

French Police Arrest Over 300

Authorities Make Sweeping Roundup Of Nazi-Regime's Enemies To Meet Paris Shootings Of Laval And Deat

Physicians Hope Wounded Figures Will Recover As 3 Others Executed; Officers Make Arrests From Newly Mobilized Anti-Bolshevist Legion

By The Associated Press

VERSAILLES, German-Occupied France — Authorities of German-occupied France made a sweeping roundup of enemies to the regime Thursday in the wake of the Laval-Deat assassination attempt and by mid-afternoon had placed more than 300 persons in "protective custody," some of them from the very ranks of the newly mobilized anti-Bolshevist Legion.

In Paris, the first three so-called Communists to be convicted by special courts were executed. They were condemned to death Wednesday for alleged misdeeds not connected with the Laval shooting.

* Authorities apparently feared that the anti-Bolshevist legion formed to fight Russia alongside Germany, contains many more members who, like Pierre Laval's youthful assassin, Paul Colette, had joined purposely to be able to get at the French leaders favoring strong collaboration with Germany.

Thursday's arrests were made in Paris and Versailles while both Laval and Marcel Deat lay seriously ill in hospitals with bullet wounds in their bodies.

Colette, a ship staker and acknowledged De Gaulle, was rushed toward trial before one of the special anti-Communist courts just set up by the French. Informed circles said the opening of the trial was "a matter of hours."

These also said that it was evident that Colette had been pushed into the attack "by Communist-De Gaulle" (Free French) elements.

It was at a mobilization of this very legion that Colette, posing as a recruit, shot the Pro-Nazi Laval, Marcel Deat, old-time appeaser, and two others.

Doctors were hopeful they would save the lives of both Laval and Deat, who were gravely wounded.

Tender Board's Sub-Office Will Operate Sept. 1

A sub-office of Federal Tender Board No. 1 for enforcement of the Connally (Hot Oil) Act is being established in Midland to serve a 29-county area of West Texas and Eastern New Mexico.

Chief Examiner Selman J. Lones, who will be in charge of the Midland district, is directing establishment of the office and announced it would open officially Sept. 1. The office is in the Petroleum Building.

The sub-office is connected with the Federal Tender Board No. 1 office in Kilgore, Texas.

Counties to be served include: Midland, Cochran, Hockley, Yoakum, Terry, Lynn, Garza, Gaines, Dawson, Borden, Scurry, Fisher, Andrews, Martin, Howard, Mitchell, Loving, Winkler, Ector, Glasscock, Reeves, Ward, Crane, Upton, Reagan, Pecos, and Crockett in Texas, and Lea and Eddy counties in New Mexico.

The personnel of the office is Lones, chief examiner; Nelson Fucht, Robert E. Booth, and Walter N. Glenn, examiners; and Miss Dorothy Newberry, secretary. Most of the staff has moved here.

Lones said his staff was assigned to check shipments of petroleum from designated areas in interstate and foreign commerce and to make certain shipments were produced in accordance with state laws and orders of the regulatory bodies of the states.

The Federal Tender Board is one of two oil agencies under the supervision of the Department of Interior. The other is the Petroleum Conservation Agency.

Lones pointed out first reports from producers, refiners, transporters, and casing head gasoline regulators are required to be filed on or before Sept. 15 with the Kilgore office, covering operations of the month of August.

Behind The Headlines

By DeWitt MacKenzie

Another Anglo-Russian sensation of the near future is likely to be the creation of a joint front in the Caucasus, or so it seems to me—a move which will be hastened if the Germans continue to advance eastward along the coast of the Black Sea.

The Nazi threat is emphasized in the report from Berlin Thursday that the invaders have captured the industrial railway center of Zaporozhe, east of the lower Dnieper River. The significance of this lies in the fact that Hitler's troops should have effected a crossing of this great stream in sufficient force to take a big city.

The establishment of a joint front is logical strategy in view of the allied occupation of Iran (Persia) which gives the British an open road into Russia. That left flank of the Soviet defenses, running through the Caucasus between the Black Sea and the Caspian, must be protected at all hazards. The reasons are these:

1—First off, Persia is the key-stone for control of the whole Near East and Middle East. It would be a disaster for the allies if Hitler got it.

2—The Russians must hold the ports on the east coast of the Black Sea unless they are to lose control of that vital water altogether.

3—Since the Caucasus is the gateway into Persia, and thence to the open sea, it's one of Russia's life-

German Troops Drive Close To Key Soviet City

Hastily Organized Reds Will Defend Leningrad; Iran Pleads Armistice

By The Associated Press

German troops storming toward Leningrad were reported within 32 miles of the old czarist capital late Thursday, while on the Middle East war front, all fighting ceased in the four-day-old invasion of Iran (Persia) by British-Russian forces.

Already proclaimed "in terrible danger," Leningrad was being defended by hastily-mobilized volunteers in a people's army fighting alongside regular Red Army troops, and inside the great industrial city a third line of defenders manned street barricades.

On the southern front, the Germans said masses of Russian infantry attempted to cross back to the west bank of the Dnieper River and had been chopped down by German artillery.

Only on the central front, guarding Moscow, did the Russians present an optimistic picture. Soviet dispatches said counter-attacking Red Army troops had smashed two successive German defense lines in the Gomel area, about midway between Smolensk and Kiev.

Simultaneously, Soviet Marshal Semeon Budenny issued a dramatic appeal to besieged Russian forces at Odessa to defend that Black Sea port "to the last drop of blood."

In Iran, a British cabinet was said to have asked Britain and Russia for an armistice to avoid further bloodshed.

A British broadcast, noting the end of hostilities, said the allied invasion had turned into a peaceful occupation.

Meanwhile, Iran's next-door neighbor, Turkey, manifested increasing alarm over Germany's intentions. Well-informed Axis quarters in Istanbul said Reichsfuehrer Adolf Hitler has told Turkish he may soon need to use Turkish territorial waters in the Black Sea—possibly for an attack on the Soviet port of Batum, end of the pipe line from the Greek Soviet, Baku oil fields.

Indian troops led by British officers were reported in control of Iran's main outlets to the sea—Khorramshahr, Abadan and Bandar Shapur—after fighting across desert and marshlands in 130-degree heat.

Russian cossacks striking down to Iran from the north were reported to have reached Turkmanchai, on the road to the capital city of Teheran, after a 70-mile advance in 24 hours from Tabriz, the kingdom's second biggest city.

In neighboring Turkey, meanwhile, nervousness over a possible invasion by German troops massed along the Greek-Turkish frontier was reflected in reports that the government had closed Thrace to all foreigners.

The Hungarian news agency said the Turks also had prohibited automobile and rail traffic between Turkey and Europe. Latest advices from Ankara have pictured the Turks as deeply alarmed lest Hitler strike through Turkey in a move to counter the British-Russian thrust into Iran.

The Russo-German war front, Adolf Hitler's armies were reported to have cut off rail supplies to two vital centers, Leningrad in the north and the great Black Sea naval base of Sebastopol in the south, and the Russians acknowledged threats at both ends and the center of the vast front.

The Germans said Nazi forces pursuing retreating Russians east of Gomel, on the central front, had captured 2,200,000 prisoners as two mechanized divisions ripped deep into Red columns.

A bulletin from the Fuehrer's headquarters said two Red Army mechanized divisions had been crushed and all but destroyed east of Salla, in the far north of Finnish Karelia.

A Soviet communique said the Red armies, fighting with their backs to the wall in defense of Leningrad and siege-bound Odessa, were battling fiercely against concerted Nazi assaults.

Frank Monroe, former Pampa school man, was elected principal of Midland schools.

Stanolind I Smith Flows 20 Barrels Per Hour To Widen Conry-Davis Pool

By Frank Gardner, Oil Editor.

Stanolind Oil & Gas Company No. 1 D. W. Smith has effected a one-quarter mile north and east extension in becoming the third producer in the Abell Permian (Conry-Davis) pool several miles east of the Abell Ordovician field in Northern Pecos County.

Bottomed at 3,900 feet in dolomite, it was acidized with 2,000 gallons through perforations in casing from 3,730 to 3,925 feet. The well cleaned itself then flowed into pits at an estimated rate of 20 barrels of oil per hour, with 4,000,000 cubic feet of gas daily. Operator may re-reat the well or drill it deeper. It is located 1,945 feet from the south, 648 from the east line of section 31, block 9, H. & G. N. survey and is an east offset to Stanolind and George T. Abell of Midland No. 1 Meyer-Logan unit, second producer in the pool. Producing zone is Clear Fork lime of the lower Permian, corresponding to the Tubby pay horizon in the Sand Hills pool of Western Crane County.

One location farther south, Stanolind No. 2 Conry-Davis unit, east offset to the discovery, blew 625,000 cubic feet of gas and recovered 500 feet of gas-cut mud when drillstem test was run from 3,889 to 3,965 feet. Tool was open 38 or 45 minutes, reports varying. Future plans of owner have not been announced.

New location for the Ordovician sector of the Abell field has been staked by Magnolia Petroleum Company at No. 3 Markey Heirs. It is 330 feet out of the southwest corner of the firm's Markey lease in section 4 1/2, block 3, H. & T. C. survey and is a direct east offset to Sinclair-Prairie Oil Company No. 2 Bessie E. Heitman, test now drilling at 2,565 feet in lime.

A scheduled 6,000-foot Ordovician test in the Girvin area of Northeastern Pecos, Gulf Oil Corporation and L. H. Wentz-Oil Division No. 1 L. H. Millar et al, is drilling past 4,093 feet in lime.

Crane Ordovician. Gulf No. 5-A J. B. Tubb, on the west edge of the Sand Hills deep pool of Western Crane, topped the Ellenburger, lower Ordovician at 5,747 feet, subsas datum of 3,205. The top is said to be 43 feet lower than

Crockett Sheriff Dies In Hospital

SAN ANGELO, (Special)—Sheriff W. S. Willis, 52, of Crockett County, died in a San Angelo hospital at 10:37 p.m. Wednesday night of a stomach ailment. He was brought here Tuesday.

All Boys Of Midland May Work For Tickets

All boys of Midland may work for admission to the rodeo, Sam Spears, recreational director, announced.

Boys were urged to contact Spears and sign up for work.

H-SU Cowboy Band Typifies Western Spirit

The Hardin-Simmons University Cowboy Band at Abilene will be a guest at the Midland Rodeo. A Midland boy, George Walker, is president of the band.

Rush Rodeo Plans In Spite Of Area Rains

Preparations for the seventh annual Midland Rodeo were unimpeded by the weather Thursday as officials of the big show joined with citizens in putting last-minute touches to plans for the "greatest rodeo of them all."

A new prize was announced in the boy's calf roping event. It will be a pair of chaps, donated by John M. Gist, Midland rancher. It will go to the sixth place winner.

