakfast

By Mrs. Gaynor Maddox, N.E.A. Service Staff Writer.

Sunday breakfast should have at least one special. Try these remarkable coconut whirls. They are inexpensive but nutritious.

**Coconut Whirls** (12 fairly large biscuits)  
Two cups flour, 3 teaspoons baking powder, 1 teaspoon salt, 4 tablespoons butter (or other shortening), 2/3 cup milk.

**FILLING:** 4 tablespoons butter, 3/4 cup dark brown sugar, 3/4 cup coconut.

Sift flour, baking powder, and salt together. Cut in 4 tablespoons shortening with two knives or a pastry blender until the mixture resembles coarse corn meal. Pour all the milk into a hollow in the center of the flour mixture, and with a fork toss the flour into the milk. When the mixture sticks together, turn onto a lightly floured board. Roll the dough into a sheet about 8 by 12 inches. Spread with filling of four tablespoons melted butter, brown sugar, and coconut. Roll dough as for jelly roll. Cut 1-inch slices and place close together, cut side down, in greased layer cake dish. Bake in a hot oven (415 degrees F.) for about 20 minutes. Serve immediately.

**Strawberry Sponge Cake** (6 generous servings)  
Two eggs, 1/2 cup sugar, 1 tablespoon water, 1/8 teaspoon salt, 1/2 teaspoon grated lemon rind, 1/2 cup sifted cake flour, 1 quart strawberries, 1/4 cup sugar (about), 1/2 pint heavy cream.

Separate eggs. Beat yolks until lemon colored and thick. Add sugar and water slowly, beating to the peak stage, but not until dry. Fold into the egg yolk mixture. Add lemon rind and flour slowly and fold together. Pour into an ungreased heat resistant glass layer cake dish and bake in a slow oven, 320 degrees F., for about 45 to 50 minutes. When the cake is done, the crust will be golden brown and the cake will spring back into place on being lightly touched.

Clean and hull berries; select a few for decoration. Crush remainder of berries slightly and add sugar. Let stand a while, then pour over cake. Whip cream and spread over berries and garnish. If desired, the whipped cream may have sugar and vanilla extract added.

### Tomorrow's Menu.

**BREAKFAST:** Sliced bananas and prunes, coconut whirls, coffee, milk.

**LUNCHEON:** Tuna fish salad, whole wheat toast, fruit bowl, tea, milk.

**DINNER:** Fried fish, tartar sauce, mashed potatoes, spinach with egg, fresh raspberry Bavarian, coffee, milk.

## Four Are Guests At Meeting Of Bluebonnet Club

Four guests were present when members of the Bluebonnet Club met with Mrs. W. E. Shipp, 607 W. Kansas, Wednesday afternoon. They were Mrs. W. A. Black, Mrs. A. B. Wheeler, Mrs. Emma West, and Mrs. J. P. McClarty.

Needlepoint, crochet, and similar handwork, along with conversation amused the group.

An iced refreshment course was served.

Members attending were: Meses. J. H. Barron, W. W. Wimberly, Mary S. Ray, D. W. Brunson, M. L. Wyatt, V. Z. Wren, Brooks Pemberton, and the hostess.

Next meeting of the club will be with Mrs. M. L. Wyatt at the home of Mrs. A. W. Wyatt.

## Red Cross Holds Hopes For Nurses

WASHINGTON. (AP).—National headquarters of the American Red Cross, refusing to give up hope for seven nurses and one Red Cross worker feared lost at sea, waited anxiously Thursday for further information from the Navy or the State Department.

Six of the 10 nurses who sailed June 5 for England aboard a British vessel are missing. Red Cross officials reported their ship, which was not identified, was torpedoed about two weeks ago.

Mrs. Ruth Breckenridge, society woman of Winston-Salem, N. C., a volunteer and Miss Maxine C. Loomis of Springfield, Mass., the seventh nurse, were aboard the Dutch ship Maasdam, sunk several days after it sailed from an Atlantic port early in June. They have not been heard from.

**Lear Insists On Soldierly Habits**

MEMPHIS, Tenn., (AP.)—Stern-visaged Lieut. Gen. Ben Lear has replied to congressional criticism of the penance march he ordered for yoo-hooing troops with a declaration that as long as he remains second army commander "soldierly standards of conduct will be demanded of all individuals in uniform."

Gen. Lear telegraphed Rep. Kilday (D-Tex), member of a special House subcommittee investigating personnel matters in the defense program, who Wednesday wired Lear he contemplated a resolution to investigate "severe punishment" of some 350 soldiers for yelling at golfers as they passed through Memphis Sunday. The general said his action was "neither unjust nor severe."

Lear's response added the conduct of the group punished with a 150-mile march from Memphis to Camp Robinson, Ark., partly afoot, "was in marked contrast to the soldierly and gentlemanly behavior of the vast majority of men" in the recent Tennessee maneuvers.

**Gayda Says Iceland Entry Is Cause For Nazi Attack**

ROME. (AP.)—Authoritative Fascist editor Virginio Gayda observed Thursday that American and British troops in Iceland were "the targets for eventual legitimate attack by Germany."

Writing in the newspaper Il Giornale D'Italia he added: "Every day American bellicosity has identified itself without equivocation as a deliberate provoker of some incident, or rather of a war between Europe and the United States."

**Heath . . .**

(Continued from page 1) handle the problem.

"It will be necessary first to know the peak population increase," he explained.

To find the answer to the question, contacts are being made with government agencies and contractors.

**Plans Census**

Heath plans to install soon a permanent, continuing census system in the school district so he will know at all times how many boys and girls of school age live in the Midland district. He will ask utility companies, transportation companies, oil companies and executives of concerns who know when persons move into Midland and leave the city to report all moves to his office. The system will be based on those used successfully in Denver and Amarillo.

One of the first assignments undertaken by the 37-year old school head who came here from White Deer, where he had an outstanding reputation as a school superintendent, was to try to interest students from rural areas and nearby communities in Midland schools and to get them to come here for their education.

He is studying proposals for a transportation system to bring in rural students.

The new vocational agricultural course which he has installed in the system will interest, especially, students from rural communities.

Heath also said he hopes to extend the school's guidance program to aid students in selecting proper courses of study and vocations. He said the school district will work closely with health and safety authorities of Midland to protect both children and adults.

Study Proposals He explained the school district would like to offer any adult education needed in Midland and that programs along this line also were being studied. Proposals to extend work in diversified occupations also are being considered and are favored by Heath. Heath invites suggestions for the school system and urges persons to visit his office. He is anxious to discuss school affairs with citizens.

"I'm disregarding all rumors and digging in to find out things for myself," he asserted, looking up from a pile of papers on his desk.

"We want to bring every possible advantage to the boys and girls of Midland, give service and continue to build our outstanding school system."

He plans no radical changes in personnel of the schools and suggests that all teachers make plans immediately for living quarters next Fall due to the expected shortage of housing here.

# Mackeys Take 5-2 Game From Texas

### Maedgen Hits Long Home Run As Team Keeps Merry Pace

Jim Maedgen willowed a long home run in the fourth inning Wednesday night to touch off a three-run rally for Mackey Motors and it sent the Mackeys on to win, 5-2, from The Texas Company.

The Texans battled it out with Mackeys and provided stubborn resistance for the league champs. It was tied 1-1 until the fourth, the Texans scoring one in the first and Mackeys counting in the third.

A couple of giants, Pete Pace for Texas and Jim Adamson, tolled on the mound and both were in form all the way. Mackey got eight hits off Pace and the Texans nicked Adamson for six.

Maedgen came to bat first in the fourth and let the first pitched ball go by. Then he leaned into the second toss and rode it out to deep right-center for the long extra base clout. Hensley and Adamson came through with hits and runs to complete the rally.