Cities not contacted on the booster trip were visited Wednesday by Roy McKee and other delegates. Included were Grandfalls, Royalty, and Crane. Charlie McClintic attended the Doubly-Hart Ranch rodeo near Sweetwater to announce the Midland event.

Officials eyed the skies and said some rainfall if not too heavy would be beneficial to the rodeo grounds.

Everett E. Colborn, owner of the stock of the World Champion Rodeo Corporation which will be used in the rodeo events, arrived Wednesday and said his stock was ready to go.

All departments of the big three-day Labor Day week-end event rushed plans, as Roy Parks, sponsor of the cowgirl's contests, predicted a record-breaking entry, and Stanton Brunson said entries in the colt show were pouring in.

Parade plans are complete. It will start at 10 a. m. Saturday with participants urged to report at 9:30 a. m. Thousands of West Texas citizens are expected here for the parade.

Menzies Resigns Australian Post

SYDNEY, Australia (AP)—Prime Minister Robert G. Menzies announced Thursday his intention to resign.

Earlier he had announced an agreement by the British and Australian governments for an Australian minister other than the prime minister to be sent to London to represent the commonwealth in empire war councils.

Presumably Menzies' resignation is to clear the way for him to be that representative.

Arthur W. Fadden, treasurer, deputy prime minister and member of the six-man war cabinet, succeeds Menzies as prime minister.

Names Receiver For Cattle Firm

LUBBOCK, (AP)—Judge Daniel A. Blair of the 72nd District Court appointed a receiver here Thursday for the sprawling holdings of the Mallet Land and Cattle Company in four West Texas counties.

J. Lee Johnson, Jr., of Fort Worth, a member of the board of directors, filed the petition asking receivership. He posted receiver bond of \$100,000.

Sam C. Arnett, Sr., Lubbock bank president, was named receiver.

The petition came as a cross-attack against the equity suit filed in a Kansas City court by Miss Christine Devitt of Lubbock, in an attempt to restrain directors from leasing parts of the 53,000-acre ranch in Hockley, Cochran, Yoakum and Terry counties for oil development.

Johnson listed company holdings exceeding \$100,000.

Gasoline Stations In East To Get Big Cut

Davies Testifies Before Senate Committee Reduction In Supplies Will Be Effective In September; Submits Additional Figures

By The Associated Press

WASHINGTON (AP)—Ralph K. Davies, acting petroleum coordinator, announced Thursday gasoline supplies for filling stations in the East would be reduced 15 per cent in September compared with July.

Davies' testimony opened a Senate investigation of threatened oil shortages. He presented a mass of figures which he said showed that the eastern coast faced an actual shortage of both gasoline and oil for heating and industry this winter.

The East Coast faced a deficit of 27,800,000 barrels of petroleum products during the last four months of this year, Davies testified. He said the reduction in gasoline supplies to filling stations would help meet this shortage.

If present methods fail to eliminate danger of shutdowns for industry and home heating plants, Davies said officials were ready to operate a rigid rationing plan. But he added they hoped to avoid such drastic action.

Davies flatly disputed rumors he said had been circulated that the shortage "is being played up to foster war psychology; that a shortage has been created artificially to assure passage of a pipe line bill" or that a shortage of gasoline "was deliberately precipitated."

Engineers Turn Down Proposal To Lower Speed

The Texas Highway Department has notified Midland County officials it would not be consistent with the existing policy of the department to lower the speed limit on U. S. Highway 80 between Midland and Odessa to 45 miles an hour.

Midland and Ector county officials petitioned the department to reduce the speed on the 20-mile stretch from 60 to 45 miles per hour because of unusual existing traffic conditions.

In a letter to Merritt F. Hines, County Attorney, state highway engineers stated there is no sharp curvature on the section under study, there is unrestricted sight distance and the highway has a smooth riding surface and good shoulders. They said to reduce the speed would nullify benefits of the revised legislation establishing a maximum speed of 60 miles per hour by day and 55 miles per hour by night.

The department advised if hazardous conditions developed it would re-open the problem.

Recreation And Sanitation Plans Told To Rotarians

Recreation and sanitation plans of Midland and Midland County were outlined to Rotarians Thursday at their meeting in Hotel Scharbauer.

Mrs. N. A. Lancaster outlined tentative plans of the city recreation commission and asked Rotarians to back its proposal for purchase of land in West Midland for the project.

She said Midland children "are restless," and discussed suggested needs of a recreation center include a recreation building, tennis courts, gymnasium, a large hall for dances, swimming pool and an auditorium. She explained that Federal agencies had been contacted to determine how much they can aid in plans to provide recreation for soldiers who will be stationed in Midland.

"People want to come to Midland," Mrs. Lancaster said, "and it is up to us to fix a place to entertain them."

She suggested that the American Legion, Boy Scouts, Girl Scouts, Civic Theatre and other organizations probably could have buildings in the area if sufficient land is obtained.

S. E. Burnett, Midland Ector county sanitary engineer, discussed sanitary problem and asserted Midland "is one of the cleanest cities" in which he had worked.

"The greatest need in America is health," he asserted. He said facilities to care for 500 automobile trailers had been located in Midland in preparation for taking care of men who will work at Sloan Field.

He also discussed sanitary order. (See RECREATION, page 2)

Rain Slows Work At Sloan Field

Rain slowed work at Sloan Field Thursday on the Advanced Twin-Engine and Bombardier Training Center.

Work of installing planks on the railroad crossing on Highway 80 went ahead in the rain and the grade crossing probably will be open for traffic this evening.

Crews continued to unload lumber and some work was being done on water and sewer ditches.

Eighty-two men were added to the payroll Wednesday and as many or more will be hired Friday, Bill Orr, personnel director for Cagle Brothers and P. M. Reeves and Sons, said. He is now employing a number of carpenters.

Cowgirls Will Register Friday

The official program for the cowgirl sponsors' contest will open at 1 p. m. Friday with registration in the Chamber of Commerce office.

At 3 p. m. Friday night, the sponsors will be introduced from the stage of the Yucca Theatre as the closing number of the rodeo revue. Sponsors will wear cowgirl attire. They will ride in the opening day parade at 10 a. m. Saturday and thereafter their program will swing into line with the general events.

A detailed program of sponsor activities will appear in The Reporter-Telegram Friday.

General Rains Soak Midland And West Texas And City Gauge Shows .91 Of Inch Fallen About Mid-Day

General rains soaked Midland and West Texas early Thursday with .91 of an inch gauged at 11:30 a. m.

The rain started Wednesday afternoon in some sectors, and continued heavy Thursday morning. It started falling here around 5 a. m.

Reports from bus lines and railroads indicated rain falling all the way from Fort Worth to Midland generally in about the same quantity as here. A bus driver reported rains at Abilene and Big Springs.

The Midland Municipal Airport reported .60 of an inch at 11:30 a. m.

and railroad dispatchers. Showers were reported at Fort Davis and in the Fort Stockton area.

The ceiling at the Midland Airport was rising at 11:30 a. m. and good weather reports were coming from the west.

Farmers west of Midland reported heavy rains Wednesday afternoon farther south.

Ranchers welcomed the early fall rains but farmers were apprehensive it would threaten shocked feed and provoke more cotton leaf worms.

Midland County is expecting a bumper cotton crop from its 23,000 acres. Estimates are from one-half bale to one bale per acre, provided the worms are stopped.

WE DO NOT GIVE OUR LIVES IN GOOD CAUSES IN VAIN, SOME ONE NOTES AND REMEMBERS: Precious in the sight of the Lord is the death of his saints.—Psalm 116:15.

Why Work?

The world needs more eccentrics. Sometimes one is tempted to begin believing that all mankind has finally been run through the same mold at last, been hammered and pounded by the necessities of modern life into a pitiful procession of manikins as identical as a row of lead soldiers. Then along comes an eccentric, and we breathe again.

With modern scientific and mechanical development, avows Payne, no man ought to be called upon to work more than one day a week. With the products of such work, a well-organized economy would supply all necessities and many comforts, he conceives.

No use pulling the Payne prescription apart: no use to suggest that had others not worked there would be no parks, no church porches on which to sleep; useless to note that were all others instantly to adopt the Payne practice, life might not be so pleasant and unworried even for Payne himself.

The Paynes pay their way, in a sense. They enrich life. Their very life and presence is a guarantee that mankind is not yet beyond hope; that the dream of a Golden Age is not so dormant but that some living men actually persist in creating their own little Golden Ages and living serenely in them though the heavens fall.

Beating Something With Something

Those who have been fearful of the advent of socialized medicine would do well to look at the Cleveland Hospital Service Association, through which 500,000 people protect themselves against the chance of sudden hospital expense.

The plan has been under way, constantly growing, for seven years. It has a surplus, and everybody, hospitals, doctors, the city, and the members, find it good.

Broader means of assuring hospitalization to more people are a desirable social end.

Nimble Name-Calling

How well France is learning the Nazi technique is shown in the arrest of the 10,000 anti-Nazi French, making a total of 150,000 since the armistice.

Does it make sense? Certainly not. All it means is that France has now adopted the technique of Hitler's early days, when anybody who opposed him became immediately (in his propaganda) either a Jew or a Communist, or preferably both.

We have not been entirely innocent of the use of this trick in this country, where Communists have loudly denounced all who oppose them as Fascists, and conservatives have often been able to raise dust against reform by denouncing any progressive as a Communist.

But so transparent a demonstration of the technique as that now being given in France should make us wary. Beware of nimble name-calling, avoid too-facile classification.

Constantly getting into hot water will eventually cook your goose. Correspondence between the U. S. and Japan right now might be called high tension wires. The differences that arise in lots of families are caused by indifferences.

Oh, Very Possible!

Japanese Minister Confers With FDR On Far East Indies

WASHINGTON (AP).—A personal message from the Japanese Prime Minister to President Roosevelt was delivered to the Chief Executive Thursday by Admiral Kichisaburo Nomura, the Japanese ambassador.

Nomura came to the White House after days of rapidly developing tension growing out of the conflict of Japanese and American policies in the Pacific.

He conferred at the White House with the President and Secretary of State Hull. Nomura refused to elaborate in reply to a barrage of questions from reporters as to what the message from Prime Minister Konoye contained.

Before the conference, however, it was reported that the envoy would discuss with Mr. Roosevelt the strained relations between the two countries, including reported Japanese representations to Russia and the United States against shipments of American oil and other supplies to Russia via Vladivostok.

Housing Situation Is Studied By Officials

WASHINGTON (Special).—Carl Henry Monsees, executive assistant in the Division of Defense Housing Coordination, Executive Office of the President, informed Congressman R. E. Thomason that Midland's application for designation as a defense housing area is being given every consideration.