## Howe's Turn In First Shutout Of Season In Women's Play But Lose Second Contest To Southern Icers

John P. Howe and Southern Ice split a brace of city softball games in the women's league Wednesday night, 4-0 and 9-13.

Howe's "girls in blue" served up the first shutout of the season in women's play by blanking the Icers in the first fracas. Mickey Musgrove was right and her mates helped subdue the Southern club.

The Icers utilized two big innings in the second, getting five runs in one and seven in another to come from behind and win.

Jewel Martin of the hard-hitting Martin sisters parked a home run for the Icers. It came in the fourth frame when the team accounted seven scores.

## Major League Teams Resume Pennant Chases With Brooklyn Dodgers And New York's Yankees In Spotlight

By Sid Feder  
Associated Press Sports Writer

This is the day when even the second guessers have to put the all-star game back in the cracker barrel to save something for next winter.

They'll have to forget the argument over whether Claude Passeau or Deacon Will McKechnie was the official goat, or whether Cecil Travis shouldn't cut a little piece of the hero's pie for throwing a body block at Billy Herman and spilling the game-winning double-play try in the ninth inning at Detroit.

Because the big leagues pick up the pennant chase again Thursday, and from here on, it's "every man for himself," as they say over in Brooklyn. They're also saying in Flatbush that there's nothing can stop the Dodgers now in the National League.

And, if that's the case—with the deft boys leading the Cardinals by three full games—it begins to look like the chances for the first "subway series" in four years are as bright as the nickel you'll need to get from the Yankee Stadium to Ebbetts Field.

**Yankees Are Hottest.**  
For, as the American League's eastern clubs begin their third swing through the west, the New York Yankees are the hottest things to come down the pike since the Yankees were burning up the place a couple of years ago. Riding a nine-game winning streak and 3 1/2 games out in front of the pack, the bombers from the Bronx wheel out their stuff in St. Louis Thursday night. They're top-heavy favorites to win this one—which would make it 16 victories in their last 18 outings—so the chief interest centers around whether Joe DiMaggio gets a hit to run his all-time record streak to 49 straight games.

At the same time, Cleveland's second-place Indians pick a soft touch in the Athletics to open their home stand, while Boston's Red Sox bring a four-game winning run into Detroit and Washington invades Chicago. In that Detroit venue, Old Mose Grove, who is running out his string now, will be gunning for the magical 300th victory of his grand career.

Five of the games on the opening big league program after the all-star lay-off help the electric companies no end. In addition to the St. Louis, Cleveland and Chicago

## Softball League May Change Rule

Managers and players of men's teams of the city softball league were scheduled to meet at 5:15 p. m. Thursday on the mezzanine floor of Hotel Scharbauer for discussion of rule changes.

League officials will propose an amended ruling to disallow runners scoring from third base unless batted in by a hitter or a steal when the ball is in possession of the pitcher or some infielder.

Complaints were raised about runners scoring on overthrow balls to the catcher.

### Union Pledges Its Cooperation On Defense Work

Members of the Brotherhood of Painters, Decorators and Paperhangers Union in Midland have pledged their support to contractors who will build Midland's \$4,500,000 Advanced Twin-Engine and Bomber Training Center for the U. S. Army Air Corps, and to all other National Defense work.

The union adopted a resolution at a recent meeting. It said in part: "This union will cooperate in every way possible to speed the job. There will be no advance in initiation fees and monthly dues, nor will there be any raise in the wage scale in this union."

The action was announced by James B. Lupton, secretary-treasurer.

John D. Hutchman was elected president of the local; L. O. McGallion of Odessa, vice-president; Lupton, secretary-treasurer and C. O. Fuller, business agent.

### Chrysler Strike At Detroit Makes 18,500 Men Idle

By The Associated Press.

A shutdown of four Chrysler automobile plants at Detroit was attributed Thursday to a strike at an automobile upholstery factory in the same city.

Approximately 18,500 Chrysler workers were made idle by the walk-out of CIO workers at the plant of National Automotive Fibres, Inc. Behind the strike was the union's demand for increased wages upon expiration of the present labor contract August 1.

The present wage scale was not disclosed, nor was the current rate at the Wickes Boiler Plant at Saginaw, Mich., where members of the steel workers organizing committee struck, making undisclosed wage demands. The Wickes factory manufactures boilers for army camps.

Federal Conciliator James F. Dewey declared that unless the strike at the upholstery plant is settled quickly, other automotive factories would be affected.

The National Defense Mediation Board called a meeting Thursday to consider a strike at the Sealed Air Corporation, Muskegon, Mich., where AFL workmen walked out Tuesday in a dispute over a union shop and wages.

AFL electrical workers who walked off a construction job at the government powder plant being built at Charlestown, Ind., agreed to come back to work today while their union agent negotiated with the War Department for higher pay.

### U. S. Armored Force A Lusty Youngster On First Birthday

A wave of light tanks and bombing planes moves across the 50,000-acre reservation at Fort Knox.

By NEA Service

FORT KNOX, Ky. — While the world read of titanic battles of 4000 tanks in a single engagement between the Germans and Russians, the products of 10 years and more of experiment and building, the United States Wednesday celebrated the first anniversary of its drive to develop a modern armored force. Until July 10, 1940, the United States had contented itself with certain mechanized brigades of infantry and cavalry made up of tanks and motorized units.