Monsees said the review of the Midland situation should be concluded soon and that definite information will be supplied the minute the study is completed.

Tries Out Girls At Stations--Pretties Detour Car Traffic

PHILADELPHIA (AP).—You working gals who've been pining your heart out to become the boss secretary might be overlooking something just as good in the gasoline station business.

"It's much more exciting than dictation," declares 25-year-old Dorothy Wilson, a former typist and one of seven girls being tested as station attendants.

The Sun Oil Company is experimenting with the "gas girls" to see if they could replace men in event of a labor shortage due to the defense program.

And they're doing all right so far at least considering the traffic they're turning into a suburban station where they're performing after a week of schooling.

Chosen for ability and charm among some 500 applicants, the six blondes and a brunette got their first actual test in public Wednesday servicing radiators and windshields, inflating tires, dishing out gas and oil and keeping station records—all of which is to bring them \$100 monthly.

"To me it's a matter of serving oil instead of peach pie," commented 21-year-old Sophie Boychnuck, former chain restaurant waitress.

"I'd rather serve oil because it means working outdoors. My boyfriend thinks the job's a great idea—he's going to drive by to see me."

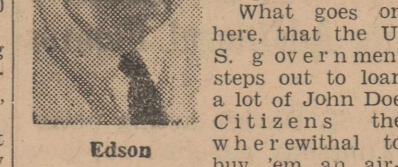

She's a pleasing sight, too, in her snappy blue culottes—those cut divided skirts you know—Sam Browne belt and overseas cap.

Piddlin' Loans Made By RFC Will Work Toward Building Of Civilian Pilots After War Activity Is Over

By Peter Edson The Reporter-Telegram Washington Correspondent

WASHINGTON.—You may think of the great Reconstruction Finance Corporation as something that deals in millions or billions of dollars, but a recent summary of RFC defense loans revealed that out of the \$1600 millions it has loaned so far to help the defense—including loans like \$31 millions to General Motors to build an aircraft engine factory in Chicago—there were over 160 little piddlin' loans.

They went to previously unheard of individuals for sums like \$850 or \$685 or \$991.30. The curious thing about all these loans was that they were all for the same purpose: "To buy one training plane."

The answer is simple. These are the planes that are being used by private flying schools in the civilian pilot training program of the Civilian Aeronautics Administration. And these schools are doing the primary and secondary training of pilots for Army and Navy.

A short time ago, a bank in Somerville, Mass., knocked the eyes out of local newspaper readers by offering to loan money at 6 per cent simple interest, and no-carrying charges, for anyone who wanted to borrow money to buy an airplane.

That made banking, newspaper and aviation history, for it was the first of its kind. Heretofore, sound, conservative bankers would have considered loans to buy planes as extremely bad business. That's why the big Reconstruction Finance Corporation had to make these loans just to get this business going and just to get competent flying instructors, who are darn scarce these days.

Both Loans And Planes Safe That these have been good loans is indicated by the record. Out of approximately 160 of them made in the first 12 months this policy has been in effect more than 30 have been repaid in full, and not one is in arrears.

The safety record in operation of these planes is impressive—only one fatality for each five million—of that—five million hours of flying, in spite of the fact that there now are more than 82,000 private license pilots buzzing around in 22,000 licensed planes, all over the country. This amazing safety record is reflected by the fact that insurance rates on small planes have dropped more than 300 per cent—from \$35 to \$7.50.

What is happening right before your eyes is that the country is actually being converted to the flying age when flivver planes will be

relatively as common as flivvers used to be.

When the Civilian Pilot Training Program was launched experimentally back in 1939, it looked silly. Three hundred boys were picked for courses in 10 schools. They did all right. Congress appropriated the money to train 10,000. Then it raised the ante to \$37 million, resulting in the big program in operation today, which is largely responsible for increasing the number of licensed pilots to near the 100,000 mark.

CPTP courses run four months each, making it possible to turn out three classes a year. Summer sessions in some 540 co-operating schools will soon be closing, and the fall term will start in 500 schools in September with 12,000 student pilots in attendance. The reduction in the number of schools is accounted for by the increased emphasis which will be given to secondary training for defense.

Markets LIVESTOCK

FORT WORTH (AP) (USDA)—Cattle 1,800; mostly steady; common and calves steady; common and medium beef steers and yearlings 6.50-9.50; good and choice 10.10-11.00; beef cows 6.50-8.25; canners and cutters 4.00-6.25. Hogs 1,000; mostly 15 cents high—top 11.75; packing sows 10.25-10.50; stocker and butcher pigs 10.00 down. Sheep 700; all classes around steady; medium grade spring lambs 9.00-9.50; canner and common to medium ewes 1.50-4.25.

Wool

BOSTON (AP. U. S. Dept. Agr.)—Wool was dull Thursday. An occasional inquiry was received but few sales were closed and there were of small volume. Quotations were steady at \$1 to \$1.05, scoured basis, for short to good French-combing length graded fine territory wools. An occasional small lot of fine Delaine bright fleece wools was sold at 41-43 cents, in the grease. Small lots of combing three eighths and quarter-blood bright fleece wools also sold at 45-47 cents, in the grease.

HERE FROM BIG SPRING Mr. and Mrs. Jack Underwood have been transferred here from Big Spring by the Southwestern Bell Telephone Company. They are at home at 1007 W Texas.

Bridge-Luncheon Is Courtesy For Missouri Visitor

Mrs. Cowden Hostess At Party Honoring Mrs. R. B. Oliver Jr.

Honoring Mrs. R. B. Oliver Jr. of Cape Girardeau, Missouri, Mrs. Fay Cowden was hostess for a bridge-luncheon at Hotel Scharbauer, Wednesday.

Places were laid at one long table for the luncheon which was served in the Blue Room. Chrysanthemums in various shades featured the table decorations.

Following the service hour, three tables of bridge were played. High score went to Mrs. Hayden Miles and cut to Mrs. Clyde Cowden.

Mrs. Oliver was presented with a guest-gift.

Present were: The honoree, Mesdames M. C. Ulmer, O. B. Holt, Geo. Glass, Frank Cowden, Joe Crump, Clarence Scharbauer, Ellis Cowden, Roy Parks, Wright Cowden, Miles, Clyde Cowden, and the hostess.

Large Per Cent Of Texas Has Erosion

By The Associated Press
Of Texas' 167,934,720 acres of land area, about 132,000,000 acres are suffering erosion damage, according to a recent survey by the Soil Conservation Service of the United States Department of Agriculture. This damage includes 11,000,000 acres ruined for further immediate crop production.

Why the destruction of virgin soil is a menace to the entire economy of Texas and other predominantly agricultural states, and what the individual farmer or rancher may do to combat it is the subject of Austin E. Burges' book, "Soil Erosion Control," reputed to be the first volume on the subject ever written.

Kennedy Will Train As Air Corps Flier

Harold Kennedy, son of Mr. and Mrs. C. P. Kennedy of Midland, has enlisted in the U. S. Army Air Corps and will be trained at Jefferson Barracks in Missouri.

He took physical examinations and preliminary tests at El Paso. He passed through Midland by train enroute to Missouri.

Chain Stores Now Sell Defense Stamps

More than a thousand chain stores in Texas became agents of the United States government in selling national defense savings stamps today, it was announced by P. A. Nelson, chairman of the Midland Chain Store Managers Committee.

"The chain stores want to make the purchase of stamps easier for persons who do not customarily go to post offices," Nelson said.

In making plans for putting defense stamps on sale at the chain stores, company executives worked out the program with federal officials in charge of the sale of defense savings bonds and stamps in Texas, said.

G. B. Roberts of Dallas, president of the Texas Chain Store Association, said that chain store cooperation in the sale of defense savings stamps was requested by the U. S. Treasury and first tried out in Michigan, where more than 12,000 chain units and independent stores now are selling the stamps.

"Texas chain store companies which are selling defense savings stamps and will have them on sale at their counters regularly hereafter include Safeway Stores, J. C. Penney Company,

Five Host Shower For Mrs. Smith At Stice Home

Pink-And-Blue Motif Dominates Party Appointments

Five hostesses joined in complimenting Mrs. Frank Smith Jr. with a pink-and-blue shower at the home of Mrs. O. W. Stice, 603 W. Kansas, Wednesday afternoon. Cohostesses with Mrs. Stice were Mrs. Earl Ray, Mrs. A. F. McKee, Mrs. Roy McKee, and Mrs. Gladys Holster.

Guests arrived at 3:30 o'clock. At 4 o'clock, the honoree arrived and was seated at the table where shower packages were heaped round the figure of a stork as centerpiece. Gifts were opened and inspected.

A refreshment plate carrying out the pink-and-blue nursery theme was served. Ribbon sandwiches were in pink-and-blue and white-iced individual cakes were bordered with blue rosebuds and bore the word "Baby" inscribed in pink across the top. Mints were in pink and blue.

Arrangements of roses, petunias, and other flowers were used at vantage points in the rooms.

Present were: The honoree, Mesdames A. C. Messmore, Hubert Drake, A. C. Caswell, D. B. Watlington, J. C. Pogue, Fred Trulove, Sally Fine, Bert Rosenbaum, E. P. Eubanks, Ira Proctor, Ben W. Golladay, Ed Darrell, B. M. Hays, Forrest Hunter, E. V. Guffey, W. B. Hunter, J. L. Tidwell, Frank Smith Sr., and the hostesses.

Gifts were sent by: Miss Tommie Smith, Mesdames A. B. Stickney, Lenton Brunson, Dona Dunagan, De Vere Ladd, Pearl Carson, Lloyd Carter, and N. G. Oates.

Officers State Tank Power Is Overrated

WITH THIRD ARMY IN LOUISIANA. (AP.) — Declaring tank power has been overrated in this country, officers of the Third Army said American soldiers were being taught to keep up their fighting courage even while looking into the guns of an enemy tank roaring across a battle field.

"For every weapon man ever invented," declared Lieut. General Walter Krueger, commander of the Third Army, "there has been adequate defense devised to cope with it."

In war time, he said, infantry units stand steadfastly in the front line, and, should tanks shove through, they must hold firm until steel-puncturing artillery fire can be rushed into place.

"When thus cut off from their food and gas supply," Krueger continued, "tanks will either have to fight their way out quickly or be destroyed by the concentrated fire of the defender."

Smart Looking Get-Up Can Cure "Facial Let-Down"

By Alicia Hart, NEA Service Staff Writer.

If, within the past few months, you have been told more than five times that you look tired when you really weren't tired at all, better spend a little time wondering what has happened to your facial expression.

All too many people let their faces let down when there is really no good excuse for it. It's all very well to look tired when you are tired,

but there's no sense in going around with a woe-be-gone expression on your face when you aren't feeling woe-be-gone or down-trodden or anything else unpleasant.

Of course, the minute you realize that you have acquired the habit of "facial let-down" the minute you are conscious of the fault—you have gone a long way toward correcting it. The next step is to resolve to try to keep from looking weary when you are not weary at all.

Meanwhile, try to get a little more sleep each night. It may be that you are tired even when you don't realize it. Trying to keep going on your nerves instead of on a sounder basis of adequate rest and a proper diet will show in your face,

no matter how hard you try to conceal it.

EYE STRAIN CAUSES THAT WILTED LOOK

Also, stop reading in poor light, stop forgetting to wear sun glasses and otherwise abusing your eyes. If you are suffering from even mild eyestrain, it's next to impossible to avoid a wilted look at the end of the day.

And don't forget that the woman who knows she is clean and neat and attractively dressed usually has a happier expression on her face than one who is self-conscious and in an apologetic frame of mind, because her dress is the wrong length, her cotton gloves slightly soiled, her hair limp and

Funeral Rites For Langston Conducted

Funeral services for R. C. (Red) Langston, 47, Midland oil lease broker who died Tuesday in a hospital here after a long illness, were held at the First Methodist Church at 4 p.m. Wednesday with the Rev. W. C. Hinds officiating. Interment was in Fairview Cemetery.

Langston had resided at Midland seven years. He is survived by his widow, two daughters of Midland and a brother of Arkansas.

unwaved. Good grooming routines always are a boost to the morale as well as the appearance.

Gary Heads Smith's Shoe Department

Willard J. Gary of Austin, Texas, has joined the J. C. Smith Store as manager of the women's shoe department. Gary has had years of experience in the women's shoe business.

Mrs. Gary and their son, Jimmie, will arrive in Midland soon and the Garys will be at home at 401 North Loraine.

SOCIETY

Baptists Honor J. E. Blaylocks At Parting Social

Couple Presented With Farewell Gift From Church

Mr. and Mrs. J. E. Blaylock, Jr., who are leaving Midland soon for Beaumont, Texas, were honored with a farewell social given by the First Baptist church in the young people's department, Wednesday evening after prayer meeting. Mrs. Blaylock is church secretary and is also social superintendent of the junior department.

Mr. Blaylock has resigned his place as science teacher in Midland High School to become head of the science department in Lamar Junior College at Beaumont.

The couple was presented with a floor lamp given by the church as a going-away gift.

A musical program was presented. Mrs. Yates Brown was at the piano. A quartet composed of R. L. Denham, C. G. Murray, Ray Hyatt, and Yates Brown sang. John D. Matthews presented a vocal solo and Mr. Denham gave piano numbers. Refreshments were served. More than 50 people were present.

Back To College

THE Norfolk jacket comes back to the campus. In brown and white mixed tweed, it is shown with a natural cavalry twill skirt and a pixie cap of braided felt.

Dos Reales Club Meets At Home Of Mrs. Atkinson

Mrs. W. T. Schneider was the only guest when members of Dos Reales Club were entertained with an afternoon party at the home of Mrs. Burt Atkinson, 2008 Brunson, Wednesday at 2 o'clock.

Zinnias decorated the party room where two tables were laid for bridge. High score award went to Mrs. Jerry Phillips, second high to Mrs. J. C. Williamson, and bingo to Mrs. Atkinson.

A refreshment course was served to Mrs. Schneider and the following club members: Mmes. H. W. Deax, E. S. Hitchcock, J. A. Jorgensen, F. L. McFarland, Phillips, Williamson, and the hostess.

The next meeting will be with Mrs. Deax.

Audience Asked To Hiss, Applaud Mellerdrummer

Boos, hisses, and "bravos" will fill the air at the Yucca Theatre Friday night when members of the Civic Theatre present the mellerdrummer "And the Villain Still Pursued Her."

Hissing the villain and applauding the hero are the expected procedure and the correct etiquette for the audience which will view a laugh-provoking comedy similar to the Civic Theatre's popular "Orphan Nell" mellerdrummer of a former season.

"And the Villain Still Pursued Her" will be a part of the "rodeo revue" which the Civic Theatre will present Friday evening as a prelude to weekend rodeo entertainment.

Delbert Downing will preside as master of ceremonies for the program which will include a quintet and pantomime; a dance in the "Gay Nineties" theme; a quiz number; a novelty song; square dances by a group of children and possibly by adults; and the presentation of the cowgirl sponsors.

Introduction of the sponsors will afford a close-up view of the girls who will compete during the week-end in the sponsors' contest here. The girls will be in colorful cowgirl costumes.

FRIDAY. Belmont Bible Class will meet with Mrs. H. M. Reigle at the home of Mrs. W. G. Attkway, 404 W. Ohio, Friday afternoon at 4 o'clock.

Women's Golf Association will have its regular luncheon at the clubhouse Friday afternoon at one o'clock.

Tejas Girl Scouts will meet at the Scout headquarters, Friday morning at 9 o'clock, with Mrs. James Lupton leader.

Red Cross sewing room in the old Heidelberg Inn, 700 Front St., will be open Friday morning from 9 o'clock until 12. All Midland women are urged to assist in the work.

Children's Service League will meet with Mrs. Frank Lewis, 1405 W. Illinois, Friday afternoon at 2 o'clock.

SATURDAY. Story Hour will be held in the children's library at the courthouse, Saturday morning at 10 o'clock.

Midland County museum in the courthouse will be open Saturday from 10:30 o'clock in the morning until one o'clock in the afternoon. The public is invited.

Midland Geologists Postpone Barbecue

A barbecue for Midland geologists scheduled for 5:30 p.m. Thursday has been postponed one week. It will be held at Cloverdale Park east of Midland.

CHATTER About The COWGIRLS

Big Lake's "Jeanie" Has Light-Brown Hair

Miss Lucy J. Coates, representative of Big Lake, joins the surprisingly-large group of sponsors who cherish the ambition to own their own ranches. She wants to own a large one.

"When It's Round-Up Time in Texas" is her favorite cowboy song.

Five feet five inches tall, Big Lake's Jeanie, like her prototype in the famous song, has light-brown hair. Her eyes are hazel.

During the rodeo her mount will be a thoroughbred sorrel Palomino named "Lucky."

Mother And Daughter To Contest Here

It isn't often that a mother and daughter contest against each other. When Mrs. T. T. East, sponsor from Reynolds, and Miss Licia East from Hebronville take part in the sponsors' contest here this weekend, it will be the first time a mother and daughter have sought the same prize in the cowgirl events of the Midland Rodeo.

They are members of a prominent South Texas ranch family and live on the famous King Ranch.

Twenty-Seven Entries In Sponsor Events

Sponsors who had entered the cowgirls' contest up to Thursday morning numbered 28, according to the Chamber of Commerce.

Entries, in addition to the 19 listed in Sunday's edition of The Reporter-Telegram are:

Miss Licia East, Hebronville; Mrs. T. T. East, Reynolds; Miss Bobbie Lou Walters, Spur; Miss Thema Mae Farr, Seymour; Mrs. Christine Northcutt, Spade Ranch (Mitchell County); Miss Ruth Fernandes, Odessa; Miss Joe Morris, Morris Ranch (Coleman County); Miss Lottie Jo Owens, Ozona; Miss Bobbie Ruth Harris, "K-Bar" Ranch, Odessa.

FEMININE FANCIES

By Kathleen Eiland

A cloudy morning naturally turns one's thoughts toward fall clothes. And as pleasing contrast to the darkness of the day there comes the thought of that very bright red dress (maybe it was scarlet or fireman red or some other type of red for we can never tell which name belongs to which shade) which any high school girl or collegienne would be delighted to have.

Nice accents for the gay color were the unique acorn buttons (not real acorns but designed to look like them) and the line of acorns dangling from a pin to make a shoulder ornament.

Husky-sized flap pockets were placed below the wide set-in belt of the corduroy.

If we were sixteen and dark-haired, we'd want that dress with a consuming desire.

Though most people may have been inclined to take the idea lightly, there must be something to the suggestion that Miss America let paint take the place of silk in giving her legs that well-groomed look this winter. After the present supply of silk hose is exhausted, we mean.

At any rate, we've already received advertising from a Fifth Avenue laboratory concerning "a new kind of liquid color accent, originally perfected for the face, which contains no solid matter of any kind."

In the present emergency, this face liquid is recommended for use on the limbs as well. It's said to give feminine underpinnings a beige color and that so-desired glamour.

Oh yes, the manufacturers say it won't come off till you wash it off with soap and water. And rain won't spot it.

Sounds good, if true. Anyway, we will keep the idea in mind for the time when we may not be able to get silk hose for love or money.

Wednesday Luncheon Club Meets With Mrs. R. L. Blunden

Roses were house flowers when Mrs. R. L. Blunden was hostess to the Wednesday Luncheon Club at her home, 2011 W. Brunson, Wednesday at one o'clock.

Guests were seated at small tables for the luncheon.

After the service hour, two tables of bridge provided diversion for the group.

Mrs. J. H. Adkison was a guest. Club members present were: Mmes. Preston Bridgewater, Prentice F. Brown, W. B. Collins, Ralph Cooley, Bruce McKague, Vaughn Maley, and the hostess.

Mrs. Bridgewater will entertain the club at its next meeting.

DECLARES IRAN ARMY WILL NOT MOBILIZE

LONDON. (AP.) — An authoritative source said Thursday there was "absolutely no confirmation" of a report from Simla, India, that complete mobilization of the Iranian army had been ordered. This source said the British still were in communication with their envoy in Teheran.

Mrs. Robert Cox Compliments Her Sister At Party

Mrs. Robert Cox, 1907 W. Texas, was hostess for a breakfast-bridge, at 8:30 o'clock Wednesday morning, honoring her sister, Mrs. James S. Breed of Washington, D.C.

Bouquets of blue morning glories centered the quartet tables at which breakfast was served.

Zinnias and golden glow were used in other decorative arrange-

ANTI-COMMUNIST COURT GIVES DEATH SENTENCE

PARIS, German-Occupied France (AP.) — A special Paris Anti-Communist court handed down Wednesday the first death sentence of its secret session just beginning, condemning Abraham Trzubcki to die before a firing squad.

Table cuts in the bridge games went to Mrs. B. Guthrie and to the honoree. High score was held by Mrs. John Skinner and low by Mrs. Wallace Ford.

Present were: Mrs. Breed, Mmes. James R. Day, Ford, Joseph Mims, Skinner, Guthrie, R. M. Jones, R. Chanslor, and the hostess.

Stakes Prestige On U. S. Tanker Issue

TOKYO. (AP.)—The possibility that Japan will stake her whole Far Eastern prestige on the issue of United States tankers carrying gasoline and oil to Russia's Vladivostok was reflected Thursday in the important newspaper Nichi Nichi.