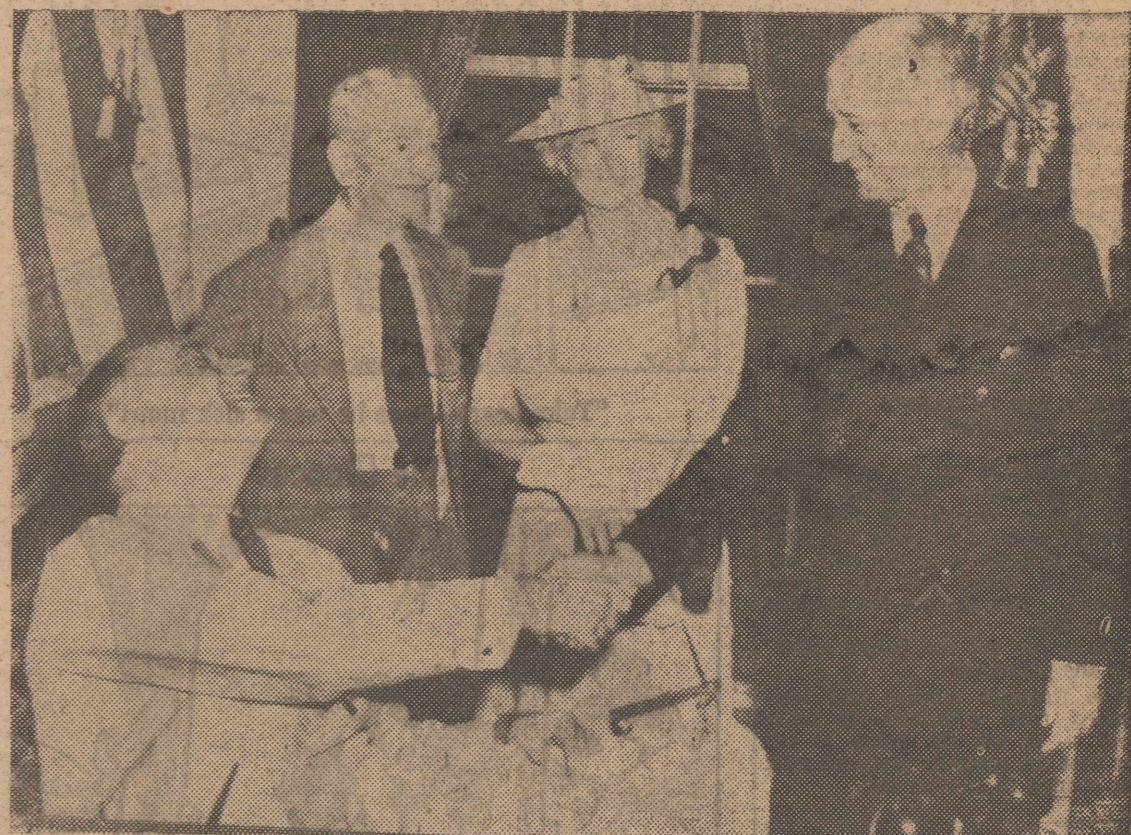

Then the armored force was formed. Today it has four armored divisions, 15 reserve tank battalions, a school graduating 22,000 technical specialists a year, and a replacement center turning out 900 selectees every 12 weeks trained to basic training of new men rather than ultra-polishing of permanent units. Nevertheless, officers in granting a day's holiday to all armored force men in celebration of that first anniversary feel that about all has been accomplished that could be expected in a single year.

None of the four existing armored divisions is regarded as complete and ready for combat on the European scale, first, because medium and heavy tanks have not yet arrived, because co-ordinated practice with the air arm regularly attached to the divisions has not yet been possible, and because much of the training time must be devoted to

armored force methods. basic training of new men rather than ultra-polishing of permanent units. Nevertheless, officers in granting a day's holiday to all armored force men in celebration of that first anniversary feel that about all has been accomplished that could be expected in a single year.

Maj.-Gen. Adna R. Chaffee is chief of the armored force, with headquarters at Fort Knox.

### Engineers Hunt For Key Metals

WASHINGTON, (UP.) — U. S. Bureau of Mines officials report that a corps of 500 technicians and engineers is making "unhoped for" progress in the nationwide search for new sources of strategic metals and minerals needed in defense production.

In less than two years of exploratory work, they said, the experts not only have made detailed surveys of known mineral reserves but have discovered as well numerous new deposits of some of the most essential metals for the defense program. Much of the exploratory work has dealt with deposits of antimony, chromite, manganese, mercury, nickel, tin, and tungsten found chiefly in Arizona, Arkansas, California, Idaho, Montana, Nevada, New Mexico, Oregon, South Dakota, Utah, Virginia and Washington.

### Realtor's Milk Program Would Build Up Children

BIRMINGHAM, Ala., (UP.)—W. D. Dobbins, a Birmingham real estate man, is steadily building support for a plan under which every child in the country, under 14 would receive a free quart of milk each day.

The Dobbins' proposal, which he hopes to have introduced in Congress as soon as some difficulties are ironed out, provides for an initial federal appropriation of \$600,000,000 to start operation of the plan — which he characterizes as a defense move.

He points out that 38 per cent of the first 1,000,000 draftees were declared unfit for military duty, largely because of malnutrition. Also cited are figures showing that 26 per cent of the nation's 45,000,000 school children are undernourished and liable to serious mental or physical illness.

### Alaskan Terrain Protects America

SALT LAKE CITY, Utah (UP.)—Famed "glacier priest," Rev. Bernard R. Hubbard is convinced that Alaska's rugged mountains and violent storms offer the United States a "perfect" bulwark against invasion from Asia — and at the same time the best base for offensive action abroad.

In Salt Lake City recently on a vacation from his multiple duties as scientist, explorer and now civilian defense advisor for the army, Father Hubbard scoffed at the theory America could be invaded either through Alaska or the Aleutian islands in the Pacific. "Alaska," he said, "is the logical stepping stone for mass flights of American warplanes across Asia and Europe.

"But, with the United States in control of all possible airdromes as well as strategic harbors in Alaska and the Aleutians, any military movement in the opposite direction would be extremely hazardous. A major air movement over Alaska's storm-swept mountains would be virtual suicide for an attacking force."