"It is not a mere problem of oil shipments—it is a tremendous problem which means the success or failure of our international diplomacy," the paper asserted.

Japan has made representations to both the United States and Russia against these shipments, contend-

Officials Resume Work In Preparing For Fair

DALLAS (AP) — Work was resumed Thursday in preparation for the State Fair in October after union labor and fair officials had composed differences that led to a walkout.

Basis of the agreement was not disclosed aside from an announcement Wednesday night by Roy Ruppard, fair secretary, that "it was just a misunderstanding. Everything is cleared up now, and work will go on exactly as it did before."

ing their passage close to Japanese territory is causing disquiet and anxiety in Japan.

Newspapers Again Are Selected By Calumet

Calumet baking powder, a top ranking product, has returned to newspaper columns for its advertising.

This General Foods product which has been out of the newspapers for years is one of the outstanding baking powders on the market and preferred by many expert cooks.

Calumet's new newspaper advertising schedule begins Thursday in The Reporter-Telegram which is among a limited number of Texas newspapers to receive the copy.

Interesting comments by Kate Smith, star of radio, will be featured in the Calumet advertising.

Start your holiday with a shopping trip to our modern market for fine foods for a feast or a frolic. You'll find oceans of values on which to save savings. The more you buy, the more you'll save because every price is a low price at Wes-Tex.

Independents Win Second Half Crown

Hustling Softball Club Turns In Thrilling 6 To 4 Victory Beating Texas Company In Vital Loop Game

By Tanner Laine

"A team that won't be beat can't be beat!" Shorthanded and crippled, the Independents played great softball Monday night and beat The Texas Company 6-4 to win the second half flag of the city league.

The Indies started the tilt with nine players and played with eight when Shorty O'Neal was injured and went out in the fourth inning.

Hustling all the way they nicked Starting Twirler Bizzell of Texas for three runs in the second and got one in that frame from Pace, who relieved him. In the sixth two more were added by Inman and Deax, who played a whale of a game.

The Texans got two in the third. Cagial walked and advanced on Pace's double. He stole home and Pace came in on a sacrifice by Jones. They tied it up in the sixth. Jones led off with a double. Beatty and Cummings made out. Cagial scored. Jones, Anderson poled a double scoring Hart, but Roberts grounded out to retire the side.

Opportunity Fades
Definitely the Independents were in the groove. They executed several sparkling double plays to nip Texas threats. Deax, third baseman, was a standout fielding performer, handling nine chances with only one mis-throw. His bullet-like pegs to first robbed Texas of several hits.

It was a battle. Texas was never whipped and saw a golden opportunity to tie or win the tilt go fading in the first half of the seventh when Walker, attempting to steal home, was tabbed by Critics at the plate. With Cagial on base, Pace flew out to center and E. Bizzell grounded out. Dalberry to Watson. "Rulebook" Watson turned in a fine fielding game for the Independents.

The battle closed a torrid second-half chase which had seen Mackey Motors, Independents and Texas out in front. But the Independents were best Wednesday night and Texas admitted it. The winner earned the right to engage Mackey Motors, first half champs, in a playoff, under study by league officials.

Former Bulldog Stars Train With West As All-Star Game Nears

Midland high exes—Windell Williams and Maurice Bratton—are in the thick of training chores for the fourth annual Oil Bowl all-star game at Wichita Falls.

Pictures in Wichita newspapers of the two squads, North and West all-stars, show Williams, back, and Bratton, end, as husky as the others on the West crew.

Coach Jess Neeley of Rice, who is tutoring the North team, hints at a razzle-dazzle offense featuring Wilde of Graham and Johnnie Collins of Olney, Mentor Morley Jennings of the West, who is assisted by Bull Lynch of Amarillo, may resort to a power running attack with such backs as Leate Jackson, Lubbock, and Williams, Midland, in the van.

Drills opened Monday and the tilt between the teams is slated next Monday night. Ten thousand persons are expected.

Billy Hogan, Odessa's great little triple-threat, has impressed coaches with his unorthodox heaves added to some fancy running.

MIDLAND SOLDIER GETS PROMOTION

Vann B. Mitchell, stationed with the air force at Will Rogers Air Base at Oklahoma City, has been promoted to the rank of corporal. He is the son of Mr. and Mrs. J. Homer Epley.

TO COLEMAN

Tom Sealy was to leave Midland Thursday for Coleman to visit relatives. Her husband will join her there for the weekend.

Southern Icers Defeat Champs By 16-7 Count

Southern Ice slammed a 16-7 decision on the league champions, John P. Howe, Wednesday night to close the season in the feminine city league circuit.

The hard hitting Icers utilized lax moments of the champs for every advantage in the slow fracos. Howe's hearts weren't in it. Assured of the title, they failed to steam up when the heavy artillery of Southern Ice began firing.

Ware, Icer shortstop and cream of the league, hit a homer and got four for five. J. Martin, of the Martin sisters hit duo, slugged a three-bagger. Smallwood, the only Howe lassie to get fired up, poked a homer for her team. Choate, Howe brunette second-sacker, hit a double.

Icers Get 18 Hits
Southern jumped on Murphy, Howe pitcher, for 18 hits and her team mates' fielding was sluggish at vantage points. The Icers with Ware, Nalley, Johnson, J. Martin, C. Martin, and Scott in the van scored in every inning, getting big results in the second and third frames.

Howe's waited until the sixth and seventh to show anything, amassing four tallies in the sixth and two in the seventh.

Chicago Bears Tackle Harmon And All-Stars

CHICAGO (AP)—This is the night the Chicago Bears find out what kind of business they can do with Tom Harmon and company. It's the eighth annual battle of college all-stars and professional football champions in Soldier Field.

All 93,200 tickets have been sold and 5,000 service men will be admitted free to the game and the colorful ceremonies beforehand.

The Bears are seeking to make it three victories in a row for the pros over the stars. The New York Giants having taken the 1939 game, 9 to 0, and the Green Bay Packers the 1940 contest, 45 to 28. This year, however, the collegians have as great a backfield as any previous all-star squad, and with a great pair of ends in Dave Rankin of Purdue and Ed Rucinski of Indiana they present a formidable air attack.

The grim battle between the Fort Worth Cats and the Dallas Rebels for the right to take part in the Shaughnessy playoff was a standoff Wednesday night.

Both teams lost, the Rebels a doubleheader 7-2 and 6-5 to the Houston Buffs and the Cats to the last-place San Antonio Missions 8 to 4. Only the first four Texas League teams are eligible for the playoff, and Dallas occupies the fourth spot only three games ahead of the always hungry Fort Worth crew.

One of the largest crowds of the season, guests of a bottling concern, assembled to watch the Missions spill the Cats. The victory set the stage for the decisive contest of the three-game series Thursday night, the last home game of the season for San Antonio.

The Shaughnessy Sports continued to slow down the hustling Tulsa Oilers by handing them the second straight shutout, winning 2-0 before home fans.

Oklahoma City split a doubleheader with the Exporters at Beaumont in an afternoon game, the Indians losing 11-4 in the opener and winning 8-2 in the afterpiece.

Humble Oil & Refining Company No. 1 Ellwood, slated to test the Ordovician in Southern Mitchell County, is drilling past 2,958 feet in lime streaked with shale.

Amerada Petroleum Corporation No. 1-B J. S. Todd estate, opening Crockett County's first Ordovician pool, swabbed and flowed 33 barrels of oil in 20 hours on last gauge after initial acid treatment of 2,000 gallons. It was re-treated with 6,000 gallons and is swabbing out acid load and a 35-barrel oil flush.

The well topped the Ellenburger at 6,202 feet and is producing through 150 gun-perforations in 5 1/2-inch casing from 6,202-52 feet. Total depth is 6,255 feet, plugged back from total depth of 6,300. It is one mile northwest of the Todd Pennsylvania pool.

Lubbock Well Heads.
L. C. Harrison et al No. 1 Nairn estate, Central Lubbock County pool opener, headed circulating oil for 40 minutes Wednesday after operators had resumed cleaning out with bit on tubing. Early Friday they were cleaning out 16 feet off bottom, employing reverse-circulation. The well has been shot with 460 quarts from 4,884 to 5,002 feet, total depth. Shooting increased both gas and oil.

Sports Roundup

By Sid Feder (Pinch-Hitting for Eddie Brietz)
NEW YORK.—Scoop-whoopie: If Georgie Abrams looks good against NBA Middleweight Champ Tony Zale Sept. 12 in Madison Square Garden, they'll tangle for Tony's title later in Chicago. . . The winner to meet the guy who finishes on top in the Billy Soose-Ken Overlin fuss, thereby settling all the middleweight mess. . . No matter what they tell you, Whirlaway's next start will be in the Lawrence Realization at Belmont this fall. . . Red Barber and Bob Elson, those silver tongues of the Brooklyn and Chicago ball parks, will team up on the world series broadcast again this year.

Hit-and-Run
Eddie Joost has other National Leaguers in stitches these days wearing sun glasses to play the infield. . . The word is Shorter Lusky took one look at his material at Oklahoma and everything is rusty now. . . Submarines at the New London (Conn.) base may torpedo the Yale-Harvard Regatta right out of the Thames next year. . . which is one way to stop the Elfish losing streak, anyway. . . Oddity: Four Ray horses won in one day at Agua Caliente recently. . . Which is like saying Lefty Gomez hit three homers in one game. . . Nat Fleischer, the Ring Magazine publisher who is just back from a refereeing job in Canada, will keep his bag packed and hop for Albuquerque to do the same thing at the army championships there Sept. 15-18. . . Six champs from all over the Southwest are sending teams.

Headline: Charley Root wins 200th big league pitching victory. Old Charley Root's passing cigars. Because he's very happy. All the kids pat his arm and brag: "He's our very own Granpappy."

Prediction: Freddie Hope, the Louisville and Columbus colt, will be featherweight champ in a year if he can get the guys on top to fight him. . . Has 44 straight wins, 21 by kavo. . . Vol. 1, Sept. 1, of football's vital statistics for the year: Auburn's gridgers will travel exactly 4,374 mile (count 'em) in eight games away from home this year. . . Ray Mack celebrates his 25th birthday Sunday toiling in the Indian infield. . . Bill Diemer reports in the Washington Star that Tackle Fred Davis, who used to bounce 'em around for 'Bama, is the only rookie worth more than a quarter to show so far at the Washington Redskins training base. . . And we'll take the Chicago Bears by two touchdowns over the all-stars tonight.

Today's Guest Star
Jerry Mitchell, New York Post: "Asked why they have more trouble than American League umpires, a National League umpire said: "In the American League you have only one Jimmy Dykes; in the National you have six or seven."

Ward, stout-hearted Spokane star who won the 1939, blazed his way to two triumphs Wednesday to become the only ex-titholder still in the running. With a performance bulwarking his position as favorite, Ward downed Alex Welsh of Rockford, Ill. 7 and 6, then whipped Otto Greiner of Baltimore, 2 and 1.

World Champs' Chances Of Climbing Into First Place Soon Flitter As Brooklyn Nails 4-2 Defeat On Reds

The desperate hopes of the Cincinnati Reds for a miracle that would return them to a third straight world series have been engulfed in the slow tide that seems to be carrying the Brooklyn Dodgers on its crest.

They had their best and perhaps last chance to break into the thick of the National League pennant scramble Wednesday night and failed, as Kirby Higbe whipped Johnny Vander Meer 4-2 before 30,000 fans at Ebbets Field.

It was an important triumph for the Dodgers, preserving their game and a half margin over the St. Louis Cardinals, who beat the New York Giants in another night game 8-5.

But it was even more important for the Reds. They had won 16 of their last 20 games in a great late-summer surge and would have moved within 7 1/2 games of first place if they had won.

However, their loss dropped them to 9 1/2 games behind Brooklyn and 8 back of St. Louis, and proved to Midland. Penny Mertz also was returned before the camp ended.

Dow directed calisthenics for the gridgers.

Coach Clark was one of the casualties of the camp with a sprained knee. H. C. Bedford, returned to Midland. Penny Mertz also was returned before the camp ended.

lines, and may become the chief route for supplies from America and other sources.

C. & R. Executives Attend Meeting

All foremen, supervisors and superintendents of Cage Brothers and F. M. Reeves and Sons, contractors for construction of the Advanced Twin Engine and Bombardier Training Center, met at Hotel Schaubauer Wednesday night to discuss problems of the project.

O. K. Johnson, project manager, said similar meetings of a round table nature, will be held each Wednesday night during the construction program to study problems of the work and coordinate departments.

Speakers at the meeting included F. M. (Cap.) Reeves, Johnson, E. D. Park, assistant project manager, F. L. DeFord, safety engineer, and Howard Carter, U. S. Engineers safety engineer.

More than 75 executives of the general contractors attend the meetings.

Officers Probe Blaze At Plant

SAN JOSE, Calif. (AP)—A brief, fierce fire in the new \$12,000,000 magnesium plant at Monte Vista early Thursday burned five men working on a new experimental process, three of them seriously.

FBI agents began an immediate investigation at the plant which started producing the vital defense metal only Monday. Ralph Knight, chief engineer for the Henry J. Kaiser interests which own the plant, said a preliminary investigation did not indicate whether the fire was accidental or deliberately set.

Damage to the plant, which is expected to treble America's magnesium production, was negligible.

Minnesota Has Good Prospects

MINNEAPOLIS, Minn. (UP) — Minnesota, 1940's mythical national football champion, will send another powerful team into the 1941 campaign.

Even Coach Bernie Bierman is optimistic.

"We're going to have a good team," he says.

A host of returning veterans and reserves is expected to give Minnesota a line stronger than last year and a starting backfield equally as good.

Bierman's main worry is a shortage of halfbacks, but losses caused by the draft and ineligibilities are expected to be slight.

Twenty-four lettermen are scheduled to report for duty in September. Six were regulars last season and seven others were second-stringers.

Bruce Smith, who is being groomed for All-American honors, promises to be the Gophers' backfield ace. He was Minnesota's leading ground gainer in 1940 and shared honors with George Franck, All-American halfback, who was the biggest graduation loss.

IOWA TURNS TO SOYBEANS

DES MOINES, Ia. (UP) — Iowa, The No. 1 hog and corn state, is running into competition from Iowa the No. 2 soybean state. Hog men concede that soybean oil is "permanently in the picture" as a major competitor of lard in the frying pans and ovens of America.

Tommy and Turks

This Anglo-Turkish conference took place on the border between British-held Syria and Turkey, where British soldier on patrol showed off his armored car to three Turk troops.

Up-to-date football fields of the future will have electric eyes to record field goals, it is predicted.

Library Receives 2 Millions For Culture

WASHINGTON (UP) — The Library of Congress has received endowments from private individuals totaling almost \$2,000,000 for developing its collections or promoting cultural activities not within the scope of congressional appropriations.

The library listed 16 different endowments which have been received since creation of its Trust Fund Board in 1925, six of which have total face values of more than \$100,000. The total anticipated yearly income from all of the funds is set at \$58,630.

The largest bequest administered by the board is that of Joseph Pennell, totaling \$329,865, for the purchase of material to be added to the Pennell collections of fine prints. Prior to the creation of the board, Mrs. Elizabeth Sprague Coolidge presented the library with an endowment of more than \$40,000.

Indians Hopes Rise With Field General

STANFORD UNIVERSITY, Cal. (UP) — Frankie Albert, 1940 All-American quarterback, drew a number far down in the list in the second draft registration this year and Stanford's 1941 football hopes rose accordingly.

Albert, pitched, ran, and master-minded Stanford's 1940 team into an undefeated season and a Rose Bowl victory over Nebraska. He had help, of course, but it was his skill, daring, and inspiration in applying Clark Shaughnessy's version of the old "T" formation which made Stanford a winner.

U. S. Mints Operate Seven Days Per Week

SAN FRANCISCO (UP) — With demands for coin and ready currency greater than at any other time in the history of the United States, every mint is working 24 hours a day and seven days a week, according to Nellie Tayloe Ross, director of the U. S. Mint.

She came recently to San Francisco from Washington to make certain there was no lagging in efforts of the San Francisco mint to give the public all the ready currency it is demanding.

"The defense program has greatly augmented the demand for coin," she explained. Everyone is working, there is more money to spend and everyone is spending it freely. We are taxed to keep up adequate production and have put the mints on a regular national defense work-day basis.

"The inauguration of sales taxes throughout the nation really started the increased demand for subsidiary and minor coins."

Graduation and the draft hurt Stanford little. Two good backs were graduated and a few reserves were called to the colors or enlisted without waiting for conscription.

But Stanford has Albert back, and with him slippery Pete Knechtel, Chuck Taylor, W. Lindskog, Bruno Banducci, Ed Stamm, Mill Vuetchin and other heroes of 1940. Shaughnessy's big job is to find replacements for Norm Standlee at fullback and Hugh Gallareau at right half.

He'll Like This Dinner

This business man's family keeps fit with a meal of creamed soup, lamb chops and vegetables, lettuce salad, fresh fruit, coffee.

By Mrs. Gaynor Maddox, NEA Service Staff Writer. Every housewife can do her part in national defense by properly feeding her family, and it's a wise wife who borrows the "Nutrition Yardstick" the list of proper daily foods approved by dietitians at a recent conference in Washington, for her own family.

It's a wiser housewife, though who recognizes the specific needs of her family and husband and organizes their diet to conform with their activities and occupation. The wife of a business man who sits at a desk needn't feed him like a laborer, yet a sedentary job demands a complete balanced diet.

The average business man needs only 2000 to 2400 calories a day, but the nervous energy spent on his job destroys the body tissues as would muscular labor and they have to be replenished with food, particularly the complete proteins found in meat, fowl and fish. Thus, even an office worker can use meat once or twice a day as part of a well-balanced diet.

Extension Of Draft To Raise Enrollment

CHICAGO (UP) — The extension of the draft to two and a half years probably will increase enrollment of the nation's colleges this year, Dr. William H. Kilpatrick of Northwestern University believes.

Kilpatrick urged boys who have considered postponing their education to do so no longer because of the need for faster and better thinking citizens to prevent the maladies of Europe from overcoming the nation.

"Problems have been surging forward at an increasingly rapid rate," he said. "Each additional problem constitutes an additional strain on the minds of all. If we can't get citizens to think more clearly about these new difficulties, we may not survive."

Parachute Troops Use Grid Helmets

EVANSTON, Ill. (UP) — Army parachute jumpers soon will know how a Northwestern University fullback feels when he lands on his head.

The army has adopted the Marten-looking headgear which the Northwestern football team introduced last fall. Parachute troops in training at Fort Benning, Ga., have started to use them.

Made of tough plastic called tenite, the helmet has proved lighter than the old leather head-piece and more durable. It also provides the wearer with greater ventilation.

New under-arm Cream Deodorant Stops Perspiration

- 1. Does not rot dresses or men's shirts. Does not irritate skin.
- 2. No waiting to dry. Can be used right after shaving.
- 3. Instantly stops perspiration for 1 to 3 days. Removes odor from perspiration.
- 4. A pure, white, greasless, stainless vanishing cream.
- 5. Arrid has been awarded the Approval Seal of the American Institute of Laundering for being harmless to fabrics.

ARRID is the LARGEST SELLING DEODORANT. Try a jar today!

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, do not just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints of urine daily.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood, these poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Fresh Vegetables Deserve Double Serving Daily

By Mrs. Gaynor Maddox, NEA Service Staff Writer.

During the open season for fresh vegetables, serve them twice a day. There's health and good eating and economy in that advice.

KOHL-RABI IN CREAM

(Serves 4 to 6)

Three bunches kohlrabi, water to cover, 1 teaspoon salt, 1/4 cup cream or top milk, 2 tablespoons butter, paprika and pepper.

Peel and cut kohlrabi in cubes; cook uncovered until tender in boiling salted water to cover. Drain. Add cream, butter and pepper. Heat just to boiling and serve decorated with paprika.

CABBAGE AND GREEN APPLE SALAD

(Serves 4 to 6)

One-half head cabbage, 1 carrot, 1 green apple, 4 radishes, lettuce, 1/4 teaspoon salt, salad dressing or mayonnaise.

Shred cabbage and carrot, chop apple and radishes. Season and mix with salad dressing or mayonnaise. Serve in lettuce cups. This makes a good stuffing for raw tomato salad.

BAKED TOMATOES

(Serves 4)

Four medium tomatoes, 1 cup soft bread crumbs, 1/8 teaspoon pepper, 3/4 teaspoon salt, 1 1/2 tablespoons melted bacon fat.

Cut a piece from stem end of each tomato. Remove pulp without breaking the walls. Make a stuffing of the tomato pulp, bread crumbs, seasoning and melted fat. Mix well. Sprinkle the inside of each tomato with salt and pepper and fill with stuffing, packing solidly.

Place in a baking dish, dot with butter and bake in moderate oven (350 degrees F.) 30 minutes.

FRIED TOMATOES

Cut firm tomatoes into slices about 1/2 inch thick. Leave the skin on. Beat an egg with 1 tablespoon cold water. Dip the tomato slices into the egg, roll in fine bread crumbs, which have been seasoned with salt and pepper, and stand for about 15 minutes. Cook tomatoes slowly in hot fat until browned. Serve at once garnished with parsley.

MENU

BREAKFAST: Stewed prunes in orange juice, oatmeal muffins, apple butter, coffee, milk.