Father Hubbard said Alaska would be dominated by whatever force reached it first — and the U. S. army, already in control, "can hold it against any combination of enemies."

#### BRITISH THUNDERSTORMS FEWER DURING WARTIME

HUDDERSFIELD, Eng. (UP.) — Britain has had fewer storms, less thunder since the war began, says Mrs. Mabel Bower of Oakes, near Huddersfield, Yorkshire, Britain's No. 1 thunder spotter.

"We have had much less lightning reported, less thunder, few really big storms. I don't know why. I am trying to find out."

### We, the Women

By Ruth Millet  
The working girl who can afford to take a trip when her two weeks' vacation rolls around spends hours deciding just where she is going and what she is going to do when she gets there.

Somehow she manages, during luncheons and on Saturday afternoons, to get all her old clothes in shape and buy whatever new ones she can afford.

When she cleans up her desk the last night before vacation, she is all set to spend two weeks' time with but one object in view—to enjoy herself.

But the working girl who adds up her check stubs and finds she can't possibly manage to take a trip doesn't bother to make any preparations for her vacation.

She lets her clothes go and doesn't bother to pep them up with the addition of a few new things. She lets vacation time creep up on her without making any but the vaguest sort of plans.

When her friends ask her what she is going to do she says listlessly, "Oh, I don't know. I'll probably just putter around the apartment. There's quite a lot of work I want to do. And I'll catch up on some sleep I've been missing."

She wastes her precious two weeks doing odd jobs that could have been squeezed into her working year, going to a few movies and reading a book or two.

### FOUNDATION GETS EARNINGS OF DOCTOR GEORGE CARVER

TUSKEGEE, Ala., (UP.) — Dr. George Washington Carver, Negro scientist whose discoveries have included thousands of uses for Southern agricultural products, believes in making his earnings aid in continuing his life work.

Dr. Carver presented to the Carver Foundation, established last year with his life savings of \$33,000, a prize of \$1,000 given him by the Variety Clubs of America for outstanding service to humanity. To the sum he added \$662.93 which he had saved during the past year.

carefully as does the girl who is going to take a trip. She could have had fun if she had put her clothes into good enough order to have a vacation wardrobe, and then asked herself what she had been wishing all year she had had time to do.

The answer might have been, "To entertain my friends unhurriedly, not in the rush-home-from-work-and-stop-at-the-delicatessen way I usually have to entertain them."

If that were it, she could have planned her parties well in advance—and, by letting her friends know she was spending her vacation seeing the people she enjoyed, could have filled her two weeks full of fun.

Of course, her answer might have been entirely different—but whatever it was, she could have used her job no more refreshed than wanted—not just to putter away, when she left it for the vacation. And then she would have had as that comes to her only once a year, much of a vacation from her everyday existence as the girl who could afford a railroad ticket to some vacation if she had planned it asplacely.

### U. S. Rushes Men For Armored Units

FORT KNOX, Ky. (UP)—The army is showing the way to manufacturers of weapons and armored vehicles in its speedy production of specially trained selectee soldiers for America's armored divisions and tank battalions.

The Armored Force Replacement Training Center here already has turned out approximately 5,400 men in its concentrated 12-week course, and its "faculty" of 257 officers, and 1,241 older enlisted men is prepared to accept 7,600 more.

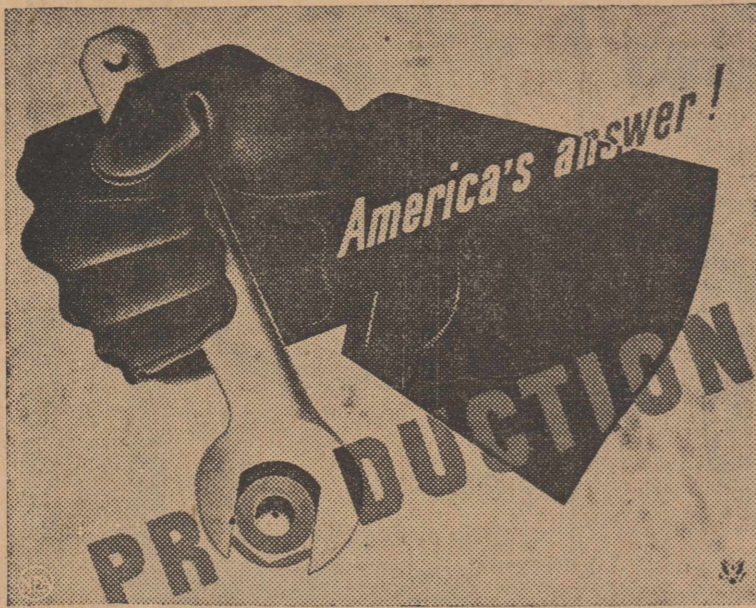

The selectees, taken from the nation's induction centers at the rate of 2,000 a month, go through a six-week period of basic training, after which they are assigned to the field of activity on the basis of their experience and aptitudes.

### TOWN MARSHAL RATES AS MOUNTED PATROLMAN

### Tree Specialist Solves Failure In Transplanting

DAVIS, Cal. (UP)—A problem long-puzzling to orchardists—why replanted peach trees often fail to make satisfactory growth on the sites of former thriving peach orchards—apparently has been solved by Dr. E. L. Proebsting of the California College of Agriculture.

Proebsting's reports on studies carried on since 1937 show that the condition may be due to an accumulation of unidentified toxic material in the bark of the old root.

### TRAINEE'S WORRIES OVER: DRAFT CARD LOST 5 TIMES

CAMP WOLTERS, Tex. (UP)—There's at least one trainee who is glad he finally is in the army. He is Alpha Omega Wiggins of Chicago.

### Superstition Leaves, Bill Makes Comeback

DALLAS, Tex. (UP)—Jinxed almost into oblivion years ago by superstitious persons, the \$2 bill now is making a comeback.

Formerly kept well back in the bank teller's cage, just one step ahead of the dust, the bill's use was stymied by the superstitious, who showed it back to the teller and asked for a couple of ones instead.

Then with the advent of Social Security company paymasters began to ask for the \$2 bill as a couple of twos were easier to handle in paying off than four ones. An employee whose wage was \$20 had 20 cents deducted for old-age security and received \$19.80 weekly. His usual \$20 bill then was changed to a ten, a five, four ones (or a couple of twos) and 80 cents in change.

The use of \$2 bills in such a transaction instead of ones would cut the amount of paper handling 33 1/3 percent, which meant a lot when hundreds of pay envelopes had to be stuffed every week.

Annually, approximately 20,000,000 letters find their way to the Dead Letter Division of the U. S. post office.

### Labor News Rains Out Of Capitol Sky With Bright Reports Issued By Perkins And Hillman Happier

By Peter Edson

The Reporter-Telegram

Washington Correspondent.

WASHINGTON.—There is no dearth of labor news in Washington these days, as you no doubt observed. It rains labor reports every time you stick your head in an office or your feet under a desk, and if this is any criterion, the tripe labor situation is still easily public subject No. 1 now that Brenda Diana Duff Frazier is married.

What all these reports add up to is an uncertain sum, but they're not manna from heaven and Senator Byrd's barrage of verbal brickbats hasn't so much as put a dent in Fanny Perkins' tricorn hats which still ride serenely high.

Jubilantly, Madame Perkins announces that total civil, non-agricultural employment has reached a new all-time high of 38,278,000 as of May 31. That's 800,000 more jobs than the peak of 1929 and three million more than were working a year ago.