LUNCHEON: Fried tomatoes with scrambled eggs, hard rolls, sliced peaches, cookies, tea, milk.

DINNER: Liver and bacon, French fried potatoes, kohlrabi in cream, romaine salad, blueberry pie, cheese, coffee, milk.

Save On Clothes—Spend Time On Grooming

By Alicia Hart, NEA Service Staff Writer.

With the cost of fabrics and of ready-to-wear clothes rising steadily, the beauty-minded woman renews her attention to sound rules for making less expensive clothes look like expensive ones. It can be done—perfectly groomed career girls can tell you.

There's the matter of having your clothes fitted by an expert, for instance. Any smart woman will agree that a ten-dollar dress that really fits will be twice as flattering and look worth twice as much money as will a twenty-dollar dress that is too loose at the waistline or too tight across the hips.

Correct posture assumes new importance, too. If you stand tall and straight with stomach in, chest high and backbone in as straight a line as possible, your clothes will look more expensive than they will if you slump.

ACCESSORIES AID THAT EXPENSIVE LOOK

Furthermore, if you replace lifts on heels as often as necessary, keep white collars and white gloves immaculately white and remember to press your top coats and your skirts a little more often, your wardrobe will seem more expensive than it actually is.

Also, remember that it often is better to economize on dresses than on accessories. When it comes to having to make a choice, pay a little more for shoes, gloves, hats and less for dresses rather than the other way around. Good accessories can do wonders for a closet full of cheaper dresses.

Remember that a smartly made up face, trim hands and a shining, interesting coiffure are number one rules. You may have to wear less expensive clothes next fall and winter, but nobody will notice if your face, hair and hands are so lovely that attention is focused on them instead of your clothes.

Navy Offers Skilled Trades To Enlistees For U. S. Defense

WASHINGTON (UP) — The Navy's slogan "Join the Navy and See the World" has been stilled, the emphasis placed on the advantages of learning a skilled trade, and the results are excellent, Capt. F. E. M. Whiting reports.

A campaign is under way in three Middle Western states to impress potential recruits with the fact that the navy will teach them a trade they can use to advantage if, and when, they return to civilian life, he said.

"The present drive," Whiting said, "is centered in Indiana, Missouri and Iowa and has jumped enlistments way above the normal average for this time of the year."

"At the present rate about 10,600 men a month are joining the navy and by the end of the year we expect to enlist a monthly average of 12,000," the normal average last year was about 8,000 a month.

Canada To Train Youths For RCAF

MONTREAL, (UP)—Canada is raising an army of youths for careers in aviation.
Operating under the patronage of the Earl of Athlone, Governor-General of Canada, and supported financially by the government, the Air Cadet League of Canada is forming units in all parts of the Dominion to train at least 25,000 youths between the ages of 12 to 18 for possible service in the Royal Canadian Air Force or in the field of civil aviation.
The league, patterned after the Air Defense Cadet Corps in Great Britain from which the Royal Air Force draws many of its recruits, will train boys in administration, aero engines, aircraft recognition, airframes, airmanship, armament, drill, first aid, knot and splices, maps and map reading, mathematics, model building, physical training, signals and the theory of flight.
Organization of the units is almost complete in British Columbia, Alberta, Saskatchewan, Manitoba, Ontario and Quebec, and units in the other provinces will be formed soon.

EXPERT ON LIGHTNING OFFERS SAFETY ADVICE
PITTSBURGH, Pa. (UP)—It's a good idea to get in out of the rain if you want to avoid being struck by lightning, a research engineer advises.
This word of warning comes from Dr. P. L. Bellaschi, who knows as lightning. Dr. Bellaschi has made some 400,000 strokes of lightning in his laboratory here to study its characteristics and effects on power lines and people.
When rain comes, he advises: Find shelter immediately — any house or barn will do. Stay away from swimming pools, beaches, trees, golf courses, poles, bicycles, horses, open machines or any sky-projecting objects.

Hoppers Whoppers on Prairie
CAMP SCARCEE, Alta. (UP)—There are many stories about prairie grasshoppers, but the ones being told in Camp Scarcee these days top them all. Soldiers tell of being kicked out of bed by big hoppers looking for a place to sleep.

U. S. Makes Nation's Larder New Defense Arsenal

President Mobilizes Nutrition Experts To Condition Americans

By Gaynor Maddox
NEA Service Food & Market Editor
WASHINGTON—Food won the last war. Food is going to win this one.

Stamina, competence, better morale, toughness of body, greater strength of mind—all these essentials of national defense depend on what we eat.
Airplanes and more airplanes. Yes, but how about the boys who fly them, the draftsmen who design them, the stalwarts who build them at breakneck speed? The science of nutrition is about as old as the science of aviation. But until the skies grew dark over a hungry world, we haven't been willing to put our nutritional knowledge to work.
It was vitally significant therefore that the President recently called to Washington over 500 leading nutritional scientists, home economics experts, educators, food manufacturers and food growers from every section of the U. S. for the National Nutrition Conference.
He asked them for a plan of nutritional national defense. They pooled their best scientific knowledge and working experience and drew up a plan to put every American man, woman and child on a gold standard for nutrition. Stated simply: "Better eats for all Americans."

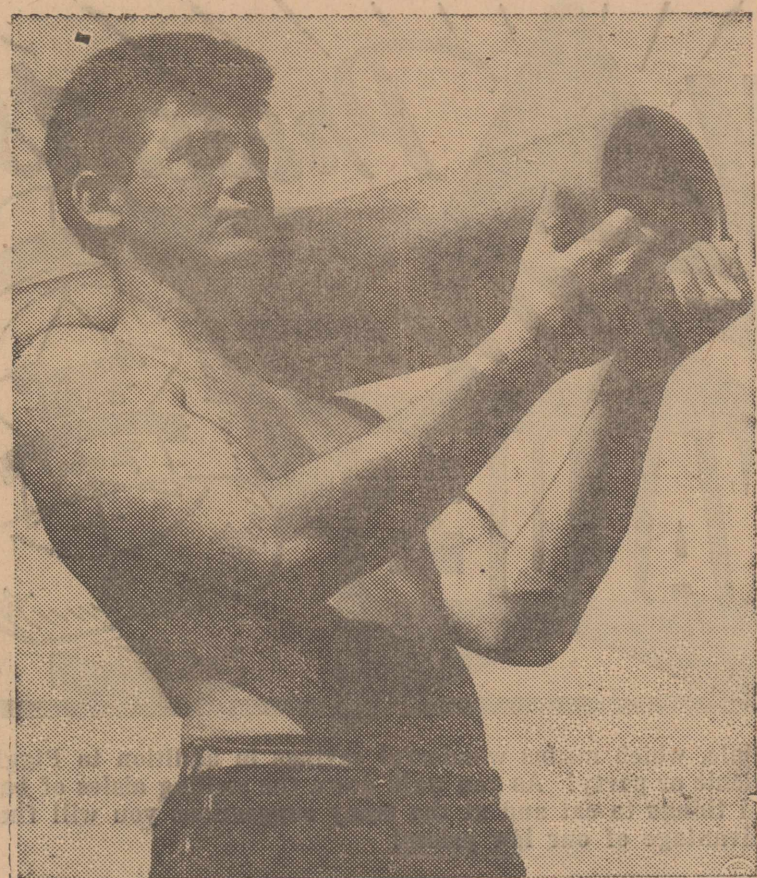

IN THE SPRING A YOUNG MAN'S FANCY...
America has been one of the last nations to recognize the importance of balancing the national diet. The Germans began as early as 1934 to educate their people to adjust their diet gradually and in advance to wartime food conditions.
In 1936 the nutrition experts in the German War Ministry made large-scale inquiries into the food consumption of heavy manual workers. They studied how to get the maximum efficiency out of workers on wartime food supplies, and today's civilian rations in Germany are largely based on this experience.
In the light of the experiences of Germany and Britain with food as a weapon, America starts its nutritional rearmament as badly off as it started its airplane rearmament. Over 40 per cent of our young men called up for the draft were rejected for physical defects. An overwhelming number of these were caused directly or indirectly by malnutrition.

Dr. Hazel K. Stiebelin, senior food economist of the Bureau of Home Economics in Washington, told the Nutrition Conference that 35 per cent of America's families are living on poor diets. Another 38 per cent are living on "fair" diets—on the borderline without any reserve energy for extra work or extra emotional disturbances. Only 27 per cent are living on "good" diets—on "food rich" America is fed a "good diet."

A basic study of social needs published by the Texas Welfare Association in November, 1940, adds these footnotes to the American myth that everyone is well fed. In one East Texas county where surplus commodities is the only assistance given to "unemployables" and the unemployed alike, the health officer estimated that "205 deaths in this county in 1938 were hastened by lack of sufficient amount and balanced diets."
ARE WE WELL FED? NO!
In a South Texas county the local health officer said: "100 per cent of the cases that have come to my attention in the past year have been complicated by malnutrition." That's only part of one report from Texas. And there are 47 other states on our nutritional map.

America has so-called food surpluses. We have a staggering surplus of wheat. Yet, Dr. Stiebelin estimates that our economic surpluses notwithstanding, we must devote 40 million more acres than we do today to the production of protective foods. She believes that we must consume at least 10 to 20 per cent more milk, 10 to 25 per cent more butter, and 25 to 70 per cent more tomatoes and citrus fruits and about twice as much leafy, green and yellow vegetables.

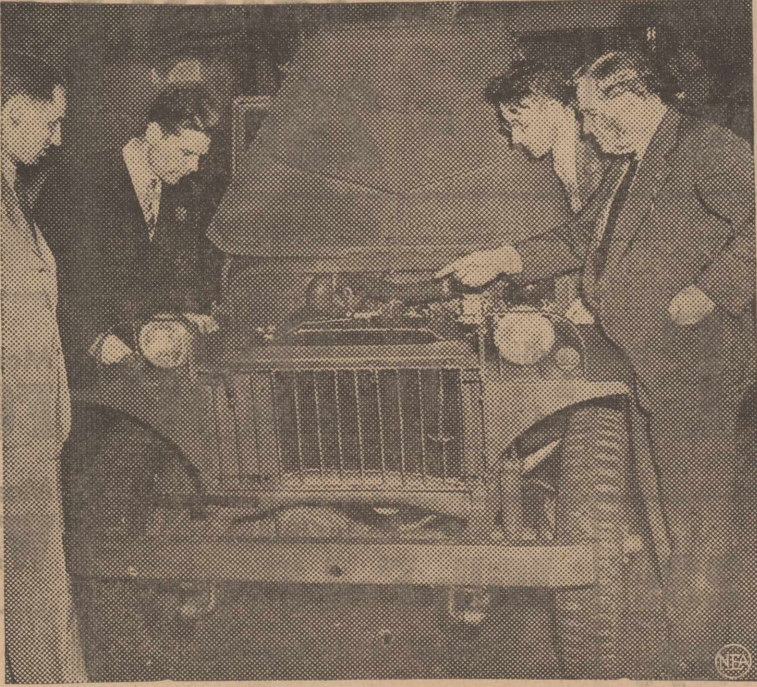

Surgeon General Parran also blows cold on our myth of being a well fed nation. "To give all of us what we need nutritionally, we should increase by nearly 50 per cent our national production of milk and milk products," he says. "One of our most valuable foods—dried skim milk—now is largely used for poultry and stock feed. We have given our livestock the best part of many foods."
Malnutrition may well become America's Quisling. The cure for malnutrition is good food and plenty of it. The priority question then in our breakneck program of defense is: Are we well fed? The answer is NO. That is why the National Nutrition Conference was called and why it drew up a nutritional gold standard.