Wage increases of 9.2 per cent affecting 600,000 workers are reported by 1679 manufacturers. The chewing tobacco and snuff employment index is down to 52.6 but for all industries it's 124.7, if you believe indexes, and for the aircraft industry the index is 622.7 as against the 1923-25 normal of 100. What more could you ask?

### Peace In The Shipyards.

Sidney Hillman, head of the labor division in the Office of Production Management, adds his notes of OPMism. Dorking agreements covering 400,000 employes in the shipbuilding industry are practically signed, assuring no strikes or lock-outs for a year.

Similar stabilization agreements are being worked on between the government and the building trades to cover defense construction projects.

Aircraft machinists, pattern-makers and C.I.O. aircraft workers are being invited to sit in with aircraft manufacturers and the OEM so that wages-hours-and-working conditions agreements can be stabilized for that flighty industry.

Ford has signed. The San Francisco machinists have gone back. The home-brew Communists may quit agitating. Coal, steel, rubber, glass, textiles, metal manufacturing and other industries have worked out collective bargaining agreements that mean peace for a year at least.

No wonder Hillman feels like crowing a little about the record of labor relations over the first year of the defense effort. Things looked bad after the December and January lull in labor troubles. February, March, April and May were bad ones. Secretary Perkins, by the way, attributes a lot of those spring strikes to the fact that corporation earnings statements showed so much war profits, which encouraged labor to try to get its share.

The 600,000 or more June graduates are, according to Washington reports, experiencing less trouble in snagging jobs than they have for years. Graduates have been drags on the labor market since the class of '32 but now there is a demand for them as apprentice labor, permitting semi-skilled workers to step up in more advanced jobs.

### New Zealanders And Australians Receive First-Hand Accounts

LONDON. (UP)—Australia and New Zealand have official photographic units attached to their armed forces fighting overseas and hence their people at home receive vivid eye-witness accounts of the activities of their soldiers and fliers in action.

Canada, with scores of thousands of soldiers, aviators and naval men in England, has none. The Dominion, when it wants moving pictures of Canadians in action, depends upon a London film company.

Three Canadian pictures have been made and a fourth is in the making. But to Australia and New Zealand go a constant stream of pictures, made by official photographers who know their job and their troops.

### English Royalty Meets Rationing

LONDON. (UP)—To meet the new clothes rationing order, Queen Elizabeth has had last season's outfits of Princess Elizabeth and Princess Margaret altered. Hems have been let down and the princesses are wearing the clothes again.

Their warm weather frocks have been made at home from lengths of cotton material costing only a few shillings.

The king and queen and the princesses now use their clothing coupons just as they do their food ration books. They had no larger allocations than anybody else.

This summer, the queen is wearing gowns and coats which served her last year, some of them slightly altered in style and retrimmed, others dyed and made over to look like new.

### ALABAMA FIANCE FLOUTS OLD CHIVALRY OF SOUTH

SAN ANTONIO. (UP)—The Birmingham, Ala., salesman who took his bride-to-be to the county clerk's office here to obtain a marriage license surely must have believed that there's nothing like starting a wife out right.

When the license was filled out the deputy clerk demanded a dollar and a half. Turning to his future mate the salesman said, "Pay the man, sugar."

Then to onlookers he said: "Boy, am I starting her off right?"

### AAA MEMBERS WILL ATTEND DISTRICT MEETING

M. W. Whitmire, chairman of the Midland County AAA committee, and Miss Josephine Elliott, AAA secretary, attended a District Six-North AAA meeting in Big Spring Thursday. The 1941 supplementary cotton program will be discussed.

### FIRST TRAFFIC ACCIDENT.

MASON CITY, Ia. (AP)—W. Earl Hall had a good excuse—but not for him—for being late at an Ottumwa, Ia., affair at which he was guest speaker. The past president of the Iowa state safety council and present chairman of its board was delayed by his first reportable traffic accident.

And then!

Dear Betty, I would have written you sooner, but am suffering from eyestrain. How do you feel?