"Stamina, competence, better morale, toughness of body, greater strength of mind—all these essentials of national defense depend on what we eat."

The answer is NO. That is why the National Nutrition Conference was called and why it drew up a nutritional gold standard.

Russian Buyers Get Jeep Dope

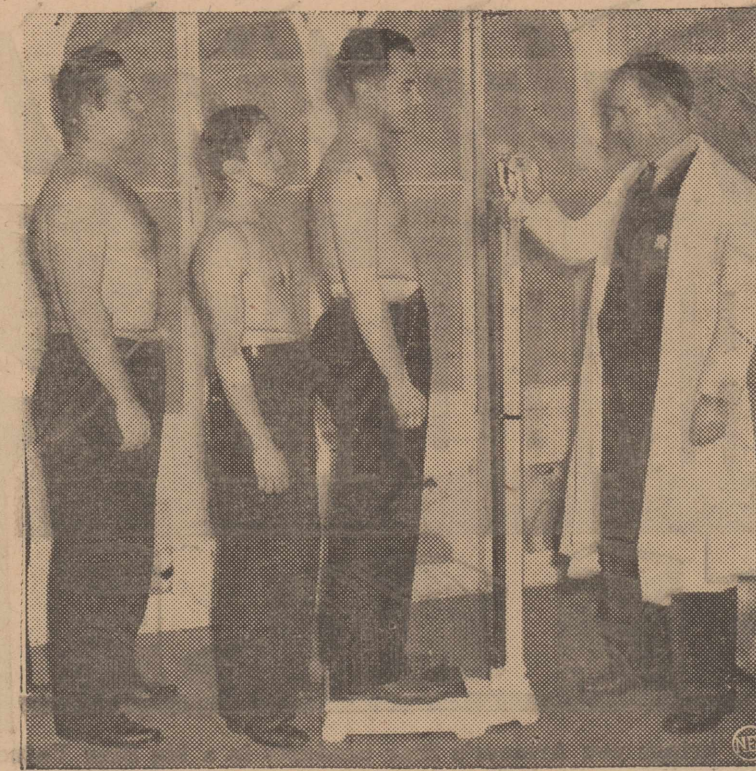

Insides of the Army's diminutive jeep are given an airing for benefit of three Russian purchasing agents, in Washington to talk on aid to the Soviet. Former Senator Smith Brookhart of Iowa, right, explains the car to Col. I. Sarayev, left, Major Barabchenkov and Major P. Sarayev.

Texas Industry Shows Activity

By The Associated Press
During the more than 12 months of its National Defense effort, Texas has seen not only its primary natural resource, oil, but practically every other product and industry utilized.
The years of 1940-41 may be known in Texas economic history as the Era of Anxious Waiting. To producers and processors of some resources, National Defense brought prosperity; to others problems; to all, anticipation vaped with apprehension.
Texas industry, as a whole, did not suffer.
The University of Texas Bureau of Business Research reported a \$6,500,000 increase in building permits the past five months of 1941. Bureau Statistician F. A. Buechel believed residential construction at least met that of 1940.
Internal revenue tax collections increased \$42,000,000.
Agricultural income from the same periods increased 23 per cent. Department store sales increased 10.8 per cent.
Automobile sales for May were 44.6 per cent higher than the same month last year.
Employment gained 7.7 points. Payrolls increased 16.3 points. Car-loadings of miscellaneous freight increased 16.9 points, and runs of crude oil to refinery stills was 8.7 points higher.

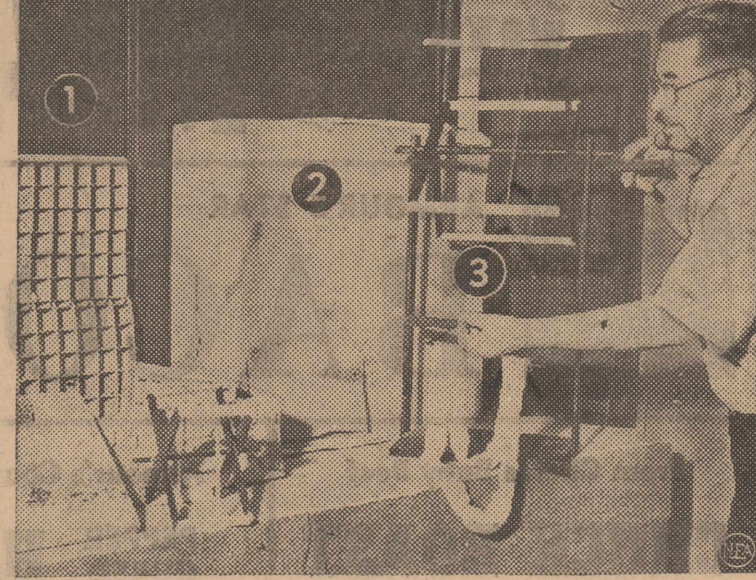

Scientists Experiment To Aid Metal Shortage

COLUMBUS, O. (UP)—A dozen years of labor and experiment by research scientists at Battelle Memorial Institute in Columbus holds national significance in the drive to relieve a growing metal shortage which soon will be felt by consumers in every phase of American life.
Attention was called to work of Battelle's staff of 175 technicians when the Office of Production Management recommended to the War Department operation of an aluminum plant at Tacoma, Wash. Production of aluminum is planned at the proposed plant from alunite—a gray-white mineral never before used in quantity production of the important metal.
It was at Battelle that alunite was studied as a possible aluminum source, and research experts of the institute were first to convert the mineral into metallic aluminum.

These lads are husky enough, but much too large a proportion of the young men of America called in the draft were rejected for physical defects—caused directly or indirectly by malnutrition.

Grow Your Own Stockings

Solution to silk shortage offered by William Vandrasek of Chicago is to grow your own. Process begins in cardboard box incubator (1) where eggs are hatched into silkworms. These are placed in egg crate compartments (2) to feed on mulberry leaves and make cocoons. Then Vandrasek unwinds cocoons and reels up skein of silk (3) formed by 110 of them.

Boy Receives Bike For Charitable Act

ALBUQUERQUE, N. M. (UP)—Ever since he was a little fellow Billie Harris, 9, had collected aluminum to sell to buy a bicycle.
Then along came the national defense program and its resultant aluminum collection drive.
Without hesitation, Billie did the patriotic thing. He gave all his aluminum—100 pounds of it—to the city. For the time being, he would forget the bike.
So, one morning when Billie was working in his mother's tomato patch, a police car drew up and took the boy to the city hall. The patrolmen escorted him straight to the mayor's office.
"Come in, son," said the mayor. "What did you think when the police car picked you up?" asked his honor. "You hadn't been doing anything bad."
Pointing to a shiny bicycle in the corner of his office, Tingley continued, "Think it'll fit you?" Billie beamed. He climbed on. "Not too big. Not too little. It's just right, sir."

Negro Woman Waits On Journalism Study

JEFFERSON CITY, Mo. (UP)—Lucille Bluford, Kansas City negro newspaper woman who carried a fight for entrance to the University of Missouri through state and federal courts, must wait at least another seven months to get advanced journalism courses she has demanded.
An opinion written by the attorney general's office holds that Lincoln University for Negroes here cannot be expected to establish the courses before Feb. 1, 1942.
The state supreme court held in July that Miss Bluford would have to be admitted to the university journalism school if Lincoln University did not establish a course "within a reasonable time."

Clamp Brakes On Wheels Of Justice

LANSING, (UP)—Nearly 300 acts of the 61st Michigan legislature will be kept from becoming law until Michigan's Democratic governor Murray D. Van Wagoner and the state's Republican-dominated legislature resolve their differences over a handful of vetoed measures.
The legislature had set its adjournment date for July 8. If it had completed its session on that date the acts which had not been given immediate effect would have become law Oct. 7. The Michigan constitution provides that ordinary bills shall become law three months after final adjournment of the legislature.
However, members of the legislature resented Van Wagoner's free use of the executive veto power. He used his blue pencil on 36 bills and items—more than any other recent Michigan governor.

Because a two-thirds majority to override could not be obtained in the senate, the Republicans decided to keep the legislature in technical session "because of the defense emergency."
DUBLIN, N. H. (UP)—Naturalists had the time of their lives when a goshawk was discovered nesting here.
The Smithsonian Institute sent a delegation of experts to observe the bird's nesting habits because it was the first time a goshawk was known to have raised a family outside the Arctic regions.

Purdue University Will Have Veterans

LAFAYETTE, Ind. (UP)—If experience is the great teacher, Purdue University hopes to instruct the Western Conference in the rudiments of football this fall with an aggregation of veterans boasting even more than the normal Boiler-maker speed and dash.
The ability to advance from one position to another in a short space of time applies equally to line and backfield candidates—a fact which does not displease Coach Mel Elward at all. In recent years his teams have relied heavily on outrunning the enemy.
No less than 24 major lettermen, 13 minor award winners and a group of promising sophomores head a slate of 70-odd candidates for the 1941 squad.

However, members of the legislature resented Van Wagoner's free use of the executive veto power. He used his blue pencil on 36 bills and items—more than any other recent Michigan governor.
Because a two-thirds majority to override could not be obtained in the senate, the Republicans decided to keep the legislature in technical session "because of the defense emergency."
DUBLIN, N. H. (UP)—Naturalists had the time of their lives when a goshawk was discovered nesting here.

OLD SOLDIERS GET BREAK IN ARMY DATE BUREAU
SALT LAKE CITY, Utah. (UP)—Lieut. Charles L. Schloss, morale officer for the 20th Bombardment Wing at Fort Douglas here, supervises an escort bureau, statistics of which show that, while the air corps general staff may prefer the younger soldier, the fair sex does not. Almost invariably, persons wanting an army escort request a soldier aged 28 to 30 or 30 to 40. Schloss hastens to explain that this doesn't mean the younger men are lacking feminine company. "On the contrary," he said "But they make their selections individually."
